Shasta College is accredited by the Accrediting Commission for Community and Junior Colleges of the Western Association of Schools and Colleges, 10 Commercial Blvd., Suite 204, Novato, CA 94949, TELEPHONE (415) 506-0234, FAX (415) 506-0238. Shasta College is listed as a public community college in the approved list of the Education Directory, Higher Education Part 3, published by the U.S. Office of Education.

ACCURACY STATEMENT

The Shasta-Tehama-Trinity Joint Community College District has made every reasonable effort to ensure that information in this catalog is accurate. Courses and programs that are offered, along with other matter contained herein, are subject to change without notice by Shasta College administration for reasons related to student enrollment, level of financial support, or for any other reason, at the discretion of the District. The District further reserves the right to add, amend, or repeal any of their rules, regulations, policies and procedures, consistent with applicable laws.
MISSION STATEMENT

Shasta College provides a diverse student population with open access to undergraduate educational programs and learning opportunities, thereby contributing to the social, cultural, creative, intellectual, and economic development of our communities. The District offers general education, transfer and career-technical programs, and basic skills education. Shasta College provides opportunities for students to develop critical thinking, effective communication, quantitative reasoning, information competency, community and global awareness, self-efficacy, and workplace skills. Comprehensive student services programs and community partnerships support student learning and personal development. (Board Approved 06/14/2017)

The Shasta-Tehama-Trinity Joint Community College District (“Shasta College”) does not discriminate against any person on the basis of race, color, national origin, sex, religious preference, age, disability (physical and mental), pregnancy (including pregnancy, childbirth, and medical conditions related to pregnancy or childbirth), gender identity, sexual orientation, genetics, military or veteran status or any other characteristic protected by applicable law in admission and access to, or treatment in employment, educational programs or activities at any of its campuses. Shasta College also prohibits harassment on any of these bases, including sexual harassment, as well as sexual assault, domestic violence, dating violence, and stalking.

Institutional Student Learning Outcomes

To support student success, Shasta College has identified the following Institutional Student Learning Outcomes (ISLOs).

1. Critical Thinking
   Critical thinking is the ability to comprehend, communicate, or engage in problem-solving or strategy-building techniques.

2. Information Competency
   Information competency is the ability to find, evaluate, use and communicate information in all its various formats.

3. Effective Communication
   Effective communication is the ability to effectively use written, oral and nonverbal communication.

4. Quantitative Reasoning
   Quantitative reasoning is the ability to use appropriate mathematical methods.

5. Self-Efficacy
   Self-efficacy is the confidence and ability to perform the courses of action required to effectively meet personal, social, academic and professional goals.

6. Workplace Skills
   Workplace skills provide the ability to perform effectively at work.

7. Community and Global Awareness
   Community and global awareness includes an understanding of community and global issues and cross-cultural awareness.

Board Approved 6/08/11
Welcome to Shasta College!

Shasta College serves Shasta, Tehama, and Trinity counties as a comprehensive community college offering programs in a broad range of fields of study to prepare you for new opportunities and challenges.

We at Shasta College pride ourselves on our dedication to students as our first priority. You will have the opportunity to have your own personalized education and career plan. Whether your goal is employment upon graduation or transfer to a four-year university, our desire is to accompany you on this journey and to assist you in finding your own pathway to success.

A decision to enroll at Shasta College is a wise investment of your time, talent and resources. Since 1950, thousands of successful graduates throughout Northern California and the nation are proud of being part of the Shasta College family. We welcome you to that tradition and to a wide new world of opportunities made possible through higher education.

Dr. Joe Wyse
Superintendent/President

¡Bienvenidos a Shasta College!

Shasta College atiende a los condados de Shasta, Tehama, y Trinity como un colegio de comunidad integral ofreciendo una gran variedad de programas en varios campos de estudio para prepararlo para nuevas oportunidades y desafíos.

En Shasta College, nos sentimos muy orgullosos de la dedicación brindada a nuestros estudiantes, siendo esta nuestra primera prioridad. Como estudiante usted tendrá la oportunidad de tener un plan de educación y carrera personalizado. Si su objetivo es conseguir empleo después de graduarse o transferirse a una Universidad, nuestro deseo es asistirlo y asegurarle cómo hacerlo a cada paso para conducirlo en su propio camino al éxito.

Decidir matricularse en Shasta College es una sabia inversión de su tiempo, talento y recursos. Desde 1950, miles de graduados exitosos en el norte de California y en la nación dan fe del orgullo de ser parte de la familia de Shasta College. Nosotros le damos la bienvenida a esta tradición y al nuevo mundo de oportunidades que es posible gracias a la educación superior.

Dr. Joe Wyse
Superintendente/Presidente

**FLEX Days:** 11  
**Administrative Total Working Days:** 246

All Academic Year Classified Employees must work 175 days. Please obtain Supervisor approval on annual work schedule form.
Chapter 1: Admission and Enrollment Information

Admissions

Anyone 18 years of age or older or anyone under 18 who has graduated from high school or obtained the equivalent may be admitted to Shasta College classes.

See Administrative Policy 5010 for more information.

Course Registration

ONLY OFFICIALLY REGISTERED STUDENTS MAY ATTEND CLASSES. STUDENTS WHOSE NAMES DO NOT APPEAR ON THE INSTRUCTOR’S CLASS LIST ARE NOT OFFICIALLY REGISTERED AND WILL NOT RECEIVE CREDIT OR GRADES.

APPLICATION TO SHASTA COLLEGE IS ONLINE AT WWW.CCCAPPLY.ORG AND IS A TWO-STEP PROCESS:

1. Create a CCCApply account
2. Submit the CCCApply application to Shasta College

If you cannot apply online, please reach out to the Shasta College Admissions and Records Office for assistance at 530-242-7650 or admissions@shastacollege.edu.

NEW STUDENTS: You will receive priority registration based on the completion of matriculation (steps to enrollment). Registration priority shall be lost at the first registration opportunity after a student: 1) is placed on academic and/or progress probation for two consecutive terms; or 2) has earned one hundred (100) or more degree-applicable units at Shasta College except in designated high unit majors. Returning students must also have a comprehensive education plan on file no later than the term after which the student completes 15 semester units of degree-applicable credit coursework or prior to the conclusion of their third semester.

FIRST-TIME NEW STUDENTS: You are a first-time new student if this is the first time attending college. You are required to participate in matriculation services. "Matriculating” students receive a priority registration date after completing the following steps:

1. Apply for admission to the college.
2. Complete an online orientation
3. Develop an Education Plan and determine English and math placement options.
4. Send official transcripts from high school and previous college work to the Admissions and Records Office:
   Shasta College Admissions and Records
   PO Box 496006
   Redding, CA 96049-6006

CONTINUING STUDENTS (Students currently enrolled at Shasta College): Your registration date will be sent to your email address on file or you may find your registration date and time on your MyShasta account.

RETURNING STUDENTS (Students who attended Shasta College in previous semesters but are not currently enrolled): You may find your registration date and time on your MyShasta account, or please contact the Admissions and Records Office.

TRANSFER STUDENTS (Students who have completed courses at other colleges or universities, but not Shasta College): Please contact the Admissions and Records Office for a registration date.

TYPES OF CLASSES

On-campus: Shasta College offers traditional on-campus classes at the Redding campus on Old Oregon Trail, the Health Sciences Building in downtown Redding, and at three Extended Education campuses in Red Bluff (Tehama Campus), Weaverville (Trinity Campus), and Burney (Intermountain Campus)—as well as other sites throughout the District.

Online or hybrid: Shasta College also offers fully online and hybrid (part on-campus, part online) classes at all campuses:

1. Hybrid: A hybrid class meets face-to-face for some number of instructional hours AND a portion of the required instructional hours is conducted online (normally requiring login to SC Online). Students MUST access online materials to successfully complete course requirements. Hybrid courses are listed with the days and times of actual face-to-face meetings followed by “* INTERNET.”
2. Online: A fully online class is one which requires that all class content, activities, and interaction be done online (normally requiring login to SC Online). Some instructors may include on-campus orientation, student conferences, or other on-campus events (consult the MyShasta online schedule for specific information). Students MUST access online materials to successfully complete course requirements. Fully online courses are listed as “INTERNET.” State regulations regarding enrollment in online classes may change and online classes may not be available to students residing outside California.

Tutoring and learning assistance supports are available to all students, regardless of the format of classes they are taking.

Noncredit: Classes in the 300 series (such as ESL 333) are noncredit courses. These classes are fee-free and do not count toward the grade point average.

Worksite Learning: Worksite learning classes allow students to earn credit for work or volunteer activities related to their degree. To learn more about worksite learning classes please see Chapter 5.

ADDING A CLASS: Students can add a class by using MyShasta up to the first day of class; after the first day of class, they will need to receive an “Add Authorization” from the instructor to add a class via MyShasta. Look at www.shastacollege.edu/MyShastaForStudents for details about using Add Authorizations. Students can also add themselves to a class using a Registration Form and submitting it to the Admission and Records Office; the Registration Form is available on the “Forms for Students” page of the Admissions website: www.shastacollege.edu/admissions.

After census, approval by the instructor, Dean of the Division, and the VP of Instruction is required to add the class using a Late Add Petition form. It is the student’s responsibility to gather the necessary approvals and ensure that the class is properly added with Admissions and Records. Forms are located on the Admissions forms page.

See Administrative Policy 5075 for more information.

ATTENDANCE: Students are expected to attend all classes. A student who fails to attend the first class meeting of a course without notifying the instructor may be dropped from the class. In addition, an instructor may drop a student during the first 75% of the class for non-participation. IT IS ALWAYS THE STUDENT’S RESPONSIBILITY TO OFFICIALLY DROP OR WITHDRAW from a class. Students who fail to properly drop/withdraw from a course, even if they stop attending class, will be assigned a course grade.

CLOSED CLASSES: A closed class is one which has reached its maximum enrollment. A student is allowed into a closed class if:

- The student has their name added to the class waitlist so, as enrolled students withdraw, the wait-listed student may be added to the enrollment list in the order of waitlist priority (this is called a waitlist “auto-enroll”). An e-mail to the student is automatically generated, and the student has until midnight of the date the e-mail was sent to pay the appropriate fees and achieve official enrollment status. Note: the waitlist auto-enroll only works up until the first day of class.
- The student has obtained the instructor’s permission by asking (in-person or via email) for an “Add Authorization.” The instructor verifies permission by electronically authorizing the
student so they may add themselves in MyShasta or by signing a student add/drop form and including the date of first attendance.

In either event, the student must attend the first class meeting. (See the “Waitlist” section below).

CONFLICTING CLASSES: The State of California (Title 5 Section 55007) generally will not allow students to enroll in classes that are held at the same time or that have overlapping times. Enrollment in overlapping courses is only permitted if there is a valid justification, such as degree completion. Scheduling convenience is not a valid reason. A Petition to Enroll in Overlapping Course form can be obtained from the Admissions & Records office by emailing admissions@shastacollege.edu.

DROPPING A CLASS: IT IS THE STUDENT’S RESPONSIBILITY TO DROP A CLASS. The Enrollment Fee and/or material fees are refundable if a class is dropped during the first 10% point of the length of the course.* Students may drop a class and have no notation appear on their transcripts through the census date of each course. Students are able to drop classes on-line through MyShasta. The student may withdraw from a class from the census date or material fees are considered due to full enrollment in a specific course. Waitlists allow students to be considered for enrollment in a closed course. Waitlists may also be used to create an additional section of the course by adding their names to the list. The creation of an additional section will be at the discretion of the appropriate Dean.

Waitlist

Many courses offered by Shasta College will fill up and enter into a waitlist status due to full enrollment in a specific course. Waitlists allow students to be considered for enrollment into a closed course. Students are advised to monitor their waitlist status carefully by accessing MyShasta.

For online courses, “first class meeting” refers to the first day that the course is available, normally the first day of the term unless otherwise noted in the schedule.

1. Waitlist Registration
   
   If a course in which you are attempting to enroll is full, you have the option of adding yourself to the waitlist. The waitlist is a mechanism whereby a student may be given the opportunity to become registered in a course should a vacancy occur up until the day before census.

   The waitlist may also be used to create an additional section of the same course should enough students demonstrate the need for the course by adding their names to the list. The creation of an additional section will be at the discretion of the appropriate Dean.

2. Migration from waitlist to Registered Status

   A. If an opening occurs any time before the course starts, the first eligible student on the waitlist will automatically be enrolled into the section and sent a notification through email. Each subsequent vacancy that occurs will be filled by the next eligible* student on the list and each student will be notified through email. The student must attend the first class meeting or, in the case of an online course, must log in on the first day of the course, at which time registration status will be confirmed by the instructor.

   B. If an opening occurs any time after the course has started but before Census of the course, the student must obtain an Add Authorization from the instructor in order to register for the class:

   a. Instructors may choose to provide eligible students an Add Authorization through MyShasta. Add Authorizations can be requested by proxy by attending the first day of the class meeting, or by emailing the instructor to register for the class.

   b. Once the instructor has granted the authorization, a blue banner will appear on the section on the student’s registration page in MyShasta where the student can complete the registration on or after the first day of the class meeting.

3. Payment is due by midnight of the day of registration.

4. An “ineligible” student is one who will not migrate from the waitlist into actual course enrollment for any one of the following reasons:

   • The student has not completed the course prerequisite or is not currently registered in the course corequisite.
   • The student has a debt owed to the college incurred during a previous term.
   • The student has been placed on a waitlist for one course that conflicts with a course in which the student is already registered. Any conflict must be remedied prior to migration.
   • The student has already reached the maximum allowable units prior to the migration without filing a petition for overload.
   • The student does not pass the eligibility rules set up for the registration to occur.
   • The student has already reached the maximum allowable opportunities to repeat the course.
   • A probationary student who has already reached the maximum allowable units.
   • The student is attempting to “repeat” the course and fails to meet the allowed grade requirement.

5. Additional Information:

   • It is the student’s responsibility to monitor their status on any waitlist, and accept responsibility for any conditions which may prevent migration from the waitlist to registered status.
   • If a student is deemed ineligible to migrate from the waitlist to registered status, the student will not receive official notification.
   • Students who have not met prerequisite requirements or who have exceeded “repeat” limits will not be allowed to place themselves on a waitlist for the respective course.
   • Students who have an outstanding unpaid balance to the college for fees incurred from a previous semester will be allowed to place themselves on a waitlist.
   • Students will not be able to register for one section of a course and get on the waitlist for another section of the same course.
   • Students may choose to be on no more than one waitlist for different sections of the same course.
   • Students cannot choose to be added to a waitlist of one course offered at a specific time and be registered in a different course at the same time.
   • Students are able to remove themselves from the waitlist at any time.
   • Should an additional section be created from the waitlist and made available at the same time/day as the original section (as described above), students from the waitlist may be “migrated” to the new section and informed of the new
Auditing a Course

Purpose:
1. Auditing allows students to participate in class activities beyond the course repetition limit; and
2. Auditing allows students to repeat a course with the intent of upgrading needed skills or reviewing course content.

Eligibility:
1. Students must be eligible for admission to the College as regularly enrolled students.
2. Students may audit classes only when they have exhausted repetition opportunities for the course.
3. Students must meet course prerequisites.
4. Priority in class enrollment shall be given to students desiring to take the course for credit towards a degree or certificate. (Education Code Section 76370(d)).

Fees:
1. The fee for auditing a class is $15.00 per unit, per semester (Education Code Section 76270(a)). Material fees, if applicable, are payable with audit fees upon submitting the approved application. The audit fee is non-refundable.
2. Students enrolled in classes to receive credit for ten or more semester credit units shall not be charged a fee to audit three or fewer units per semester.

Procedures:
1. Verification of eligibility from Admissions and Records Office.
2. Instructor’s signature of approval on audit form.
3. Dean of the Division’s signature of approval on audit form.
4. Return of approved audit form to Admissions and Records Office within 7 days with payment of all fees.

See Board Policy/Administrative Procedure 4070 for more information.

Unit Load Limitation

A normal course load is 12 to 15 units. A student wishing to take over 18 units during a regular Fall or Spring semester or 9 units in the summer term must schedule an appointment with a Counselor to review an Overload Petition. The Overload Petition must be approved prior to enrollment into units/courses that are in excess of the unit limitation. Overload petitions are available in the Counseling Center or Admissions Office. Concurrent enrollment is limited to a maximum of 11 units per semester and 7 units during the summer term (Education code 76001 and 76002).

Transfer of Credit

In compliance with Education Code sections 66738 and 66740, Shasta College maintains a defined articulation process for general education, transfer education, and vocational/occupational education. These formal articulation agreements may vary according to the type of agreement or range of participants.

Articulation is the process of faculty review and evaluation used to determine in what manner coursework completed at one institution will meet requirements for admissions, transfer credit, general education and/or major preparation at another institution.

Articulated courses are not considered equivalent to each other; however, articulated courses at a sending institution are accepted in lieu of comparable courses at the receiving institution.

The purpose of articulation between institutions is to facilitate the process of enrolling students from high school to Shasta College and from Shasta College to four-year institutions. Shasta College endeavors to eliminate barriers to transfer of credit and supports student transition from one institution to another.

The Shasta College Articulation Officer has primary responsibility for facilitating the development and maintenance of articulation agreements with postsecondary institutions. Articulation agreements shall be sought for courses identified as comparable at Shasta College with campuses of the California State University, the University of California and appropriate regionally accredited independent/out-of-state postsecondary institutions, as well as with some government agencies. Students may receive college credit for articulated high school courses as permitted by the California Educational Code.

Students expecting to transfer to a four-year college or university can usually complete their first two years at Shasta College. Students must normally complete 60 transferable semester units to be classified as juniors upon entering a four-year college or university.

Students enrolled in a transfer program can complete their general education and most of their lower division requirements before transferring. High school subject deficiencies may be made up at Shasta in order to meet university admission requirements. In some instances, students may qualify for transfer to the college of their choice by maintaining an acceptable grade point average in a minimum of 60.0 units of appropriate transfer courses.

Requirements for Transfer Students

A student can transfer from Shasta College to a four-year college or university as a junior without loss of time or credits by completing the following:

1. Lower Division Preparation for the Major. These courses, which should be completed before transferring, provide the necessary background and preparation in order for the student to transfer into their major as a junior. Check with a Shasta College counselors regarding major preparation recommendations for your particular program and institution selection.

2. General Education Requirements (Sometimes called “Breadth Requirements”). These are the courses required to obtain a bachelor’s degree regardless of major. Courses in writing, critical thinking, sciences, humanities and social sciences are included in general education. High unit majors such as engineering and the sciences will generally follow a different set of requirements, and students should meet with a counselor for clarification and to ensure accuracy.

3. Electives. When courses for the major and general education requirements have been completed, enough elective courses must be taken in order to bring the total of all course work to a minimum of 60.0 transferable units. The Transfer Center and Counseling Department sponsors Transfer Day each Fall. Call (530) 242-7570 to schedule an appointment with the Transfer Counselor.
Transfer Credits Accepted from Other Institutions

Students may transfer credits completed at another regionally accredited institution to fulfill prerequisite, general education, major, and/or elective unit requirements for the associate degree or certificate programs offered at Shasta College. Incoming transfer credits will only be accepted from institutions accredited by one of the following accrediting bodies:

- Middle States Commission on Higher Education (MSCHE)
- New England Association of Schools and Colleges Commission on Institutions of Higher Education (NEASC-CIHE)
- Northwest Commission on Colleges and Universities (NWCCU)
- North Central Association of Colleges and Schools – The Higher Learning Commission (NCA-HLC)
- Southern Association of Colleges and Schools (SACS) Commission on Colleges
- Western Association of Schools and Colleges – Accrediting Commission for Community and Junior Colleges (WASC-ACCJC)
- Western Association of Schools and Colleges (WASC)
- Senior College and University Commission (WASC-SCUC)

To be eligible for transfer credit, students must have all official transcripts sent to the Shasta College Admissions and Records Office and complete the “Request for Transcript Evaluation” form. Staff will review transcripts and post credits as appropriate to the student’s academic record. Transcripts submitted become the property of the District.

Acceptance of Upper Division Coursework

Shasta College will accept coursework completed at the upper division level under the following conditions:

- The course must have been completed at a regionally accredited college or university.
- The course must be deemed comparable to Shasta College course by the faculty in the discipline, or an appropriate designee, or through an articulation agreement. Upper division courses or more advanced courses may be used in lieu of lower division course competencies.
- The upper division course may be used to satisfy a Shasta College major requirement, an associate degree general education requirement, or a prerequisite.
- Courses will be accepted for subject credit only. Upper division courses will not be used to certify CSU GE or IGETC requirements. Students will still need 60 lower division transfer units to be eligible for admission to the CSU or UC.
- Grades earned will be calculated in the same manner as those transferred from another college or university.

Course Equivalency and Course Substitutions

Course equivalency may be determined by any of the following methods:

1. Direct articulation between Shasta and the sending institution
2. Indirect articulation between Shasta and other California Community Colleges based on approval of courses for the California Identification Number System (C-ID)
3. Indirect articulation between Shasta and a sending institution determined by cross referencing additional public colleges and universities included in the California statewide articulation repository (ASSIST.org). For example, if a course under review is not approved for C-ID and Shasta College does not have direct articulation with the California Community College, a CSU that maintains articulation with both Shasta College and the other California Community College could be used to establish indirect articulation.
4. A critical evaluation of the course to verify core elements of the course including topics, course objectives, lecture and/or lab hours, and pre/corequisites are sufficiently aligned with Shasta courses. This review will be conducted by the counseling and/or evaluations staff. Some courses will also require review by the college Articulation Officer, appropriate faculty content experts and the appropriate dean.

Course substitutions may be approved by any of the following methods:

1. Courses completed at another California Community College that are approved for an associate degree general education category as outlined in Title 5 will be applied to the same associate degree general education category at Shasta College regardless of whether or not Shasta College has an equivalent course.
2. Courses completed at another California Community College or at a California State University that are approved for a CSU general education category as outlined in CSU E.O. 1065 will be applied to the parallel associate degree general education category at Shasta College.
3. Courses completed at private colleges and universities that are approved for a CSU general education category as outlined in CSU E.O. 1065 will be applied to the parallel associate degree general education category at Shasta College.
4. Courses completed at another California Community College that are approved for the Intersegmental General Education Transfer Curriculum (IGETC) as outlined in the Standards, Policies & Procedures for IGETC will be applied to the parallel associate degree general education category at Shasta.

Dropping a Class Without Record

Students may drop a class and have no notation on their transcripts through the census date of each class. **It is the student’s responsibility to drop class(es).** Students can drop a class online through MyShasta. If a student intends to drop a class and stops attending but fails to properly drop/withdraw, a failing letter grade may be assigned by the instructor. Students may be dropped by the instructor based on non-participation.

Foreign Coursework

Foreign coursework must first be evaluated by an accredited and approved evaluation service, and then reviewed by Shasta College evaluators. Some courses may also require approval by the appropriate discipline area dean and faculty. Courses may be used to fulfill Shasta College prerequisite, program, general education and elective unit requirements, after the foreign transcript evaluated in English is submitted for evaluation.

Shasta College will not determine course transferability to other colleges and universities. Courses will not be used to certify CSU GE or IGETC requirements. To have foreign coursework clearance for transfer-level math and English courses for students who have graduated from high school, students need to contact one of the approved evaluation agencies and request a detailed comprehensive equivalency report that includes the following for each course: a course name in English, whether it is an upper or lower division course, its U.S. semester equivalency, and the grade the student earned. Actual determination of Shasta College credit for classes taken in another country will begin during an individual appointment with a Shasta College counselor after you arrive on the Shasta College campus and present your externally evaluated transcripts. Shasta College will accept evaluations from agencies holding current membership in the Association of Credential Evaluation Services (NACES). For a listing of members, please go to: [http://www.naces.org/members.htm](http://www.naces.org/members.htm)

Student Success and Support Program

SUCCESS BEGINS WITH A PLAN! The college has found that students who have supplied transcripts, attended an orientation, and developed an education plan with a counselor significantly improve their performance in college. We call this process “matriculation.”
Chapter 1: Admission and Enrollment Information

The California Community Colleges Chancellor's Office is working on streamlining the reporting requirements for the Student Success and Support Program along with other programs. However, because Title 5 Regulations addressing Student Success and Support Programs remain in effect, Shasta College will continue to enforce Student Success and Support Program requirements.

Matriculation is defined by the Seymour-Campbell Student Success Act of 2012 as "a process that brings a college and a student into an agreement for the purpose of achieving the student’s educational goals and completing the student’s course of study." The agreement involves the responsibilities of both the college and student.

The College agrees to provide:

- An admissions application process.
- An orientation to the College’s programs and services.
- Placement services that maximize the probability that a student will enter and complete transfer-level coursework in English and math within the first year.
- Counseling to develop an educational plan.
- Follow-up evaluation of each student’s progress in achieving an education goal.

The student agrees to:

- Identify an academic and career goal upon application.
- Complete a new student orientation, if new to the college.
- Declare a specific course of study after a specified time period of unit accumulation, as defined by the Board of Governors.
- Attend class and work diligently to complete class assignments.
- Complete courses and maintain academic progress toward an educational goal and course of study identified in the Student Educational Plan (SEP).

FIRST-TIME STUDENTS are required to take advantage of Student Success and Support Services. Those who do will be eligible for "priority registration."

Participation in matriculation services is recommended for the following students. If you fall into one of these categories, contact the Admissions and Records Office for appropriate registration information.

1. Students who have received a full array of matriculation services at another California community college;
2. Students who plan to enroll only in courses having no English and/or math skill requirements/prerequisites;
3. Students who plan to enroll in fewer than 6 units and who have "personal interest," advancement in their current jobs, or maintenance of a certificate or license as their goals;
4. Students who have completed an Associate or higher degree and are not pursuing a program or degree objective at Shasta College;
5. Students who have completed 30 or more semester units at another regionally accredited college or university and are not pursuing a program or degree objective at Shasta College.

Shasta College may also allow students who have demonstrated significant academic improvement to appeal the loss of priority enrollment status. Significant academic improvement is defined as achieving a minimum grade point average of 2.0 and completing more than 50% of units attempted in the student's most recently completed semester. Students have the right to refuse matriculation services.

Shasta College will notify students of matriculation requirements and the loss of registration priority if a student fails to fulfill their responsibilities. Information related to this college’s matriculation requirements are available to students prior to enrollment in the new student orientation, class schedules, and this catalog. Contact the office of the Dean of Enrollment Services should you have questions regarding student rights and responsibilities.

See Board Policy/Administrative Procedure 5050 for more information.

PETITION PROCESS

Students may appeal the loss of priority enrollment due to extenuating circumstances or if they have a disability and applied for, but did not receive a reasonable accommodation in a timely manner. Extenuating circumstances are verified cases of accidents, illnesses or other circumstances beyond the control of the student. Shasta College may exempt from the 100 unit limit category those students enrolled in high unit majors or programs.

Shasta College may also allow students who have demonstrated significant academic improvement to appeal the loss of priority enrollment status. Significant academic improvement is defined as achieving a minimum grade point average of 2.0 and completing more than 50% of units attempted in the student’s most recently completed semester. Students have the right to refuse matriculation services.

The student must file the written petition of appeal within thirty (30) days of notification of the loss of enrollment priority. All appeals shall be submitted to the Admissions and Records Department and will be forwarded to the Priority Registration Appeals Committee. If the student fails to file a written petition within the thirty day time limit, the student waives all future rights to appeal an adverse action for that semester. It is the student’s responsibility to provide clear reasons and evidence to support the appeal. The student will be continued on sanction until the Priority Registration Appeals Committee renders a decision. Completion of the appeal procedure shall be deemed to be an effort at informal resolution of the complaint.

The Priority Registration Appeals Committee will notify the student of its decision in writing within thirty days of receipt of the student's appeal. If the student's appeal is denied, the student may file a formal complaint in writing to the Superintendent/President or designee within ten (10) working days of the date of notification. The decision of the Superintendent/President or designee is final. If the student is not satisfied with the decision, the student reserves the right to file a formal complaint.
If the loss of enrollment priority appeal is granted, enrollment priority will be reinstated at the next available registration. Prior to the subsequent enrollment period, the student’s academic record will again be evaluated to determine enrollment priority status. Priority enrollment will be re-evaluated each term.

See Board Policy/Administrative Procedure 5050 for more information.

COUNSELING
Throughout the semester, counselors are available to assist students in planning and achieving their educational and career goals. Services are available by appointment; brief walk-in appointments are available most days and can be conducted online. Call the Counseling Center at (530) 242-7724.

Services include educational planning, career counseling, referral services, and transfer information. Students should review the Counseling Department website for updates to the schedule and the availability of “Express” appointments.

ORIENTATION INFORMATION
The New Student Orientation can be completed online at New Student Orientation.

Not Anymore Online Violence Prevention Training: All incoming and returning students are strongly encouraged to complete an online primary prevention program called “Not Anymore.” “Not Anymore” is an interactive online program designed to prevent sexual assault, dating and domestic violence and stalking and gives you the knowledge and power to make your campus safer. The website URL is: https://studentsuccess.org/CODE/shasta. The Student Access code is 14742.

For more information regarding implementation of “Not Anymore” at Shasta College, contact Campus Safety at (530) 242-7910.

Placement

RIGHT TO ACCESS TRANSFER-LEVEL COURSES
Shasta College works to maximize the probability that a student with a goal of transfer to a four-year institution or earning a certificate or a local associate degree will enter and complete transfer-level coursework in English and math within their first year. Consistent with California Assembly Bill (AB) 705, Shasta College will use one or more of the following to properly place students into English and math: high school coursework, high school grades, and high school grade point average.

Shasta College placement methods will not place students in a remedial sequence or pre-transfer coursework in English or math unless (A) the student is highly unlikely to succeed in the transfer-level course; and (B) enrollment in pre-transfer-level coursework will improve the student’s likelihood of completing transfer-level courses in one year. Additionally, Shasta College will maximize the probability that ESL students with a goal of transfer to a four-year institution or an associate degree will enter and complete a transfer level English composition course within a three-year timeframe of declaring a transfer- or degree-seeking goal.

SHASTA COLLEGE MATH AND ENGLISH PLACEMENT PRINCIPLES
Shasta College is committed to student success. Research indicates that a student’s past academic performance is a superior predictor of college success. Further, students succeed in transfer level English and math courses at higher rates if they are permitted to enroll directly into those courses. To that end, the college will use multiple measures including high school transcripts and guided self-placement to ensure that students are placed into the highest course possible.

- Shasta College will maximize the probability that students will enter and complete transfer-level coursework in English and math within one year.
- Shasta College will not require students to enroll in remedial English or math coursework that lengthens their time to complete a degree unless placement research that includes consideration of high school grade point average and coursework shows that those students are highly unlikely to succeed in transfer-level coursework.
- Shasta College will encourage students to enroll in additional concurrent support, including additional language support for ESL students, during the same semester that they take the transfer-level English or math course, but only if it is determined that the support will increase a student’s likelihood of passing the transfer-level English or math course.
- Shasta College strives to minimize the impact on student financial aid and unit requirements for the degree by exploring embedded support and low or noncredit support options.
- Shasta College will place students into transfer-level English if the student has high school transcripts within the last ten years and has transfer as their goal.

SHASTA COLLEGE ESL PLACEMENT PRINCIPLES
- Instruction in English as a second language (ESL) is distinct from remediation in English. Students enrolled in ESL credit coursework are foreign language learners who require additional language training in English, require support to successfully complete degree and transfer requirements in English or require both of the above.
- Shasta College will use evidence-based multiple measures for placing students into ESL coursework. For those students placed into credit ESL coursework, their placement should maximize the probability that they will complete degree and transfer requirements in English within three years.

ENGLISH DEPARTMENT PLACEMENT GUIDELINES
English Department placement guidelines follow the Multiple Measure Assessment Project default placement rules.

Students with a high school GPA ≥ 2.6 are eligible for English 1A (transfer level). No additional academic or concurrent support is required.

Students with a high school GPA of 1.9 – 2.6 are eligible for English 1A (transfer-level). Additional academic and concurrent support is recommended.

Students with a high school GPA below 1.9 are eligible for English 1A (transfer-level). Additional academic and concurrent support is strongly recommended.

If the following applies to you, please be sure to make an appointment with a counselor:

- Students who are 18 years old or older and who have not graduated high school.
- Students who do not have high school or college transcripts.
- Students who did not attend high school in the United States.

If you don’t have a transcript, counselors will work with you on a guided self-placement process. Please schedule an appointment with a Shasta College counselor for placement into an English course. Please bring a copy of your transcripts, if available, to the appointment (unofficial transcripts are accepted for the counseling appointment). If you are unhappy with your multiple measures high school transcript placement, you may challenge your results with the placement tool or self-place.

Students who need to be placed into an English as a Second Language (ESL) course should contact Jim Kortuem at (530) 242-7760.

“Estudiantes que necesiten ser asignados a un curso de inglés como segundo idioma (ESL) deben comunicarse con Jim Kortuem, y pueden comunicarse con él llamando al (530) 242-7760.”

MATH DEPARTMENT PLACEMENT GUIDELINES
Most pathways to a degree or certificate at Shasta College have a math requirement. We recommend you take care of this requirement as soon as possible. Deciding on which math class to take is an important decision, and the descriptions below are the recommended steps for deciding which course to take.

Students who have grades from other colleges or who graduated high
school within the last 10 years need to meet with a counselor and bring a copy of their unofficial high school transcripts. Students planning to earn a degree from Shasta College must submit their official transcripts to the Admissions and Records Office.

MATH DEPARTMENT PLACEMENT GUIDELINES

STATISTICS/LIBERAL ARTS PATHWAY

(Multiple Measure Assessment Project)

For students who have graduated from high school within the last ten years:

Students with a high school GPA $\geq$ 3.0 are eligible for transfer-level Statistics/Liberal Arts mathematics. No additional academic or concurrent support is required.

Students with a high school GPA of 2.3 – 2.9 are eligible for transfer-level Statistics/Liberal Arts mathematics. Additional academic and concurrent support is recommended.

Students with a high school GPA below 2.3 are eligible for transfer-level Statistics/Liberal Arts Mathematics. Additional academic and concurrent support is strongly recommended.

MATH DEPARTMENT PLACEMENT GUIDELINES BSTEM (BUSINESS, SCIENCE, TECHNOLOGY, ENGINEERING, MATH) PATHWAY

(Multiple Measure Assessment Project)

For students who have graduated from high school within the last ten years:

Students with a high school GPA $\geq$ 3.4 OR students with a high school GPA $\geq$ 2.6 AND enrolled in a high school Calculus course are eligible for transfer-level BSTEM mathematics. No additional academic or concurrent support is required.

Students with a high school GPA $\geq$ 2.6 OR enrolled in high school Pre-Calculus are eligible for transfer-level BSTEM mathematics. Additional academic and concurrent support is required.

Students who cannot provide a high school transcript or college math transcript from within the last 10 years can now utilize ALEKS Placement, Preparation and Learning to find the math class that will best fit their knowledge.

If you would like to use the ALEKS PPL placement tool, please make an appointment with the Testing Center. If you are unhappy with your multiple measures high school transcript placement, you may challenge your results with the placement tool or self-place. Please make an appointment with the Testing Center.

International Students

International students must file: an international student application; proof of English competency; health history, including evidence of polio immunization shots or Sabin Oral vaccine, medical statement of immunization against measles, and a certificate of freedom from active tuberculosis; a financial support statement; verification of personal medical insurance coverage; and high school and college transcripts.

International students who will be attending pursuant to an F-1 visa must submit all required documentation prior to issuance of form 1-20 by the District. Students must meet resident determination, which includes a student visa from their residence outside of the U.S., or a U.S. visa that permits entry solely for a temporary purpose.

TOEFL (Test of English as a Foreign Language)
IELTS (International English Language Testing System)
STEP (Society for Testing English Proficiency)

English competency is demonstrated by the following scores:

- TOEFL paper-based: 500 or above
- TOEFL internet-based: 61 or above
- TOEFL computer-based: 173 or above
- IELTS: Band 5.0 or above
- STEP: Grade 2A or above

Students may be accepted with the following scores with the stipulation that they enroll in ESL coursework and maintain full-time status (minimum 12 units) as per ICE regulations:

- TOEFL paper-based: 450-499
- TOEFL internet-based: 45-60
- TOEFL computer-based: 133-172
- IELTS: Band 4.5
- STEP: Grade 2

Subsequent semester placement into academic courses will be based on ESL assessment or the TOEFL score.

International students who score below the minimum required ESL levels will not be accepted.

- Students are exempt from the tests above if they have transcripts from a U.S. university/college showing completion of college level English (English 1A) with a grade of C or higher.
- Students are exempt from the tests above if they complete the American Language and Culture Institute (ALCI) located at California State University, Chico, prior to attending Shasta College.
- Students who have spent one or more years at a U.S. high school are exempt from the tests above.

International students considered citizens or residents of a foreign country will pay, in addition to in-state enrollment fees, out-of-state tuition at the time of enrollment.

International students applying for the fall semester must complete their applications by June 1. Students applying for the spring semester must complete their applications by November 1. Incomplete applications will be redirected for the following semester admission consideration. At the end of one year from initial application the files of students who do not enroll are destroyed.

International students wishing to attend Shasta College should direct their questions and applications to the Admissions and Records Office, and see our website at internationalstudents.

See Board Policy/Administrative Procedure 5012 for more information.

Prerequisites, Corequisites, Limitations on Enrollment, and Advisories

FREQUENTLY ASKED QUESTIONS

What is an “advisory on recommended preparation”?
Advisories are intended to identify skills which will broaden or deepen a student’s learning experience, but without which the student can still succeed in the course. The college does not block enrollment in a course for lack of advisory skills.

Where can I find advisories for each course?
If a class has an advisory, it will be stated as part of the course description in the Catalog, and will be listed with the course in the Schedule of Classes.

What is a “limitation on enrollment”?
All courses are open to enrollment to any student who has been admitted to the college, with the following exceptions. Title 5 Section 58106 allows the college to limit enrollment in specific courses or programs by using: 1) prerequisites and corequisites; 2) health and safety considerations; 3) practical considerations such as facilities limitations, faculty availability and funding limitations; 4) registration systems such as a first-come-first-served, or priority system; 5) statutory, regulatory, or contractual requirements; 6) auditions and tryouts for intercollegiate competition, honors, or public performances courses, 7) blocks of courses for cohorts of students. NOTE: Shasta College enforces limitations on enrollment.
How do I know which classes have limitations on enrollment?
If a class has a limitation on enrollment, it will be specifically stated as part of the course description in the Catalog, and will be listed with the course in the Schedule of Classes.

What is a “prerequisite” or “corequisite”?
"Prerequisite" means a condition of enrollment that a student is required to meet in order to demonstrate current readiness for enrollment in a course or educational program. (Title 5, Section 55200(a)) Such a condition of enrollment can be a course or other preparation a student must have before being permitted to enroll in a target course. Prerequisites provide the student with knowledge and/or a set of skills that substantially increase a student's success. For example: Introduction to Managerial Accounting (ACCT 4) has a prerequisite of Introduction to Financial Accounting (ACCT 2) with a grade of "C" or higher.

There are two types of corequisites: two-way corequisites and one-way corequisites. A "two-way" corequisite is when two (or more) courses are so intertwined that neither course stands alone. A student would not have a reasonable chance to be successful in either course without being concurrently enrolled in both courses. A "one-way" corequisite is when one of the courses depends on the content of the other course, but not vice-versa. Here, only one course would list the other as a corequisite. Often, with one-way corequisites, if you have previously completed the corequisite course, you may be qualified to enroll in the target course.

Why does Shasta College enforce prerequisites and corequisites?
We are legally required to enforce prerequisites. The Shasta College faculty has carefully selected prerequisites by evaluating the skills and concepts needed for success in a target course. They are intended to ensure that a student has a reasonable chance for success. For these reasons, enforcement of prerequisites is in the interest of all students.

How can I satisfy a Prerequisite?
There are three ways you can satisfy a prerequisite at Shasta College.

1. You received a grade of C or higher in the prerequisite course at Shasta College.
   A. If you completed the prerequisite course with a grade of C or higher, you will be allowed to enroll in the target course (as long as space is available).
   B. If you are currently attending the prerequisite course at the time of registration, you will be allowed to conditionally enroll in the target course for the following semester or summer session (as long as space is available). However, when grades are submitted at the end of the semester, if you did not receive a grade of C or higher in the prerequisite course, you will be dropped from the target course.

2. You satisfied the prerequisite through Course Equivalency. There are three ways to satisfy a prerequisite through Course Equivalency: 1) You received a grade of C or higher in an equivalent course at another college, 2) You have a qualifying score on the AP Exam, or 3) You received CLEP credit for the prerequisite course. (For further information about AP Exam scores and CLEP credit, see a counselor, or refer to the Catalog).

   If you believe you have satisfied the prerequisite through Course Equivalency, then before registration, you should contact Admissions and Records staff, who will direct you through the Course Equivalency Procedure. It is your responsibility to provide supporting documentation, such as transcripts and course description(s) from your previous college(s). You will be allowed to enroll conditionally in the target course for ten working days. If, at the end of ten working days, you cannot provide documentation that you have met the prerequisite through Course Equivalency, then you will be dropped from the course.

3. You satisfied the prerequisite through Multiple Measures. Shasta College recognizes that you may have gained the prerequisite skills for some courses by means other than the two mentioned above. For example, you may have completed high school courses that covered the same topics as the prerequisite course. Or, perhaps you gained the prerequisite skills through work experience. Whatever the means, if you have gained skills that are equivalent to those that you would get by taking the prerequisite course at Shasta College, you should take your supporting documentation to a Shasta College counselor before you try to register. The counselor will direct you through the Multiple Measures Procedure.

   Note: If you are attempting to register in a course that has Math, English or Chemistry as a prerequisite, then part of the Multiple Measures Procedure might include taking an Assessment Test at the Testing Center. You are free to take the Assessment Test before you see your Counselor.

   Note: Because you will be unable to enroll in the target course until a counselor determines that you have satisfied the prerequisite through Multiple Measures, it is in your best interest to see a counselor before attempting to register for the course.

   Note: If you have a disability and believe that you could be successful in the class with reasonable accommodations then see a PACE counselor, or Learning Disability Specialist, (530) 242-7790, before attempting to register for the course.
Can I challenge a prerequisite or corequisite?

Yes, you can. The five grounds for a student to challenge a prerequisite or corequisite are:

1. The student has the knowledge or ability to succeed in the course or program despite not meeting the prerequisite or corequisite;
2. The prerequisite or corequisite has not been established in accordance with the district’s process for establishing prerequisites and corequisites;
3. The prerequisite or corequisite is in violation of Title 5;
4. The prerequisite or corequisite is either unlawfully discriminatory or is being applied in an unlawfully discriminatory manner;
5. The student will be subject to undue delay in attaining the goal of his or her educational plan because the prerequisite or corequisite course has not been made reasonably available, or accessible. For a full description see Title 5, Section 55201(f).

If you believe you have grounds for filing a challenge, go to the Office of Admissions and Records for information on the Prerequisite Challenge Procedure. If you choose to file a challenge, you have the responsibility of showing that grounds exist for the challenge.

Note: If you are citing reason #1 as the basis for challenging the prerequisite/corequisite, you must first have failed to meet the prerequisite/corequisite through the Multiple Measures Procedure. You should seek advice regarding the challenge from a Counselor.

PREREQUISITE/COREQUISITE CHALLENGE PROCEDURE

The student will obtain a Prerequisite/Corequisite Challenge Form at the Admissions and Records Office. The Office of Instruction will retain documentation of Board Policy and Title 5 regulations regarding prerequisite/corequisite challenges. A student may review this information prior to submitting a Prerequisite/Corequisite Challenge Form. A student who chooses to challenge a prerequisite or corequisite may do so for any of the following reasons:

1. The student has the knowledge or ability to succeed in the course or program despite not meeting the prerequisite or corequisite;
2. The prerequisite or corequisite has not been established in accordance with the district’s process for establishing prerequisites and corequisites;
3. The prerequisite or corequisite is in violation of Title 5;
4. The prerequisite or corequisite is either unlawfully discriminatory or is being applied in an unlawfully discriminatory manner;
5. The student will be subject to undue delay in attaining the goal of his or her educational plan because the prerequisite or corequisite course has not been made reasonably available, or accessible. For a full description see Title 5, Section 55201(f).

If a student is citing reason #1 as the basis for challenging the prerequisite/corequisite, the student must first have failed to meet the prerequisite/corequisite through the Multiple Measures Procedure.

A statement of specific skills and abilities needed to enter the class for which the challenge is being issued will be made available to the student through the Office of Instruction, Room 115, on any workday.

The student must complete a Prerequisite/Corequisite Challenge Form. The student must attach a completed and signed Multiple Measures Form to the Prerequisite/Corequisite Challenge Form. The student must return these forms along with the other supporting documentation to the Director of Admissions and Records. The student has the obligation to provide satisfactory evidence that the challenge should be upheld. Without supporting documentation, the application for a challenge will be considered incomplete and the challenge will be denied. When a complete application is filed, the Director of Admissions and Records will forward the Prerequisite/Corequisite Challenge Form and supporting documentation to the appropriate Academic Division Office. The Division staff will arrange a Challenge Hearing.

If the challenge form is submitted during the period when the student is enrolled in the target course, the student will be conditionally enrolled in the target course until resolution of the challenge is complete.

Two or more faculty members will conduct the Challenge Hearing. If possible, the faculty members will be from a discipline closely related to the target course. The student will have the right to attend and speak at the Challenge Hearing. Staff from the appropriate Academic Division Office will attempt to notify the student regarding the time and location of the Challenge Hearing at least one business day prior to the start of that hearing. The results of the Challenge Hearing will be documented and forwarded to the student and to the Admissions and Records Office within five business days from the date that the challenge was filed with the Director of Admissions and Records. If the college has not made a decision within five working days then the student’s challenge is upheld.
and the Admissions and Records Office will allow the student to enroll in the course.

If a student is citing reason #2, #3, #4 or #5 as the basis for challenging the prerequisite/corequisite, the student must submit a completed Prerequisite/Corequisite Challenge Form along with supporting documentation to the Assistant Superintendent/Vice President of Instruction in the Office of Instruction, Room 115. The student has the obligation to provide satisfactory evidence that the challenge should be upheld. Without supporting documentation, the application for a challenge will be considered incomplete and the challenge will be denied. When a complete application is filed, the Vice President of Instruction will conduct a Challenge Hearing. This hearing will include as voting members the Vice President of Instruction, one faculty from the Curriculum Council, and one other faculty, preferably from a discipline closely related to the target course.

The student will have the right to attend and speak at the Challenge Hearing. Staff from the Office of Instruction will attempt to notify the student regarding the time and location of the Challenge Hearing at least one business day prior to the start of that hearing. The results of the Challenge Hearing will be documented and forwarded to the student and to the Admissions and Records Office within five business days from the date of the hearing. If the college has not made a decision within five working days then the student’s challenge is upheld and the Admissions and Records Office will allow the student to enroll in the course.

Note 1: Students who submit a Prerequisite/Corequisite Challenge Form claiming that a specific disability is a factor in their challenge rationale must forward a copy of the Prerequisite/Corequisite Challenge Form to the Disability Resource Center. The Partners in Access to College (PACE) Office will determine if accommodations or academic adjustments are warranted.

Note 2: Students who initiate the challenge procedure during registration may obtain the Prerequisite/Corequisite Challenge Form at the registration site and submit the completed form along with supporting documentation at that site. If space is available, the student will be provisionally enrolled in the target course until resolution of the challenge is complete. Staff at the registration site will time-stamp the form and forward it to the Director of Admissions and Records, or to the Vice President of Instruction as appropriate. The Challenge Procedure will then proceed as outlined above.

Registration and Related Fees, Including Transcripts

1. Enrollment Fee: Refer to current class schedule or visit the Shasta College website.
2. Student Health Fee: Refer to current class schedule or visit the Shasta College website.
3. Campus Center Fee: Refer to current class schedule or visit the Shasta College website.
4. Out-of-State Tuition: Refer to current class schedule or visit the Shasta College website.
5. Day and evening parking fee: Refer to current class schedule or visit the Shasta College website (Campus Safety).
6. Student Representation Fee (Voluntary): Refer to current class schedule or visit the Shasta College website.
7. Student Events and Activities Fee (Voluntary): Refer to current class schedule or visit the Shasta College website.

NOTE: Fees are subject to change. The fee schedule is published each semester in the Schedule of Classes.

See Board Policy/Administrative Procedure 5030 for more information.

Instructions for submitting written request for Shasta College Transcript:
Shasta College has partnered with Credentials, Inc. to accept transcript orders over the internet through a secure website. Credentials, Inc. will facilitate your request 24 hours per day, 365 days per year. If you are not comfortable placing an order over the internet, you can call Credentials, Inc. at (847)716-3005 to place your transcript request.

There is an additional operator surcharge for placing orders over the telephone.

- Regular Service - $5.00 each; 4-5 business days to process
- Rush Service - Additional $10.00 each; 1-2 business days to process
- FedEx Service - Domestic orders (contiguous 48 states) - $20.00; only available when ordered online through Credentials, Inc.

*$5.00 processing fee for the first two transcript(s)/verification(s) ever issued in a lifetime are waived. Multiple requests are sealed in individual envelopes. A separate request form must be completed for each different address. All past debts to the college must be paid before transcripts are processed.

We do not fax or email transcripts to the student.

IGETC and GE Certification processing requires 7 to 10 business days for processing. Please allow up to 20 business days for processing during the beginning/end of each semester.

Electronic Transcript Certificate of Authenticity
Shasta College, located in Redding, CA has appointed Credentials Inc. as the designated agent for processing and sending official electronic transcripts on behalf of Shasta College. The PDF transcript that is produced using this service contains the identical information as the printed transcript and can be certified as unaltered by uploading the file to the company’s website that is provided during the delivery process. Credentials Inc. has been granted the authority to deliver all such electronic transcript requests on behalf of Shasta College and respond to any inquiries regarding the transactions.

Students may obtain unofficial copies of their Shasta College transcript through MyShasta or by contacting the Admissions and Records Office.

Transcripts which contain classes taken prior to Spring 2003 are considered offline records and may not be available through a student’s MyShasta account. Please contact the Admissions and Records Office to request a copy of those records.

REFUNDS
The enrollment fee is refundable if a class is dropped during the first two weeks of the semester or the first 10% of the class (subject to change for short-term classes). If the student withdraws from college during the first two weeks of instruction (subject to change for short-term classes), Contact the Admissions and Records Office for the Out-of-State Tuition refund policy. Refunds will be mailed each month. Keep your address current with the Admissions and Records Office.

Students who are awarded California College Promise Grant (CCPG) after they have paid their enrollment fees will be reimbursed only for the semester in which they are granted the CCPG. The CCPG will not be applied retroactively to prior semesters.

REFUNDS FOR NON-RESIDENT TUITION IS PRORATED AS FOLLOWS:

<table>
<thead>
<tr>
<th>Period</th>
<th>Tuition Refund Rate</th>
</tr>
</thead>
<tbody>
<tr>
<td>Prior to and during first week of instruction</td>
<td>100%</td>
</tr>
<tr>
<td>During second week class instruction</td>
<td>75%</td>
</tr>
<tr>
<td>During third week class instruction</td>
<td>50%</td>
</tr>
<tr>
<td>During fourth week class instruction</td>
<td>25%</td>
</tr>
</tbody>
</table>

After fourth week of class meetings NO REFUNDS WILL BE GIVEN

*Non-Resident tuition refunds for classes less than a full-term length will be prorated according to the above schedule.

***Shasta College reserves the right to change fees and related refund policy without notice.***

Residency

Whether you are a resident of California or a non-resident determines the fees you pay. Residence classifications are determined through a review of the information you provide in the residence portion of your admissions application. A non-resident student is a person who does not have residence in the state of California for more than one year immediately before the residence determination date. Residence is that...
location with which a person is considered to have the most settled and permanent connection; it is also that place where that person intends to remain, and during absences, intends to return. Residence is a combination of physical presence in a place with evidence that the intent is to remain at that place for an indefinite period of time. A nonresident student must pay out-of-state tuition at the time the student registers. Once classified as a nonresident, a student must apply to the Admissions and Records Office for reclassification as a resident.

CALIFORNIA DREAM ACT OF 2011

The California Dream Act of 2011 is the result of two bills, Assembly Bill 130 (AB 130) and Assembly Bill 131 (AB 131). Together, these bills allow undocumented and documented students who meet certain provisions of AB 540 law to apply for and receive private scholarships funneled through public colleges/universities (AB 130). Effective January 2013, students may be eligible for state-administered financial aid, Cal/university grants, and community college fee waivers (AB 131). For detailed information view http://www.csac.ca.gov/dream_act.asp. To apply for the California Dream Act:

- Submit your final High School Transcript to the Admissions and Records Office.
- Complete the CA Non-Resident Tuition Exemption Request form and submit to the Admissions and Records Office. This form can be accessed at www.shastacollege.edu/admissions-registration/residency-information.
- Once your Dream Act Application has been received by Shasta College, the Financial Aid Office will email you regarding the completion of your Dream Act file.

AB540 ELIGIBILITY REQUIREMENTS

Under the provision of the California state Assembly Bill 540 (AB 540), some California non-residents may pay in-state fees. To qualify, a student must meet all the following requirements:

- Attended a combination of California high school, adult school, and California Community College for the equivalent of three years or more, or
- Attained credits earned in California from a California high school equivalent to three or more years of full-time high school course work and attended a combination of elementary, middle and/or high schools in California for a total of three or more years, and
- The student must have:
  - Graduated from a California high school or attained the equivalent prior to the start of the term (for example, passing the GED or California High School Proficiency exam), or
  - Completed an associate degree from a California Community College, or
  - Completed the minimum requirements at a California Community College for transfer to the California State University or the University of California, and
  - The student must register as an entering student at, or current enrollment at, an accredited institution of higher education in California, and
  - The student must file an affidavit with the college or university stating that if the student is a non-citizen without current or valid immigration status, the student has filed an application to legalize immigration status, or will file an application as soon as the student is eligible to do so. (This requirement does not apply to those with legal residency).

See Board Policy/Administrative Procedure 5015 for more information.

Special Admits

SPECIAL PART-TIME ENROLLMENT (FORMERLY CONCURRENT ENROLLMENT)

A high school student wishing to enroll in Shasta College classes must have the permission of their high school principal, parent/legal guardian, and follow instructions detailed on the Concurrent Enrollment Form.

Forms are available at the local high schools or online at www.shastacollege.edu/highschool. Advance approval for all special admit students (K-12th grade) is required by the Director of Student Services before registration will be allowed. All special admit students should review college placement test requirements as noted on the reverse side of the concurrent enrollment form. Check with the Admissions and Records Office for specific details. Shasta College prohibits the release of information without the written consent of the student; allows course content that is not altered for concurrent students and is intended for adults; accepts no responsibility for extraordinary supervision of concurrently enrolled students; and assumes no responsibility for the student’s class selection.

Voter Registration

Shasta College is committed to sponsoring events and activities that are nonpartisan in nature that are designed to increase civic learning, democratic participation, civic engagement, and voter turnout. Information about how to register to vote along with other voting access information will be distributed to all students. Under the National Voter Registration Act (NVRA) of 1992, Partners in Access to College Education (PACE) is designated as an Agency-Based Registration Site where students are offered information, voter registration application forms, and the opportunity to become registered voters. Information about voting access and campus-based activities can be found at www.shastacollege.edu/student-life and on the PACE website.

AB 540/California Nonresident Tuition Exemption

Any student, other than one with United States Citizenship and Immigration Services (USCIS) nonimmigrant visa status (see exception below for students who have been granted T or U visa status), who meets all of the following requirements, shall be exempt from paying nonresident tuition at the California Community Colleges, the University of California, and the California State University (all public colleges and universities in California).

1. The student must have:
   - attended a combination of California high school, adult school, and California Community College for the equivalent of three years or more; or
   - attained credits earned in California from a California high school equivalent to three or more years of full-time high school course work and attended a combination of elementary, middle and/or high schools in California for a total of three or more years, and
   - The student must have:
     - graduated from a California high school or attained the equivalent prior to the start of the term (for example, passing the GED or California High School Proficiency exam), or
     - completed an associate degree from a California Community College, or
     - completed the minimum requirements at a California Community College for transfer to the California State University or the University of California, and
     - The student must register as an entering student at, or current enrollment at, an accredited institution of higher education in California, and
     - The student must file an affidavit with the college or university stating that if the student is a non-citizen without current or valid immigration status, the student has filed an application to legalize immigration status, or will file an application as soon as the student is eligible to do so. (This requirement does not apply to those with legal residency).

Students who are nonimmigrants who are victims of trafficking, domestic violence, and other serious crimes who have been granted T or U visa status, under Title 8 of the United States Code, sections 1101(a)(15)(T) or (U) are eligible for this exemption.

Students who are nonimmigrants, other than those with T or U visa status as noted above, [for example, those who hold F (student) visas, B (visitor) visas, etc.] are not eligible for this exemption.
A year’s equivalence at a California Community College is a minimum of 24 semester units of credit or 36 quarter units of credit. For noncredit courses, a year’s attendance is a minimum of 420 hours, 210 hours for a semester, and 140 hours a quarter.

The accumulation of credit and/or noncredit in any academic year shall be calculated in reference to a year’s equivalence. Partial completion in an academic year is allowed. (Example: 12 units of credit courses in an academic year is equal to a semester for purposes of determining eligibility.)

Attendance in credit courses at a California Community College towards the attendance requirements shall not exceed two years of full-time attendance.

The student must file an exemption request including a signed affidavit with the college that indicates the student has met all applicable conditions described above. Student information obtained in this process is strictly confidential unless disclosure is required under law.

Students eligible for this exemption who are transferring to another California public college or university must submit a new request (and documentation if required) to each college under consideration.

Nonresident students meeting the criteria will be exempted from the payment of nonresident tuition, but they will not be classified as California residents. They continue to be “nonresidents”.

The California Dream Act extends Cal Grant A and B Entitlement awards, Cal Grant C awards, the California Promise Grant (formerly known as the BOG fee waiver), Chaffee grants, and institutional financial aid to students that meet these criteria as well as the applicable criteria for eligibility for specific types of financial aid.

AB540 does not provide federal student financial aid eligibility for undocumented students. These students remain ineligible for federal financial aid.

PROCEDURES FOR REQUESTING THIS EXEMPTION FROM NONRESIDENT TUITION

California Community Colleges: Complete the form entitled California Nonresident Tuition Exemption Request. Submit it to the Admissions Office at the community college where you are enrolled or intend to enroll. You may be required to submit additional documentation. Call the college Admissions Office if you have questions.

University of California: The University of California (UC) campuses each have their own nonresident tuition exemption application and affidavit forms. Requests are not to be submitted until you have been admitted to a UC campus and have filed both a Statement of Intent to Register and also a Statement of Legal Residence. For campus-specific instructions regarding documentation and deadline dates, contact the campus personnel knowledgeable about AB 540 classifications: campus support.

California State University: Complete the form on California Nonresident Tuition Exemption Request. Contact the Office of Admission and Records at the CSU campus where you are enrolled or intend to enroll for instructions on submission, deadline information, and additional requirements. You will be required to submit final high school transcripts and appropriate records of high school graduation or the equivalent, if you have not done so already. Call the Office of Admissions and Records at the campus if you have questions.

1This exemption to the requirement to pay the nonresident tuition fee is often referred to “AB 540” after the Assembly Bill which enacted the exemption. (Ed. Code, § 68130.5.)

2In 2018, Senate Bill 68 was enacted to further expand the AB 540 exemption to allow adult school and noncredit course work to establish eligibility.

3In 2014, Assembly Bill 2000 was enacted amending Education Code section 68130.5 to allow this additional flexibility in meeting the requirements for the exemption.

4In 2012, Assembly Bill 1899 was enacted into law exempting holders of T and U visas from paying nonresident tuition. (Ed. Code, § 68122.)
CALIFORNIA NONRESIDENT TUITION EXEMPTION REQUEST
(Education Code section 68130.5, commonly known as AB 540
Effective Jan. 1, 2018)

INSTRUCTIONS
Complete and sign this form to request exemption from nonresident tuition charged to nonresident students. Once determined to be eligible, you will continue to receive the exemption as long as you fulfill eligibility requirements or until the College or University no longer offers this exemption. Applying for this exemption does not alter your responsibility to pay, by the campus deadline, any nonresident tuition and associated fees that may be due before your eligibility is determined.

APPLICATION
Name__________________________________________ College Student ID: ____________________________

I, the undersigned, am applying for the California Nonresident Tuition Exemption at (specify the College) ___________________________________________ and declare that the following apply to me.

1.) Check one box only:
   - [ ] I have a current nonimmigrant visa (not including a T and U visa) as defined by federal law.
     Nonimmigrants have been admitted to the U.S. on a temporary visa and include, but are not limited to, foreign students (holding F visas) and exchange visitors (holding J visas).

   - [ ] I have a current nonimmigrant T or U visa as defined by federal law.

   - [ ] I do NOT have a current, nonimmigrant visa as defined by federal law.
     This includes, among others, U.S. citizens, permanent residents, DACA recipients, and individuals without current or valid immigration status.

2.) Select all items that apply to you from each column (must satisfy at least one from each column to be eligible):

   **Column A**
   - [ ] I have 3 years of attendance at a California high school.
   - [ ] I have 3 or more years of high school coursework and 3 years of attendance in California elementary schools, California secondary schools, or a combination of California elementary and secondary schools.
   - [ ] I attended or attained credits at a combination of California high school, California adult school, and/or California Community College for the equivalent of (3) years or more.*

   **Column B**
   - [ ] I have graduated or will graduate (before the first term of enrollment at the CCC) with a California high school diploma or the equivalent (i.e., California-issued GED, CHSPE).
   - [ ] I completed or will complete (before the first term of enrollment at the CCC) an associate’s degree from a California Community College.
   - [ ] I completed or will complete (before the first term of enrollment at the CCC) the minimum requirements at a California Community College for transfer to the California State University.

* A year’s equivalence at a California Community College is either a minimum of 24 semester units of credit or 36 quarter units. Only two (2) years of full-time attendance in credit courses at a California Community College will count.

Revised February 26, 2020
toward the three (3) or more years of attendance. For noncredit courses, a year’s attendance is a minimum of 420 class hours per year (a semester is equivalent to a minimum of 210 hours and a quarter is equivalent to a minimum of 140 hours). Full-time attendance at a California adult school is a minimum of 420 hours of attendance for each school year.

Please provide information on the schools you attended and referenced above, including the dates you attended and the number of credits or hours obtained:

Applicants must submit, as part of this form, official transcripts/attendance records that validate any of the information above as requested by the College, District, or University residence official.

**AFFIDAVIT:**
By signing this document below, I hereby state that if I am a non-citizen without a current or valid immigration status, I have filed an application to legalize my immigration status or will file an application as soon as I am eligible to do so.

**DECLARATION OF TRUE AND ACCURATE INFORMATION:**
I, the undersigned, declare under penalty of perjury that the information I have provided on this form is true and accurate. I understand that this information will be used to determine my eligibility for the California Nonresident Tuition Exemption. I further understand that if any of the above information is found to be false, I will be liable for payment of all nonresident tuition charges from which I was exempted and may be subject to disciplinary action by the College or University.

Chapter 2: Financial Aid

Financial Aid/Scholarships
(530) 242-7650 Room 139

FINANCIAL AID
The Financial Aid Office assists students in funding their educational objective through federal and state financial aid programs. We seek to identify eligibility for and award as many eligible students within an adequate time frame to enable students to financially prepare for school. It is our belief that a well-prepared student is a successful student. Awarding financial aid equips our students with the resources needed to successfully accomplish their declared educational goals. Fundamental principles of administering financial aid are that the primary responsibility for the cost of a college education belongs to the student and their family. Financial aid is intended to supplement the family’s own resources and contributions and be a bridge to increase the access to higher education for students with financial need.

HIGH SCHOOL DIPLOMA REQUIREMENT
Students must have a high school diploma or its equivalent to meet one of the minimum eligibility requirements for receiving federal and most state financial aid. If a student receives Title IV financial aid and does not have a high school diploma, or its equivalent, the student will be responsible to repay any funds received.

SELECTIVE SERVICE REQUIREMENT
All individuals, born male, that are 18 years of age or older must be registered for selective service in order to meet a minimum eligibility requirement for receiving federal financial aid.

FINANCIAL AID WEBPAGE AND MYSHASTA
The Financial Aid webpage is located at shastacollege.edu/fa and provides information about the financial aid process as well as current information on important updates. Access this page for answers to your questions about financial aid or information regarding specific documents needed or information related to their financial aid processing, students should refer to their MyShasta account. Students will be notified via email as to their status during the financial aid evaluation process. Students without email should create an email account and update their information in MyShasta or through Admissions and Records. The financial aid office’s main method of communication to students is via email or calling the main line at (530) 242-7650. Specific questions relating to financial aid can be answered in person, over the phone, or by email. If a student has a more complex issue, our staff may recommend an appointment with a Financial Aid Specialist and can set up that appointment. A student’s identity will be verified before releasing any identifiable personal information related to the student’s account. The student must be present or provide a written authorization (Release of Information form) along with a photo ID in order to release any information to family members.

BOOK ASSISTANCE (GRANTS/LOANS)
Visit www.shastacollege.edu/fa_books for the many resources regarding assistance with books.

SCHOLARSHIPS
The Financial Aid Office administers a scholarship program that awards more than $180,000 to students each year. Not all scholarships are based on academic achievement; some consider financial need, field of study, and other academic/professional interests. Shasta College scholarship offerings are exclusively available to Shasta College students. Visit www.shastacollege.edu/fa_scholarships for more information.

Financial Aid for Enrollment Fees

If you are a California resident, or are classified as an AB540 student with Admissions and Records, you may qualify for a California College Promise Grant (CCPG) to cover your enrollment fees. The 2021-2022 CCPG covers the Summer 2021, Fall 2021, & Spring 2022 per-unit enrollment fees. There are three methods by which to qualify for the CCPG. To be evaluated for Method A and B, students may complete an online application found at www.shastacollege.edu/fa_ccpg. Students need to reapply once per academic year (beginning of March during the spring semester) to have their eligibility evaluated for one of the following methods:

1. **Method A (CCPG A):**
   - If you or your parent(s) are currently receiving monthly cash assistance for yourself or any dependents:
a. Temporary Assistance for Needy Families (TANF) / CalWORKs; or
b. Supplemental Security Income (SSI/SSP); or
c. General Assistance

Or fall into one of the following special classifications:

a. Deceased/Disabled Veterans Dependent’s Fee Waiver – Certification provided by the California Department of Veterans Affairs or your county Veterans Services Office or the National Guard Adjutant General.

b. A recipient of the Congressional Medal of Honor or a child of a recipient, or a dependent of a recipient of the September 11, 2001 terrorist attack.

c. A dependent of deceased law enforcement/fire suppression personnel killed in the line of duty.

2. Method B (CCPG B):

For 2021-2022, if you fall within these income levels:

<table>
<thead>
<tr>
<th>Family Size</th>
<th>Base Year (2018) Income</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>$19,140</td>
</tr>
<tr>
<td>2</td>
<td>$25,860</td>
</tr>
<tr>
<td>3</td>
<td>$32,580</td>
</tr>
<tr>
<td>4</td>
<td>$39,300</td>
</tr>
<tr>
<td>5</td>
<td>$46,020</td>
</tr>
<tr>
<td>6</td>
<td>$52,740</td>
</tr>
<tr>
<td>7</td>
<td>$59,460</td>
</tr>
<tr>
<td>8</td>
<td>$66,180</td>
</tr>
<tr>
<td>+</td>
<td>Add $6,720 for each additional family member</td>
</tr>
</tbody>
</table>

3. Method C (CCPG C):

Students who do not meet Method A or B standards should submit the Free Application for Federal Student Aid (FAFSA), found at www.fafsa.ed.gov, or for students who are undocumented and qualify for AB540, the CA DREAM Act Application (CADAA), found at https://dream.csac.ca.gov/, to be considered for the California College Promise Grant through Method C (if your data shows a need of $1,104.00 or higher).

DEADLINES

To file for a CCPG through the FAFSA or the CADAA, apply now. Applications can take 2-4 weeks to process depending on the time of year. Plan on applying for the CCPG at least two weeks prior to registration. If awarded, the CCPG will waive the per-unit enrollment fees (currently $46/unit) at the time of registration. The CCPG does not waive the Campus Center or Health Center fees for each term.

Students who are awarded a CCPG after they have paid their enrollment fees will be reimbursed only for the semester in which they are granted the CCPG. The fee waiver will not be applied retroactively to prior semesters. The release of CCPG reimbursements are administered through the Admissions and Records Office.

For further information contact: SHASTA COLLEGE FINANCIAL AID OFFICE, Room 139, by phone (530) 242-7650 or via email at financialaid@shastacollege.edu

LOSS OF A CALIFORNIA COLLEGE PROMISE GRANT

Beginning Fall 2016, a student shall become ineligible for a California College Promise Grant (CCPG) if the student is placed on academic or progress probation, or any combination thereof, for two consecutive primary terms. Loss of eligibility shall become effective at the first registration opportunity after such determination is made. The District shall notify students of their placement on academic or progress probation no later than thirty days following the end of the term that resulted in the student's placement on probation.

There are a number of student support services available to assist students in maintaining eligibility, including counseling, assessment, tutoring, and education planning services. Please call 530-242-7650 for additional information. Students are also advised to schedule an appointment with a counselor to determine which student support services would best assist them in maintaining and reestablishing CCPG eligibility.

A student may appeal the loss of a CCPG due to any of the following:

1. Extenuating circumstances;
2. When a student with a disability applied for, but did not receive, a reasonable accommodation in a timely manner;
3. Changes to a student’s economic situation;
4. Evidence a student was unable to obtain essential support services; and/or
5. Special consideration of factors for CalWORKs, EOPS, PACE, and Veteran students.

Extenuating circumstances are verified cases of accidents, illnesses, or other circumstances that might include documented changes in the student’s economic situation or evidence that the student was unable to obtain essential student support services. Extenuating circumstances also include special consideration of the specific factors associated with Veterans, CalWORKs, EOPS, and PACE student status. Students who have demonstrated significant academic improvement may retain or appeal the loss of the California College Promise Grant. Significant academic improvement is defined as achieving no less than the minimum grade point average and progress standard established in section 55031 (a) and (b). A student who successfully appeals the loss of enrollment priority shall also have California College Promise Grant eligibility restored.

Foster Youth shall not be subject to loss of the California College Promise Grant (BOG) due to placement on academic or progress probation. This exemption for Foster Youth is effective until the date specified in Education Code section 66025.9(c).

A California College Promise Grant appeal form may be obtained at the Admissions and Records Office or online at www.shastacollege.edu/admissions (look for “Forms for Students” and “Appeals and Waivers”). The completed California College Promise Grant Appeal Form may be submitted via email to admissions@shastacollege.edu, in person to the Admissions and Records Office in Building 100, room 139, or via mail to: Admissions and Records Department, 11555 Old Oregon Trail, P.O. Box 496006, Redding, CA 96049-6006, Attn: Appeals Committee. Please include all supporting documentation with your completed appeal form.

The fee waivers subject to revocation are described in California Education Code (CEC) Section 76300(g)(1). Other fee waivers, such as the College Tuition Fee Waiver for Veteran Dependents (CalVET), authorized outside of Section 76300(g)(1) are considered special categories and are not subject to loss due to the Section 76300(g)(1) standards.

Registration and Related Fees

Refer to Chapter 1 – Admission and Enrollment Information.

Debts Owed to the College

Students who fail to comply with College rules or regulations, return property owned by the College, pay debts owed to the College, or pay for damaged College property may not be allowed to register, receive degrees or certificates, receive enrollment verifications, and/or receive other services related to student records. If payment is not received within a reasonable timeframe, the students account may be sent to collections through the Chancellors Office Tax Offset Program (COTOP). When the student has cleared the obligation with the College, the impoundment of records will be removed.

If a student has received financial aid and has an overpayment or owes money to the College due to a Return to Title IV obligation, the student will be held to the institutional policy stated above.

If a student has a current balance owed to the College and the student is trying to register, they may set up a Payment Plan through NelNet, the College’s payment plan partner, at www.shastacollege.edu/paymentplan.

Interest Areas

Interest areas are groups of related programs that sometimes share common courses. If you are not sure what you want to do, selecting an interest area can help you decide. There are 10 interest areas included in the information below, along with the areas of study and degrees and certificates within each area. Start here to explore your options.

Degree Requirements

The information provided below gives a brief description of the degrees offered at Shasta College. It does not outline all of the requirements to obtain a degree from Shasta College or all of the requirements to transfer to a four-year college or university. All students should schedule an appointment to speak with a counselor to ensure that they meet all of the degree and/or transfer requirements. Meeting with a counselor also helps ensure that the student is pursuing a degree that meets his or her educational and career goals.

TRANSFER DEGREES

The following associate degrees for transfer are designed for the student who wishes to complete lower-division requirements in preparation for transfer to a four-year college or university.

Associate Degrees for Transfer (ADTs)
Associate of Arts – University Studies Degrees
Associate of Arts (Music) Degree
Associate of Science (Health Information Technology) Degree

ASSOCIATE DEGREE FOR TRANSFER (ADT) Requirements

Designed for the student planning on transferring to the California State University (CSU) system. Students complete the CSU or IGETC general education pattern and specific courses related to their major. Students who are awarded these degrees are guaranteed admission with junior standing somewhere in the CSU system and given priority admission consideration to their local CSU campus or to a program that is deemed similar to their community college major. This priority does not guarantee admission to specific majors or campuses. This degree requires a minimum of 60 transferable units. The student completing this degree is not subject to specific community college graduation requirements.

Students who have been awarded an AA-T or AS-T are able to complete their remaining requirement for the 120-unit baccalaureate degree within 60 semester or 90 quarter units.

Current and prospective community college students are encouraged to meet with a counselor to review their options for transfer and to develop an educational plan that best meets their goals and needs. Shasta College offers the following AA-T/AS-T degrees:

- Administration of Justice
- Agriculture Animal Science
- Agriculture Business
- Agriculture Plant Science
- Business Administration
- Communication Studies
- Computer Science
- Early Childhood Education
- English
- Geography
- Geology
- History
- Hospitality Management
- Kinesiology
- Mathematics
- Music
- Philosophy
- Physics
- Political Science
- Psychology
- Sociology
- Studio Arts
- Theatre Arts

REQUIREMENTS:

1. **Unit Requirement:** Minimum of 60 California State University (CSU) transferable semester units, courses numbered 1-99 at Shasta College.

2. **Scholarship Requirement:** An overall grade point average (GPA) of not less than 2.0 in all transferable coursework. While a minimum of 2.0 is required for this degree, some majors or transfer universities may require a higher GPA. Please consult with a counselor for more information.

3. **Residence Requirement:** A minimum of 12 degree-applicable units must be completed through Shasta College. At least 6 of those units must apply to the Shasta College major/emphasis or be C-ID approved toward the major.

4. **Course Requirements:**
   a. **Major Field of Study:** Select an “AA-T” or “AS-T” major. All courses in the major must be completed with a grade of “C” or higher, or a “P” if the course is taken on a Pass/No Pass basis.
   b. **General Education:** Certified completion of the California State University General Education (CSU GE); OR the Intersegmental General Education Transfer Curriculum (IGETC). Note: (1) If completing IGETC all courses must be completed with a grade of “C” or higher, or a “P” if the course is taken on a Pass/No Pass basis; (2) Although it is possible to fulfill the requirements for the Associate Degree for Transfer by completing the IGETC for UC pattern, admission to CSU requires completion of an Oral Communication course (IGETC area 1C; CSU GE area A-1); therefore, students who plan to transfer to CSU should complete this course as part of their GE or elective units.
      i. Advanced Placement (AP) examination credit can be used to satisfy both CSU GE and IGETC.
      ii. Credit through the College Level Examination Program (CLEP) can be used to satisfy CSU GE. Note: The University of California does not accept credit awarded through CLEP.

5. **Competency Requirements:** Oral Communication, English Composition, Critical Thinking, and Quantitative Reasoning courses must be completed with a grade of “C” or higher.

6. **These degrees do not require completion of a multicultural course for Shasta College graduation purposes.**

7. **Multiple Associate Degrees:** Students planning to earn an additional associate degrees should be aware that each additional degree requires six unique units in the major requirements from any other degree major requirements. General Education requirements may overlap. A student may be able to accomplish multiple degrees within 60 units. Students are advised to work closely with a Counselor on their educational plans if their goals include earning multiple degrees.
ASSOCIATE OF ARTS DEGREE – UNIVERSITY STUDIES Requirements

Designed for students who plan on transferring to a four-year college or university. Students complete a General Education pattern, one emphasis area, and electives to total a minimum of 60 transferable units for the AA degree.

Shasta College offers the following University Studies Degrees:

- Agriculture Sciences
- Allied Health
- Behavioral Science
- Biological Sciences
- Business Administration
- Earth System Science
- Engineering
- Humanities
- Language Arts
- Liberal Studies–Teaching Prep
- Meteorology/Climatology
- Multicultural Studies
- Natural Sciences
- Oceanography
- Physical Education
- Physical Sciences
- Quantitative Reasoning
- Science Teacher – Earth
- Social Sciences
- World Languages

UNIVERSITY STUDIES DEGREE LEARNING OUTCOMES:

After successful completion of a University Studies degree, the student should be able to meet the following learning outcomes:

1. Critical Thinking: Critical thinking is the ability to comprehend, communicate, or engage in problem-solving or strategy-building techniques.
2. Information Competency: Information competency is the ability to find, evaluate, use and communicate information in all its various formats.
3. Effective Communication: Effective communication is the ability to effectively use written, oral and nonverbal communication.
4. Quantitative Reasoning: Quantitative reasoning is the ability to use appropriate mathematical methods.
5. Self-Efficacy: Self-efficacy is the confidence and ability to perform the courses of action required to effectively meet personal, social, academic and professional goals.
6. Workplace Skills: Workplace skills provide the ability to perform effectively at work.
7. Community and Global Awareness: Community and global awareness includes an understanding of community and global issues and cross-cultural awareness.

REQUIREMENTS:

1. Unit Requirement: Minimum of 60 transferable semester units, courses numbered 1-99 at Shasta College. Note: Please see a counselor to ensure that all of your units are transferable since there are some exceptions to this rule.
2. Scholarship Requirement: An overall grade point average (GPA) of not less than 2.0 in all transferable coursework. While a minimum of 2.0 is required for this degree, some majors or transfer institutions may require a higher GPA. Please consult with a counselor for more information.
3. Residence Requirement: A minimum of 12 degree-applicable units must be completed through Shasta College. At least 6 of those units must apply to the Shasta College major/emphasis or be C-ID approved toward the major.
4. Course Requirements:
   a. Major Field of Study: Select a University Studies emphasis area. All courses in the emphasis area must be completed with a grade of “C” or higher.
   b. General Education: Completion of one of three general education options. Note: If completing Intersegmental General Education Transfer Curriculum (IGETC) all courses must be completed with a grade of “C” or higher.
      i. Advanced Placement (AP) examination credit can be used to satisfy both California State University General Education (CSU GE) and IGETC.
      ii. Credit through the College Level Examination Program (CLEP) can be used to satisfy CSU GE. Note: The University of California does not accept credit awarded through CLEP.
5. Competency Requirements:
   a. English Composition, Critical Thinking, and Quantitative Reasoning courses must be completed with a grade of “C” or higher. Note: If you are completing General Education options 2 or 3, an Oral Communication course is also required to be completed with a grade of “C” or higher.
   b. Multicultural Requirement: Courses in the Multicultural requirement area contain perspectives on people from other cultures and backgrounds as well as an examination of the contributions of non-Western cultures, or the intersection of culture with race, ethnicity, gender, class or other important social categories, such as religion. After successful completion of a course from this area, a student will be able to summarize various ethnic, racial, religious, gender, traditions, class and other group perspectives as well as their similarities and differences.

| ADJU 18 | CHIN 1 | FREN 1, 2, 3, 4 | HOSP 55 | SOC 25, 30 |
| ANTH 2, 14, 25 | CMST 20 | GEOG 1B, 7, 8 | JAPN 1, 2, 3, 4 | SPAN 1, 2, 3, 4, 11, 12 |
| ART 4 | ECE 28 | GERM 1, 2 | MUS 14 | |
| ASL 1, 2, 3, 4 | ENGL 10A, 10B, 18, 20, 24 | HIST 2, 3, 25, 35, 36, 38 | HPS 20 | |
| BUAD 12 | ETHS 11, 25, 35 | HLTH 6 | MUS 11 | |

6. Multiple Associate Degrees: Students planning to earn an additional associate degrees should be aware that each additional degree requires six unique units in the major requirements from any other degree major requirements. General Education requirements may overlap. A student may be able to accomplish multiple degrees within 60 units. Students are advised to work closely with a Counselor on their educational plans if their goals include earning multiple degrees.
Choose one GE Option, one Emphasis, and transferable electives to total 60 units for the Associate of Arts – University Studies degree.

- **General Education – Choose Option 1, 2 or 3.**

  **OPTION 1: IGETC (Intersegmental General Education Transfer Curriculum)**
  Students who are planning to transfer to the **University of California** system or who are undecided about whether to transfer to a UC or CSU may satisfy general education requirements with IGETC.

  1. Complete the 34 – 37 unit IGETC pattern.
  2. Complete all IGETC courses with a grade of “C” or better.
  3. Complete additional courses from an emphasis to meet the lower division requirements in your major and then electives to reach 60 units. UC transfer students must select all 60 units from courses on the UC transferable course list. (See www.assist.org)
  4. Achieve a minimum grade point average of 2.0. [UC will require a minimum transfer GPA of 2.4. A higher GPA will be required for admission to most campuses and for high demand majors.] All courses in the area of emphasis must be completed with a C or better.

  **OPTION 2: CSU GE (California State Universities – General Education)**
  Students who are planning to transfer to one of the 23 campuses of the **California State University** system may satisfy general education requirements with the CSU pattern.

  1. Complete the 39-unit CSU GE pattern.
  2. Complete Communication, English, Critical Thinking, and Math requirements (Area A1, A2, A3 and B4) each with a grade of “C” or better.
  3. Recommend completion of HIST 17A or 17B; and POLS 2 prior to transfer. These two courses are CSU graduation requirements and may be included as part of the 39-unit pattern.
  4. Complete additional courses from an emphasis to meet the lower division requirements in your major and then electives to reach 60 units.
  5. Achieve a minimum grade point average of 2.0. [A higher GPA will be required for admission to some campuses and for high demand and impacted majors.] All courses in the area of emphasis must be completed with a C or better.

  **OPTION 3: Independent, Out-of-state universities, and high unit/specialized majors**
  Complete 30 units to satisfy a GE-modified plan as indicated below:

  **CSU GE Pattern:**
  - Select one course from each Category.
  - CATEGORY A1: Oral Communication
  - CATEGORY A2: English Composition
  - CATEGORY B1 or B2: Science course
  - CATEGORY B4: Transfer-level math course
  - CATEGORY C1 or C2: Arts or Humanities
  - CATEGORY D: Social, Political and Economic institutions, and Behavior

  *Multicultural course

  Select additional courses from categories A3, B, C, D, or E from two different areas to total 30 or more GE units.

  *Note: Any student completing the IGETC or CSU General Education requirements with the inclusion of a multicultural course will also have met the general education requirements for the Shasta College associate degree.

- **Emphasis:** Choose one of the University Studies emphases of 18 or more units to correspond with your choice of transfer major. Note that each university determines its own list of courses required for the major, so completion of an emphasis does not guarantee that all transfer major courses have been completed nor does it guarantee admission to the University. See a Counselor for comprehensive planning.

- **Multicultural requirement**

- **Electives:** Complete transferable electives to total 60 or more transferable units.

- **Course requirements:** All courses in the area of emphasis must be completed with a C or better.

### ASSOCIATE OF ARTS DEGREE – MUSIC Requirements

Designed for the student planning on transferring to a four-year college or university. Students complete the CSU or IGETC general education pattern and the “Core Courses” electives to total a minimum of 60 transferable units.

**REQUIREMENTS:**

1. **Unit Requirement:** Minimum of 60 transferable semester units, courses numbered 1-99 at Shasta College.

2. **Scholarship Requirement:** An overall grade point average (GPA) of not less than 2.0 in all transferable coursework. While a minimum of 2.0 is required for this degree, some majors or transfer institutions may require a higher GPA. Please consult with a counselor for more information.

3. **Residence Requirement:** A minimum of 12 degree-applicable units must be completed through Shasta College. At least 6 of those units must apply to the Shasta College major/emphasis or be C-ID approved toward the major.

4. **Course Requirements:**
   a. **Major Field of Study:** All courses in the major must be completed with a grade of “C” or higher.
   b. **General Education:** Certified completion of the California State University General Education (CSU GE); OR the Intersegmental General Education Transfer Curriculum (IGETC). **Note:** If completing IGETC all courses must be completed with a grade of “C” or higher.
REQUIREMENTS:

1. Advanced Placement (AP) examination credit can be used to satisfy both CSU GE and IGETC.
2. Credit through the College Level Examination Program (CLEP) can be used to satisfy CSU GE. Note: The University of California does not accept credit awarded through CLEP.

5. Competency Requirements:

a. English Composition, Critical Thinking, and Quantitative Reasoning courses must be completed with a grade of “C” or higher. Note: If completing the CSU GE pattern you must also complete an Oral Communication course with a grade of “C” or higher.

b. Multicultural Requirement: Courses in the Multicultural requirement area contain perspectives on people from other cultures and backgrounds as well as an examination of the contributions of non-Western cultures, or the intersection of culture with race, ethnicity, gender, class or other important social categories, such as religion. After successful completion of a course from this area, a student will be able to summarize various ethnic, racial, religious, gender, traditions, class and other group perspectives as well as their similarities and differences.

6. Multiple Associate Degrees: Students planning to earn an additional associate degrees should be aware that each additional degree requires six unique units in the major requirements from any other degree major requirements. General Education requirements may overlap. A student may be able to accomplish multiple degrees within 60 units. Students are advised to work closely with a Counselor on their educational plans if their goals include earning multiple degrees.
NON-TRANSFER DEGREES

The following associate degrees for non-transfer are designed for the student whose immediate goal is to seek out employment after completion of the degree, not to transfer to a four-year college or university.

Associate of Arts (Art) Degree
Associate of Science Degrees
Associate of Science – General Studies Degrees

ASSOCIATE OF ARTS DEGREE – ART Requirements

Designed for students desiring a two-year degree to prepare to enter the workforce or continue in their current career. Students complete the Associate Degree-General education, the “Core” courses in their major, and 60 units of coursework at the associate and transfer level.

REQUIREMENTS:

1. **Unit Requirement**: Minimum of 60 semester units of coursework, numbered 1-199 at Shasta College.

2. **Scholarship Requirement**: An overall grade point average (GPA) of not less than 2.0 based on all college work attempted.

3. **Residence Requirement**: A minimum of 12 degree-applicable units must be completed through Shasta College. At least 6 of those units must apply to the Shasta College major/emphasis or be C-ID approved toward the major.

4. **Course Requirements**:
   a. **Major Field of Study**: All courses in the major must be completed with a grade of “C” or higher.
   b. **General Education**: 21-39 units. Select Associate Degree General Education, California State University General Education (CSU GE), or Intersegmental General Education Transfer Curriculum (IGETC). Note: Any student completing the CSU GE or IGETC requirements will also have met the Associate Degree General Education requirements for this degree.
      i. Advanced Placement (AP) examination credit can be used to satisfy Associate Degree General Education, CSU GE, or IGETC.
      ii. Credit through the College Level Examination Program (CLEP) can be used to satisfy Associate Degree General Education or CSU GE. Note: The University of California does not accept credit awarded through CLEP.

5. **Competency Requirements**:
   a. Competence in reading and in written expression is demonstrated by a grade of “C” or higher in one of the following courses. Note: Some degrees require completion of a specific course.
      - ENGL 1A College Composition
      - BUAD 66 Business Communications
   b. Competence in mathematics is demonstrated by one of the following criteria:
      1. A grade of “C” or higher in one of the following courses or a mathematics course numbered from 1-99. Note: Some degrees require completion of a specific course.
         - MATH 102 Intermediate Algebra
         - MATH 102X Intermediate Algebra with Support
         - MATH 110 Essential Math
         - BUAD 172 Business Math
      2. Performance at or above the level specified below on the following examinations:
         - Examination Score
         - College Board Advanced Placement Math Test (CALC or STAT) 3
         - Scholastic Aptitude Test – Mathematics (SAT-M) 570 (Beginning 3/2017)
         - American College Testing (ACT) – Math 23
         - COMPASS Algebra Test 54
         - Accuplacer – College Level 45
   c. Multicultural Requirement: Courses in the Multicultural requirement area contain perspectives on people from other cultures and backgrounds as well as an examination of the contributions of non-Western cultures, or the intersection of culture with race, ethnicity, gender, class or other important social categories, such as religion. After successful completion of a course from this area, a student will be able to summarize various ethnic, racial, religious, gender, traditions, class and other group perspectives as well as their similarities and differences.
      - ADJU 18

6. **Multiple Associate Degrees**: Students planning to earn an additional associate degrees should be aware that each additional degree requires six unique units in the major requirements from any other degree major requirements. General Education requirements may overlap. A student may be able to accomplish multiple degrees within 60 units. Students are advised to work closely with a Counselor on their educational plans if their goals include earning multiple degrees.
ASSOCIATE OF SCIENCE DEGREE Requirements

The AS degree is primarily oriented to technical, science, and occupational programs. It is intended for the student who plans to enter the workforce after completion of the two-year degree. Students complete the Associate Degree-General Education, the courses in their major, and electives totaling a minimum of 60 units of coursework at the associate and transfer level.

- Administration of Justice
- Agriculture – Forest Science and Technology
- Agriculture – Horticulture and Landscaping
- Agriculture – Natural Resources
- Agriculture Science, Education, and Management
- Automotive Technology
- Business – Management
- Business – Marketing and Finance
- Business Administration – Accounting Concentration
- Business Information Systems Professional
- Computer and Information Systems – Systems Management
- Dental Hygiene
- Diesel Technology
- Early Childhood Education
- Fire Technology
- Geologic Information Systems
- Hospitality – Culinary Arts Concentration
- Hospitality – Hotel/Restaurant Management Concentration
- Human Services
- Medical Office Professional
- Nursing – Associate Degree Nursing
- Physical Therapist Assistant
- Welding Technology

REQUIREMENTS:

1. **Unit Requirement**: The majority of degrees require a minimum of 60 semester units of coursework, numbered 1-199 at Shasta College. Refer to your degree for the required number of units.

2. **Scholarship Requirement**: An overall grade point average (GPA) of not less than 2.0 based on all college work attempted.

3. **Residence Requirement**: A minimum of 12 degree-applicable units must be completed through Shasta College. At least 6 of those units must apply to the Shasta College major/emphasis or be C-ID approved toward the major.

4. **Course Requirements**:
   a. Major Field of Study: Select an Associate Degree major. All courses in the major must be completed with a grade of “C” or higher.
   b. General Education: 21-39 units. Select Associate Degree General Education, California State University General education (CSU GE) or Intersegmental General Education Transfer Curriculum (IGETC). **Note**: Any student completing the CSU GE or IGETC requirements will also have met the Associate Degree General Education requirements for this degree.
      i. Advanced Placement (AP) examination credit can be used to satisfy Associate Degree General Education, CSU GE, or IGETC.
      ii. Credit through the College Level Examination Program (CLEP) can be used to satisfy Associate Degree General Education or CSU GE. **Note**: The University of California does not accept credit awarded through CLEP.

5. **Competency Requirements**:
   a. Competence in reading and in written expression is demonstrated by a grade of "C” or higher in one of the following courses. **Note**: Some degrees require completion of a specific course.

```
ENGL 1A College Composition  BUAD 66 Business Communications
```

b. Competence in mathematics is demonstrated by one of the following criteria:

   1. A grade of "C" or higher in one of the following courses or a mathematics course numbered from 1-99. **Note**: Some degrees require completion of a specific course.

```
MATH 102 Intermediate Algebra  MATH 102X Intermediate Algebra with Support
MATH 110 Essential Math  BUAD 172 Business Math
```

6. **Multiple Associate Degrees**: Students planning to earn an additional associate degrees should be aware that each additional degree requires six unique units in the major requirements from any other degree major requirements. General Education requirements may overlap. A student may be able to accomplish multiple degrees within 60 units. Students are advised to work closely with a Counselor on their educational plans if their goals include earning multiple degrees.
ASSOCIATE OF SCIENCE – GENERAL STUDIES DEGREE Requirements

Designed for students desiring a two-year degree to prepare to enter the workforce or continue in their current career. The choice of emphasis allows the student to explore an area of interest while providing sufficient depth in a field of knowledge to contribute to lifelong interest. Students complete the Associate Degree-General Education, one emphasis area, and electives to total a minimum of 60 units of coursework at the associate and transfer level.

Shasta College offers the following General Studies Degrees:

- Agricultural Trades
- Business – Basic Business
- Climatological/Meteorological Studies
- Coastal Oceanographic Studies
- EMS – Emergency Medical Response
- Fire – Fire Investigation
- Fire – Fire Service Command, Company Officer
- Fire – Wildland Fire Behavior
- Geologic Field Studies
- Health
- Human Development
- Humanities
- Industrial Technologies
- Language Arts
- Natural Sciences
- Office and Computer Technologies
- Public Safety and Services
- Social Sciences

GENERAL STUDIES DEGREE LEARNING OUTCOMES:

After successful completion of a General Studies degree, the student should be able to meet the following learning outcomes:

1. Critical Thinking: Critical thinking is the ability to comprehend, communicate, or engage in problem-solving or strategy-building techniques.
2. Information Competency: Information competency is the ability to find, evaluate, use and communicate information in all its various formats.
3. Effective Communication: Effective communication is the ability to effectively use written, oral and nonverbal communication.
4. Quantitative Reasoning: Quantitative reasoning is the ability to use appropriate mathematical methods.
5. Self-Efficacy: Self-efficacy is the confidence and ability to perform the courses of action required to effectively meet personal, social, academic and professional goals.
6. Workplace Skills: Workplace skills provide the ability to perform effectively at work.
7. Community and Global Awareness: Community and global awareness includes an understanding of community and global issues and cross-cultural awareness.

REQUIREMENTS:

1. Unit Requirement: Minimum of 60 semester units, courses numbered 1-199 at Shasta College.
2. Scholarship Requirement: An overall grade point average (GPA) of not less than 2.0 based on all college work attempted.
3. Residence Requirement: A minimum of 12 degree-applicable units must be completed through Shasta College. At least 6 of those units must apply to the Shasta College major/emphasis or be C-ID approved toward the major.
4. Course Requirements:
   a. Major Field of Study: Select a General Studies emphasis area. All courses in the emphasis area must be completed with a grade of "C" or higher.
   b. General Education: 21-39 units. Select Associate Degree General Education, California State University General Education (CSU GE), or Intersegmental General Education Transfer Curriculum (IGETC). Note: Any student completing the CSU GE or IGETC requirements will also have met the Associate Degree General Education requirements for this degree.
      i. Advanced Placement (AP) examination credit can be used to satisfy Associate Degree General Educ., CSU GE, or IGETC.
      ii. Credit through the College Level Examination Program (CLEP) can be used to satisfy Associate Degree General Education or CSU GE. Note: The University of California does not accept credit awarded through CLEP.
4. Competency Requirements:
   a. Competence in reading and in written expression is demonstrated by a grade of "C" or higher in one of the following courses. Note: Some degrees require completion of a specific course.
      ENGL 1A College Composition BUAD 66 Business Communications
   b. Competence in mathematics is demonstrated by one of the following criteria:
      1. A grade of “C” or higher in one of the following courses or a mathematics course numbered from 1-99. Note: Some degrees require completion of a specific course.
         MATH 102 Intermediate Algebra MATH 102X Intermediate Algebra with Support
         MATH 110 Essential Math BUAD 172 Business Math
      2. Performance at or above the level specified below on the following examinations:
         
         | Examination                        | Score |
         |-----------------------------------|-------|
         | College Board Advanced Placement Math Test (CALC or STAT) | 3     |
         | Scholastic Aptitude Test – Mathematics (SAT-M)            | 570 (Beginning 3/2017) |
         | American College Testing (ACT) – Math                    | 23    |
         | COMPASS Algebra Test                                  | 54    |
         | Accuplacer – College Level                              | 45    |

6. Multiple Associate Degrees: Students planning to earn an additional associate degrees should be aware that each additional degree requires six unique units in the major requirements from any other degree major requirements. General Education requirements may overlap. A student may be able to accomplish multiple degrees within 60 units. Students are advised to work closely with a Counselor on their educational plans if their goals include earning multiple degrees.

APPLYING FOR YOUR DEGREE: Students are highly encouraged to apply for a degree and/or certificate one semester prior to completion. Please apply at: www.shastacollege.edu/applyfordegree. Shasta College Admissions and Records reserves the right to evaluate and post any degree and/or certificate for which a student is eligible. A student may submit a written request to evaluate or withdraw the evaluation of a degree or certificate. Students must submit a “Degree and Certificate” Application in order to participate in the Commencement Ceremony.

DOUBLE COUNTING: Courses may be double counted for the emphasis, the GE pattern, and/or the Multicultural/Graduation requirement. For the General Studies major, the emphasis and GE pattern must total at least 36 units. For the University Studies major, the emphasis and GE must total at least 45 units.

Note: Students also prepare to transfer to many other majors at four year universities by completing the IGETC or CSU GE certificate and the major preparation courses listed at www.assist.org

COURSE NUMBERING SYSTEM FOR SHASTA COLLEGE:
Shasta College has numbered courses to assist students in scheduling. Refer to the complete course description in the catalog for explanation of the course. Numbering is according to the following system:

0-99  Courses certified by Shasta College as meeting transfer requirements to the California State University System. The U.C. system publishes a list annually that indicates which Shasta College courses are accepted for admission. This list is available in the Transfer Center, Shasta College Admissions Office, and www.assist.org.

100-199  Courses, primarily vocational in nature, meeting Associate Degree graduation requirements. Generally not transferable to four-year institutions.

200-299  Basic skills courses designed to enable students to succeed in college level work, or pre-collegiate occupational preparation courses. These courses do not transfer or apply to an Associate Degree (Title 5, Section 55002).

300-399  Noncredit courses designed to meet specific student needs. These courses carry no unit fees.

400-499  Upper division baccalaureate-level courses for the Bachelor of Science degree in Health Information Management.
General Education - 21 units (plus a major field of study = 60 units)

The goal of general education is a more well-rounded individual with a broad understanding of the physical universe, people as individuals and as members of society, artistic and cultural expression, written composition, oral communication, analytical thinking, multicultural environments, and perspectives of people from other cultures and backgrounds.

In order to complete the General Education requirements, a student must complete twenty-one (21) units of study. Three units must be completed in each of the following areas: 1. Natural Science; 2. Social and Behavioral Sciences; 3. Humanities; 4-a. Language and Rationality. English Composition; 4-b. Oral Communication; 4-c. Analytical Thinking, and 5. Multicultural/Living Skills. A course cannot be counted in more than one area of study with the exception of the #6 Multicultural requirement. A four (4) quarter unit course is 2-2.5 semester units and satisfies an area. Total units must equal 21 or more semester units. The course used to satisfy the Multicultural Requirement may also be used to satisfy one of the other areas if appropriate.

1. NATURAL SCIENCE: Three (3) units required. Courses in the Natural Science GE area examine the physical universe, its life forms and its natural phenomena. After successful completion of a course from this area, a student will be able to use the scientific method to conduct basic experiments, collect, analyze, and evaluate data in a lab setting, or will be able to use scientific inquiry skills related to hypothesis, prediction, assumption, interpretation and evaluation.

4. LANGUAGE AND RATIONALITY: Courses in the Language and Rationality GE Area are those which study the principles and applications of language toward logical thought, clear and precise expression and critical evaluation or communication in whatever symbol system the student uses.

a. English Composition: Three (3) units required. Courses fulfilling the written composition requirement are designed to include both expository and argumentative writing. After successful completion of a course from this area, a student will be able to write clearly, logically organized essays using expository and argumentative modes and applying conventions of documentation when appropriate.

b. **Oral Communication:** Three (3) units required. Courses fulfilling the oral communication requirement are designed to emphasize the psychological, cultural, and linguistic factors which affect human communication, including how communication operates in various situations. Course content includes an emphasis on the ability to speak and listen effectively, as well as verbal and non-verbal communication. After successful completion of a course from this area, a student will be able to identify and discuss the role oral communication plays in academic, social, and professional endeavors; and will be able to demonstrate oral competency by constructing messages appropriate to particular communication situations covered in their particular courses.

c. **Analytical Thinking:** Three (3) units required. Courses fulfilling the analytical thinking requirement include mathematics, logic, statistics, computer language and programming and related disciplines. Courses in this area may be used to meet the math competency requirement. After successful completion of a course from this area, a student will be able to apply logical reasoning to collect and critically evaluate information, or construct a formal argument complete with support and reach a logical conclusion, or apply logical reasoning to solve problems.

5. **MULTICULTURAL/LIVING SKILLS** – Three (3) units required, from either area. Courses in the Multicultural/Living Skills GE area prepare students to live and work in an increasingly multicultural environment or encourage development as integrated physiological, social and psychological beings. After successful completion of a course from this area, a student will be able to compare and contrast perspectives of various cultural groups as defined by religion, ethnicity, race, gender, class or other important social categories; or identify “at risk” patterns of physical or academic or social or emotional or financial behavior and apply their knowledge and skills to assess these patterns and make recommendations for altering them; or develop the criteria for personal or professional success in a given area and then create a specific action plan that targets the criteria — along with a timeline for accountability and evaluation.

6. **MULTICULTURAL REQUIREMENT** – Three (3) units required. (Note: A course in this area may be double-counted to also satisfy one of the other areas numbered 1-5. Courses which can be double-counted are marked with an asterisk.) - Courses in the Multicultural requirement area contain perspectives of people from other cultures and backgrounds as well as an examination of the contributions of non-Western cultures, or the intersection of culture with race, ethnicity, gender, class or other important social categories, such as religion. After successful completion of a course from this area, a student will be able to compare and contrast perspectives of various cultural groups as defined by religion, ethnicity, race, gender, class or other important social categories.

# California State Universities – General Education

Shasta College students will meet the General Education requirements for all campuses of the California State University system by completing the following General Education Program. Shasta College may certify a maximum of 39 semester units from Categories A - F. Courses listed more than once may be used to fulfill the requirements of one category only.

An additional 9 units of upper division work must be taken at a CSU campus to complete the full 48-unit General Education requirement.

## CATEGORY A
Students shall select a minimum of nine (9) units in communications in the English language. Students must select one course from each area.

<table>

<td>ENGL 1B: Literature &amp; Composition</td>
</tr>
<tr>
<td>CMST 60: Public Speaking/Hnrs</td>
<td></td>
<td>PHIL 8: Logic</td>
</tr>
</tbody>
</table>

## CATEGORY B
Students shall select a minimum of nine (9) units in the physical universe and its life forms and in mathematical concepts and quantitative reasoning. Students shall select at least three units from each area. One of the courses must have a laboratory. Additional courses may be selected from any area. Courses underlined are designated as laboratory courses.

AMERICAN HISTORY AND GOVERNMENT REQUIREMENTS FOR GRADUATION FROM A CSU CAMPUS
Completion of a course in American History and a course in American Government is a requirement to graduate from any of the 23 CSU universities.
At Shasta College, HIST 17A, HIST 17B, or HIST 17BH and POLS 2 will satisfy the requirement.
CATEGORY E:

Students shall select a minimum of three (3) units in lifelong understanding and development of themselves as integrated physiological, social
and psychological entities.

E1:
*ECE 1: Human Development
ECE 2: Child, Family, Community
*ECE 9: Child Growth & Development
HLTH 1: Health and Wellness
HLTH 2: Nutrition and Fitness
HLTH 3: Substance Abuse Awareness
CATEGORY F:

HLTH 4: Women’s Health
HLTH 7: Stress Management and Health
HUSV 16: Marriage and Family
HUSV 18: Adulthood and Aging
HUSV 60: Life Management
NUTR 25: Nutrition

NUTR 25H: Nutrition/Hnrs
PSYC 1A: General Psychology
PSYC 5: Human Sexuality
PSYC 14: Personal/Social Adjustment
STU 1: College Success

Students shall select a minimum of three (3) units in Ethnic Studies.

Shasta College does not currently have any courses approved to meet Category F. Students wishing to fulfill this requirement in the 2021-2022 academic year
have the option to take an approved course from another California Community College through the California Virtual Campus (see www.cvc.edu). Students can
also elect to fulfill their Category F requirement in their second year of attendance; please check for approved courses in Fall 2022.
Students who began taking classes at Shasta College prior to Fall 2021 and who maintain catalog rights may complete previous catalog CSU GE requirements;
see a counselor for further information.
*****************************
CHICO STATE requires two courses to satisfy the U.S. Diversity & Global Cultures requirement. Both courses may be part of the 39-unit General Education
requirement.
a. Courses with one asterisk (*) meet the U.S. Diversity requirement and are “concerned primarily with the aspirations and history of ethnic subcultures”.
They are ADJU 10, ANTH 25, CMST 20, ECE 1, ECE 9, ECE 28, ENGL 18, ENGL 24, GEOG 7, HIST 25 (ETHS 25), HIST 35 (ETHS 35), PSYC 20, PSYC
41, SOC 25.
b. Courses with two asterisks (**) meet the Global Cultures requirement and are “concerned primarily with cultures and societies outside Western Heritage”.
They are ANTH 2, ANTH 14, ARCH 3, ART 1, ART 4, ENGL 10A, ENGL 10B, ENGL 20, GEOG 1B, GEOG 8, HIST 2, HIST 3, HIST 36, HIST 38, HLTH
6, MUS 14, POLS 20.
******************************
Courses taken for CSU General Education are applied to categories based on the General Education list for the year they are completed.
This is the approved list for courses taken Fall 2021 through Summer 2022. See www.assist.org for prior years.

IGETC

(Intersegmental General Education Transfer Curriculum)

Students who are planning to transfer to the University of California system or who are undecided about whether to transfer to a UC or CSU may satisfy general education requirements with IGETC. The IGETC will permit a student to transfer from a community college to a campus in either the UC or CSU system without the need to take additional lower division general education courses to satisfy campus general education requirements. Transfer students to UC have the option of following IGETC or completing the general education requirement at the campus they plan to attend. Students pursuing majors that require extensive lower division preparation may not find the IGETC option to be advantageous. Check with a counselor before choosing your general education pattern.

IGETC courses must be completed with a "C" grade or better (P is acceptable).

**AREA 1 - ENGLISH COMMUNICATION**

<table>

| HIST 2: World Civilization to 1500 C.E. |
| POLS 20: Politics of the Developing World |
| SOC 30: Sociology of Gender |

+Transfer credit may be limited by either UC or CSU or both (usually due to duplication of content). Students should consult with a counselor for additional information.
AREA 5 - PHYSICAL AND BIOLOGICAL SCIENCES
(two courses, one Physical Science and one Biological Science for a minimum of 7 units; at least one course must include a laboratory (underlined)).

5A – PHYSICAL SCIENCES:
- ASTR 1: Astronomy: The Solar System
- ASTR 2: Stellar Astronomy
- ASTR 2H: Stellar Astronomy/Hnrs
- CHEM 1A: General Chemistry
- CHEM 1B: General Chemistry
- CHEM 18: General Chemistry
- CHEM 2A: Intro to Chemistry+
- CHEM 28: Intro to Org & Bio Chemistry+
- CHEM 10: Chemistry for Liberal Arts+
- CHEM 11: Chemistry Lab/Liberal Arts+
- CHEM 16: Chemical Problem Solving
- CHEM 70: Organic Chemistry
- CHEM 70A: Organic Chemistry Lab
- CHEM 71: Organic Chemistry
- CHEM 71A: Organic Chemistry Lab
- ESCI 1: The Active Earth
- ESCI 2: Earth: The History of Our Planet
- ESCI 3: Mineralogy & Crystal Optics
- ESCI 4: Geology & Mineralogy
- ESCI 6: Ancient Life
- ESCI 7: Intro to Geology of California
- ESCI 8: Planetary Geology
- ESCI 9: Earthquakes, Volcanoes
- ESCI 10: Environmental Geology
- ESCI 11: Paleoclimates
- ESCI 12: Earth Science Survey+
- ESCI 14: Meteorology
- ESCI 14L: Meteorology Lab
- ESCI 15: Oceanography

5B – BIOLOGICAL SCIENCES:
- AGNR 60: Environmental Science
- AGNR 61: Environmental Science Lab
- AGPS 20: Plant Science
- ANAT 1: Human Anatomy
- ANTH 1: Physical Anthropology
- BIOL 1: General Biology
- BIOL 1H: General Biology/Hnrs
- BIOL 10: General Biology+
- BIOL 10H: General Biology/Hnrs
- BIOL 10L: General Biology Lab
- BIOL 11: Diversity of Life
- BIOL 12: Field Biology
- BIOL 12L: Field Biology Lab
- BIOL 13: Intro to Human Biology+
- BIOL 15: Plants and People
- BIOL 6: Intro to Human Biology Lab+
- BOT 1: General Botany
- BOT 15: Plants and People
- BOT 17: Intro to Botany

AREA 6 - LANGUAGE OTHER THAN ENGLISH
Proficiency is required by UC. CSU transfers do not need to meet this requirement. Proficiency is defined as two years of high school study in the same language with a "C" grade or better. If you have not satisfied this requirement in high school, you must take one of these courses:

- ASL 1: American Sign Language 1
- ASL 2: American Sign Language 2
- ASL 3: American Sign Language 3
- ASL 4: American Sign Language 4
- CHIN 1: Mandarin Chinese 1
- FREN 1: French 1
- FREN 2: French 2
- FREN 3: French 3
- FREN 4: French 4
- GER 1: German 1
- GER 2: German 2
- JAP 1: Japanese 1
- JAP 2: Japanese 2
- JAP 3: Japanese 3
- JAP 4: Japanese 4
- SPAN 1: Spanish 1
- SPAN 2: Spanish 2
- SPAN 3: Spanish 3
- SPAN 4: Spanish 4
- SPAN 12: Intermediate Spanish Conversation
- MICRO 1: Microbiology
- NHIS 5: Natural History of the Neotropics
- NHIS 5L: Natural History of the Neotropics Lab
- NHIS 15: Natural History of California
- PHYS 1: Physiology
- ZOO 1: General Zoology

CSU GRADUATION REQUIREMENT IN U.S. HISTORY AND AMERICAN IDEALS
(Two courses, one from each group):

GROUP 1:
- HIST 17A: United States History
- HIST 17B: United States History
- HIST 17BH: United States History – Honors

GROUP 2:
- POLS 2: Introduction to American Government
+Transfer credit may be limited by either UC or CSU or both (usually due to duplication of content). Students should consult with a counselor for additional information.

This is the approved list for courses taken Fall 2021 through Summer 2022. See www.assist.org for prior years.
Chapter 3: Programs of Study

NOTE: Check with your counselor and/or division office regarding sequence of course offerings for degrees and certificates.

ADMINISTRATION OF JUSTICE

Administration of Justice

Associate in Science for Transfer:

SC Program: AS-T.1003

PROGRAM DESCRIPTION: This course of study prepares students for transfer to complete work for a bachelor's degree in criminal justice or economic crime investigation. Students will be able to describe the individual functions and components of the modern criminal justice system; use introductory concepts of legal research to locate, analyze, and discuss the content of statutory and case law; and explain the underlying cause of antisocial and criminal behavior. Proper selection of curriculum electives further enables students to study other academic disciplines, such as political science, sociology, and public administration. This program is appropriate for students considering law school as well as certain careers in law enforcement.

This degree is approved through the California Community College Chancellor's Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student's transcript will reflect completion of this degree.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this degree, the student should be able to:
1. Identify and apply communication skills when interacting with all people.
2. Identify the need for understanding diverse populations in the criminal justice field and establish strategies for effectively communicating with those diverse populations.
3. Identify the cultural differences found in most communities and apply methods of effectively bridging those differences.
4. Demonstrate and apply critical thinking skills in dealing with ethical decision making within the criminal justice system.
5. Demonstrate the ability to locate resources which enable the resolution of problems within the community and the participants of the criminal justice system.
6. Recognize the major impact ethics and morality has on the citizens the law enforcement profession serves and the daily interaction with others within the criminal justice system.
7. Develop effective writing skills to properly document law enforcement priorities.
8. Demonstrate an understanding of the theory and application of law enforcement rules, regulations, and applicable laws.
9. Demonstrate the ability to make the correct decision during critical life-threatening situations.

REQUIREMENTS:
In addition to the 37-39 unit general education pattern for CSU or IGETC, students must complete the core courses listed below for the Associate in Science in Administration of Justice for Transfer Degree. Students must also obtain a minimum grade point average of 2.0 and a C or better in each major course, or a "P" if the course is taken on a Pass/No Pass basis.

Associate in Science:

SC Program: AS.1001

PROGRAM DESCRIPTION: The Administration of Justice Program (AOJ) is designed to provide professional courses in AOJ fields for the pre-service student, and for the criminal justice employee preparing for promotional exams or to upgrade or maintain skills and knowledge. At Shasta College, you will receive occupational training for both the entrance and promotional levels of AOJ agencies and allied services. With additional general education courses, you will also be able to fulfill the requirements to transfer to a four-year college with junior standing. A variety of agencies exist at the federal, state and local levels of government; and also through private industry.

This degree is approved through the California Community College Chancellor's Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student's transcript will reflect completion of this degree.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this degree, the student should be able to:
1. Explain the evolution of the criminal justice system, its objectives, role and trends.
2. Describe common California criminal law concepts, Constitutional Rights, and the core principles that peace officers must follow.
3. Display their knowledge of evidence collection, chain of evidence, submission of evidence, and legal requirements for the handling of evidence.
4. Demonstrate their knowledge of the California court criminal system, law enforcement report writing, and court testimony.
5. Illustrate the process of a fundamental criminal investigation and the follow up process that can lead to submission to the district attorney, court system, and corrections.
6. Identify issues and strategies that pertain to police relations with a diverse community.

Public Safety and Services

General Studies – 18 Unit Emphasis:

SC Program: AS.1503

This emphasis permits the student to explore courses in the field of public safety and for current law enforcement personnel to earn an associate degree for advancement in the field.

PROGRAM LEARNING OUTCOMES:

For General Studies Degree Learning Outcomes, see page 36.

Required Core:

Complete the following course:

ADJU 10 Introduction to Administration of Justice (3)

Choose five courses from the following list:

ADJU 15, 16, 17, 18, 20, 21, 22, 23, 26, 30, 40, 106

SOC 2

*May be used to fulfill General Education requirements. See a counselor.

ASSOCIATE IN SCIENCE DEGREE REQUIREMENTS:

Major 30
Additional General Education 18
General Electives 12
Degree Total 60*

*Note: Calculation assumes a student will double-count the Multicultural graduation requirement with either a social science or humanities G.E. requirement. If students plan well and see a counselor, they may be able to double count the Multicultural units. If this graduation requirement is added, the number of units is increased by 3 units.

AGRICULTURE

Agriculture Animal Science

Associate in Science for Transfer:

SC Program: AS-T.2003

PROGRAM DESCRIPTION:

This program provides students with the opportunity to meet the requirements for transfer to the California State University system in Animal Science or a similar major. Animal Science is the study of animals that provide food, fiber, and companionship for mankind. Technological advances in the animal sciences have contributed to a safe, healthy, abundant, and inexpensive food supply. Income from animal agriculture contributes to more than 50 percent of the economic returns of American agriculture to the U.S. economy and, accordingly, career opportunities abound for those trained in animal science. The United States Department of Agriculture (USDA) reported that more than 48,000 jobs will be created annually for graduates with a degree in agriculture animal science. The USDA data also indicates that more than 48,000 jobs will be created annually for graduates with a degree in agriculture animal science.

PROGRAM LEARNING OUTCOMES:

Upon successful completion of this degree, the student should be able to:

1. Identify and implement sustainable livestock management practices that will improve livestock quality, provide efficacious management, protect the natural resources and ensure economic viability of the livestock industry;
2. Demonstrate a working knowledge of animal production life cycles that will improve livestock quality, provide efficacious management, protect the natural resources and ensure economic viability of the livestock industry;
3. Name and demonstrate proper use of equipment that-humanely confines, treats or protects livestock;
4. Identify and evaluate livestock anatomy and physiology and relate form to function;
5. Demonstrate knowledge of practical reproductive management of livestock species;
6. Define livestock nutritional needs and demonstrate proper feeding techniques related to growth, development and finishing of livestock;
7. List common infectious diseases and parasites and explain the role of preventative health; and
8. Explain marketing strategies and market classification of livestock and their products.

REQUIREMENTS:

In addition to the 37-39 unit general education pattern for CSU or IGETC, students must complete the core courses listed below for the Associate in Science in Agriculture Animal Science for Transfer Degree. Students must also obtain a minimum grade point average of 2.0 and a C or better in each major course, or a “P” if the course is taken on a Pass/No Pass basis.

REQUIRED CORE:

Complete the following course:

AGAB 54* Agriculture Economics 3
AGAS 19* Principles of Animal Science 3
CHEM 1A*# General Chemistry OR CHEM 2A*# Introduction to Chemistry 5
MATH 14*# Introduction to Statistics 4

LIST A (Select two courses, one from each area): 6

Area 1: Animal Production
AGEQ 13 Equine Science (3)
AGAS 30 Livestock Production (3)

Area 2: Animal Health
AGAS 11 Livestock Feeding and Nutrition (3)

LIST B (Select one course): 3-5
Any LIST A course not already used
AGPS 20 Plant Science (4)
AGPS 24 Soils (3)
CHEM 2B Introduction to Organic and Biochemistry (5)

*May be used to fulfill CSU General Education requirements. See a counselor.

#May be used to fulfill IGETC requirements. See a counselor.

ASSOCIATE IN SCIENCE IN AGRICULTURE ANIMAL SCIENCE FOR TRANSFER DEGREE REQUIREMENTS:

Major 24-26
General Education 37-39
General Electives 4-9*

Degree Total Will Not Exceed 60 Units

*Number will vary depending on units that double count.

Agriculture Business

Associate in Science for Transfer:

SC Program: AS-T.2003

This degree is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this degree.

PROGRAM LEARNING OUTCOMES:

Upon successful completion of this degree, the student should be able to:

1. Identify and implement sustainable livestock management practices that will improve livestock quality, provide efficacious management, protect the natural resources and ensure economic viability of the livestock industry;
2. Demonstrate a working knowledge of animal production life cycles that will improve livestock quality, provide efficacious management, protect the natural resources and ensure economic viability of the livestock industry;
3. Name and demonstrate proper use of equipment that-humanely confines, treats or protects livestock;
4. Identify and evaluate livestock anatomy and physiology and relate form to function;
5. Demonstrate knowledge of practical reproductive management of livestock species;
6. Define livestock nutritional needs and demonstrate proper feeding techniques related to growth, development and finishing of livestock;
7. List common infectious diseases and parasites and explain the role of preventative health; and
8. Explain marketing strategies and market classification of livestock and their products.

REQUIREMENTS:

In addition to the 37-39 unit general education pattern for CSU or IGETC, students must complete the core courses listed below for the Associate in Science in Agriculture Animal Science for Transfer Degree. Students must also obtain a minimum grade point average of 2.0 and a C or better in each major course, or a “P” if the course is taken on a Pass/No Pass basis.

REQUIRED CORE:

Complete the following course:

AGAB 54* Agriculture Economics 3
AGAS 19* Principles of Animal Science 3
CHEM 1A*# General Chemistry OR CHEM 2A*# Introduction to Chemistry 5
MATH 14*# Introduction to Statistics 4

ASSOCIATE IN SCIENCE IN AGRICULTURE ANIMAL SCIENCE FOR TRANSFER DEGREE REQUIREMENTS:

Major 24-26
General Education 37-39
General Electives 4-9*

Degree Total Will Not Exceed 60 Units

*Number will vary depending on units that double count.
PROGRAM DESCRIPTION: The Associate in Science in Agricultural Business for Transfer Degree (AS-T in Agricultural Business) provides students with the opportunity to meet the requirements for transfer to the California State University system in Agricultural Business. In order to earn this degree a student must complete 60 required semester units of CSU-transferable coursework with a minimum GPA of 2.0. Completing this degree guarantees admission to the CSU system but not to a particular campus or major. The degree is designed to prepare students for upper division study in Agricultural Business and related fields. Agricultural Business graduates at the bachelor's level are qualified for employment by industry in a variety of jobs, in areas such as marketing of crops and related agricultural production equipment, banking and production loans, food processing, international marketing and agricultural policy.

This degree is approved through the California Community College Chancellor's Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student's transcript will reflect completion of this degree.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this degree, the student should be able to:
1. Organize and prepare reports, presentations and other information pertaining to local business trends.
2. Describe and interpret the world markets and the effect they might have on local agriculture.
3. Explain supply and demand and how it relates to California’s agricultural economy.
4. Use computers and other technology as accounting and modeling tools.
5. Meet the requirements for transfer to a California State University with a major in Agricultural Business.

REQUIREMENTS:
In addition to the 37-39 unit general education pattern for CSU or IGETC, students must complete the core courses listed below for the Associate in Science in Agricultural Business for Transfer Degree. Students must also obtain a minimum grade point average of 2.0 and a C or better in each major course, or a "P" if the course is taken on a Pass/No Pass basis.

AGRICULTURE EQUIPMENT OPERATIONS & MAINTENANCE

Certificate:
SC Program: CL.3425

PROGRAM DESCRIPTION: This curriculum is designed to provide employable skills essential to several occupations and emphasizes the "learning-by-doing" method of instruction on modern up-to-date equipment.

This certificate is approved through the California Community College Chancellor's Office. Upon satisfactory completion of the listed requirements and filing an application for graduation with Admissions and Records, the student's transcript will reflect completion of this certificate.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this certificate, the student should be able to:
1. Understand and demonstrate safe heavy equipment operational and maintenance practices.
2. Be able to use heavy equipment to move soil to grade.
3. Be able to perform basic equipment inspections and maintenance procedures.
4. Demonstrate the knowledge and skills to survey, layout and set grade on a construction project.
5. Be able to operate and maintain heavy equipment resulting in minimum impact to the watershed and use appropriate Best Management Practices to control erosion.

TOTAL UNITS FOR CERTIFICATE 24 – 27.5

Suggested Courses: AUTO 1, CMST 54, DIES 166, DIES 170, WELD 118, WELD 170, English, Computers
Agriculture – Forest Science and Technology

Associate in Science:

SC Program: AS.1494

PROGRAM DESCRIPTION: The job market in forestry is strong with respect to both permanent and seasonal employment. On average, 70-80% of seasonal Natural Resources job openings in northern California are for forestry technicians. Duties will vary, but generally include timber inventory and marking, harvest plan layout, ecosystem restoration work, and wildlife surveys. Today, this new forestry must focus on the ecosystem as a whole while realizing we still need to provide a myriad of values from our forests. Such values include biodiversity, clean air and water, and recreation in addition to wood products. By properly applying ecological principles to manage our forests, we can enhance biodiversity and lessen the impact of our consumption on forests around the world.

On average, seasonal forestry technicians are paid anywhere from $10-$15 per hour. Permanent jobs for qualified technicians start around $30,000 - $45,000 per year with benefits. Students who complete the A.S. degree in Forest Science and Technology, with the addition of CSU General Education courses, will be well prepared to transfer to a four-year degree at Humboldt State, Cal-Poly San Luis Obispo, or other out-of-state institutions such as the University of Idaho.

Students planning to transfer to a college or university should consult a counselor to select appropriate general education and elective courses that will meet the requirements of the chosen university program.

This degree is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this degree.

PROGRAM LEARNING OUTCOMES:

Upon successful completion of this certificate, the student should be able to:

1. Have the appropriate coursework and field experience to pursue Forestry Technician jobs or to transfer to a University in a Forestry-related field.
2. Be able to properly identify common species of trees and shrubs native to the Western US by their scientific and common names and to discuss general uses, site characteristics, and geographic distributions of these species.
3. Be able to apply knowledge of the silvicultural treatments used to regulate stand, composition, regenerate stands, increase growth rates, and improve timber quality.
4. Be able to apply skills in the safe use and maintenance of tools and equipment.
5. Be able to apply computer skills using forestry-related software.
6. Be able to select and implement an appropriate protocol following the scientific method to collect, statistically analyze, evaluate, and document original research data.
7. Be able to accurately navigate in the field using maps, compass, a Global Positioning System (GPS). Students will also be able to use GPS for field data collection and Geographic Information Systems (GIS) for data mapping and display.
8. Be able to evaluate basic theory, concepts, and ecological principles as they apply to forestry, wildlife, water resources, and ecosystem Restoration and will use his/her cumulative skills to think critically and to work out possible solutions to address problems facing natural resources managers today and in the future.

DEGREE REQUIREMENTS:

CORE COURSES:

- AGNR 53 Forest Protection and Health 3
- AGNR 55 Introduction to Forest Operations 3
- AGNR 65 Forest Ecology 3
- AGNR 94 Natural Resources Worksite Learning 1
- AGPS 24* Soils 3
- BOT 1* General Botany 4
- CHEM 2A* Introduction to Chemistry 5
- GEOG 9 Map and Geospatial Principles 3
- GEOG 10 Introduction to Geographic Information Systems 3

*May be used to fulfill General Education requirements. See a counselor.

*Note: Calculation assumes a student will double-count the Multicultural graduation requirement with either a social science or humanities G.E. requirement. If students plan well and see a counselor, they may be able to double count the Multicultural units. If this graduation requirement is added, the number of units is increased by 3 units.

Agriculture – Horticulture and Landscaping

Associate in Science:

SC Program: AS.1492

PROGRAM DESCRIPTION: The horticulture industry involves growing and caring for plants, working to enhance and beautify the urban environment, and connecting people with the outdoors. The landscaping and home garden industry generates more than $78 billion annually in the USA, employing many professionals in tree and landscape care, landscape design and construction, and nursery production. This degree will prepare students for a career in both the landscape and nursery areas. Career choices include working for state and federal organizations, garden centers, nurseries, golf courses, landscape maintenance businesses, landscape design and installation, and landscape management companies. Courses include directed practical experience with landscape care and construction, irrigation, and nursery production.

Students should contact their counselor or environmental horticulture faculty advisor to choose electives for the particular career they are planning to enter. Particular attention should be paid to course prerequisites. Students planning to transfer to a college or university should consult a counselor or Horticulture Faculty Advisor regarding transfer requirements. TRANSFER REQUIREMENTS MAY BE DIFFERENT FROM A.S. DEGREE REQUIREMENTS.

This degree is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this degree.

PROGRAM LEARNING OUTCOMES:

Upon successful completion of this certificate, the student should be able to:

1. Demonstrate safe and efficient use of both nursery and landscape tools, equipment and supplies
2. Demonstrate the ability to communicate with clients, assess landscape for ecological and economic sustainability, measure and analyze a property, draft a landscape and a residential irrigation design, develop management schedules, and implement practices based on client needs.
3. Design and implement a nursery operation, select and make production schedules for greenhouse crops, and propagate, grow and market nursery crops.
4. Identify 150 landscape trees, shrubs and ground covers and select species suitable for different landscape situations.
5. Demonstrate skills to assess site or plant cultural issues and make
recommendations for enhancing the health of the landscape planting or nursery plants using integrated pest management.
6. Describe and implement both conventional and sustainable methods for use in the landscape relating to cultural practices, weed control, soil amendments, plant selection and care.
7. Be prepared to take the California Pesticide Applicators Certificate Exam with the California Department of Pesticide Regulation.
8. Explain and apply basic principles of botany to horticulture practices.
9. Safely conduct landscape construction activities in the correct construction sequence: Including the proper installation of: a landscape sprinkler system, a low-volume (drip) irrigation system, concrete and brick paved areas and landscape plants and sod.
10. Explain and apply the concepts of job estimating and laws as they pertain to landscape construction and maintenance.
11. Demonstrate landscape maintenance activities and equipment operation in a safe manner. Including the ability to test and evaluate soil fertility, select and apply fertilizers at the proper rate. Recognize common turf grass species and select proper maintenance techniques for each type of turf grass and to prune landscape trees and shrubs.
12. Demonstrate a strong work and personal ethic.
13. Demonstrate skills needed to take the Landscape Industries Certified Technician Exam.

DEGREE REQUIREMENTS:
Some of these classes require math skills. Students are encouraged to begin taking math classes early in the program.

CORE COURSES:
AG 8 Career Placement – Ag and Natural Resources 1
AGEH 10 Plant Identification and Usage 3
AGEH 22 Nursery Practices and Plant Propagation 2
AGECH 23 Nursery Practices and Management (2) OR 2-3
AGEH 50 Introduction to Tree Care and Urban Forestry (3)
AGECH 26 Integrated Pest Management in Environ. Hort. 3
AGCH 31 Landscape Irrigation 3
AGCH 33 Environmental Horticulture 3
AGCH 35 Landscape Design 3
AGCH 38 Landscape and Turf Management 3
AGCH 52 Landscape Construction OR 3
AGMA 44 Intro to Const. Skills for Ag and Nat. Res. 3
AGEH 94 Horticulture Worksite Learning 1-2
AGCH 50 Horticulture Worksite Learning 1-2
AGPS 25 California Water 3
AGPS 25* Horticulture Worksite Learning 1-2
AGPS 24* Soils 3

*May be used to fulfill General Education requirements. See a counselor.

ASSOCIATE IN SCIENCE DEGREE REQUIREMENTS:
Major 36-37
Additional General Education 18
General Electives 5-6
Degree Total 60*

*Note: Calculation assumes a student will double-count the Multicultural graduation requirement with either a social science or humanities G.E. requirement. If students plan well and see a counselor, they may be able to double count the Multicultural units. If this graduation requirement is added, the number of units is increased by 3 units.

Agriculture: Natural Resources

Certificate:
SC Program: CL.3426

PROGRAM DESCRIPTION: The Irrigation Certificate Program provides students with the skills, knowledge and hands-on experience necessary to meet the Irrigation Association standards to apply for the Auditor, Contractor or Designer Exams. Students will develop the basic skills and knowledge about irrigation principles and practices. They will explore and become familiar with the current practices in agriculture, landscape, turf management and residential industries. Students will have access to practical applications and computer training on these topics as well as worksite learning opportunities. Basic soil and plant science, electrical principles and pumping technologies will be covered.

This is a locally approved certificate. Upon satisfactory completion of the listed requirements and application for completion of the certificate to Admissions and Records, the student will receive a certificate of completion. This certificate program is not approved through the California Community College Chancellor’s Office; therefore, completion of the certificate will not be listed on the student’s transcript.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this certificate, the student should be able to:
1. Demonstrate the ability to communicate with clients, measure and analyze a property, draft a landscape and a residential irrigation design, develop water management schedules, and implement practices based on client needs.
2. Demonstrate safe and efficient use of landscape tools, equipment and supplies
3. Safely conduct landscape construction activities in the correct construction sequence for installation of: a landscape sprinkler system and a low-volume (drip) irrigation system
4. Explain and apply the concepts of job estimating and laws as they pertain to landscape construction and maintenance and utilize this information to calculate job costs.
5. Demonstrate a strong work and personal ethic.

CERTIFICATE REQUIREMENTS:

CORE COURSES:
AGEH 31 Landscape Irrigation 3
AGCH 33 Environmental Horticulture 3
AGCH 38 Landscape and Turf Management 3
AGPS 24 Soils 3
AGPS 25 California Water 3
AGCH 94 Horticulture Worksite Learning 1-2

TOTAL UNITS FOR CERTIFICATE: 16 – 17

In addition to the core courses, students will need to complete additional hours of work experience in order to take the Contractor or Designers Certification Exam with the Irrigation Association. Shasta College plans on making these opportunities available through Horticulture Worksite Learning (AGEH 94). Those students taking the Certified Irrigation Contractors exam would also need skills in layout, staking, business, management, and codes.

Agriculture: Natural Resources

Associate in Science:
SC Program: AS.1495

PROGRAM DESCRIPTION: This curriculum is designed to provide technician-level training for students interested in working in such areas as wildlife, forestry, range, and outdoor recreation. Typical employers include local, county, and U.S. Government agencies, as well as private companies. Particular attention should be paid to course prerequisites and to whether a class is taught during the fall or spring semester, or both.

This degree is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this degree.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this degree, the student should be able to:
1. Have sufficient coursework and field experience to pursue seasonal technician jobs or to transfer to a University in a Natural Resources-related field.
2. Be able to use a taxonomic key or field guide to correctly identify unknown species of plants, birds, mammals, and aquatic invertebrates to the level of genus.

3. Be able to select and use an appropriate protocol following the scientific method to collect, statistically analyze, evaluate, and document original research data.

4. Be able to accurately navigate in the field using maps, compass, a Global Positioning System (GPS). Students will also be able to use GPS for field data collection and Geographic Information Systems (GIS) for data mapping and display.

5. Be able to evaluate basic theory, concepts, and ecological principles as they apply to Forestry, Wildlife, Water Resources, and Ecosystem Restoration and will use his/her cumulative skills to think critically and to work out possible solutions to address problems facing Natural Resources managers today and in the future.

**Note:** Calculation assumes a student will double-count the Multicultural graduation requirement with either a social science or humanities G.E. requirement. If students plan well and see a counselor, they may be able to double count the Multicultural units. If this graduation requirement is added, the number of units is increased by 3 units.

### Agriculture: Natural Resources Certificate:

**SC Program: CT.3442**

**PROGRAM DESCRIPTION:** The Natural Resources curriculum is designed to meet the demand for trained personnel in a broad range of Natural Resource/Environmental Science fields in addition to numerous private organizations.

This certificate is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of the listed requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this certificate.

**PROGRAM LEARNING OUTCOMES:**

Upon successful completion of this certificate, the student should be able to:

1. Identify and apply communication skills when interacting with all people. Demonstrate the ability to communicate with clients, and assess landscape or nursery for ecological and economic sustainability.
2. Demonstrate the ability to test and evaluate soils, make recommendations for soil fertility, erosion control and irrigation management.
3. Explain and apply basic principles of botany to horticulture practices, plan growth, development and harvest.
4. Meet the requirements for transfer to a California State University with a major in Plant Science or Horticulture.

**REQUIREMENTS:**

In addition to the 37-39 unit general education pattern for CSU or IGETC, students must complete the core courses listed below for the Associate in Science in Agriculture Plant Science for Transfer Degree. Students must also obtain a minimum grade point average of 2.0 and a C or better in each major course, or a "P" if the course is taken on a Pass/No Pass basis.

**REQUIRED CORE:**

ASSOCIATE IN SCIENCE: Agriculture Science, Education, and Management

SC Program: AS.1519

PROGRAM DESCRIPTION: The Agriculture Science, Education, and Management Degree at Shasta College provides training for ranching, farming, agriculture production, and related careers in vocational education, sales, services, and distribution of agriculture-related products. In the core courses, students will receive a broad-based knowledge of agriculture, agri-business management, and sustainable agricultural production practices. The three options provide students with an opportunity to customize their degree program in Agriculture Education option, Agriculture Science option, or the Farm, Ranch, and Wildland Management option. A hands-on approach provides students with realistic training and education in livestock husbandry, crop production, farm and land management, and equipment operations and repair.

This degree is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this degree.

PROGRAM LEARNING OUTCOMES:

Upon successful completion of this degree, the student should be able to:

1. Describe the development and dissemination of modern agricultural technologies and land use practices.
2. Explain the principles of crop rotation and demonstrate the ability to develop a simple crop rotation plan.
3. Articulate problems and ask critical questions concerning agricultural sustainability.
4. Address complex agricultural problems by using systems thinking and other approaches.
5. Describe the principles and practices used to enhance and maintain biological diversity in an agricultural environment.
6. Evaluate the role of soil fertility in an ecological production system.

Agriculture Sciences

University Studies – 18 Unit Emphasis

SC Program: AA.1491

The emphasis in Agriculture Sciences is designed to provide the lower division major courses to transfer to a university and earn a Bachelor's degree in Agriculture, Agriculture Business, and Horticulture.

PROGRAM LEARNING OUTCOMES:

For University Studies Degree Learning Outcomes, see page 31.

Choose 12 – 18 units (see a counselor to select the courses appropriate for your transfer university):

AGNR 1, 4, 6, 11, 12, 50, 51, 52, 53, 55, 60, 61, 64, 65, 66A, 42, 44
AGPS 25 California Water (3)
AGPS 24 Soils (3)
CHEM 2A General Chemistry (5)

Choose the remaining 0 – 6 units from the following courses:

AG 1, 6, 9A, 71, 72, 94
AGAB 51 Agriculture Accounting (3)
AGAB 54 Agriculture Economics (3)
AGAS 11 Livestock Feeding and Nutrition (3)
AGAS 19 Principles of Animal Science (3)
AGPS 20 Plant Science (4)
AGPS 24 Soils (3)
AGSA 25 Plant Science (3)
AGVIT 80, 81
AGVIT 26 Hydroponics (5)
CHEM 12 Organic Chemistry (3)
CHEM 2A Introduction to Chemistry (5) OR CHEM 2B# Introduction to Organic and Biochemistry (5)

Agriculture Trades

General Studies – 18 Unit Emphasis:

SC Program: AS.1496

The Agriculture emphasis allows students to explore all areas of agriculture, including animal science, agriculture business, horticulture, equine, sustainable agriculture, mechanized agriculture, natural resources, and viticulture.

PROGRAM LEARNING OUTCOMES:

For General Studies Degree Learning Outcomes, see page 36.

Choose 18 units from at least three of the following areas:

AG 1, 6, 9A, 58, 71, 72
AGAS 10, 11, 15, 19, 30
AGAB 51, 53, 54
AGEH 10, 22, 23, 26, 31, 33, 35, 38, 50, 52, 60, 61, 71, 72, 94
AGEQ 12, 13, 21
AGMA 42, 44
AGNR 1, 4, 6, 11, 12, 50, 51, 52, 53, 55, 60, 61, 64, 65, 66A, 70, 94
AGPS 25
AGSA 56
AGVIT 80, 81
CHEM 2B
MATH 14

Pest Control Advisor Preparation

Certificate:

SC Program: CT.3450

PROGRAM DESCRIPTION: Pest Control Advisors (PCAs) are licensed professional production consultants who serve California agriculture, natural resource and horticulture producers. PCAs specialize in pest management, but they are also an important resource to producers in a wide range of production concerns related to plant health. This certificate satisfies the core-course requirements specified for option “3. b” in preparing to take the Pest Control Advisor’s exam with the California Department of Pesticide Regulation. The following courses need to be completed with a 2.0 grade point average or better. Note: In addition to completing the course work, the Department of Pesticide Regulation requires PCA exam applicants to have completed 24 months of technical work experience before taking the exam.

This certificate is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of the listed requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this certificate.

PROGRAM LEARNING OUTCOMES:

Upon successful completion of the certificate, the student should be able to:

1. Demonstrate the ability to communicate with clients, assess pest damage for ecological and economic sustainability, determine thresholds and implement IPM practices based on client/crop needs.
2. Explain and apply basic principles of soils, cation exchange capacity, entomology and botany to horticulture practices and pesticide mode of action.
3. Be prepared to take the California Pesticide Applicators Certificate Exam with the California Department of Pesticide Regulation.
4. Demonstrate application of pesticides in a safe manner, including proper PPE, mixing, calibration, and application.

REQUIREMENTS FOR CERTIFICATE:

To prepare for the Agriculture Pest Control Advisers exam, students will need to complete 42 units of the required curricula specified in each of the category areas below with a 2.0 grade point or better in each course.

CATEGORY 1: PHYSICAL AND BIOLOGICAL SCIENCES:

Choose 12 units from the following courses:

AGAS 11 Livestock Feeding & Nutrition (3)
AGNR 4 Introduction to Wildland and Range Ecology (3)
AGNR 6 Native Plant Identification (3)
AGNR 80 Environmental Science (3)
AGNR 65 Forest Ecology (3)
AGNR 70 Wildlife Conservation and Management (3)
AGPS 20 Plant Science (4)
BIOL 1# Principles of Biology (4)
BIOL 10 General Biology (3)
BIOL 10L General Biology Laboratory (1)
BIOL 12 Field Biology (4)
BOT 1# General Botany (4)
CHEM 2A Introduction to Chemistry (5) OR CHEM 2B# Introduction to Organic and Biochemistry (5)

CATEGORY 2: CROP HEALTH:

Choose 9 units from the following courses:

AGEH 10 Plant Identification and Usage (3)
AGEH 31# Landscape Irrigation (3)
AGEH 50 Introduction to Tree Care and Urban Forestry (3)
AGPS 24 Soils (3)
AGPS 25 California Water (3)

CATEGORY 3: PEST MANAGEMENT AND METHODS:

Choose 6 units from the following courses:

AGEH 26 Integrated Pest Management in Environmental Horticulture (3)
AGEH 61 Plant Protection Materials (3)

CATEGORY 4: PRODUCTION SYSTEMS:

Choose 6 units from the following courses:

AGAS 19 Principles of Animal Science (3)
AGAS 30 Livestock Production (3)
AGEH 22 Nursery Practices and Plant Propagation (2)
AGEH 23 Nursery Practices and Management (2)
AGEH 33 Environmental Horticulture (3)
Chapter 3: Programs of Study

AGEH 38 Landscape and Turf Management (3)
AGEH 60 Master Gardener Training (3)
AGEH 71 Organic Gardening Practices (Summer) (1)
AGEH 72 Organic Gardening Practices (Fall and Spring) (1)
AGNR 53 Forest Protection and Health (3)
AGNR 55 Introduction to Forest Operations (3)
AGVIT 81 Vineyard Care (2)

RERESTRICTED ELECTIVES: 9
Complete an additional 9 units from Categories 2 or 4 above
#Indicates at least one prerequisite is required.

TOTAL UNITS FOR CERTIFICATE: 42

Sustainable Landscape Certificate:

SC Program: CT.3431

PROGRAM DESCRIPTION: Students completing this certificate program will learn skills to prepare them for crew leadership roles within the landscape industry. The certificate allows students to complete a nine-unit core of courses and then choose between two options: a general landscape track or an arborist track. Skills required for exam preparation for industry-recognized credentials leading to irrigation, tree care, or landscape maintenance certification are embedded in the course work. The landscape industry is a fifty-eight-billion-dollar industry with job opportunities in landscape maintenance, urban forestry, irrigation management, landscape construction, and restoration.

This certificate is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of the listed requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this certificate.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of the certificate, the student should be able to:
1. Demonstrate the skills required to successfully pass the CLCA Certified Landscape Technician Exam.
2. Properly identify and prune a provided set of trees.
3. Troubleshoot and repair an irrigation system.

REQUIREMENTS FOR CERTIFICATE:

CORE COURSES:
AGRH 10 Plant Identification and Usage 3
AGRH 33 Environmental Horticulture 3
AGRH 38 Landscape and Turf Management 3

COMPLETE ONE OF THE FOLLOWING OPTIONS:

General Landscape Option
AGRH 31 Landscape Irrigation 3
AGRH 53 Landscape Construction 3
AGRH 94 Horticulture Worksite Learning 1

Arborist Option
AGRH 26 Integrated Pest Management in Environmental Horticulture 3
AGRH 50 Introduction to Tree Care and Urban Forestry 3
AGRH 94 Horticulture Worksite Learning 1

TOTAL UNITS FOR CERTIFICATE: 16

ART

Associate in Arts:

SC Program: AA.1040

PROGRAM DESCRIPTION: This curriculum qualifies the student for the AA degree in Art. Students interested in transferring should check course requirements with counselors or the transfer college.

This degree is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this degree.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this degree, the student should be able to:
1. Describe and successfully apply the elements and principles of art and design to two-dimensional compositions or three dimensional forms.
2. Select appropriate tools and techniques in dealing with a variety of media then demonstrate informed, skilled and sensitive handling in the execution of two-dimensional imagery and three-dimensional forms.
3. Investigate, develop and employ conceptual themes which clearly and consistently reflect the student’s point of view.
4. Effectively identify and utilize resources for art historical research.
5. Articulate his/her (objective and subjective) understanding of two and three dimensional works in writing.
6. Orally evaluate the works of fellow students and implement suggestions made through the evaluation of his/her work by others.

DEGREE REQUIREMENTS:

CORE COURSES:
ART 26A Beginning Watercolor (3)
ART 26B Intermediate Watercolor (3)
ART 26C Advanced Intermediate Watercolor (3)
ART 26D Advanced Watercolor (3)
ART 29A Beginning Painting (3)
ART 29B Intermediate Painting (3)

Additional General Education 18
Digital Art and Design

Certificate:

SC Program: CL.3452

PROGRAM DESCRIPTION: The Digital Art and Design Certificate will prepare students for jobs in the graphic design and digital arts industry such as Digital Photography, Logo Design, Graphics and Animation as well as industry related digital based automation.

This is a locally approved certificate. Upon satisfactory completion of the listed requirements and application for completion of the certificate to Admissions and Records, the student will receive a certificate of completion. This certificate program is not approved through the California Community College Chancellor's Office; therefore, completion of the certificate will not be listed on the student's transcript.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this certificate, the student should be able to:

1. Recognize and explain conditional responses to visual media from Gestalt theory.
2. Produce production ready digital design and graphics using industry standard software applications.
3. Recognize theories and principles behind effective design models.
4. Analyze readings on digital photographic practice and theory.
5. Utilize artificial lighting equipment, systems and backgrounds for digital photographic methods.
6. Successfully employ the elements and principles of design to digital art applications.
7. Develop and present key learnings through a portfolio review in class. Assessment will be given as a hands-on final review and critique in the course is provided. Students will be successful with a score of 95% on the assessment.

Studio Arts

Associate in Arts for Transfer:

SC Program: AA-T.1005

PROGRAM DESCRIPTION: The AA-T in Studio Arts program provides a solid foundation in the fundamentals of art, including conceptual awareness of current issues in art, technical competencies, visual aptitudes, and skills in many areas of human interaction, including relationship building, intercultural competency, critical thinking, information competency, teamwork and leadership. Students develop an understanding of the principles of art and design while investigating concepts and applying these elements to two dimensional compositions and three dimensional forms. The Art program is academically grounded in the liberal arts tradition of cultural studies, history, philosophy, and technical processes. It provides a hands-on, learn-by-doing environment that gives students experiences and skills to complement many career paths. The AA-T in Studio Arts will align with the CSU Bachelor of Fine Arts and Bachelor of Arts Degrees.

This degree is approved through the California Community College Chancellor's Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this degree.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this degree, the student should be able to:

1. Describe and successfully apply the elements and principles of art design to two dimensional compositions or three dimensional forms.
2. Select appropriate tools and techniques in dealing with a variety of media to demonstrate informed, skilled and sensitive handling in the execution of two dimensional imagery and three dimensional forms.
3. Investigate, develop and employ conceptual themes which clearly and consistently reflect the student's point of view.
4. Effectively identify and utilize resources for art history research.
5. Articulate in writing his/her objective and subjective understanding of two and three-dimensional works.
6. Orally evaluate the works of fellow students and implement suggestions made through the evaluation of his/her work by others.
7. Transfer to a California State University with a major in Studio Arts.

REQUIREMENTS:
In addition to the 37-39 unit general education pattern for CSU or IGETC, students must complete the core courses listed below for the Associate in Arts in Studio Arts for Transfer Degree. Students must also obtain a minimum grade point average of 2.0 and a C or better in each major course, or a “P” if the course is taken on a Pass/No Pass basis.

Theatre Arts

Associate in Arts for Transfer:

SC Program: AA-T.1004

PROGRAM DESCRIPTION: The Theatre Arts program is academically
grounded in the liberal arts tradition of literature, performance, cultural studies, history, philosophy, and technical skills. It also provides a hands-on, learn-by-doing environment that gives students experiences and skills to complement many career paths. Employers find theatre trained applicants become valuable employees because they have developed excellent communication and problem-solving skills, confidence, and the ability to work cooperatively with a diverse team of people.

This degree is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this degree.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this degree, the student should be able to:

1. Describe the basic elements of dramatic structure and analyze the dramatic components in a theatrical production.
2. Select appropriate monologues and prepare them as audition pieces.
3. Investigate the themes and dramaturgy of the Greek, Roman, Medieval, Renaissance, Elizabethan, Jacobean and Restoration periods of Theatre history and compare and contrast those periods through discussion, papers, and performance analysis.
4. Identify and apply the major components of stagecraft in the implementation of scenery, lighting, costume, make-up, special effects, and production management.
5. Investigate the social, political, and spiritual objectives of theatrical performance through discussions and papers that deal with gender, politics and religion.

REQUIREMENTS:
In addition to the 37-39 unit general education pattern or CSU or IGETC, students must complete the core courses listed below for the Associate in Arts in Theatre Arts for Transfer Degree. Students must also obtain a minimum grade point average of 2.0 and a C or better in each major course, or a “P” if the course is taken on a Pass/No Pass basis.

Business Administration

Associate in Science for Transfer:

SC Program: AS-T.1001
**PROGRAM DESCRIPTION:** The Associate in Science in Business Administration for Transfer degree is designed to provide students with the common core of lower division courses required to transfer and pursue a baccalaureate degree in Business Administration. This includes business degrees with options such as accounting, finance, human resources management, international business, management, operations management, and marketing. The Associate in Science in Business Administration for Transfer degree aligns with the CSU Bachelor of Science in Business Administration.

This degree is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this degree.

**PROGRAM LEARNING OUTCOMES:**
Upon successful completion of this degree, the student should be able to:

1. Express the accounting equation; identify and perform the processes of the accounting cycle; and prepare and interpret the basic financial statements for service and merchandising organizations in accordance with generally accepted accounting principles.
2. Identify and illustrate fundamental accounting concepts, classifications, cost systems, cost-volume-profit relationships, budgeting and profit planning to support planning, control and decision making activities of management.
3. Prepare and process payroll records and payroll tax returns in compliance with applicable federal and state laws and regulations.
4. Apply the Internal Revenue Code and related Treasury Regulations as they relate to individual, partnership and corporation income taxes; prepare simple individual income tax returns.
5. Utilize their ability to identify and apply business and finance concepts to advance into upper division coursework as business majors in the fields of accounting, finance, marketing, management and information technology and services.

**REQUIREMENTS:**
In addition to the 37-39 unit general education pattern for CSU or IGETC, students must complete the core courses listed below for the Associate in Science in Business Administration for Transfer degree. Students must also obtain a minimum grade point average of 2.0 and a C or better in each major course, or a "P" if the course is taken on a Pass/No Pass basis.

**Business Administration – Accounting Concentration**

**Associate in Science:**

**SC Program: AS.1081**

**PROGRAM DESCRIPTION:** This degree prepares you to enter the workforce in an entry level accounting, bookkeeping, or clerk position with many private sector and government organizations. This degree also provides an excellent knowledge base for those planning to pursue an advanced degree in accounting, business, economics, or law (ACCT 2 and ACCT 4 are recommended for these students).

This degree is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this degree.

**PROGRAM LEARNING OUTCOMES:**
Upon successful completion of this degree, the student should be able to:

1. Express the accounting equation; identify and perform the processes of the accounting cycle; and prepare and interpret the basic financial statements for service and merchandising organizations in accordance with generally accepted accounting principles.
2. Identify and illustrate fundamental accounting concepts, classifications, cost systems, cost-volume-profit relationships, budgeting and profit planning to support planning, control and decision making activities of management.
3. Use integrated accounting software in performing the processes of the accounting cycle and preparing the basic financial statements for service and merchandising organizations.
4. Prepare and process payroll records and payroll tax returns in compliance with applicable federal and state laws and regulations.
5. Apply the Internal Revenue Code and related Treasury Regulations as they relate to individual, partnership and corporation income taxes; prepare simple individual income tax returns.
6. Explain the criteria for the formation and enforcement of business and consumer contracts, including the specialty areas of sales and agency.

Choose the remaining 0-3 units from the following:

- ACCT 4, 102, 103, 104, 194
- CIS 1
- DSS 10, 63
- ECON 1A, 1B
- HOSP 10, 20, 35, 40, 45, 50, 60, 65

Business – Management

Associate in Science:

SC Program: AS.1085

PROGRAM DESCRIPTION: This degree prepares you to enter the workforce and have the skills you need to move up the career ladder into management. The courses offered in this degree teach the skills necessary to be successful in business. Many courses are offered during the day and evening at one of our extended education campuses, and online.

This degree is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this degree.

PROGRAM LEARNING OUTCOMES:

Upon successful completion of this degree, the student should be able to:

1. Evaluate the forms of business organizations in order to select the optimal legal structure for operation.
2. Demonstrate the use of skills relevant for problem-solving, decision-making, and resolving ethical dilemmas in the business environment including critical thinking, effective written and oral communication, working effectively in teams and the proficient use of computers for information search, retrieval, problem solving and communication.
3. Functions of Management: Compose a paper that defines the functions of Management and describes examples relating to existing businesses.
4. Express the accounting equation; identify and perform the basic financial statements for service and merchandising organizations in accordance with generally accepted accounting principles.
5. Compose clear and effective communication using the following modalities: Business Letters, Memos, and E-mails.
### Degree Requirements:

#### Core Courses:

### Business – Marketing and Finance

#### Associate in Science:

**SC Program: AS.1521**

**Program Description:** This degree prepares you to enter the workforce and have the skills necessary for entry level jobs in the fields of Sales, Purchasing, Insurance, Marketing and Finance. Many courses are offered during the day and evening at one of our extended education campuses, and online.

This degree is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this degree.

**Program Learning Outcomes:**

Upon successful completion of this degree, the student should be able to:

1. Prepare an 8-Point Retail Filter Project: Describe how each of the eight filters apply, evaluate how competition handles the eight filters and describe the most significant concept(s) learned from this evaluation process, and to conclude, determine what you would revise in the retail establishment you evaluated.

2. Demonstrate the use of skills relevant for problem-solving, decision-making, and resolving ethical dilemmas in the business environment including critical thinking, effective written and oral communication, working effectively in teams, and the proficient use of computers for information search, retrieval, problem solving and communication.

3. Compose a paper that defines the functions of management and describes examples relating to existing businesses.

4. Express the accounting equation; identify and perform the processes of the accounting cycle; and prepare and interpret the basic financial statements for service and merchandising organizations in accordance with generally accepted accounting principles.

5. Compose clear and effective communication using the following modalities: business letters, memos, and e-mails.

**Degree Requirements:**

#### Core Courses:

- **ACCT 101**: Basic Accounting I 3
- **BUAD 10**: Introduction to Business 3
- **BUAD 14**: Personal Finance 3
- **BUAD 15**: Business and Society 3
- **BUAD 41**: Leadership and Supervision OR 3

### Customer Service Academy

#### Certificate:

**SC Program: CL.3133**

---

57
PROGRAM DESCRIPTION: The Customer Service Academy will equip you with the ability to manage or improve many workplace issues that, if addressed, will lead to improved productivity. The topics range from conflict resolution to team building to communicating with people (both employees and customers).

This is a locally approved certificate. Upon satisfactory completion of the listed requirements and application for completion of the certificate to Admissions and Records, the student will receive a certificate of completion. This certificate program is not approved through the California Community College Chancellor's Office, therefore, completion of the certificate will not be listed on the student’s transcript.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this certificate, the student should be able to:
1. List ways in which to communicate more effectively to both internal and external customers.
2. Recognize conflict styles and manage conflict situations utilizing conflict resolution skills.
3. List ways to maintain/change your attitude in order to provide superior customer service.
4. Embrace change within organizations and apply skills to cope with change.
5. Self-assess individual attitude, stress, communication style, personality style and apply skills to work with team members who possess different styles.

TOTAL UNITS FOR CERTIFICATE: 5

**BUSINESS SYSTEMS AND OFFICE TECHNOLOGIES**

**Business Information Systems Professional**

Associate in Science:

SC Program: A5.1397

PROGRAM DESCRIPTION: This degree prepares you to be an advanced-level Administrative Assistant. Administrative Assistants work for supervisors, managers, and executives. Students learn the following skills:

- **Document and Data Handling:** How to prepare, modify, and proofread documents such as reports, letters, memos, records, lists, and schedules.
- **Technology:** Advanced knowledge of Microsoft Office: Word, Excel, Outlook. Setup and coordinate meetings and conferences using Outlook.

Intermediate knowledge of Microsoft Office: PowerPoint, Internet Explorer, and Access. Incorporate computer graphics in documents, in addition to computer based filing methods and procedures. Type 50-55 words per minute.

**Interpersonal:** Meet and greet clients and visitors, maintain a pleasant manner, and project a professional image in person and on the phone.

**Confidential:** Handling of mail, money, and receipts, and record keeping.

**General:** Research and price office furniture and supplies with attention to detail. Sales concepts, including markups, discounts, insurance, and depreciation, scheduling and reporting duties, coordinate and maintain records for staff. Obtaining on-the-job training through the Worksite Learning course at Shasta College is highly recommended.

This degree is approved through the California Community College Chancellor's Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this degree.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this degree, the student should be able to:
1. Operate the alphabetic, numeric, and symbol keys by touch with proper typing technique.
2. Type for 5 minutes at a minimum net speed of 50 words a minute with five errors or less.
3. Expand and apply knowledge of Microsoft Word to complete business documents.
4. Increase abilities related to formatting business letters, memos, tables, mail merge, and reports including employment documents.
5. Answer, with at least 70 percent accuracy, questions on objective tests covering technical information.

### Medical Office Professional

**Associate in Science:**

**SC Program:** AS.1356

**PROGRAM DESCRIPTION:** This curriculum is designed to prepare the individual with clerical medical office skills for entry-level employment in physicians’ offices, health care facilities, clinics, laboratories, health and accident insurance companies, with related clerical duties essential to medical office assisting.

This degree is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of all degree requirements and **filming an application for graduation with Admissions and Records**, the student’s transcript will reflect completion of this degree.

**PROGRAM LEARNING OUTCOMES:**
Upon successful completion of this degree, the student should be able to:

1. Effectively use appointment scheduling and patient recall software.
2. Identify the legal and ethical issues related to working in a medical practice.
3. Plan, design, and create a worksheet.

Medical Office Specialist

Certificate:

SC Program: CT.3276

PROGRAM DESCRIPTION:
This program is designed to prepare the student for an entry-level position in the medical office. Skills learned: prepare claims for health care facilities, clinics, physicians' offices, medical equipment companies, brief understanding of medical billing services, and record management. Upon completion of this program, the graduate should have the necessary knowledge and skills to secure employment in either the medical provider or health career sectors.

This certificate is approved through the California Community College Chancellor's Office; therefore, completion of this certificate will not be listed on the student's transcript. Upon successful completion of this certificate, the student should be able to:

1. Effectively use appointment scheduling and patient recall software.

Life Success Certificate

Certificate:

SC Program: CL.3415

PROGRAM DESCRIPTION: This curriculum is designed to provide an integrated educational option for students preparing for inclusion in the workforce. This is a locally approved certificate. Upon satisfactory completion of the listed requirements and application for completion of the certificate to Admissions and Records, the student will receive a certificate of completion. This certificate program is not approved through the California Community College Chancellor’s Office; therefore, completion of the certificate will not be listed on the student’s transcript.

PROGRAM LEARNING OUTCOMES:

Upon successful completion of this certificate, the student should be able to:
1. Identify occupational opportunities and initiate a job search.
2. Use a word processor, find information on the Internet and conduct employment search activities using a computer.
3. Demonstrate mastery of arithmetic skills presented in real life employment contexts.
4. Demonstrate effective reading and writing skills for the workplace.
5. Navigate workplace issues that lead to improved workplace productivity.

COMMUNICATION STUDIES

Communication Studies

Associate in Arts for Transfer:

SC Program: AA-T.1001

PROGRAM DESCRIPTION: Communication classes provide students with skills that are essential for other classes and programs at Shasta College and beyond. The Associate in Arts in Communication Studies for Transfer program teaches communication theory and competencies that are crucial for success in both personal and business relationships. Students learn analytical and critical thinking skills that are essential life skills. Good oral communication skills have been documented by research to be an important factor in the health of personal relationships, and these skills have even been linked to one's physical and psychological health. Communication courses enable students to lead richer, more satisfying and productive lives by improving their grasp of core theories and practical skills. The results are often immediate and dramatic, improving both personal and professional relationships in both large and small groups. The Associate in Arts in Communication Studies for Transfer degree aligns with the CSU Bachelor of Arts in Communication Studies.

This degree is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this degree.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this degree, the student should be able to:
1. Identify the role communication plays in academic, social and professional endeavors.
2. Demonstrate competency in designing well-researched and well-developed informative and persuasive presentations to a variety of audiences in multiple contexts.
3. Demonstrate competency in the advocacy of issues of justice and fairness, with integrity and civility.
4. Demonstrate competency in critical thinking including recognition of common fallacies of thought, effective problem-solving and conflict resolution communication.
5. Identify crucial issues affecting intercultural communication, and the adaptations necessary for successful interactions between cultures.
6. Communicate ethically, responsibly, and effectively as local, national and global citizens.

REQUIREMENTS:
In addition to the 37-39 unit general education pattern for CSU or IGETC, students must complete the core courses listed below for the Associate in Arts in Communication Studies for Transfer Degree.

Students must also obtain a minimum grade point average of 2.0 and a C or better in each major course, or a "P" if the course is taken on a Pass/No Pass basis.

REQUIRED CORE:
CMST 60# Public Speaking 3
LIST A (Choose six units from the following):
CMST 10# Interpersonal Communication (3 units)
CMST 40* Argumentation and Debate (3 units)
CMST 54* Small Group Communication (3 units)
LIST B (Choose six units from the following):
Any List A course not used above
CMST 20* Intercultural Communication (3 units)
CMST 30* Oral Interpretation (3 units)
LIST C (Choose three units from the following):
Any List A or List B course not used above
ANTH 2# Cultural Anthropology (3 units)
JOUR 21* Introduction to Mass Communications (3 units)
PSYC 1A# General Psychology (3 units)
SOC 1# Introduction to Sociology (3 units)

*May be used to fulfill CSU General Education requirements. See a counselor.
#May be used to fulfill IGETC requirements. See a counselor.

ASSOCIATE IN ARTS IN COMMUNICATION STUDIES FOR TRANSFER DEGREE REQUIREMENTS:

Major 18
General Education 37-39
General Electives 8-18*

Degree Total Will Not Exceed 60 Units

*Number will vary depending on units that double count.

COMPUTER AND INFORMATION SYSTEMS

Computer and Information Systems – CISCO Networking

Certificate:

SC Program: CL.3441

PROGRAM DESCRIPTION: This certificate prepares students for entry-level networking positions and is a pathway to the Information Technology Core Concepts Certificate and the Associate Degree Program in Information Systems - Systems Management, which has two areas of emphasis including Microsoft Server and CISCO Networking. The program prepares students to take the Cisco CCNA certification exam.

This is a locally approved certificate. Upon satisfactory completion of the listed requirements and application for completion of the certificate to Admissions and Records, the student will receive a certificate of completion. This certificate program is not approved through the California Community College Chancellor’s Office; therefore, completion of the certificate will not be listed on the student’s transcript.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this certificate, the student should be able to:
1. Demonstrate competence in the area of Cisco Networking. To demonstrate competence in this area the student will be able to build networks with the following features: three computers on a LAN using a switch; a router with passwords, interfaces, routing protocol configured; a switch with two VLANs and STP protocol; PPP encapsulation and PAP/CHAP authentication protocols between two routers connected with a serial link.
2. Convert an IP Address and subnet mask from a dotted decimal notation into a binary format. Using the values in a binary format the student will then be able to demonstrate the function of the subnet mask in isolating the network address.

TOTAL UNITS FOR CERTIFICATE 17

PROGRAM LEARNING OUTCOMES:

Upon successful completion of this degree, the student should be able to:

1. Demonstrate competence in the area of Cisco Networking. To demonstrate competence in this area the student will be able to build networks with the following features: three computers on a LAN using a switch; a router with passwords, interfaces, routing protocol configured; a switch with two VLANs and STP protocol; PPP encapsulation and PAP/CHAP authentication protocols between two routers connected with a serial link.

2. This certificate program is a second level certificate that continues to build from either the Microsoft Server or CISCO Networking certificates and leads into the Datacenter Admin certificate. Students who complete this degree will qualify for several entry level jobs in the IT field.

Certificate:

Computer and Information Systems – Computer Maintenance

SC Program: CL.3429

PROGRAM DESCRIPTION: The Computer Maintenance Certificate Program provides the exposure and training necessary to maintain and troubleshoot common PC computer systems. This program provides hands-on training in basic electronics, Operating System installation and maintenance, PC repair and computer management and prepares students for entry level jobs and is a pathway to the Information Technology Core Concepts Certificate and the Associate Degree Program in Information Systems - Systems Management, which has two areas of emphasis including Microsoft Server and CISCO Networking. The program prepares students to take the CompTIA A+ certification exam.

This is a locally approved certificate. Upon satisfactory completion of the listed requirements and application for completion of the certificate to Admissions and Records, the student will receive a certificate of completion. This certificate program is not approved through the California Community College Chancellor’s Office; therefore, completion of the certificate will not be listed on the student’s transcript.

PROGRAM LEARNING OUTCOMES:

Upon successful completion of this certificate, the student should be able to:

1. Identify and troubleshoot common problems with computer parts and how to solve the associated problems.
2. Describe the different types of memory, how each operates and installation procedure.
3. Install a Microsoft operating system and configure the computer as a typical workstation.

Certificate:

Computer and Information Systems – Network Administration

SC Program: CT.3108

PROGRAM DESCRIPTION: This certificate program is a second level certificate that continues to build from either the Microsoft Server or CISCO Networking certificates and leads into the Datacenter Admin certificate. Students who complete this degree will qualify for several entry level jobs in the IT field.

This certificate is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of the listed requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this certificate.

PROGRAM LEARNING OUTCOMES:

Upon successful completion of this degree, the student should be able to:

1. Build and troubleshoot a computer network involving three computers, two Ethernet switches, two routers, a server and DHCP addressing. Ensure proper security protocols are in place and show connectivity with successful ping replies from every node.

ASSOCIATE IN SCIENCE:

Computer and Information Systems – Systems Management

SC Program: AS.1157

PROGRAM DESCRIPTION: This degree combines core Information Systems Skills in three areas of emphasis including Microsoft Server, CISCO Networking, and Computer Maintenance. This 2 year degree prepares you to enter the workforce in an entry level IT related position with many public and private organizations, or to start your own IT related business.

This degree is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this degree.

PROGRAM LEARNING OUTCOMES:

Upon successful completion of this degree, the student should be able to:

1. Demonstrate competence in the area of Cisco Networking. To demonstrate competence in this area the student will be able to build networks with the following features: three computers on a LAN using a switch; a router with passwords, interfaces, routing protocol configured; a switch with two VLANs and STP protocol; PPP encapsulation and PAP/CHAP authentication protocols between two routers connected with a serial link.

### Computer and Information Systems – Windows Server

**Certificate:**
**SC Program: CL.3444**

**PROGRAM DESCRIPTION:** This certificate will prepare students for employment in entry level Windows Server Jobs in this sector and is a pathway to the Information Technology Core Concepts Certificate and the Associate Degree Program in Information Systems - Systems Management, which has two areas of emphasis including Microsoft Server and CISCO Networking. The program prepares students to take Microsoft Server certification exams.

This is a locally approved certificate. Upon satisfactory completion of the listed requirements and application for completion of the certificate to Admissions and Records, the student will receive a certificate of completion. This certificate program is not approved through the California Community College Chancellor’s Office; therefore, completion of the certificate will not be listed on the student’s transcript.

**PROGRAM LEARNING OUTCOMES:**
Upon successful completion of this certificate, the student should be able to:
1. Plan an effective Windows Server Active Directory deployment.
2. Plan an effective Windows Server Active Directory deployment for a specified scenario. Install and configure Windows Server software to implement the plan designed above.

**CERTIFICATE REQUIREMENTS:**
- CIS 2 Introduction to Computer Science 4
- CIS 15 Install and Configure Microsoft Server 3
- CIS 17 Configure Advanced Server Services 3
- CIS 92 Introduction to Computer Security – Security + 3

**TOTAL UNITS FOR CERTIFICATE 16**

### Web Design

**Certificate:**
**SC Program: CL.3115**

**PROGRAM DESCRIPTION:** This program is designed to be an introduction to the basics of designing and building simple Web pages using current software. This certificate prepares students for entry-level jobs in web design, prepares students to design their own web sites for small businesses and organizations and is designed for students with little or no web design experience.

This is a locally approved certificate. Upon satisfactory completion of the listed requirements and application for completion of the certificate to Admissions and Records, the student will receive a certificate of completion. This certificate program is not approved through the California Community College Chancellor’s Office; therefore, completion of the certificate will not be listed on the student’s transcript.

**PROGRAM LEARNING OUTCOMES:**
Upon successful completion of this certificate, the student should be able to:
1. Use a computer and the internet for daily needs.
2. Build dynamic web pages for personal and business use.
3. Incorporate graphics and photos into web pages.
4. Understand e-commerce basics and how to design a marketable website.

**CERTIFICATE REQUIREMENTS:**
- ART 80A Graphic Design 3
- BUAD 71 Introduction to E-Commerce 1
- CIS 2 Introduction to Computer Science 4
- CIS 64 Web Programming 3
- CIS 73 Intro to the Adobe Suite 2
- CIS 93 Intro to Web Design 2
- CIS 94 CIS Worksire Learning 1

**TOTAL UNITS FOR CERTIFICATE 16**

### Web Master

**Certificate:**
**SC Program: CT.3116**

**PROGRAM DESCRIPTION:** This certificate program covers advanced web development skills using current techniques and software and prepares students for entry-level positions at living wages as well as the skills needed to start their own small business in the web design and multimedia marketing industry.

This certificate follows the Web Design Certificate and introduces students with basic skills and previous experience in web design to advanced web development skills. This certificate will cover the web development life cycle and includes courses in SEO, Marketing and Design.
This certificate is approved through the California Community College Chancellor's Office. Upon satisfactory completion of the listed requirements and filing an application for graduation with Admissions and Records, the student's transcript will reflect completion of this certificate.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this certificate, the student should be able to:

1. Apply appropriate programming techniques to analyze a given problem and design and implement an optimized solution.
2. Demonstrate basic knowledge of programming techniques and demonstrate the interaction between software and the associated hardware.
3. Use computers and other technology as experimental and modeling tools.
4. Transfer to a California State University with a major in Computer Science.

REQUIREMENTS:
In addition to the 37 unit general education pattern for IGETC, students must complete the core courses listed below for the Associate in Science in Computer Science for Transfer degree. Students must also obtain a minimum grade point average of 2.0 and a C or better in each major course, or a "P" if the course is taken on a Pass/No Pass basis.

REQUIRED CORE:

CIS 61 C++ Language Programming 3
CIS 65 Programming Concepts & Methodology Using C++ 3
CIS 66 Computer Architecture and Organization 3
CIS 67 Discrete Structures 3
MATH 3A# Calculus 3A 4
MATH 3B Calculus 3B 5
PHYS 4A# Physics (Mechanics) 4

#May be used to fulfill IGETC requirements. See a counselor.

ADDITIONAL RECOMMENDED PREPARATION:
While the additional course is not required for this degree, completing this course will better prepare students for upper division coursework in computer science. This class may be required for the Bachelor's degree. Check the catalog for the CSU campus to which you plan to transfer.

CIS 2 Introduction to Computer Science 4

ASSOCIATE IN SCIENCE IN COMPUTER SCIENCE FOR TRANSFER DEGREE REQUIREMENTS:

Major 29-30
General Education 37*
General Electives 0-1*

Degree Total Will Not Exceed 60 Units

*Number will vary depending on units that double count.

*Students must use the IGETC pattern to satisfy the requirements for this degree. Shasta College cannot certify to your transfer institution that you have completed the ADT if you use the CSU GE pattern because it will exceed the 60 unit maximum.

CULINARY ARTS / HOSPITALITY

Hospitality – Culinary Arts Concentration

Associate in Science:
SC Program: As.1292

PROGRAM DESCRIPTION: With this degree, graduates enter the culinary field well prepared for entry-level employment, many progressing to management positions. Students will apply principles in sanitation and safety, hospitality, basic food production, nutrition and management, advanced cuisine, and gourmet food preparation. Business communications and general education requirements are also required for the degree. Hands-on worksite learning provides the student additional experience in the field.

This degree is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this degree.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this degree, the student should be able to:

1. Identify the basic elements of the hospitality industry.
2. Demonstrate abilities and knowledge of the basic elements of the culinary field.
to:
1. Prepare workstations, corresponding to the preparation and presentation of a meal, in a time-restricted quality-minded setting.
2. Prepare large scale quantity items in a time-restricted quality-minded setting.
3. Practice the principles of sanitation and safety procedures.
4. Recognize the types of gourmet foods served in hotels and restaurants and the presentation of these specialties.
5. Demonstrate the principles of the garde-manger section of the kitchen.

DEGREE REQUIREMENTS:

CORE COURSES:
BUAD 66: Business Communications 3
BUAD 45: Basic Food Production 5
BUAD 46: Advanced Foods 5
BUAD 48: Gourmet Food Preparation 5
BUAD 49: Menu Planning & Cost Analysis 2
BUAD 50: Sanitation and Safety 2
BUAD 55: Food and Beverage Cost Control 2
BUAD 60: Beverage Management 2
BUAD 65: Dining Room Service 3
BUAD 75: Pastry 2
BUAD 94: Culinary Arts Worksite Learning 1
BUAD 159: Stocks, Soups, Sauces & Basic Culinary Prep. 2
BUAD 161: Art Garde Manger (Preparation and Presentation of Garnished Foods) 2
BUAD 172: Baking 2
HOSP 10: Introduction to the Hospitality Industry 3
HOSP 55*: Customer Service Skills in a Multicultural Workplace 3
HOSP 65: Hospitality Supervision 3
NUTR 25*: Nutrition 3

*Courses marked with an asterisk may be used to fulfill General Education requirements. See a counselor.

ASSOCIATE IN SCIENCE DEGREE REQUIREMENTS:
Major 48
Additional General Education 12
General Electives 0
Degree Total 60

Hospitality – Culinary Arts Concentration Certificate:

SC Program: CT.3246

PROGRAM DESCRIPTION: With this certificate, students will enter the Culinary Arts field and should be able to demonstrate principles in sanitation and safety, hospitality, and basic food production. Additional skills will be applied in advanced foods, menu planning and cost analysis, purchasing, dining room service, baking, supervision, and actual worksite learning.

This certificate is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of the listed requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this certificate.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this certificate, the student should be able to:
1. Relate customer expectations to the achievement of financial viability of the organization.
2. Practice appropriate communication skills in operational and human resource management.
3. Evaluate hospitality operations.
4. Apply quality control systems to customer service issues.
5. Apply the appropriate management-supervisory techniques to operational situations.

DEGREE REQUIREMENTS:

CORE COURSES:
BUAD 66*: Business Communications 3
BUAD 45: Basic Food Production 5
BUAD 46: Advanced Foods 5
BUAD 49: Menu Planning and Cost Analysis 2
BUAD 50: Sanitation and Safety 2
BUAD 55: Food and Beverage Cost Control 2
BUAD 65: Dining Room Service 3
BUAD 75: Pastry 2
BUAD 94: Culinary Arts Worksite Learning 1
HOSP 172: Baking 2
HOSP 60: Hospitality and Financial Management 3
HOSP 65: Hospitality Supervision 3
HOSP 94: Hospitality Worksire Learning 1

*Courses marked with an asterisk may be used to fulfill General Education requirements.
Chapter 3: Programs of Study

### Hospitality Management

**SC Program: AS-T.2006**

**PROGRAM DESCRIPTION:** The Associate in Science in Hospitality Management for Transfer Degree (AS-T Hospitality Management) provides students with the opportunity to meet the requirements for transfer to the California State University system in Hospitality Management. In order to earn this degree a student must complete 60 required semester units of CSU-transferable coursework with a minimum GPA of 2.0. Completing this degree guarantees admission to the CSU system but not to a particular campus or major. The degree is designed to prepare students for upper division study in Hospitality Management. Hospitality Management graduates at the bachelor's level are qualified for employment by industry in a variety of jobs, in areas such as food and beverage management, safety and sanitation, culinary operations, and lodging in this transfer program.

This degree is approved through the California Community College Chancellor's Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student's transcript will reflect completion of this degree.

**PROGRAM LEARNING OUTCOMES:**

1. Provide the knowledge and skills necessary to manage and make informed business decisions within a hospitality organization.
2. Identify major on-going trends in customer behavior that will affect the food and beverage/restaurant industry.
3. Describe the service relationship in terms of psychological needs and social-psychological experiences.
4. Explain the roles of the food service worker and manager in the prevention of foodborne illnesses.
5. Work as a team member to achieve common goals/objectives.
6. Classify lodging facilities based on size, target markets, and levels of service.

**REQUIREMENTS:**

In addition to the 37-39 unit general education pattern for CSU or IGETC, students must complete the core courses listed below for the Associate in Science in Hospitality Management for Transfer degree. Students must also obtain a minimum grade point average of 2.0 and a C or better in each major course, or a "P" if the course is taken on a Pass/No Pass basis.

### Early Childhood Education

**SC Program: AS-T.1002**

**PROGRAM DESCRIPTION:** The Associate in Science in Early Childhood Education Transfer degree is designed to provide students with a common core of eight early childhood education courses (approved by the Curriculum Alignment Project) that permit students to transfer smoothly to participating CSU's to complete a Bachelor's degree in child development or early childhood education.

This degree is approved through the California Community College Chancellor's Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student's transcript will reflect completion of this degree.

**PROGRAM LEARNING OUTCOMES:**

1. Exhibit skill in identifying the needs, the characteristics and multiple influences on the development of children, birth to age eight.
2. Design, execute and evaluate environments and activities that support positive developmental play and learning outcomes for young children.
3. Establish and maintain safe and healthy learning environments for young children.
4. Observe, document, and use authentic assessment tools as a vehicle for child and program assessment and curriculum design.
5. Utilize ethical standards and professional behaviors that deepen understanding, knowledge, and commitment regarding the ECE profession.
6. Build family and community relationships, understanding and valuing the importance and complex characteristics of families and communities in young children’s development.
7. Evaluate developmentally effective approaches to create positive relationships and supportive interactions as the foundation in working with children and families from diverse societies.
8. Upon completion of a program of study in Early Childhood Education students will, through planned and sequenced field experiences, develop the knowledge, skills and professional dispositions necessary to promote the development and learning of young children across the entire developmental period of early childhood in multiple early childhood age groups and in the variety of settings that offer early care and education.

**REQUIREMENTS:**

In addition to the 37-39 unit general education pattern for CSU or IGETC, students must complete the core courses listed below for the
Associate in Science in Early Childhood Education for Transfer degree. Students must also obtain a minimum grade point average of 2.0 and a C or better in each major course, or a "P" if the course is taken on a Pass/No Pass basis.

REQUIRED CORE:

- ECE 2: Child, Family, Community (3)
- ECE 7: Early Childhood Observation and Assessment (3)
- ECE 8: Teaching Practicum for Young Children (3)
- ECE 9#: Child, Growth, and Development (3)
- ECE 15: Child, Health, Safety, and Nutrition (3)
- ECE 17: Principles/Practices of Teaching Young Children (3)
- ECE 20: Introduction to Curriculum (3)
- ECE 28: Teaching in a Diverse Society (3)

*May be used to fulfill CSU General Education requirements. See a counselor.

#May be used to fulfill IGETC requirements. See a counselor.

ASSOCIATE IN SCIENCE IN EARLY CHILDHOOD EDUCATION FOR TRANSFER DEGREE REQUIREMENTS:

- Major: 24 units
- General Education: 37-39 units
- General Electives: 2-3* units
- Degree Total Will Not Exceed 60 Units

*Number will vary depending on units that double count.

ASSOCIATE IN SCIENCE:

SC Program: A5.1190

PROGRAM DESCRIPTION: The Early Childhood Education Program prepares students to become teachers and directors in programs providing care and learning opportunities for young children ages 0-8. The college courses focus on training for careers in preschools, Head Start, child care programs, infant-toddler, school age, and family child care. Programs for young children require different qualifications for teachers and child care providers. The A.S. Degree in Early Childhood Education at Shasta College meets core work qualifications for the Child Development Teacher Permit and Community Care Licensing staff qualifications for a teacher and director. Additional specified experience with children is required.

There are a minimum of 36 units in the major required for the Associate of Science Degree in Early Childhood Education. Students need to complete 30 units of required core courses and an additional 6 units of restricted elective courses. An additional 15 General Education units and at least 9 general elective units will complete the Associate of Science degree in Early Childhood Education. All courses applied to the ECE A.S. Degree must be completed with a "C" grade or better, or a "P" if the course is taken on a Pass/No Pass basis.

This degree is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this degree.

PROGRAM LEARNING OUTCOMES:

Upon successful completion of this degree, the student should be able to:

1. Apply an understanding of principles of child development in planning inclusive and developmentally appropriate curriculum and environments.
2. Exhibit skill in observation and documentation as a vehicle for child and program assessment and curriculum design.
3. Create environments that are healthy, respectful and supportive to children and their families.
4. Utilize positive guidance of young children based on an understanding of cognitive, physical, and social and emotional development of children.
5. Identify professional standards and expectations as based upon NAEYC’S Code of Ethical Conduct.
6. Discuss current trends and issues in the field of Early Childhood Education.
7. Perform common tasks online and access resources and information in regard to current best practices in early education.
8. Identify and exhibit the ability to interact successfully with children and adults from an ever changing society.

DEGREE REQUIREMENTS:

CORE COURSES:

- ECE 1*: Human Development OR 3
- ECE 9*: Child Growth and Development
  *(ECE 9 is recommended for students planning to transfer to a 4 year program for a degree in Early Childhood Education or Child Development)
- ECE 2*: Child, Family, Community (3)
- ECE 7: Early Childhood Observation & Assessment (3)
- ECE 8: Teaching Practicum for Young Children (3)
- ECE 15: Child Health, Safety, and Nutrition (3)
- ECE 17: Principles/Practices of Teaching Young Children (3)
- ECE 20: Introduction to Curriculum (3)
- ECE 28*: Teaching in a Diverse Society (3)
- ECE 52: Guidance in Adult-Child Relations (3)
- ECE 60: Advanced Curriculum (3)

RESTRICTED ELECTIVES: (Choose six units) 6

- ECE 3: Early Childhood Program Administration (3)
- ECE 6: Exploring Family Childcare (1)
- ECE 12: Infant Toddler Learning (3)
- ECE 14: School Age and Adolescent Development (3)
- ECE 16**: Adult Supervision and Mentoring in Early Care and Education (2)
- ECE 22: Care and Education for Infants and Toddlers (3)
- ECE 24: EC Curriculum: School Age Care (3)
- ECE 26: The Child With Special Needs (3)
- ECE 27: Teaching Children with Special Needs and Early Intervention Strategies (3)
- ECE 51: Administration II: Personnel and Leadership in Early Childhood Education (3)
- ECE 140: Essentials of Developmental Assets (1)
- ECE 147: Mental Health Awareness in ECE Programs (1)

SPECIALIZATIONS:

ECE graduates are qualified to work with children ages 0-8. However, it is recommended that students meet the additional 6-unit requirement by selecting and completing one of the following Specializations (Administration in ECE, Infant/Toddler Teaching, School-Age Teaching, or Special Needs in ECE/Early Intervention). A Specialization is required for Master Teacher or above levels of the Child Development Permit, issued by the California Commission on Teaching Credentialing. Associate and Teacher Levels do not require a Specialization.

To qualify for a Child Development Permit from the California Office on Teacher Credentialing, students will need to take at least one additional unit of General Education approved curriculum. Applicants for the Permit should consult with the ECE Department to discuss selection of elective units for the degree. ECE courses may not be counted toward the 16 GE unit requirement for the Child Development Permit.

ADMINISTRATION IN ECE SPECIALIZATION

- ECE 3: Early Childhood Program Administration (3)
- ECE 51: Early Childhood Staffing and Management (3)
- ECE 16**: Adult Supervision and Mentoring in Early Care and Education (2)

INFANT/TODDLER TEACHING SPECIALIZATION

- ECE 12: Infant Toddler Learning (3)
- ECE 22: Care and Education for Infants and Toddlers (3)

SCHOOL-AGE TEACHING SPECIALIZATION

- ECE 14: School Age and Adolescent Development (3)
- ECE 24: E.C. Curriculum: School Age Care (3)

SPECIAL NEEDS IN EARLY CHILDHOOD EDUCATION/EARLY INTERVENTION SPECIALIZATION

- ECE 26: The Child with Special Needs (3)
- ECE 27: Teaching Children with Special Needs and Early Intervention Strategies (3)

*May be used to fulfill General Education requirements.
ECE – Family Childcare

Certificate:

SC Program: CL.3154

PROGRAM DESCRIPTION: The Early Childhood Education Family Childcare Certificate offers students initial training for employment as a family childcare provider. After completion of the 17-unit certification program, the student will be prepared to seek a family childcare provider position or family childcare licensure (assuming ability to pass Community Care Licensing [Social Services Dept.] requirements related to physical site). This is a locally approved certificate. Upon satisfactory completion of the listed requirements and application for completion of the certificate to Admissions and Records, the student will receive a certificate of completion. This certificate program is not approved through the California Community College Chancellor’s Office; therefore, completion of the certificate will not be listed on the student’s transcript.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this certificate, the student should be able to:
1. Apply principles of child development in planning inclusive and developmentally appropriate curriculum and environments.
2. Utilize positive guidance of young children based on an understanding of cognitive, social and emotional development of children.
3. Create environments that are healthy, respectful and supportive to children and their families.
4. Identify and analyze the elements of professionalism and its importance in family childcare settings.
5. Complete class exercises applying management and operation knowledge by developing an operational structure of a mock family childcare setting.

All courses to be applied to the Early Childhood Education Family Childcare Certificate must be completed with a “C” grade or better.

TOTAL UNITS FOR CERTIFICATE 16

Human Development

General Studies – 18 Unit Emphasis:

SC Program: AS.1501

The Human Development emphasis permits students to explore the areas of early childhood education, teacher preparation, and family studies in order to develop foundational concepts and skills in working with people of all ages. Students will recognize that each human life, characterized by multiple influences and interrelated domains, is worthy...
of study, both individually and within a variety of contexts.

**PROGRAM LEARNING OUTCOMES:**
For General Studies Degree Learning Outcomes, see page 36.

**EARTH SCIENCES**

**Coastal Oceanographic Studies**

**General Studies – 21 Unit Emphasis:**

**SC Program: AS.1512**

This degree is designed to focus the student’s studies on coastal marine environments. The plan includes core and supporting classes that provide the background necessary to apply basic scientific principles in support of field- and lab-based coastal research including data collection and analysis, various scientific methodologies in the field and in the lab, relevant modern scientific theory, and scientific problem solving. At least one chemistry and one physics course are recommended for the degree, as well as the completion of MATH 102 for the GE pattern.

**Climatological and Meteorological Studies**

**General Studies – 18 Unit Emphasis:**

**SC Program: AS.1513**

Many natural processes studied across a broad spectrum of scientific disciplines influence climate and weather on Earth. This degree plan reflects that fact by incorporating multidisciplinary courses such as Earth System Science and Oceanography while being centered on a core of physics, meteorology, and global climate. Electives in the plan can support spatial associations, environmental considerations, geologic and astronomical influences, as well as computer basics and statistics, depending on student interests. At least one chemistry and one physics course are recommended for the degree, as well as the completion of MATH 102 for the GE pattern.

**Earth System Science**

**University Studies – 22 Unit Emphasis:**

**SC Program: AA.1508**

Earth System Sciences represents an emerging trend in the sciences and many universities offer a degree or option along this track (i.e. Earth Science, Planetary Science). This academic plan is intended to support the transfer student interested in the bachelor’s degree as it includes courses that define major portions of the Earth System, including geosphere, hydrosphere, atmosphere, and biosphere focused courses, and Earth’s position in space.

**PROGRAM LEARNING OUTCOMES:**
For University Studies Degree Learning Outcomes, see page 31.

Geographic Information Systems

**Associate in Science:**

**SC Program: A5.1520**

**PROGRAM DESCRIPTION:** The Associate of Science degree in Geographic Information Systems (GIS) provides students with skills, knowledge and experience in the application of GIS. Students complete courses in the technical aspects of GIS and information technologies, along with courses in fields to which GIS is commonly applied, including geography, earth and social sciences, natural resources and engineering. Students gain knowledge of maps, geographic data, and imagery, while developing skills in data collection, analysis and map creation. As students progress through the program the applied field courses provide direction for learning about the application of GIS, which gives direction to GIS project work. Worksite learning allows students to gain GIS workplace experience in their chosen field and to develop contacts among the community of GIS professionals. Successful students will have strong computer and critical thinking skills. Refer to [http://www.shastacollege.edu/gis](http://www.shastacollege.edu/gis) for more information.

This degree is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student's transcript will reflect completion of this degree.

**PROGRAM LEARNING OUTCOMES:**
Upon successful completion of this degree, the student should be able to:

1. Explain and summarize key GIS concepts, applications and societal implications.
2. Perform GIS data acquisition, capture, editing, and attributing.
3. Manage GIS data through file management, database design, georeferencing and conversion.
4. Perform GIS analysis using queries, overlay functions, and models.
5. Produces maps of subjects in application discipline demonstrating effective communication, design aesthetics, application of GIS tools and use of cartographic standards.
6. Effectively engages with community through projects, volunteer activities, user meetings and worksite learning.
7. Demonstrates effective written and oral communication of GIS challenges and opportunities pertaining to application discipline.

**DEGREE REQUIREMENTS:**

**CORE COURSES:**
- GEOG 5* Digital Planet: GIS and Society 3
- GEOG 9 Map and Geospatial Principles 3
- GEOG 10 Introduction to Geographic Information Systems 3
- GEOG 12 GIS Data Design and Capture 3
- GEOG 13 GIS Spatial Analysis 3
- GEOG 14 GIS Cartography and Visualization (3) OR
- GEOG 15 Introduction to Remote Sensing (3)

**CONCENTRATION OPTIONS:**
Choose 3 units from the following courses:
- GEOG 21 GIS-CAD Integration (1)
- GEOG 24 Customizing GIS (1)
- GEOG 25 GIS Projects (1)
- GEOG 94 GIS Worksite Learning (1-2)

**INFORMATION TECHNOLOGIES:**
Choose 10 units from the following courses:
- CIS 2* Introduction to Computer Science (4)
- CIS 23 Fundamentals of SQL (3) OR
- CIS 24 Database Design (3)
- CIS 61* C++ Language Programming (3) OR
- CIS 62* Java Programming (3) OR
- CIS 64 Web Programming (3)

**APPLICATION DISCIPLINES:**
Choose 6-8 units from the following courses:
- AGNR 1* Introduction to Natural Resources (3)
- ENGR 1A Measurements and Plane Surveying (3)
- ENGR 1B Plane Surveying (3)
- ENGR 27 Map & Computer-Aided Drafting (3)
- ESCI 1* The Active Earth (4)
- ESCI 10* Environmental Geology (4)
- GEOG 1A* Physical Geography (3)
- GEOG 1AL Physical Geography Lab (1)
- GEOG 1B* Human Geography (3)
- GEOG 2A Field Studies in Physical Geography (1)
- GEOG 2B Field Studies in Human Geography (1)
- GEOG 7* California Geography (3)
- GEOG 8* World Regional Geography (3)

*May be used to fulfill General Education requirements. See a counselor.

**ASSOCIATE IN SCIENCE DEGREE REQUIREMENTS:**
- Major: 37-39
- Additional General Education: 9-15
- General Electives: 6-14
- Degree Total: 60*

*Note: Calculation assumes a student will double-count the Multicultural graduation requirement with either a social science or humanities G.E. requirement. If students plan well and see a counselor, they may be able to double count the Multicultural units. If this graduation requirement is added, the number of units is increased by 3 units.

---

**Associate in Science Certificate:**

**SC Program: CT.3449**

**PROGRAM DESCRIPTION:** The Geographic Information Systems (GIS) Certificate at Shasta College provides students with the knowledge and skills needed to apply principles, methods and tools of geographic information systems (GIS). Students develop foundation principles of maps, geographically referenced data, imagery and global positioning systems. GIS fundamentals are taught, both in conceptual and practical terms. Students learn the design of geographic databases and the capture of data using global positioning systems (GPS) and remotely sensed imagery. Spatial analysis skills are developed, from basic geographic inquiry through more complex analysis using GIS overlays and models. Students learn the principles and practice of remote sensing and image processing for integration with GIS and GPS. Maps are designed and implemented for output in hardcopy and digital formats. Worksite learning allows students to gain GIS workplace experience and to develop contacts among the community of GIS professionals. Successful students will have strong computer and critical thinking skills. Refer to [http://www.shastacollege.edu/gis](http://www.shastacollege.edu/gis) for more information.

This certificate is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of all certificate requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this certificate.

**PROGRAM LEARNING OUTCOMES:**
Upon successful completion of this certificate, the student should be able to:

1. Explain and summarize key GIS concepts, applications and societal implications.
2. Perform GIS data acquisition, capture, editing, and attributing.
3. Manage GIS data through file management, database design, georeferencing and conversion.
4. Perform GIS analysis using queries, overlay functions, and models.
5. Produce a portfolio of projects demonstrating effective communication, design aesthetics, application of GIS tools and use of cartographic standards.
6. Effectively engage with the community through projects, volunteer activities, user meetings and worksite learning.
7. Effectively engage with the community through projects, volunteer activities, user meetings and worksite learning.

TOTAL UNITS FOR CERTIFICATE 18

Geography

Associate in Arts for Transfer:

SC Program: AA-T.4002

PROGRAM DESCRIPTION: Geography is the study of Earth's environments and how humans interact with them. Subject matter in the physical, biological, and social sciences is investigated in order to develop an understanding of our complex world. Students explore challenges and solutions to environmental change, resource use, urbanization, migration, conflict, and sustainability. Students are exposed to a range of geographic methods including field observation, research, map reading, and geospatial technologies. The Associate in Arts in Geography for Transfer degree is designed to prepare students for a seamless transfer into the CSU system to complete a baccalaureate degree in Geography or a similar major.

This degree is approved through the California Community College Chancellor's Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student's transcript will reflect completion of this degree.

PROGRAM LEARNING OUTCOMES:

Upon successful completion of this degree, the student should be able to:

1. Outline the foundations of physical and human geography.
2. Summarize world regions and local landscapes in terms of geographic characteristics and interconnections.
3. Perform spatial reasoning to address contemporary challenges and opportunities.
4. Effectively use maps to interpret landscapes and measure geographic phenomena.
5. Discuss the role of geospatial technologies in the acquisition, analysis, and display of geographic data.

REQUIREMENTS:

In addition to the 37-39 unit general education pattern for CSU or IGETC, students must complete the core courses listed below for the Associate in Science in Geology for Transfer Degree. Students must also obtain a minimum grade point average of 2.0 and a C or better in each major course, or a "P" if the course is taken on a Pass/No Pass basis.

REQUIRED CORE:

Any List A course not already used
GEOG 5 Digital Plant: GIS and Society (3)
ANTH 2 Cultural Anthropology (3)

ASSOCIATE IN SCIENCE IN GEOGRAPHY FOR TRANSFER DEGREE REQUIREMENTS:

Major: 19-23
General Education: 37-39
General Electives: 7-17*

Degree Total Will Not Exceed 60 Units

*Number will vary depending on units that double count.

Geologic Field Studies

General Studies – 20 Unit Emphasis

SC Program: AS.1511

This degree plan places a field emphasis around classes that provide the background necessary to apply basic scientific principles centered on the geological sciences. Classes support modern geologic theory and its application to field problems as well as lab experiences that produce a foundation for successful fieldwork. At least one chemistry and one physics course are recommended for the degree, as well as the completion of MATH 102 for the GE pattern.

PROGRAM LEARNING OUTCOMES:

For General Studies Degree Learning Outcomes, see page 36.

Complete the following 8 units:

ESCI 1 Physical Geology (4)
ESCI 23 Introduction to Geology in the Field (2)

Choose one 4-unit course from the list below:

ESCI 2 Historical Geology (4)
ESCI 6 Ancient Life (4)
ESCI 7 Introduction to the Geology of California (4)
ESCI 10 Environmental Geology (4)

Choose one 3-unit course from the list below:

ESCI 9 Geologic Hazards (3)
ESCI 11 Economic Geology (3)

Choose one combination of the following Earth Science field courses to total 4 units:

Two 30-series ESCI courses: 32, 33, 34, 35, 36, 37, 38 (1.5 units each) AND
One 40 series ESCI course: 42, 43, 44, 45, 47 (1 unit each)

OR

ESCI 26 or ESCI 27
AND

Two 40-series ESCI courses: 42, 43, 44, 45, 47 (1 unit each)

Choose 3 units from the following list:

AGNR 1 Introduction to Natural Resources (3)
CIS 1 Computer Literacy Workshop (3)
GEOG 5 Digital Plant: GIS and Society (3)
GEOG 10 Introduction to Geographic Information Systems (3)
NHIS 15 Natural History (3)

Geology

Associate in Science for Transfer:

SC Program: AS-T.1005

PROGRAM DESCRIPTION: The Associate in Science in Geology for Transfer degree provides the foundation for students interested in the study of the earth and provides breadth in both geologic processes and earth history. Field-based experiences and investigations are critical to geology and, within this degree, core courses and recommended transferable electives prepare the transfer student for university studies that expound upon such experiences. The Associate in Science in Geology for Transfer degree is designed to provide students with a common core of lower division courses required to
transfer and pursue a baccalaureate (4-year) degree in geology in the CSU system.

This degree is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this degree.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this degree, the student should be able to:
1. Describe major concepts and provide theoretical perspectives in geology utilizing appropriate vocabulary.
2. Develop and apply basic research methods as required in field and laboratory studies in geology.
3. Practice critical thinking to evaluate internal and surface Earth processes and their results.
4. Utilize geologic concepts and theory to analyze and interpret field situations supported by lab and field-collected evidence.

REQUIREMENTS:
In addition to the 37-39 unit general education pattern for CSU or IGETC, students must complete the core courses listed below for the Associate in Science in Geology for Transfer Degree. Students must also obtain a minimum grade point average of 2.0 and a C or better in each major course, or a “P” if the course is taken on a Pass/No Pass basis.

REQUIRED CORE:
CHEM 1A General Chemistry 5
CHEM 1B General Chemistry 5
ESCI 1 The Active Earth 4
ESCI 2 Earth: The History of Our Planet 4
MATH 3A Calculus 4
MATH 3B Calculus 5

Additional Recommended Preparation:
While these additional courses are not required for this degree, completing these courses will better prepare students for upper division coursework in geology. Some of these may be required for the Bachelor’s degree. Check the catalog for the CSU campus to which you plan on transferring.

BIOL 1 Principles of Biology
ESCI 3 Mineralogy and Crystal Optics
ESCI 14 Meteorology
ESCI 15 Oceanography
MATH 14 Introduction to Statistics
PHYS 2AB General College Physics
PHYS 4AB Physics (Mechanics)/(Electricity and Magnetism)

ASSOCIATE IN SCIENCE IN GEOLOGY FOR TRANSFER DEGREE REQUIREMENTS:

<table>
<thead>
<tr>
<th>Major</th>
<th>General Education</th>
<th>General Electives</th>

</thead>
<tbody>
<tr>
<td>27</td>
<td>37-39</td>
<td>0-3*</td>
</tr>
</tbody>
</table>

*Number will vary depending on units that double count.

Oceanography

University Studies – 23 Unit Emphasis:
SC Program: AA.1498

This degree plan identifies courses needed for a student to transfer into any of the marine sciences. The associate degree emphasizes a multidisciplinary approach as a foundation that can then be applied to an Oceanography bachelor’s degree or a more specialized bachelor’s degree such as Marine Biology or Marine Fisheries.

PROGRAM LEARNING OUTCOMES:
For University Studies Degree Learning Outcomes, see page 31.

Complete the following 15 units:
Biol 1 Principles of Biology (4)
ESCI 1 The Active Earth (4)
ESCI 15 Oceanography (4)
ESCI 16 Coastal Marine Sciences (3)

Choose the remaining 8 units from the following to include at least one additional science course:

Related Science Courses:
AGNR 60 Environmental Science (3)
AGNR 61 Environmental Science Laboratory (1)
ASTR 1 Astronomy: The Solar System (3)
CHEM 1B General Chemistry (5)
ESCI 10 Environmental Geology (4)
ESCI 15 Oceanography (4)
NHIS 15 Natural History of California (3)
PHYS 2B General College Physics (4)

Courses from supporting disciplines:
AGNR 1 Introduction to Natural Resources (3)
CIS 1 Computer Literacy Workshop (3)
GEOG 10 Introduction to Geographic Information Systems (3)
MATH 3B Calculus 3B (5)
MATH 14 Introduction to Statistics (4)

Meteorology/Climatology

University Studies – 18 Unit Emphasis:
SC Program: AA.1506

Many universities offer an Atmospheric Science degree or option and this academic plan is intended to support the transfer student interested in that bachelor’s degree. Courses in this plan produce a foundation to transfer in such studies as weather and climate challenges that face society now and into the future.

PROGRAM LEARNING OUTCOMES:
For University Studies Degree Learning Outcomes, see page 31.

Complete the following 10 units:
ESCI 14 Meteorology (3)
ESCI 17 Earth System Science (3)
ESCI 16 Global Climate Change: Past, Present and Future (3)

Science Teacher – Earth

University Studies – 20 Unit Emphasis:
SC Program: AA.1505

This degree plan prepares the student to transfer as they prepare for a Single Subject Teaching Credential in Science, Earth Science Concentration. Courses in this plan are designed to develop breadth and to demonstrate multidisciplinary aspects across the Earth Sciences.
PROGRAM LEARNING OUTCOMES:
For University Studies Degree Learning Outcomes, see page 31.

Complete the following 8 units:

- ESC1  The Active Earth (4)
- ESC2  Earth: The History of Our Planet (4) OR
- ESC6  Ancient Life (4)

Choose the remaining 12 units from the following list to include at least six units from science courses:

Science courses:
- AGNR 60 Environmental Science (3)
- AGNR 61 Environmental Science Laboratory (1)
- ASTR 1 Astronomy: The Solar System (3)
- CHEM 1B General Chemistry (5)
- ESC1 7, 9, 10, 14, 14L, 15, 17, 18, 32, 33, 34, 35, 36, 37, 38
- NHIS 15 Natural History (3)
- NHIS 65 Natural History of Patrick’s Point (1)
- PHYS 2B General College Physics (4)

Courses from supporting disciplines:
- AGNR 1 Introduction to Natural Resources (3)
- CIS 1 Computer Literacy Workshop (3)
- GEOG 10 Introduction to Geographic Information Systems (3)
- MATH 3B Calculus 3B (5)
- MATH 14 Introduction to Statistics (4)

EMS – Emergency Medical Response

General Studies – 20.5 Unit Emphasis:
SC Program: AS.1508

This degree is directed at students who will be working as Emergency Medical Technicians. Additionally, this degree could be used as a general preparation program for those students who will be attending a Paramedic certification program.

PROGRAM LEARNING OUTCOMES:
For General Studies Degree Learning Outcomes, see page 36.

Complete the following courses:

- FAID 75 Emergency Medical Technician 1 Basic (7)
- FAID 133 Certification CPR for the Professional Rescuer (0.5)

Choose at least 13 units from the following list:

- ANAT 1 Human Anatomy (5)
- BIOL 5 Introduction to Human Biology (3)
- BIOL 6 Introduction to Human Biology Laboratory (1)
- FAID 132 Emergency Medical Responder (EMR) (2)
- FIRS 120 Incident Command System ICS-200 (1)
- MICR 1 Microbiology (5)
- NUTR 25 Nutrition (3)
- PHY 1 Physiology (5)

Firefighter I

Certificate:
SC Program: CT.3444

PROGRAM DESCRIPTION: Firefighter I includes everything necessary to; learn the essential skills, obtain the required knowledge and abilities to perform at the entry level in a volunteer or paid fire department as a firefighter in the State of California. This Academy adheres to the curriculum as required by the California State Fire Marshal’s Office (CAL-FIRE) for certification by their office as a “Certified Firefighter 1”. Certification is obtained only after successful completion of the Firefighter 1 Academy, and a minimum of six months full time employment with an organized, paid fire department, or twelve months of part time employment with an organized volunteer fire department. Upon successful completion of the Academy and the required work time, the Chief of the department in which the student works verifies successful work completion and the student makes application for their California State Firefighter 1 Certificate.

The Firefighter 1 Academy is an intense program including rigorous physical conditioning, English designed for firefighters as well as classroom and field training with the same tools and appliances used by the fire service. During the later portion of the academy students earn a State Fire Marshal Certificate for “Fire Control Three” as part of their Live Fire Training. The course also includes Emergency Medical Responder in which the students earn certification from the California Emergency Medical Authority.

Note: No college in California certifies individuals as Firefighter 1 or Firefighter 2. All certifications are issued by the California State Fire Marshal. This certificate is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of the listed requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this certificate.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this certificate, the student should be able to:
1. Demonstrate the basic knowledge, skills and abilities to safely perform the tasks required to become an entry level firefighter.

CERTIFICATE REQUIREMENTS:
- FIRS 104 Firefighter I Academy 21

TOTAL UNITS FOR CERTIFICATE 21

Students wishing to apply for California State Fire Marshal’s Office
Firefighter I or II certification must meet the following criteria:

- Complete the required coursework as outlined by the State Fire Marshal's Office.
- Work a minimum of either six months as a paid full-time firefighter or 12 months as a volunteer.
- A recommendation and signature on appropriate form from the Fire Chief of the department that a student works for or volunteers at is a mandatory requirement.

Note: No college in California certifies individuals as Firefighter 1 or Firefighter 2. All certifications are approved by the California State Fire Marshal's Office.

**Firefighter II**

**Certificate:**

**SC Program: CT.3445**

**PROGRAM DESCRIPTION:** The Firefighter 2 certification entails advanced knowledge, skills and abilities gained only after the completion of the Firefighter 1 Academy and the required employment internship with an organized volunteer or paid fire department in the state of California. These advanced skills, knowledge and abilities are presented during the Firefighter 2 academy at Shasta College. The successful completion of this Firefighter 2 academy allows the student to operate at a "journeyman level" as a firefighter.

Note: No college in California certifies individuals as Firefighter 1 or Firefighter 2. All certifications are issued by the California State Fire Marshal.

This certificate is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of the listed requirements and filing an application for graduation with Admissions and Records, the student's transcript will reflect completion of this certificate.

**PROGRAM LEARNING OUTCOMES:**

Upon successful completion of this certificate, the student should be able to:

1. Demonstrate advanced knowledge, skills and abilities to safely perform the tasks required to become an advanced firefighter.

**CERTIFICATE REQUIREMENTS:**

**TOTAL UNITS FOR CERTIFICATE** 25

Students wishing to apply for California State Fire Marshal's Office Firefighter I or II certification must meet the following criteria:

- Complete the required coursework as outlined by the State Fire Marshal's Office.
- Work a minimum of either six months as a paid full-time firefighter or 12 months as a volunteer.
- A recommendation and signature on appropriate form from the Fire Chief of the department that a student works for or volunteers at is a mandatory requirement.

Note: No college in California certifies individuals as Firefighter 1 or Firefighter 2. All certifications are approved by the California State Fire Marshal's Office.

**Fire – Fire Investigation**

**General Studies – 18 Unit Emphasis:**

**SC Program: AS.1507**

Once a student has completed this degree, it is hoped that they will continue their education and pursue a transfer level AA degree with a final target being undergraduate and graduate degrees in Chemistry, Physics, Engineering, Systems Analysis, or similar disciplines.

**PROGRAM LEARNING OUTCOMES:**

For General Studies Degree Learning Outcomes, see page 36.

Complete the following 13 units:

- FIRS 71 Fire Behavior and Combustion (3)
- FIRS 74 Fire Protection Equipment and Systems (3)
- FIRS 86 Building Construction for Fire Protection (3)
- FIRS 189 Fire Investigation 1A (2)
- FIRS 191 Fire Investigation 1B (2)

Choose 5 units from the list below:

- ADJU 15 Legal Aspects of Evidence (3)
- ADJU 20 Principles of Investigation (3)
- CHEM 2A Introduction to Chemistry (5)
- FTWL 101 Wildland Fire Behavior (3)
- FTWO 112 Advanced Firefighter Training (0.5)
- FTWO 132 Intermediate Wildland Fire Behavior S-290 (2)
- FTWO 144 Introduction to Wildland Fire Calculations S-390 (2)
- FTWP 114 Wildland Fire Origin and Cause Determination FI-210 (1.5)

**Fire – Fire Service Command, Company Officer**

**General Studies – 18 Unit Emphasis:**

**SC Program: AS.1506**

While available to anyone, this degree is designed for students who have been working as Firefighter/Engineers (paid or volunteer) and intend on becoming Engine Captains/Company Officers. Additionally, this degree supports wildland firefighters who are, or will be working at the Crew/Engine/Dozer/Squad Boss levels, or similar supervisory positions. Once a student has completed this degree, it is hoped that they will continue their education and pursue a transfer level AA degree with a final target being undergraduate and graduate degrees in team development, group dynamics/psychology, fire administration or similar disciplines.

**PROGRAM LEARNING OUTCOMES:**

For General Studies Degree Learning Outcomes, see page 36.

Complete the following 3.5 units:

- FIRS 186 Company Officer 2E, Wildland Incident Operations (1.5)
- FIRS 187 Company Officer 2D, All-Risk Command Operations (2)

Choose 14.5 units from the list below:

- FIRS 108 Firefighter II (4)
- FIRS 135 Intermediate Incident Command System: For Expanding Incidents, I-300 (1.5)
- FIRS 136 Advanced Incident Command System I-400 (1)
- FTWL 102 Wildland Firefighter Safety and Survival (3)
- FTWL 103 Wildland Fire Operations (3)
- FTWO 114 Initial Attack Incident Commander Type 4 (ICT4) S-200 (1)
- FTWO 116 Fire Operations in the Wildland/Urban Interface S-215 (1)
- FTWO 121 Crew Boss S-230 (1.5)
- FTWO 125 Ignition Operations S-234 (1)
- FTWO 135 Task Force/Strike Team Leader S-330 (1)

**Fire Technology**

**Associate in Science:**

**SC Program: AS.1240**

**PROGRAM DESCRIPTION:** The Fire Technology curriculum is planned to serve both as an in-service program and as a pre-employment two-year program for community college students aspiring to enter the field of firefighting. Fire Technology majors may be required...
to fulfill a tour of duty at a local fire station. The suggested course sequence has been supplied to the Counseling Division by the Instructional Division. Students are urged to use this outline along with the Shasta College catalog. Particular attention should be paid to course prerequisites and to whether a class is taught Fall or Spring semester or both. Courses listed may be offered either spring or fall semesters, or at the discretion of the division.

This degree is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this degree.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this degree, the student should be able to:

1. Possess the necessary skills, knowledge and abilities to enter the fire service or to increase skills, knowledge and abilities for those already employed as a firefighter.

DEGREE REQUIREMENTS:

CORE COURSES:
- FTWO 110, 132, 134
- FTWP 109, 110, 126
- FTWO 111, 112, 116, 117, 118, 121, 122, 125, 130, 136

Program Electives (Choose 21 units from the following):

Fire Fighter 1 Academy:
- FIRS 104
- Structure Fire Fighter Classes:
  - FIRS 108, 137, 138, 151, 152, 153
- Rescue Classes:
  - FIRS 145, 147, 148, 149
- Engine Operation Classes:
  - FIRS 105, 106, 116
- Wildland Fire Suppression Classes:
  - FIRS 118
  - FTWO 111, 112, 116, 117, 118, 121, 122, 125, 130, 136
- Wildland Fire Behavior Classes:
  - FTWO 113, 132, 144
- Company Officer Classes:
  - FIRS 109, 182, 183, 186, 187
- Incident Command Classes:
  - FIRS 120, 135, 136
  - FTWO 114, 133, 135, 137, 153, 156
  - FTWP 115
- Fire Investigation/Prevention Classes:
  - FIRS 189, 191, 192
  - FTWP 108, 111, 114
- Fire Instructor Classes:
  - FIRS 193, 194
  - FTWO 158
- Leadership Classes:
  - FIRS 102, 165, 166
  - FTWO 115
- Prescribed Fire Classes:
  - FTWP 109, 110, 126
- Planning and Logistics:
  - FTWL 110, 132, 134
  - FTWO 128
- Emergency Medical Services Classes:
  - FAID 75, 130, 132, 133

*May be used to fulfill General Education requirements.

*Note: Calculation assumes a student will double-count the Multicultural graduation requirement with either a social science or humanities G.E. requirement. If students plan well and see a counselor, they may be able to double count the Multicultural units. If this graduation requirement is added, the number of units is increased by 3 units.

Fire Technology – Wildland Firefighter I Academy

Certificate:

SC Program: CL.3434

PROGRAM DESCRIPTION: Students completing this certificate will have the basic firefighting training as required by the U.S. Forest Service and California Department of Forestry for seasonal or permanent employment in fire fighting. This Academy provides the students with all the required knowledge, skills and abilities as required and dictated by the United States Forest Service (USFS) and the California Department of Forestry and Fire Protection (CDF or Cal-Fire) for a certificate required by those two wildland fire agencies for seasonal wildland firefighter employment. The focus of this academy is wildland fire control and safety in the wildland fire environment. Students who successfully complete this academy obtain the very basic skills, knowledge, and abilities to perform at the entry level as a wildland firefighter. More advanced wildland courses are contained in the Shasta College Course Catalog. Both the State and Federal wildland Fire Agencies provide their own more advance training once employment is obtained. Note: Successful completion of the Wildland Firefighter I Academy does not assure employment with the USFS or CAL-FIRE.

This is a locally approved certificate. Upon satisfactory completion of the listed requirements and application for completion of the certificate to Admissions and Records, the student will receive a certificate of completion. This certificate program is not approved through the California Community College Chancellor’s Office; therefore, completion of the certificate will not be listed on the student’s transcript.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this certificate, the student should be able to:

1. Demonstrate the basic knowledge, skills and abilities to safely perform the tasks required by the United States Forest Service and the California Department of Forestry and Fire Protection (CAL Fire) as an entry level wildland firefighter.

CERTIFICATE REQUIREMENTS:
- FIRS 73 Wildland Firefighter I Academy

TOTAL UNITS FOR CERTIFICATE 6

Fire – Wildland Fire Behavior

General Studies – 18 Unit Emphasis:

SC Program: AS.1509

While available to anyone, this degree is designed for students who have been working as wildland firefighters and intend on working within the Plans Section of the Incident Command System (specifically the Situation Unit and Fire Behavior positions). Once a student has completed this degree, it is hoped that they will continue their education and pursue a transfer level AA degree with a final target being undergraduate and graduate degrees in Meteorology, Physics, or similar disciplines.

PROGRAM LEARNING OUTCOMES:
For General Studies Degree Learning Outcomes, see page 36.
Complete the following 4.5 units:
FTWO 113 Introduction to Wildland Fire Behavior S-190 (0.5)
FTWO 132 Intermediate Wildland Fire Behavior S-290 (2)
FTWO 144 Introduction to Wildland Fire Calculations S-390 (2)

Choose 13.5 units from the list below:
CHEM 14 Meteorology (3)
ESCI 14 Wildland Fire Behavior (3)
FTWL 101 Wildland Fire Operations (3)
FTWO 111 Firefighter Training S-130 (2)
FTWO 112 Advanced Firefighter Training S-131 (0.5)
FTWO 114 Initial Attack Incident Commander Type 4 (ICT4)
FTWO 116 Fire Operations in the Wildland/Urban Interface S-215 (1)
FTWO 125 Ignition Operations S-234 (1)
FTWO 128 Field Observer S-244 (1.5)
MATH 110 Essential Math (3)

FOR MATH: maximum of 3 units

Required Noncredit Courses:

1. Meet three of the four course level student learning outcomes for English as a Second Language:

ENGLISH AS A SECOND LANGUAGE

Certificate of Completion

SC Program: NCR.1001

PROGRAM DESCRIPTION: This certificate of completion is comprised of six noncredit courses that range from ESL beginning to advanced. These noncredit courses generally serve our immigrant population who seek language skills for employment and daily living. Instruction follows a communication-based approach to language learning. The last level in this sequence, ESL 336, acts as a transition course for students who want to pursue academic studies.

This certificate is approved through the California Community College Chancellor's Office. Upon satisfactory completion of the listed requirements and filing an application for graduation with Admissions and Records, the student's transcript will reflect completion of this certificate.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this certificate, the student should be able to:
1. Meet three of the four course level student learning outcomes for English as a Second Language:

PROGRAM LEARNING OUTCOMES:

Upon successful completion of this certificate, the student should be able to:
1. Meet three of the four course level student learning outcomes for the highest level course in the Program, ESL 236 or ESL 336.

REQUIRED NONCREDIT COURSES:

ESL 331 Beginning Low
ESL 332 Beginning High
ESL 333 Intermediate
ESL 334 Intermediate High
ESL 336 Advanced

HEALTH SCIENCES

Allied Health

University Studies – 20 Unit Emphasis

SC Program: AA.1511

The emphasis in Allied Health is designed to provide the lower division major courses to transfer to a university and earn a Bachelor's degree in Nursing or in other allied health fields.

PROGRAM LEARNING OUTCOMES:
For University Studies Degree Learning Outcomes, see page 31.

Complete the following:

Dental Hygiene

Associate in Science:

SC Program: AS.1173

PROGRAM DESCRIPTION: The Dental Hygiene Program is designed to prepare students to enter the workforce with the skills required to fulfill the duties of the dental hygienist as outlined by the state and national regulatory and accrediting bodies of the dental hygiene profession. The goal is to graduate dental hygienists who have specific knowledge of the dental hygiene profession and dental hygiene process of care, utilize a sophisticated level of thinking ability, and have the positive character traits (responsibility, professionalism, discipline, critical thinking, and initiative) necessary to succeed within their scope of practice.

All courses in the program will employ an integrated teaching strategy that will include development of critical thinking and clinical skills requiring competence in oral and written English communication, and competence in applied math for problem solving. In addition, all courses will provide a broad understanding of all aspects of the dental hygiene and dental professions. The program will be articulated with various transfer institutions so that those students who choose to transfer for further study may do so.

Students who graduate from the dental hygiene program will be eligible to take the national and state examinations to pursue licensure as a dental hygienist with certification in soft tissue curretage, local anesthesia, nitrous oxide/oxygen sedation, application of pit and fissure sealants, and radiation safety.

This degree is approved through the California Community College Chancellor's Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student's transcript will reflect completion of this degree.

PROGRAM LEARNING OUTCOMES:
1. Ninety-five percent of those students who are eligible to sit for the Mock National Board Dental Hygiene Examination will pass their examination on the first attempt.
2. Upon completion and passing the mock NBDHE examination, ninety percent of those students who sit for the mock State Board Exam will pass their examination on the first attempt.

REQUIREMENTS FOR ENROLLMENT INTO THE PROGRAM:
Space in the program is limited. A new class is enrolled every fall semester. In order to be eligible for enrollment, students must file an application for graduation with Admissions and Records during the enrollment period. All qualified applicants are offered enrollment on a space-available basis in the order of their application ranking. Final selection of qualified applicants is competitive. Specific information is available in the Selection Criteria tab on the website.

Students must meet all the following requirements for application:
1. Students must have a high school diploma or its equivalent.
2. The “Prerequisite Science” courses listed below must be completed with an overall minimum science 2.5 GPA.
3. Students must complete the remaining general “PREREQUISITE” courses listed below must be completed with an overall minimum of 2.5 GPA.
4. Prerequisites must be completed upon application. No in-progress courses will be accepted.
5. Completion of competence in mathematics: MATH 102 Intermediate Algebra or MATH 110 Essential Math are the advised courses for meeting this requirement.
6. Spring 2020 applicants must have completed ASGE requirements prior to application to the Shasta College Dental Hygiene program.
PREREQUISITE COURSES:
- ANAT 1* Anatomy 5
- PHY 1* Physiology (with Lab) 5
- MICR 1* Microbiology 5
- ENGL 1A* College Composition 4
- CHEM 2A* Introduction to Chemistry 5
- CHEM 2B* Introduction to Organic and Biochemistry 5
- SOC 1* Introduction to Sociology 3
- PSYC 1A* General Psychology 3
- DNTL 44 Community Oral Health 3
- DNTL 45 Ethics and Jurisprudence 2

TOTAL PREREQUISITE UNITS 41

GRADUATION REQUIREMENTS:
Students must graduate from the Dental Hygiene Program to be eligible to take the state licensing examination.

Students must complete the following additional requirements for graduation before applying to the dental hygiene program:
- Completion of the Humanities requirement.
- Completion of the multi-cultural awareness requirement.
- Completion of computer literacy.
- Completion of competence in mathematics: MATH 102 Intermediate Algebra or MATH 110 Essential Math are the advised courses for meeting this requirement.

HEALTH & SAFETY CLINICAL CLEARANCE:
Upon acceptance for enrollment, students must meet additional clinical requirements. All students participating in clinical experiences must submit proof of immunity for specific immunizations or serum titers, cleared criminal background check, negative drug screen, current physical examination and negative TB screening, and provide current valid Basic Life Support—Health Care Provider card (CPR) which includes adult, child & infant resuscitation with two person rescue and AED training. Students are financially responsible for meeting these requirements according to established program process. Specific information is available on the Health and Safety Requirements tab on the website or students may call the Division Office (530-339-3600).

DEGREE REQUIREMENTS:
Students must be enrolled in the Dental Hygiene Program in order to take the courses listed below. Students must show competence in all semester courses (with a grade of C or better) in order to progress through the curriculum. A failing grade in any theory or clinical course within a semester will require withdrawal or result in failure from the program.

CORE COURSES:
- DNTL 10 Oral Biology 3
- DNTL 11 Oral Radiology 3
- DNTL 12 Head and Neck Anatomy 2
- DNTL 13 Dental Health Education/Seminar 2
- DNTL 14 Introduction to Clinic 4
- DNTL 20 Local Anesthesia and Nitrous Oxide 2
- DNTL 21 General and Oral Pathology 4
- DNTL 23 Patient Management and Geriatrics 2
- DNTL 24 Clinical Practice I 4
- DNTL 25 Clinic I Seminar 2
- DNTL 26 Nutrition in Dentistry 1
- DNTL 30 Periodontology I 3
- DNTL 31 Pharmacology 2
- DNTL 32 Dental Materials 2
- DNTL 33 Advanced Clinical Topics 2
- DNTL 34 Clinical Practice II 4
- DNTL 35 Clinic II Seminar 1
- DNTL 40 Periodontology II 1
- DNTL 41 Practice and Financial Management 1
- DNTL 42 Clinic III Seminar 2
- DNTL 43 Clinical Practice III 4

ASSOCIATE IN SCIENCE DEGREE REQUIREMENTS:
- Major 97
- Additional General Education 6
- General Electives 0

Graduates of the baccalaureate program will receive a Bachelor of Science Degree in Health Information Management and upon program CAHIIM accreditation will be eligible to apply to take the national examination for certification as a Registered Health Information Administrator (RHIA).

Health Information Management
Bachelor of Science:
SC Program: BS.5001

PROGRAM DESCRIPTION: The Health Information Management Program consists of educational courses in the third and fourth year at the upper division level designed to prepare students to work in management-level positions in a variety of healthcare settings. Health Information Management (HIM) is the practice of acquiring, analyzing, and protecting digital and traditional medical information vital to providing quality patient care. HIM professionals are highly trained in the latest information management technology applications and understand the workflow in any healthcare provider organization from large hospital systems to the private physician practice. They are vital to the daily operations management of health information and electronic health records.

Graduates of the baccalaureate program will receive a Bachelor of Science Degree in Health Information Management and upon program CAHIIM accreditation will be eligible to apply to take the national examination for certification as a Registered Health Information Administrator (RHIA).
This baccalaureate degree is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this degree.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this degree, the student should be able to:

1. Qualify for national certification as a Registered Health Information Administrator (RHIA) by achieving a passing score on the AHIMA certification exam.
2. Integrate knowledge of medical, administrative, ethical and legal requirements and standards related to healthcare delivery and protecting patient information as evidenced by successful completion of course competencies and assignments.
3. Apply the principles of health information management related to administering computer information systems, collecting and analyzing patient data, and using classification systems and terminologies as evidenced by successful completion of course competencies and assignments.
4. Demonstrate the concepts of effective communication to effectively interact with all healthcare organization levels that utilize patient data in decision-making and operations – clinical, financial, administrative and information systems – as evidenced by successful completion of course competencies and assignments.

REQUIREMENTS FOR ENROLLMENT IN THE PROGRAM:
Students can enter the health information management bachelor degree program through the following pathways:

1. Entering as a Freshman (1st year): Designed for students admitted to the Health Information Technology two-year associate degree program who are interested in continuing to earn a bachelor’s degree in Health Information Management. Students in this track will enter as freshmen.
2. Entering as a Sophomore (2nd year): Designed for students with previous AS/BS degree in fields other than health information. This track allows students to complete the major requirements (HIT courses) in 1 year.
3. Entering as a Junior (3rd year): Designed for students who graduated with an Associate in Science degree in Health Information Technology from a regionally accredited institution.

Courses...

Students who did not follow the CSU or IGETC general education pattern for the associate degree applying for tracks 2 and 3 may need to take additional lower-division general education courses to meet prerequisites for the core HIMS courses.

Applicants must submit a Health Information Program Application packet via email to HIMappliation@shastacollege.edu. The application packet information consists of the following:

1. Health Information Management Program Application Form
2. Unofficial copy of transcripts from all previous college work
3. One-page Statement of Interest

As enrollment spaces are determined, applicants scheduled for enrollment will receive an Enrollment Invitation email. The email will provide instructions for responding to the invitation by an established deadline. Those who have accepted the invitation to enroll will be sent information on how to register for courses. If the applicant is not able to attend when offered enrollment, they will be removed from the applicant pool and the applicant will need to reapply to be considered for a subsequent class. Students who are not selected for the cohort have the option of re-applying during a subsequent semester.

STUDENT FEES:
California residents enrolled in upper division community college coursework will pay $130 per unit. Students will also have to complete and pay for a physical exam, TB skin test, required immunizations, a background check/driver screening, and any additional clinic-specific requirements necessary to begin the clinical experience.

HEALTH AND SAFETY CLINICAL CLEARANCE:
All students participating in clinical experiences must submit proof of immunity through immunizations or serum titers, cleared criminal background check, negative drug screen, current physical examination and negative TB screening. Students are financially responsible for meeting these requirements according to the established program process. Specific information is available on the Health and Safety Requirements tab on the website or students may call the Division Office (530-339-3600).

DEGREE REQUIREMENTS:

| SEMESTER ONE: | HIMS 405 | Fundamentals of Health Information Mgmt | 4 |
| HIMS 408* | Ethics in Healthcare Administration | 3 |
| HIMS 410 | Healthcare Informatics | 4 |
| ENGL 401* | Advanced Professional Writing | 3 |

Health Information Technology

Associate in Science:

SC Program: AS.1600

PROGRAM DESCRIPTION: The Associate of Science in Health Information Technology program prepares students for a career working with health information in a variety of healthcare settings in diverse roles. Health Information Technology professionals perform the essential functions of acquiring, analyzing, maintaining and securing health information vital to providing quality patient care. Health Information Technology graduates are employed in hospitals, clinics, physician’s offices, ambulatory care facilities, long term care facilities, home health agencies, consulting firms, and any organization that uses patient data or health information, such as pharmaceutical companies, law and insurance firms, and health product vendors. Upon program accreditation, graduates will be eligible to apply for writing the national examination for certification as a Registered Health Information Technician (RHIT). The Health Information Technology program is designed to prepare students for entry into Shasta College’s Health Information Management Baccalaureate Degree program.

This degree is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this degree.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this degree, the student should be able to:

1. Apply the knowledge and skills needed to perform HIM Associate Degree entry-level competencies as defined by the American Health...
Information Management Association’s (AHIMA) Council for Excellence in Education (CEE).

2. Apply the knowledge and skills needed to successfully pass the national Registered Health Information Technician (RHIT) exam.

3. Compete in the job market in the field of health information technology or enroll in an advanced degree program.

4. Demonstrate the ability to work effectively as an individual and collaboratively in a group to resolve health information challenges in a changing healthcare environment.

**HEALTH AND SAFETY CLINICAL CLEARANCE:**

All students participating in clinical experiences must submit proof of immunity through immunizations or serum titer, cleared criminal background check, negative drug screen, current physical examination and negative TB screening. Students are financially responsible for meeting these requirements according to the established program process. Specific information is available on the Health and Safety Requirements tab on the website or students may call the Division Office (530-339-3600).

**STUDENT FEES:**

Fees students may incur aside from the ordinary course enrollment fees:

1. Textbooks/Virtual Lab software access fee

2. Transportation cost to/from professional practice site (HIT 60)

3. Background check fee and required immunizations cost for student’s professional practice experience (HIT 60)

**DEGREE REQUIREMENTS:**

In addition to the required 37-39 unit general education pattern for CSU or IGETC, students must complete the core courses listed below for the Associate of Science in Health Information Technology Degree. Students must also obtain a minimum grade point average of 2.0 with a grade of C or higher in all courses required for the major. A “P” (Pass) grade is not an acceptable grade for courses in this major.

**PROGRAM DESCRIPTION:**

The Medical Assisting Program prepares the student with the knowledge, skills, and distinctive qualities necessary for the medical assisting profession. The medical assistant possesses a broad scope of skills which make them ideal allied health professionals in the ambulatory care setting. During this program, students will learn vitals, EKG, venipuncture, injections and pharmacology, assisting in minor office surgery, waived testing, patient advocacy and education, medical terminology, basic anatomy, physiology, and microbiology, as well as medical office administrative tasks. Such versatility affords graduates the opportunity to find employment in clinics, urgent-care facilities, primary care and specialty physician offices, including podiatry, chiropractic, and optometry. Medical assistants have also found employment in medical laboratories, surgical centers, electrocardiography departments in hospitals, government agencies, and educational institutions. Core coursework can be completed in two semesters, followed by a 5-6 week externship (180 hours). A Certificate of Achievement may be earned by completing all courses with a grade of “C” or better and passing externship (ALH 94). The medical assisting profession is highly diversified, and the work is challenging and personally rewarding.

This certificate is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of the listed requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this certificate.

**PROGRAM LEARNING OUTCOMES:**

Upon successful completion of this certificate, the student should be able to:

1. Apply the knowledge and skills needed to perform entry-level competencies in clinical and administrative medical assisting as outlined by the American Association of Medical Assistants (AAMA).

2. Apply the knowledge and skills necessary to successfully pass the certification exam through NHA, NCCT, or CCBMA.

3. Apply knowledge, skills, and professionalism necessary to compete in the job market.

4. Demonstrate the ability to work effectively as an individual and collaboratively as a team member to resolve challenges in a changing healthcare environment.

**STUDENT SELECTION AND FEES**

Space in the program is limited. In order to be eligible for enrollment, students must satisfy the prerequisites listed and file a program enrollment packet with the Admissions Office during designated enrollment periods. Students are enrolled on a first come first serve basis until classes are full.

To begin the program, the student must:

- Complete the Application for Shasta College or be an active Shasta College student.
- Enroll in courses following the recommended sequence of courses for the Medical Assisting Program.
- Submit all required paperwork before beginning ALH coursework.
- Submit proof of a high school diploma.
- Provide a copy of current negative tuberculosis screening.
- Submit proof of immunizations or immunity.

Additional fees include:

- Textbooks
- Transportation costs related to externship (ALH 94)
- Immunizations
- Scrubs, athletic shoes, stethoscope
- Certification fees

**PROGRAM DESCRIPTION:**

The Medical Assisting Program prepares the student with the knowledge, skills, and distinctive qualities necessary for the medical assisting profession. The medical assistant
Certificate:

**Medical Scribe Specialist**

SC Program: CL.3455

**PROGRAM DESCRIPTION:** This program is designed to train the individual to be a medical scribe specialist. Students will learn the fundamentals of the career, including medical terminology, basic anatomy and physiology, electronic health records, medico-legal rules and regulations, including HIPAA, and the essentials of medical billing and coding. Using both theory and clinical based learning, the program meets the training requirements for medical scribe as set forth by the Commission on Accreditation of Allied Health Education Programs (CAAHEP). The skills and knowledge of a medical scribe may be applied in ambulatory care clinics, surgical centers, hospital settings, emergency departments, and other health care environments.

This is a locally approved certificate. Upon satisfactory completion of the listed requirements and application for completion of the certificate to Admissions and Records, the student will receive a certificate of completion. This certificate program is not approved through the California Community College Chancellor’s Office, therefore, completion of the certificate will not be listed on the student’s transcript.

**PROGRAM LEARNING OUTCOMES:**

Upon successful completion of this certificate, the student should be able to:

1. Apply the knowledge and skills needed to perform entry-level competencies as a medical scribe specialist.
2. Demonstrate the ability to work effectively as an individual and collaboratively as a team member to resolve challenges in a changing healthcare environment.

**PROGRAM REQUIREMENTS AND COURSE SEQUENCE:**

Students must complete the 5 courses listed below for a total of 10.5 units in order to earn the Medical Scribe Specialist Certificate of Achievement. Although not required, HIT 11 is recommended. Students must obtain a minimum GPA of 2.0 with a grade of “C” or higher in ALL courses required of the program. ALH 105B coursework must be completed in order to participate in HEOC 94. Students must be prepared to complete HEOC 94 immediately following the completion of ALH 105B, or as placement allows. Externship (HEOC 94) scheduling commitments generally follow standard business hours Monday through Friday, 8am to 5pm. In order to progress through the medical scribe courses, students must demonstrate competency in both the theory and clinical components. Failing or withdrawing from ALH 105A will require withdrawal from ALH 105B.

Space in the program is limited. In order to be eligible for enrollment, students must satisfy the prerequisite listed and file a program enrollment packet with the Health Sciences Division during designated enrollment periods. Students are enrolled on a first come first served basis until classes are full. Clinical and Safety requirements must be met as outlined on the Health Sciences Division web page. Students must also complete a background check and drug test as part of the application process. For additional information please consult the HSUP application process.

**PREREQUISITE:**

A 5 minute professional typing certificate reflecting a typing speed of 55 wpm with 98% accuracy.

**RECOMMENDED COURSES:**

HIT 11 Computer Info Systems for Health Info Tech 2

**CORE COURSES:**

ALH 105A Medical Scribe Theory 3
ALH 105B Medical Scribe Lab 1.5
HEOC 11 Medical Terminology 3
HEOC 94 Health Occupations Worksite Learning 2
HIT 30 Basic Pharmacology 1

**TOTAL UNITS FOR CERTIFICATE:** 10.5

---

Certificate:

**Nurse Aide/Home Health Aide**

SC Program: CL.3300

**PROGRAM DESCRIPTION:** These courses are designed to prepare students to perform the basic nursing skills required in acute hospitals, long-term care facilities, and home health care agencies. Special emphasis is placed on health care provisions and modifications in community health care settings.

The courses are to be completed in sequence and are approved by the State Department of Health Services.

This is a locally approved certificate. Upon satisfactory completion of the listed requirements and application for completion of the certificate to Admissions and Records, the student will receive a certificate of completion from Shasta College. This certificate program is not approved through the California Community College Chancellor’s Office; therefore, completion of the certificate will not be listed on the student’s transcript.

**PROGRAM LEARNING OUTCOME:**

Upon successful completion of this certificate:

1. 90% of students taking the end of program comprehensive written and skills predictor examination will demonstrate competency by a written score of 75% or higher and demonstrate competency on at least three of five randomly selected skills consistent with state certification testing competencies.

**REQUIREMENTS FOR ENROLLMENT INTO THE PROGRAM**

Students, at their expense, are required to meet all health and safety clinical requirements prior to entering the Nurse Aide/Home Health Aide courses. Students must meet established physical criteria to participate in the clinical area. See program web page (shastacollege.edu/HSUP/cnahha) for specific information.

**CERTIFICATE REQUIREMENTS:**

HEOC 130 Nurse Assistant 5.5
HEOC 131 Home Health Aide 1.5

**TOTAL UNITS FOR CERTIFICATE:** 7

---

Certificate:

**Nursing – Associate Degree Nursing**

Associate in Science:

SC Program: AS.1380

**PROGRAM DESCRIPTION:** The educational objective of the Associate in Science Degree Nursing program is to prepare the student who, upon graduation and successful completion of the NCLEX-RN, will be able to function within the scope of nursing as defined by the State of California Nursing Practice Act. Students must meet established physical criteria to participate in the clinical area.

This degree is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this degree.

**PROGRAM LEARNING OUTCOMES:**

Upon successful completion of this degree, the student should be able to:

1. Synthesize principles of holistic nursing practice to provide evidence based care to clients and their families throughout the lifespan.
2. Integrate principles of critical thinking and the nursing process to enhance care delivery, and protect clients and healthcare staff.
3. Apply evidence based concepts of nursing practice to provide care and comfort, promote health and wellness, manage health care alterations, and reduce risk potential across the healthcare continuum for clients and their families.
4. Incorporate the concepts of therapeutic communication and evidence based nursing care to promote and support the emotional,
mental, and social well-being of clients, families and the community.

**GRADUATION REQUIREMENTS:**
1. Completion of the humanities requirement.
2. Completion of competency in math (see Area 4C or meet with a counselor).
3. Completion of the multicultural requirement.

**REQUIREMENTS FOR ENROLLMENT IN THE PROGRAM:**
Space in the program is limited. A new class is enrolled every semester. In order to be eligible for enrollment, students must satisfy the prerequisites listed below and file a multi-criteria enrollment packet with the Health Sciences Division Office during designated enrollment periods each June.

Applicants found eligible are ranked following the multi-criteria selection process guidelines. Sixty (60) applicants will be chosen from this process for enrollment; thirty (30) for the fall semester and thirty (30) for the following spring semester. For specific information, please see the Application Process tab on the Associate Degree Nursing website or call the division office at (530) 339-3600.

Students must meet all of the following requirements for application:
1. Students filing enrollment packets must have a high school diploma or equivalent.
2. The “Prerequisite Science” courses listed below must be completed with a grade of C or higher in each course and a minimum science GPA of 2.5.
3. Prerequisites must be completed upon application. No in-progress courses will be accepted.

**PREREQUISITE COURSES:**
Science Prerequisite courses must be completed with a grade of "C" or better in each course, and a minimum science GPA of 2.5. All science prerequisite must have a lab component.

- **ANAT 1** Anatomy 5
- **MICR 1** Microbiology 5
- **PHY 1** Physiology (with lab) 5

General Education Prerequisite courses must be completed with a grade of "C" or better in each course.

- **ENGL 1A** College Composition 4
- **PSYC 1A** General Psychology 3

**ANTH 2** Cultural Anthropology OR 3
**SOC 1** Introduction to Sociology

**CMST 54** Small Group Communication OR 3
**CMST 60** Public Speaking

* May be used to fulfill General Education Requirements. See a counselor.

Note: CMST 10 (Interpersonal Communication) will be accepted in place of CMST 54 or CMST 60 only if completed with a grade of C or higher during or prior to Spring 2014.

PSYC 14 (Psychology of Personal/Social Adjustment) will be accepted in place of PSYC 1A only if completed with a grade of C or higher prior to Fall 2017.

SOC 2 (Social Problems) will be accepted in place of SOC 1 only if completed with a grade of C or higher prior to Fall 2017.

**TOTAL PREREQUISITE UNITS** 28

**DEGREE REQUIREMENTS:**
Students must be enrolled in the ADN Program in order to take the courses listed below. Students must show competence in both clinical and theory components (with a grade of C or better) in order to progress through the curriculum. A failing clinical grade in either theory or clinical will require withdrawal or result in failure of the program.

**CORE COURSES:**
- **REGN 15** Health and Illness I 6.5
- **REGN 15P** Professional Nursing Practicum I 5.5
- **REGN 25** Health and Illness II 6.5
- **REGN 25P** Professional Nursing Practicum II 5.5
- **REGN 35** Health and Illness III 3.5
- **REGN 35P** Professional Nursing Practicum III 2.5
- **REGN 36** Maternal and Child Nursing 3.5
- **REGN 36P** Professional Nursing Practicum: Maternal-Child and Pediatric Care 2.5
- **REGN 48** Health and Illness IV: Community, Mental Health, and Medical-Surgical Nursing 6
- **REGN 48P** Professional Nursing Practicum IV: Community, Mental Health, and Medical-Surgical Nursing 6

**ASSOCIATE IN SCIENCE DEGREE REQUIREMENTS:**
- **Major** 76
- **Additional General Education** 6
- **General Electives** 0
- **Degree Total** 82

*Note: Calculation assumes a student will double-count the Multicultural graduation requirement with either a social science or humanities G.E. requirement. If students plan well and see a counselor, they may be able to double count the Multicultural units. If this graduation requirement is added, the number of units is increased by 3 units.

The enrollment process for LVNs desiring to transition to RN, students with Armed Services experience, or students transferring from another program differs from the above requirements. For pertinent information, see the Advanced Placement tab on the website or contact the Division at (530) 339-3600.

**ENROLLMENT CRITERIA FOR THE 30-UNIT OPTION – NON DEGREE – LVN-RN PROGRAM:**
Licensed Vocational Nurses (LVN) may elect to pursue the non-degree (30-Unit) option under the BRN regulation AB1429 by completing Physiology, Microbiology, REGN 35X, REGN 35PX, REGN 48X, and REGN 48PX. The 3-unit LVN-to-RN transition course, a prerequisite course for admission into the third semester of the ADN/RN program, must also be completed, but does not meet the requirements for an associate degree in nursing. Students must see nursing program director if considering this option.

**Nursing – Vocational Nursing Certificate:**
- **SC Program:** CT.3265

**PROGRAM DESCRIPTION:** This curriculum is designed to prepare selected individuals to provide nursing care requiring technical-manual skills under the supervision of a Registered Nurse or physician. Upon successful completion of the program, a student receives a Certificate of Completion and is eligible to take the NCLEX-PN for licensure as a Vocational Nurse. Students who have had previous education and experience in nursing will be given the opportunity to receive credit toward completion of the program.

This certificate is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of the listed requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this certificate.

**PROGRAM LEARNING OUTCOMES:**
Upon successful completion of this certificate:
1. 90% of those students who are eligible to sit for the National Council Licensing Examination for Vocational Nurses (NCLEX-PN) will pass the examination within the first six months of the first attempt.

**REQUIREMENTS FOR ENROLLMENT INTO THE PROGRAM:**
Space in the program is limited. A new class is enrolled every three semesters. In order to be eligible for enrollment, students must satisfy the prerequisites listed below and file an enrollment packet with the Admissions Office during designated enrollment periods in each semester. All qualified applicants are placed on a waiting list and enrolled on a space available basis in the order of their accepted application date. Specific information is available in the Enrollment Process tab on our website. Students must meet all of the following options.
requirements for application:
1. Students must have a high school diploma or equivalent.
2. Students must be a current Certified Nurse Aide (CNA) OR a graduate of the Shasta College Medical Assisting program OR have at least 200 hours of documented direct patient care experience within the last two years.
3. Students must complete the following prerequisite courses with a C grade or better. No in-progress courses will be accepted.

PREREQUISITE COURSES:
- BIOL 5 Introduction to Human Biology 3
- BIOL 6 Human Biology Lab 1
- ECE 1 Human Development 3
- NUTR 25 Nutrition 3
- PSYC 1A General Psychology OR 3
- PSYC 14 Psychology of Personal/Social Adjustment 3

TOTAL UNITS FOR PREREQUISITES 13

HEALTH & SAFETY CLINICAL CLEARANCE:
Upon acceptance for enrollment, students must meet additional clinical requirements. All students participating in clinical experiences must submit proof of immunity of specific immunizations or serum titers, cleared criminal background check, negative drug screen, current physical examination and negative TB screening, and provide current valid Basic Life Support-Health Care Provider card (CPR) which includes adult, child & infant resuscitation with two person rescue and AED training. Students are financially responsible for meeting these requirements according to established program process. Specific information is available on the Health and Safety Requirements tab on the website or students may call the Division Office (530-339-3600).

CERTIFICATE REQUIREMENTS:
Students must be enrolled in the program in order to take the courses listed below.

NOTE: Students must show competence in both clinical and theory components (a grade of C or better) in order to progress through the curriculum. A failing grade in either theory or clinical components will require withdrawal or result in failure of the program.

- VOCN 160 Foundations of Nursing Practice 15
- VOCN 161 Nursing of Adults 13
- VOCN 162 Nursing of Adults and Children 13

TOTAL UNITS FOR CERTIFICATE: 41

RECOMMENDED COURSES (not required):
- ENGL 196 Intensive Reading and Writing
- HEOC 11 Medical Terminology
- MATH 220 Basic Mathematics

Physical Therapist Assistant

Associate in Science:

SC Program: A8.1601

PROGRAM DESCRIPTION: The Physical Therapist Assistant Program is designed to prepare graduates to meet the requirements to practice as physical therapist assistants in a variety of health care settings. The program is competency-based and provides sequential learning experiences progressing from theoretical to applied using patient simulations in the laboratory and finally to actual patient treatments in clinical education centers. The Physical Therapist Assistant Program is a total of 76 units that may be completed in 5 semesters. There are 44 units of program core courses and 32 units of additional general education and prerequisite coursework. The program itself is a four-semester program after completion of the prerequisite coursework and includes 3 clinical practicums. Students will complete theory classes online and attend lab classes on campus. Graduation from the program qualifies the student for examination for the National Physical Therapy Exam (NPTE) for Physical Therapist Assistants administered by The Federation of State Boards of Physical Therapy (FSBPT). After successful completion of the examination and all requirements of the Physical Therapy Board of California, graduates may be licensed to work as physical therapist assistants in California.

This degree is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this degree.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this degree, the student should be able to:
1. Perform entry-level competencies as a physical therapist assistant as outlined by the Commission on Accreditation in Physical Therapy Education (CAPTE), the American Physical Therapy Association (APTA), and the Physical Therapy Board of California.
2. Practice interventions of therapeutic exercise, therapeutic techniques, physical agents, mechanical modalities, electrotherapeutic modalities, and functional training in a competent manner consistent with the plan of care established by the physical therapist.
3. Demonstrate expected clinical behaviors in a professional, culturally competent, and sensitive manner, consistent with established core professional values and established ethical and legal guidelines.

PROGRAM REQUIREMENTS:
Space in the program is limited. A new class is enrolled annually. In order to be eligible for enrollment, students must satisfy the prerequisites listed and file an enrollment packet with the Health Sciences Division during designated enrollment periods each year. All qualified applicants are placed on a list and enrolled on a space-available basis in the order of their accepted application date. For specific information, see the Application Process tab on the website or call the Health Sciences Division Office at (530-339-3600). Students must meet all of the following requirements for application:

- Students filing enrollment packets must have a high school diploma or equivalent.
- All program prerequisites listed must be completed with a grade of C or higher prior to the start of semester one or in progress when filing the enrollment packet.
- Students who have successfully completed Human Anatomy and/or Physiology at the time of application must have done so within the 7 years prior to the application filing date. Recency requirements may be challenged through an appeals process.

HEALTH AND SAFETY CLINICAL CLEARANCE:
All students participating in clinical experiences must submit proof of immunity through immunizations or serum titers, cleared criminal background check, negative drug screen, current physical examination and negative TB screening, and provide current valid Basic Life Support-Health Care Provider card (CPR) which includes adult, child and infant resuscitation with two person rescue and AED training. Online CPR courses will not be accepted. Students are financially responsible for meeting these requirements according to established program process. Specific information is available on the Health and Safety Requirements tab on the website or students may call the Health Sciences Division Office (530-339-3600).

PROGRAM PREREQUISITES:
- ANAT 1* Human Anatomy 5
- HEOC 1 Introduction to Physical Therapy 1
- HEOC 11 Medical Terminology 3
- PHY 1* Physiology 5

Math Advisory: MATH 102 or MATH 14 with a grade of C or higher

Advisory: ENGL 1A with a grade of C or higher

TOTAL PREREQUISITE UNITS 14

SEMESTER 1 COURSES:
- PTA 1 Physical Therapy Practice for the PTA 2
- PTA 2 Pathology 3
- PTA 3 Patient Care Skills Theory 2
- PTA 3L Patient Care Skills Lab 1
- PTA 4 Clinical Kinesiology Theory 2
- PTA 4L Clinical Kinesiology Lab 1

TOTAL UNITS FOR CERTIFICATE 41
students with foundational skills and concepts about human interaction within the social, cultural, and economic system of individuals and families within our society. Individual and family issues that arise from changing societal patterns have created a vast need for a variety of support services. Students with an A.S. Degree in Human Services will have the opportunity to enter the Human Services field in a number of paraprofessional positions, and with additional coursework would be prepared to transfer to a four-year college/university with lower division preparation for a Bachelor’s of Social Work.

This degree is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this degree.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this degree, the student should be able to:

1. Identify the impact of the context (historical, cultural, societal, and/or familial) on individuals as they develop, as well as the reciprocal influences, and apply this understanding when analyzing human behavior.
2. Integrate the perspectives of continuity and change, multidirectional pathways, and resiliency when evaluating the process of personal and interpersonal development throughout the lifespan.
3. Identify crucial elements of various systems perspectives and apply these concepts in the analysis of specific situations.
4. Reflect a critical awareness of current issues and valid scientific research in the field of Family Studies/Human Services.
5. Create a comprehensive action plan that reflects both personal and interpersonal effectiveness within the physical, mental, financial and psychosocial domains.
6. Differentiate between personal values and professional guidelines/ethics established within the field of Human Services.
7. Complete at least one semester of guided, practical experience in the workplace that integrates classroom experience with professional training.

DEGREE REQUIREMENTS:
The student must complete the Core Courses listed below, required General Education, and electives to total 60 units to complete the A.S. Degree requirements. Some major courses may be double counted toward the General Education requirement. Students planning to transfer to a Social Work Baccalaureate Program should consider utilizing available General Education units and elective units to complete the specific lower division requirements of the transfer school of their choice. It is imperative to consult the catalog of that institution.

Level 1 Case Management

Certificate:

SC Program: CL.3417

PROGRAM DESCRIPTION: This certificate will prepare students for employment in entry level Human Services jobs in the community. This certificate also serves as a pathway to the Level 2 Case Management certificate. This certificate provides students with an introduction to professional standards and practices involved in doing human service work with emphasis on engagement, relationship building, theory, assessment, and documentation.

This is a locally approved certificate. Upon satisfactory completion of the listed requirements and application for completion of the certificate to Admissions and Records, the student will receive a certificate of completion. This certificate is not approved through the California Community College Chancellor’s Office; therefore, completion of the certificate will not be listed on the student’s transcript.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this certificate, the student should be able to:

1. Outline a course of action when provided a workplace scenario using a code of ethics and a decision making model.
2. Identify the main research methods used by social workers and human services professionals.
3. Write a basic case note that includes the following areas: subjective, objective, assessment, and plan.

Life Management

Certificate:

SC Program: CL.3252

PROGRAM DESCRIPTION: This certificate is designed to provide students with the information, perceptions and skills necessary to move toward responsible independence and effective interpersonal relationships. Resources such as time, money and energy will be stressed along with the study of the physical, mental, emotional and social needs of all ages. This curriculum is essential for preparing individuals to balance personal, family and work responsibilities throughout the life cycle.

This is a locally approved certificate. Upon satisfactory completion of the listed requirements and application for completion of the certificate to Admissions and Records, the student will receive a certificate of completion. This certificate program is not approved through the California Community College Chancellor’s Office; therefore, completion of the certificate will not be listed on the student’s transcript.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this certificate, the student should be capable of balancing personal, family and work responsibilities on a sustainable basis through the use of:

1. A comprehensive model of developmentally appropriate concepts and behavior throughout the lifespan.
2. A personal mission statement for life and set of initial life goals.
3. A theoretical perspective of family.
4. A personal dietary analysis and plan.
5. A personal budgetary analysis and plan.

CERTIFICATE REQUIREMENTS:
All courses to be applied to the Life Management Certificate must be completed with a “C” grade or better.

HUMANITIES

Humanities

University Studies – 18 Unit Emphasis:

SC Program: AA.1513

These courses emphasize the study of cultural, literary, humanistic activities and artistic expression of human beings. With careful planning, the Humanities emphasis will satisfy the lower division major courses to transfer to a university and earn a Bachelor’s degree in the various fields of Humanities.

PROGRAM LEARNING OUTCOMES:
For University Studies Degree Learning Outcomes, see page 31.

Choose 18 units from at least three of the following disciplines:

<table>

Multicultural Studies

University Studies – 18 Unit Emphasis:

SC Program: AA.1502

This emphasis expands a student’s understanding of other cultures and is good preparation for university majors in Multicultural Studies, Ethnic studies, and International relations. With careful planning it could be also be used for students interested in International Business, geography, and secondary teaching. Students in the Multicultural Studies program will be exposed to a diversity of non-western cultures, an increasingly valuable knowledge base in our global society.

PROGRAM LEARNING OUTCOMES:
For University Studies Degree Learning Outcomes, see page 31.

Choose 18 units from at least 3 different disciplines:

- ANTH 2, 14, 25
- ART 4
- CMST 20
- ENGL 10A, 10B, 18, 20, 24
- GEOG 1B, 5, 7, 8
- HIST 25, 35, 36, 38
- POLS 20, 25
- PSYC 20, 41
- SOC 25

Philosophy

Associate in Arts for Transfer:

SC Program: AA-T.1009

PROGRAM DESCRIPTION: This program introduces students to Philosophy. Philosophy is the study or logical analysis of the principles underlying conduct, reasoning, value, knowledge and the nature of the universe. Students will engage in the critical analysis of a number of theories defended by philosophers, who have attempted to answer a number of fundamental and puzzling questions about ourselves and the nature of the universe. The Associate in Arts in Philosophy for Transfer degree is designed to provide students with a common core of lower division courses required to transfer and pursue a baccalaureate (4-year) degree in Philosophy in the CSU system.

This degree is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this degree.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this degree, the student should be able to:
1. Evaluate arguments to determine validity using two different methods.
2. State, explain and critically analyze competing theories in some of the following areas: Metaphysics, Epistemology, Political Philosophy, Philosophy of Religion, Aesthetics and Philosophy of Science.
3. State, explain and critically analyze the following two ethical theories: Kantianism and Utilitarianism.

REQUIREMENTS:
In addition to the 37-39 unit general education pattern for CSU or IGETC, students must complete the core courses listed below for the Associate in Arts in Philosophy for Transfer Degree. Students must also obtain a minimum grade point average of 2.0 and a C or better in each major course, or a “P” if the course is taken on a Pass/No Pass basis.

REQUIRED CORE:

INDUSTRIAL TECHNOLOGIES

Automotive Technology

Associate in Science:

SC Program: AS.1050

PROGRAM DESCRIPTION: The Automotive Technology Program is designed to prepare students for employment and advancement in the automotive field. Curriculum requirements have been developed for certification by the National Institute for Automotive Service Excellence (ASE) program. The curriculum has been planned to provide technical knowledge and laboratory experiences related to a wide range of automotive applications.

This degree is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student's transcript will reflect completion of this degree.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this degree, the student should be able to:
1. Inspect, diagnose, disassemble, repair, replace and service components/systems in student's area of specialization.
2. Work safely and responsibly within all shop safety and environmental guidelines and standards.
3. Demonstrate competency in accessing and applying technical service information.

General Electives 2
Degree Total 60*

*Note: Calculation assumes a student will double-count the Multicultural graduation requirement with either a social science or humanities G.E. requirement. If students plan well and see a counselor, they may be able to double count the Multicultural units. If this graduation requirement is added, the number of units is increased by 3 units.

Automotive Technology
Certificate:
SC Program: CT.3010

PROGRAM DESCRIPTION: The objective is to allow the student to gain entry level skills specific to the automotive industry.

This certificate is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of the listed requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this certificate.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this certificate, the student should be able to:
1. Inspect, diagnose, disassemble, repair, replace and service components/systems in student’s area of specialization.
2. Work safely and responsibly within all shop safety and environmental guidelines and standards.
3. Demonstrate competency in accessing and applying technical service information.

Auto 163 Heating, Air Conditioning and Accessories 3
Ind 1 Career Planning for Industrial Technology 1

TOTAL UNITS FOR CERTIFICATE: 35

Diesel Technology

Associate in Science:
SC Program: AS.1175

PROGRAM DESCRIPTION: This curriculum prepares the student for entry into the mechanic trade related to heavy equipment and diesel engines. Award of apprenticeship credit for completion of the program will depend on the employer, local union regulations, aptitude of student, as well as the curriculum completed. The Diesel Technology major requires technical courses to satisfy the minimum requirements for the major. Students are encouraged to take as many technical courses and related electives as their program will permit. When necessary, auto mechanic courses and diesel courses may be interchanged to satisfy major requirements.

This degree is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this degree.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this degree, the student should be able to:
1. Analyze a scenario based upon an equipment system failure/problem/complaint.
2. Employ a systematic approach to troubleshooting a system malfunction and prepare a solution.
3. Demonstrate the correct tools-supplies required to diagnose/repair a malfunction.
4. Verify if the path of repair was correct by testing and/or completing a work order/report.

DEGREE REQUIREMENTS:

CORE COURSES:
Dies 48 Hydraulics 3.5
Dies 49 Advanced Hydraulics 3
Dies 94 Diesel Technology Worksite Learning 1
Dies 160 Diesel Engine Electronic Control 4
Dies 161 Diesel Technology Field Training 2
Dies 162 Heavy Duty Drive Train 4
Dies 164 Beginning Diesel Engines 4
Dies 166 Diesel Engines 6
Dies 169 Advanced Electronics and Emissions Mgmt 3
Dies 170 Heavy Duty Braking Systems 4

to Admissions and Records, the student will receive a certificate of completion. This certificate program is not approved through the California Community College Chancellor’s Office; therefore, completion of the certificate will not be listed on the student’s transcript.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this certificate, the student should be able to:
1. Safely use manual machine tools to produce a part within specified tolerances.
2. Interpret blueprints and use precision measurements to correctly layout a project.
3. Program a CNC vertical mill using G-code to drill precision holes.
4. Set-up CNC milling and turning equipment utilizing proper work-holding techniques, and load a program for production.

CERTIFICATE REQUIREMENTS:
Ind 45 Introduction to Manual Machining 3
Ind 46 Introduction to CNC Machining 3
Ind 101 Industrial Trade Basics 3
Math 100 Technical Applications of Mathematics 3
Weld 73 Structural Steel Metal Fabrication 3
Weld 118 Blueprint and Specification Reading (Mechanical) 2

TOTAL UNITS FOR CERTIFICATE: 17
Diesel Technology
Certificate:

SC Program: CT.3134

PROGRAM DESCRIPTION: This curriculum prepares the student for entry into the mechanic trade related to heavy equipment and diesel engines. Award of apprenticeship credit for completion of the program will depend on the employer, local union regulations, aptitude of student, as well as the curriculum completed.

This certificate is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of the listed requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this certificate.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this certificate, the student should be able to:

1. Explain the basic theory of the subject matter or system for the course of instruction based on industry standards.
2. Analyze a scenario based upon an equipment system failure/problem/complaint.
3. Employ a systematic approach to troubleshooting a system malfunction and prepare a solution.
4. Demonstrate the correct tools/supplies required to diagnose/repair a malfunction.
5. Verify if the path of repair was correct by testing and/or completing a work order/report.

Entrepreneurial Manufacturing
Certificate:

SC Program: CL.3450

PROGRAM DESCRIPTION: The Entrepreneurial Manufacturing Certificate will prepare students for jobs in the manufacturing industry such as to design, manufacture and market their own products, to start small businesses in or related to manufacturing and to setup and operate manufacturing equipment and mechatronic systems.

This certificate is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of the listed requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this certificate.

PROGRAM LEARNING OUTCOME:
Upon successful completion of this certificate, the student should be able to:

1. Produce a predefined product to a given standard using one or more pieces of manufacturing equipment.

Chapter 3: Programs of Study

Industrial Automation & Manufacturing Certificate:

SC Program: CL.3451

PROGRAM DESCRIPTION: The Industrial Manufacturing and Automation Certificate will prepare students for jobs in the manufacturing industry such as mechatronic or automated systems technicians, PLC programmers and automation design, both in large and small facilities.

This is a locally approved certificate. Upon satisfactory completion of the listed requirements and application for completion of the certificate to Admissions and Records, the student will receive a certificate of completion. This certificate program is not approved through the California Community College Chancellor’s Office; therefore, completion of the certificate will not be listed on the student’s transcript.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this certificate, the student should be able to:
1. Design a simple control program for a small-scale industrial processing station including detailed schematics.
2. Build the system including Remote IO and all safety procedures.
3. Demonstrate system operation including safety procedures.
4. Modify system for given input/output changes.
5. Maintain system through given component failure.
6. Create PLC ladder logic code sing RS 5000.
7. Modify system for given process changes.
8. Troubleshoot system for instructor introduced error.
9. Present system and key learnings to class.

TOTAL UNITS FOR CERTIFICATE: 15.5

Industrial Technology Certificate:

SC Program: CT.3453

PROGRAM DESCRIPTION: The Maintenance Mechanic Program is designed to prepare students for positions in a variety of service and manufacturing industries requiring technically trained and/or certified mechanics. The program is designed to prepare students for the opportunity to become an entry-level maintenance mechanic.

This certificate is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of the listed requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this certificate.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this certificate, the student should be able to:
1. Install, level, and align electrical/mechanical systems to design specifications and verify that it is operating within specifications.
2. Evaluate components electrical/mechanical systems and create a
Welding Technology

Certificate:

Sc Program: CT.3455

Program Description: The Welding Technology Program is designed to prepare students for positions in a variety of trades or service industries requiring technically trained and/or certified welders. The program is designed to prepare students for the opportunity to become certified welders under the standards set by the American Welding Society. Students can receive their certification by the American Welding Society in a variety of processes as part of the instructional program. The program is available in three formats:

- Associate in Science Degree in Welding Technology
- Certificate from Shasta College in Welding Technology
- Certification by the American Welding Society as a certified welder

This degree is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this degree.

Program Learning Outcomes:
Upon successful completion of this degree, the student should be able to:

1. Demonstrate competencies in job safety skills and awareness of workplace hazards.
2. Follow written and oral instructions in the interpretation of simple drawings and sketches, including welding symbols and the execution of the fabrication process.
3. Set up, maintain, and adjust welding related equipment.
4. Acquire skills and knowledge to make a successful transition to an entry-level position in the work force.
5. Pass workmanship tests using common welding processes.

Degree Requirements:

Core Courses:

- Dies 48: Hydraulics 3.5
- Dies 49: Advanced Hydraulics 3
- INDE 37: Electricity and Electronics 3
- INDE 38: Introduction to Industrial Mechatronics 3
- INDE 45: Introduction to Manual Machining 3
- INDE 102: Industrial Trade Essentials 3
- Math 100: Technical Applications of Mathematics 3
- WELD 70: Beginning Welding 3
- WELD 73: Structural Steel Metal Fabrication 3
- WELD 118: Blueprint and Specification Reading (Mechanical) 2
- WELD 174: Structural Steel MIG Welding 3

Pathway Option (Choose one course):

- AGMA 44: Introduction to Construction Skills for Agriculture and Natural Resources 3
- INDE 101: Industrial Trade Basics 3

Total Units for Certificate: 35.5

Smog Inspection and Repair Technician

Certificate:

Sc Program: CT.3455

Program Description: The Smog Inspection and Repair Technician certificate totals 756 hours of automotive coursework and includes 378 hours in the engine performance area. Students will be trained in automotive electronics, engine performance testing, diagnosis, and repair. The lab component will employ extensive hands-on exercises designed to aid in the education of automotive students. This emissions training will supplement the Bureau of Automotive Repair (BAR) required courses and includes BAR Level 1 and Level 2 training. Training will reinforce the core skills needed to become a smog technician. Students who successfully complete this training certificate will have met BAR training requirements to sit for the smog check inspector state licensing examination.

This certificate is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of the listed requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this certificate.

Program Learning Outcomes:
Upon successful completion of this certificate, the student should be able to:

1. Describe and demonstrate knowledge and application of proper safety practices (personal, shop, tool, equipment, environmental, and vehicle).
2. Follow written and oral instructions in the interpretation of smog inspection rules and regulations.
3. Perform smog inspections using state certified equipment.
4. Acquire skills and knowledge to make a successful transition to an entry-level position in the work force.
5. Pass workmanship tests and inspections while following Bureau of Automotive repair standards.

Certificate Requirements:

- Auto 1: Vehicle Electrical Systems 3
- Auto 11: Introduction to Hybrid and Electric Vehicle Tech 3
- Auto 20: Engine Performance 4
- Auto 21: Advanced Engine Performance 3
- Auto 94: Worksite Learning for Automotive Technology 2
- Auto 176: Level 2 Smog Technician Training 1

Total Units for Certificate: 16

Associate in Science Degree Requirements:

- Major: 38.5
- Additional General Education: 16
- General Electives: 3.5
- Degree Total: 66

*May be used to fulfill General Education requirements. See a counselor.

Transfer degree introduces students to English or English Education study and preparation, including the appreciation and understanding of literary works through intellectual and cultural movements, such as Utilitarianism or the Aesthetic Movement, and historical and social changes. The Associate in Arts in English for Transfer degree is designed to provide students with a common core of lower division courses required to transfer and pursue a baccalaureate (4-year) degree in English in the CSU system.

This degree is approved through the California Community College Chancellor's Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student's transcript will reflect completion of this degree.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this degree, the student should be able to:
1. Define basic critical reasoning concepts; identify literary genres; and write effective, clear, and well-organized analytical arguments or literary analyses.
2. Identify and discuss plot, conflict, setting, time frame, characters (protagonist and antagonist), dialogue, suspense, rising action, and denouement with works of literature in papers and on examinations.
3. Identify and write about or discuss diction, syntax, figurative language, sound and rhythm, irony, and various poetic forms.
4. Analyze and write about literature with an understanding of the historical and cultural contexts from which literary classics spring.
5. Apply a variety of approaches to the analysis of literary works, including but not limited to historical, thematic, and formal approaches.

REQUIREMENTS:
In addition to the 37-39 unit general education pattern for CSU or IGETC, students must complete the core courses listed below for the Associate in Arts in English for Transfer Degree. Students must also obtain a minimum grade point average of 2.0 and a C or better in each major course, or a “P” if the course is taken on a Pass/No Pass basis.

#May be used to fulfill IGETC requirements. See a counselor.

ASSOCIATE IN ARTS IN ENGLISH FOR TRANSFER DEGREE REQUIREMENTS:
Major 18-20
General Education 37-39
General Electives 9-15*
Degree Total Will Not Exceed 60 Units

Language Arts

University Studies – 18 Unit Emphasis:

SC Program: AA.1496

With careful planning, the Language Arts emphasis will satisfy the lower division major courses to transfer to a university and earn a Bachelor's degree in the various fields of Language Arts.

PROGRAM LEARNING OUTCOMES:
For University Studies Degree Learning Outcomes, see page 31.
Choose 10-18 units from the courses listed below:

- ASL 1 American Sign Language (4)
- ASL 2 American Sign Language 2 (4)
- ASL 3 American Sign Language 3 (4)
- ASL 4 American Sign Language 4 (4)
- CHIN 1 Mandarin Chinese 1 (5)
- FREN 1 French 1 (5)
- FREN 2 French 2 (5)
- FREN 3 French 3 (3)
- FREN 4 French 4 (3)
- GERM 1 German 1 (5)
- GERM 2 German 2 (5)
- JAPN 1 Japanese 1 (5)
- JAPN 2 Japanese 2 (5)
- JAPN 3 Japanese 3 (5)
- JAPN 4 Japanese 4 (5)
- SPAN 1 Spanish 1 (5)
- SPAN 2 Spanish 2 (5)
- SPAN 3 Spanish 3 (4)
- SPAN 4 Spanish 4 (4)
- JOUR 21, 27, 29

Select the remaining 0 – 8 units from:

- Any course not used above

General Studies – 18 Unit Emphasis:

SC Program: AS.1502

The emphasis in language arts allows students to explore the areas of both written and spoken English language, literature, and world languages.

PROGRAM LEARNING OUTCOMES:
For General Studies Degree Learning Outcomes, see page 36.
Choose 10-18 units from at least two areas:

- CMST 10, 20, 30, 40, 54, 60
- ENGL 1B, 1C, 10A, 10B, 11A, 11B, 13A, 13B, 14, 15, 16, 17, 18, 19, 20, 24, 25, 31, 36
- Foreign Languages: ASL 1, 1L, 2, 2L, 3, 4
- CHIN 1
- FREN 1, 2, 3, 4
- GERM 1, 2
- JAPN 1, 2, 3, 4, 19, 20
- SPAN 1, 2, 3, 4, 19
- JOUR 21, 27, 29

World Languages

University Studies – 18 Unit Emphasis:

SC Program: AA.1514

The World Languages emphasis is recommended for students pursuing intermediate fluency in a world language to facilitate communication in professional settings or to begin the first two years of a language or literature major and transfer to a university.

PROGRAM LEARNING OUTCOMES:
For University Studies Degree Learning Outcomes, see page 31.
Choose 10-18 units from the courses listed below:

- ASL 1 American Sign Language 1 Skill-Building Lab (1)
- ASL 2 American Sign Language 2 Skill-Building Lab (1)
- ASL 81 Educational World of the Deaf (3)
- ENGL 10A World Literature (to 1650) (3)
- ENGL 10B World Literature (after 1650) (3)
- ENGL 24 Multicultural Perspectives in American Literature (3)
- ENGL 25 Linguistics (3)
- HIST 35 History of Mexican Americans (3)
- JAPN 19 Japanese Conversation 1 (2)
- JAPN 20 Japanese Conversation 2 (2)
- SPAN 19 Spanish and Latin American Civilization (3)
- SPAN 2 2, 3, 4
- SPAN 3 Spanish 3 (4)
- SPAN 4 Spanish 4 (4)

LIBERAL STUDIES

Elementary Teacher Education

Associate in Arts for Transfer:

SC Program: AA-T.4003

PROGRAM DESCRIPTION: The Associate in Arts in Elementary Teacher Education for Transfer degree provides students with a core of lower division courses required to transfer and pursue a bachelor's degree in liberal studies. Elementary Teacher Education incorporates introductory courses from a range of disciplines including science, mathematics, literature, social sciences, and the arts. This program introduces students to the theory of education and early field experience.

This degree is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with
Chapter 3: Programs of Study

Admissions and Records, the student’s transcript will reflect completion of this degree.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this degree, the student should be able to:
1. Demonstrate transfer readiness for a liberal studies major at a university, especially a CSU.
2. Assemble an observation portfolio which includes descriptions of teaching events that implement the California Teacher Performance Expectations and documentation of 45 hours of classroom observation.

REQUIREMENTS:
In addition to the 37-39 unit general education pattern for CSU or IGETC, students must complete the core courses listed below for the Associate in Arts in Elementary Teacher Education for Transfer degree. Students must also obtain a minimum grade point average of 2.0 and a C or better in each major course, or a “P” if the course is taken on a Pass/No Pass basis.

REQUIRED CORE:

**SC Program: AA.1504**

**MICR** 1

**NHIS** 15, 65

**NUTR** 25

**PHSC** 1

**PHYS** 2A, 2B, 4A, 4B, 4C

**ZOOL** 1

**MATH**

Mathematics

Associate in Science for Transfer:

SC Program: AS-T.2001

PROGRAM DESCRIPTION: The Associate in Science in Mathematics for Transfer degree (AS-T in Mathematics) provides students with the opportunity to meet the requirements for transfer to the California State University system in Mathematics or a similar major. In order to earn the Associate in Science in Mathematics for Transfer degree a student must complete 60 required semester units of CSU-transferable coursework with a minimum GPA of 2.0. Completing this degree guarantees admission to the CSU system but not to a particular campus or major.

The Associate in Science in Mathematics for Transfer degree is designed to prepare students for upper division study in Mathematics and related fields. Mathematics graduates at the bachelor's level are qualified for employment in pursuing a career in the field of mathematics, engineering, statistics, actuarial science, business, management, law enforcement, government, and education. They also frequently enter graduate programs to pursue advanced degrees in Mathematics or related fields.

Those students interested in teaching at the high school level should know that the nation is experiencing a shortage of well qualified mathematics teachers. Current and prospective community college students interested in this degree are encouraged to meet with a Counselor to develop an educational plan that best meets their goals and needs.

This degree is approved through the California Community College Chancellor's Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student's transcript will reflect completion of this degree.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this degree, the student should be able to:

1. Calculate derivatives
2. Solve linear systems, integration problems, and problems for multivariate functions.
3. Solve differential equations and interpret the solution sets
4. Analyze and model the behaviors of physical phenomena using calculus.
5. Apply mean value theorems.
6. Demonstrate the ability to use symbolic, graphical, numerical, and written representations of mathematical ideas.
7. Use appropriate technology to enhance their mathematical thinking, solve mathematical problems, and judge the reasonableness of their results.

REQUIREMENTS:
In addition to the 37-39 unit general education pattern for CSU or IGETC, students must complete the core courses listed below for the Associate in Science in Mathematics for Transfer Degree. Students must also obtain a minimum grade point average of 2.0 and a C or better in each major course, or a “P” if the course is taken on a Pass/No Pass basis.

REQUIRED CORE:
- MATH 3A*# Calculus 3A 4
- MATH 3B*# Calculus 3B 5
- MATH 4A*# Calculus 4A 4

Select a minimum of 6 units from the lists below with at least 3 units from list A:

**LIST A:**
- MATH 4B*# Differential Equations 4
- MATH 6*# Linear Algebra 3

**LIST B:**
- MATH 14*# Introduction to Statistics 4
- PHYS 4A*# Physics (Mechanics) 4
- CIS 60 Visual Basic 3
- CIS 61 C++ Language 3
- CIS 62 Java Programming 3

*May be used to fulfill CSU General Education requirements. See a counselor.

#May be used to fulfill IGETC requirements. See a counselor.

**ASSOCIATE IN SCIENCE IN MATHEMATICS FOR TRANSFER DEGREE REQUIREMENTS:**

Major 19-21

General Education 37-39

General Electives 3-11*

Degree Total Will Not Exceed 60 Units

*Number will vary depending on units that double count.

Quantitative Reasoning

University Studies – 18 Unit Emphasis:

SC Program: AA.1503

The quantitative reasoning emphasis is a flexibly designed option which, with proper counseling, provides transfer coursework toward majors in computer science and math.

PROGRAM LEARNING OUTCOMES:
For University Studies Degree Learning Outcomes, see page 31.

Choose a minimum of 18 units from the following mathematics and computer science courses:

**MATH** 2, 3A, 3B, 4A, 4B, 6, 8, 9, 13, 14

**CIS** 2, 60, 61, 62, 63, 72
## Associate in Arts for Transfer:

**SC Program: AA-T.1008**

**PROGRAM DESCRIPTION:** The Associate in Arts in Music for Transfer Degree is designed to prepare the student for transfer to four-year institutions of higher education and specifically intended to satisfy the lower division requirements for the Baccalaureate in Arts in Music at the California State University. This degree is designed to prepare students to demonstrate competence and discipline in the study of music theory, music analysis, music composition, and musicianship skills, and to demonstrate proficiency in ensemble skills and solo performance skills. Completion of this curriculum will demonstrate commitment to the serious study of Music in practice and in theory and provide comprehensive preparation for upper-division work.

This degree is approved through the California Community College Chancellor's Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student's transcript will reflect completion of this degree.

**PROGRAM LEARNING OUTCOMES:**

Upon successful completion of this degree, the student should be able to:

1. List and describe the major concepts, vocabulary, theoretical perspectives, and creative performance practices of music.
2. Demonstrate ensemble specific performance practices and professional standards of conduct expected of ensemble participants.
3. Perform solo literature with an accompanist (if appropriate) using stylistically accurate rhythm, pitch, dictio (or articulation) and musical expression.
4. Demonstrate the ability to “audiate” a musical score by sight reading and performing complex rhythms and by sight-singing chromatic, modulating, and post-tonal melodies.
5. Demonstrate the ability to recognize patterns and musical function by aurally identifying and transcribing scales, modes, post-tonal melodies, and complex harmonic progressions. Analyze chromatic harmonic progressions that include modulation using 20th century techniques.

**REQUIREMENTS:**

In addition to the 37-39 unit general education pattern for CSU or IGETC, students must complete the core courses listed below for the Associate in Arts in Music for Transfer Degree. Students must also obtain a minimum grade point average of 2.0 and a C or better in each major course, or a "P" if the course is taken on a Pass/No Pass basis.

## Associate in Arts:

**SC Program: AA.1360**

**PROGRAM DESCRIPTION:** The AA curriculum in Music is designed to provide preparation for either transfer to a CSU or UC as a music major and/or assist in development for a career in music within a variety of music career choices. A few of these career options could be: working in the music industry, music performance, music education, music publishing, musical theater, composition, retail music merchandising, and private music instruction. Additionally the music curriculum creates an opportunity for local amateur and professional musicians to perform within the music department's music performance ensembles (Choirs, Orchestras, Symphonic Bands, and Jazz Ensembles) and/or to advance their music skills.

This degree is approved through the California Community College Chancellor's Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student's transcript will reflect completion of this degree.

**PROGRAM LEARNING OUTCOMES:**

Upon successful completion of this degree, the student should be able to:

1. Explain and demonstrate the principles and rules of common four-part harmonic practice.
2. Attain a first-year college student level of piano competency.
3. Perform as a soloist at a first-year college student level of competency on a principal instrument or voice.
4. Analyze given score materials to identify stylistic differences within the common practice era.

**DEGREE REQUIREMENTS:**

Students must complete the Core and Restricted Elective courses. In addition, students fulfill the 37 unit general education pattern for CSU or IGETC. NOTE: Students planning to transfer to National Association of Schools of Music (NASM) accredited universities to complete a BA degree in Music, in addition to meeting the major requirements shown below, will be required by the transfer institution to show proficiency in the following areas: theory, keyboard skills, vocal skills, music history/appreciation, and applied musicianship.

Kinesiology

Associate in Arts for Transfer:

SC Program: AA-T.1003

PROGRAM DESCRIPTION: The Associates in Arts in Kinesiology for Transfer provides students with the opportunity to meet the requirements for transfer to the California State University system in the Kinesiology major. The degree is designed to prepare students for a variety of career options in the field of Kinesiology such as teaching, exercise science, sports medicine, and physical therapy. Current and prospective community college students are encouraged to meet with a counselor to develop an educational plan that best meets their goals and needs.

This degree is approved through the California Community College Chancellor's Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student's transcript will reflect completion of this degree.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this degree, the student should be able to:

1. Identify and apply the concepts, theoretical principles, and historical and current trends in the field of Kinesiology.
2. Understand how exercise in the form of physical activity contributes to the physiological responses and adaptations of the human body.
3. Apply critical thinking, writing, reading, oral communication, and quantitative and qualitative analysis to skill and movement-related concepts.
4. Identify and apply the scientific principles of movement, exercise, and sport including the knowledge and skill in the listed activity course families of fitness, aquatics, individual sport, and team sport.
5. Transfer to the California State University level programs with a comprehensive foundation in Kinesiology courses.

REQUIREMENTS:
In addition to the 37-39 unit general education pattern for CSU or IGETC, students must complete the core courses listed below for the Associate in Arts in Kinesiology for Transfer Degree. Students must also obtain a minimum grade point average of 2.0 and a C or better in each major course, or a ’P’ if the course is taken on a Pass/No Pass basis.

REQUIRED CORE:
- ANAT 1*# Human Anatomy with Lab 5
- KINES 1 Foundations of Kinesiology 3
- PHY 1*# Physiology with Lab 5

Movement Based Courses: (minimum of 3)
- Select a maximum of one course from any three of the following areas for a minimum of three units.

Aquatics:
- PE 30A Beginning Swimming  (1) OR
- PE 30B Intermediate Swimming  (1) OR
- PE 31 Aqua Aerobics  (1) OR
- PE 32 Water Polo  (1) OR
- PE 37 Springboard Diving  (1)

Combatives:
- PE 60 Self Defense  (1)

Fitness and Conditioning:
- PE 7 Individual Physical Fitness  (1) OR
- PE 8 Individual Physical Performance  (1) OR
- PE 11 Fundamental Conditioning  (1) OR
- PE 12A Beg. Weight Training and Fitness  (1) OR
- PE 12B Inter. Weight Training and Fitness  (1) OR
- PE 15 Aerobic Dance  (1) OR
- PE 16 Aerobic Exercise  (1) OR
- PE 17A Beginning Yoga  (1) OR

Physical Education

University Studies – 18 Unit Emphasis:

SC Program: AA.1493

The Physical Education emphasis is designed to provide lower division major courses to transfer to a university and pursue baccalaureate degrees in Physical Education – teaching, kinesiology, and pre-physical therapy.

PROGRAM LEARNING OUTCOMES:
For University Studies Degree Learning Outcomes, see page 31.

Choose 18 units from at least 3 areas:

ANAT 1
BIOL 1, 2
CHEM 1A, 1B, 2A, 2B
ETHS 11
HLTH 1, 2, 3, 4, 6, 7, 20
KINES 1, 2
MATH 14 or 2
NUTR 25
PEAT 5, 7, 9, 11, 13, 15, 17, 19, 21, 23, 25, 29
PHY 1
PHYS 2A, 2B
PSYC 1A
Chapter 3: Programs of Study

PHYSICAL SCIENCES

Physical Sciences

University Studies – 22 Unit Emphasis:

SC Program: AA.1510

The Physical Sciences emphasis is designed to provide students with the lower division major courses to transfer to a university and pursue baccalaureate degrees in chemistry, geology, physics, and related areas. See a counselor for the complete list for your choice of transfer university and major.

PROGRAM LEARNING OUTCOMES:
For University Studies Degree Learning Outcomes, see page 31.

Complete the following 22 units:

CHEM 1A General Chemistry (5)
CHEM 1B General Chemistry (5)
MATH 3A Calculus (4)
PHYS 2A General College Physics (4)
PHYS 2B General College Physics (4)
PHYS 4A Physics/Mechanics (4)
PHYS 4B Physics/Electricity and Magnetism (4)

Physics

Associate in Science for Transfer:

SC Program: AS-T.1004

PROGRAM DESCRIPTION: The Associate in Science in Physics for Transfer Degree (AS-T in Physics) provides students with the opportunity to meet the requirements for transfer to the California State University system in Physics or a similar major. In order to earn this degree a student must complete 60 required semester units of CSU-transferable coursework with a minimum GPA of 2.0. Completing this degree guarantees admission to the CSU system but not to a particular transferable coursework with a minimum GPA of 2.0. Completing these courses will better prepare students for upper division coursework in physics. Some of these may be required for the Bachelor’s degree. Check the catalog for the CSU campus to which you plan to transfer.

REQUIRED CORE:

- PHYS 4A*# Physics (Mechanics) 4
- PHYS 4B*# Physics (Electricity and Magnetism) 4
- PHYS 4C*# Physics (Heat, Waves, Optics, and Modern Physics) 4
- MATH 3A*# Calculus 3A 4
- MATH 3B*# Calculus 3B 5
- MATH 4A*# Calculus 4A 4

*May be used to fulfill CSU General Education requirements. See a counselor.
#May be used to fulfill IGETC requirements. See a counselor.

SOCIAL SCIENCES

Behavioral Science

University Studies – 19-21 Unit Emphasis:

SC Program: AA.1499

The Behavioral Sciences focus on the understanding of human beings, their actions and interactions, decision making processes, communication strategies, and the methods of inquiry used in the field. The A.A. in University Studies, Behavioral Sciences emphasis is a good option for students wishing to transfer to a four-year college or university to pursue a baccalaureate degree in anthropology, psychology, social work, and sociology.

PROGRAM LEARNING OUTCOMES:
For University Studies Degree Learning Outcomes, see page 31.

Complete the following 19-21 units:

- ANTH 2 Cultural Anthropology (3)
- Choose one of the following:
  - BIOL 1 Principles of Biology (4)
  - BIOL 5 Introduction to Human Biology (3)
  - BIOL 10 General Biology (3)
  - ECE 1 Human Development (3)
  - MATH 14 Introduction to Statistics (4)
  - PSYC 1A General Psychology (3)
  - SOC 1 Introduction to Sociology (3)

History

Associate in Arts for Transfer:

SC Program: AA-T.4004

PROGRAM DESCRIPTION: The Associate in Arts in History for Transfer Degree will develop skills and knowledge consistent with the
study of history in a global, multicultural and comparative context. The successful student will have developed the reading, writing, and research skills essential to historical inquiry and exposition. This program emphasizes the development of various societies through a chronological study of all aspects of history which includes intellectual, cultural, economic, political and social history. The Associate in Arts in History for Transfer Degree is designed to provide students with a common core of lower division courses required to transfer and pursue a baccalaureate (4-year) degree in History in the CSU system.

This degree is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this degree.

**PROGRAM LEARNING OUTCOMES:**

Upon successful completion of this degree, the student should be able to:

1. Interpret primary and secondary historical sources and compose an argument which uses them, as appropriate, for support in a research paper.
2. Explain and critically describe the major economic, social, political, and cultural developments of history.
3. Assess the cultural legacies and contributions of each area under study to present times.
4. Analyze the development and impact of political ideological trends.

**REQUIREMENTS:**

In addition to the 37-39 unit general education pattern for CSU or IGETC, students must complete the core courses listed below for the Associate in Arts in History for Transfer Degree. Students must also obtain a minimum grade point average of 2.0 and a C or better in each major course, or a "P" if the course is taken on a Pass/No Pass basis.

---

**Political Science**

**Associate in Arts for Transfer:**

**SC Program: AA-T.4001**

**PROGRAM DESCRIPTION:** The Associate in Arts in Political Science for Transfer degree (AA-T in Political Science) initiates a systemic and scholarly study of the politics of influence, human behavior that shape world events. Through this curriculum students are exposed to research methodology that connects them to a formal operational level of reasoning. Political science studies diversity in cultures, how power is exercised or resisted, and how nations are governed. The Associate in Arts in Political Science for Transfer degree provides the student with the problem solving skills to become active participants in the world around them.

This degree is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this degree.

**PROGRAM LEARNING OUTCOMES:**

Upon successful completion of this degree, the student should be able to:

1. Demonstrate an understanding of the nature of political science, the origin and nature of the State, patterns and functions of government and how political ideologies affect open and closed systems of government today.
2. Describe basic structural components of national government (legislative, executive and judicial) and explain their relationship to each other and sub-national governmental units.
3. Describe and understand the Bill of Rights and the contemporary U.S. Supreme Court decisions, which explain the current status of individual rights as outlined by this document and later amendments.
4. Indicate the function of the mass media, particularly television and the internet, as a vital influence in the election process.
5. Identify and discuss how globalization has impacted the developing world.
6. Debate the issue of sustainability and potentially negative consequences of development.
7. Use critical thought to investigate the causes, costs and potential resolution of ethnic conflicts.
8. Discuss the history of and trends in the emergence of the international nation-state system and modern challenges to that system.
9. Synthesize knowledge of political, social and economic conditions in the world as evidenced through a research paper or project
10. Critically evaluate global political concepts such as balance of power, diplomacy, just war theory and arms control.

**REQUIREMENTS:**

In addition to the 37-39 unit general education pattern for CSU or IGETC, students must complete the core courses listed below for the Associate in Science in Physics for Transfer Degree. Students must also obtain a minimum grade point average of 2.0 and a C or better in each major course, or a "P" if the course is taken on a Pass/No Pass basis.

Psychology

**Associate in Arts for Transfer:**

SC Program: AA-T.1006

**PROGRAM DESCRIPTION:** This program introduces students to psychology as the scientific study of human behavior and mental processes and the practical application of psychology to personal and social issues. The Associate in Arts in Psychology for Transfer degree is designed to provide students with a common core of lower division courses required to transfer and pursue a baccalaureate (4-year) degree in psychology in the CSU system.

This degree is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student’s transcript will reflect completion of this degree.

**PROGRAM LEARNING OUTCOMES:**

Upon successful completion of this degree, the student should be able to:

1. List and describe the major concepts, vocabulary, theoretical perspectives, and empirical findings of psychology.
2. Describe and apply basic research methods in psychology.
3. Practice critical thinking to solve problems related to behavior and mental processes.
4. Link psychological concepts and principles to relevant practical applications.

**REQUIREMENTS:**

In addition to the 37-39 unit general education pattern for CSU or IGETC, students must complete the core courses listed below for the Associate in Arts in Psychology for Transfer Degree. Students must also obtain a minimum grade point average of 2.0 and a C or better in each major course, or a “P” if the course is taken on a Pass/No Pass basis.

**REQUIRED CORE:**

- MATH 14*# Introduction to Statistics 4
- PSYC 1A*# General Psychology 3
- PSYC 25 Introduction to Research Methods 3

**LIST A (Choose one course from the following):** 3-4

- BIOL 1*# Principles of Biology (4) OR
- BIOL 10 & 10L*# Gen Biology and Gen Biology Lab (3/1)
- BIOL 5*# Introduction to Human Biology (3)

Social Sciences

University Studies – 21 Unit Emphasis:

SC Program: AA.1501

The A.A. in University Studies, Social Sciences emphasis is designed to provide students with a strong foundation for the study of humanity from diverse perspectives. It is an excellent starting point for students interested in pursuing baccalaureate degrees in anthropology, history, political science, psychology, sociology.

**PROGRAM LEARNING OUTCOMES:**

For University Studies Degree Learning Outcomes, see page 31.

Choose 21 units from at least three different disciplines:

- ANTH 1, 2, 14, 25
- ARCH 3, 4A
- ECE 1, 2, 9
- ECON 1A, 1B
- GEOG 1A, 1AL, 1B, 5, 7, 8
- HIST 1A, 1B, 2, 3, 17A, 17B, 25, 35, 36, 38, 40, 55, 57
- HSVN 16, 18, 70
- MATH 14*
- POLS 1, 2, 20, 25
- PSYC 1A, 5, 14, 15, 17, 20, 25, 41, 46
- SOC 1, 2, 15, 25, 30

*Students can take MATH 14 as part of the 21 units, but it does not fulfill one of the three discipline requirements.

General Studies – 18 Unit Emphasis:

SC Program: AS.1516

This emphasis allows students to explore the social and behavioral sciences as a foundation for lifelong learning, or as introduction to the related fields of anthropology, psychology, sociology, economics, geography, history, and political science.

**PROGRAM LEARNING OUTCOMES:**

For General Studies Degree Learning Outcomes, see page 36.

Choose 18 units from at least three of the following areas:

- ANTH 1, 2, 14, 25
- ARCH 3, 4A
- ECE 1, 2, 9
- ECON 1A, 1B
- GEOG 1A, 1AL, 1B, 2A, 2B, 5, 7, 8
- HIST 1A, 1B, 2, 3, 17A, 17B, 25, 35, 36, 38, 40, 55, 57
- HSVN 16, 18, 70
- POLS 1, 2, 20, 25
- PSYC 1A, 5, 14, 15, 17, 20, 25, 41, 46
- SOC 1, 2, 15, 25

Sociology

**Associate in Arts for Transfer:**

SC Program: AA-T.1002
PROGRAM DESCRIPTION: Sociology is the systematic and scientific study of society and social behavior. The sociologist looks beyond individual and unique events to the predictable broad patterns and regular occurrences of social life that influence individuals. Studies range from the profound impact of post-industrial societies on family life, crime, mass communications, gender, race, ethnicity and intergenerational relations to the study of emotions and the values that govern daily social encounters.

The sociology major is designed to provide undergraduate preparation leading to careers in social work, politics, law, public administration, the nonprofit sector, international development, marketing, urban and environmental planning, public relations, personnel, criminal justice, counseling and other social service professions. The Associate in Arts in Sociology for Transfer degree will also prepare a student for advanced studies in several areas, including sociology, social work, environmental studies, education, public health and urban planning. This degree prepares students for a CSU Baccalaureate Degree in Sociology.

This degree is approved through the California Community College Chancellor's Office. Upon satisfactory completion of all degree requirements and filing an application for graduation with Admissions and Records, the student's transcript will reflect completion of this degree.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this degree, the student should be able to:
1. Articulate the sociological perspective on human behavior.
2. Compare and contrast the major theoretical orientations in sociology.
3. Articulate the role of theory and social research methods in sociology.
4. Describe research methodology and critically evaluate sociological data.
5. Integrate content knowledge and cognitive skills, i.e., logical thinking, problem-solving, and critical reasoning, when completing exams, term papers, and additional class assignments.
6. Apply sociological principles that contribute to the foundation for lifelong personal growth, development of effective interpersonal and social skills, education, employment and everyday life.

REQUIREMENTS:
In addition to the 37-39 unit general education pattern for CSU or IGETC, students must complete the core courses listed below for the Associate in Arts in Sociology for Transfer Degree. Students must also obtain a minimum grade point average of 2.0 and a C or better in each major course, or a "P" if the course is taken on a Pass/No Pass basis.

REQUIRED CORE:
SOC 1# Introduction to Sociology 3
LIST A
SOC 2# Social Problems 3
MATH 14# Introduction to Statistics 4
LIST B (Choose six units from the following):
PSYC 15 Social Psychology (3 units) 3
SOC 25# Sociology of Minorities (3 units) 3
SOC 30# Sociology of Gender (3 units) 3
LIST C (Choose three units from the following):
Any List A or List B course not used above 3
ANTH 2# Cultural Anthropology (3 units) 3
GEOG 1B Human Geography (3 units) 3
PSYC 1A# General Psychology (3 units) 3
SOC 15# Sociology of Mass Media (3 units) 3
SOC 7# Social Welfare (3 units) 3

*May be used to fulfill CSU General Education requirements. See a counselor.
#May be used to fulfill IGETC requirements. See a counselor.

ASSOCIATE IN ARTS IN SOCIOLOGY FOR TRANSFER DEGREE REQUIREMENTS:

General Education 37-39

Watershed Restoration
Certificate:
SC Program: CL.3421

PROGRAM DESCRIPTION: This certificate provides full-time students as well as professionals related to various agencies and industries an opportunity to obtain knowledge, skills and hands-on training related to the many facets of watershed restoration including regulation, mapping, water quality, data collections, recent advances in erosion control and bio-engineering applications and techniques, and heavy equipment operations.

This is a locally approved certificate. Upon satisfactory completion of the listed requirements and application for completion of the certificate to Admissions and Records, the student will receive a certificate of completion. This certificate program is not approved through the California Community College Chancellor's Office; therefore, completion of the certificate will not be listed on the student’s transcript.

PROGRAM LEARNING OUTCOMES:
Upon successful completion of this certificate, the student should be able to:
1. Apply the newest technologies and practices in erosion control in restoring an ecosystem
2. Apply the latest techniques in bio-engineering applications
3. Select and implement an appropriate method or procedure for monitoring a specific attribute of the environment.
4. Operate and maintain heavy equipment resulting in minimum impact to the watershed.
5. Accurately navigate in the field using maps, compass, a Global Positioning System (GPS). Students will also be able to use GPS for field data collection and Geographic Information Systems (GIS) for data mapping and display.

CERTIFICATE REQUIREMENTS:
AGNR 50 Natural Resources Measurements 4
AGNR 64 Watershed Management and Ecology 3
AGNR 66A Watershed Restoration Practicum I 1
CONS 46 Equipment Operations and Maintenance 3
CONS 47 Project Construction for Equipment Operations 3

TOTAL UNITS FOR CERTIFICATE 14

Water/Wastewater Treatment
Certificate:
SC Program: CL.3420

PROGRAM DESCRIPTION: This program is designed to provide entry-level training and upgrading for California water and wastewater public and private agency operators. A student seeking introduction into either water or wastewater fields would benefit by taking the entire course offerings. It is strongly recommended that students complete MATH 101-Basic Algebra and CHEM 2A-Introduction to Chemistry before completing the requirements of the program.

This certificate is approved through the California Community College Chancellor’s Office. Upon satisfactory completion of the listed requirements and filing an application for graduation with Admissions and Records, the student's transcript will reflect completion of this certificate.
PROGRAM LEARNING OUTCOMES:
Upon successful completion of this certificate, the student should be able to:

1. Assess existing methods in water and wastewater treatment technology.
2. Analyze treatment plant's relationship and responsibility to the community.
3. Evaluate the processes of coagulation, flocculation, sedimentation, filtration, disinfection, and distribution in water treatment.
4. Evaluate the processes of primary sedimentation, oxidation, disinfection, and disposal in wastewater treatment.

*Variable unit course. When the student enrolls in this course (regardless of the unit value), it is counted as one of the four enrollments for the Family. The course can also be taken up to the maximum number of units stated for that specific course; the subsequent enrollments will not count towards the limit of four enrollments for the Family.

Course Descriptions

ACCOUNTING (ACCT)

See Also: BSOT, BUAD, CIS

ACCT 2 INTRODUCTION TO FINANCIAL ACCOUNTING – 4 Units

Advisory: ENGL 190 or BUAD 166 with a grade of C or higher, or English Placement Level 6 or higher; and MATH 240 or MATH 260 with a grade of C or higher, or Math Placement Level 2 or higher.

Class Hours: 72 lecture total (when offered in the distance education format, hours will total 216)

C-ID: ACCT 110

This course is the study of accounting as an information system, examining why it is important and how it is used by investors, creditors and others to make decisions. The course covers the accounting information system, including recording and reporting of business transactions with a focus on the accounting cycle, the application of generally accepted accounting principles, the financial statements, and financial statement analysis. It also includes issues related to asset, liability, and equity valuation, revenue and expense recognition, cash flow, internal controls, and ethics. This course may be offered in a distance education format. (CSU/UC transferable)

ACCT 4 INTRODUCTION TO MANAGERIAL ACCOUNTING – 4 Units

Prerequisite: ACCT 2 with a grade of C or higher

Advisory: MATH 101 with a grade of C or higher, or Math Placement Level 3 or higher; and BSOT 10 with a grade of C or higher, or proficiency in creating, editing, formatting and printing spreadsheets using Excel.

Class Hours: 72 lecture total (when offered in the distance education format, hours will total 216)

C-ID: ACCT 120

This course is the study of how managers use accounting information in decision-making, planning, directing, and controlling operations. The course focuses on cost terms and concepts, cost behavior, cost structure, and cost-volume-profit analysis. Topics include issues relating to cost systems, cost control, profit planning, and performance analysis in manufacturing and service environments. This course may be offered in a distance education format. (CSU/UC transferable)

ACCT 101 BASIC ACCOUNTING I – 3 Units

Class Hours: 45 lecture/27 lab total (when offered in the distance education format, hours will total 162)

A beginning course based on the double-entry bookkeeping system with an emphasis on a procedural approach. Topics include the accounting cycle, transaction analysis (rules of debits and credits), journalizing, posting, worksheets, preparation of financial statements, adjusting, closing and reversing entries, petty cash, bank reconciliations, special journals, accounts receivable, accounts payable, and basic payroll procedures. This course is not transferable to a four-year college or university. This course may be offered in a distance education format.

ACCT 102 BASIC ACCOUNTING II – 3 Units

Prerequisite: ACCT 101 or ACCT 2 with a grade of C or higher

Class Hours: 45 lecture/27 lab total (when offered in the distance education format, hours will total 162)

A continuation of ACCT 101 maintaining the procedural approach. Topics include: accounting for notes payable, notes receivable, inventories, fixed assets, partnerships, corporations, long-term debt, and cash flows. The course culminates with the student keeping a manual set of books for a small merchandising partnership for the last month of the fiscal year. This course is not transferable to a four-year college or university. This course may be offered in a distance education format.

ACCT 103 PC ACCOUNTING – 2 Units

Prerequisite: ACCT 101 or ACCT 2 with a grade of C or higher

Note: Students must have access to Microsoft Excel as all assignments are submitted using Excel.

Class Hours: 18 lecture/54 lab total (when offered in the distance education format, hours will total 108)

This course emphasizes the major areas of a computerized accounting
system and provides the student with hands-on opportunity to determine procedures, analyze transactions, enter data and print reports related to the general ledger, depreciation, accounts receivable, accounts payable, payroll, financial statements, financial statement analysis and inventory control. This course may be offered in a distance education format.

**ACCT 104 PAYROLL ACCOUNTING – 2 Units**
Prerequisite: ACCT 101 or ACCT 2 with a grade of C or higher; and BUAD 106 or Math Placement Level 3 or higher
Advisory: BSOT 64 with a grade of C or higher
Class Hours: 27 lecture/27 lab total (when offered in the distance education format, hours will total 108)

Payroll Accounting emphasizes the methods of computing wages and salaries, the methods of keeping records, and the preparation of government reports. This course is designed to provide training in the complexities of payroll accounting for vocational purposes. This course may be offered in a distance education format.

**ACCT 194 INCOME TAX – 3 Units**
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This is a basic course in income tax law intended to acquaint students with provisions of Federal and State Income Tax Law. It is designed for individuals or the small business owner wanting to become better acquainted with the handling and processing of income tax returns and recent tax laws and developments. This course may be offered in a distance education format.

**ADAPTIVE STUDIES (ADAP)**
See CALS for course listings

**ADMINISTRATION OF JUSTICE (ADJU)**

**ADJU 10 INTRODUCTION TO ADMINISTRATION OF JUSTICE – 3 Units**
Grading: Pass/No Pass Option
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: AJ 110

A critical thinking exploration of historical and contemporary issues in administration of justice. This includes the study and analysis of the core principles and components of the American criminal justice system (police, courts, and corrections), the evolution of administration of justice, criminal behavior theory, crime categories, policing models, challenges in policing, and career opportunities. This course may be offered in a distance education format. (CSU/UC transferable)

**ADJU 15 CONCEPTS OF CRIMINAL LAW – 3 Units**
Grading: Pass/No Pass Option
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: AJ 120

This course offers an analysis of the doctrines of criminal liability in the United States and the classification of crimes against persons, property, morals, and public welfare. Special emphasis is placed on the classification of crime, the general elements of crime, the definitions of common and statutory law, and the nature of acceptable evidence. This course utilizes case law and case studies to introduce students to criminal law. The completion of this course offers a foundation upon which upper-division criminal justice courses will build. The course will also include some limited discussion of prosecution and defense decision making, criminal culpability, and defenses to crimes. This course may be offered in a distance education format. (CSU/UC transferable)

**ADJU 16 LEGAL ASPECTS OF EVIDENCE – 3 Units**
Grading: Pass/No Pass Option
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: AJ 124

This course covers the origin, development, and philosophy of evidence; kinds and degrees of evidence and rules governing admissibility; and judicial decisions interpreting individual rights, search and seizure, the case study approach, privileged communication, and witness competency. This course is required for Administration of Justice majors. This course may be offered in a distance education format. (CSU transferable)

**ADJU 17 PRINCIPLES AND PROCEDURES OF THE JUSTICE SYSTEM – 3 Units**
Grading: Pass/No Pass Option
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: AJ 122

This course includes a study of California and Federal court systems; detailed analysis of all aspects of the criminal justice system, especially identifying functions and relationships between the various sub-systems procedures from incident to final disposition; and the function of constitutional, federal, state, and civil law as it applies to and affects criminal justice. This course is required for Administration of Justice majors. This course may be offered in a distance education format. (CSU/UC transferable)

**ADJU 18 COMMUNITY RELATIONS & MULTICULTURAL ISSUES FOR LAW ENFORCEMENT – 3 Units**
Grading: Pass/No Pass Option
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: AJ 160

This course examines the complex, dynamic relationships between communities and the justice system in addressing crime and conflict with emphasis on the challenges and prospects of administering justice within a diverse, multicultural population and the roles played by race, ethnicity, gender, religion, sexual orientation, age, social class, culture, and justice professionals in shaping relationships within the justice system. Special topics include crime prevention, restorative justice, conflict resolution, and pure justice. Required for Administration of Justice majors. This course may be offered in a distance education format. (CSU/UC transferable)

**ADJU 20 PRINCIPLES OF INVESTIGATION – 3 Units**
Grading: Pass/No Pass Option
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: AJ 140

This course addresses the evolution of investigation, techniques, procedures, and ethical issues in the investigation of crime, including organization of the investigative process, crime scene searches, interviewing and interrogating, surveillance, source of information, utility of evidence, scientific analysis of evidence, and the role of the investigator in the trial process. This course is required for Administration of Justice majors. This course may be offered in a distance education format. (CSU transferable)

**ADJU 21 POLICE FIELD OPERATIONS – 3 Units**
Grading: Pass/No Pass Option
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

Exploration of theories, philosophies, and concepts related to the role expectations of the line enforcement officer. Emphasis is placed upon the patrol, traffic, and public service responsibilities and their relationship to the administration of justice system. This course may be offered in a distance education format. (CSU transferable)

**ADJU 22 JUVENILE PROCEDURES – 3 Units**
Grading: Pass/No Pass Option
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: AJ 220

This course covers the organization, function, and jurisdiction of juvenile agencies; the processing and detention of juveniles; juvenile case disposition; and juvenile status and court procedures. This course may be offered in a distance education format. (CSU transferable)

**ADJU 23 CAREER PLANNING FOR ADMINISTRATION OF JUSTICE – 3 Units**
Grading: Pass/No Pass Option
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

Career Planning for Administration of Justice is designed to acquaint students with current employment techniques and standards in multiple areas of the Administration of Justice field. Students will be exposed to multi-agency recruiting, testing and hiring practices. Students will learn to
Chapter 4: Courses

identify personal problematic areas regarding these practices and will be instructed as to how to seek out and obtain possible solutions to these problems. This course may be offered in a distance education format. (CSU transferable)

ADJU 26 COURTHOUSE TESTIMONY AND REPORT WRITING – 3 Units
Grading: Pass/No Pass Option
Advisory: ENGL 190 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

Provides practical instruction and experience in the proper techniques of report writing and presentation of courtroom evidence. Major emphasis will include the correct writing process, spelling, main elements of a report, report content, as well as important aspects of courtroom testimony. Required for Administration of Justice majors. This course may be offered in a distance education format. (CSU transferable)

ADJU 30 WILDLIFE LAW ENFORCEMENT - 3 Units
Grading: Pass/No Pass Option
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

Students will develop an understanding of the practice of wildlife enforcement. Students will analyze various wildlife enforcement situations and learn to apply management techniques to properly and safely utilize our wildlife populations. This course may be offered in a distance education format. (CSU transferable)

ADJU 40 INTRODUCTION TO CORRECTIONS – 3 Units
Grading: Pass/No Pass Option
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

C-ID: AJ 200

This course will provide a history of and critical analysis of punishment, the various types of punishment, alternatives to punishment, and the impact of punishment on the criminal justice system, corrections, a critical examination of the types of correctional institutions and the clients housed in each institution, and an examination of contemporary correctional issues. This course may be offered in a distance education format. (CSU transferable)

ADJU 45 CRIMINAL STREET GANGS – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course will explore historical developments, origins, philosophy, current trends, and activities in criminal street gangs within California; explore areas of violence, recruitment, drug use, graffiti, and attire; emphasis placed on organization within gangs and racial backgrounds including types of solutions used in the criminal justice system to combat street gangs. This course may be offered in a distance education format. (CSU transferable)

ADJU 46 NARCOTIC AND DRUG ABUSE – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course will explore the Administration of Justice system and the development of drug policy and drug problems. This will include drug identification, drug user recognition, drug effects, narcotic enforcement, drug prosecution, and drug treatment, rehabilitation and education. This course may be offered in a distance education format. (CSU transferable)

ADJU 94 ADMIN. OF JUSTICE WORKSITE LEARNING – 1-8 Units
Grading: Pass/No Pass Option
Limitation on Enrollment: Financial aid students must maintain concurrent enrollment in seven (7) units which include worksite learning units. Students not receiving financial aid do not need to enroll in other courses in order to participate in Worksite Learning Classes.
Class Hours: 75 hours paid or 60 hours non-paid per unit

The Administration of Justice Vocational Worksite Learning course allows the student to gain on-the-job experience through employment/volunteerism at an approved administration of justice job site that is acquired by the student and related to the student’s major. A faculty member supervises all WSL courses to ensure that the work experience is of educational value. The course stresses good work habits and meeting of competencies through actual on-the-job performance. A student may earn up to 16 units through repeating this course since course content varies and skills are enhanced by supervised repetition and practice. A maximum of 8 units may be earned in a single semester. (CSU transferable)

ADJU 106 DOMESTIC AND SEXUAL VIOLENCE INTERVENTION – 4 Units
Grading: Pass/No Pass Option
Class Hours: 72 lecture total (when offered in the distance education format, hours will total 216)

This course covers the history, causes and dynamics of domestic violence and sexual assault. It will also cover existing laws and regulation in California with regards to sexual assault and domestic violence. Incident impact on individuals, family structure and the community will be discussed. The course is specifically designed to provide training to those who may become involved in crisis intervention and sexual assault and domestic violence intervention advocacy, as well as those pursuing a career in law enforcement, education or social services. This course may be offered in a distance education format.

ADJU 155 POST PERISHABLE SKILLS RE-CERTIFICATION TRAINING – 1-8 Units
Grading: Pass/No Pass Only
Limitation on Enrollment: This course is limited to full-time, sworn peace officers in the state of California.
Class Hours: 54-432 lab total

This course is intended to meet the State of California Commission on Peace Officer Standards and Training (P.O.S.T.) perishable skills training needs of full-time, sworn peace officers. Students maintain and build upon their existing skills, including knowledge in officer safety, firearms training, arrest and control techniques, use of force, de-escalation, force options simulator (FOS) training, and legal update training.

ADJU 160 ADULT CORRECTIONS OFFICER CORE COURSE – 8 Units
Grading: Pass/No Pass Option

Notes:
1. This course meets or exceeds Standards and Training for Corrections' minimum training requirements for entry-level adult correctional officers.
2. Students must be at least 18 years of age and have a High School Diploma or GED in order to enroll in this course.
3. Students must submit to and successfully pass a LIVESCAN background check in order to register for this course.
4. Appropriate attire is required for all physical training.
5. Students need to be prepared for the rigor of the physical conditioning and defensive tactics training. Pre-existing medical conditions may interfere with successful completion of these sections and/or the course.

Class Hours: 126 lecture/54 lab total

This Adult Corrections Officer Basic Core (COBC) course presents the required training for entry-level correctional officers as mandated by the Standards and Training for Corrections (STC), a state regulatory agency. Topics include criminal procedure, interviewing and counseling techniques, defensive tactics, public relations, oral and written communications, classifications and housing of inmates, court testimony, and indicators of psychological problems. This course meets or exceeds Standards and Training for Corrections’ minimum training requirements for entry level adult correctional officers.

ADJU 161 JUVENILE CORRECTIONS OFFICER CORE COURSE – 7.5 Units
Grading: Pass/No Pass Option

Notes:
1. This course meets or exceeds Standards and Training for Corrections’ minimum training requirements for entry-level juvenile correctional officers.
2. Students must be at least 18 years of age and have a High School Diploma or GED in order to enroll in this course.
3. Students must submit to and successfully pass a LIVESCAN background check in order to register for this course.
4. Appropriate attire is required for all physical training.
5. Students need to be prepared for the rigor of the physical conditioning and defensive tactics training. Pre-existing medical conditions may interfere with successful completion of these
Chapter 4: Courses

This Juvenile Correctional Officer (JCO) CORE course presents the required training for entry-level juvenile corrections officers as mandated by the Standards and Training for Corrections (STC), a state regulatory agency, and is designed to meet STC regulations for entry-level training of county Juvenile Detention Officer staff. This is an intensive course designed for new Juvenile Detention Officers or the individual interested in a career in juvenile corrections. Topics include the California criminal justice system, professionalism and ethics, defensive tactics, report writing, communication, maintaining security, evidence-based practices, behavioral health issues, gangs, and physical conditioning. This course is designed to provide practical, hands-on training in defensive tactics and restraint techniques, and participants in this course will engage in physically demanding classroom training exercises that include a risk of injury to the participants. Students must provide a medical clearance to participate in the academy physical conditioning program and physical performance tests. Upon completion of the course, all students will receive a SHIELD/Shasta College STC Certificate of Completion and a grade submitted for their college transcripts.

ADJU 301 PC 832 ARREST COURSE – 0 Units
Grading: Pass/No Pass Only
Notes:
1. This course does not include P.C. 832 Firearms Training. Students wishing to receive such training need to concurrently enroll in ADJU 302 (ADJU 302 requires Live Scan fingerprint submission and DOJ clearance letter).
2. With regard to the Arrest and Control component, every attempt will be made to accommodate students with preexisting medical conditions. Those with preexisting medical conditions, including pregnancy, which they feel may hinder their ability to perform the exercises during defensive tactics training, are strongly encouraged to speak with administrative support or the instructor prior to enrolling in this course.

Class Hours: 30 lecture/10 lab total

This is a 40-hour course designed to satisfy the requirement for Peace Officers identified in Sections 830.10 and 830.11 of the Penal Code. This course is the first of two components of the PC 832 Academy. Subjects include orientations, ethics, discretionary decision-making, arrest, search, seizure, communications, and examination. In order to meet P.O.S.T.'s minimum arrest techniques requirements, this course involves stressful physical activities that require full use of arms and legs with no back or other medical impairments. A DOJ Clearance Letter is not required for this course.

ADJU 302 PC 832 FIREARMS – 0 Units
Grading: Pass/No Pass Only
Limitation on Enrollment: Students must be 18 years of age or older to take this course.
Notes:
1. Prior to being admitted to the shooting range, students must provide the Program Coordinator or Director of SHIELD with a Department of Justice Clearance Letter stating that they are not of a class of persons prohibited from possessing a concealable firearm and do not have active restraining orders against them. To obtain this, students must have their fingerprints taken (Live Scan) at the local police/sheriff's department and pay a fee for the search and services. This is not required for students sponsored by a law enforcement agency, provided the agency is willing to state such on department letterhead. Information on how to fill out the Live Scan request for service form can be obtained from the AGO Office or the Registration office. No other background checks will suffice for this mandate. If the Clearance Letter is not provided, the student will be dropped from this course.
2. On the first day of class and prior to instruction, students are required to read and sign the safety policies and procedures set forth by the Shasta County Peace Officers' Association, SHIELD, and Shasta College. The student's signature is an acknowledgment they have read the policies and procedures and fully understand them.
3. The first meeting is a full day in the classroom and the last two full days will be on the shooting range. Students must each provide their own firearm, ammunition, holster, utility belt, magazines or speed loaders and the appropriate holders, eye and ear protection, and a handgun cleaning kit made for their firearm type. There will be no sharing of firearms. Firearms are only allowed on the range and NOT in the classroom. All firearms and equipment must be approved by the Range Master.

Class Hours: 8 lecture/16 lab total

This course meets all the requirements of Section 832 of the California Penal Code and the California Commission on Peace Officer Standards and Training (POST). The PC 832 Arrest and Firearms Course (PC 832 Course) is the minimum training standard for California peace officers as specified in Commission Regulation 1005. This course is the second of two components of the PC 832 Academy. Any position where the officer is required to have a firearm in their possession, or have access to one in the performance of their official duties, requires this training.

AG – AGRICULTURE BUSINESS (AGAB)

AGAB 51 AGRICULTURE ACCOUNTING – 3 Units
(formerly AGRI 51)
Grading: Pass/No Pass Option
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: AG-AB 128

This course covers the study of the principles of agricultural accounting systems and types of records, their use and how to compute and use measures of earning and cost of production to improve agribusines efficiency. It includes compiling a depreciation record, financial statement, simple accounting, and obtaining credit; it also includes application of these concepts and methods through hands-on projects developing computer-based solutions for agriculture business. This course may be offered in a distance education format. (CSU transferable)

AGAB 53 INTRODUCTION TO AGRICULTURE BUSINESS – 3 Units
Grading: Pass/No Pass Option
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: AG-AB 104

Provides a basic understanding of the business and economics of the agricultural industry; an introduction to the economic aspects of agriculture and their implications to the agricultural producer, consumer and the food system; management principles encountered in the day to day operation of an agricultural enterprise as they relate to the decision making process. This course may be offered in a distance education format. (CSU/UC transferable)

AGAB 54 AGRICULTURE ECONOMICS – 3 Units
(formerly AGRI 54)
Grading: Pass/No Pass Option
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: AG-AB 124

An introduction to economic and business principles as they relate to resource management. The focus of the course will be to relate economic theories and principles to applied agri-business and resource management problem solving. Student involvement in practical marketing, financing, promotions, business analysis, retailing, or some other practical economic problem will be required. This course may be offered in a distance education format. (CSU transferable)

AG – ANIMAL SCIENCE (AGAS)

AGAS 10 LIVESTOCK SELECTION – 3 Units (formerly AGRI 10)
Grading: Pass/No Pass Option
Prerequisite: AGAS 19 with a grade of C or higher
Note: Field trips to area ranches may be taken.
Class Hours: 36 lecture/54 lab total

A course designed to evaluate and select desirable production livestock. Animal genetics, performance records, grading and meat quality characteristics will be discussed as important tools in selection. The majority of lab time will be spent judging live animals. (CSU/UC transferable)

AGAS 11 LIVESTOCK FEEDING AND NUTRITION – 3 Units
(formerly AGRI 11)
Grading: Pass/No Pass Option
Class Hours: 54 lecture total

A study of the digestive physiology of farm animals and their utilization of the basic nutrients, feedstuffs, and feed additives. Common feeds in Northern California will be used to blend practical farm rations for beef, dairy, sheep, goats, swine, and horses. This will be allied to cost analysis of commercial feeds and least-cost computer ration programs. (CSU transferable)

**AGAS 15 ARTIFICIAL INSEMINATION – 1 Unit (formerly AGRI 15)**
Grading: Pass/No Pass Option
Class Hours: 9 lecture/27 lab total

A course to familiarize students with basic techniques of Artificial Insemination in cattle. Demonstration and hands-on involvement will include: synchronization, handling of semen, livestock handling, and breeding techniques. (CSU transferable)

**AGAS 19 PRINCIPLES OF ANIMAL SCIENCE – 3 Units**
(formerly AGRI 19)
Grading: Pass/No Pass Option
Class Hours: 36 lecture/54 lab total
C-ID: AG-AS 104

An introduction to the principles of animal science presented in terms of an animal's biological cycle or production. Topics will include basic nutrition, genetics, reproduction, and animal health relating to domestic farm animals. In addition to investigating modern production practices, the impact of animal agriculture upon mankind and the environment will also be considered. The weekly lab session will be devoted to investigating the basic management practices associated with each livestock species. (CSU transferable)

**AGAS 30 LIVESTOCK PRODUCTION – 3 Units**
Class Hours: 36 lecture/54 lab total

This course is a study of the principles and practices of purebred and commercial swine, sheep and beef cattle production throughout California, the United States and the World. Emphasis will be placed on the importance of breeds, breeding principles, selection, nutrition, environmental management, health, marketing and record keeping to ensure scientifically-based management decisions and consumer product acceptance. (CSU transferable)

**AG – ENVIRONMENTAL HORTICULTURE (AGEH)**

**AGEH 10 PLANT IDENTIFICATION AND USAGE – 3 Units**
Grading: Pass/No Pass Option
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 162)
C-ID: AG-EH 112 L

This course teaches identification, growth habits, culture and ornamental use of commonly used landscape plants adapted to climates of California. Plant materials from our local region will be emphasized. This course is required for an AA or AS degree in Environmental Horticulture. This course may be offered in a distance education format. (CSU transferable)

**AGEH 22 NURSERY PRACTICES AND PLANT PROPAGATION – 2 Units (formerly HORT 22, HORT 32A)**
Class Hours: 18 lecture/54 lab total (when offered in the distance education format, hours will total 54 for the lecture portion of the class and an additional 54 hours of lab, totaling 108 hours for this course)
C-ID: AG-EH 116 L (with AGEH 23)

This course is required for all Environmental Horticulture majors. The methods and principles used in the propagation of plants, including both sexual and asexual propagation will be demonstrated and practiced. Other topics related to successful plant propagation such as soil media preparation, the growing environment, transplanting and potting, disease and insect control, irrigation, and fertilization will also be covered. The lecture portion of this course may be offered in a distance education format. (CSU transferable)

**AGEH 23 NURSERY PRACTICES AND MANAGEMENT – 2 Units**
(formerly HORT 23, HORT 32B)
Grading: Pass/No Pass Option
Class Hours: 18 lecture/54 lab total (when offered in the distance education format, hours will total 54 for the lecture portion of the class and an additional 54 hours of lab, totaling 108 hours for this course)
C-ID: AG-EH 116 L (with AGEH 22)

This is required for all Environmental Horticulture majors. This hands-on course will cover production schedules, marketing strategies, customer service, product displays, greenhouse and nursery management, and much more. Best practices and economic feasibility will be emphasized. The lecture portion of this course may be offered in a distance education format. (CSU transferable)

**AGEH 26 INTEGRATED PEST MANAGEMENT IN ENVIRONMENTAL HORTICULTURE – 3 Units**
(formerly HORT 26, AGRI 26)
Grading: Pass/No Pass Option
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 162)
C-ID: AG-EH 120 X

Exploration, identification, and control of major horticultural pests, including insects, weeds, and diseases; impact of pests on commercial nursery crops and the landscape is also discussed. Integrated pest management, including cultural, biological, mechanical/physical, and chemical control methods is emphasized. This course is designed to assist students in preparing for California licensing examinations in pest management. Laboratory work is required. This course may be offered in a distance education format. (C-ID AG-EH 120L). (CSU transferable)

**AGEH 31 LANDSCAPE IRRIGATION – 3 Units**
(formerly HORT 31, AGRI 31)
Grading: Pass/No Pass Option
Advisory: MATH 100 with a grade of C or higher, or Math Placement Level 3 or higher; and ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 108 for the lecture portion of the class and an additional 54 hours of lab, totaling 162 hours for this course)
C-ID: AG-EH 144 X

This is a study of water hydraulics, irrigation systems design, and installation procedures and irrigation scheduling. Techniques in the operation and maintenance of irrigation systems will also be presented. Emphasis will be placed on residential design and installation, but commercial design and installation will be covered. This course is required for all Environmental Horticulture majors. The lecture portion of this course may be offered in a distance education format. (CSU transferable)

**AGEH 33 ENVIRONMENTAL HORTICULTURE – 3 Units**
(formerly HORT 33, AGRI 33)
Grading: Pass/No Pass Option
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: AG-EH 104 X

Environmental horticulture provides students with an understanding of how various aspects of the environment relate to plant growth and how human horticultural practices can influence the environment. This course explains the basic principles of botany and horticulture. Topics include plant structure, growth, physiology, and reproduction; climate, soil, and ecology; plant problems, including pests, diseases, and effects of pollution; plant genetics and human-manipulated plants; and world food picture. This course is useful for plant scientists, horticulturists, and those seeking science credits, and is required for first-year Environmental Horticulture Majors. This course may be offered in a distance education format. (CSU/UC transferable)

**AGEH 35 LANDSCAPE DESIGN – 3 Units**
(formerly HORT 35, AGRI 35)
Grading: Pass/No Pass Option
Prerequisite: AGEH 10 with a grade of C or higher, or AGNR 6 with a grade of C or higher
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 108 for the lecture portion of the class and an additional 54 hours of lab, totaling 162 hours for this course)

This course is a requirement for all Environmental Horticulture majors. This course emphasizes the process leading to the development of the residential design. The incorporation of design principles i.e. unity, rhythm, repetition, balance, etc. and how the principles are used to create a functional and pleasing composition with plant material and other landscape elements will be stressed. Emphasis is on residential design, both rural and suburban. The lecture portion of this course may be offered in a distance education format. (CSU/UC transferable)
AGEH 38  LANDSCAPE AND TURF MANAGEMENT – 3 Units
(formerly HORT 38, AGRI 38)
Grading: Pass/No Pass Option
Advisory: ENGL 190 with a grade of C or higher, or English Placement Level 6 or higher; and MATH 220 with a grade of C or higher, or Math Placement Level 1 or higher
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 162)
C-ID: AG-EH 130 000 X

This is a required course for Environmental Horticulture majors. The installation of lawns, groundcovers, shrubs and trees will be covered. The practices of pruning, trimming, mowing, watering, fertilizing, and pesticide application as applied to landscape management of home, park, and highway landscapes and how to estimate and bid in all areas of landscape management will also be covered. This course may be offered in a distance education format. (CSU transferable)

AGEH 50  INTRODUCTION TO TREE CARE AND URBAN FORESTRY – 3 Units
Grading: Pass/No Pass Option
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: AG-EH 132 X

This is a required course for Environmental Horticulture majors. The installation of lawns, groundcovers, shrubs and trees will be covered. The practices of pruning, trimming, mowing, watering, fertilizing, and pesticide application as applied to landscape management of home, park, highways, and how to estimate and bid in all areas of landscape management will also be covered. This course may be offered in a distance education format. (CSU transferable)

AGEH 52  LANDSCAPE CONSTRUCTION – 3 Units
Grading: Pass/No Pass Option
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 108 for the lecture portion of the class and an additional 54 hours of lab, totaling 162 hours for this course)
C-ID: AG-EH 132 X

This course covers the fundamentals of landscape construction, including soil preparation, paving and construction materials, heavy and power tool use, turf and plant installation, plan reading, and estimating and bid preparation. Other topics include local codes, state requirements, and new technologies. This course covers much of the information needed to pass the C-27 Landscaping Contractor's License exam. The lecture portion of this course may be offered in a distance education format. (CSU transferable)

AGEH 60  MASTER GARDENER TRAINING – 3 Units
(formerly HORT 60)
Grading: Pass/No Pass Option
Advisory: ENGL 190 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This is the training course for the Master Gardener Program, a community service organization designed to relay research based horticultural information to the home gardener. The Master Gardener program was developed by the University Cooperative Extension to train interested horticultural enthusiasts to assist local gardeners in diagnosing plant problems and to provide science based information for keeping home landscapes and the environment healthy. The University of California has agreed to let Shasta College use their training materials which are provided through this class. Topics covered in this course include pesticide use, IPM, weed identification and management, pruning, plant diseases, soils, fertilizers, growing vegetables, native plants, water quality, and many other plant related topics. This is a required course for anyone interested in obtaining a UC Extension certification as a Shasta College Master Gardener. This course may be offered in a distance education format. (CSU transferable)

AGEH 61  PLANT PROTECTION MATERIALS – 3 Units
Grading: Pass/No Pass Option
Class Hours: 162 total hours (distance education delivery format only)

Course will cover pesticide laws and regulations, risks, benefits and mode of action, safe and responsible use, toxicology, and environmental issues related to the use of all agricultural chemicals. Fertilizers, plant growth regulators, defoliants, antimicrobials and other new generation pesticides will be discussed. Sustainable practices will be emphasized and examples used to generate students ability to solve pest problems and formulate integrated pest/agricultural management plans. This course may be offered in a distance education format. (CSU transferable)

AGEH 71  ORGANIC GARDENING PRACTICES (SUMMER) – 1 Unit (formerly HORT 71)
Grading: Pass/No Pass Option
Note: This course is complementary to, but independent from, AGEH 72 Organic Gardening Practices (Fall and Spring)
Class Hours: 9 lecture/27 lab total (when offered in the distance education format, hours will total 27 for the lecture portion of the class and an additional 27 hours of lab, totaling 54 hours for this course)

This course is an introduction to Organic Gardening. It includes summer crops, irrigation, pests and cultural practices for growing a summer garden. Students will be planting crops for the season and encouraged to start their own garden plot. Subject matter in this course is supplementary to AGEH 72, which addresses gardening practices for spring and fall seasons. The lecture portion of this course may be offered in a distance education format. (CSU transferable)

AGEH 72  ORGANIC GARDENING PRACTICES (FALL AND SPRING) – 1 Unit (formerly HORT 72)
Grading: Pass/No Pass Option
Note: This course is complementary to, but independent from, AGEH 71 Organic Gardening Practices (Summer)
Class Hours: 9 lecture/27 lab total (when offered in the distance education format, hours will total 27 for the lecture portion of the class and an additional 27 hours of lab, totaling 54 hours for this course)

Course covers cool season organic vegetable growing practices for the home and market gardener. Includes fall vegetable cover crops and cultivating practices, early spring planting and season extending strategies. Students will be planting crops appropriate for the season. Since subject matter varies with each seasonal crop, this course is supplementary to AGEH 71, which addresses gardening practices for the summer season. The lecture portion of this course may be offered in a distance education format. (CSU transferable)

AGEH 94  HORTICULTURE WORKSITE LEARNING – 1-8 Units
(formerly HORT 94)
Limitation on Enrollment: Financial aid students must maintain concurrent enrollment in seven (7) units which include worksite learning units. Students not receiving financial aid do not need to enroll in other courses in order to participate in Worksite Learning Classes. Class Hours: 75 hours paid or 60 hours non-paid per unit

The Horticulture Worksite Learning course allows the student to gain on-the-job experience through employment/volunteerism at an approved horticulture job site that is acquired by the student and related to the student's major. A faculty member supervises all WSL courses to ensure that the work experience is of educational value. The course stresses good work habits and meeting of competencies through actual on-the-job performance. A student may earn up to 16 units through repeating this course since course content varies and skills are enhanced by supervised repetition and practice. A maximum of 8 units may be earned in a single semester. (CSU transferable)

AGEH 120  SELECTED TOPICS IN ENVIRONMENTAL HORTICULTURE: PRUNING – 0.5 Units
(formerly HORT 120, HORT 128E, AGRI 128E)
Grading: Pass/No Pass Option
Class Hours: 9 lecture total

A basic course in pruning techniques of ornamental plants, and the specific categories of flower-bearing and fruit-bearing trees, shrubs, and vines. The focus of this short course is to teach the student why plants are pruned, when plants should be pruned and how plants are pruned.

AGEH 130  INTRODUCTION TO NATIVE PLANTS – 1 Unit
(formerly HORT 130, AGRI 130)
Grading: Pass/No Pass Option
Note: Includes one local plant collection field trip.
Class Hours: 18 lecture total (when offered in the distance education format, hours will total 54)

Covers use of California Native plants in the landscape, as well as the identification, collection, and propagation of native and non-native drought tolerant plants used in the landscape. This course may be offered in a distance education format.
Chapter 4: Courses

AG - EQUINE (AGEQ)

AGEQ 12 HORSEMANSHIP – 3 Units (formerly AGRI 12)
Grading: Pass/No Pass Option
Note: Students must provide their own horse
Class Hours: 36 lecture/54 lab total
This course is designed for those interested in learning to ride and handle horses. Includes basic equitation, proper seat and hands, tack identification and use, and basic care and grooming of the pleasure horse. (CSU transferable)

AGEQ 13 EQUINE SCIENCE – 3 Units (formerly AGRI 13)
Grading: Pass/No Pass Option
Class Hours: 36 lecture/54 lab total
This course teaches the study of horse production practices including breed types, selection, conformation, nutrition, breeding and disease. Emphasis will be placed on general health care and how to detect health problems. Equine science will be emphasized to ensure scientifically based management decisions. (CSU/UC transferable)

AGEQ 21 HORSE MANAGEMENT – 3 Units (formerly AGRI 21, AGRI 115)
Grading: Pass/No Pass Option
Class Hours: 36 lecture/54 lab total
This course is an intensive study of the horse industry including factors for career success. This course will provide students an understanding of management considerations to be better prepared for running and/or managing an equine enterprise. Topics covered are horse facilities, health care, equipment and tack, trailer, horse conditioning, pasture management, and managing the stalled horse. (CSU transferable)

AG – GENERAL AGRICULTURE (AG)

AG 1 CAREER PLANNING FOR AGRICULTURE – 2 Units
(formerly ENVR 1)
Grading: Pass/No Pass Option
Class Hours: 36 lecture total (when offered in the distance education format, hours will total 108)
Career opportunities and requirements in Agriculture, Agriculture Business, Equine Science, Environmental Horticulture and Veterinary Technology will be examined. Students will learn how to apply for jobs. Traits of highly successful people will be explored by formal presentation and interactive assignments. Environmental awareness and interrelationships with career success will be covered. This course may be offered in a distance education format. (CSU transferable)

AG 6 CAREER PLACEMENT – AG AND NATURAL RESOURCES – 1 Unit (formerly AGRI 6)
Grading: Pass/No Pass Option
Note: Designed for students concurrently completing or who have completed the core course requirements in agriculture, horticulture, and natural resources majors. This course may require a multi-day, overnight field trip to survey the industry.
Class Hours: 18 lecture total
This class is designed to give students an overview of the California agriculture, horticulture, and natural resources industry and assist in obtaining the best possible employment during the summer and upon graduation. Students will learn interview techniques, will develop an employment portfolio, and will learn how to apply for jobs. This class is required for all agriculture, horticulture, and natural resources majors. (CSU transferable)

AG 9A AGRICULTURE AND NATURAL RESOURCES LEADERSHIP I – 1 Unit (formerly AG 9, ENVR 9)
Grading: Pass/No Pass Option
Note: Required field trips
Class Hours: 9 lecture/27 lab total
The course is designed to develop leadership qualities in students. “Hands-on” techniques will be used to facilitate problem solving, cooperative work ethics, developing initiative, managing and organizing information, flexible thinking and effective questioning. Practical experience in conducting business as a group will be gained by participation. (CSU transferable)

AG 9B AGRICULTURE AND NATURAL RESOURCES LEADERSHIP II – 1 Unit
Grading: Pass/No Pass Option
Note: Required field trips
Class Hours: 9 lecture/27 lab total
The course is designed to develop leadership qualities in students. Students will learn group dynamics and problem solving when working in committees. Event organizing, planning and follow up will be emphasized. “Hands-on” activities will emphasize these leadership development activities. (CSU transferable)

AG 9C AGRICULTURE AND NATURAL RESOURCES LEADERSHIP III – 1 Unit
Grading: Pass/No Pass Option
Note: Required field trips
Class Hours: 9 lecture/27 lab total
The course is designed to develop leadership qualities in students. Students will develop habits of successful people. Work with community and industry member’s activities and events. Participate in leadership building skills, such as public speaking, job interviews and debate teams. (CSU transferable)

AG 58 STUDENT ENTERPRISE PROJECTS – 1-4 Units
(formerly AGRI 58)
Limitation on Enrollment: Student must have a sponsoring instructor from the Division.
Note: Student projects are subject to approval by a project evaluation committee.
Class Hours: 9 lecture/27-189 lab total
Selection and completion of a management/production enterprise project under faculty supervision. Each student will be required to develop a project plan, timeline, budget and contract with the sponsoring instructor. (CSU transferable)

AG 71 INTRODUCTION TO AGRICULTURE EDUCATION – 2 Units
Grading: Pass/No Pass Option
Class Hours: 36 lecture total (when offered in the distance education format, hours will total 108)
Overview of agricultural education and agricultural education programs from a teaching perspective including goals and purposes, kinds of classes, types of programs, and qualifications essential to successful agricultural teaching. This course may be offered in a distance education format. (CSU transferable)

AG 72 AG EDUCATION EARLY FIELD EXPERIENCE – 2 Units
Prerequisite: AG 71 with a grade of C or higher
Class Hours: 18 lecture/54 lab total (when offered in the distance education format, hours will total 54 for the lecture portion of the class and an additional 54 hours of lab, totaling 108 hours for this course)
This course creates awareness of opportunities for prospective agriculture teachers through observation, participation in the field, and analysis of field experiences. Students will be expected to complete 20 hours of observation/field activities outside of class. The off-campus field trips shall be supervised by the course instructor and shall take place in an approved agriculture department. This course may be offered in a distance education format. (CSU transferable)

AG 94 AG WORKSITE LEARNING – 1-8 Units
(formerly AGRI 94)
Limitation on Enrollment: Financial aid students must maintain concurrent enrollment in seven (7) units which include worksite learning units. Students not receiving financial aid do not need to enroll in other courses in order to participate in Worksite Learning Classes.
Class Hours: 75 hours paid or 60 hours non-paid per unit
The Agriculture Worksite Learning course allows the student to gain on-the-job experience through employment/volunteerism at an approved agriculture job site that is acquired by the student and related to the
student’s major. A faculty member supervises the course to ensure that the
work experience is of educational value. The course stresses good
work habits and meeting of competencies through actual on-the-job
performance. A student may earn up to 16 units through repeating this
course since course content varies and skills are enhanced by supervised
repetition and practice. A maximum of 8 units may be earned in a single
semester. (CSU transferable)

AG – MECHANIZED AGRICULTURE (AGMA)

AGMA 42 FARM POWER AND MACHINERY – 3 Units
Class Hours: 27 lecture/81 lab total (when offered in the distance
education format, hours will total 81 for the lecture portion of the class
and an additional 81 hours of lab, totaling 162 hours for this course)
C-ID: AG-MA 108 L
This class covers basic skill-level operation and maintenance of
agricultural equipment including tractors, tillage, planting and harvesting
machinery. Safe operational practices, proper machine and implement
inspection and set-up, and basic operational skills will be covered.
Precision agricultural technology, equipment management and field
layout will be discussed. The lab activities will include the operation of
machinery in the field laboratory. The lecture portion of this course may
be offered in a distance education format. (CSU transferable)

AGMA 44 INTRODUCTION TO CONSTRUCTION SKILLS FOR
AGRICULTURE AND NATURAL RESOURCES – 3 Units (formerly ENV 44)
Class Hours: 27 lecture/81 lab total
This course covers the basic construction skills related to agriculture,
natural resources, and environmental horticulture. Subjects covered will
be mechanical drawing, design layout, arc welding, oxy/acetylene cutting
and brazing, carpentry, electrification, small engine theory, concrete work
structures, and project construction. Safety will be emphasized. (CSU
transferable)

AG – NATURAL RESOURCES (AGNR)

AGNR 1 INTRODUCTION TO NATURAL RESOURCES – 3 Units
(formerly NR 1)
Grading: Pass/No Pass Option
Note: Required day field trips
Class Hours: 36 lecture/54 lab total (when offered in the distance
education format, hours will total 108 for the lecture portion of the class
and an additional 54 hours of lab, totaling 162 hours for this course)
This course is an introduction to the integrated management of forests,
soil, watershed, fish, and wildlife in the context of protection and
restoration of watersheds and ecosystems. An emphasis will be placed
on natural resources careers, policy and law, tools, techniques and
practices, and management philosophies of public and private lands.
Basic biological and ecological processes will be introduced along with
discussion of the scientific method and preparing reports. The lecture
portion of this course may be offered in a distance education format.
(CSU/UC transferable)

AGNR 4 INTRODUCTION TO WILDLAND AND RANGE
ECOLOGY – 3 Units
Grading: Pass/No Pass Option
Note: Required multi-day field trips
Class Hours: 36 lecture/54 lab total (when offered in the distance
education format, hours will total 108 for the lecture portion of the class
and an additional 54 hours of lab, totaling 162 hours for this course)
This course teaches basic range management and improvement
practices; particularly, it teaches proper utilization of rangeland
resources, management for sustainable human and environmental
values, use by wild and domestic animals, and historical and legal
changes in rangeland management. This course gives an overview of
multiple use principles as well as maintenance and improvement of range
plant communities, and conserving biological diversity and environmental
quality in rangelands. The lecture portion of this course may be offered in
a distance education format. (CSU transferable)

AGNR 6 NATIVE PLANT IDENTIFICATION – 3 Units
(formerly NR 6)
Grading: Pass/No Pass Option
Class Hours: 36 lecture/54 lab total (when offered in the distance
education format, hours will total 108 for the lecture portion of the class
and an additional 54 hours of lab, totaling 162 hours for this course)
The study of botanical characteristics, taxonomy morphology, and
community relationships of the major tree and shrub associations in
California and Western United States. Includes discussion of commercial
uses and geographic ranges of these plants. The lecture portion of this
course may be offered in a distance education format. (CSU transferable)

AGNR 11 ENVIRONMENTAL ETHICS – 3 Units
(formerly ENVR 11, INTR 11)
Class Hours: 54 lecture total (when offered in the distance education
format, hours will total 162)
This course examines the influence of cultural values on the relationship
of humans with each other and with plants, animals and the land. An
important objective is to develop original and sustaining attitudes and
guidelines which will enhance a healthy globe. Sources of western
society's historical and current attitudes toward nature as well as
alternative cultural perspectives will be explored. Students will emerge
from this class with a greater understanding of their individual moral
responsibilities toward the environment. This course may be offered in a
distance education format. (CSU/UC transferable)

AGNR 12 ENVIRONMENTAL POLICY AND LAW – 2 Units
Grading: Pass/No Pass Option
Class Hours: 36 lecture total (when offered in the distance education
format, hours will total 108)
This course will introduce students to various aspects of environmental
laws, policy, and agencies responsible for management and regulation of
our natural resources. Topics of the course will include origins and
importance of environmental law, legal principals; property rights;
international, federal, state, and local environmental legislation; and
regulatory authorities. The course will include discussion of the
Legislative and Regulatory history, and current implementation of the
National Environmental Policy Act (NEPA) and California Environmental
Quality Act (CEQA). Students will gain an understanding of the
interactions between federal, state, and local environmental regulations,
and how they pertain to environmental compliance and protection, and
enforcement for illegal activities. Examples of legislation and regulations
to be covered will include aspects of the Federal Clean Water Act (CWA),
California Water Code, National Pollution Discharge Elimination System
(NPDES), Federal Endangered Species Act (ESA), California Irrigated
Lands Program, Local Grading Ordinances, California Storm Water
Program, California Streambed Alteration Agreements, and other
pertinent federal, state, and local environmental laws. This course may
be offered in a distance education format. (CSU/UC transferable)

AGNR 50 NATURAL RESOURCES MEASUREMENTS – 4 Units
(formerly NR 50)
Grading: Pass/No Pass Option
Note: Several field trips to various locations will occur as feasible.
Class Hours: 36 lecture/108 lab total (when offered in the distance
education format, hours will total 108 for the lecture portion of the class
and an additional 108 hours of lab, totaling 216 hours for this course)
This course will help students develop an understanding of the sampling
methods and equipment used to inventory forest resources on Private,
State, and Federal lands. Measurements of timber stand growth, quantity
and quality, and other natural resources including water, range, and
wildlife will also be covered. The lecture portion of this course may be
offered in a distance education format. (CSU/UC transferable)

AGNR 51 SILVICULTURE AND FIRE ECOLOGY – 2 Units
(formerly NR 51)
Grading: Pass/No Pass Option
Note: Includes one optional overnight weekend field trip and required
day trips
Class Hours: 18 lecture/54 lab total (when offered in the distance
education format, hours will total 54 for the lecture portion of the class
and an additional 54 hours of lab, totaling 108 hours for this course)
This course examines forestry practices and systems used to grow trees
and manage forests for the sustained production of timber products.
Course will also cover a survey of fire ecology, elements of wildland fire
behavior, fire management and suppression, and fuels management.
The lecture portion of this course may be offered in a distance education
format. (CSU transferable)
AGNR 52  COMPUTERS IN AGRICULTURE AND NATURAL RESOURCES – 3 Units (formerly ENVR 52, AGRI 52)
Grading: Pass/No Pass Option
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 162)
C-ID: AG-AB 108
This course introduces students to basic computer applications in agriculture, horticulture, natural resources, and related Career Technical Education majors. Students will gain basic computer literacy skills while learning to use examples of industry-specific software. Others topics will include file management, data manipulation, and use of software such as Word, Excel, Access, and PowerPoint. Students will also be exposed to basic concepts and software related to Geographic Information Systems (GIS). This course is required for all agricultural, horticulture, and natural resources majors. This course may be offered in a distance education format. (CSU transferable)

AGNR 53  FOREST PROTECTION AND HEALTH – 3 Units (formerly NR 53)
Grading: Pass/No Pass Option
Note: Several field trips to various locations will occur as feasible.
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 108 for the lecture portion of the class and an additional 54 hours of lab, totaling 162 hours for this course)
This course will discuss the biotic and abiotic stress factors that influence forest resource values. Direct and indirect management practices in addition to silvicultural principles that maintain and enhance biotic balance, biological diversity, and ecosystem health and productivity will be covered. Also, issues related to fuels management and prescribed fire will be covered. The lecture portion of this course may be offered in a distance education format. (CSU transferable)

AGNR 55  INTRODUCTION TO FOREST OPERATIONS – 3 Units (formerly NR 55)
Grading: Pass/No Pass Option
Note: Several field trips to various locations will occur as feasible.
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 108 for the lecture portion of the class and an additional 54 hours of lab, totaling 162 hours for this course)
Develop knowledge and skills to recognize the capabilities and limitations of timber harvesting equipment and systems operating in a broad range of forest resource management situations. After completing the course, students will be able to identify harvest systems that are best matched with the characteristics of the physical, environmental, economic, and social operating environments. Harvest process evaluations and decisions are aided with various forest engineering analysis and tools. The lecture portion of this course may be offered in a distance education format. (CSU transferable)

AGNR 56  HEAVY LOGGING EQUIPMENT OPERATIONS AND MAINTENANCE – 4 Units
Prerequisite: CONS 46 with a grade of C or higher
Class Hours: 216 lab total
This laboratory course focuses on the operations skills and maintenance of common heavy logging equipment, such as skidders, feller-bunchers, log loaders, processors, chippers, forwarders, water trucks, and log trucks. This lab requires enrollment in a federal-level drug testing program. (CSU transferable)

AGNR 60  ENVIRONMENTAL SCIENCE – 3 Units (formerly ENVR 60, NR 60)
Grading: Pass/No Pass Option
Advisory: Students who wish to add a lab component to this class should co-enroll in AGNR 61
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course is an introduction to the conservation or wise use of natural resources and incorporates discussions about the complex relationships of man to the environment. Students will learn about the diverse agencies that manage our resources along with their history and philosophies. The course will cover each of the major natural resources—such as water, air, energy, forests, wildlife, agriculture, and soils—as well as environmental policy and laws that govern the use of these resources. An emphasis is placed on the practical components of Environmental Science as it relates to social and economic aspects of conservation. This course may be offered in a distance education format. (CSU/UC transferable)

AGNR 61  ENVIRONMENTAL SCIENCE LABORATORY – 1 Unit (formerly ENVR 61)
Grading: Pass/No Pass Option
Corequisite: AGNR 60, or previous completion of AGNR 60 with a grade of C or higher
Class Hours: 54 lab total (when offered in the distance education format, hours will total 54)
This is a laboratory course designed to complement AGNR 60 and to acquaint the students with some of the more common laboratory and field tests and procedures utilized in environmental science. This course may be offered in a distance education format. (CSU/UC transferable)

AGNR 64  WATERSHED MANAGEMENT AND ECOLOGY – 3 Units (formerly NR 64)
Grading: Pass/No Pass Option
Note: Field trips to various district facilities, federal, state, county, city, and private agencies will occur as feasible.
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 108 for the lecture portion of the class and an additional 54 hours of lab, totaling 162 hours for this course)
This course addresses a variety of topics concerned with the quality and quantity of water resources and watershed management, ecology, and restoration. Emphasis will be on the State of California. Coverage will include the hydrologic cycle, water quality, water use and conservation, and watershed health and function. Sources, measurements, quality (pollution and treatment), usage, and conservation of water will be addressed. Environmental impacts of dam construction and hydropower operation will be discussed. Laboratory work will involve measurements and interpretations of data collected or distributed and watershed restoration project planning and implementation. The lecture portion of this course may be offered in a distance education format. (CSU/UC transferable)

AGNR 65  FOREST ECOLOGY – 3 Units (formerly NR 65, NR 165)
Grading: Pass/No Pass Option
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 108 for the lecture portion of the class and an additional 54 hours of lab, totaling 162 hours for this course)
In this course the forest community is used as a model to discuss ecological principles as they apply to forest management. Students will gain a better understanding of biological organization and community classification, biotic and abiotic environmental factors, population and community ecology, and the role of disturbance in forested ecosystems. In addition, biogeochemical cycling, forest succession, and the role of natural selection will be discussed. Students will be expected to apply scientific principles and critical thinking skills to all lab activities and research papers. The lecture portion of this course may be offered in a distance education format. (CSU transferable)

AGNR 66A  WATERSHED RESTORATION PRACTICUM I – 1 Unit (formerly AGNR 66, NR 66)
Grading: Pass/No Pass Option
Class Hours: 9 lecture/27 lab total (when offered in the distance education format, hours will total 27 for the lecture portion of the class and an additional 27 hours of lab, totaling 54 hours for this course)
This course will use the hydrologic watershed unit as the focus which will provide a hands-on approach to ecosystem management, erosion control, sediment control, and stream restoration. The course will emphasize how restoring resource values requires an interdisciplinary scientific approach and community-wide participation to protect, enhance and restore. The lecture portion of this course may be offered in a distance education format. (CSU transferable)

AGNR 66B  WATERSHED RESTORATION PRACTICUM II – 1 Unit
Grading: Pass/No Pass Option
Class Hours: 9 lecture/27 lab total (when offered in the distance education format, hours will total 27 for the lecture portion of the class and an additional 27 hours of lab, totaling 54 hours for this course)
Students will determine best management practices for erosion and sediment control. Laws and requirements will be discussed along with the importance and methods for documenting endangered species and archaeological sites. The lecture portion of this course may be offered in a distance education format. (CSU transferable)

AGNR 70  WILDLIFE CONSERVATION AND MANAGEMENT – 3 Units (formerly NR 70)
Grading: Pass/No Pass Option
AGNR 94 NATURAL RESOURCES WORKSITE LEARNING – 1-8 Units (formerly NR 94)
Limitation on Enrollment: Financial aid students must maintain concurrent enrollment in seven (7) units which include worksite learning units. Students not receiving financial aid do not need to enroll in other courses in order to participate in Worksite Learning Classes.
Class Hours: 75 hours paid or 60 hours non-paid per unit
The Natural Resources Worksite Learning course allows the student to gain on-the-job experience through employment/volunteerism at an approved natural resources job site that is acquired by the student and related to the student’s major. A faculty member supervises the course to ensure that the work experience is of educational value. The course stresses good work habits and meeting of competencies through actual on-the-job performance. A student may earn up to 16 units through repeating this course since course content varies and skills are enhanced by supervised repetition and practice. A maximum of 8 units may be earned in a single semester. (CSU transferable)

AGNR 173 BEGINNING TAXIDERMY – 2 Units (formerly NR 173)
Grading: Pass/No Pass Option
Class Hours: 18 lecture/54 lab total
An introduction to taxidermy dealing with the taxidermy of birds. It will include collecting, materials and tools, preservatives, skinning, mounting and painting. Habitat materials and composition will be discussed and applied.

AGNR 174 INTERMEDIATE TAXIDERMY – 2 Units (formerly NR 174)
Grading: Pass/No Pass Option
Prerequisite: AGNR 173 with a grade of C or higher
Class Hours: 18 lecture/54 lab total
An introduction to taxidermy of small mammals, reptiles and fish. Advanced techniques in bird taxidermy are also presented. Instruction will include game laws, tools and materials, skinning, tanning, mounting and display. A variety of artificial habitats will be employed. Students will supply their own specimens.

AGNR 310 INTRODUCTION TO TRAIL MAINTENANCE – 0 Units
Grading: Pass/No Pass Only
Class Hours: 8 lecture/8 lab total
This course will introduce basic trail concepts, trail work safety protocols, hands-on brushing, cleaning, and cleaning drainages. This course will provide a wide variety of trail work tasks in a team environment.

AGNR 333 LICENSED TIMBER OPERATOR – 0 Units
Grading: Pass/No Pass Only
Class Hours: 16 lecture total (when offered in the distance education format, hours will total 16)
This course is required by CAL FIRE under the Forest Practice Act to become a Licensed Timber Operator (LTO) in the State of California in order to conduct Timber Operations on Timberslands. This course is approved by the California Department of Forestry and Fire Protection. This course may be offered in a distance education format.

AGPS 20 PLANT SCIENCE – 4 Units (formerly AGRI 20)
Grading: Pass/No Pass Option
Note: Field trips to local areas will be included.
Class Hours: 54 lecture/54 lab total (when offered in the distance education format, hours will total 162 for the lecture portion of the class and an additional 54 hours of lab, totaling 216 hours for this course)
C-ID: AG-PS 106 L

AGPS 24 SOILS – 3 Units (formerly ENVR 24, AGRI 24)
Grading: Pass/No Pass Option
Advisory: ENGL 190 with a grade of C or higher, or English Placement Level 6 or higher; and one year of high school chemistry or equivalent
Note: This course is designed for transfer to CSU or UC. The content is driven by the standards of the ACCA of the Western Section.
This course is an introduction to soils, soil classification, soil properties, and soil development. Emphasis is placed on soil testing, fertility, drainage, and soil management. (CSU transferable)

AGPS 25 CALIFORNIA WATER – 3 Units (formerly AGRI 25)
Grading: Pass/No Pass Option
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course is an interdisciplinary examination of California’s water use and management with a historical emphasis on the politics and conflict arising from water scarcity. Topics of water quality, water law, measurement of water, evaluation of irrigation methods and systems, and issues relating to water use will all be covered. This course may be offered in a distance education format. (CSU/UC transferable)

AGPS 126 PESTICIDE TRAINING – 0.5 Units
(formerly AGRI 126, AGRI 126AD)
Grading: Pass/No Pass Option
Class Hours: 9 lecture total
This course is designed to meet the continuing education requirement for pesticide applicators and pest control advisors. The focus of the course is on methods and calculations necessary to apply pesticides safely, accurately and efficiently and to look at alternative techniques being used and developed for management of plant pests.

AGSA 56 INTRODUCTION TO SUSTAINABLE AGRICULTURE AND FARM MANAGEMENT – 3 Units
Grading: Pass/No Pass Option
Advisory: ENGL 196 with a grade of C or higher
Class Hours: 54 lecture total
This course explains the organization and operation of sustainable farm and ranch businesses, identifies factors affecting profitability, and evaluates the business for sustainability, increased efficiency and profit. Budgeting and resources management as well as farm operation analysis are applied to the farm lab. This course includes an examination of case studies to connect sustainable agriculture principles to actual farming practices. (CSU transferable)

AGVIT 80 VINEYARD DESIGN AND CONSTRUCTION – 1 Unit
(formerly HORT 80)
Grading: Pass/No Pass Option
Class Hours: 9 lecture/27 lab total
This is an introductory course in establishing a commercial or home vineyard. Numerous principles will be covered with respect to the design and construction of a vineyard. The important training steps and maintenance of a young vineyard will also be covered. A vineyard will be utilized as a resource for this class. (CSU transferable)
Class Hours: 27 lecture/27 lab total (when offered in the distance education format, hours will total 81 for the lecture portion of the class and an additional 27 hours of lab, totaling 108 hours for this course)

This is an introductory course to the biology and culture of grapevines. The care and maintenance of grape vineyards including: planting, propagation, pruning, thinning, irrigation, harvesting and other cultural practices will be discussed. Course covers both conventional and organic management methods. This course would benefit students interested in both commercial production and home vineyard care. The lecture portion of this course may be offered in a distance education format. (CSU transferable)

AGRIT 81 VINEYARD CARE – 2 Units (formerly HORT 81)
Grading: Pass/No Pass Option
Class Hours: 27 lecture/27 lab total (when offered in the distance education format, hours will total 81 for the lecture portion of the class and an additional 27 hours of lab, totaling 108 hours for this course)

This is an introductory course to the biology and culture of grapevines. The care and maintenance of grape vineyards including: planting, propagation, pruning, thinning, irrigation, harvesting and other cultural practices will be discussed. Course covers both conventional and organic management methods. This course would benefit students interested in both commercial production and home vineyard care. The lecture portion of this course may be offered in a distance education format. (CSU transferable)

AGRICULTURE (AGRI)
See AG, AGAB, AGAS, AGEH, AGEQ, AGMA, AGNR, AGPS, AGSA, and AGVIT for course listings

ALLIED HEALTH (ALH)

ALH 94 MEDICAL ASSISTING CLINICAL EXPERIENCE – 3 Units
Grading: Pass/No Pass Only
Prerequisites: ALH 103 and ALH 104 with a grade of C or higher
Corequisite: ALH 107
Limitation on Enrollment: Students must be enrolled in the medical assisting program.
Class Hours: 60 hours non-paid per unit (180 total)

This course is a culmination of the Medical Assisting Program where students are placed in a medical office in order to implement in a healthcare setting what they have learned in the classroom. In order to participate in ALH 94, students must have successfully completed all program requirements. Students must complete 180 hours of verified, supervised field experience in a healthcare setting. The course stresses professional work habits and meeting of required competencies through actual on-the-job performance with a supervisor. The student will practice skills learned during all courses of the program and/or any additional skills that are within the medical assistant scope of practice. This is a pass/fail class. (CSU transferable)

ALH 101 MEDICAL ASSISTING CORE – 6 Units
Corequisite: ALH 102
Limitation on Enrollment: Students must be enrolled in the Medical Assisting Program.
Class Hours: 81 lecture/81 lab total (when offered in the distance education format, hours will total 324)

Medical Assisting Core serves as a foundation course for the medical assistant student. In this course, students will be oriented to the medical office and the role of the medical assistant with a focus on the health care team, law and ethics, professional communication, and service excellence. This course may be offered in a distance education format.

ALH 102 ADMINISTRATIVE MEDICAL ASSISTING – 6 Units
Corequisite: ALH 101
Class Hours: 81 lecture/81 lab total (when taught in the distance education format, hours will total 324)

This course will serve as an introduction to administrative medical assisting. This course is one of two corequisite courses that make up the first semester of the Certificate of Achievement in Medical Assisting. Students will demonstrate the skills required to perform medical office bookkeeping, accounting (accounts receivable and payable), payroll, and banking procedures, computers, telecommunications, patient scheduling, insurance, basic billing and coding, facility management, and medical terminology. Students will also describe various types of medical documents and the basics of Meaningful Use. This course may be offered in a distance education format.

ALH 103 CLINICAL MEDICAL ASSISTING I – 6 Units
Prerequisites: ALH 101 and ALH 102 with a grade of C or higher
Corequisite: ALH 104
Limitation on Enrollment: Students must be enrolled in the Medical Assisting Program.
Class Hours: 81 lecture/81 lab total (when offered in the distance education format, hours will total 324)

In this course students will learn the principles of infection control, medical asepsis, and regulatory guidelines in the medical lab. Also discussed are exams and procedures from the pediatric to geriatric patient, including gender specific exams. Students will learn their role in minor office surgery, diagnostic imaging, rehabilitation, and therapeutic modalities. This course may be offered in a distance education format.

ALH 104 CLINICAL MEDICAL ASSISTING II – 6 Units
Prerequisites: ALH 101 and ALH 102 with a grade of C or higher
Corequisite: ALH 103
Limitation on Enrollment: Students must be enrolled in the medical assisting program.
Class Hours: 81 lecture/81 lab total (when offered in the distance education format, hours will total 324)

In this course students will learn the principles of nutrition, basic pharmacology, drug calculations and administration, introduction to the medical lab, phlebotomy, hematology, urinalysis, basic microbiology, electrocardiography, and specialty lab tests. This course may be offered in a distance education format.

ALH 105A MEDICAL SCRIBE THEORY – 3 Units
Corequisites: ALH 105B, HEOC 11, and HIT 30
Limitation on Enrollment: Students must be enrolled in the Medical Scribe Specialist Program
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course provides the student with an understanding of the role, responsibilities, and duties of the medical scribe in a variety of settings. The course introduces the student to the Patient Privacy Rule and HIPAA, medical-legal risk mitigation, essential elements of documenting in a physician-patient encounter, regulatory compliance, roles and responsibilities of medical personnel, Physician Quality Reporting Systems (PQRS), as well as Centers for Medicare and Medicaid Services (CMS) regulations, medical terminology, pharmacology, health information, quality metrics, billing and coding practices, and professionalism related to medical scribing. This course is designed for students interested in a career in health sciences and will prepare them for an entry-level position as a medical scribe specialist. This course may be offered in a distance education format.

ALH 105B MEDICAL SCRIBE LAB – 1.5 Units
Corequisites: ALH 105A, HEOC 11, and HIT 30
Limitation on Enrollment: Students must be enrolled in the Medical Scribe Specialist Program
Class Hours: 81 lab total (when offered in the distance education format, hours will total 81)

This course is an opportunity to apply information learned in ALH 105A in the laboratory setting. In a simulated environment, students will develop proficiency as medical scribes in preparation for the clinical practicum course. This course may be offered in a distance education format.

ALH 107 ALLIED HEALTH PROFESSIONAL DEVELOPMENT – 0.5 Units
Class Hours: 9 lecture total (when offered in the distance education format, hours will total 27)

This course must be taken concurrently with an allied health program work site learning or practicum class. The purpose of this course is to reconvene as a group during externship in order to discuss experiences and progress. The course will reinforce the importance of networking within the community. Students will continue to develop professionally through resume writing, interview preparedness, development of soft skills, certification review, exploring continuing education opportunities, and developing strategies for professional success, including a discussion on social media in the work place. This course is offered in a distance education format.

ALH 108 PHARMACY TECHNICIAN FUNDamentals – 4 Units
Corequisites: ALH 109A, ALH 109B, and HEOC 11
Limitation on Enrollment: Students must be enrolled in the Pharmacy Technician Program.
Class Hours: 72 lecture total (when offered in the distance education format, hours will total 216)

Pharmacy Technician Fundamentals is an introductory course for the Pharmacy Technician student. Students will be oriented to pharmacy technician basics that include the role of the pharmacy technician, pharmaceutical care, and law and ethics. Medical terminology, abbreviations, and pharmaceuticals for each body system
will be covered as they relate to the pharmacy technician. This course may be offered in a distance education format.

**ALH 109A  GENERAL PHARMACY PRACTICE – 3 Units**

*Corequisites: ALH 108, ALH 109A, and HEOC 11*

*Limitation on Enrollment: Students must be enrolled in the Pharmacy Technician Program.*

*Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)*

General Pharmacy Practice builds upon the previous course to continue the learning experience. Theory will include more advanced topics in pharmacy math, drug calculations, and measurement systems. In addition, students will be introduced to insurance, financial management, documentation, billing, inventory, HIPAA, and pharmacy computer basics. This course may be offered in a distance education format.

**ALH 109B  PHARMACY TECHNICIAN LAB I – 1 Unit**

*Corequisites: ALH 108, ALH 109A, and HEOC 11*

*Limitation on Enrollment: Students must be enrolled in the Pharmacy Technician Program.*

*Class Hours: 54 lab total*

Pharmacy Technician Lab I builds upon the theory course to allow students a hands on experience. In the laboratory setting, students will apply concepts learned in ALH 109A concerning pharmacy math, drug calculations, and measurement systems. In addition, students will practice filling prescriptions, inventory management, and computer basics.

**ALH 110A  ADVANCED PHARMACY PRACTICE – 3 Units**

*Prerequisites: ALH 108, ALH 109A, and ALH 109B with a grade of C or higher*

*Corequisites: ALH 107 and ALH 110B*

*Limitation on Enrollment: Students must be enrolled in the Pharmacy Technician Program.*

*Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)*

Advanced Pharmacy Practice builds upon the previous course to continue the learning experience in specialized pharmacy topics. Students will be oriented to the operations of hospital and community pharmacies. Students will be introduced to additional pharmacy types in various healthcare specialties, as well as compounding techniques. This course may be offered in a distance education format.

**ALH 110B  PHARMACY TECHNICIAN LAB II – 1 Unit**

*Prerequisites: ALH 108, ALH 109A, and ALH 109B with a grade of C or higher*

*Corequisites: ALH 107 and ALH 110A*

*Limitation on Enrollment: Students must be enrolled in the Pharmacy Technician Program.*

*Class Hours: 54 lab total*

Pharmacy Technician Lab II builds upon the theory course to allow students a hands on experience in advanced pharmacy practice. In the laboratory setting, students will apply concepts learned in ALH 110A concerning dosing related specifically to the hospital, community, and specialty pharmacies, including compounding, prescription interpreting and filling, and unit dosing.

**ALH 300  MEDICAL ASSISTING CERTIFICATION EXAM PREP COURSE – 0 Units**

*Grading: Pass/No Pass Only*

*Class Hours: 44 lecture/10 lab total (when offered in the distance education format, hours will total 54)*

This course is designed to allow students the opportunity to refresh information needed to pass certification exams. This noncredit course offers an opportunity for students to have additional focused review that will prepare them for national Medical Assisting certification examinations through National Center for Competency Testing (NCC) or American Association of Medical Assisting (AAMA), or California Medical Assistant certification examination through California Board of Medical Assisting (CCBMA). This course offers injection training to individuals currently working as a Medical Assistant who have not completed an accredited program. This course may be offered in a distance education format.

**AMERICAN SIGN LANGUAGE (ASL)**

Two years of high school foreign language with grades of “C” or better is equivalent to one semester of foreign language at Shasta College.

**ASL 1  AMERICAN SIGN LANGUAGE 1 – 4 Units**

*(formerly SL 90, SPED 93A)*

*Grading: Pass/No Pass Option*

*Corequisite: ASL 1L, or previous completion of ASL 1L with a grade of C or higher*

*Class Hours: 72 lecture total (when offered in the distance education format, hours will total 216)*

This course is designed to introduce students to basic skills in American Sign Language vocabulary, fingerspelling, and grammatical structure. The student will gain the manual skills to engage in basic dialogue and visual cues, and the receptive skills to understand general American Sign Language conversation. Topics include American Sign Language as an independent language, the history of American Sign Language, the Deaf community, and Deaf culture. This course may be offered in a distance education format. *(CSU transferable)*

**ASL 1L  AMERICAN SIGN LANGUAGE 1 SKILL–BUILDING LAB – 1 Unit**

*(formerly SL 91, SPED 95A)*

*Grading: Pass/No Pass Option*

*Corequisite: ASL 1, or previous completion of ASL 1 with a grade of C or higher*

*Class Hours: 54 lab total (when offered in the distance education format, hours will total 54)*

This course is designed to give students a lab environment to practice basic American Sign Language skills. The course will review vocabulary, sentence structure, nonmanual markers and gesturing. In addition, students will gain a solid foundation in basic signing skills, preparing them to advance to American Sign Language 2. The lab environment will provide visual structured activities. The majority of class time will consist of non-verbal interactions. This course may be offered in a distance education format. *(CSU transferable)*

**ASL 2  AMERICAN SIGN LANGUAGE 2 – 4 Units**

*(formerly SL 92, SPED 93B)*

*Grading: Pass/No Pass Option*

*Prerequisite: ASL 1 with a grade of C or higher*

*Corequisite: ASL 2L, or previous completion of ASL 2L with a grade of C or higher*

*Class Hours: 72 lecture total (when offered in the distance education format, hours will total 216)*

This course is a continuation of ASL 1 and is designed to increase vocabulary and fluency in receptive and expressive skills of American Sign Language students. Emphasis is on the structure of American Sign Language including lexical, morphemic and syntactic elements. The student will gain the manual skills to engage in descriptive, complex dialog and stories at a moderate skill level. Topics include American Sign Language contrast and comparisons to other languages, language development and acquisition, and societal topics. This course may be offered in a distance education format. *(CSU/UC transferable)*

**ASL 2L  AMERICAN SIGN LANGUAGE 2 SKILL–BUILDING LAB – 1 Unit**

*(formerly SL 93, SPED 95D)*

*Grading: Pass/No Pass Option*

*Prerequisite: ASL 1L with a grade of C or higher*

*Corequisite: ASL 2, or previous completion of ASL 2 with a grade of C or higher*

*Class Hours: 54 lab total (when offered in the distance education format, hours will total 54)*

This course is designed to give students a lab environment in which to practice new vocabulary and structures learned in ASL 2, and will review vocabulary, sentence structure and visual, non-manual behaviors learned from ASL 2. Students will be involved in structured class assignments in order to utilize signing skills and increase fluency to a moderate rate in preparation for success in ASL 3. This course may be offered in a distance education format. *(CSU transferable)*

**ASL 3  AMERICAN SIGN LANGUAGE 3 – 4 Units**

*(formerly SL 94, SPED 93C)*

*Grading: Pass/No Pass Option*

*Prerequisite: ASL 2L with a grade of C or higher*

*Class Hours: 54 lecture/54 lab total (when offered in the distance education format, hours will total 216)*

This course is intended for students who plan to use American Sign Language in their daily lives. Success in this course will enable students to communicate with Deaf and Hard-of-Hearing individuals through sign language at an average rate of speed and build confidence in their use
of the language. Students will study basic qualities and skills needed to interpret including topics such as the interpreting process, an overview of the NAD-RDI Code of Professional Conduct, expectations, and simultaneous interpreting practice. Exposure to Deaf culture through class discussions and guest lecturers will be incorporated. This course may be offered in a distance education format. (CSU/UC transferable)

**ASL 4 AMERICAN SIGN LANGUAGE 4 – 4 Units**
(formerly SL 96)
Grading: Pass/No Pass Option
Prerequisite: ASL 3 with a grade of C or higher
Class Hours: 54 lecture/54 lab total (when offered in the distance education format, hours will total 216)

This course is intended for students who plan to use American Sign Language (ASL) in their daily lives. Success in this course will enable students to communicate with Deaf and Hard of Hearing individuals through ASL at an average rate of speed and build confidence in their use of the language, storytelling ability and presentation. Students will study qualities and skills needed to become interpreters. Students will be exposed to a variety of members and activities in the Deaf community. This course may be offered in a distance education format. (CSU/UC transferable)

**ASL 5 AMERICAN SIGN LANGUAGE 5: GRAMMAR – 4 Units**
(formerly SL 7)
Prerequisite: ASL 4 with a grade of C or higher
Class Hours: 72 lecture total (when offered in the distance education format, hours will total 216)

This course focuses on American Sign Language grammar and communication skills. ASL stories and literature are employed to give students the opportunity to learn and practice the rules of Deaf culture and the grammar of ASL. English grammar will be analyzed and the differences between the two languages discussed. This course may be offered in a distance education format. (CSU/UC transferable)

**ASL 81 EDUCATIONAL WORLD OF THE DEAF – 3 Units**
(formerly SL 81)
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course focuses on the education of the deaf population from ancient times to the present. It addresses the cultural, physical and psychological effects on the way deaf people learn. Topics such as family relationships, cognitive development, and language acquisition are addressed. This course may be offered in a distance education format. (CSU/UC transferable)

**ASL 94 ASL WORKSITE LEARNING – 1-8 Units**

Limitation on Enrollment: Financial aid students must maintain concurrent enrollment in seven (7) units which include worksite learning units. Students not receiving financial aid do not need to enroll in other courses in order to participate in Worksite Learning Classes.
Class Hours: 75 hours paid or 60 hours non-paid per unit

The ASL Work Site Learning course allows the student to gain on-the-job experience through employment/volunteerism at an approved job site that is acquired by the student. An ASL faculty member supervises the WSL course to ensure that the work experience is of educational value. The course stresses good work habits and meeting of SCANS competencies through actual on the job performance. A student may earn up to 6 units through repeating this course since course content varies and skills are enhanced by supervised repetition and practice. A maximum of 6 units may be earned in a single semester. (CSU transferable)

**ANATOMY (ANAT)**

**ANAT 1 HUMAN ANATOMY – 5 Units**
Advisory: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher; and BIOL 5 and BIOL 6 with a grade of C or higher.
Note: May be taken concurrently with PHY 1
Class Hours: 72 lecture/54 lab total
C-ID: BIOL 110 B

This course offers a systematic hands-on approach to the anatomy of the human body. It covers the structural organization of the human body: gross and microscopic anatomy of the integumentary, skeletal, muscular, nervous, endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary, and reproductive systems, from cellular to organ system levels of organization. Human cadaver dissections and/or mammalian dissections are used in conjunction with models and new technology. This course is intended for nursing, kinesiology, physical therapy, radiologic technology, respiratory therapy, dental hygiene, surgical technology, physical therapy, and other allied health related majors. It may be taken concurrently with Physiology 1. (CSU/UC transferable)

**ANTHROPOLOGY (ANTH)**

**ANTH 1 PHYSICAL ANTHROPOLOGY – 3 Units**
Grading: Pass/No Pass Option
Advisory: ENGL 196 with a grade of C or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course introduces students to human evolutionary biology. It includes an introduction to the history of evolutionary thought; basic human genetics and molecular biology; human variation and adaptation; evolutionary influences on behavior; the anatomy, ecology, and behavior of the nonhuman primates; and the evolution of our lineage as reflected in the hominid fossil record. This course may be offered in a distance education format. (CSU/UC transferable)

**ANTH 2 CULTURAL ANTHROPOLOGY – 3 Units**
Grading: Pass/No Pass Option
Advisory: ENGL 1A with a grade of C or higher, or English Placement Level 7
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: ANTH 120

This introductory course explores how anthropologists study and compare human culture. Cultural anthropology presents fundamental concepts, data, methods, and theories employed by cultural anthropologists as they seek to understand the full range of human experience. Topics include how people around the world make their living (subsistence patterns); how they organize themselves socially, politically and economically; how they communicate; how they relate to each other through family and kinship ties; what they believe about the world (belief systems); how they express themselves creatively (expressive culture); how they make distinctions among themselves such as through applying gender, racial and ethnic identity labels; how they have shaped and been shaped by social inequalities such as colonialism; and how they navigate culture change and processes of globalization that affect us all. Ethnographic case studies highlight these similarities and differences and introduce students to how anthropologists do their work, employ professional anthropological research ethics, and apply their perspectives and skills to understand humans around the globe. This course may be offered in a distance education format. (CSU/UC transferable)

**ANTH 14 RELIGION, MYTH AND RITUAL – 3 Units**
Grading: Pass/No Pass Option
Advisory: ENGL 1A with a grade of C or higher, or English Placement level 7 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course is a cross-cultural study of the forms and functions of religion, myth, and ritual in contemporary and historical societies. Emphasis will be on non-Western traditional groups and understanding their religious beliefs in a culturally relative context. This course may be offered in a distance education format. (CSU/UC transferable)

**ANTH 25 CULTURE AND HISTORY OF THE NORTH AMERICAN INDIAN – 3 Units**
Grading: Pass/No Pass Option
Advisory: ENGL 1A with a grade of C or higher, or English Placement Level 7 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course provides an introduction to North American Indian cultures. It surveys the histories of North American Indian cultures from their first arrival to today, and examines the historical-cultural experiences that have contributed to their present day conditions, focusing on the effects of Indian-European contact on both the Native and Euroamerican cultures. Additionally, specific North American native nations are examined in-depth. This course may be offered in a distance education format. (CSU/UC transferable)
Chapter 4: Courses

ARCHEOLOGY (ARCH)

ARCH 3 PRINCIPLES OF ARCHAEOLOGY – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: ANTH 150
This is an introductory course in the study of world prehistory and historical archaeology through the analysis of archaeological methods, theories, and regional developments. The course includes case study examinations of the fundamental concepts of archaeology and the changing theoretical orientations of archaeology in the contemporary world. This course may be offered in a distance education format. (CSU/UC transferable)

ARCH 4A BEGINNING FIELD ARCHAEOLOGY – 3 Units
(formerly ARCH 4, 4AD)
Grading: Pass/No Pass Option
Class Hours: 18 lecture/108 lab total
An introductory course in the practical application of archaeological principles and methods. Students will become familiar with the basic techniques of scientific archaeological excavation and site survey, mapping, photographing, data recording, cataloging and preservation of archaeological specimens. (CSU transferable)

ARCH 4B INTERMEDIATE FIELD ARCHAEOLOGY – 3 Units
Grading: Pass/No Pass Option
Prerequisite: ARCH 4A with a grade of C or higher
Class Hours: 18 lecture/108 lab total
An intermediate course in the practical application of archaeological principles and methods that continues to build on the beginning course. Students will begin to take part in the development and organization of scientific archaeological excavation projects. Students will learn additional excavation techniques, and learn to supervise field crews. Students will learn how to develop new strategies for site reconnaissance and recording. Students will evaluate field records, and coordinate field catalogues. (CSU transferable)

ARCH 4C ADVANCED INTERMEDIATE FIELD ARCHAEOLOGY – 3 Units
Grading: Pass/No Pass Option
Prerequisite: ARCH 4B with a grade of C or higher
Class Hours: 18 lecture/108 lab total
An advanced intermediate course in the practical application of archaeological principles and methods. Students learn advanced excavation, site mapping and recording techniques. Students learn to map using a total station. Students are trained in soil sampling, and flotation techniques. (CSU transferable)

ARCH 4D ADVANCED FIELD ARCHAEOLOGY – 3 Units
Grading: Pass/No Pass Option
Prerequisite: ARCH 4C with a grade of C or higher
Class Hours: 18 lecture/108 lab total
An advanced course in the practical application of archaeological principles and methods. Students will serve as assistant field director to the principal investigator in an archaeological field project. Students will gain practical experience supervising all activities in the laboratory including the cleaning, cataloging, drawing, and analysis of artifacts recovered from local archaeological sites. Students will also complete a series of analyses that conform to professional archaeological standards. (CSU transferable)

ARCH 5A BEGINNING ARCHAEOLOGY LABORATORY – 2 Units
(formerly ARCH 5, ARCH 5AD)
Class Hours: 108 lab total
This is an intermediate course in the practical application of archaeological laboratory methods. Students will learn beginning analyses of floral, faunal, and lithic materials collected during excavation of local sites. Students will learn artifact replication and conduct some experiments with artifact replicas. (CSU transferable)

ARCH 5C ADVANCED INTERMEDIATE ARCHAEOLOGY LABORATORY – 2 Units
Grading: Pass/No Pass Option
Prerequisite: ARCH 5B with a grade of C or higher
Class Hours: 108 lab total
An advanced intermediate course in the application of archaeological laboratory methods. Students will formulate and carry out analyses of different archaeological materials using methods learned in earlier courses. Students will clean, catalogue, draw, and analyze artifacts recovered from local archaeological sites. Students will learn mapping applications that can be used to create spatial distribution maps of artifacts within archaeological sites. (CSU transferable)

ARCH 5D ADVANCED ARCHAEOLOGY LABORATORY – 2 Units
Grading: Pass/No Pass Option
Prerequisite: ARCH 5C with a grade of C or higher
Class Hours: 108 lab total
An advanced course in the practical application of archaeological laboratory methods. Students will carry out multiple assignments as laboratory assistant to the principal investigator in an archaeological field project. Students will gain practical experience supervising all activities in the laboratory including the cleaning, cataloging, drawing, and analysis of artifacts recovered from local archaeological sites. Students will also complete a series of analyses that conform to professional archaeological standards. (CSU transferable)

ART (ART)

ART 1 INTRODUCTION TO ART – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: ARTH 100
This course provides a general introduction to art that offers a look at works of art through the study of theory, terminology, themes, design principles, media, and techniques, with an introduction to the visual arts across time and diverse cultures. This course is recommended as a Humanities elective. This course may be offered in a distance education format. (CSU/UC transferable)

ART 2 HISTORY OF WESTERN ART THROUGH THE GOTHIC PERIOD – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: ARTH 110
A historical survey course of the visual arts including architecture, crafts, engraving, etching, graphics, painting, sculpture, and woodcuts. Historical periods covered are Stone Age, Egyptian, Mesopotamian, Aegean, Greek, Etruscan, Roman, Byzantine, Christian, Medieval, Romanesque, and Gothic. (30,000 B.C. - 1400 A.D.) This course may be offered in a distance education format. (CSU/UC transferable)

ART 3 WESTERN ART, RENAISSANCE TO CONTEMPORARY – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: ARTH 120
A historical survey course of the visual arts from the Renaissance through the contemporary periods in history, with emphasis on painting, sculpture and architecture. This course may be offered in a distance education format. (CSU/UC transferable)

ART 4 WORLD ART – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
A survey of the visual arts of ethnic and indigenous cultures with an emphasis on both historic and contemporary art. Explored are the Americas, Africa, and the Pacific Islands. Lectures are focused on the styles, motifs, symbols, rituals and traditions of the cultures by examining
their crafts, drawings, sculpture, printmaking and paintings. This course is designed as a Humanities elective, recommended for Art Core Programs, and required for the Art History Concentration. This course may be offered in a distance education format. (CSU/UC transferable)

ART 6 HISTORY OF MODERN ART – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: ARTH 150
This course provides an overview of art and architecture from the Western modern period of the 19th and 20th centuries. This course may be offered in a distance education format. (CSU/UC transferable)

ART 12 BEGINNING FORM, DESIGN AND COLOR – 3 Units
(formerly ART 14A)
Grading: Pass/No Pass Option
Class Hours: 27 lecture/81 lab total
C-ID: ARTS 100
This is a fundamental course in two-dimensional design and color theory with the study of basic design elements as they apply to form. Two-dimensional design includes balance, directional movements, structural analysis, texture, and unity. Color theory includes color schemes, psychological use of color, and value and intensity concepts. This course is required for the Art Core Program, and recommended for theatre, architecture, and graphic design studies. (CSU/UC transferable)

ART 13 INTERMEDIATE FORM, DESIGN AND COLOR – 3 Units
(formerly ART 14B)
Grading: Pass/No Pass Option
Prerequisite: ART 12 with a grade of C or higher
Class Hours: 27 lecture/81 lab total
An interpretative course using two-dimensional form concepts and color theory with the application to three-dimensional form. The development of personal ideas and direction, the use of scale, surface effects, and new materials (synthetics). More concern is given to presentation, focus and consistency. (CSU/UC transferable)

ART 15 THREE DIMENSIONAL DESIGN – 3 Units
(formerly ART 15AB)
Note: Field trips may be required
Class Hours: 27 lecture/81 lab total
C-ID: ARTS 101
This course introduces the concepts, applications, and historical references related to three-dimensional design and spatial composition, including the study of the elements and organizing principles of design as they apply to three-dimensional space and form. The course trains students in the development of a visual vocabulary for creative expression through lecture presentations and use of appropriate materials for non-representational three-dimensional studio projects. (CSU/UC transferable)

ART 16 PENCIL RENDERING – 2 Units (formerly ART 16AB)
Class Hours: 18 lecture/54 lab total
A fundamental course to prepare pictorial presentations applicable to advertising, architectural and industrial design, landscapes and illustrations using mechanical perspective and rendering media. (CSU/UC transferable)

ART 17 SHADES, SHADOWS, AND PERSPECTIVES - 3 Units
(formerly ART 17AD)
Grading: Pass/No Pass Option
Class Hours: 27 lecture/81 lab total
A basic course in the use of various perspective techniques, using one and two point as well as grids. This course is designed for Art, Architecture, Graphic Design and Landscape Architecture students. It involves developing three-dimensional drawings of building structures, objects, etc., using perspective techniques and adding value rendering as well as shadows to create finished works. (CSU/UC transferable)

ART 21A BEGINNING FREEHAND DRAWING – 3 Units
Grading: Pass/No Pass Option
Class Hours: 27 lecture/81 lab total
C-ID: ARTS 110
Introduction to principles, elements, and practices of drawing, employing a wide range of subject matter and drawing media. Focus is on perceptually based drawing, observational skills, technical abilities, and creative responses to materials and subject matter. (CSU/UC transferable)

ART 21B INTERMEDIATE FREEHAND DRAWING – 3 Units
Grading: Pass/No Pass Option
Prerequisite: ART 21A with a grade of C or higher
Class Hours: 27 lecture/81 lab total
C-ID: ARTS 205
Exploration of artistic concepts, styles, and creative expression related to intermediate-level drawing, focusing on complex subject matter and concepts using a variety of drawing mediums, techniques, and methodologies. Students in this course will build on fundamental drawing skills to develop personalized approaches to content and materials in exercises covering multiple historical and contemporary approaches to drawing. (CSU/UC transferable)

ART 23 PEN, BRUSH AND INK – 2 Units (formerly ART 23AB)
Class Hours: 18 lecture/54 lab total
Exploring 2D possibilities with a variety of pens, brushes, inks, and papers. Exercises are based in observation and imagination, with supporting foundational drawing practice. Exposure to artists using this medium, and to links between illustration and fine arts. (CSU/UC transferable)

ART 26A BEGINNING WATERCOLOR – 3 Units
(formerly ART 26, 26AB)
Grading: Pass/No Pass Option
Class Hours: 27 lecture/81 lab total
An introductory course in watercolor painting methods as they apply to the visual arts. Methods covered include wet wash, wash, stroke and glaze overlays, with emphasis on creative interpretation and expression. (CSU/UC transferable)

ART 26B INTERMEDIATE WATERCOLOR – 3 Units
(formerly ART 27, 26CD)
Grading: Pass/No Pass Option
Prerequisite: ART 26A with a grade of C or higher
Class Hours: 27 lecture/81 lab total
An intermediate course in watercolor painting with an emphasis on expansion of watercolor techniques as well as conceptual and technical development. Students will investigate non-traditional materials, explore methods of paint application (including subtractive and stencil methods) and further their artistic understanding and development through the consideration of contemporary trends in watercolor. (CSU/UC transferable)

ART 26C ADVANCED INTERMEDIATE WATERCOLOR – 3 Units
Grading: Pass/No Pass Option
Prerequisite: ART 26B with a grade of C or higher
Class Hours: 27 lecture/81 lab total
A course designed to expand upon the information and techniques learned in Intermediate Watercolor Painting. General attention will be given to personal idea development, consistency, presentation techniques and working with more independence. The student will be expected to increase the quality and number of paintings completed during the semester. The student will also learn to develop a professional portfolio and to communicate professionally. (CSU/UC transferable)

ART 26D ADVANCED WATERCOLOR – 3 Units
Grading: Pass/No Pass Option
Prerequisite: ART 26C with a grade of C or higher
Class Hours: 27 lecture/81 lab total
An advanced course in Watercolor. Students will explore ink painting, non-brush techniques, watercolor transfer as well as illustration techniques. Students will develop a portfolio which incorporates a variety of compositional schemes in expressive and non-objective imagery. (CSU/UC transferable)

ART 29A BEGINNING PAINTING – 3 Units
(formerly ART 29, 25AB)
Grading: Pass/No Pass Option
Class Hours: 27 lecture/81 lab total
C-ID: ARTS 210
Introduction to principles, elements, and practices of painting. Focus on exploration of painting materials, perceptual skills and color theory, paint mixing and technique, as well as creative responses to materials and subject matter. (CSU/UC transferable)
### Chapter 4: Courses

**ART 29B  INTERMEDIATE PAINTING – 3 Units**  
(formerly ART 30, 25CD)  
**Prerequisite:** ART 29A with a grade of C or higher  
**Class Hours:** 27 lecture/81 lab total  
This intermediate course in oil or polymer painting is designed to broaden, through guided experimentation, the student’s knowledge of opaque media and techniques. Students are expected to complete three paintings: a non-objective work, a realist work, and a “Free” painting (student’s choice). (CSU/UC transferable)

**ART 29C  ADVANCED INTERMEDIATE PAINTING – 3 Units**  
**Prerequisite:** ART 29B with a grade of C or higher  
**Class Hours:** 27 lecture/81 lab total  
A course designed to expand upon the information and techniques learned in Intermediate Painting. Attention will be given to personal idea development, consistency, presentation techniques, and working with more independence. The student will be expected to increase quality and number of paintings completed during the semester. The student will also learn to develop a professional portfolio and communicate professionally. (CSU/UC transferable)

**ART 29D  ADVANCED PAINTING – 3 Units**  
**Prerequisite:** ART 29C with a grade of C or higher  
**Class Hours:** 27 lecture/81 lab total  
Advanced students will narrow the scope of techniques addressed in Art 29C to focus on the creation of a series of images which effectively express selected experiences. Artists will create a portfolio for use in the Annual Student Art Competition. These directed works will result from ongoing class discussions of projects, instructor presented slide lectures, films, and technical critiques. Students will investigate preservation and cataloguing techniques. (CSU transferable)

**ART 31A  BEGINNING FIGURE DRAWING – 3 Units**  
(formerly ART 31, 22AB)  
**Class Hours:** 27 lecture/81 lab total  
**C-ID:** ARTS 200  
This is an introductory course in creative drawing of the nude human figure using a wide variety of techniques. Emphasis will be placed on anatomy, proportion, composition, and development of personal expression. Topics include an examination of the historical and contemporary roles of figure drawing in the visual arts. Students in this course will learn both descriptive and interpretive approaches to figure drawing. (CSU/UC transferable)

**ART 31B  INTERMEDIATE FIGURE DRAWING – 3 Units**  
(formerly ART 32, 22CD)  
**Prerequisite:** A grade of C or higher in ART 31A  
**Class Hours:** 27 lecture/81 lab total  
An intermediate visual arts course in the study of the nude human figure. Through the use of a variety of media, students will expand their skills in drawing from observation as well as interpret the figure through a variety of approaches. (CSU/UC transferable)

**ART 31C  ADVANCED INTERMEDIATE FIGURE DRAWING – 3 Units**  
**Prerequisite:** ART 31B with a grade of C or higher  
**Class Hours:** 27 lecture/81 lab total  
A developmental course designed to expand on information and techniques learned in Intermediate Figure Drawing. Attention will be given to a more personal interpretation of the figure, technique, consistency, presentation, and the execution and resolution of ideas with greater independence. The student will produce and critically discuss increasingly sophisticated works, which will become part of his/her professional portfolio. (CSU/UC transferable)

**ART 31D  ADVANCED FIGURE DRAWING – 3 Units**  
**Prerequisite:** ART 31C with a grade of C or higher  
**Class Hours:** 27 lecture/81 lab total  
Advanced Figure Drawing students will work toward an expanded knowledge of (and ability with) materials employed in Advanced Intermediate Figure Drawing. Through this exploration, students will define a clearer personal direction and emerge with enhanced critical skills. (CSU/UC transferable)

**ART 35A  BEGINNING CERAMICS – 3 Units**  
(formerly ART 35, 35AB)  
**Grading:** Pass/No Pass Option  
**Note:** Field trips may be required  
**Class Hours:** 27 lecture/81 lab total  
Introduction to ceramics materials, concepts, and processes, including basic design principles, creative development, hand-building, throwing, glaze techniques, firing, and ceramic terminology. The course covers aesthetics and creative development of clay objects examining historical, contemporary, and personal modes of expression across cultures. (CSU/UC transferable)

**ART 35B  INTERMEDIATE CERAMICS – 3 Units**  
(formerly ART 36, 35CD)  
**Grading:** Pass/No Pass Option  
**Prerequisite:** ART 35A with a grade of C or higher  
**Note:** Field trips may be required  
**Class Hours:** 27 lecture/81 lab total  
An intermediate course developing skills in the use of the potter’s wheel. The course includes hand-building, throwing, plaster molding, glazing, surface decoration and firing of ceramic forms. (CSU/UC transferable)

**ART 37  SCULPTURAL CERAMICS – 3 Units**  
**Grading:** Pass/No Pass Option  
**Advanced:** ART 35A or ART 35B with a grade of C or higher  
**Note:** Field trips may be required  
**Class Hours:** 27 lecture/81 lab total  
This is a ceramics course emphasizing studio problems which involve the potter’s wheel, construction of molds and hand-building techniques. Use of the potter’s wheel will go beyond basic functional forms and will be used to create sculpture. Molds and hand-building techniques will also emphasize sculptural works in clay. (CSU/UC transferable)

**ART 45  BEGINNING GLASS – 3 Units**  
(formerly ART 45AB)  
**Grading:** Pass/No Pass Option  
**Note:** Field trips may be required  
**Class Hours:** 27 lecture/81 lab total  
This class is a hands-on course to explore the beginning aspects of the art of working with glass in its molten and frozen states. Students will develop an understanding of the wide range of possibilities that exist when working with glass. Through demonstrations and practice in the hot shop, students will acquaint themselves with the tools and materials needed to create forms in glass. Students will begin a hands-on involvement with molten glass working, ladle sand casting, kiln casting, and other glass processes. Working with clear glass, students will develop basic glass blowing skills by learning how to form simple blown shapes such as the sphere, cylinder, disk, and various vessel forms. Individual student skills will be emphasized. Open to students in all disciplines; no prior glassblowing experience necessary. (CSU/UC transferable)

**ART 46  GLASS BLOWING – 3 Units**  
(formerly ART 45CD)  
**Grading:** Pass/No Pass Option  
**Prerequisite:** ART 45 or ART 57 with a grade of C or higher  
**Note:** Field trips may be required  
**Class Hours:** 27 lecture/81 lab total  
This course focuses on skills progression in working with glass in the molten state. Emphasis is placed upon individualized projects for students. Students will work with studio equipment related to recycling, melting, firing, and annealing of glass. (CSU/UC transferable)

**ART 50A  BEGINNING PRINTMAKING – 3 Units**  
(formerly ART 50, 50AD)  
**Grading:** Pass/No Pass Option  
**Class Hours:** 27 lecture/81 lab total  
An introductory course surveying the four main printmaking processes as they apply to the visual arts. Studio experience during the semester will focus on black and white printing techniques, including relief, intaglio, stencil (serigraph), and planographic (monotype or lithography). Emphasis will be placed on the use of printmaking processes as an expressive art form through lecture, demonstration, and class critiques. (CSU/UC transferable)

**ART 50B  INTERMEDIATE PRINTMAKING – 3 Units**  
**Grading:** Pass/No Pass Option  
**Prerequisite:** ART 50A with a grade of C or higher  
**Class Hours:** 27 lecture/81 lab total  
An intermediate course focusing on color intaglio techniques, including multi-plate and à la poupee processes. Emphasis will be placed on the use of printmaking processes as an expressive art form through lecture,
demonstration, and class critiques. Students will produce four editions of prints within the color intaglio techniques. *(CSU/UC transferable)*

**ART 50C  ADVANCED PRINTMAKING – 3 Units**
*Grading: Pass/No Pass Option*
*Prerequisite: ART 50B with a grade of C or higher*

An advanced course focusing on color relief print processes (i.e. multi-plate, à la poupare, and rainbow printing). Advanced students will clearly express their personal aesthetic through the production of four editions of prints within the color relief processes. Emphasis will be placed on the use of color relief printing as an expressive art form through lecture, demonstration, and class critiques. *(CSU/UC transferable)*

**ART 55A  BEGINNING SCULPTURE – 3 Units**
*(formerly ART 55, 55AB)*
*Advisory: ART 15 with a grade of C or higher*
*Note: Field trips may be required*
*Class Hours: 27 lecture/81 lab total*

This course provides an introduction to three-dimensional sculptural principles, techniques, and concepts utilizing a wide range of materials and practices. Various sculpture methods are practiced with attention to creative self-expression and historical context. *(CSU/UC transferable)*

**ART 55B  INTERMEDIATE SCULPTURE – 3 Units**
*(formerly ART 56, 55CD)*
*Prerequisite: ART 55A with a grade of C or higher*
*Note: Field trips may be required*
*Class Hours: 27 lecture/81 lab total*

An intermediate level course in the sculpting of clay, wood, metal, plaster, and other materials. Creative application of these media are used in abstract and representational forms. *(CSU/UC transferable)*

**ART 55C  ADVANCED SCULPTURE – 3 Units**
*Prerequisite: ART 55B with a grade of C or higher*
*Note: Field trips may be required*
*Class Hours: 27 lecture/81 lab total*

This course expands upon the information and techniques gained from ART 55B. Attention will be given to personal idea development and concepts, consistency, presentation, techniques and working independently. Students will be expected to develop a style and conceptual approach which will be reflected in the sculpture produced during the semester. Students will develop a professional portfolio and learn to communicate professionally. *(CSU/UC transferable)*

**ART 57  SCULPTURAL GLASS – 3 Units**
*Advisory: ART 45 or ART 55 with a grade of C or higher*
*Note: Field trips may be required*
*Class Hours: 27 lecture/81 lab total*

This is a structured intermediate sculpture course in which students will develop an understanding of the potential of the medium of glass in its molten and frozen states. Students will begin a hands-on involvement with molten glass working, ladle sand casting, kiln casting and other glass processes. Regular demonstrations, presentations and in-class projects as well as individual assignments will establish a fundamental knowledge and physical understanding of glass as a medium for sculpture. *(CSU/UC transferable)*

**ART 70A  BEGINNING DIGITAL PHOTOGRAPHY – 3 Units**
*(formerly ART 70)*
*Grading: Pass/No Pass Option*
*Note: This is a digital imaging class. Students must provide an 8 megapixel (or larger) digital camera with manual aperture and shutter speed controls*
*Class Hours: 27 lecture/81 lab total*

An introductory digital course presenting the origins and history of photography, camera and lens familiarization, exposure, metering, printing procedures, print presentation, composition, and standards of quality. Emphasis is placed on print quality along with content, composition, and personal expression. The course concentrates on expressive and aesthetic aspects of photography in fine art. *(CSU/UC transferable)*

**ART 70B  INTERMEDIATE DIGITAL PHOTOGRAPHY – 3 Units**
*(formerly ART 71)*
*Grading: Pass/No Pass Option*
*Prerequisite: ART 70A with a grade of C or higher*

This course builds on the techniques covered in ART 70B. This course provides instruction in the advanced theories, vocabularies and techniques of digital photography with emphasis on artistic expression and use of current technologies. *(CSU/UC transferable)*

**ART 70C  ADVANCED INTERMEDIATE DIGITAL PHOTOGRAPHY – 3 Units**
*Grading: Pass/No Pass Option*
*Prerequisite: ART 70B with a grade of C or higher*
*Note: This is a digital imaging class. Students must provide an 8 megapixel (or larger) digital camera with manual aperture and shutter speed controls*
*Class Hours: 27 lecture/81 lab total*

This course builds on the techniques covered in ART 70C. This course provides continued exploration in the advanced theories, vocabularies and techniques of digital photography. Emphasis will be on current issues in photography, contemporary photographers and portfolio development along with the basic theories of illumination and the utilization of a variety of light sources. *(CSU/UC transferable)*

**ART 72  INTRODUCTION TO DIGITAL ART – 3 Units**
*Grading: Pass/No Pass Option*
*Note: Students should have a basic understanding of computers before enrolling in the class. Prior experience with Photoshop, Illustrator or InDesign is not necessary.*
*Class Hours: 27 lecture/81 lab total (when offered in the distance education format, hours total 162)*

An introduction to the concepts and methods of digital art and design, this course is designed to introduce students to image editing, digital painting and drawing, animation, graphic rendering and file output for print, web, or multimedia using current software. This course may be offered in a distance education format. *(CSU transferable)*

**ART 80A  GRAPHIC DESIGN – 3 Units**
*Grading: Pass/No Pass Option*
*Advisory: ART 12 with a grade of C or higher*
*Note: It would be helpful if the student has basic skills in Adobe Photoshop.*
*Class Hours: 27 lecture/81 lab total (when offered in the distance education format, hours total 162)*

The course provides the student with an introduction to the theories and applications behind typography, color theory, layout, and composition. The student will learn and use industry standard image editing and page layout software to produce class assignments typically encountered in the graphic design and printing industries. This course may be offered in a distance education format. *(CSU transferable)*

**ART 80B  INTERMEDIATE GRAPHIC DESIGN – 3 Units**
*Grading: Pass/No Pass Option*
*Prerequisite: ART 80A with a grade of C or higher*
*Class Hours: 27 lecture/81 lab total (when offered in the distance education format, hours total 162)*

This course builds on the software training and design concepts from 80A to teach the student more advanced image editing, document composition, and digital illustration techniques using industry standard software and accepted design practices and advanced theories and principles. This course may be offered in a distance education format. *(CSU transferable)*
ART 101 MIXED MEDIA: WORKS ON PAPER – 2 Units
Grading: Pass/No Pass Option
Class Hours: 18 lecture/54 lab total
This course selectively and aesthetically combines various media and techniques of drawing, painting, photo, printing and collage into two-dimensional works. Underlying the instruction is a historical component which emphasizes modern and contemporary art to broaden the students' interest and awareness of contemporary trends.

ART 121 ILLUSTRATION (formerly ART 121W) – 2 Units
Grading: Pass/No Pass Option
Class Hours: 18 lecture/54 lab total
Designed to develop a personal approach to the problems of pictorial elucidation and provides an understanding of the use of visual media to illustrate verbal content. It develops a knowledge of the more common graphic media and of design elements in relationship to illustration.

ART 122 PORTRAIT PAINTING – 2 Units (formerly ART 125W)
Grading: Pass/No Pass Option
Class Hours: 18 lecture/54 lab total
A basic course in the materials, tools, composition, proportion, lighting, shadow patterns, anatomy, value, color, line, and study of other masters in portrait painting.

ART 123 LANDSCAPE PAINTING – 2 Units (formerly ART 125X)
Grading: Pass/No Pass Option
Class Hours: 18 lecture/54 lab total
A basic course to introduce the techniques of landscape painting, specifically the areas of pictorial materials, space, simple perspective, composition, value, color, scale, texture, line, and the study of other landscape painters.

ART 126 NATURE IN WATERCOLOR – 2 Units
(formerly ART 126X)
Grading: Pass/No Pass Option
Class Hours: 18 lecture/54 lab total
An extensive course in different watercolor methods, such as: wet wash, stroke, and glaze overlays, with emphasis on creative interpretation of subjects in nature.

ART 301 BEGINNING, INTERMEDIATE AND ADVANCED DRAWING & PAINTING-MIXED MEDIA – 0 Units
Class Hours: 25 lecture/29 lab total
An introductory, intermediate, and advanced course incorporating basic drawing techniques using a variety of pencils and covering composition, color mixing, brush strokes, watercolor, acrylic, oil and pastels, the course is designed to provide stimulation and growth for individual adults through art activities.

ASTR 1 ASTRONOMY: THE SOLAR SYSTEM – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course is a survey course designed to introduce the science of astronomy with an emphasis on the solar system. This course covers aspects of archaeoastronomy, telescope optics, prominent scientists, the sun, planets and their moons, asteroids, comets, solar system exploration, and extrasolar planets. This course may be offered in a distance education format. (CSU/UC transferable)

ASTR 2 STELLAR ASTRONOMY – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course is a survey course designed to introduce the science of astronomy concentrating on celestial bodies and phenomena beyond the solar system. This course covers aspects of the history of astronomy, light, telescopes, prominent scientists, the sun, stars, stellar evolution, galaxies, cosmology, gravity wave astronomy, and the possibility of other life forms in the Universe. This course may be offered in a distance education format. (CSU/UC transferable)

ASTR 2H STELLAR ASTRONOMY – HONORS – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course is an enriched study of Stellar Astronomy for honors students. Stellar Astronomy is a survey course designed to introduce the science of astronomy concentrating on celestial bodies and phenomena beyond the solar system. This course covers aspects of the history of astronomy, light, telescopes, prominent scientists, the sun, stars, stellar evolution, galaxies, cosmology, and the possibility of other life forms in the Universe. Students may not receive credit for both ASTR 2 and ASTR 2H. This course may be offered in a distance education format. (CSU/UC transferable)

AUTOMOTIVE TECHNOLOGY (AUTO)

NOTE: STUDENTS MUST PROVIDE THEIR OWN HAND TOOLS FOR TECHNICAL CLASSES IN THE DIESEL TECHNOLOGY AND AUTOMOTIVE TECHNOLOGY MAJORS IN ORDER TO COMPLETE REQUIRED COURSE OBJECTIVES.

AUTO 1 VEHICLE ELECTRICAL SYSTEMS – 3 Units
Grading: Pass/No Pass Option
Class Hours: 27 lecture/81 lab total (when offered in the distance education format, hours will total 162)
This course is designed to cover the basic theory of electricity and magnetism, as well as areas of operation, testing, and service of vehicle batteries, switches, relays, starters and starting systems, alternators, regulators, charging systems, and light circuits. The course includes electrical theory, repair procedures, and ASE laboratory tasks. This course, along with AUTO 11, is designed to prepare students to become ASE certified in area A-6 and is required for Automotive majors with emphasis on electrical systems. This course may be offered in a distance education format. (CSU transferable)

AUTO 11 INTRODUCTION TO HYBRID AND ELECTRIC VEHICLE TECHNOLOGY – 3 Units
Corequisite: AUTO 1, DIES 160, or INDE 37, or previous completion of AUTO 1, DIES 160, or INDE 37 with a grade of C or higher, or current automotive service excellence (ASE) A6 credentials
Class Hours: 27 lecture/81 lab total (when offered in the distance education format, hours will total 162)
This course explores the use of Hybrid and Electric vehicle power for vehicle transportation. Topics will include safety when using high voltage, maintenance, driveability, inverter, DC/DC power transfer, and battery technology. Physics of battery storage, hybrid generation systems, electric vehicle applications and their integrated systems from many manufacturers will be discussed. Hybrid and high voltage maintenance procedures will be covered. This course could be a preparation for the student to successfully complete the L3 ASE certification exam. The Light Duty Hybrid/Electric Vehicle Specialist (L3) is a new, advanced level certification geared toward technicians who perform diagnoses and repairs on hybrid/electric vehicles. Students are advised that the Automotive Electrical/Electronic Systems (A6) and Engine Performance (A8) certifications are required to register for the (L3) ASE certification exam. This course may be offered in a distance education format. (CSU transferable)

AUTO 20 ENGINE PERFORMANCE – 4 Units
Class Hours: 36 lecture/108 lab total (when offered in the distance education format, hours will total 216)
This course is designed to give students the understanding of the operation of automotive engines and related systems such as electrical, ignition and fuel delivery. The course will also provide students with entry-level skills to diagnose, service and repair these systems using current industry tools and equipment. This course includes ASE laboratory tasks and is designed to prepare students to become ASE certified in area A-8. This course may be offered in a distance education format. (CSU transferable)

AUTO 21 ADVANCED ENGINE PERFORMANCE – 3 Units
Grading: Pass/No Pass Option
Corequisite: AUTO 20, or previous completion of AUTO 20 with a grade of C or higher
Class Hours: 27 lecture/81 lab total (when offered in the distance education format, hours will total 162)
This course is designed to continue the study of engine performance by
including the emission control system and computer controlled engine operation. The course will also provide students with entry-level skills to diagnose, service and repair these systems using current industry tools and equipment. This course includes ASE laboratory tasks and, along with AUTO 20, is designed to prepare students to become ASE certified in areas A-8 and L-1. This course along with AUTO 11 and AUTO 20 will qualify students to test for the Bureau of Automotive Repair Level 1 smog training certificate. This course may be offered in a distance education format. (CSU transferable)

AUTO 94 WORKSITE LEARNING FOR AUTOMOTIVE TECHNOLOGY – 1-8 Units
Limitation on Enrollment: Financial aid students must maintain concurrent enrollment in seven (7) units which include worksite learning units. Students not receiving financial aid do not need to enroll in other courses in order to participate in Worksite Learning Classes.
Class Hours: 75 hours paid or 60 hours non-paid per unit
The Automotive Technology Worksite Learning course allows the student to gain on-the-job experience through employment/volunteerism at an approved automotive technology job site that is acquired by the student and related to the student’s major. A faculty member supervises all WSL courses to ensure that the work experience is of educational value. The course stresses good work habits and meeting of competencies through actual on the job performance. A student may earn up to 16 units through repeating this course since course content varies and skills are enhanced by supervised repetition and practice. A maximum of 8 units may be earned in a single semester. (CSU transferable)

AUTO 132 STEERING AND SUSPENSION – 3 Units
Class Hours: 27 lecture/81 lab total (when offered in the distance education format, hours will total 162)
This course is designed to give students the entry-level skills required to diagnose, service, and repair modern automotive suspension systems. The course includes theory of operation, repair procedures and ASE laboratory tasks. This course is designed to prepare students for ASE A-4 certification. This course may be offered in a distance education format.

AUTO 147 AUTOMOTIVE BRAKING SYSTEMS – 3 Units
Class Hours: 27 lecture/81 lab total (when offered in the distance education format, hours will total 162)
This course is designed to provide the entry level skills needed to diagnose, service, and repair various braking systems found on domestic and import automobiles and light trucks. The course includes brake theory, repair procedures, and ASE laboratory tasks, and is designed to prepare students to become ASE certified in area A-5. Standard and power assist, drum and disc type systems, and anti-lock braking systems are included in this course. This course may be offered in a distance education format.

AUTO 150 INTRODUCTION TO ENGINE MACHINING – 4 Units
(formerly INDE 150)
Class Hours: 36 lecture/108 lab (when offered in the distance education format, hours will total 216)
This course is designed to introduce the student to the basic fundamentals of the internal combustion engine. The subjects will cover the operation and design of varied engine systems and the repair and rebuilding of these engines. This course will also provide instruction in the disassembly, cleaning, and inspection of the internal combustion engine. The student will be oriented in the use of general and specialty tools used in the rebuilding of internal combustion engines. ASE-based tasks will utilize hand tools, power tools and modern machining equipment. Completion of this course will prepare students to become certified in ASE area A-1. This course may be offered in a distance education format.

AUTO 161 MANUAL DRIVE TRAIN AND AXLES – 3 Units
Class Hours: 27 lecture/81 lab total (when offered in the distance education format, hours will total 162)
A course designed to give a technical and working knowledge of manual drive trains and axles. Subject matter covered includes clutch diagnosis and repair, manual transmission diagnosis and repair, transaxle diagnosis and repair, drive (half) shaft and universal joint diagnosis and repair, rear axle diagnosis and repair, four-wheel drive component diagnosis and repair, theory of operation, repair procedures, and ASE laboratory tasks. This course is designed to prepare students to become ASE certified in area A-3. This course may be offered in a distance education format.

AUTO 162 AUTOMATIC TRANSMISSIONS AND TRANSAXLES – 3 Units
Class Hours: 27 lecture/81 lab total (when offered in the distance education format, hours will total 162)
A course designed to give a working knowledge of automatic transmissions and transaxles. Subject matter covered will include transmission/transaxle maintenance and adjustment, in-vehicle transmission/transaxle repair, and off-vehicle transmission/transaxle repair. The course includes theory of operation, repair procedures, and ASE laboratory tasks. This course is designed to prepare students to become ASE certified in area A-2. This course may be offered in a distance education format.

AUTO 163 HEATING, AIR CONDITIONING AND ACCESSORIES – 3 Units
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 162)
This course is designed to give students a technical and working knowledge of automotive heating and air conditioning systems. Emphasis is placed on entry level skills necessary for diagnosing, servicing, and repairing modern automotive heating and air conditioning systems. The course includes theory of operation, repair procedures, and ASE laboratory tasks. This course is designed to prepare students to become ASE certified in area A-7. This course may be offered in a distance education format.

AUTO 176 LEVEL 2 SMOG TECHNICIAN TRAINING – 1 Unit
Advisory: AUTO 11, AUTO 20, and AUTO 21 with a grade of C or higher
Class Hours: 9 lecture/27 lab total (when offered in the distance education format, hours will total 54)
The Smog Check training is intended to provide students the knowledge, skills, and abilities needed to perform Smog Check inspections. Students who successfully complete this training, and meet the Bureau's additional requirements, will qualify to apply for the Smog Check Inspector state licensing examination. This course may be offered in a distance education format.

AUTO 180 ENGINE MACHINIST I – 4 Units
(formerly INDE 180, AUTO 180A)
Prerequisite: AUTO 150 or DIES 164 with a grade of C or higher
Note: Basic hand tools required
Class Hours: 36 lecture/108 lab total (when offered in the distance education format, hours will total 216)
This course is designed to give the student instruction in the use of precision equipment required in the reconditioning of modern automotive engines. Students completing this course will have the manipulative skills and the knowledge of the various machine tools required to completely remanufacture automotive engines. This course may be offered in a distance education format.

AUTO 181 ENGINE MACHINIST II – 4 Units
(formerly AUTO 181, AUTO 180B)
Prerequisite: AUTO 150 with a grade of C or higher
Class Hours: 36 lecture/108 lab total (when offered in the distance education format, hours will total 216)
This course will build on the basic skills obtained in AUTO 150, Introduction to Engine Machining, and will focus on cylinder-head repair and service. Students will learn new skills in the following areas: advanced cylinder-head machining techniques, high performance machining techniques, changing fixtures, maintenance, and service of machine tools. This course may be offered in a distance education format.

BIOLOGICAL SCIENCES (BIOL)

BIOL 1 PRINCIPLES OF BIOLOGY – 4 Units
Prerequisite: CHEM 1A with a grade of C or higher
Class Hours: 36 lecture/108 lab total
C-ID: BIOL 190
This is a biological science course emphasizing molecular and cellular organization, energetics of respiration and photosynthesis, and cell integration and development. Topics covered include general principles
of heredity, evolution, speciation and ecology. This course is intended for majors in science. (CSU/UC transferable)

Biol 5 INTRODUCTION TO HUMAN BIOLOGY - 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
A one-semester introductory course in human anatomy and physiology presented with a medical emphasis. Selected topics on eleven organ systems are covered. This course is intended to serve medical assistants, licensed vocational nursing, and fire science majors. It also complements child development and nutrition majors. Biol 5 is a prerequisite for the LVN program. This course may be offered in a distance education format. (CSU/UC* transferable) *UC transfer limit – no credit if taken after ANAT 1 or PHY 1

Biol 6 INTRODUCTION TO HUMAN BIOLOGY LABORATORY – 1 Unit
Corequisite: Biol 5, or previous completion of Biol 5 with a grade of C or higher
Note: Online Biol 6 will not fulfill the LVN requirement.
Class Hours: 54 lab total (when offered in the distance education format, hours will total 54)
This laboratory course is designed to complement Biol 5 and is a one-semester human anatomy and physiology laboratory course. Exercises include anatomical language, microscopy, membrane transport processes, skeletal muscle contraction, cardiology, blood pressures, pulmonary ventilation, and enzymatic digestion. The anatomy of eleven organ systems is also included. Biol 6 is a prerequisite for the LVN program. This course may be offered in a distance education format. (CSU/UC* transferable) *UC transfer limit – no credit if taken after ANAT 1 or PHY 1

Biol 10 GENERAL BIOLOGY – 3 Units
Grading: Pass/No Pass Option
Note: Biol 10 will meet the general education requirement for a laboratory science if taken with Biol 10L.
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
An introduction to the major concepts of modern biology. Topics covered include biochemistry, cell biology, heredity, and nature of genes, evolution, diversity of life, and principles of ecology. Emphasis will be placed on those aspects of biology that are rapidly reshaping our culture. This course may be offered in a distance education format. This course will meet the general education requirement for a laboratory science if taken with Biol 10L. (CSU/UC* transferable) *UC transfer limit – no credit if taken after Biol 1

Biol 10H GENERAL BIOLOGY – HONORS – 3 Units
Grading: Pass/No Pass Option
Note: Biol 10H will meet the general education requirement for a laboratory science if taken with Biol 10L.
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This is an honors level General Biology course. Students will explore major concepts in modern biology, with particular emphasis on the molecular and cellular basis of life, genetics, development, evolution and ecology. This honors course will enable special emphasis on critical thinking activities and discussion. Because of the smaller lecture class-size, this course proceeds at an accelerated pace, covers more topics, and emphasizes active student participation. This course will meet the general education requirement for a laboratory science if taken with Biol 10L. Students may not receive credit for both Biol 10 and Biol 10H. This course may be offered in a distance education format. (CSU/UC transferable)

Biol 10L GENERAL BIOLOGY LABORATORY – 1 Unit
Grading: Pass/No Pass Option
Corequisite: Biol 10, or previous completion of Biol 10 with a grade of C or higher.
Note: Biol 10L will meet the general education requirement for a laboratory science if taken with Biol 10.
Class Hours: 54 lab total (when offered in the distance education format, hours will total 54)
Laboratory experiments and demonstrations covering the basic concepts of the lecture course Biol 10. The laboratory is designed to expose student to biological techniques including microscopy, biochemistry, genetics, evolution, diversity of life, and principles of ecology. This course may be offered in a distance education format. (CSU/UC transferable)

Biol 11 DIVERSITY OF LIFE – 3 Units
Grading: Pass/No Pass Option
Class Hours: 162 total hours (only offered in the distance education format)
This course is a 3-unit, transferable, non-laboratory, computer-based life science course. It is available only on the internet and is intended for those people who, for one reason or another, cannot come to the Shasta College campus for course work. Topics include molecular and cell biology, inheritance, gene expression, mutation, evolution and the diversity of living organisms. (CSU/UC transferable)

Biol 12 FIELD BIOLOGY – 3 Units
Note: A portion of this course may take place in an international location
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
Plant and animal morphology, classification, evolution, and ecological relationships examined through field and laboratory study, with an emphasis on field experiences. This course may be offered in a distance education format. (CSU/UC transferable)

Biol 12L FIELD BIOLOGY LABORATORY – 1 Unit
Corequisite: Biol 12
Note: This course may take place in an international location
Class Hours: 54 lab total
Field techniques, experiments, and demonstrations covering the basic concepts of the lecture course Biol 12. This laboratory is designed to expose students to common biological field research methods such as biological field sampling techniques including quadrants, transects, pitfall traps, light traps, and mist nets. This course may be offered in a distance education format. (CSU/UC transferable)

Botany (Bot)

Bot 1 GENERAL BOTANY – 4 Units
Grading: Pass/No Pass Option
Prerequisite: Math 102 with a grade of C or higher, or Math Placement Level 4 or higher
Advisory: Biol 1 or Biol 10 with a grade of C or higher
Note: This course includes field trips that may extend past normal class times.
Class Hours: 36 lecture/108 lab total
C-ID: Biol 155
This course is intended for science majors and covers comparative diversity, structure, and function of major plant and plant-like groups. Topics include plant development, morphology and physiology, taxonomy and systematics, ecology, and ethnobotany. (CSU/UC transferable)

Bot 15 PLANTS AND PEOPLE – 3 Units
Corequisite: Bot 15L
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course focuses on the study of the relationships between plants and people and how plants have shaped human history and cultures throughout the world. The diversity of the plant kingdom will be discussed, as well as general plant biology. Throughout the course, students will examine the importance of plants as foods, beverages, spices, dyes, fiber, wood, and fuel and evaluate the importance of plants as sources of bioactive chemicals to be used medicinally. This course may be offered in a distance education format. (CSU/UC transferable)

Bot 15L PLANTS AND PEOPLE LABORATORY – 1 Unit
Corequisite: Bot 15
Class Hours: 54 lab total
This laboratory course supports the Plants and People lecture (Bot 15), by providing hands-on opportunities to explore what plants are, why they are so important to human cultures throughout the world, and how plants have shaped human history. General plant biology and plant diversity will be examined in lab settings and in the field. Throughout the course, students will explore the importance of plants as foods, beverages, spices, medicines, dyes, fiber, wood, and fuel through film, hands-on activities, and field trips. (CSU transferable)

Bot 50 WILDFLOWERS OF CALIFORNIA – 1 Unit
Grading: Pass/No Pass Option
Note: Saturday field trips are required along with normal on campus

121
class meetings.
Class Hours: 9 lecture /27 lab total

Local wildflowers are examined closely in the laboratory in order to learn their structural characteristics. This knowledge will be used to identify flowers using a plant identification key and for sight identification. The field trips reinforce identification skills by allowing students to observe these flowers in their natural setting. A supplementary course for botany, biology, forestry, ornamental horticulture, and natural resources students; elementary and high school teachers; and general interest. Weekday evening classes on campus plus Saturday field trips. (CSU transferable)

BUSINESS ADMINISTRATION (BUAD)

See Also: ACCT, BSOT, CIS

BUAD 6 BUSINESS LAW I – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: BUS 120

Introduction to the legal process which covers the fundamental legal principles pertaining to business transactions. Topics include sources of law and ethics, contracts, torts, agency, judicial and administrative processes, employment law, forms of business organizations, and domestic and international governmental regulations. This course may be offered in a distance education format. (CSU/U*C transferable) *UC transfer limit – maximum credit one course between BUAD 6 and BUAD 8

BUAD 8 BUSINESS LAW II – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course covers the various parameters and requirements of business organizations, security devices, bankruptcy, and personal and intellectual property issues. This course may be offered in a distance education format. (CSU/U*C transferable) *UC transfer limit – maximum credit one course between BUAD 6 and BUAD 8

BUAD 10 INTRODUCTION TO BUSINESS – 3 Units
Advisory: ENGL 280 with a grade of C or higher, or English Placement Level 5 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: BUS 110

A survey course for both business and non-business majors covering the different disciplines (finance, management, and marketing) of business. The course also covers the complexities of the competitive business world and includes additional disciplines such as international business, forms of business ownership, social responsibility and ethics, and entrepreneurship. Designed to provide students familiarly with basic principles and practices of contemporary business, knowledge of business terminology, and an understanding of how business works within the U.S. economic system. Due to its introductory nature, it is recommended that this course be taken as a first business course. This course may be offered in a distance education format. (CSU/U*C transferable) *UC transfer limit – maximum credit one course between BUAD 10 and BUAD 15

BUAD 12 INTERNATIONAL BUSINESS – 3 Units
Grading: Pass/No Pass Option
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course is an introduction to international business. Emphasis will be on understanding global management, marketing, supply-chain management, and finance while working in an international environment influenced by cultural, legal, political, economic, and social factors. This course may be offered in a distance education format. (CSU transferable)

BUAD 14 PERSONAL FINANCE – 3 Units
Prerequisite: Math Placement Level 4 or higher
Grading: Pass/No Pass Option
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

An introduction to personal finance, providing an in-depth study of time value of money, loan options and savings vehicles, retirement planning, tax strategies, and the implications of inflation. The course will strengthen quantitative reasoning skills including algebraic models and statistical data analysis. This course may be offered in a distance education format. (CSU transferable)

BUAD 15 BUSINESS AND SOCIETY – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

The purpose of this course is to increase the student’s awareness of ethical issues in business. The course establishes a framework and definition of ethics and the interaction among business, government, and society. Examples from current events and across business disciplines will be used. Opposing points of view will be presented allowing the student to make individual judgments about ethical behavior in business and what things can and should be done to create a sustainable business model for the future. This course may be offered in a distance education format. (CSU/U*C transferable) *UC transfer limit – maximum credit one course between BUAD 10 and BUAD 15

BUAD 30 REAL ESTATE PRINCIPLES – 3 Units
(formerly REAL 30)
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This is a fundamental real estate course covering the basic laws and principles of California Real Estate. The knowledge, background, and terminology necessary for advanced study in specialized courses are covered. Designed to assist those preparing for the real estate salesperson license examination. This course may be offered in a distance education format. (CSU transferable)

BUAD 39 ENTREPRENEURIAL MINDSET – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

Entrepreneurial skills are increasingly important to personal and economic success, regardless of chosen field or whether working as an employee, contractor, or entrepreneur. This course provides an overview of the entrepreneurial mindset that individuals need in order to succeed in business and can apply to other aspects of their lives. This course may be offered in a distance education format. (CSU transferable)

BUAD 40 ENTREPRENEURSHIP AND SMALL BUSINESS – 3 Units
Grading: Pass/No Pass Option
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course is an entrepreneurial perspective of starting a small business. The course covers techniques and methods of starting and managing a small business enterprise and incorporates the exploration of a sound business plan that includes a financial, management, and marketing analysis. This course may be offered in a distance education format. (CSU transferable)

BUAD 41 LEADERSHIP AND SUPERVISION – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course focuses on the role of the first-line supervisor in the organization. There is particular emphasis on team building, coping with organizational change, leadership styles, motivating employees, and the supervisor’s role in monitoring the primary management functions of planning, organizing, directing, and controlling. This course may be offered in a distance education format. (CSU transferable)

BUAD 42 FINANCING A SMALL BUSINESS – 3 Units
Grading: Pass/No Pass Option
Advisory: Students will need to have access to and a working knowledge of Microsoft Excel.
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

A course designed to give an understanding on the various ways of funding a business venture. The course explores how to raise money for
BUAD 44 INVESTMENTS – 3 Units (formerly FIN 44)
Grading: Pass/No Pass Option
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course is designed to help the student gain an understanding of financial markets, including stocks, bonds, and mutual funds. Students will develop their own investment philosophy and create a personal investment portfolio. This course may be offered in a distance education format. (CSU transferable)

BUAD 45 HUMAN RELATIONS ON THE JOB – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
Human Relations on the Job is a course designed to give the student the opportunity to increase interpersonal skills. There is particular emphasis on communication, motivation, leadership, and group decision skills. Emphasis is placed on improved relationships among employees and between employees and employers. Topics include communication processes and styles, attitudes, values, motivation, leadership, valuing diversity, and reinforcement on the job. This course may be offered in a distance education format. (CSU transferable)

BUAD 55 SOCIAL MEDIA MARKETING – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
The course provides an overview of social media marketing (SMM). This course is designed to build students’ social media marketing skills by utilizing projects that give students hands on experience implementing social media marketing strategies. Topics include integrating different social media technologies into a marketing plan, creating social media marketing campaigns, and applying appropriate social media tools. Upon completion, students should be able to use social media technologies to create and improve marketing efforts for businesses. This course may be offered in a distance education format. (CSU transferable)

BUAD 56 ENTREPRENEURIAL STRUCTURE – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
The importance of selecting a legal structure is often overlooked when starting a business, and the success of one’s business depends on making the correct choice. This course covers the legal structures of sole proprietorship, partnerships, and corporations, as well as their subcategories. The pros and cons of each business type will be evaluated. Legal and tax implications will be explored. This course may be offered in a distance education format. (CSU transferable)

BUAD 66 BUSINESS COMMUNICATIONS – 3 Units
Prerequisite: BUAD 166 or ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Note: Student must complete all assignments using a computer. Handwritten assignments will not be accepted.
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course applies the principles of ethical and effective communication to the creation of letters, memos, emails, and written and oral reports for a variety of business situations. The course emphasizes planning, organizing, composing, and revising business documents using word processing software for written documents and presentation-graphics software to create and deliver professional-level oral reports. This course is designed for students who already have college-level writing skills. This is a required course for many major and certificate programs and an alternate requirement or suggested elective in others. This class also satisfies the A.S. General Education requirement in English. This course may be offered in a distance education format. (CSU transferable)

BUAD 71 INTRODUCTION TO E-COMMERCE – 1 Unit
Grading: Pass/No Pass Option
Class Hours: 18 lecture total (when offered in the distance education format, hours will total 54)
This course is an introduction to e-commerce principles. Topics include an overview of where e-commerce fits into the business, e-commerce basics, cost-benefit of e-commerce solutions, planning and development. This course offers practical suggestions to individuals involved in or planning an e-commerce business or business component. This course may be offered in a distance education format. (CSU transferable)

BUAD 72 E-COMMERCE MARKETING – 1 Unit
Grading: Pass/No Pass Option
Class Hours: 18 lecture total (when offered in the distance education format, hours will total 54)
E-Commerce Marketing (electronic commerce) is the study of all the online or electronic-based activities that facilitate manufacturing goods and services by the producer to satisfy the wants and needs of the consumer. Electronic marketing draws heavily on professional networks and technology to coordinate market research, aid product development, develop strategies and tactics to persuade consumers to buy, provide for online distribution, maintain customer records, conduct customer satisfaction surveys, and gather consumer feedback. Electronic marketing advances the overall marketing program that in turn supports the company’s overall marketing business objectives. This course may be offered in a distance education format. (CSU transferable)

BUAD 76 SALES – 3 Units (formerly MKTG 70, BUSI 70)
Grading: Pass/No Pass Option
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
Study of the fundamental problems, practices, and techniques of the salesperson. The course covers both retail and direct selling techniques including prospecting, pre-approach, demonstration/presentation, handling objections, closing, follow-up, and time management. Students will be required to make a minimum of one sales presentation in class. This course may be offered in a distance education format. (CSU transferable)

BUAD 77 PRINCIPLES OF MARKETING – 3 Units
(formerly MKTG 74, BUSI 74)
Grading: Pass/No Pass Option
Advisory: BUAD 166 or ENGL 196 with a grade of C or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course is designed to help the student understand everyday marketing problems in organizations. Topics include changing roles of marketing, the marketing mix, consumer behavior, sales, advertising, market research, middlemen, retailing, product development, and marketing plans. Additionally, the writing and presentation of a marketing plan is required. This course may be offered in a distance education format. (CSU transferable)

BUAD 80 PRINCIPLES OF CUSTOMER SERVICE – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course is designed to provide the student with an understanding and knowledge of the importance of meeting the needs of customers in a service economy. Students will gain insight into employer and customer expectations of service levels. Emphasis will be placed on developing specific skills and abilities critical to providing excellent customer service. In addition, the student will be introduced to the concepts of internal and external customers, customer satisfaction, and customer retention. Other topics covered are attitude in the workplace, communicating with customers, decision making and problem solving, conflict resolution, and dealing with change in the workplace. This course may be offered in a distance education format. (CSU transferable)

BUAD 91 PRINCIPLES OF MANAGEMENT – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This is a basic course to broaden the student’s knowledge of the business organization emphasizing how the organizational structure can affect personnel, productivity, and ultimately the success of the firm. This course is required for the Business Management Program and is designed to assist any student who is wishing to become more knowledgeable about organization and management theory and promote in management. The course should stimulate thought and discussion of several aspects of management and provide a limited opportunity for public speaking. This course may be offered in a distance education format. (CSU transferable)

BUAD 94 BUSINESS WORKSITE LEARNING – 1-8 Units
Limitation on Enrollment: Financial aid students must maintain concurrent
Chapter 4: Courses

enrollment in seven (7) units which include worksite learning units. Students not receiving financial aid do not need to enroll in other courses in order to participate in Worksite Learning Classes.

Class Hours: 75 hours paid or 60 hours non-paid per unit.

The Business Worksite Learning course allows the student to gain on-the-job experience through employment/volunteerism at an approved business job site that is acquired by the student and related to the student’s major. A faculty member supervises all WSL courses to ensure that the work experience is of educational value. The course stresses good work habits and meeting of competencies through actual on-the-job performance. A student may earn up to 16 units through repeating this course since course content varies and skills are enhanced by supervised repetition and practice. A maximum of 8 units may be earned in a single semester. (CSU transferable)

BUAD 106 BUSINESS MATHEMATICS – 3 Units
Grading: Pass/No Pass Option
Prerequisite: MATH 240 or MATH 260 with a grade of C or higher, or MATH 230E with a grade of P, or Math Placement Level 2 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

A required course in several business occupational majors and suggested elective in others. Student entering this class should have a strong foundation of basic arithmetic skills of adding, subtracting, multiplying, and dividing of whole numbers, fractions, decimals, and percentage values. The class consists of applications of these skills to such business problems as markup, simple, discount, and compound interests, trade and cash discounts, insurance, installment buying, and depreciation. Waiver: Under certain circumstances, this course may be waived for some A.A. degrees or certificate requirements by substituting MATH 102 or higher math course. This course may be offered in a distance education format.

BUAD 120 STARTING A SMALL BUSINESS – THE ENTREPRENEUR – 1 Unit
Grading: Pass/No Pass Option
Class Hours: 18 lecture total (when offered in the distance education format, hours will total 54)

A survey course that explores various components that need to be considered for anyone contemplating or currently operating a small business – the Entrepreneur. The major class project will be the development of a basic executive summary of the student’s business of choice. This course may be offered in a distance education format.

BUAD 166 BUSINESS ENGLISH – 3 Units
Prerequisite: ENGL 280 with a grade of C or higher, or English Placement Level 5 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course provides an effective command of written English for transaction of business. Emphasis is given to grammar, spelling, vocabulary, and punctuation, and the format of the business letter, including expository and argumentative writing as well as the necessary information competency skills to select and incorporate reliable data in support of an argument. This is a required course for many majors and certificate programs and an alternative requirement or suggested elective in others. This course may be offered in a distance education format.

BUAD 172 BUSINESS MATH – 3 Units
Grading: Pass/No Pass Option
Prerequisite: MATH 100 or MATH 101 with a grade of C or higher, or Math Placement Level 3 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This is a required course in several business occupational majors and suggested elective in others. Students entering the class should have a strong foundation of basic arithmetic skills of adding, subtracting, multiplying, and dividing of whole numbers, fractions, decimals, and percentage values. The class consists of applications of these skills to such business problems as markup; simple, discount, and compound interest; trade and cash discounts; insurance; installment buying; depreciation; break-even analysis to solve for systems of linear equations; and the use of quadratic equations and graphing to solve for maximum profit. This course may be offered in a distance education format.

BUAD 176 PRINCIPLES OF RETAILING – 3 Units
(formerly MKTG 176, BUSI 176)
Grading: Pass/No Pass Option
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

A course designed to develop student proficiency in the diverse aspects of retailing. The course includes specific areas of study, such as: store site location, store layout, product line selection, buying, pricing, selling, advertising, and financial management. This class is designed for those going into retail as well as those students planning to enter businesses that deal with retail merchants, i.e., wholesalers, advertising media, insurance agencies, accounting firms, and other service areas. This course may be offered in a distance education format.

BUAD 301A LAUNCHING YOUR BUSINESS – 0 Units
Grading: Pass/No Pass Only
Class Hours: 9-27 lecture total (when offered in the distance education format, hours will total 9-27)

This course is designed to give students the necessary knowledge and skills to explore, plan and develop a business. The business entrepreneur utilizes the understanding of business concepts, strategies, and technology to shape ideas into opportunities supported by research, data, and business models. This course may be offered in a distance education format.

BUAD 301B DEVELOPING YOUR BUSINESS MODEL – 0 Units
Grading: Pass/No Pass Only
Class Hours: 9-27 lecture total (when offered in the distance education format, hours will total 9-27)

This course is designed to build on the business plan, research, and strategies that were developed in BUAD 301A. This course sequence can also be taken independently from BUAD 301A. Students will explore financing, bookkeeping, budgeting, legal/business law, and leadership when launching and owning a business. This course may be offered in a distance education format.

BUSINESS SYSTEMS AND OFFICE TECHNOLOGIES (BSOT)
(formerly Office Administration)

BSOT 10 EXCEL FOR WINDOWS I – 1 Unit
(formerly OAS 10, CIS 10, MIS 73)
Grading: Pass/No Pass Option
Note: Internet and classroom students will require access to a computer with the same version of Microsoft Operating System and Office Suite being used in the course. Computer access is provided on campus at the Learning Resource Center and the Tehama Campus.
Class Hours: 9 lecture/27 lab total (when offered in the distance education format, hours will total 54)

This is an introductory course that introduces the concepts, principles, and uses of the EXCEL spreadsheet through multi-media lecture, demonstration, and discussion. Instruction will include use of the Windows environment; creating, editing, formatting, and printing a worksheet; charts/graphs development; and formulas/functions using relative and absolute cell reference. This course may be offered in a distance education format. (CSU transferable)

BSOT 11 EXCEL FOR WINDOWS II – 1 Unit
(formerly OAS 11, CIS 11, MIS 74)
Grading: Pass/No Pass Option
Advisory: BSOT 10 with a grade of C or higher.
Note: Internet and classroom students will require access to a computer with the same version of Microsoft Operating System and Office Suite being used in the course. Computer access is provided on campus at the Learning Resource Center and the Tehama Campus.
Class Hours: 9 lecture/27 lab total (when offered in the distance education format, hours will total 54)

Designed to expand and improve worksheet skills through multi-media lecture, demonstration, and discussion. Instruction will include managing workbook data, using tables, analyzing table data, automating worksheet tasks, enhancing charts, and using what-if analysis. This course may be offered in a distance education format. (CSU transferable)
BSOT 51 INTRODUCTION TO KEYBOARDING AND WORD – 3 Units (formerly OAS 51, BUSI 51)
Grading: Pass/No Pass Option
Note: Internet and classroom students will require access to a computer with the same version of Microsoft Operating System and Office Suite being used in the course. Computer access is provided on campus at the Learning Resources Center and the Tehama campus.
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 162)

An introductory course in keyboarding and Microsoft Word. Class includes learning to type alphabetic, numeric and symbol keys by touch; developing speed and accuracy; and formatting business documents including letters, memos, reports, tables and labels. Recommended for all students that want to learn typing and Microsoft Word. No prior knowledge of computers is required making this course an excellent place to start for beginning computer users. This course may be offered in a distance education format. (CSU transferable)

BSOT 52 INTERMEDIATE KEYBOARDING AND WORD – 3 Units (formerly OAS 52, BUSI 52)
Grading: Pass/No Pass Option
Prerequisite: BSOT 51 with a grade of C or higher
Note: Internet and classroom students will require access to a computer with the same version of Microsoft Operating System and Office Suite being used in the course. Computer access is provided on campus at the Learning Resources Center and the Tehama campus.
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 162)

An intermediate course in keyboarding and Microsoft Word. This course continues the development of keyboarding speed and accuracy while emphasizing the formatting of various kinds of business correspondence, reports, tables, forms, and desktop publishing projects from rough drafts. This course may be offered in a distance education format. (CSU transferable)

BSOT 64 COMPUTERIZED TEN-KEY – 0.5 Units (formerly OAS 64, BUSI 64)
Grading: Pass/No Pass Option
Class Hours: 27 lab total (when offered in the distance education format, hours will total 27)

A course designed to teach the numeric 10-key pad by touch on the computer with speed and accuracy using industry standards for data entry. Proficiency on three employment tests used by three large interstate corporations help the student meet employment standards. The course has been designed to accommodate hearing impaired students. This course may be offered in a distance education format. (CSU transferable)

BSOT 80 OUTLOOK – 1 Unit (formerly OAS 80)
Grading: Pass/No Pass Option
Advisory: Ability to type 25 wpm
Note: Class will require outside time using a computer with appropriate software. Computer access is provided on campus at the Learning Resource Center and the Tehama Campus. Students taking the Internet format of this course must have access to the same version of Microsoft Operating System and Office Suite being used in the course.
Class Hours: 9 lecture/27 lab total (when offered in the distance education format, hours will total 54)

This course introduces the student to the use of Microsoft Outlook, a desktop information management program in the Microsoft Office Suite. Instruction will include managing email messages, scheduling appointments and activities with the Calendar, entering and updating names and addresses as contacts, creating and maintaining an electronic to-do list with Tasks, and using Categories to organize, sort, and search. This course may be offered in a distance education format. (CSU transferable)

BSOT 84 POWERPOINT – 1 Unit (formerly OAS 94)
Grading: Pass/No Pass Option
Note: Class will require outside time using a computer with appropriate software. Some computer access is provided on campus at the Learning Resources Center and the Tehama Campus. Students taking the Internet format of this course must have access to the same version of the Microsoft Operating System and Office Suite being used in the course.
Class Hours: 9 lecture/27 lab total (when offered in the distance education format, hours will total 54)

This is a hands-on course designed to familiarize students with Microsoft PowerPoint. Students will learn how to create effective slide show presentations with emphasis on customizing text, graphics and charts. Students will work with embedded and linked objects as well as hyperlinks and use PowerPoint’s many slide show features. This course may be offered in a distance education format. (CSU transferable)

BSOT 91 WORD FOR WINDOWS I – 1 Unit (formerly OAS 91)
Grading: Pass/No Pass Option
Advisory: Ability to type 25 wpm
Note: Class will require outside time using a computer with appropriate software. Some computer access is provided on campus at the Learning Resources Center and the Tehama Campus. Students taking the Internet format of this course must have access to the same version of the Microsoft Operating System and Office Suite being used in the course.
Class Hours: 9 lecture/27 lab total (when offered in the distance education format, hours will total 54)

This course introduces word processing through using Microsoft Word for Windows. Microsoft Word will be used to complete the functions of creating, editing, saving, opening and printing documents with varying degrees of difficulty. Topics to be covered include: file management; creating new documents using both the blank Word document screen or wizards and templates; selecting text to move/copy/delete/format or utilize the clipboard; creating and formatting tables, including calculations; spelling and thesaurus tools; font, paragraph and page formatting; customized tabs; indents; bullets and numbering; borders and shading; headers, footers, and page numbering; finding and replacing. This course may be offered in a distance education format. (CSU transferable)

BSOT 92 WORD FOR WINDOWS II – 1 Unit (formerly OAS 92)
Grading: Pass/No Pass Option
Advisory: BSOT 51 or BSOT 91 with a grade of C or higher. Ability to type 25 wpm
Note: Class will require outside time using a computer with appropriate software. Some computer access is provided on campus at the Learning Resources Center and the Tehama Campus. Students taking the Internet format of this course must have access to the same version of the Microsoft Operating System and Office Suite being used in the course.
Class Hours: 9 lecture/27 lab total (when offered in the distance education format, hours will total 54)

This course introduces word processing through using Microsoft Word for Windows. Microsoft Word will be designed to expand and improve basic word processing skills to a higher level of proficiency through multi-media lecture/demonstration/discussion. Instruction will include a review of basic concepts and commands, illustrating documents with graphics, creating a web site, merging word documents, working with styles and templates, developing multi-page documents; and integrating Word with other programs. This course may be offered in a distance education format. (CSU transferable)

BSOT 94 BUSINESS SYSTEMS AND OFFICE TECHNOLOGIES WORKSITE LEARNING – 1-8 Units (formerly OAS 84)
Limitation on Enrollment: Financial aid students must maintain concurrent enrollment in seven (7) units which include worksite learning units. Students not receiving financial aid do not need to enroll in other courses in order to participate in Worksite Learning Classes.
Class Hours: 75 hours paid or 60 hours non-paid per unit

The Business Systems and Office Technologies Worksite Learning course allows the student to gain on-the-job experience through employment/volunteerism in an approved business or office job site that is acquired by the student and related to the student’s major. A faculty member supervises all WSL courses to ensure that the work experience is of educational value. The course stresses good work habits and meeting of competencies through actual on-the-job performance. A student may earn up to 16 units through repeating this course since course content varies and skills are enhanced by supervised repetition and practice. A maximum of 8 units may be earned in a single semester. (CSU transferable)

BSOT 114 HEALTHCARE BILLING AND REIMBURSEMENT – 3 Units (formerly OAS 144)
Advisory: HECO 11 with a grade of C or higher
Class Hours: 54 lecture total (when offered in the distance education
format, hours will total 162)
The course will enable students to understand the processing of healthcare claims as it relates to various insurance payer requirements beginning with abstracting information from medical chart documents and following procedural steps based on the nature of the patient status and payer. This course may be offered in a distance education format.

**BSOT 120** TIME & STRESS MANAGEMENT IN THE WORKPLACE – 1 Unit (formerly BUAD 81)

- **Grading:** Pass/No Pass Option
- **Class Hours:** 18 lecture total (when offered in the distance education format, hours will total 54)

This course is designed to introduce the student to time management principles and specific tools that assist in making maximum use of time. Included in this course is the recognition of stress and how to manage it, as well as job burnout and what to do about it. This course may be offered in a distance education format.

**BSOT 121** DECISION MAKING, PROBLEM SOLVING, AND CONFLICT RESOLUTION – 1 Unit (formerly BUAD 83)

- **Grading:** Pass/No Pass Option
- **Class Hours:** 18 lecture total (when offered in the distance education format, hours will total 54)

This course is designed to introduce the student to decision making and problem solving. It is also designed to provide the student with an analysis of attitudes and behaviors that create conflict between individuals and groups within an organization. This course may be offered in a distance education format.

**BSOT 122** CUSTOMER SERVICE AND ATTITUDE IN THE WORKPLACE – 1 Unit (formerly BUAD 85)

- **Grading:** Pass/No Pass Option
- **Class Hours:** 18 lecture total (when offered in the distance education format, hours will total 54)

This course is designed to provide the student with certain key skills and attitudes in order to effectively meet the needs of customers. The student will be introduced to the concept of internal and external customers, customer satisfaction, and customer retention. Topics will also include communicating with customers, developing a positive attitude, handling complaints, and sales skills. This course may be offered in a distance education format.

**BSOT 123** COMMUNICATION AND TEAM BUILDING – 1 Unit (formerly BUAD 87)

- **Grading:** Pass/No Pass Option
- **Class Hours:** 18 lecture total (when offered in the distance education format, hours will total 54)

This course is designed to introduce the student to key elements in communication within business organizations including verbal and nonverbal communication as well as listening skills. It will also provide the student with an understanding of how teams work together, common problems teams encounter and how to solve them. This course may be offered in a distance education format.

**BSOT 124** VALUES, ETHICS, AND ORGANIZATIONAL CHANGE – 1 Unit (formerly BUAD 90)

- **Grading:** Pass/No Pass Option
- **Class Hours:** 18 lecture total (when offered in the distance education format, hours will total 54)

This course is designed to acquaint the student with the importance of values and ethics in the workplace. It will also provide the student with an understanding of change and the influence it has on an organization and the individuals in that organization. This course may be offered in a distance education format.

**BSOT 130** Computer Basics – 1 Unit

- **Grading:** Pass/No Pass Option
- **Class Hours:** 9 lecture/27 lab total (when offered in the distance education format, hours will total 54)

This course assumes the student has limited experience on the computer and walks the student through file management, email, Internet use, use of MS Office Software, as well as interaction with Shasta College resources including navigating online courses. This course may be offered in a distance education format.

**BSOT 150** ELECTRONIC MEDICAL RECORDS – 3 Units

- **(formerly OAS 150, MEDA 150B)**

  - **Note:** Internet and classroom students will require access to a computer with the same version of Microsoft Operating System and Office Suite being used in the course. Computer access is provided on campus at the Learning Resource Center and the Tehama campus.
  - **Class Hours:** 54 lecture total (when offered in the distance education format, hours will total 162)

This course is designed to prepare students for entry-level positions working with electronic records in a medical office. Topics covered are computerized systems for appointment scheduling and follow-up; claim forms and coding; patient and insurance billing; and medical practice financial management. This course may be offered in a distance education format.

**BSOT 152** KEYBOARDING FOR SPEED AND ACCURACY – 0.5 Units (formerly OAS 268, OAS 268AD, BUSI 268AD)

- **Grading:** Pass/No Pass Option

  - **Note:** Class may require outside time using a computer with internet access and appropriate software. Computer access is provided on campus at the Learning Resource Center and the Tehama campus. Students taking the Internet format of this course must have access to the same version of Microsoft Operating System and Office Suite being used in the course.
  - **Class Hours:** 27 lab total (when offered in the distance education format, hours will total 27)

Designed for the beginning to advanced keyboarding student to improve typing speed and accuracy. Specific drills, proper typing technique, and ergonomics will be covered in the course. Development of keyboarding skills is attained through repetitive typing of specific drills designed to improve both accuracy and speed. This course may be offered in a distance education format.

**BSOT 158** OFFICE PROCEDURES FOR ADMINISTRATIVE ASSISTANTS – 3 Units (formerly OAS 158, BUSI 158)

- **Class Hours:** 54 lecture total (when offered in the distance education format, hours will total 162)

This capstone course prepares students to perform various information processing procedures and problem solving tasks required to support both today’s office systems and those of the future. Students learn critical thinking, problem solving, teamwork, supervisory skills, office procedures, and information processing technologies to manage their work, as well as necessary attributes of an office professional. Also included are managing information storage and retrieval, and coordinating office communications to improve the efficiency of office functions. This course may be offered in a distance education format.

**BSOT 166** RECORDS MANAGEMENT – 2 Units

- **(formerly OAS 166, BUSI 163)**

- **Class Hours:** 27 lecture/27 lab total (when offered in the distance education format, hours will total 108)

A study of the basic principles, rules, and procedures of filing. It includes a study of alphabetic, numeric, subject, and geographic filing. Various types of filing equipment will be analyzed. This course may be offered in a distance education format.

**BSOT 171** PROOFREADING SKILLS – 2 Units

- **(formerly OAS 171, BUSI 168)**

- **Class Hours:** 36 lecture total (when offered in the distance education format, hours will total 108)

The course covers the application of appropriate methods of proofreading documents common to the work place, and an overview of the essential skills needed to perform text-editing functions in business settings. High level proofreading skills are vital to the efficient operation and productivity of the information-processing office. Proofreading has become a “must” for quality control in the work place. This course may be offered in a distance education format.

**BSOT 320** TIME & STRESS MANAGEMENT IN THE WORKPLACE – 0 Units

- **Grading:** Pass/No Pass Only
  - **Class Hours:** 18 lecture total (when offered in the distance education format, hours will total 54)

This course is designed to introduce the student to time management principles and specific tools that assist in making maximum use of time. Included in this course is the recognition of stress and how to manage it,
as well as job burnout and what to do about it. This course may be offered in a distance education format.

**BSOT 321  DECISION MAKING, PROBLEM SOLVING, AND CONFLICT RESOLUTION – 0 Units**

Grading: Pass/No Pass Only

Class Hours: 18 lecture total (when offered in the distance education format, hours will total 54)

This course is designed to introduce the student to decision making and problem solving. It is also designed to provide the student with an analysis of attitudes and behaviors that create conflict between individuals and groups within an organization. This course may be offered in a distance education format.

**BSOT 322  CUSTOMER SERVICE AND ATTITUDE IN THE WORKPLACE – 0 Units**

Grading: Pass/No Pass Only

Class Hours: 18 lecture total (when offered in the distance education format, hours will total 54)

This course is designed to provide the student with certain key skills and attitudes in order to effectively meet the needs of customers. The student will be introduced to the concept of internal and external customers, customer satisfaction, and customer retention. Topics will also include communicating with customers, developing a positive attitude, handling complaints, and sales skills. This course may be offered in a distance education format.

**BSOT 323  COMMUNICATION AND TEAM BUILDING – 0 Units**

Grading: Pass/No Pass Only

Class Hours: 18 lecture total (when offered in the distance education format, hours will total 54)

This course is designed to introduce the student to key elements in communication within business organizations including verbal and nonverbal communication as well as listening skills. It will also provide the student with an understanding of how teams work together, common problems teams encounter and how to solve them. This course may be offered in a distance education format.

**BSOT 324  VALUES, ETHICS, AND ORGANIZATIONAL CHANGE – 0 Units**

Grading: Pass/No Pass Only

Class Hours: 18 lecture total (when offered in the distance education format, hours will total 54)

This course is designed to acquaint the student with the importance of values and ethics in the workplace. It will also provide the student with an understanding of change and the influence it has on an organization and the individuals in that organization. This course may be offered in a distance education format.

**CALS 100  TRANSITION TO COMMUNITY COLLEGE – 3 Units**

(formerly ADAP 100, SPED 100)

Grading: Pass/No Pass Option

Advisory: English Placement Level 2 or higher

Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

Introduction and practice of college study skills and techniques to enhance student success. Emphasis of this course will be on self-assessment for the student who has educational limitations or challenges, as well as information dissemination. Topics to be discussed will include study skills, community, awareness of personal challenges including disability, personal goals, the college experience, and career exploration. This course may be offered in a distance education format.

**CALS 200  FOUNDATIONS FOR COLLEGE – 3 Units**

(formerly ADAP 200)

Grading: Pass/No Pass Option

Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

Introduction and orientation to college including completion of all applications and forms, thorough review of college catalog, college services, and student rights and responsibilities. Emphasis of this course will be on self-assessment including learning styles, personal strengths and weaknesses, and goal-setting. Additional topics to be discussed will include aspects of educational challenges in college and work settings, reasonable accommodations strategies for success, and disability awareness. This course may be repeated in compliance with Title 5 regulations. This course may be offered in a distance education format.

**CALS 202  ORIENTATION TO COLLEGE SKILLS – 1 Unit**

(formerly ADAP 102)

Grading: Pass/No Pass Option

Class Hours: 18 lecture total (when offered in the distance education format, hours will total 54)

Students are introduced to skills and information that are critical to successfully navigating Shasta College. This course is constructed for those students who want an overview of technology and processes used at Shasta College. Learn how to use Canvas and MyShasta to access financial aid, grades, complete course assignments, etc. Find out how to read the catalog and class schedule and access important college resources. This course may be repeated in compliance with Title 5 regulations. This course may be offered in a distance education format.

**CALS 210  CAREER PLANNING AND DEVELOPMENT – 1 Unit**

(formerly ADAP 210)

Grading: Pass/No Pass Option

Class Hours: 18 lecture total (when offered in the distance education format, hours will total 54)

This course is designed as a career development and planning option for transitioning students who have barriers/limitations in education. The content of the course is designed to assist students in the processes of 1) Finding a career that coincides with their individual interests and talents, 2) Matching personality assets to career characteristics, 3) Training in the researching of career choices and employment opportunities, 4) Matching vocational skills to career choices, 5) Developing and initiating an education/career plan consisting of goals and options, 6) Identifying educational opportunities available to attain career goals, and 7) Identifying the impact of paid work upon individual and family benefits. This course may be offered in a distance education format.

**CALS 253  ADAPTED MICROCOMPUTER KEYBOARDING – 1 Unit**

(formerly ADAP 253, OAS 254, MIS 251, MIS 251AB, BUSI 251AB)

Grading: Pass/No Pass Option

Class Hours: 54 lab total (when offered in the distance education format, hours will total 54)

A personal-use individualized course in keyboarding designed to meet the needs of students with disabilities. Interested students must be interviewed by a DSPS counselor and/or the instructor to determine if the course is appropriate for the student's abilities and interests. The course is designed to provide the intensive drill necessary to master the alphabetic keys as well as numbers and symbols of the microcomputer keyboard. A beginning class intended for students needing a computer terminal keyboarding skill who have had no previous typing experience. Students will be required to access software and key in data. Includes speed and accuracy development. This course may introduce document production if keyboard is mastered by touch. This class does not meet the requirement of Keyboarding I (Beginning Typing) for an Associate in Arts degree or certificate. This course may be repeated in compliance with Title 5 regulations. This course may be offered in a distance education format.

**CALS 254  BASIC COMPUTER SKILLS – 1 Unit**

(formerly ADAP 254)

Grading: Pass/No Pass Option

Class Hours: 54 lab total (when offered in the distance education format, hours will total 54)

Basic Computer Skills is recommended for students requiring remedial instruction in using computers, whether through standard platforms or assistive technology. Skills covered include the use of email, Internet access, and the use of MS Office software to apply in personal and academic interactions. This course may be repeated in compliance with Title 5 regulations. This course may be offered in a distance education format.

**CALS 255  HUMAN AWARENESS AND RELATIONAL SKILLS – 3 Units**

(formerly ADAP 255, SPED 255)
CHEMISTRY (CHEM)

CHEM 1A GENERAL CHEMISTRY – 5 Units
Grading: Pass/No Pass Option

Prerequisites: CHEM 16 or CHEM 2A with a grade of C or higher, or a score of 20 or higher on the California Chemistry Diagnostic test; and MATH 102 with a grade of C or higher, or Math Placement Level 4 or higher. (If you have completed one year of high school chemistry with a grade of C or higher, you will be eligible to enroll in this course once you have seen a counselor.)

Note: Students must provide those materials which are of continuing value outside of the classroom setting. This cost will be explained at the first class meeting.

Class Hours: 54 lecture/54 lab/18 discussion (when offered in the distance education format, hours will total 216 for the lecture/discussion portion of this class and an additional 54 hours of lab, totaling 270 hours for this course)

C-ID: CHEM 110; CHEM 120 S (with CHEM 1B)

A course for science and engineering majors which covers the nature of atoms, molecules, and ions; chemical reactions; precipitation, oxidation-reduction, and acid/base chemistry; stoichiometry; electronic structure; periodicity; chemical bonding and molecular structure; properties of solids, liquids, and gases; and an introduction to thermodynamics and solutions. The lecture and discussion portions of this course may be offered in a distance education format. (CSU/UC transferable)

CHEM 1B GENERAL CHEMISTRY – 5 Units
Grading: Pass/No Pass Option

Prerequisite: CHEM 1A with a grade of C or higher

Note: Students must provide those materials which are of continuing value outside of the classroom setting. This cost will be explained at the first class meeting.

Class Hours: 54 lecture/18 discussion/54 lab total (when offered in the distance education format, hours will total 216 for the lecture/discussion portion of this class and an additional 54 hours of lab, totaling 270 hours for this course)

C-ID: CHEM 120 S (with CHEM 1A)

An introduction to chemical kinetics, nuclear chemistry, transition metals, and organic chemistry; along with continued, in-depth study of equilibrium, thermodynamics, electrochemistry, acid-base and solution chemistry. This course may be offered in a distance education format. (CSU/UC transferable)

CHEM 2A INTRODUCTION TO CHEMISTRY – 5 Units
Prerequisite: MATH 101 with a grade of C or higher, or Math Placement Level 3 or higher

Note: Students must provide those materials which are of continuing value outside of the classroom setting. This cost will be explained at the first class meeting.

Class Hours: 54 lecture/18 discussion/54 lab total (when offered in the distance education format, hours will total 216 for the lecture/discussion portion of this class and an additional 54 hours of lab, totaling 270 hours for this course)

C-ID: CHEM 101

This course is a survey of inorganic chemistry and some organic chemistry suitable for agriculture and nursing students. The basic fundamentals of the metric system, chemical nomenclature, atomic and molecular structure, chemical reactions, energy changes, states of matter, solutions, chemical equilibria and kinetics, and organic functional groups are presented. The quantitative nature of chemistry is developed by introduction of the Avogadro’s number and the mole and continuing with stoichiometry, gas law, solution concentrations and pH calculations. The lecture/discussion portion of this course may be offered in a distance education format. (CSU/UC transferable)

CHEM 2B INTRODUCTION TO ORGANIC AND BIOCHEMISTRY – 5 Units
Grading: Pass/No Pass Option

Prerequisite: CHEM 2A or CHEM 1A with a grade of C or higher

Note: Students must provide those materials which are of continuing value outside of the classroom setting. This cost will be explained at the first class meeting.

Class Hours: 54 lecture/54 lab/18 discussion total (when offered in the distance education format, hours will total 216 for the lecture/discussion portion of this class and an additional 54 hours of lab, totaling 270 hours for this course)

C-ID: CHEM 102

This course provides students with the skills for understanding and making choices about their personal health, exercise, and nutrition. Participants will gain awareness, competence, and confidence in understanding their personal health and then develop strategies towards actively managing personal health. Examination of choices that promote health and wellness, as well as potential barriers to health, will be examined. This course may be offered in a distance education format.
A survey of the major classes of organic compounds including structure, nomenclature, properties, reactions, and the reaction mechanisms; an introduction to the biochemistry of proteins, carbohydrates, lipids, nucleic acids and their basic metabolic reactions. Suitable for nursing, dental hygiene, agriculture/natural resources and non-science majors. The lecture/discussion portion of this course may be offered in a distance education format. (CSU/UC transferable)

CHEM 10 CHEMISTRY FOR THE LIBERAL ARTS – 3 Units
Grading: Pass/No Pass Option
Prerequisite: MATH 101 with a grade of C or higher, or Math Placement Level 3 or higher
Note: CHEM 10 will meet the general education requirement for a laboratory science if taken with CHEM 11.
Class Hours: 54 lecture (when offered in the distance education format, hours will total 162)
C-ID: CHEM 100

An introduction to the major concepts of chemistry, involving minimal, student-friendly math, with attention to their relevance to practical and societal problems. This course is intended for non-science majors who wish to gain an appreciation for the application of chemistry to everyday living. The course includes such topics as nuclear energy and energy alternatives, health issues of drugs, food additives, nutrition, hormones, chemicals for household use, chemicals in the environment, and synthetics. This course may include field trips (not in the online format). This course may be offered in a distance education format. This course will meet the general education requirement for a laboratory science if it is taken with CHEM 11. (CSU/UC transferable)

CHEM 11 CHEMISTRY LAB FOR THE LIBERAL ARTS – 1 Unit
Grading: Pass/No Pass Option
Corequisite: CHEM 10, or previous completion of CHEM 10 with a grade of C or higher
Note: CHEM 10 taken with CHEM 11 meets GE requirement in science. Students must provide those materials which are of continuing value outside of the classroom setting. This cost will be explained at the first class meeting.
Class Hours: 54 lab total (when offered in the distance education format, hours will total 54)

Laboratory experiments and activities covering the basic concepts of the lecture course, CHEM 10. The activities are designed to help students see chemistry in action and learn how to use various chemicals around us, safely and effectively. This course may be offered in a distance education format. (CSU/UC transferable)

CHEM 16 CHEMICAL PROBLEM-SOLVING – 3 Units
Grading: Pass/No Pass Option
Advisory: MATH 101 with a grade of C or higher, or Math Placement Level 3 or higher
Note: Students must provide those materials which are of continuing value outside of the classroom setting. This cost will be explained at the first class meeting.
Class Hours: 54 lecture (when offered in the distance education format, hours will total 162)

An introductory chemistry course for students who plan to major in a scientific field. This course is also designed to prepare students for General Chemistry 1A. The major emphasis of the course will be on chemical problem-solving. This course may be offered in a distance education format. (CSU/UC transferable)

CHEM 26 FUNDAMENTALS OF GENERAL, ORGANIC, AND BIOCHEMISTRY – 4 Units
Class Hours: 72 lecture total (when offered in the distance education format, hours will total 216)

An introduction to the fundamental principles of general, organic, and biochemistry delivered completely online that will emphasize practical applications to nursing and health professions. This course will fulfill some CSU’s requirement for entry to the RN to BSN upgrade program. It is also suitable for AA degree programs and non-science transfer students. It may fulfill requirements for other related health and nutritional degree programs. This course may be offered in a distance education format. (CSU transferable)

CHEM 70 ORGANIC CHEMISTRY – 4 Units
Prerequisite: CHEM 1B with a grade of C or higher
Note: CHEM 70A should be taken concurrently with CHEM 70 for science majors for transfer

Class Hours: 54 lecture/18 discussion total (when offered in the distance education format, hours will total 216)
C-ID: CHEM 160 S (with CHEM 70A, CHEM 71, and CHEM 71A)

Structure, bonding, polar bonds, alkanes and cycloalkanes, stereochemistry and physical properties of organic compounds. Overview of organic reactions: Reactions and mechanisms of alkanes, alkenes, alkyne, organic halides, nucleophilic substitutions and eliminations. Science majors should take a second-semester organic course, CHEM 71, which completes the required two-semester sequence. CHEM 70A, a laboratory course, should be taken concurrently for science majors. Check school of transfer for their requirements. This course may be offered in a distance education format. (CSU/UC transferable)

CHEM 70A ORGANIC CHEMISTRY LABORATORY – 1 Unit
Prerequisite: CHEM 1B with a grade of C or higher
Corequisite: Students must be concurrently enrolled in, or have completed CHEM 70 with a grade of C or higher
Note: Chemistry majors are required to take CHEM 70A concurrently with CHEM 70. Students must provide those materials which are of continuing value outside of the classroom setting. This cost will be explained at the first class meeting.
Class Hours: 54 lab total (when offered in the distance education format, hours will total 162)
C-ID: CHEM 160 S (with CHEM 70, CHEM 71, and CHEM 71A)

Theory and application of organic chemistry laboratory techniques. (CSU/UC transferable)

CHEM 71 ORGANIC CHEMISTRY – 3 Units
Prerequisite: CHEM 70 with a grade of C or higher
Note: CHEM 71A should be taken concurrently with CHEM 71 for science majors for transfer
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: CHEM 160 S (with CHEM 70, CHEM 70A, and CHEM 71A)

A continuation of CHEM 70 Infrared Spectroscopy, Mass Spectrometry, Nuclear Magnetic Resonance, Conjugated Dienes and Ultraviolet Spectroscopy, Benzene and Aromaticity, Chemistry of Benzene, Electrophilic Aromatic Substitution Alcohols and Phenols, Ethers and Epoxides, Thiols and Sulffides, Aldehydes and Ketones, Carboxylic Acids, Carboxylic Acid Derivatives and Nucleophile Acid Substitution, Carbonyl alpha-substitution Reactions Carbonyl Condensation, Amines, Carboxydrates, Amides, Peptides and Proteins, Lipids This course completes a two-semester sequence for science majors. CHEM 71 A, a laboratory course, should be taken concurrently for science majors. Check school of transfer for their requirements. This course may be offered in a distance education format. (CSU/UC transferable)

CHEM 71A ORGANIC CHEMISTRY LABORATORY – 2 Units
Prerequisite: CHEM 70A with a grade of C or higher
Corequisite: CHEM 71, or previous completion of CHEM 71 with a grade of C or higher
Note: Chemistry majors are required to take CHEM 71A concurrently with CHEM 71. Students must provide those materials which are of continuing value outside of the classroom setting. This cost will be explained at the first class meeting.
Class Hours: 108 lab total
C-ID: CHEM 160 S (with CHEM 70, CHEM 70A, and CHEM 71)

A continuation of Organic CHEM 70A. Theory and application of organic chemistry laboratory techniques. (CSU/UC transferable)

CHINESE (CHIN)

CHIN 1 MANDARIN CHINESE 1 – 5 Units
Grading: Pass/No Pass Option
Class Hours: 90 lecture total

This introductory course is designed to give the student thorough and intensive practice in speaking and listening to Chinese and reading and writing Chinese characters. The course will focus on communicative competence in situations relating to daily routines, home life, college life, and everyday activities such as meeting and describing people. Students are introduced to the culture of Chinese speakers in China and in other countries. (CSU/UC transferable)
CIVIC AND COMMUNITY ENGAGEMENT (CCE)

CCE 1A CIVIC & COMMUNITY ENGAGEMENT I – 1 Unit
Advisory: ENGL 190 with a grade of C or higher
Class Hours: 18 lecture total (when offered in the distance education format, hours will total 54)

This course prepares students to participate in internships and/or service learning experiences with campus and community partners. Students explore experiential education and 21st century job skill development. The course integrates a practical experience in internships and leading service learning projects through community/campus placements. The course allows students to balance action with critical reflection on experiential education. This course may be offered in a distance education format. (CSU transferable)

CCE 1B CIVIC & COMMUNITY ENGAGEMENT II – 1 Unit
Prerequisite: CCE 1A with a grade of C or higher
Advisory: ENGL 190 with a grade of C or higher
Class Hours: 18 lecture total (when offered in the distance education format, hours will total 54)

This second course is designed to build on the skills students cultivated in their internship/service learning placements with campus and community partners. Students will continue to participate in experiential education while learning additional 21st century job skills. The course continues to integrate a practical experience in internships and leading service learning projects through community/campus placements. The course allows students to balance action with critical reflection on experiential education. This course may be offered in a distance education format. (CSU transferable)

CCE 1C CIVIC & COMMUNITY ENGAGEMENT III – 1 Unit
Prerequisite: CCE 1B with a grade of C or higher
Advisory: ENGL 190 with a grade of C or higher
Class Hours: 18 lecture total (when offered in the distance education format, hours will total 54)

This third course is designed to build on the skills students cultivated in their internship/service learning placements with campus and community partners. Students will continue to participate in experiential education while learning additional 21st century job skills. The course continues to integrate a practical experience in internships and leading service learning projects through community/campus placements. The course allows students to balance action with critical reflection on experiential education. This course may be offered in a distance education format. (CSU transferable)

COMMUNICATION STUDIES (CMST)

CMST 10 INTERPERSONAL COMMUNICATION – 3 Units
(formerly SPCH 10/10A)
Grading: Pass/No Pass Option
Advisory: ENGL 190 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: COMM 130

This course is an introduction to the process of human communication with emphasis on interpersonal communication. Emphasis is placed on the psychological, social, cultural and linguistic factors that affect normal person-to-person interactions. Subjects covered are the understanding of ethical interpersonal communication based in communication theory and research, listening, verbal and nonverbal communication, self-awareness/self-concept, perception, emotions, relationships, communication climates, and conflict management. Students will increase their knowledge and skills in interpersonal communication. College level writing skills will be expected on all papers, outlines and short essays. This course may be offered in a distance education format. (CSU/UC transferable)

CMST 20 INTERCULTURAL COMMUNICATION – 3 Units
(formerly SPCH 20)
Grading: Pass/No Pass Option
Advisory: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: COMM 150

The purpose of this course is to develop the skills necessary to build and maintain positive communication and relationships across cultures. Students will focus on similarities and differences in communication behaviors. Perceptions, language usage, nonverbal style, thinking modes, and values will all be explored to see how they influence communication between individuals of different cultures. This course may be offered in a distance education format. (CSU/UC transferable)

CMST 30 ORAL INTERPRETATION – 3 Units (formerly SPCH 30)
Grading: Pass/No Pass Option
Advisory: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: COMM 170

This course is an introduction to the process of human communication with emphasis on the oral interpretation of literature. It covers the following subjects: analyzing the literature, using nonverbal and verbal communication in the interpretation of literature, and the understanding, appreciation, and performance of prose and poetry. College-level writing skills will be expected on all papers, outlines, and short essays. This course includes oral performance of literature. This course may be offered in a distance education format. (CSU/UC transferable)

CMST 40 ARGUMENTATION AND DEBATE – 3 Units
(formerly SPCH 40)
Grading: Pass/No Pass Option
Advisory: Completion of a class in public speaking or public speaking experience
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: COMM 120

This course presents basic argumentation theory including research, methods of analysis, use and tests of evidence, refutation, and the logical and ethical responsibilities of advocacy. Emphasis is placed on the preparation and presentation of cases for and against propositions or points of view through extensive research, writing, debate, and public address. Basic principles are applied in a variety of formal and informal debate situations. Public speaking training and/or experience are recommended for enrollment. This course may be offered in a distance education format. (CSU/UC transferable)

CMST 54 SMALL GROUP COMMUNICATION – 3 Units
(formerly SPCH 54)
Grading: Pass/No Pass Option
Advisory: ENGL 190 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: COMM 140

This course is an introduction to the process of human communication with an emphasis on small groups. Subjects covered are preparation for discussion, group participation, leadership, decision-making, interpersonal relations, managing diversity, critical thinking/problem-solving, managing conflict, and evaluation of group interaction. Students will be involved in group interactions, and emphasis will be on practical experience. College-level writing skills will be expected on all papers, outlines, and short essays. This course may be offered in a distance education format. (CSU/UC transferable)

CMST 54H SMALL GROUP COMMUNICATIONS – HONORS – 3 Units
Advisory: ENGL 190 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This is an honors level, introductory course to the process of human communication with an emphasis on small groups. Subjects covered are preparation for discussion, group participation, leadership, decision-making, interpersonal relations, managing diversity, critical thinking/problem-solving, managing conflict, and evaluation of group interaction. Students will be involved in group interactions and emphasis will be on practical experience. College level writing skills will be expected on all papers, outlines and short essays. A portion of this course may be
offered in a distance education format. Graded only. Students cannot receive credit for both CMST 54 and CMST 54H. (CSU/UC transferable)

**CMST 60 PUBLIC SPEAKING – 3 Units (formerly SPCH 60/60A)**
Grading: Pass/No Pass Option
Advisory: ENGL 190 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (0.5 to 1.5 units may be offered in the distance education format; when offered in the distance education format, hours will total 72 to 108)
C-ID: COMM 110

This course is an introduction to the process of human communication with emphasis on public speaking. The subjects covered are speech topic selection, audience analysis, information competency (e.g., researching, evaluating and using supporting materials), presentation outlining, principles of effective speech delivery, critical evaluation of speeches, and presentation of informative and persuasive speeches. Most students will have the opportunity to be recorded and to use presentation technology. College level writing skills will be expected on all papers, outlines and short essays. This course may be offered in a distance education format. (CSU/UC transferable)

**CMST 60H PUBLIC SPEAKING – HONORS – 3 Units**
Advisory: ENGL 190 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This is an honors level introductory Public Speaking course. Through a process of thorough analysis, critical thinking, extended discussions, and original oral and written responses, students will study the fundamentals of extemporaneous public speaking. Emphasis is placed on the organization of ideas, the use of research techniques, and the development of critical analysis for problem solving. Graded only. Enrollment in Honors Program Required. Students cannot receive credit for both CMST 60 and CMST 60H. (CSU/UC transferable)

**COMMUNICATIONS (COM)**

**COM 20 INTRODUCTION TO MULTI-MEDIA – 3 Units**
Grading: Pass/No Pass Option
Class Hours: 54 lecture total

This class studies how multimedia programs are designed and produced. Professional and amateur productions are extensively analyzed for form, content and overall design effectiveness. The class traces the process of a typical multimedia project from start to finish. This includes design implementation, user analysis, interface and interaction considerations, project management, and client needs assessment. The class explores the technical aspects of production, including capturing and compressing sound and visual images. Delivery systems such as the Internet and CD-ROM are evaluated. An overview of "tools of the trade" examines a variety of production and editing software. The class is not platform-specific, nor does it attempt to teach all the software discussed. (CSU transferable)

**COM 21 MULTI-MEDIA AUTHORING – 3 Units**
Grading: Pass/No Pass Option
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course will acquaint the student with the process of designing and producing effective multi-media presentations. Students work individually and as part of a creative team. The focus is on identifying and analyzing audiences, designing, adapting and organizing information for maximum effect, and then producing text, audio and video presentations, such as podcasts, video shorts suitable for free-standing use or for interactive and social-networking websites. Software such as Final Cut, Audacity, Wordpress, Joomla and Dokuwiki are complex tools that will be explored. The class also will explore basic planning strategies, audience analysis, production techniques, materials and equipment involved in a computer multimedia production. Students will be expected to produce at least two projects suitable for a portfolio and that could be used for a blog, podcast, video-sharing or social-networking site, and a live or point-of-sale presentation. This course may be offered in a distance education format. (CSU transferable)

**COMPUTER AND INFORMATION SYSTEMS (CIS)**

**CIS 1 COMPUTER LITERACY WORKSHOP – 3 Units (formerly MIS 19)**
Note: Class will require outside time using a computer with appropriate software. Some computer access is provided on campus at the Math and Business Learning Center. Students taking the Internet format of this course must have access to the Microsoft Operating System and Office Suite—further information will be provided on the first day handout.
Class Hours: 45 lecture/27 lab total (when offered in the distance education format, hours will total 162)

This course is intended to help students achieve a degree of computer literacy through exposure to a variety of basic computer concepts including discussions of hardware, software, computer history, programming, computer ethics, and cultural implications. In addition, the student will be introduced to several hands-on applications such as systems software (Windows), word processing software (MS Word), spreadsheet software (MS Excel), database software (MS Access), and presentation software (MS PowerPoint). This course may be offered in a distance education format. (CSU/UC transferable) "UC transfer limit – maximum credit one course between CIS 1 and CIS 2"

**CIS 2 INTRODUCTION TO COMPUTER SCIENCE – 4 Units (formerly MIS 20)**
Class Hours: 72 lecture total (when offered in the distance education format, hours will total 216)
C-ID: COMP 112

This course is designed as an introduction to computer programming and technology for those students planning on a career in the field of computer science or related disciplines. The students will design, code, debug, and test programs in languages such as Machine, Assembler, Java, C++, Visual Basic and/or Python as determined by the Shasta College CIS committee. Common business applications are used to examine a wide range of methods for processing data in the interactive mode. Computer history, hardware, software, processing, systems, programming languages, storage devices, careers, and impact on society will be explored to enable the student to become literate in the technical aspects of computing. This course may be offered in a distance education format. (CSU/UC transferable) "UC transfer limit – maximum credit one course between CIS 1 and CIS 2"

**CIS 7 SOCIAL MEDIA MARKETING & SEARCH ENGINE OPTIMIZATION – 3 Units**
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 162)

This course introduces students to the best practices of social media marketing and Search Engine Optimization (SEO). The class helps students develop the skills to connect business objectives with social media and SEO strategy, platforms and tactics. Topics will include choosing appropriate platforms, creating effective and engaging social media content, content management, branding, social listening and creating a social media policy as well as increasing the volume and quality of site traffic with sustainable and responsible SEO. This course may be offered in a distance education format. (CSU transferable)

**CIS 13 DESKTOP OS CONFIGURATION – 3 Units**
Advisory: CIS 2 with a grade of C or higher
Note: Students who enrolled in earlier versions of a Windows desktop operating system will be able to enroll in a more current version.
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 162)

This is a Microsoft Certified Solutions Associate course. The terminology, planning, installation, configuration, administration, and troubleshooting of Modern Desktop Operating Systems will be covered. The course is designed to prepare a student to take and pass the corresponding Microsoft Certification Exam and for employment in the IT field. Note: Students who enrolled in earlier versions of a Windows desktop operating system will be able to enroll in a more current version. This course may be offered in a distance education format. (CSU transferable)

**CIS 14 MANAGE & MAINTAIN DESKTOP OPERATING SYSTEMS – 3 Units**
Advisory: CIS 13 with a grade of C or higher
Note: Students who enrolled in a previous version of a Windows desktop operating system will be able to enroll in the current version.
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 162)
CIS 15 INSTALL AND CONFIGURE MICROSOFT SERVER – 3 Units
Advisory: CIS 2 with a grade of C or higher
Note: Students who took the class with an earlier Server version will be able to enroll in the current version Windows Server.
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 162)

This is a Microsoft Certified Professional course with emphasis on installing and configuring Windows Server. The terminology, planning, installation, configuration, administration, and troubleshooting of a Windows Server environment will be covered. The course is designed to prepare a student to take and pass a Microsoft Certification Exam for installing and configuring the current version of Microsoft Windows Server and for employment in the IT field. Note: Students who took the class with an earlier Server version will be able to enroll in the current version of the course. This course may be offered in a distance education format. (CSU transferable)

CIS 16 ADMINISTERING MICROSOFT SERVER – 3 Units
Advisory: CIS 13 with a grade of C or higher
Note: Students who took the class with an earlier Server version will be able to enroll in the more current version of Windows Server.
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 162)

This is a Microsoft Certified Professional course with emphasis on the administration of Windows Server network infrastructure. The terminology, planning, installation, configuration, administration, and troubleshooting of a Windows Server network infrastructure will be covered. The course is designed to prepare a student to take and pass the specific Microsoft Certification Exam and for employment in the IT field. Note: Students who took CIS 16 with an earlier Server version will be able to enroll in the more current version of Windows Server. This course may be offered in a distance education format. (CSU transferable)

CIS 17 CONFIGURE ADVANCED SERVER SERVICES – 3 Units
Advisory: CIS 13 with a grade of C or higher
Note: Students who took CIS 17 with an earlier Server version will be able to enroll in the current version Windows Server.
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 162)

This is a Microsoft Certified Professional course with emphasis on installing and configuring advanced Windows Server services. The terminology, planning, installation, configuration, administration, and troubleshooting of a Windows Server environment will be covered. The course is designed to prepare a student to take and pass a specific Microsoft Certification Exam and for employment in the IT field. Note: Students who took CIS 17 with an earlier Server version will be able to enroll in the current version Windows Server. This course may be offered in a distance education format. (CSU transferable)

CIS 20 ACCESS FOR WINDOWS I – 1 Unit (formerly MIS 53)
Grading: Pass/No Pass Only
Advisory: Ability to type 25 wpm
Note: Class will require outside time using a computer with appropriate software. Some computer access is provided on campus at the Learning Resource Center and the Tehama campus. Students taking the Internet format of this course must have access to the same version of Microsoft Operating System and Office Suite being used in the course.
Class Hours: 9 lecture/27 lab total (when offered in the distance education format, hours will total 54)

This course introduces the concepts, principles, and creation of relational databases through multi-media lecture/demonstration/discussion using Microsoft Access on a Microsoft Windows compatible computer. Topics to be covered include the principles and elements of the relational database; design of tables and data entry; maintenance of the database for data accuracy; queries for sorting, linking related tables, and selecting specific records; development of forms for viewing as well as entering data; and reports for presenting printed copy of the database and/or selected records. This course provides preparation for the Microsoft Office Specialist Access certification exam. This course may be offered in a distance education format. (CSU transferable)

CIS 21 ACCESS FOR WINDOWS II – 1 Unit (formerly MIS 54)
Grading: Pass/No Pass Option
Prerequisite: CIS 20 or CIS 23 with a grade of C or higher
Advisory: Ability to type 25 wpm
Note: Class will require outside time using a computer with appropriate software. Computer access is provided on campus at the Learning Resource Center and the Tehama campus. Students taking the Internet format of this course must have access to the same version of Microsoft Operating System and Office Suite being used in the course.
Class Hours: 9 lecture/27 lab total (when offered in the distance education format, hours will total 54)

This course is designed to expand and improve database management skills through multi-media lecture/demonstration/discussion using Microsoft Access on a Microsoft Windows compatible microcomputer. Instruction will include a review of database design concepts; queries involving linked tables, logical operators, and calculated fields; crosstab, update, and summary queries; pivot tables and Pivot Charts; presentation of data through forms and reports (including field calculations and graphics); creating hyperlinks from Access to web pages; importing and exporting data; and advanced queries. This course provides preparation for the Microsoft Office Specialist Access certification exam. This course may be offered in a distance education format. (CSU transferable)

CIS 23 FUNDAMENTALS OF SQL – 3 Units
Advisory: CIS 1 with a grade of C or higher
Class Hours: 45 lecture/54 lab total (when offered in the distance education format, hours will total 162)

This course is designed to provide individuals with a complete introduction to database concepts and the relational database model using Structured Query Language. Topics include normalization, design methodology, database administration, SQL commands, SQL functions and procedures. At the completion of this course, students should be able to understand a user's database requirements and translate those requirements into a valid database design using SQL. The MySQL and the Microsoft Access versions of SQL are utilized in the class exercises and projects. This course may be offered in a distance education format. (CSU transferable)

CIS 24 DATABASE DESIGN – 3 Units
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 162)

This course is a study of fundamental database design principles and techniques, including data modeling with Entity-Relationship Diagrams (ERD) and the normalization process. Topics include the relational data model, managing data using Structured Query Language (SQL), database management system (DBMS) architecture and operation, and database security mechanisms. Students will apply core concepts and techniques to practical business scenarios. This course may be offered in a distance education format. (CSU transferable)

CIS 31 CCNA 1 ROUTING AND SWITCHING – INTRODUCTION TO NETWORKS – 3 Units (formerly MIS 32, MIS 1)
Advisory: CIS 2 or CIS 90 with a grade of C or higher
Class Hours: 45 lecture/27 lab total (when offered in the distance education format, hours will total 162)

This course is the first in a two-course series designed to prepare students for the Cisco Certified Entry Network Technician (CCENT) exam, and the course is the first of a four-course series designed to prepare students for the Cisco Certified Networking Associate (CCNA) exam. CCNA Routing and Switching: Introduction to Networks (ITN) covers networking concepts, structure, and functions. The course introduces the principles and structure of IP addressing and the fundamentals of Ethernet concepts, media, and operations to provide a foundation for the curriculum. This course is offered by Shasta College as the Cisco Regional Networking Academy in the area. Instructional materials developed by Cisco Systems are utilized for the course. The course teaches students the skills needed to obtain entry-level network installer jobs. It also helps students develop some of the skills needed to become network technicians, computer technicians, cable installers, and
help desk technicians. It provides a hands-on introduction to networking and the Internet using tools and hardware commonly found in small to medium size business environments. Labs include network device configuration, Internet connectivity, wireless connectivity, file and print sharing, and IP addressing. This course may be offered in a distance education format. (CSU transferable)

CIS 32 CCNA 2 ROUTING AND SWITCHING – ROUTING AND SWITCHING ESSENTIALS – 3 Units (formerly MIS 32, MIS 2)
Prerequisite: CIS 31 with a grade of C or higher
Class Hours: 45 lecture/27 lab total (when offered in the distance education format, hours will total 162)

This course is the second in a two-course series designed to prepare students for the Cisco Certified Entry Network Technician (CCENT) exam, and the course is the second of a four-course series designed to prepare students for the Cisco Certified Networking Associate (CCNA) exam. CCNA Routing and Switching: Routing and Switching Essentials (RSE) covers the architecture, components, and operations of routers and switches in a small network. Students learn how to configure a router and a switch for basic functionality. This course is offered by Shasta College as the Cisco Regional Networking Academy in the area. Instructional materials developed by Cisco Systems are utilized for the course. The course prepares students for jobs as network technicians. It also helps students develop additional skills required for computer technicians and help desk technicians. It provides a basic overview of routing and remote access, addressing, and security. It familiarizes students with servers that provide email services, Web space, and authenticated access. Students learn soft skills required for help desk and customer service positions. Network troubleshooting and basic troubleshooting skills are taught in context. This course may be offered in a distance education format. (CSU transferable)

CIS 33 CCNA 3 ROUTING AND SWITCHING – SCALING NETWORKS – 3 Units (formerly MIS 33, MIS 3)
Prerequisite: CIS 32 with a grade of C or higher
Class Hours: 45 lecture/27 lab total (when offered in the distance education format, hours will total 162)

This course is the third in a four-course series designed to prepare students for Cisco Certified Networking Associate (CCNA) exam. CCNA Routing and Switching Scaling Networks (ScaN) covers the architecture, components, and operations of routers and switches in larger and more complex networks. Students learn how to configure routers and switches for advanced functionality. The course is offered by Shasta College as the Cisco Regional Networking Academy in the area. Instructional materials developed by Cisco Systems are utilized for the course. The course familiarizes students with the equipment applications and protocols installed in enterprise networks, with a focus on switched networks, IP Telephony requirements, and security. It also introduces advanced routing protocols including Enhanced Interior Gateway Routing Protocol (EIGRP) and Open Shortest Path First (OSPF) Protocol. Other specific topics include Virtual LANs, Access Control Lists, and inter-VLAN routing. Hands-on exercises include configuration, installation, and troubleshooting. This course may be offered in a distance education format. (CSU transferable)

CIS 34 CCNA 4 ROUTING AND SWITCHING – CONNECTING NETWORKS – 3 Units (formerly MIS 34, MIS 4)
Prerequisite: CIS 33 with a grade of C or higher
Class Hours: 45 lecture/27 lab total (when offered in the distance education format, hours will total 162)

This course is the fourth in a four-course series designed to prepare students for Cisco Certified Networking Associate (CCNA) exam. CCNA Routing and Switching Connecting Networks (CN) discusses the WAN technologies and network services required by converged applications in complex networks. The course enables students to understand the selection criteria of network devices and WAN technologies to meet network requirements. The course is offered by Shasta College as the Cisco Regional Networking Academy in the area. Instructional materials developed by Cisco Systems are utilized for the course. Learners are introduced to the architecture, structure, functions, components, and models of the Internet and other computer networks. The principles and structure of IP addressing and the fundamentals of Ethernet concepts, media, and operations are introduced to provide a foundation for the curriculum. By the end of the course, students will be able to build LANs, perform basic configurations for routers and switches, and implement IP addressing schemes. Learners progress through, gathering requirements, designing basic networks, establishing proof-of-concept, and performing project management tasks. Students will learn about lifecycle services; including upgrades, competitive analysis, and system integration. This course may be offered in a distance education format. (CSU transferable)

CIS 39 CISCO NETWORKING – CCNA SECURITY - 3 Units
Advisory: CIS 34 with a grade of C or higher, or CCNA Certification
Class Hours: 45 lecture/27 lab total (when offered in the distance education format, hours will total 162)

This course is offered by Shasta College in its role as a Cisco Local Networking Academy. This course prepares students for the Cisco CCNA Security certification exam. This is a widely recognized entry level certification in the network security field. Obtaining this certification will provide Shasta College students with a competitive advantage in advancing to skilled technician positions in the high-demand job markets of computer and network security. Topics that will be addressed include: vulnerabilities and threats, security policy, security technologies and solutions, firewall and secure router design, switch security, intrusion detection, access lists, VPNs, cryptography, and hands-on equipment configuration. This course may be offered in a distance education format. (CSU transferable)

CIS 57 INTRODUCTION TO COMPUTERS FOR GAMERS – 3 Units
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 162)

This course is designed to get students interested in the computer field by teaching concepts as they relate to computer gaming. The course will cover the necessary computer troubleshooting and repair, networking, internet research, and overall computer knowledge needed to use sophisticated networked and online games. This course will include hands-on activities such as labs and projects to further learning and experience. This course may be offered in a distance education format. (CSU transferable)

CIS 56 VISUAL BASIC PROGRAMMING – 3 Units
Class Hours: 36 lecture/54 lab total

This course is intended to teach programming techniques using the Visual Basic language. Software life-cycle including design, development, styles, documentation, testing, and maintenance; procedural versus object oriented programming; and program design tools will be discussed. Students will be introduced to Visual Basic statements including, but not limited to data types, input, output, computation, looping, arrays, subroutines, file processing commands, form layout, objects, events, error handling, passing parameters by value and by reference, principles of testing and designing test data, and Visual Basic tools. Students will design, code, test, and execute several detailed business-oriented programs ranging from very simple to complex. This course may be offered in a distance education format. (CSU transferable)

CIS 61 C++ LANGUAGE PROGRAMMING – 3 Units
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 162)
C-ID: COMP 122

This first-level course is an introduction to the C++ programming language. Emphasis is placed on programming theory and structure including data types, selection and iteration structures, functions, arrays, pointers, graphics, objects and classes. This course may be offered in a distance education format. (CSU/UC transferable)

CIS 62 JAVA PROGRAMMING – 3 Units (formerly MIS 17)
Advisory: CIS 2 with a grade of C or higher
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 162)
C-ID: COMP 122

Java is a platform-neutral, object-oriented, and secure programming language that is used to create robust desktop and server-based applications. This introductory course covers the Java programming language and the standard Java class libraries. This course may be
Chapter 4: Courses

CIS 63 ASSEMBLER LANGUAGE PROGRAMMING – 4 Units
(formerly MIS 24)
Prerequisite: CIS 2 with a grade of C or higher
Class Hours: 54 lecture/54 lab total (when offered in the distance education format, hours will total 216)

In this course students will learn the functions and organization of a modern computer microprocessor including control unit, ALU, register files, cache memory, program counter, and instruction register. The internal binary representation of both data and instructions will be studied including ASCII characters, instruction formats, and two’s complement number system. Emphasis will be placed on understanding machine language instruction formats and developing computer programs in assembly language. Integer instruction sets will be the primary focus, but floating point instructions will be introduced. A pseudocoding technique will be learned which will facilitate development of code in assembly language. Programming techniques and concepts will be studied including function calls, argument passing, use of the stack, array handling, sorting and searching, reentrant coding, recursive programming, exceptions and interrupts, pipelining, number conversions, and program debugging and documentation. This course is designed to meet transfer requirements in computer science to four-year universities. This course may be offered in a distance education format. (CSU/UC transferable)

CIS 64 WEB PROGRAMMING – 3 Units
Grading: Pass/No Pass Option
Advisory: CIS 2 with a grade of C or higher
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 162)

This course covers programming concepts and projects related to websites, cloud based software and more. In this course students will be introduced to Java, PHP, HTML and more. Java is a platform-neutral, object-oriented, and secure programming language that is quickly becoming the standard programming language for creating interactive content on the World Wide Web (WWW). PHP (Hypertext Preprocessor) is a programming language that allows web developers to create dynamic content that interacts with databases. PHP is basically used for developing web-based software applications. HTML is replacing Adobe Flash to create content for web applications, games and movies, and content for mobile phones and other embedded devices. This course covers introductory Java Applets, PHP Scripting, and HTML programming. This course may be offered in a distance education format. (CSU/UC transferable)

CIS 65 PROGRAMMING CONCEPTS AND METHODOLOGY USING C++ II – 3 Units
Grading: Pass/No Pass Option
Advisory: CIS 61 with a grade of C or higher
Class Hours: 36 lecture/54 lab total
C-ID: COMP 132

This second-level course for the C++ programming language picks up from the ending point of CIS 61. An emphasis is placed on application of software engineering techniques to the design and development of large programs; data abstraction and structures and associated algorithms. This course may be offered in a distance education format. (CSU/UC transferable)

CIS 66 COMPUTER ARCHITECTURE AND ORGANIZATION – 3 Units
Advisory: CIS 61 with a grade of C or higher
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 162)
C-ID: COMP 142

This course is an introduction to the organization and behavior of modern computer systems at the assembly language level. Topics include numerical computation, the internal representation of simple data types and structures, data representation errors, and procedural errors. Students will learn how to map statements and constructs of high-level languages onto sequences of machine instructions. The course may be offered in a distance education format. (C-ID COMP 142). (CSU/UC transferable)

CIS 67 DISCRETE STRUCTURES – 3 Units
Prerequisite: CIS 2 and CIS 61 with a grade of C or higher
Class Hours: 45 lecture/27 lab total (when offered in the distance education format, hours will total 162)
C-ID: COMP 152

This course is an introduction to the discrete structures used in Computer Science, with an emphasis on their applications. Topics covered include functions, relations and sets, basic logic, proof techniques, basics of counting, graphs and trees, and discrete probability. This course may be offered in a distance education format. (C-ID COMP 152). (CSU/UC transferable)

CIS 72 FUNDAMENTALS OF LINUX – 3 Units
Class Hours: 45 lecture/27 lab total (when offered in the distance education format, hours will total 162)

Fundamentals of Linux is an introductory and hands-on course for new users of the popular Linux operating system. Students will learn basic Linux systems administration skills using both command-line and graphical tools. Topics will include Linux installation and initialization; file system navigation and management; changing file permissions; the vi and emacs text editors; Bash, KDE, and GNOME shell features; process management; shell scripts; security; backup and recovery; printing; and basic networking, including clients and network services. The course prepares students for the CompTia Linux+ certification exam. This course may be offered in a distance education format. (CSU/UC transferable)

CIS 73 INTRO TO THE ADOBE SUITE – 2 Units
Grading: Pass/No Pass Option
Class Hours: 18 lecture/54 lab total (when offered in the distance education format, hours will total 108)

This course will introduce students to current software used to create and edit images, graphics and animations. This course is intended to familiarize the student with software and should be accompanied or followed by a course in design. This course may be offered in a distance education format. (CSU transferable)

CIS 76 MOBILE APPLICATIONS DEVELOPMENT – 3 Units
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 108)

This course covers the development of applications for cell phones, tablets and other mobile devices such as the iPhone, the Blackberry, android and more. The course will prepare students to design, program and submit their applications for use on mobile devices. This course may be offered in a distance education format. (CSU transferable)

CIS 83 INTRO TO WEB DESIGN – 2 Units
Grading: Pass/No Pass Option
Advisory: Basic knowledge of word processing and Windows
Class Hours: 27 lecture/27 lab total (when offered in a distance education format, hours will total 108)

This course is designed to introduce students to website development using current tools. Students will design a website and incorporate text, animation, and links. This course may be offered in a distance education format. (CSU transferable)

CIS 86 HTML – 3 Units
Grading: Pass/No Pass Option
Note: This class does not require any special software. Assignments may include work outside class, with the use of computer with standard browsers like Internet Explorer, Mozilla Firefox, Chrome, or Safari. Some computer access is provided on campus at the Learning Resource Center.
Class Hours: 54 lecture (when offered in the distance education format, hours will total 162)

This is a fundamental course on the Hypertext Markup Language for web page authoring, with lecture and hands-on classes. The topics include: the HTML "TAG" structure, the basic <HTML>, <HEAD> and <BODY> components of a web document, text formatting, creation of hyperlinks, inclusion of images, the use of tables, frame and form structures, and incorporation of multimedia, applets and javascripts. The editing, saving and publishing of web pages is performed with the basic tools provided with any of the currently available Windows platforms; no special software is needed for the class. This course may be offered in a distance education format. (CSU transferable)

CIS 87 ADVANCED WEB DESIGN – 3 Units
Prerequisites: CIS 2 and CIS 83 with a grade of C or higher
Class Hours: 18 lecture/108 lab total (when offered in a distance education format, hours will total 126)

This advanced course in Web Design will address creating complex web...
pages, incorporating HTML and web programming, creating templates, and adding advanced features, such as eCommerce sites, back-end databases, Google Analytics, Videos, SEO and more. A basic knowledge of these areas is required. This course may be offered in a distance education format. (CSU transferable)

CIS 90 A+ CERTIFICATION PREPARATION/CISCO IT ESSENTIALS I – 4 Units
Advisory: CIS 2 with a grade of C or higher
Class Hours: 54 lecture/54 lab total (when offered in the distance education format, hours will total 216)
This course provides the student with the knowledge and skills to pass the A+ Core Hardware and the A+ OS Technologies certification tests. The CompTIA A+ certification exams are nationally recognized and measure essential competencies for an entry-level computer technician. Topics covered are microcomputer architecture, personal computer hardware, including Microsoft Windows installations, configurations and troubleshooting. Students learn how to assemble and configure a computer, install operating systems and software, and troubleshoot hardware and software problems. This course may be offered in a distance education format. (CSU transferable)

CIS 92 INTRODUCTION TO COMPUTER SECURITY – SECURITY + – 3 Units
Advisory: CIS 31 with a grade of C or higher
Class Hours: 45 lecture/27 lab total (when offered in the distance education format, hours will total 162)
This course provides the student with background, requirements, policies and procedures for establishing and maintaining computer and information system security. Course elements include risk discovery and assessment, system planning with cost/benefits analyses, management policies, security practices and procedures within system life cycles, and system recovery. The course will stress applied solutions to computer security problems, preparing students for the CompTIA Security+ Certification exam. This course may be offered in a distance education format. (CSU transferable)

CIS 94 CIS WORKSITE LEARNING – 1-8 Units
Grading: Pass/No Pass Option
Limitation on Enrollment: Financial aid students must maintain concurrent enrollment in seven (7) units which include worksite learning units. Students not receiving financial aid do not need to enroll in other courses in order to participate in Worksite Learning Classes.
Class Hours: 75 hours paid or 60 hours non-paid per unit
The CIS Worksite Learning course allows the student to gain on-the-job experience through employment/volunteerism at an approved CIS job site that is acquired by the student and related to the student’s major. A faculty member supervises all WSL courses to ensure that the work experience is of educational value. The course stresses good work habits and meeting of competencies through actual on-the-job performance. A student may earn up to 16 units through repeating this course since course content varies and skills are enhanced by supervised repetition and practice. A maximum of 8 units may be earned in a single semester. (CSU transferable)

CIS 401 DATABASE MANAGEMENT AND DESIGN FOR HEALTHCARE PROFESSIONALS – 4 Units
Advisory: CIS 2 with a grade of C or higher
Limitation on Enrollment: Students must be admitted to the Health Information Management program
Class Hours: 54 lecture/54 lab total (when offered in the distance education format, hours will total 216)
This course discusses advanced topics in database management and design. The primary concepts covered in this course include programming language, current database structures utilized in healthcare, effective communication with end users and key stakeholders, identifying goals and requirements in database projects, performing end user analysis, and creating data models for performance improvement. Students will explore all aspects of the data lifecycle from capture to storage and utilization to destruction. This course is designed for health information management majors. This course may be offered in a distance education format.
Chapter 4: Courses

CONS 55C EQUIPMENT OPERATIONS ROADWAY CONSTRUCTION – 1 Unit
Grading: Pass/No Pass Option
Prerequisite: CONS 46 with a grade of C or higher
Limitation on Enrollment: Student must produce a negative test result in accordance with Shasta College Student Substance Abuse Testing Policy at a student cost to be paid to the designated testing facility.
Class Hours: 54 lab hours per unit
This course focuses on the practical application of skills needed to be successful in equipment operation. Includes training and operating heavy equipment equipped with a Global Satellite Surveying System. This course emphasizes hands-on training with the Topcon 3D-MC² GNSS machine control. (CSU transferable)

CONS 55D EQUIPMENT OPERATIONS GLOBAL SATELLITE SYSTEM SKILLS – 1 Unit
Grading: Pass/No Pass Option
Prerequisite: CONS 46 with a grade of C or higher
Limitation on Enrollment: Student must produce a negative test result in accordance with Shasta College Student Substance Abuse Testing Policy at a student cost to be paid to the designated testing facility.
Class Hours: 54 lab hours per unit
This course focuses on the practical application of skills needed to be successful in equipment operation. Includes training and operating heavy equipment equipped with a Global Satellite Surveying System. This course emphasizes hands-on training with the Topcon 3D-MC² GNSS machine control. (CSU transferable)

CONS 94 WORKSITE LEARNING FOR CONSTRUCTION TECHNOLOGY – 1-8 Units
Limitation on Enrollment: Students must have completed 30 units of required construction technology course work. Financial aid students must maintain concurrent enrollment in seven (7) units which include worksite learning units. Students not receiving financial aid do not need to enroll in other courses in order to participate in Worksite Learning Classes.
Class Hours: 75 hours paid or 60 hours non-paid per unit
The Construction Technology Worksite Learning course allows the student to gain on-the-job experience through employment/volunteerism at an approved construction technology job site that is acquired by the student and related to the student’s major. A faculty member supervises all WSL courses to ensure that the work experience is of educational value. The course stresses good work habits and meeting of competencies through actual on-the-job performance. A student may earn up to 16 units through repeating this course since course content varies and skills are enhanced by supervised repetition and practice. A maximum of 8 units may be earned in a single semester. (CSU transferable)

CONS 139 CRANE CERTIFICATION – 3 Units
Prerequisite: CONS 46 with a grade of C or higher
Class Hours: 18 lecture/108 lab total
This course is designed to give the student the knowledge and skills needed to pass the National Crane Operators Certification examination. The course will cover safe setup and use of cranes, signal man and rigger protocols with an emphasis on hands-on practice. Pre-enrollment drug testing is required and a student must meet with the instructor prior to registration.

CONS 140A COMMERCIAL DRIVER LEARNER’S PERMIT PREPARATION – 2 Units
Grading: Pass/No Pass Only
Note: Students must be in possession of a valid, unrestricted California Class C Driver’s License for the duration of this course.
Class Hours: 36 lecture total (when offered in the distance education format, hours will total 108)
This course will guide the student through the California Department of Motor Vehicles (DMV) Commercial Drivers Handbook to prepare them for the DMV Commercial Learners Permit written exam. This course may be offered in a distance education format.

CONS 140B INTERMEDIATE CLASS A DRIVER’S LICENSE TRAINING – 2 Units
Grading: Pass/No Pass Only
Limitation on Enrollment: Students are required to complete a pre-enrollment process prior to registering for this course, including passing a federal drug test and having a current CDL driving permit. Please email Baits HeavyEquipment@shastacollege.edu for more information on how to enroll in this course, or with any questions regarding the Heavy Equipment Program at Shasta College.
Notes:
1. A valid California Commercial Learners Permit is required throughout the course of the class.
2. Ongoing successful Shasta College specified DOT Drug Testing is required throughout the course of this class.
Class Hours: 18 lecture/54 lab total (when offered in the distance education format, hours will total 54 for the lecture portion of the class and an additional 54 hours of lab, totaling 108 hours for this course)
This is an intermediate-level course designed to give participants the basic skills to obtain a Commercial Class A Driver’s License. The course will emphasize safe operations, pre-operation inspections, and the Department of Motor Vehicles Class A License driving skills test requirements as they pertain to operating regulated on-highway heavy equipment. The lecture portion of this course may be offered in a distance education format.

CONS 148 SURVEYING, GRADE SETTING AND GLOBAL NAVIGATION SATELLITE SYSTEMS (GNSS) FOR CONSTRUCTION – 3 Units (formerly AGRI 148)
Grading: Pass/No Pass Option
Prerequisite: CONS 46 with a grade of C or higher
Limitation on Enrollment: Student must produce a negative test result in accordance with Shasta College Student Substance Abuse Testing Policy at a student cost to be paid to the designated testing facility.
Note: Previous construction experience will be helpful. Student must be enrolled in the college’s random drug testing program.
Class Hours: 27 lecture/81 lab total
This is an advanced level course designed to give the participants practical skills and knowledge in the latest technology and applications related to surveying for construction, grade setting and Global Satellite Control Systems (GNSS). The course will emphasize skills development, with hands on exercises using GNSS technology.

CONS 149A CLASS A & B LICENSE TRAINING – 3 Units (formerly CONS 149, ENV 149, AGRI 149)
Grading: Pass/No Pass Option
Limitation on Enrollment: Students are required to complete a pre-enrollment process prior to registering for this course, including passing a federal drug test. Please email Baits HeavyEquipment@shastacollege.edu for more information on how to enroll in this course, or with any questions regarding the Heavy Equipment Program at Shasta College.
Class Hours: 27 lecture/81 lab total
This is an advanced-level course designed to give the participants practical skills and knowledge in the operation and safety of on-road heavy equipment. The course will emphasize safe operations skills, pre-operation inspections and Department of Motor Vehicles Class A and B license training as it pertains to operating on-road heavy equipment.

CONS 149B CLASS A & B LICENSE SKILLS DEVELOPMENT – 3 Units
Prerequisite: CONS 149A with a grade of C or higher
Class Hours: 18 lecture/108 lab total
This is an advanced level course designed to give the participants additional practical skills and knowledge in the operation and safety of on-road heavy equipment. The course will emphasize safe operation skills, preoperation inspections and Department of Motor Vehicles Class A and B license training as it pertains to operating on-road heavy equipment.

CONS 150 INTRODUCTION TO RESIDENTIAL CONSTRUCTION – 3 Units
Class Hours: 54 lecture total
This course is recommended for entry-level students in the construction trades. Instruction will include tool safety, estimating costs, foundations, framing, plumbing, electrical, mechanical, and finish carpentry work. The student will gain a basic knowledge of the building trades.

**CONS 160 CARPENTRY PRACTICES – 5 Units**  
(formerly CONS 151/152, 151A/151B)  
Class Hours: 72 lecture/54 lab total  
The purpose of this course is to train students to become competent in the construction field. Related information including interpretation of layout, estimation of construction costs and choice quantities of materials will be emphasized. Basic skills will be developed with each phase of the job: foundation, framing, exterior and interior trim, and cabinet work. Basic information of building codes will be covered.

**CONS 161 ELECTRICAL, PLUMBING AND MECHANICAL SYSTEMS – 5 Units**  
(formerly CONS 154/155)  
Class Hours: 72 lecture/54 lab total  
This course is designed to give the student a basic understanding of all electrical, plumbing and mechanical systems and to familiarize them with the applicable construction codes, materials and skills.

**CONS 178 BUILDING CODES AND STANDARDS – 3 Units**  
Class Hours: 54 lecture total  
This course is designed to provide the craftsperson, building, designer, and inspector with knowledge and insight regarding building regulations and requirements for minimum construction guidelines and specifications. It covers the use of the latest Uniform Building, Plumbing, Mechanical and Electric Codes and assists in using them to the builder’s advantage. The class also provides information on sources of assistance and publications to meet the needs for dwelling construction industry.

### CULINARY ARTS (CULA)

The following courses will require extensive reading and math exercises.

**CULA 45 BASIC FOOD PRODUCTION – 5 Units**  
Corequisite: CULA 50, or previous completion of CULA 50 with a grade of C or higher  
Class Hours: 18 lecture/216 lab total  
C-ID: HOSP 160  
This is a beginning laboratory course in food preparation and presentation including cooking equipment, techniques, and safety procedures, using weights and measures, and interpretation of recipes. Product identification and basic cooking techniques and procedures based on nutrition and classic preparation methods are presented. Students are provided hands-on experience in preparing meals by following recipe structure and using and modifying recipes based on knowledge gained through the course. Food preparation is produced in a time-restricted setting to prepare for functioning in a commercial kitchen. This course is designed for students interested in pursuing a career in Culinary Arts/Culinary Management. (CSU transferable)

**CULA 46 ADVANCED FOODS – 5 Units**  
Prerequisites: CULA 45 and CULA 50 with a grade of C or higher  
Class Hours: 18 lecture/216 lab total  
This course examines advanced principles of food preparation of foods served in restaurants. Emphasis given to the planning and preparation of food products relating to restaurants, hotels, and specialty food operations. (CSU transferable)

**CULA 48 GOURMET FOOD PREPARATION – 3 Units**  
Prerequisites: CULA 45 and CULA 50 with a grade of C or higher  
Class Hours: 27 lecture/81 lab total  
This course is designed to teach advanced food preparation techniques and methods. Students learn the science of scratch cookery through small batch assignments. Areas of focus include gourmet items, buffet specialties, hors d’oeuvres, and canapés, while practicing presentation and garnishing. Small scale production is produced in a time-restricted, quality-minded setting. This course is for students pursuing a career in culinary arts/culinary management. (CSU transferable)

**CULA 49 MENU PLANNING AND COST ANALYSIS – 2 Units**  
Class Hours: 36 lecture total (when offered in the distance education format, hours will total 108)  
This course is designed to summarize the basic principles of menu planning and layout for various food service operations. Topics included are pricing, nutrition, and types of menus. This course may be offered in a distance education format. (CSU transferable)

**CULA 50 SANITATION AND SAFETY (formerly CULA 150) – 2 Units**  
Advisory: ENGL 280 with a grade of C or higher, or English Placement Level 5 or higher  
Class Hours: 36 lecture (when offered in the distance education format, hours will total 108)  
This course will provide instruction in the proper use of safety and sanitation principles and practices for personal and institutional application. Methods and techniques for handling foods safely are examined, including food preparation, storage, service, and the prevention of food contamination. Also covered are the importance of microorganisms, food borne illness and food allergies, sanitary facilities and equipment, accident prevention, crisis management, and pest management. Compliance with city, state, and federal health regulation as embodied in HACCP (Hazard Analysis Critical Control Point) are emphasized, along with the supervisor’s responsibilities in maintaining high standards of these principles. This course will provide updated information on USDA, FDA, Codex, and ISO 24,000 regulations and their relationship to food borne illness. The student receives a certificate of completion from the Educational Foundation of the National Restaurant Association upon the successful completion of this course with a passing grade of 75% or higher. This course will provide the safe use of culinary equipment and its proper use to avoid accidents. This course is required for all Culinary Arts/Culinary Management students and is advised to be taken as the first course prior to all other culinary courses or in conjunction with the first few. It may be used for American Culinary certification and recertification, and is required for the Dietary Service Supervisor Certificate offered by the Nutrition Department. This course may be offered in a distance education format. (CSU transferable)

**CULA 55 FOOD AND BEVERAGE COST CONTROL – 2 Units**  
(formerly CULA 155)  
Prerequisites: CULA 45 and CULA 50 with a grade of C or higher  
Class Hours: 36 lecture total (when offered in the distance education format, hours will total 108)  
This course will cover the function of purchasing from the viewpoint of management. It discusses channels of distribution, buying techniques, specification writing and other principles needed to perform this critical activity. This course may be offered in a distance education format. (CSU transferable)

**CULA 59 CATERING AND EVENT PLANNING – 3 Units**  
Prerequisites: CULA 45 and CULA 50 with a grade of C or higher  
Class Hours: 36 lecture/54 lab total  
This course provides practical experiences designed to supplement the basic curriculum and includes special cooperative educational opportunities set up with the College and approved Chefs. Experiences include special and short order food preparation and service, buffet service, catering, dining room management and service and receiving and storeroom procedures. Large scale and small quantity preparation is produced in a time-restricted, quality-minded setting. This course is for students pursuing a career in culinary arts/culinary management. (CSU transferable)

**CULA 60 BEVERAGE MANAGEMENT – 2 Units**  
Class Hours: 36 lecture total (when offered in the distance education format, hours will total 162)  
C-ID: HOSP 130 (with CULA 60)  
This course provides practical experiences designed to supplement the basic curriculum and includes special cooperative educational opportunities set up with the College and approved Chefs. Experiences include special and short order food preparation and service, buffet service, catering, dining room management and service and receiving and storeroom procedures. Large scale and small quantity preparation is produced in a time-restricted, quality-minded setting. This course is for students pursuing a career in culinary arts/culinary management. (CSU transferable)

**CULA 65 DINING ROOM SERVICE – 3 Units**  
Class Hours: 27 lecture/81 lab  
In this course, students will learn in a live environment, the skills and techniques of the “front of the house” service staff. Throughout this course, students will rotate through basic dining room positions, learning
This course builds on previously learned skills while the student studies traditional upscale pantry preparation. Topics covered include hors d’oeuvres, canapés, pâtés, terrines, and charcuterie. Artistic displays, including buffet tables, centerpieces, and culinary showpieces, are presented. The student gains practical experience preparing and serving theme buffets for guests. Small and large scale preparation is produced in a time-restricted, quality-minded setting. This course is for students pursuing a career in culinary arts/culinary management.

**CULA 172 BAKING – 2 Units**
Corequisite: CULA 50, or previous completion of CULA 50 with a grade of C or higher
Class Hours: 18 lecture/54 lab total

This course covers fundamental baking skills for students who intend to specialize in baking and pastry making for commercial production. Production of yeast and quick breads, cakes, cookies, pies, and pastries, as well as decorating and icings, are undertaken. Gourmet baked items and pastries are produced in a time-restricted, quality-minded setting. This course is for students pursuing a career in culinary arts/culinary management.

**CULA 366 WINE WITH FOOD – 0 Units**
Grading: Pass/No Pass Only
Limitation on Enrollment: Students must be 21 years of age or older to take this course.
Class Hours: 36 lecture total (when offered in the distance education format, hours will total 108)

This course is designed to teach students the applied approach to match wine and food from different parts of the world using flavors, textures, and components present in food and wine as complementing strategies. Emphasis on menu planning, preparation of foods, cooking methods, and tasting wines with food. Concepts can be applied to home preparation of food with wine, restaurant food production with wine, and dining out. This course may be offered in a distance education format. (CSU transferable)

**CULA 172 BAKING – 2 Units**
Corequisite: CULA 50, or previous completion of CULA 50 with a grade of C or higher
Class Hours: 18 lecture/54 lab total

This course covers fundamental baking skills for students who intend to specialize in baking and pastry making for commercial production. Production of yeast and quick breads, cakes, cookies, pies, and pastries, as well as decorating and icings, are undertaken. Gourmet baked items and pastries are produced in a time-restricted, quality-minded setting. This course is for students pursuing a career in culinary arts/culinary management.

**CULA 366 WINE WITH FOOD – 0 Units**
Grading: Pass/No Pass Only
Limitation on Enrollment: Students must be 21 years of age or older to take this course.
Class Hours: 36 lecture total (when offered in the distance education format, hours will total 108)

This course is designed to teach students the applied approach to match wine and food from different parts of the world using flavors, textures, and components present in food and wine as complementing strategies. Emphasis on menu planning, preparation of foods, cooking methods, and tasting wines with food. Concepts can be applied to home preparation of food with wine, restaurant food production with wine, and dining out. This course may be offered in a distance education format. (CSU transferable)
Chapter 4: Courses

DAN 17 ADVANCED CHOREOGRAPHY AND DANCE ANALYSIS – 1 Unit
(formerly DAN 30, PE 44, HPE 37CD)
Grading: Pass/No Pass Option
Advisory: DAN 30B with a grade of C or higher
Class Hours: 54 lab total

This course is an advanced class in choreography. Students will have the opportunity to apply the knowledge and skills they have acquired through the technique and choreography classes to create a project that is complete for presentation. As part of the choreographic training, the student will have the option to collaborate with students from other artistic disciplines, sometimes using digital tools to blend dance with video and sound, design their own lighting and prepare a piece for public performance. (CSU/UC transferable)

DAN 20A BEGINNING MODERN DANCE – 1 Unit
(formerly DAN 20, PE 40, HPE 36AB)
Grading: Pass/No Pass Option
Class Hours: 54 lab total

This course teaches fundamental movement, techniques, terminology, basic rhythm, and simple choreography of modern dance. (CSU/UC transferable)

DAN 20B INTERMEDIATE MODERN DANCE - 1 Unit
(formerly DAN 21, PE 43, HPE 47AD, HPE 36CD)
Grading: Pass/No Pass Option
Advisory: DAN 20A with a grade of C or higher
Class Hours: 54 lab total

Movement, techniques, terminology, basic rhythm, and choreography of modern dance at an intermediate level. (CSU/UC transferable)

DAN 20C ADVANCED INTERMEDIATE MODERN DANCE - 1 Unit
Grading: Pass/No Pass Option
Advisory: DAN 20B with a grade of C or higher
Class Hours: 54 lab total

A class for modern dance students interested in more technical and sophisticated performing and choreography. (CSU/UC transferable)

DAN 20D ADVANCED MODERN DANCE - 1 Unit
Grading: Pass/No Pass Option
Advisory: DAN 20C with a grade of C or higher
Class Hours: 54 lab total

A class for modern dance students interested in advanced choreography and performance experience. (CSU/UC transferable)

DAN 30A BEGINNING BALLET – 1 Unit
(formerly DAN 30, PE 41, HPE 37AB)
Grading: Pass/No Pass Option
Class Hours: 54 lab total

This course is an introduction to the art form of classical concert dance and includes beginning classical technique, emphasis on body placement; introduction to classical ballet terminology used worldwide, recognition of the musical rhythms that accompany specific historic steps, beginning choreography of most used ballet step combinations and patterns. (CSU/UC transferable)

DAN 30B INTERMEDIATE BALLET – 1 Unit
(formerly DAN 31, PE 44, HPE 45AD, HPE 37CD)
Grading: Pass/No Pass Option
Advisory: DAN 30A with a grade of C or higher
Class Hours: 54 lab total

This is an intermediate level course of classical concert dance and includes intermediate level techniques, recognition of differences in classroom labels between different schools of ballet, developing ability in coordination of steps, musical rhythms and recognition of ballet steps, combinations and patterns. (CSU/UC transferable)

DAN 30C ADVANCED INTERMEDIATE BALLET – 1 Unit
(formerly DAN 31, PE 44, HPE 45AD, HPE 37CD)
Grading: Pass/No Pass Option
Advisory: DAN 30B with a grade of C or higher
Class Hours: 54 lab total

This is a class for ballet students interested in developing a more technical and sophisticated aspect of classical dance. Students will be instructed in the process of the classical exercises and be able to identify their purpose. Students will gain knowledge of the different schools of thought and the terminology of classical dance. There are performance and choreographic requirements and opportunities. (CSU/UC transferable)

DAN 30D ADVANCED BALLET, POINTE AND PARTNERING – 1 Unit
(formerly DAN 32)
Grading: Pass/No Pass Option
Advisory: DAN 30C with a grade of C or higher
Class Hours: 54 lab total

This is an advanced level of ballet for the student who is ready to approach the art of classical technique that involves dancing on pointe and the fundamentals of partnering another dancer. Students will be taught original variations from past masters as well as contemporary work of choreographers working today. Performance opportunities are available each semester. (CSU/UC transferable)

DAN 40A BEGINNING JAZZ DANCE – 1 Unit
(formerly DAN 40, PE 42 and HPE 72AB)
Grading: Pass/No Pass Option
Class Hours: 54 lab total

A class for jazz dance students interested in a more technical and sophisticated level of jazz dance. (CSU/UC transferable)

DAN 40B INTERMEDIATE JAZZ DANCE – 1 Unit
(formerly DAN 41, PE 45, HPE 72CD, HPE 46AD)
Grading: Pass/No Pass Option
Advisory: DAN 40A with a grade of C or higher
Class Hours: 54 lab total

Fundamental movement, techniques, terminology, basic rhythm, and simple choreography of jazz dance. (CSU/UC transferable)

DAN 40C ADVANCED INTERMEDIATE JAZZ DANCE – 1 Unit
Grading: Pass/No Pass Option
Advisory: DAN 40B with a grade of C or higher
Class Hours: 54 lab total

A class for jazz dance students interested in more technical and sophisticated performing and choreography. (CSU/UC transferable)

DAN 40D ADVANCED JAZZ DANCE – 1 Unit
Grading: Pass/No Pass Option
Advisory: DAN 40C with a grade of C or higher
Class Hours: 54 lab total

A class for jazz dance students interested in advanced technical and sophisticated performing and choreography. (CSU/UC transferable)

DENTAL (DNTL)

DNTL 10 ORAL BIOLOGY - 3 Units
Limitation on Enrollment: Enrollment in the Dental Hygiene Program
Class Hours: 54 lecture/18 lab total

The study of embryology and histology of oral structural formation, clinical recognition of normal oral structures, the physiological and structural functions of teeth and supporting tissues, and oral anatomy relative to proper dental hygiene procedures. (CSU transferable)

DNTL 11 ORAL RADIOLOGY - 3 Units
Limitation on Enrollment: Enrollment in the Dental Hygiene Program
Class Hours: 36 lecture/54 lab total

This course focuses on radiation physics, biology, protection, quality, dental techniques, film processing and mounting, interpretation of errors, recognition of anatomical landmarks, and evidence of pathologies. Students practice skills on radiographic models and student patients in a clinical setting; all skills are taught to clinical competence. This course builds on basic and dental sciences and prepares for clinical dental hygiene practice. (CSU transferable)
DNTL 12 HEAD AND NECK ANATOMY - 2 Units
Limitation on Enrollment: Enrollment in the Dental Hygiene Program
Class Hours: 27 lecture/27 lab total
This course studies the anatomical structures of the head and neck regions and relates these structures to the clinical practice of Dental Hygiene. (CSU transferable)

DNTL 13 DENTAL HEALTH EDUCATION/SEMINAR – 2 Units
Limitation on Enrollment: Enrollment in the Dental Hygiene Program
Class Hours: 36 lecture total
Principles and practices of prevention and control of dental disease with emphasis on nutrition, and plaque control, motivation and chairside patient education. (CSU transferable)

DNTL 14 INTRODUCTION TO CLINIC – 4 Units
Limitation on Enrollment: Enrollment in the Dental Hygiene Program
Class Hours: 36 lecture/108 lab total
This course offers an introduction to all clinical procedures and skills needed for Dental Hygiene. (CSU transferable)

DNTL 20 LOCAL ANESTHESIA AND NITROUS OXIDE – 2 Units
Prerequisites: DNTL 10, DNTL 11, DNTL 12, and DNTL 14 with a grade of C or higher
Class Hours: 18 lecture/54 lab total
Covers the pharmacology and physiology of local anesthetic agents and effective technique in delivery of these agents to the oral cavity. Focuses on the anatomy of the nerves, physiology of nerve conduction, and how anesthesia works. Discusses the prevention and management of associated emergencies. Skills are practiced in a clinical setting on student patients; all skills are taught to clinical competence. (CSU transferable)

DNTL 21 GENERAL AND ORAL PATHOLOGY – 4 Units
Prerequisites: DNTL 10, DNTL 11, DNTL 12, DNTL 13, and DNTL 14 with a grade of C or higher
Class Hours: 72 lecture total
This course covers pathological processes of inflammation, immunology defense, degeneration, neoplasm, developmental disorders, and healing and repair. It also includes recognition of abnormalities in the human body, with a special emphasis on normal and abnormal conditions in the oral cavity. (CSU transferable)

DNTL 23 PATIENT MANAGEMENT AND GERIATRICS – 2 Units
Prerequisites: DNTL 10, DNTL 11, DNTL 12, DNTL 13, and DNTL 14 with a grade of C or higher
Class Hours: 36 lecture total
This course teaches characteristics of individual patients, motivation, and management of patients with special needs. Treatment of the compromised patient and myofunctional therapy is presented. (CSU transferable)

DNTL 24 CLINICAL PRACTICE I – 4 Units
Prerequisites: DNTL 10, DNTL 11, DNTL 12, DNTL 13, and DNTL 14 with a grade of C or higher
Class Hours: 18 lecture/162 lab total*
Lab hours may be listed as TBA in course schedule. Specific times and meeting location(s) will be provided in the First Class Handout.
This course provides beginning clinical experience in the treatment of adult and child patients. Various clinical procedures utilizing scaling and polishing techniques, oral inspection, cancer screening, and dental and periodontal charting, principles of ultrasonic scaling, plaque control instruction and fluoride application will be taught. (CSU transferable)

DNTL 25 CLINIC I SEMINAR – 2 Units
Prerequisites: DNTL 10, DNTL 11, DNTL 12, DNTL 13, and DNTL 14 with a grade of C or higher
Class Hours: 36 lecture total
This course provides expanded learning opportunities related to clinical dental hygiene care through lecture, discussion, and demonstration. (CSU transferable)

DNTL 26 NUTRITION IN DENTISTRY – 1 Unit
Prerequisites: DNTL 10, DNTL 11, DNTL 12, DNTL 13, and DNTL 14 with a grade of C or higher
Class Hours: 18 lecture total
DNTL 26 Nutrition in Dentistry provides the basic principles of nutrition with relation to oral health. The intention of this course is to provide students with the skills necessary to perform dietary surveys on clinic patients and plan nutritional dietary programs to address patient needs. (CSU transferable)

DNTL 27 SUMMER CLINIC 27 – 1 Unit
Grading: Pass/No Pass Only
Prerequisites: DNTL 11, DNTL 12, DNTL 14, DNTL 20, DNTL 23, and DNTL 24 with a grade of C or higher
Class Hours: 54 lab total
This course will provide students with the opportunity to become more proficient in the clinical skills learned and practiced during previous clinical courses including instrumentation techniques, patient assessment, and administration of local anesthesia. (CSU transferable)

DNTL 30 PERIODONTOLOGY I – 3 Units
Prerequisites: DNTL 20, DNTL 21, DNTL 23, DNTL 24, DNTL 25, and DNTL 26 with a grade of C or higher
Class Hours: 54 lecture total
A course in Periodontology teaches the scientific study of the structures and function of the periodontium in both health and disease, the etiology and principles of periodontal diseases, examination procedures, treatment and preventative measures. (CSU transferable)

DNTL 31 PHARMACOLOGY – 2 Units
Prerequisites: DNTL 20, DNTL 21, DNTL 23, DNTL 24, DNTL 25, and DNTL 26 with a grade of C or higher
Class Hours: 36 lecture total
Focuses on pharmacology as it affects the clinical practice of dental hygiene. Emphasizes drugs commonly used in the dental profession for treatment of common systemic and oral diseases and for emergency treatment. Focuses on the effects, administration, and toxicity of pharmacodynamics. Builds on basic and dental sciences and prepares for clinical dental hygiene practice. (CSU transferable)

DNTL 32 DENTAL MATERIALS – 2 Units
Prerequisites: DNTL 20, DNTL 21, DNTL 23, DNTL 24, DNTL 25, and DNTL 26 with a grade of C or higher
Class Hours: 36 lecture/18 lab total
Presents the history, composition, chemical and physical properties and use of materials commonly utilized in the dental laboratory and dental operatory. Builds on dental sciences. Provides laboratory experience in performing common dental laboratory procedures and prepares for the clinical practice of extended functions. All skills are taught to competence. (CSU transferable)

DNTL 33 ADVANCED CLINICAL TOPICS – 2 Units
Prerequisites: DNTL 20, DNTL 21, DNTL 23, DNTL 24, DNTL 25, and DNTL 26 with a grade of C or higher
Class Hours: 36 lecture total
This course is designed to present advanced topics and current technology used in the dental and dental hygiene field such as soft tissue curettage, root morphology and periodontal instrumentation, oral brush biopsy, non-surgical periodontal dressings, care for dental implants, oral maxillofacial surgery and orthodontics. (CSU transferable)

DNTL 34 CLINICAL PRACTICE II – 4 Units
Prerequisites: DNTL 20, DNTL 21, DNTL 23, DNTL 24, DNTL 25, and DNTL 26 with a grade of C or higher
Class Hours: 216 lab total
Advanced skills of dental hygiene practice, including assessment and treatment, are practiced on patients in a clinical setting, with emphasis on planning and comprehensive treatment; all skills are taught to competencies specific to the course. Expands on the procedures and techniques introduced in previous preclinical and clinical courses. Builds on basic and dental sciences and prepares for clinical dental hygiene practice. (CSU transferable)

DNTL 35 CLINICAL II SEMINAR – 1 Unit
Prerequisites: DNTL 20, DNTL 21, DNTL 23, DNTL 24, DNTL 25, and DNTL 26 with a grade of C or higher
Class Hours: 18 lecture total
Provides an expanded learning experience through discussion of dental hygiene care for the culturally diverse, tobacco cessation counseling, and seminar study of clinical cases. Builds on basic and dental sciences and prepares for clinical dental hygiene practice. (CSU transferable)

DNTL 40 PERIODONTOLOGY II – 1 Unit
Prerequisites: DNTL 30, DNTL 31, DNTL 32, DNTL 33, DNTL 34, and
DNTL 35 with a grade of C or higher
Class Hours: 18 lecture total

This is a course to enhance assessment skills applicable in the treatment of patients with advanced periodontal disease. The goal of this course is to teach the dental hygienist ethical and clinical responsibility in periodontal disorders and to teach the relationship of the specialty practice of periodontics within the broad scope of dentistry and the legal ramifications thereof. (CSU transferable)

**DNTL 41 PRACTICE AND FINANCIAL MANAGEMENT – 1 Unit**
Prerequisites: DNTL 30, DNTL 31, DNTL 32, DNTL 33, DNTL 34, and DNTL 35 with a grade of C or higher
Class Hours: 18 lecture total

This course covers office practice management, ethical and legal aspects of dentistry and dental hygiene, and business matters relating to dental hygiene practice. (CSU transferable)

**DNTL 42 CLINIC III SEMINAR – 2 Units**
Prerequisites: DNTL 30, DNTL 31, DNTL 32, DNTL 33, DNTL 34, and DNTL 35 with a grade of C or higher
Class Hours: 18 lecture/54 lab total

Provides an expanded clinical experience exposure through independent study or additional clinical experience. (CSU transferable)

**DNTL 43 CLINICAL PRACTICE III – 4 Units**
Prerequisites: DNTL 30, DNTL 31, DNTL 32, DNTL 33, DNTL 34, and DNTL 35 with a grade of C or higher
Class Hours: 216 lab total

This course provides students with the opportunity to become more proficient in the clinical skills learned and practiced in previous clinical courses and to prepare them for success on their state and national board examinations. (CSU transferable)

**DNTL 44 COMMUNITY ORAL HEALTH – 3 Units**
Prerequisites: DNTL 30, DNTL 31, DNTL 32, DNTL 33, DNTL 34, and DNTL 35 with a grade of C or higher
Class Hours: 54 lecture total

Introduces students to the principles and practices of dental public health. The emphasis is placed on the role of the dental hygienist as an innovator of, and an educator in community health programs. Public health issues will be introduced and completely discussed. (CSU transferable)

**DNTL 45 ETHICS AND JURISPRUDENCE – 2 Units**
Prerequisites: DNTL 30, DNTL 31, DNTL 32, DNTL 33, DNTL 34, and DNTL 35 with a grade of C or higher
Class Hours: 36 lecture total

This course is a study of the fundamental factors necessary to be employed and practice within the ethical and legal framework of the State Dental Practice Act and Code of Ethics of the American Dental Association. (CSU transferable)

**DNTL 54 SUMMER CLINIC 54 – 1 Unit**
Grading: Pass/No Pass Only
Prerequisites: DNTL 14, DNTL 20, DNTL 24, DNTL 30, DNTL 34, and DNTL 43 with a grade of C or higher
Class Hours: 54 lab total

This course will provide students with the opportunity to become more proficient in the clinical skills learned and practiced during previous clinical courses and to prepare for success on their state clinical licensing examinations. This course is offered on a pass/no pass basis only. (CSU transferable)

**DIES 48 HYDRAULICS – 3.5 Units**
Grading: Pass/No Pass Option
Class Hours: 36 lecture/81 lab total (when offered in the distance education format, hours will total 189)

A study of the theory, application, and component parts of a hydraulic system. This course will emphasize fundamentals in dismantling, inspection, and troubleshooting hydraulic components and complete systems. Closed-loop application, inspection and troubleshooting will be studied. This course is required for all Diesel Technology, Welding Technology, and Equipment Operations and Maintenance majors. This course may be offered in a distance education format. (CSU transferable)

**DIES 49 ADVANCED HYDRAULICS (formerly AGRI 49) – 3 Units**
Grading: Pass/No Pass Option
Prerequisite: DIES 48 with a grade of C or higher
Class Hours: 27 lecture/81 lab total (when offered in the distance education format, hours will total 162)

This course will emphasize the application of cylinders and motor used to control fluid power systems. Hydraulic-pneumatic circuitry, maintenance, repair, and closed loop drives will be covered. Recommended for Equipment Operations and Maintenance, production, agriculture, and diesel majors. This course may be offered in a distance education format. (CSU transferable)

**DIES 94 DIESEL TECHNOLOGY WORKSITE LEARNING – 1-8 Units**

Limitation on Enrollment: Financial aid students must maintain concurrent enrollment in seven (7) units which include worksite learning units. Students not receiving financial aid do not need to enroll in other courses in order to participate in Worksite Learning Classes.

Class Hours: 75 hours paid or 60 hours non-paid per unit

The Diesel Technology Worksite Learning course allows the student to gain on-the-job experience through employment/volunteerism at an approved diesel technology job site that is acquired by the student and related to the student’s major. A faculty member supervises all WSL courses to ensure that the work experience is of educational value. The course stresses good work habits and meeting of competencies through actual on-the-job performance. A student may earn up to 16 units through repeating this course since course content varies and skills are enhanced by supervised repetition and practice. A maximum of 8 units may be earned in a single semester. (CSU transferable)

**DIES 160 DIESEL ENGINE ELECTRONIC CONTROL – 4 Units**
Class Hours: 45 lecture/81 lab total (when offered in the distance education format, hours will total 216)

This course will cover electronic diesel engine control systems as related to testing, calibrating and diagnostic procedures. Industry software-generated computer programs will be utilized. This course may be offered in a distance education format.

**DIES 161 DIESEL TECHNOLOGY FIELD TRAINING – 2 Units**
Class Hours: 18 lecture/54 lab total (when offered in the distance education format, hours will total 108)

This course is designed to prepare the student for a career in the diesel technology field. Classroom instruction will include work-site expectations, interview techniques, and assessment of work performance. The student will be placed with local industry at various diesel repair facilities to expose them to actual industry standards. This course may be offered in a distance education format.

**DIES 162 HEAVY DUTY DRIVE TRAIN – 4 Units**
Class Hours: 54 lecture/54 lab total (when offered in the distance education format, hours will total 216)

This course covers shop practices in service, repair, adjustment and preventive maintenance of heavy duty drive trains. This course may be offered in a distance education format.

**DIES 164 BEGINNING DIESEL ENGINES – 4 Units**
Class Hours: 54 lecture/54 lab total (when offered in the distance education format, hours will total 216)

Diesel fuel systems, composition of fuels, combustion chamber design, manifolds, fuel and air filters, fuel transfer pumps, fuel-injection pumps and injectors are taught in this class. Mechanical and electronic fuel controls will be analyzed. You will learn testing, calibrating and diagnostic procedures, using modern test equipment. Performance analysis of diesel engines as related to the California Air Resources Board Heavy Duty Vehicle Smoke and Tampering Inspection Program as mandated by Senate Bill 1997 of 1988 will be covered. This course may be offered in a distance education format.

**DIES 166 DIESEL ENGINES – 6 Units**
Prerequisite: DIES 164 with a grade of C or higher
Class Hours: 54 lecture/162 lab total (when offered in the distance education format, hours will total 324)
This course is an in-depth study of various diesel engines, theory of design, operation and application. This lab will provide training in the disassembly and inspection of diesel engines, practical assembly procedures and technical analysis of engine services. This course may be offered in a distance education format.

**DIES 169 ADVANCED ELECTRONICS AND EMISSIONS MANAGEMENT – 3 Units**

Prerequisites: DIES 160, DIES 164, and DIES 166 with a grade of C or higher

This is an advanced course that covers the computerized diesel engine management systems and emissions packages found on current medium and heavy duty trucks. Students will gain real world experience by testing, analyzing, and repairing these systems. This course may be offered in a distance education format.

**DIES 170 HEAVY DUTY BRAKING SYSTEMS – 4 Units**

Class Hours: 54 lecture/54 lab total (when offered in the distance education format, hours will total 216)

This course will cover the basic design and repair of foundation brakes and air systems pertaining to heavy duty vehicles. This course may be offered in a distance education format.

**DIETARY SERVICES SUPERVISOR (DSS)**

This course will cover effective management skills in food production, food purchasing policies and procedures, and the role of the Dietary Service Supervisor. Basic institutional cooking skills will be presented including using weights and measures, choosing ingredients and food preparation methods. Students will be involved in menu planning and costing, recipe standardization and recipe costing. Instruction on the selection, safety and usage of institutional equipment will be provided.

This course may be offered in a distance education format. (CSU transferable)

This course includes methods of supervision and leadership which are applicable to the food service industry. Methods and techniques of recruitment, selection, training and evaluation of personnel are covered. Record maintenance, enforcement of safety and sanitary standards; supervision of food service employees are stressed. This course may be offered in a distance education format. (CSU transferable)

**DSS 94 DSS CERTIFICATE WORKSITE LEARNING – 1-8 Units**

Prerequisites: DSS 63 and CULA 50 with a grade of C or higher

Corequisites: DSS 10 and NUTR 27, or previous completion of DSS 10 and NUTR 27 with a grade of C or higher.

Limitation on Enrollment: 1. All students participating in DSS 94 must pass a drug screening and background check prior to enrollment in the course. Students are financially responsible for meeting these requirements according to the established program process.

2. Financial aid students must maintain concurrent enrollment in seven (7) units which include worksite learning units. Students not receiving financial aid do not need to enroll in other courses in order to participate in Worksite Learning Classes.

Class Hours: 75 hours paid or 60 hours non-paid per unit

Students must complete 150 hours of verified, supervised field experience in a healthcare setting as required by the CA Department of Public Health (CDPH) for the DSS Certificate, and must follow the current CDPH requirements and regulations of the CDPH. The course stresses good work habits and meeting of required competencies through actual on-the-job performance with a preceptor. Students must complete a minimum of 150 hours, but may complete up to a maximum of 16 units in this WSL course in order to meet the required competencies. (CSU transferable)

C-ID: CDEV 110

Child, Family, Community introduces the student to the interacting influences of family life and community experiences, with consideration of historical and socio-cultural factors, that affect the developing child. The course focuses on the primary social relationships and social settings within the context of dissimilar family patterns. The study encourages understanding and practical utilization of community systems and resources that promote quality outcomes for both preschool and school age children, families, schools, and communities. This course may be offered in a distance education format. (CSU transferable)

Prerequisites: ECE 7, ECE 17, and ECE 20 with a grade of C or higher

Note: Supervised field experience for the Child Development Permit will...
be obtained through the course lab hours at the Shasta College ECE Center Lab School or an early childhood Mentor classroom.

Class Hours: 36 lecture/54 lab total* (when offered in the distance education format, lecture hours will total 162)

*Lab hours may be listed as TBA in course schedule. Specific times and meeting location(s) will be provided in the First Class Handout.

C-ID: ECE 210

This capstone course focuses on identifying, developing, and refining skills and behaviors essential for effective teaching of young children, consistent with national standards. The course is intended for students who want or need a supervised field experience where they have the opportunity to work directly with children to integrate theory and practice. Students will have the opportunity to practice and demonstrate skills that focus on child-centered, play-based approaches to teaching by designing, implementing, and evaluating developmentally appropriate activities, as well as gaining practical knowledge of learning and assessment. Knowledge of curriculum design will be emphasized as students plan, prepare, present, and evaluate experiences that promote positive development. The lecture component of this course may be offered in a distance education format. This course includes 54 hours of participation with young children in the Shasta College ECE Center Lab School or in a certified early childhood Mentor classroom. (CSU transferable)

ECE 9  CHILD GROWTH AND DEVELOPMENT – 3 Units

Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

C-ID: CDEV 100

This course provides an in-depth examination of the major physical, psychosocial, and cognitive/language developmental milestones for children, both typical and atypical, from conception through adolescence. There will be an emphasis on interactions between maturational processes and environmental factors. While studying developmental theory and investigative research methodologies, students will observe children, evaluate individual differences and analyze characteristics of development at various stages. This course may be offered in a distance education format. (CSU/Uc transferable)

ECE 12  INFANT TODDLER LEARNING – 3 Units

Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course focuses on developmental research and current practices during conception, infancy and toddlerhood. Applies theoretical frameworks to interpret behavior and interactions between heredity and environment with an emphasis on understanding developmental stages, planning optimal environments and clarifying the care giving role of teachers and child care workers for children during the first three years of life. This course may be offered in a distance education format. (CSU transferable)

ECE 14  SCHOOL AGE AND ADOLESCENT DEVELOPMENT – 3 Units

Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

A course focusing on growth, development and behavior of school age children and adolescents. Current research and theoretical concepts will be discussed and analyzed for practical implications and applications to assist those living with and/or working with school age children and adolescents. This course may be offered in a distance education format. (CSU transferable)

ECE 15  CHILD HEALTH, SAFETY AND NUTRITION – 3 Units

Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

C-ID: ECE 220

Provides an opportunity for early childhood educators and caregivers to focus on health, safety and nutrition in children's programs. Fundamentals of a safe and healthful environment, including knowledge of state and local laws and regulations will be introduced. Key factors that ensure physical health, mental health and safety for both children and staff, and effective strategies for working collaboratively with families will be identified. Community health, safety and nutrition resources and their application to the children's curriculum will be highlighted. This course may be offered in a distance education format. (CSU transferable)

ECE 16  ADULT SUPERVISION AND MENTORING IN EARLY CARE AND EDUCATION – 2 Units

Prerequisite: ECE 7 with a grade of C or higher

Advisory: ECE 3 with a grade of C or higher

Class Hours: 36 lecture total (when offered in the distance education format, hours will total 108)

Designed to satisfy the Child Development Permit Adult Supervision requirement. Course content focuses on the methods and principles of supervising the adult learner in the early childhood program. Addresses the roles of early childhood professionals who function as a mentor to other staff and parents while simultaneously meeting objectives for children, parents, and staff, with emphasis on the classroom teacher. Expanded modeling, guidance, and evaluation approaches will be examined. This course may be offered in a distance education format. (CSU transferable)

ECE 17  PRINCIPLES AND PRACTICES OF TEACHING YOUNG CHILDREN – 3 Units

Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

C-ID: ECE 120

This course is an examination of the underlying theoretical principles of developmentally appropriate practices applied to programs and environments. It emphasizes the key role of relationships, constructive adult-child interactions, and teaching strategies in supporting physical, social, creative, and intellectual development for all children. It includes a review of the historical roots of early childhood programs and the evolution of the professional practices promoting advocacy, ethics, and professional identity. Emphasis will be placed upon increasing the student's skills in critically analyzing educational settings for young children. Special attention will be given to room arrangement, selection and storage of materials. This course may be offered in a distance education format. (CSU transferable)

ECE 20  INTRODUCTION TO CURRICULUM – 3 Units

Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

C-ID: ECE 130

This course presents an overview of knowledge and skills related to providing developmentally appropriate curriculum and environments for young children from birth to age 8. Students will examine a teacher's role in supporting development and fostering the joy of learning for all young children using observation and assessment strategies. An overview of content areas will include but not be limited to: language and literacy, social and emotional learning, sensory learning, art and creativity, math and science. Students will acquire an understanding of the philosophies and strategies for developing and documenting integrated curricula for early childhood programs including ways to organize and implement daily, monthly, and long-range activity planning. This course may be offered in a distance education format. (CSU transferable)

ECE 22  CARE AND EDUCATION FOR INFANTS AND TODDLERS – 3 Units

Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

Focuses on the planning, preparation, and presentation of developmentally appropriate curriculum activities, materials, and learning environments for use with infants and toddlers to support physical, social-emotional, cognitive and language development. Emphasis will be placed upon increasing the student's skills in critically analyzing education settings and materials for infants and toddlers. Special attention will be given to both indoor and outdoor environments and curriculum. This course may be offered in a distance education format. (CSU transferable)

ECE 24  E.C. CURRICULUM: SCHOOL AGE CARE – 3 Units

Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course will examine the planning and presentation of curriculum experiences for school age children in an extended care setting. Opportunities to develop skills in enhancing the school age child's day with developmental experiences and positive social interaction will be provided. Focus will be placed on individualized and group activities to encourage the development of self-esteem, motivation for learning, and recreational skills. Special attention will be given to both indoor and outdoor environments and curriculum. This course may be offered in a distance education format. (CSU transferable)
ECE 26 THE CHILD WITH SPECIAL NEEDS – 3 Units
Prerequisite: ECE 1 or ECE 9 with a grade of C or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course will focus on early childhood education and children with special needs. Developmental, educational, and family issues related to children and youth with disabilities and giftedness will be presented. The course also provides an overview of special education as a professional discipline, including its history, laws, challenges, current trends, and issues. This course will explore different types of special needs identified in children including children who are: gifted, developmentally delayed, learning disabled, as well as children with: emotional and behavioral disorders, communication disorders, sensory disorders, neurological disorders, and health impairments. This course may be offered in a distance education format. (CSU transferable)

ECE 27 TEACHING CHILDREN WITH SPECIAL NEEDS AND EARLY INTERVENTION STRATEGIES – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course focuses on learning to work with children birth to eight years of age with disabilities and other special needs and their families in inclusive early childhood educational settings. It will include an exploration of the following: characteristics of young children with disabilities and other special needs; impact on the family; types of educational and other programs/services that are available; modifications of the educational environment; approaches to assessment and curriculum; and integration and future trends. Upon completion, students should be able to recognize atypical development, make appropriate referrals, and work collaboratively to plan, implement, and evaluate inclusion and intervention strategies. This course may be offered in a distance education format. (CSU transferable)

ECE 28 TEACHING IN A DIVERSE SOCIETY – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: ECE 230
Examination of the development of social identities in diverse societies including theoretical and practical implications of oppression and privilege as they apply to young children, families, programs, classrooms, and teaching. Various early education classroom strategies will be explored emphasizing culturally and linguistically appropriate anti-bias approaches supporting all children in becoming competent members of a diverse society. Course includes self-examination and reflection on issues related to social identity, stereotypes and bias, social and educational access, media, and schooling. This course may be offered in a distance education format. (CSU transferable)

ECE 51 ADMINISTRATION II: PERSONNEL AND LEADERSHIP IN EARLY CHILDHOOD EDUCATION – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course covers effective strategies for personnel management and leadership in early care and education settings. Content includes legal and ethical responsibilities, supervision techniques, professional development, and reflective practices for diverse and inclusive early childhood settings. This course may be offered in a distance education format. (CSU transferable)

ECE 52 GUIDANCE IN ADULT-CHILD RELATIONS – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course explores principles and strategies of positive guidance that are both effective and flexible for adults interacting with young and school age children. Cognitive, social, and emotional characteristics and needs of children will be examined. This course would be of interest to parents, educators, caregivers, and any adult involved with or interested in children. This course may be offered in a distance education format. (CSU transferable)

ECE 60 ADVANCED CURRICULUM – 3 Units
Prerequisite: ECE 20 with a grade of C or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course will explore multiple areas of development for young children. Students will analyze the factors that affect and facilitate physical growth and development of young children. Students will learn strategies for supporting affective development with specific guidance directed to young children's social, emotional, and creative needs. This course will enable students to enhance young children's cognitive skills in language development and critical thinking skills. An integrated curriculum will be created with focus on health and nutrition, music and rhythm, perceptual and motor development, art expression, self-understanding, socialization, communication, literacy, mathematics, and science inquiry. Students will acquire strategies for identifying curriculum goals and procedures that strengthen young children's skills. This course may be offered in a distance education format. (CSU transferable)

ECE 94 EARLY CHILDHOOD EDUCATION WORKSITE LEARNING – 1-8 Units
Limitation on Enrollment: Financial aid students must maintain concurrent enrollment in seven (7) units which include worksite learning units. Students not receiving financial aid do not need to enroll in other courses in order to participate in Worksite Learning Classes.
Class Hours: 75 hours paid or 60 hours non-paid per unit
The Early Childhood Education Worksite Learning course allows the student to gain on-the-job experience through employment/volunteerism at an approved early childhood education job site that is acquired by the student and related to the student’s major. A faculty member supervises all WSL courses to ensure that the work experience is of educational value. The course stresses good work habits and meeting of competencies through actual on-the-job performance. A student may earn up to 16 units through repeating this course since course content varies and skills are enhanced by supervised repetition and practice. A maximum of 8 units may be earned in a single semester. (CSU transferable)

ECE 140 ESSENTIALS OF 40 DEVELOPMENTAL ASSETS – 1 Unit
Class Hours: 18 lecture total (when offered in the distance education format, hours will total 54)
This course offers an expanded study of the key elements necessary for children/youth to develop positive and healthy behaviors and habits. The research behind 40 Developmental Assets will be explored and action-based methods of using this research will be reviewed. Current strength-based approaches to building assets in children/youth will be analyzed. This course may be offered in a distance education format.

ECE 147 MENTAL HEALTH AWARENESS IN ECE PROGRAMS – 1 Unit
Class Hours: 18 lecture total (when offered in the distance education format, hours will total 54)
This course introduces the student to mental health issues in young children, their families, and their caregivers. It includes an overview of early childhood mental health from prenatal development to eight years of age, and the effects of environment and biology on mental health. Students will become aware of potential mental health concerns in early childhood, and how we can help children, parents, and caregivers in our programs. This course may be offered in a distance education format.

EARTH SCIENCE (ESCI)
(formerly Geology and Physical Science)

ESCI 1 THE ACTIVE EARTH – 4 Units (formerly GEOL 1, GEOL 1A)
Note: Required field trips.
Class Hours: 54 lecture/54 lab total (when offered in the distance education format, hours will total 162 for the lecture portion of the class and an additional 54 hours of lab, totaling 216 hours for this course)
C-ID: GEOL 101
This course is an introduction to the physical processes that drive Earth as a dynamic planet. Both internal and external processes are considered as well as their inter-relationships. Discussion in the course will include Earth's internal structure, plate tectonics, minerals and rocks and their origins, surface processes, geologic structures such as faulting and folding, metamorphism, sedimentation, soil formation, geologic time including radiometric methods, geologic hazards such as earthquakes, volcanism, mass wasting, flooding, and the vital nature of Earth materials to society. Laboratory activities will focus on the application of classroom concepts and will include mineral and rock identification, geologic structures, topographic and geologic map use, use of remote imagery, recognition of landforms, geologic time, seismology, and volcanism.
Chapter 4: Courses

Lecture and laboratory will consider geologically produced and influenced natural resources, their exploitation, and concepts centered about sustainable uses. The lecture portion of this course may be offered in a distance education format. (CSU/UC transferable)

ESCI 2 EARTH: THE HISTORY OF OUR PLANET – 4 Units
(formerly GEOL 2, GEOL 1B)
Advisory: GEOG 1A and GEOG 1AL, GEOG 7, NHIS 5, or NHIS 15 with a grade of C or higher
Notes:
1. Completion of any ESCI course, except ESCI 14/14L, OR any one of the listed advisory courses with a minimum grade of C is recommended.
2. Required day and overnight field trips.
Class Hours: 54 lecture/54 lab total
C-ID: GEOL 111

Natural processes on Earth develop results specific to those processes. For example, the results of volcanism are unique to eruptions while rivers and flowing water form their own deposits, as do crashing waves along a shore. These signature results can be preserved in rocks, often with fossils included. The study of Earth's history is then revealed in rock successions as they collect through time. This course will define the origin of minerals, rocks and fossils in successions, described as stratigraphy and often formed in relation to mountain building episodes, in an effort to understand Earth through time. Supporting concepts include biologic evolution, geologic time, and paleogeographic relationships. Plate tectonics and crustal evolution will provide a base framework though with a North American focus and an emphasis on the west coast. Laboratory exercises will include the description and classification of minerals and rocks, the recognition of ancient metamorphic, igneous and sedimentary environments, the recognition, occurrence, and geologic use of fossil organisms, introduction to and application of stratigraphic principles, recognition of geologic structures, and the development and use of different types of geologic maps and cross sections. (CSU/UC transferable)

ESCI 3 MINERALOGY AND CRYSTAL OPTICS – 5 Units
(formerly GEOL 3)
Prerequisite: ESCI 1 with a grade of C or higher
Corequisite: CHEM 1A, or previous completion of CHEM 1A with a grade of C or higher
Class Hours: 54 lecture/108 lab total
C-ID: GEOL 280

This course is an exploration into the chemistry, classification, optics and crystalline structure of minerals. Topics covered in the course will include the chemistry, bonding, and crystalline structure of minerals, recognition of crystal types, physical properties of minerals, mineral classification as well as their origins, occurrence, and use, and an introduction to the theory of optical identification of minerals. Laboratory activities will include crystallography, physical properties testing, mineral classification, and optical techniques to identify mineral crystals with an introduction to uniaxial and biaxial minerals. (CSU/UC transferable)

ESCI 6 ANCIENT LIFE – 4 Units (formerly GEOL 6)
Note: Required day field trips.
Class Hours: 54 lecture/54 lab total (when offered in the distance education format, hours will total 162 for the lecture portion of the class and an additional 54 hours of lab, totaling 216 hours for this course)
This course is a survey of past life presented through geologic and biologic investigation. This course is interdisciplinary in nature and provides geologic background and evidence for the origination and evolution of life. Associated methodologies and concepts presented include geologic time and its measure, chemical and organic evolution, controls on evolution, clastic analysis, ancient ecological reconstruction, mass extinction and adaptive radiation, fossilization, and ancient geographic distributions of flora and fauna. Anatomical innovations that define major classes of organisms are traced through ancestor-descendant relationships. Laboratory exercises include processes of fossilization, fossil recognition, clastic analysis, genetics, stratigraphy, reconstruction of ancient biologic communities, ancient geographic reconstruction through fossil information, functional morphology, mass extinction and adaptive radiation in the fossil record. The lecture portion of this course may be offered in a distance education format. (CSU/UC transferable)

ESCI 7 INTRODUCTION TO THE GEOLOGY OF CALIFORNIA – 4 Units (formerly GEOL 7, GEOL 25)
Note: Required field trips (day trips and overnight trips).
Class Hours: 54 lecture/54 lab total (when offered in the distance education format, hours will total 162 for the lecture portion of the class and an additional 54 hours of lab, totaling 216 hours for this course)
C-ID: GEOL 200
As the newest material added to North America, California geology is incredibly diverse. Each geomorphic province in California is defined by unique rock successions indicative of ancient and modern processes ranging from geologic hazards such as seismicity, volcanism, and mass wasting, to the tectonic assembly of California and associated economic resources. California's mountains reveal past glaciations, its shores modern and ancient coastal processes, and its dramatic deserts a massive history 1 billion years in the making. Laboratory exercises will include mineral and rock identification and classification, topographic and geologic map study, landforms analysis, stratigraphy, aerial photo interpretation, and data/sample collection on field trips. The lecture portion of this course may be offered in a distance education format. (CSU/UC transferable)

ESCI 8 PLANETARY GEOLOGY: DEVELOPMENT, HISTORY AND PLANETARY PROCESSES – 3 Units
(formerly GEOL 8, GEOL 22)
Note: Required field trips and/or evening observations when possible.
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course offers an introduction to the physical processes that shape planetary surfaces and guide their development through time. The course will explore the origins of the solar system and use Earth as a planetary "model" to perform systematic and comparative investigations of the planets and other bodies in the solar system. Recent information gathered by Earth-based and orbiting observation platforms and unmanned planetary probes will be used to investigate planetary processes, develop planetary histories and differentiate the varied pathways and processes that have influenced each planet's evolution. The course will also consider the Sun and its influence on the planets and other bodies in the solar system, as well as asteroids, comets, meteors and impacts on planetary surfaces. This course may be offered in a distance education format. (CSU/UC transferable)

ESCI 9 EARTHQUAKES, VOLCANOES, AND OTHER GEOLOGIC HAZARDS – 3 Units (formerly GEOL 9, GEOL 20)
Note: Required field trips.
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162. A scheduled field trip will still be required for the online course.)
This introductory course considers geologic hazards and their impact on society in part through the utilization of case histories, many of which are from California. The course will focus on earthquakes and volcanism specifically considering the dynamics of these two phenomena. Other topics to be discussed include Tsunami origination and development, types of mass wasting and their controlling factors and influences, and flooding. A portion of the course will also describe geologic hazards that are human influenced or caused, such as soil erosion, acid rain, groundwater contamination and ground subsidence. Engineering mitigation, hazard preparedness and remediation strategies complete the course. This course may be offered in a distance education format. (CSU/UC transferable)

ESCI 10 ENVIRONMENTAL GEOLOGY – 4 Units (formerly GEOL 10, GEOL 40)
Note: Required field trips.
Class Hours: 54 lecture/54 lab total (when offered in the distance education format, hours will total 162 for the lecture portion of the class and an additional 54 hours of lab, totaling 216 hours for this course)
Geologically related impacts on the environment, both natural and human-influenced, provide the subject content for this course. Emphasis is placed on human and environmental interactions with discussions regarding natural resources and their exploitation, pollution and waste disposal, climate change, land use and engineering, and energy resources. Earth processes that result in environmental catastrophes, environmental change, and an impact on society are also considered, including topics such as earthquakes, volcanism, flooding, mass wasting, coastal processes, and climate trends. Laboratory activities will focus on
Earth materials, water resources and contamination, hazardous waste storage, mining and resource exploitation, and pollution. The lecture portion of this course may be offered in a distance education format. (CSU/UC transferable)

**ESCI 12  GENERAL EARTH SCIENCE – 4 Units**  
(formerly PHSC 2, PHSC 3)  
Note: Required field trips.  
**Class Hours:** 54 lecture/54 lab total (when offered in the distance education format, hours will total 162 for the lecture portion of the class and an additional 54 hours of lab, totaling 216 hours for this course)  
C-ID: GEOL 121  
This course is a survey course designed for non-science majors which spans the Earth-related sciences, including geology, oceanography, meteorology, and astronomy. In general, the course focuses on physical processes and materials related to each of these sciences including the geologic evolution of the Earth, economic resources derived from the Earth, Earth materials, evolution and character of the oceans, ocean- atmosphere interactions, atmospheric processes including weather and climate, the solar system and Earth as part of the universe. Using an Earth systems approach, lecture and laboratory will consider concepts centered about the sustainable use of natural resources. The laboratory portion of this course provides hands-on activities that support and demonstrate lecture concepts. The lecture portion of this course may be offered in a distance education format. (CSU/UC transferable)  

**ESCI 14  METEOROLOGY – 3 Units**  
(formerly PHSC 4)  
Note: Students may take ESCI 14 without enrollment in ESCI 14L. However, students taking ESCI 14L, a laboratory science, must take ESCI 14 concurrently.  
**Class Hours:** 54 lecture total (when offered in the distance education format, hours will total 162)  
C-ID: GEOG 130  
Dynamic aspects of the atmosphere responsible for climate and weather represent the main focus of this course. Topics include atmospheric composition, solar radiation, heat transfer, atmospheric moisture, pressure and atmospheric circulation, air masses, weather patterns and forecasting, storms including thunderstorms and tornadoes, air pollution and ozone, and global climate changes. Applicable fundamental science concepts such as state changes, heat transfer mechanisms, and the physical and chemical aspects of the media involved in weather are also introduced. Further the course will consider influences on the atmosphere that disrupt sustainable, stable climate conditions. This course may be offered in a distance education format. (CSU/UC transferable)

**ESCI 14L  METEOROLOGY LABORATORY – 1 Unit**  
Corequisite: ESCI 14  
**Class Hours:** 54 lab total  
This course accompanies ESCI 14 Meteorology and provides practical application to concepts presented in that course. Laboratory exercises will include analysis of incoming solar radiation, heat transfer in the atmosphere, humidity measurements, atmospheric motion, weather maps, storm characteristics, and climate controls and climate change. Lecture (ESCI 14) and laboratory (ESCI 14L) will consider influences on the atmosphere that disrupt sustainable, stable climate conditions. This course may be offered in a distance education format. (CSU/UC transferable)

**ESCI 15  OCEANOGRAPHY – 4 Units**  
(formerly PHSC 5)  
Note: Required overnight field trip.  
**Class Hours:** 54 lecture/54 lab total (when offered in the distance education format, hours will total 162 for the lecture portion of the class and an additional 54 hours of lab, totaling 216 hours for this course)  
Global ocean dynamics are part of an intricate system that influences world climate and both terrestrial and oceanic life. Basic principles and concepts are presented including ocean origins, ocean basin formation, seawater composition and characteristics, oceanic circulation, and the marine habitat providing a holistic view to the study of the oceans. Coastal processes such as waves and tides, erosion and deposition, and landforms are also considered. Laboratory activities will survey marine geology including plate tectonic and ocean basin topography, chemical oceanography, physical oceanography such as circulation, waves and tides, and biological oceanography including marine organisms, marine ecosystems and nutrient flow. Lecture and laboratory will consider marine produced and influenced natural resources, their exploitation, and concepts centered about sustainable uses. The lecture portion of this course may be offered in a distance education format. (CSU/UC transferable)

**ESCI 16  COASTAL MARINE SCIENCES – 3 Units**  
(formerly PHSC 6)  
Note: Required field outings.  
**Class Hours:** 54 lecture total (when offered in the distance education format, hours will total 162)  
An introduction to coastal oceanography, a holistic science that in this course will include coastal habitat evaluation of shore and near shore ecosystems. Basic concepts in oceanography including chemical, physical, geologic, and biologic realms, as related to coasts, with an emphasis on the inter-related nature of these topics, will serve as the main thread across the topics of the course. The course will develop oceanographic concepts associated with estuaries, tidal flats, sandy shores, rocky shores, and the shallow continental shelf. Shore and near-shore island ecosystems and their evolution, inclusive of island reefs and lagoons, outer-shelf reef formation and ecology, and coastal management will round out the course. The course will also consider marine produced and influenced natural resources, their exploitation, and concepts centered about sustainable uses and conservation. This course may be offered in a distance education format. (CSU/UC transferable)

**ESCI 16L  COASTAL MARINE SCIENCES LABORATORY – 1 Unit**  
Corequisite: ESCI 16  
**Class Hours:** 54 lab total  
This course accompanies ESCI 16 Coastal Marine Sciences and provides practical application to concepts presented in that course. Laboratory work will include field explorations along coasts, including shore and near shore systems, representing the primary resources for lab work. Other activities will include charting and navigation, species identification, and habitat monitoring to include data collection techniques, analysis and synthesis from coastal and near-shore sites. As with lecture (ESCI 16) marine produced and influenced natural resources, their exploitation, and sustainable uses, will be studied. (CSU/UC transferable)

**ESCI 17  EARTH SYSTEM SCIENCE – 3 Units**  
(formerly PHSC 7)  
Note: Required day field trips.  
**Class Hours:** 54 lecture total (when offered in the distance education format, hours will total 162)  
Earth is a dynamic planet, changing in response to natural processes within the atmosphere, geosphere, hydrosphere and biosphere. Modern science is now viewing the Earth system in its entirety, the sum of its parts, in an effort to understand how processes in one sphere impact those in another. This course stresses the inter-relationships of these systems and reviews natural cycles and positive and negative feedback pathways that operate over various time scales to affect global environmental change. The impact of civilization on the Earth system is also analyzed as the course considers pollution, over population, global warming, deforestation, desertification, resource depletion, and biologic extinctions along with solutions developed within sustainable concepts and practices. This course may be offered in a distance education format. (CSU/UC transferable)

**ESCI 18  GLOBAL CLIMATE CHANGE: PAST, PRESENT AND FUTURE – 3 Units**  
Note: Required day field trips.  
**Class Hours:** 54 lecture total (when offered in the distance education format, hours will total 162)  
Atmospheric processes, on a global and local scale, are considered as they determine weather and climate through time. Natural influences on the atmosphere include the global ocean, the sun, and volcanisms on planet Earth, each directing atmospheric responses in a different manner. Past climate conditions on Earth, and the science used to determine those conditions through rock, sediment and ice cores, will be explored. Human influences on the atmosphere will be considered as well as a review of the observations that have led to scientific consensus on global climate change. Current trends in climate change will be extrapolated into the future as directed by climate modeling and their consequences considered. This course may be offered in a distance education format. (CSU/UC transferable)

**ESCI 32  GEOLOGY OF THE NORTHERN SIERRAS – 1.5 Units**  
(formerly GEOL 32)  
Grading: Pass/No Pass Option
Chapter 4: Courses

ESCI 33 GEOLGY OF THE SACRAMENTO VALLEY — 1.5 Units
(formerly GEOL 33)
Grading: Pass/No Pass Option
Note: Required overnight field trip.
Class Hours: 18 lecture/27 lab total (when offered in a distance education format, hours will total 54 for the lecture portion of the class and an additional 27 hours of lab, totaling 81 hours for this course)

An introduction to the geology of the Sacramento Valley that will culminate with a three day overnight field trip through this geomorphic province and its boundaries. Lecture meetings will present basic concepts in geology needed to understand the geologic history of the Sacramento Valley as well as outcrops visited during the field trip. Topics to be discussed include geologic hazards, economic resources, volcanism, faulting, river processes, and the Pleistocene geology of the valley. Field trip exercises will also be conducted at various stops. The lecture portion of this course may be offered in a distance education format. (CSU transferable)

ESCI 34 GEOLOGY OF THE MODOC PLATEAU — 1.5 Units
(formerly GEOL 34, GEOL 61AB)
Grading: Pass/No Pass Option
Note: Required overnight field trip.
Class Hours: 18 lecture/27 lab total (when offered in a distance education format, hours will total 54 for the lecture portion of the class and an additional 27 hours of lab, totaling 81 hours for this course)

An introduction to the geology of the Modoc Plateau that will culminate with a three day overnight field trip through this geomorphic province and its boundaries. Lecture meetings will present basic concepts in geology needed to understand the geologic history of the Modoc Plateau as well as outcrops visited during the field trip. Topics to be discussed include volcanism, features, geologic hazards, geothermal potential, economic resources, faulting, plateau development, basin and range development, and surface and subsurface water. Field trip exercises will also be conducted at various stops. The lecture portion of this course may be offered in a distance education format. (CSU transferable)

ESCI 35 LASSEN VOLCANIC NATIONAL PARK — 1.5 Units
(formerly GEOL 35, GEOL 62AB)
Grading: Pass/No Pass Option
Corequisite: ESCI 35L
Note: Required overnight field trip.
Class Hours: 27 lecture total (when offered in the distance education format, hours will total 81)

This course is an introduction to Lassen Volcanic Park that is paired with ESCI 35L, a concurrent corequisite course that includes a three-day overnight field trip within and around the park. ESCI 35 is a lecture course and meetings will present geology, weather, and the climatic history of the park, as well as geologic hazards of the park, volcanic processes, geologic hazards, potential seasonality experienced by the park as it drives precipitation patterns and spring systems. This course may be offered in a distance education format. (CSU transferable)

ESCI 35L LASSEN VOLCANIC NATIONAL PARK LAB AND FIELD STUDIES — 0.5 Units
Grading: Pass/No Pass Option
Corequisite: ESCI 35
Note: Required overnight field trip.
Class Hours: 27 lab total

This course accompanies ESCI 35 and represents laboratory and field activities associated with Lassen Volcanic National Park, inclusive of a three-day overnight field trip within and around the park. This course supports the goal of understanding the geologic and climatologic history of the park through site and outcrop exposures as they demonstrate volcanic processes, volcanic and geothermal features, past glaciation and glacial features, slide hazards, faulting, and typical seasonality experienced by the park as it drives ecology. Field exercises will be conducted at various stops. (CSU transferable)

ESCI 36 GEOLOGY OF MOUNT SHASTA AND VICINITY — 1.5 Units (formerly GEOL 36, GEOL 64AB)
Grading: Pass/No Pass Option
Note: Required overnight field trip.
Class Hours: 18 lecture/27 lab total (when offered in the distance education format, hours will total 54 for the lecture portion of the class and an additional 27 hours of lab, totaling 81 hours for this course)

An introduction to the geology of Mount Shasta and surrounding areas that will culminate with a three day overnight field trip to and around the mountain. Lecture meetings will present basic concepts in geology needed to understand the geologic history of Mount Shasta as well as outcrops visited during the field trip. Topics to be discussed include volcanic processes and features, volcanic and geothermal features, past eruptions and glacial events, and faulting. Field trip exercises will also be conducted at various stops. The lecture portion of this course may be offered in a distance education format. (CSU transferable)

ESCI 37 THE NORTHERN CALIFORNIA COAST — 1.5 Units
(formerly GEOL 37)
Grading: Pass/No Pass Option
Corequisite: ESCI 37L
Class Hours: 27 lecture total (when offered in the distance education format, hours will total 81)

This course is an introduction to the processes which have shaped and continue to shape northern California’s coastline. This course is paired with ESCI 37L, a concurrent corequisite course that will culminate with a three-day overnight field trip that explores the northern California coast. ESCI 37 presents basic concepts in geology, as well as determining the geologic history of the coast. It will cover additional topics specific to the northern California coastline, such as hazards including earthquakes, tsunamis, landslides, and even shoreline habitats as a reflection of the geology and climate. Other topics range from active mountain building to weather patterns and even climate. This course may be offered in a distance education format. (CSU transferable)

ESCI 37L NORTHERN CALIFORNIA COAST LAB AND FIELD STUDIES — 0.5 Units
Grading: Pass/No Pass Option
Corequisite: ESCI 37
Note: This course includes a three-day, overnight field trip.
Class Hours: 27 lab total

This course accompanies ESCI 37 and represents laboratory and field activities associated with the northern California coast, inclusive of a three-day, overnight field trip along this stretch of coast. This course supports the goal of understanding the geology and geomorphic history of the coast as well as oceanographic and climatologic qualities as they converge to define habitats. Coastal sites demonstrate these relationships, and lab sessions prior to the trip will focus on the application of ESCI 37 concepts. Field exercises will be conducted at various stops. (CSU transferable)

ESCI 38 THE POINT REYES NATIONAL SEASHORE — 1.5 Units
(formerly GEOL 38)
Grading: Pass/No Pass Option
Note: Required overnight field trip.
Class Hours: 18 lecture/27 lab total (when offered in the distance education format, hours will total 54 for the lecture portion of the class and an additional 27 hours of lab, totaling 81 hours for this course)

An introduction to the geologic processes which have shaped and continue to shape the Point Reyes National Seashore. The course will culminate with a three day overnight field trip to the national seashore.
Chapter 4: Courses

Lecture meetings will present basic concepts in geology as well as topics specific to Point Reyes such as the San Andreas Fault system, geologic hazards including earthquakes, tsunamis, and mass wasting events, tidal and estuarine processes, and the area geomorphology. Field trip exercises will also be conducted at various stops. The lecture portion of this course may be offered in a distance education format. (CSU transferable)

**ECONOMICS (ECON)**

**ECON 1A PRINCIPLES OF ECONOMICS – MICRO – 3 Units**
Grading: Pass/No Pass Option
Prerequisite: MATH 101 with a grade of C or higher, or Math Placement Level 3 or higher
Advisory: ENGL 280 with a grade of C or higher, or English Placement Level 5 or higher (ECON 1A is not a prerequisite for ECON 1B)
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: ECON 201

This course is a study of the basic institutions and principles of microeconomics and so it concentrates on the parts of an economic system: the markets, the producers, the consumers, and the structures of basic industries, along with systems for relative resource use and income determination. This course may be offered in a distance education format. (CSU/UC transferable)

**ECON 1B PRINCIPLES OF ECONOMICS – MACRO – 3 Units**
Grading: Pass/No Pass Option
Prerequisite: MATH 101 with a grade of C or higher, or Math Placement Level 3 or higher
Advisory: ENGL 280 with a grade of C or higher, or English Placement Level 5 or higher (ECON 1A is not a prerequisite for ECON 1B)
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: ECON 202

This course studies the basic economic institutions and principles as they pertain to the entire economic system such as money and banking, determinants of national income, employment, output and the roles played by government in using monetary and fiscal policy to promote the mandates of the Employment Act of 1946. This course may be offered in a distance education format. (CSU/UC transferable)

**EDUCATION (EDUC)**

**EDUC 1 INTRODUCTION TO EDUCATION – 3 Units**
Advisory: ENGL 1A with a grade of C or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: EDUC 200

This course introduces students to the American public education system, kindergarten through twelfth grade. Topics include professional ethics, governance and financing of public education, historical and philosophical foundations, and contemporary issues. The course introduces California's content standards, curriculum frameworks, and teaching performance expectations. Students complete a minimum of 45 hours of structured observations in public school classrooms in cooperation with at least one instructor-approved certified classroom teacher. This course may be offered in a distance education format. (CSU/UC transferable)

**EDUC 94 EDUCATION WORKSITE LEARNING – 0.5-8 Units**
Grading: Pass/No Pass Only
Limitation on Enrollment: Financial aid students must maintain concurrent enrollment in seven (7) units which include worksite learning units. Students not receiving financial aid do not need to enroll in other courses in order to participate in Worksite Learning Classes.
Class Hours: 75 hours paid or 60 hours non-paid per unit

The Education Worksite Learning course allows the student to gain on-the-job experience through employment/volunteerism at an approved education job site that is acquired by the student and related to the student's major. A faculty member supervises all education worksite learning courses to ensure that the work experience is of educational value. The course stresses good work habits and meeting of competencies through actual on-the-job performance. A student may earn up to 16 units through repeating this course since course content varies and skills are enhanced by supervised repetition and practice. A maximum of 8 units may be earned in a single semester. (CSU transferable)

**ENGINEERING (ENGR)**

**ENGR 1A MEASUREMENTS AND PLANE SURVEYING – 3 Units**
Prerequisite: MATH 10, MATH 2, or MATH 2B with a grade of C or higher, or Math Placement Level 5 or higher
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 108 for the lecture portion of the class and an additional 54 hours of lab, totaling 162 hours for this course)

Surveying fundamentals including the use and care of surveying instruments such as engineers' level, transits, and theodolite. Applications include survey procedures, vertical and horizontal measurements, traverses, layout, and survey calculations. Additional topics include legal descriptions, public land surveying, advanced equipment, and GPS. The lecture portion of this course may be offered in a distance education format. (CSU/UC transferable)

**ENGR 1B PLANE SURVEYING – 3 Units**
Prerequisites: MATH 10, MATH 2, or MATH 2B with a grade of C or higher, or Math Placement Level 5 or higher; and ENGR 1A with a grade of C or higher
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 162)

This course includes an application of plane surveying principles to control surveys, field astronomy, route and construction surveys, and property surveys. The course covers an introduction to advanced survey equipment and related systems. This course may be offered in a distance education format. (CSU/UC transferable)

**ENGR 2 INTRODUCTION TO ENGINEERING – 2 Units**
Grading: Pass/No Pass Option
Class Hours: 36 lecture total (when offered in the distance education format, hours will total 108)
C-ID: ENGR 110

The course explores the branches of engineering, the functions of an engineer, and the industries in which engineers work. It explains the engineering education pathways and explores effective strategies for students to reach their full academic potential. An introduction to the methods and tools of engineering problem solving and design including the interface of the engineer with society and engineering ethics are examined. Communication skills pertinent to the engineering profession are emphasized. This course may be offered in a distance education format. (CSU/UC transferable)

**ENGR 17 CIRCUITS AND DEVICES – 4 Units**
Prerequisite: MATH 4A and PHYS 4B with a grade of C or higher
Corequisite: MATH 4B, or previous completion of MATH 4B with a grade of C or higher
Class Hours: 54 lecture/54 lab total (when offered in the distance education format, hours will total 162 for the lecture portion of the class and an additional 54 hours of lab, totaling 216 hours for this course)

This course covers Nodal and Mesh circuit analysis techniques, first and second order steady state and transient analysis using the methods of differential calculus, phasors, resonance, RLC circuits, the j operator, operational amplifiers, duality, basic digital circuits and Karnaugh Mapping. A portion of this course may be offered in a distance education format. (CSU/UC transferable)

**ENGR 22 ENGINEERING GRAPHICS – 2 Units**
Prerequisites: English Placement Level 4 or higher; and MATH 220 with a grade of C or higher, or Math Placement Level 1 or higher
Class Hours: 18 lecture/54 lab total (when offered in the distance education format, hours will total 108)

This course teaches the theory of orthographic projections and its use in delineating three-dimensional objects. The course begins with the basics. Topics include lettering, types of lines, geometric constructions, basic dimensioning practices, auxiliary views and a brief introduction to Computer-Aided Drafting (CAD). This course may be offered in a distance education format. (CSU/UC transferable)

**ENGR 24 DESCRIPTIVE GEOMETRY – 2 Units**
Prerequisite: ENGR 22 with a grade of C or higher
ENGR 27 MAP & COMPUTER-AIDED DRAFTING – 3 Units
Grading: Pass/No Pass Option
Prerequisite: ENGR 29 with a grade of C or higher
Advisory: ENGR 1A with a grade of C or higher
Class Hours: 36 lecture/54 lab total
This course teaches the use of the computer and civil design software to produce maps. Course topics include input and processing of field data, digital terrain modeling, contours, subdivisions, roads, and deed descriptions. (CSU transferable)

ENGR 29 COMPUTER-AIDED DRAFTING (CAD) - 2 Units
Grading: Pass/No Pass Option
Corequisite: ENGR 22, or previous completion of ENGR 22 with a grade of C or higher
Note: Students taking the Internet format of this course must have access to and working knowledge of the Internet and Windows, plus access to the most recent version of the basic AutoCAD software.
Class Hours: 18 lecture/54 lab total (when offered in the distance education format, hours will total 108)
This course utilizes basic AutoCAD as a tool for efficient drafting and design development. This course helps prepare students for the growing numbers of jobs that require CAD, both for its greater efficiency and for its computer database drawings. The emphasis is on graphics with engineering applications. This course may be offered in a distance education format. (CSU/UC transferable)

ENGR 33 SOLID MODELING COMPUTER-AIDED DRAFTING – 2 Units (formerly ENGR 30C)
Prerequisite: ENGR 29 with a grade of C or higher
Class Hours: 18 lecture/54 lab total (when offered in the distance education format, hours will total 108)
An advanced computer-aided drafting course using SolidWorks, Mechanical Desktop and/or Inventor software to prepare students for drafting positions with high potential to advance to designer, etc. ENGR 33 builds on the skills and knowledge of ENGR 29. This course will focus on how to create 3D models, assemble and constrain assembly models. Students will use advanced drafting skills to solve design problems and to present solutions for production or engineering processes, and to visually communicate their solution. This course may be offered in a distance education format. (CSU/UC transferable)

ENGR 35 STATICS – 3 Units
Prerequisite: PHYS 4A with a grade of C or higher
Corequisite: MATH 4A, or previous completion of MATH 4A with a grade of C or higher
Advisory: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher. Previous drafting experience is helpful.
Class Hours: 54 lecture total
This course is a first course in engineering mechanics; properties of forces, moments, couples and resultants; two-and three-dimensional force systems acting on engineering structures in equilibrium; analysis of trusses, and beams; distributed forces, shear and bending moment diagrams, center of gravity, centroids, friction, and area moments of inertia; fluid and cables. Optional additional topics include buoyancy, Mohr's circle and virtual work. (CSU/UC transferable)

ENGR 40 STRENGTH OF MATERIALS – 3 Units
Prerequisite: ENGR 35 with a grade of C or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: ENGR 240
This course is a study of stresses, strains, and deformations associated with axial, torsional, and flexural loading of bars, shafts, and beams, as well as pressure loading of thin-walled pressure vessels. The course also covers stress and strain transformation, Mohr's Circle, ductile and brittle failure theories, and the buckling of columns. Statically indeterminate systems are also studied. This course may be offered in a distance education format. (CSU/UC transferable)

ENGR 45 PROPERTIES OF MATERIALS – 4 Units
Prerequisites: CHEM 1A and PHYS 4A with a grade of C or higher
Class Hours: 54 lecture/54 lab total (when offered in the distance education format, hours will total 216)
This course presents the internal structures and resulting behaviors of materials used in engineering applications, including metals, ceramics, polymers, composites, and semiconductors. The emphasis is upon developing the ability both to select appropriate materials to meet engineering design criteria and to understand the effects of heat, stress, imperfections, and performance. Laboratories provide direct observations of the structures and behaviors discussed in the course, experience with the operation of testing equipment, and the preparation of experimental reports. This course may be offered in a distance education format. (CSU/UC transferable)

ENGR 94 ENGINEERING WORKSITE LEARNING – 1-8 Units
Limitation on Enrollment: Financial aid students must maintain concurrent enrollment in seven (7) units which include worksite learning units. Students not receiving financial aid do not need to enroll in other courses in order to participate in Worksite Learning Classes.
Class Hours: 75 hours paid or 60 hours non-paid per unit
The Engineering Worksite Learning course allows the student to gain on-the-job experience through employment/volunteerism at an approved engineering job site that is acquired by the student and related to the student's major. A faculty member supervises all WSL courses to ensure that the work experience is of educational value. The course stresses good work habits and meeting of competencies through actual on-the-job performance. A student may earn up to 16 units through repeating this course since course content varies and skills are enhanced by supervised repetition and practice. A maximum of 8 units may be earned in a single semester. (CSU transferable)

ENGLISH (ENGL)
Please note Assessment Testing Policy. English assessment testing is required for entry into the following courses: Basic Skills English classes and ENGL 1A. The college administration will establish test dates in advance of registration each semester. Contact the Assessment Office for information on testing dates. If you think for some reason that your assessment test score does not reflect your English competency, please make an appointment with a counselor to discuss your options.

ENGL 1A COLLEGE COMPOSITION – 4 Units
Prerequisite: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 72 lecture total (when offered in the distance education format, hours will total 216)
C-ID: ENGL 100
This course develops the reading, critical thinking, and writing skills necessary for academic success, emphasizing expository and argumentative writing as well as research and documentation skills. As a transferable course, it presupposes that students already have a substantial grasp of grammar, syntax, and organization, and that their writing is reasonably free from errors. A research paper is required for successful completion of this course. This course may be offered in a distance education format. (CSU/UC transferable)

ENGL 1AX COLLEGE COMPOSITION WITH SUPPORT – 5 Units
Prerequisite: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 81 lecture/27 lab total (when offered in the distance education format, hours will total 243 for the lecture portion of the class and an additional 27 hours of lab, totaling 270 hours for this course)
This course is intended for students who would place themselves into an English course below transfer level. In this course, students will develop the reading, critical thinking, writing, and information competency skills necessary for academic success at the transfer level. This course emphasizes college-level expository and argumentative writing, as well as research and documentation skills, and offers students additional instruction and support. A research essay is required for successful completion of the course. The lecture portion of this course may be offered in a distance education format. (CSU transferable)
ENGL 1B LITERATURE AND COMPOSITION – 3 Units
Prerequisite: ENGL 1A or ENGL 1AH with a grade of C or higher, or English Placement Level 7
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: ENGL 120
Course emphasizes the development of critical thinking and writing skills through close study of the major genres of literature: poetry, drama, short story and novel. Students receive further instruction and practice in analytical writing, developing arguments about literary works and the critical reception of those works. In discussion and writing, students will also examine arguments as such, learning to identify sound as well as fallacious reasoning in critical assessments of literature. This course may be offered in a distance education format. (CSU/UC transferable)

ENGL 1C CRITICAL REASONING, READING, AND WRITING – 3 Units
Prerequisite: ENGL 1A or ENGL 1AH with a grade of C or higher, or English Placement Level 7
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: ENGL 105
Course focuses on critical thinking skills, close textual analysis, and expository and argumentative writing. Students apply critical thinking skills in reading non-fiction and fiction, and in writing essays of definition, cause/effect analysis, argumentation, refutation, and advocacy. Students will learn to use research strategies in analyzing others' ideas and supporting their own. This course may be offered in a distance education format. (CSU/UC transferable)

ENGL 10A WORLD LITERATURE (to 1650) – 3 Units
Grading: Pass/No Pass Option
Prerequisite: ENGL 1A or ENGL 1AH with a grade of C or higher, or English Placement Level 7
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: ENGL 140
This course introduces students to some representative masterpieces in world literature beginning with the ancient world and continuing to 1650. A majority of the works will be selected from non-Western literary traditions. The course involves critical analysis of these works within the context of the culture and time in which they were written. Emphasis centers on identifying and analyzing important themes that shape and define the human experience. This course may be offered in a distance education format. (CSU/UC transferable)

ENGL 10B WORLD LITERATURE (after 1650) – 3 Units
Grading: Pass/No Pass Option
Prerequisite: ENGL 1A or ENGL 1AH with a grade of C or higher, or English Placement Level 7
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: ENGL 145
This course introduces students to some representative masterpieces in world literature beginning with 1650 and continuing to the present. A majority of the works will be selected from non-Western literary traditions. The course involves critical analysis of these works within the context of the culture and time in which they were written. Emphasis centers on identifying and analyzing important themes that shape and define the human experience. ENGL 10A is not a prerequisite to ENGL 10B. This course may be offered in a distance education format. (CSU/UC transferable)

ENGL 11A SURVEY OF AMERICAN LITERATURE—Pre-Colonial to 1860 – 3 Units
Grading: Pass/No Pass Option
Prerequisite: ENGL 1A or ENGL 1AH with a grade of C or higher, or English Placement Level 7
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: ENGL 130
The course involves a study of representative authors in the literary history of the United States from the pre-colonial period to the Civil War. This course may be offered in a distance education format. (CSU/UC transferable)

ENGL 11B SURVEY OF AMERICAN LITERATURE—1860 to Present – 3 Units
Grading: Pass/No Pass Option
Prerequisite: ENGL 1A or ENGL 1AH with a grade of C or higher, or English Placement Level 7
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: ENGL 135
This course involves a study of representative authors in the literary history of the United States from the Civil War to the present day. This course may be offered in a distance education format. (CSU/UC transferable)

ENGL 13A SURVEY OF ENGLISH LITERATURE (Old English Period through Neoclassicism) – 3 Units
Grading: Pass/No Pass Option
Prerequisite: ENGL 1A or ENGL 1AH with a grade of C or higher, or English Placement Level 7
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: ENGL 160
ENGL 13A is the first semester of the basic two-semester English Literature survey course commonly offered in the sophomore year at colleges and universities. It involves the intensive study of and reading and writing upon representative masterpieces of the literary history of England from the Anglo-Saxon period to the end of the 18th century. This course may be offered in a distance education format. (CSU/UC transferable)

ENGL 13B SURVEY OF ENGLISH LITERATURE (from the Romantic Period to Present) – 3 Units
Grading: Pass/No Pass Option
Prerequisite: ENGL 1A or ENGL 1AH with a grade of C or higher, or English Placement Level 7
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: ENGL 165
ENGL 13B is the second part of the basic two-semester English Literature survey course commonly offered in the sophomore year at colleges and universities. It involves the intensive study of and reading and writing upon representative masterpieces of the literary history of England from the Romantic Period to the present. This course may be offered in a distance education format. (CSU/UC transferable)

ENGL 14 SURVEY OF DRAMA AS LITERATURE – 3 Units
Grading: Pass/No Pass Option
Prerequisite: ENGL 1A or ENGL 1AH with a grade of C or higher, or English Placement Level 7
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
A course designed to provide the student with an awareness of the origin and development of Western drama through an examination of representative plays from classical Greece to the present. Aesthetic values as well as social, political, and psychological implications expressed through the drama will be examined in order to enhance the student’s understanding and appreciation of dramatic literature; therefore, students will be required to watch as well as read plays which are representative of the various movements in western civilization. This course may be offered in a distance education format. (CSU/UC transferable)

ENGL 15 LITERATURE BY AND ABOUT WOMEN - 3 Units
Prerequisite: ENGL 1A or ENGL 1AH with a grade of C or higher, or English Placement Level 7
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
A survey of literature by and about women in different periods and countries. Genres studied include stories, diaries and letters, poetry and drama. Emphasis is on the human condition, especially among women, as expressed in literature. This course may be offered in a distance education format. (CSU/UC transferable)

ENGL 16 POETRY - 3 Units
Grading: Pass/No Pass Option
Prerequisite: ENGL 1A or ENGL 1AH with a grade of C or higher, or English Placement Level 7
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
A survey of literature by and about women in different periods and countries. Genres studied include stories, diaries and letters, poetry and drama. Emphasis is on the human condition, especially among women, as expressed in literature. This course may be offered in a distance education format. (CSU/UC transferable)
An intensive course analyzing the techniques and forms of poetry in English with stress on the genre. Interpretation and appreciation are the primary goals. Emphasis is on extensive reading for pleasure, various types of writing including analytical, responsive and experiential, as well as group experiences in listening. In addition, this course seeks to equip the college literature student to understand literary materials in a new way. The course includes a number of written exercises. This course may be offered in a distance education format. (CSU/UC transferable)

**ENGL 17  INTRODUCTION TO SHAKESPEARE - 3 Units**
Grading: Pass/No Pass Option
Prerequisite: ENGL 1A or ENGL 1AH with a grade of C or higher, or English Placement Level 7
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course offers an introduction to the representative works by Shakespeare including the characteristics of the different genres such as comedy, history, and tragedy as well as a study of the sonnet. A particular focus on theatre history and the historical and sociological influences of the Elizabethan/Jacobean era will highlight the study of the dramatic and literary conventions. This course may be offered in a distance education format. (CSU/UC transferable)

**ENGL 18  AFRICAN AMERICAN LITERATURE - 3 Units**
Grading: Pass/No Pass Option
Advisory: ENGL 1A or ENGL 1AH with a grade of C or higher, or English Placement Level 7
Class Hours: 54 lecture total

This course is primarily a genre study of African American Literature from the colonial period to the present – including oral tradition, poetry, slave narratives, essays, short stories, plays, novels, and music. Included is an examination of the historical, cultural and social forces influencing these works. (CSU/UC transferable)

**ENGL 19  SURVEY OF BIBLE AS LITERATURE - 3 Units**
Grading: Pass/No Pass Option
Prerequisite: ENGL 1A or ENGL 1AH with a grade of C or higher, or English Placement Level 7
Class Hours: 54 lecture total

This course introduces students to stories and themes from the Bible that influence Western literature. Topics include the form and content of major Bible books, the development of the Bible canon and its rendering into English, and the literary tools used in the scholarly study of the Bible. This course may be offered in a distance education format. (CSU/UC transferable)

**ENGL 20  WORLD MYTHOLOGY - 3 Units**
Grading: Pass/No Pass Option
Prerequisite: ENGL 1A or ENGL 1AH with a grade of C or higher, or English Placement Level 7
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course introduces the major images and themes of myths from around the world. By analyzing various archetypal patterns found in the sacred stories, narratives, and legends of the great civilizations and tribal cultures, students understand both the uniqueness of each culture's world view and the commonality of human experience. This course may be offered in a distance education format. (CSU/UC transferable)

**ENGL 24  MULTICULTURAL PERSPECTIVES IN AMERICAN LITERATURE - 3 Units**
Grading: Pass/No Pass Option
Prerequisite: ENGL 1A or ENGL 1AH with a grade of C or higher, or English Placement Level 7
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course is an introduction to multiethnic literary currents in American literature and will focus on African-American, Asian-American, Hispanic-American, Pacific-Islander, and/or Native-American literature (minimum of two) within "mainstream" American literature. Poetry, essays, short stories, novels, memoirs, and biography will be studied as works of individual artists and from a cultural perspective. An integral part of the course is an understanding of the political/cultural/historical context of the literature. This course stresses critical and analytical thinking, reading, and writing skills. Students from all backgrounds should benefit from the unique insights into American life afforded by these rich and varied traditions. This course may be offered in a distance education format. (CSU/UC transferable)

**ENGL 25  LINGUISTICS - 3 Units**
Grading: Pass/No Pass Option
Prerequisite: ENGL 1A or ENGL 1AH with a grade of C or higher, or English Placement Level 7
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

The course is an introduction to the study of language. Course content surveys linguistic concepts of the nature and diversity of language: morphology, syntax, semantics, phonetics, and phonology; language acquisition; social variation, and historical change. This course may be offered in a distance education format. (CSU/UC transferable)

**ENGL 31  CREATIVE WRITING - 3 Units**
Grading: Pass/No Pass Option
Advisory: ENGL 190 or ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

C-ID: ENGL 200

The student learns the craft and principles of dramatic narrative and poetry through a variety of short assignments. A final project may be written in any field of interest: short story, article, movie/TV script, stage play, or book. Analysis and lecture are presented both for those desiring to write experimentally, and for those interested in the demanding world of publication. This course may be offered in a distance education format. (CSU/UC transferable)

**ENGL 36  CHILDREN'S LITERATURE - 3 Units**
Grading: Pass/No Pass Option
Prerequisite: ENGL 1A or ENGL 1AH with a grade of C or higher, or English Placement Level 7
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

C-ID: ENGL 180

This course provides an overview of the origins and developments of children's literature and acquaints the student with different genres of literature written for and read by children. In addition to exploring ways of promoting children's development through literature, students will also learn how to approach children's literature from a critical and theoretical perspective. This course may be offered in a distance education format. (CSU/UC transferable)

**ENGL 101A  COLLEGE COMPOSITION LAB – 1 Unit**
Grading: Pass/No Pass Only
Prerequisite: English Placement Level 5 or higher
Co-requisite: ENGL 1A
Advisory: ENGL 280 with a grade of C or higher

This course provides instruction and guided practice in the reading, writing, and thinking skills necessary to succeed in ENGL 1A: College Composition. Taking this lab concurrently with ENGL 1A is an alternative to taking the ENGL 196-ENGL 1A two-semester sequence. Students will analyze and synthesize college-level texts and apply a process-centered approach to writing thesis-driven, multiple-source essays. Students succeed in this lab by completing in-class reading and writing assignments.

**ENGL 129  GRAMMAR REVIEW: GRAMMATICAL AND EFFECTIVE SENTENCES - 1 Unit**
Grading: Pass/No Pass Option
Class Hours: 18 lecture total (when offered in the distance education format, hours will total 54)

Emphasizes structure, variety, effectiveness, and sentence style. Includes a diagnosis of the individual's writing needs, methods of proofreading, rules of punctuation, and techniques for revision. This course may be offered in a distance education format.

**ENGL 133  CREATIVE WRITING FOR PERSONAL GROWTH – 1 Unit**
Grading: Pass/No Pass Option
Class Hours: 18 lecture total (when offered in the distance education format, hours will total 54)
This course facilitates personal growth through writing exercises and longer assignments in autobiography, memoir, poetry, short story, vignette, journaling, reflection, and more. This course may be offered in a distance education format.

ENGL 196 INTENSIVE READING AND WRITING – 5 Units
Prerequisite: English Placement Level 3 or higher
Advisory: ENGL 260 with a grade of C or higher
Class Hours: 90 lecture (when offered in the partial distance education format, hours will total 126)

This course integrates the reading, writing, critical thinking, and college research skills needed to prepare students for success in college reading and composition. This course prepares students by emphasizing the critical reading strategies needed to analyze a variety of academic texts, and the academic writing skills needed to produce thesis-driven essays. It also emphasizes self-efficacy in finding, correcting, and eliminating patterns of error in students' reading and writing, and introduces students to basic academic research methods. A portion of this course may be offered in a distance education format.

ENGL 260 ELEMENTS OF READING 260 – 4 Units
Prerequisite: English Placement Level 2 or higher
Class Hours: 54 lecture, 54 lab total

This course builds toward college-level English through integrated reading and writing instruction. Reading instruction emphasizes strategic reading, locating main ideas and supporting evidence, identifying authors' purposes, developing vocabulary, differentiating between facts and opinions, and gathering relevant information from sources. The writing component consists primarily of reading responses, writing paragraphs and short essays that clearly develop a central idea and adequate support, and editing sentences to follow standard English writing conventions.

ENGL 280 READING AND WRITING I – 4 Units
Grading: Pass/No Pass Option
Prerequisite: ENGL 260 with a grade of C or higher, or English Placement Level 3 or higher
Class Hours: 72 lecture total

This course builds toward college-level English through integrated reading and writing instruction. Reading instruction emphasizes strategic reading, locating main ideas and supporting evidence, summarizing, drawing sound inferences from authentic texts, and gathering relevant information from sources. The writing component includes primarily of summary writing, reading responses, writing short essays that clearly develop a central idea, and editing sentences to follow standard English writing conventions.

ENGL 330 WRITING YOUR AUTOBIOGRAPHY: AN INTRODUCTION TO PERSONAL STORY WRITING – 0 Units
Grading: Pass/No Pass Only
Class Hours: 3-54 lecture lecture total

This course engages learning about the writing process for creating autobiography. Generative exercises and a quick study of form and genre will engage the imagination and frame stories. The focus will be on the drafting of our personal stories, the value of leaving behind a legacy journal, and the key methods for creating a memoir. The exercises in the course will help to hone some of the skills needed, such as scenes with dialogue, and will help writers to frame their narrative and develop a sense of characterization, setting, and plot. This course is designed for older adults but is open to all students.

ENGL 350 READING AND WRITING FOUNDATIONS – 0 Units
Advisory: English Placement Level 1 or higher
Class Hours: 54-108 lab total

This course is designed to help students read and write proficiently in daily life, in the workplace, and in preparation for academic study. With the instructor's guidance, students will identify their personal goals for taking this course and develop an individual plan for meeting them. The course will provide one-on-one and small group instruction in basic reading and writing skills. This course may be repeated any number of times.

ENGL 382 READING AND WRITING WORKSHOP – 0 Units
Class Hours: 1-200 lab total

Students receive individualized tutoring to enhance skills and/or address problems they are having either in written expression or in reading.

ENGL 401 ADVANCED PROFESSIONAL WRITING – 3 Units
Prerequisite: ENGL 1B or ENGL 1C with a grade of C or higher
Limitation on Enrollment: Students must be admitted to the Health Information Management program
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course builds advanced skills in professional writing and reading. It emphasizes strategic and effective editing, revising, composition, research, and argument for various writing situations in the workplace. This course is designed for health information management majors. This course may be offered in a distance education format.

ENGLISH AS A SECOND LANGUAGE (ESL)

Información General Sobre Nuestros Programas
El Colegio de Shasta sirve a su comunidad con programas educativos y culturales que amplían las experiencias de los estudiantes, desarrollan sus habilidades potenciales y los capacitando para ser productivos y para truinar en la sociedad. A todos los estudiantes se les ofrece entrada a nuestros programas y a las oportunidades. El Colegio aspira a satisfacer las necesidades individuales, a mantener las normas académicas apropiadas, a proteger la libertad académica y personal, y a promover oportunidades sin discriminación.

Para obtener prioridad de matrícula en el siguiente semestre, complete el formulario expresando sus deseos de matricularse. Con mucha antici pación se publica un catálogo que incluye todas las clases ofrecidas en cada semestre escolar. Hay consejeros en cada periodo de matriculación para ayudarle al alumno a planear su programa escolar.

El Programa de "ESL" (Inglés como Segunda Lengua) se les ofrece a los estudiantes extranjeros y a los residentes que no hablan inglés. Hay varios niveles de cursos en ESL. Los administradores y los profesores del programa le podrán ayudar a seleccionar los cursos más benéficos para usted. Los cursos se ofrecen en las días y noches. Si desea más información visite la Oficina #206 o el Aula #210 llame al número 242-7711.

ESL 150 ESL READING AND WRITING I – 6 Units
Prerequisite: ESL 236 with a grade of C or higher, ESL 336 with a grade of P, or a TOEFL score of 460 or higher
Class Hours: 108 lecture total (when offered in the distance education format, hours will total 324)

This course integrates the reading and writing skills English language learners need to prepare them for college-level courses. The reading component includes the development of skills in reading comprehension, fluency, and academic vocabulary. The writing component includes writing summaries, paragraphs and short essays, and improving grammar and mechanics in the context of the writing task. This course may be offered in a distance education format.

ESL 155 ESL READING AND WRITING II – 6 Units
Prerequisite: ESL 150 with a grade of C or higher, or a TOEFL score of 475 or higher
Class Hours: 108 lecture total (when offered in the distance education format, hours will total 324)

This course is the second of two academic reading and writing courses for English language learners. Students refine their academic reading skills and build academic vocabulary. Students follow the writing process to compose a variety of essays based on their analysis of college-level texts. Students also refine their grammar and sentence structure skills as they relate to the writing task. This course may be offered in a distance education format.

ESL 234 INTERMEDIATE HIGH – 5 Units (formerly ENGL 234)
Grading: Pass/No Pass Option
Advisory: Successful completion of ESL 333, or ESL Placement Level 5 or higher
Class Hours: 36 lecture/162 lab total (when offered in the distance education format, hours will total 270)

This course reviews and expands the intermediate language skills learned in the previous level. Students will develop the ability to communicate in oral and written English beyond the familiar. They will read authentic materials on everyday topics, identify the main ideas and
draw conclusions, and write routine correspondence and brief compositions with increasing complexity. This course may be offered in a distance education format.

**ESL 236  ADVANCED – 5 Units (formerly ENGL 236)**

*Grading: Pass/No Pass Option*

*Prerequisite: Successful completion of ESL 334, ESL 234 with a grade of C or higher, or ESL Placement Level 6 or higher*

*Class Hours: 36 lecture/162 lab total (when offered in the distance education format, hours will total 270)*

At this level, students develop the ability to understand and engage in extended conversations and discussions and communicate with increasing fluency and grammatical accuracy. This course stresses the language skills necessary for further academic study. Students read authentic materials beyond the familiar, develop academic vocabulary, and write paragraphs and short compositions. This course may be offered in a distance education format.

**ESL 320  ORAL COMMUNICATION – 0 Units**

*Class Hours: 72 lab total (when offered in the distance education format, hours will total 72)*

This course is designed for the low-intermediate to advanced English language learner. Major emphasis will be on refining and expanding the listening and speaking skills, aural-oral coping skills, and oral critical thinking and expression skills, which are necessary to function in routine social interactions, entry-level jobs, and/or further academic work. This course may be offered in a distance education format.

**ESL 331  BEGINNING LOW – 0 Units**

*Class Hours: 180 lab total (when offered in the distance education format, hours will total 180)*

This is a course designed for the absolute beginner with zero competency in English. Emphasis is on oral language skills and basic vocabulary related to daily living. This course may be offered in a distance education format.

**ESL 332  BEGINNING HIGH – 0 Units**

*Advisory: Successful completion of ESL 331*

*Class Hours: 180 lab total (when offered in the distance education format, hours will total 180)*

This course builds on the basic language skills from ESL 331. Language skills are expanded in communicative contexts. Emphasis is placed on development of "social English." This course may be offered in a distance education format.

**ESL 333  INTERMEDIATE LOW – 0 Units**

*Advisory: Successful completion of ESL 332 or ESL Placement Level 4 or higher*

*Class Hours: 180 lab total (when offered in the distance education format, hours will total 180)*

This course integrates intermediate language skills. Students at this level build the communicative ability to function in practical areas of daily life. This course may be offered in a distance education format.

**ESL 334  INTERMEDIATE HIGH – 0 Units**

*Advisory: Successful completion of ESL 333 or ESL Placement Level 5 or higher*

*Class Hours: 180 lab total (when offered in the distance education format, hours will total 180)*

This course reviews and expands the intermediate language skills learned in the previous level. Students will develop the ability to communicate in oral and written English beyond the familiar. They will read authentic materials on everyday topics, identify the main ideas and draw conclusions, and write routine correspondence and brief compositions with increasing complexity. This course may be offered in a distance education format.

**ESL 336  ADVANCED – 0 Units**

*Advisory: Successful completion of ESL 334, a grade of C or higher in ESL 234, or ESL Placement Level 6 or higher*

*Class Hours: 180 lab total (when offered in the distance education format, hours will total 180)*

At this level, students develop the ability to understand and engage in extended conversations and discussions and communicate with increasing fluency and grammatical accuracy. This course stresses the language skills necessary for further academic study. Students read authentic materials beyond the familiar, develop academic vocabulary, and write paragraphs and short compositions. This course may be offered in a distance education format.

**ESL 378  AMERICAN CITIZENSHIP – 0 Units**

*Advisory: ESL 234 with a grade of C or higher, or ESL Placement Level 4 or higher*

*Class Hours: 90 lab total (when offered in the distance education format, hours will total 90)*

This is a course designed to prepare prospective citizens for citizenship. Class activities will focus on U.S. history, government, basic geography and American culture and customs as it relates to the knowledge required to become an American citizen. While improving their English language skills, students will learn how to complete naturalization forms and prepare for the written and oral test for citizenship. This course may be offered in a distance education format.

**ENVIRONMENTAL RESOURCES**

See AG, AGMA, AGNR, AGPS and CONS for course listings

**ETHNIC STUDIES (ETHS)**

**ETHS 11  DISPARITIES IN HEALTH AND HEALTHCARE – 3 Units**

*Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)*

This introduction to the interdisciplinary field of health and healthcare disparities, exploring the complexity and diversity within African American, Latino/a/x, and Native American Peoples, this course is centered on perspectives from African American, Latino/a/x, and Native American Peoples. Historical traumas experienced by African American, Latino/a/x, and Native American Peoples are explored with a focus on how they connect past, present, and future resilience, environmental management, and sovereignty-building. Historical trauma and its link to physical, mental, and spiritual health inequities are explored. Microaggressions and their link to physical, mental, and spiritual health inequities are explored. Historical and current socioeconomic, educational, neighborhood and built environment, and healthcare access inequities will be explored for their impact on health outcomes. The resilience of African American, Latino/a/x, and Native American Peoples to resist health inequities, decolonize healthcare access, and establish sovereignty over their health and healthcare are explored. This course may be offered in a distance education format. (CSU transferable)

**ETHS 25  AFRICAN AMERICAN HISTORY – 3 Units**

*See also: HIST 25*

*Grading: Pass/No Pass Option*

*Advisory: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher*

*Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)*

This course is a survey of the historical development and contributions of African Americans in the United States. Topics include African civilizations, the African slave trade and Diaspora, the development of African American culture, colonial and Antebellum slavery, Emancipation and Reconstruction, Jim Crow, the Harlem Renaissance, the Civil Rights Movements, African Americans at war, 21st Century struggles for racial justice, and the concepts of race, ethnicity, and equality. This course may be offered in a distance education format. (CSU/UC transferable)

**ETHS 35  HISTORY OF MEXICAN AMERICANS – 3 Units**

*See also: HIST 35*

*Advisory: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher*

*Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)*

This course traces the social, economic, and political history of Mexican Americans from the Spanish conquest to the present. Focus will be on the historical trajectory of Mexican Americans as they emerged from a series of migrations, conflicts, and negotiations with Native Americans, Anglo Americans, and others. The course will also explore the unique social, economic, and political forces that shaped U.S. policies toward Mexican migrants and Mexican Americans. This course may be offered in a distance education format. (CSU/UC transferable)
Chapter 4: Courses

F

FAMILY STUDIES AND SERVICES (FSS)
See HUSY and NUTR for course listings

FIRE TECHNOLOGY (FIRS)

FIRS 70  FIRE PROTECTION ORGANIZATION – 3 Units
Class Hours: 54 lecture total
This course provides an overview to fire protection and emergency services; career opportunities in fire protection and related fields; culture and history of emergency services; fire loss analysis; organization and function of public and private fire protection services; fire departments as part of local government; laws and regulations affecting the fire service; fire service nomenclature; specific fire protection functions; basic fire chemistry and physics; introduction to fire protection systems; introduction to fire strategy and tactics; life safety initiatives. This course may be offered in a distance education format. (CSU transferable)

FIRS 71  FIRE BEHAVIOR AND COMBUSTION – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course of study presents theory and fundamentals of how and why fires start, spread, and are controlled; an in-depth study of fire chemistry and physics; fire characteristics of materials; extinguishing agents; and fire control techniques. This course may be offered in a distance education format. (CSU transferable)

FIRS 72  FIRE PREVENTION TECHNOLOGY – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: FIRE 110 X
This course provides fundamental knowledge relating to the field of fire prevention. Topics include: history and philosophy of fire prevention; organization and operation of a fire prevention bureau; use and application of codes and standards; plans review; fire inspections; fire and life safety education; and fire investigation. This course may be offered in a distance education format. (CSU transferable)

FIRS 73  WILDLAND FIREFIGHTER I ACADEMY – 6 Units
Prerequisite: FAID 75 or FAID 132 with a grade of B or higher, or FAID 332 with a grade of P; and FAID 133 with a grade of B or higher
Grading: Pass/No Pass Option
Notes:
1. To be considered for seasonal Firefighter positions, you may also need to hold additional certificates. Students should contact CALFIRE and the USFS for additional information.
2. This course may be repeated any number of times for credit by persons who are legally mandated to meet training requirements as a condition of continued paid or volunteer employment.
Class Hours: 54 lecture/162 lab total
This course is a review of fire behavior, equipment, and apparatus. Topics covered include basic wildland firefighting tactics and strategy, methods of attack, and pre-planning fire problems. This course meets or exceeds the minimum requirements for entry-level firefighter positions in the California Department of Forestry (CALFIRE) and the United States Forest Service (USFS). (CSU transferable)

FIRS 74  FIRE PROTECTION EQUIPMENT AND SYSTEMS – 3 Units
Grading: Pass/No Pass Option
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course provides information relating to the features of design and operation of fire alarm systems, water-based suppression systems, special hazard fire suppression systems, water supply for fire protection and portable fire extinguishers. This course may be offered in a distance education format. (CSU transferable)

FIRS 79  FUNDAMENTALS OF PERSONAL FIRE SAFETY – 3 Units
Grading: Pass/No Pass Option
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

FIRS 86  BUILDING CONSTRUCTION FOR FIRE PROTECTION – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: FIRE 130 X
This course is the study of the components of building construction that relate to fire safety. The elements of construction and design of structures are shown to be key factors when inspecting buildings, preplanning fire operations, and operating at fires. The development and evolution of building and fire codes will be studied in relationship to past fires in residential, commercial, and industrial occupancies. This course may be offered in a distance education format. (CSU transferable)

FIRS 94  FIREFIGHTER TRAINEE WORKSITE LEARNING – 1-8 Units
Limitation on Enrollment: Financial aid students must maintain concurrent enrollment in seven (7) units which include worksite learning units. Students not receiving financial aid do not need to enroll in other courses in order to participate in Worksite Learning Classes.
Class Hours: 75 hours paid or 60 hours non-paid per unit
The Firefighter Trainee Worksite Learning course allows the student to gain on-the-job experience through employment/volunteerism at an approved firefighter trainee job site that is acquired by the student and related to the student’s major. A faculty member supervises all WSL courses to ensure that the work experience is of educational value. The course stresses good work habits and meeting of competencies through actual on-the-job performance. A student may earn up to 16 units through repeating this course since course content varies and skills are enhanced by supervised repetition and practice. A maximum of 8 units may be earned in a single semester. (CSU transferable)

FIRS 100  FIRE COMPANY OPERATIONS – CERTIFICATION PREPARATION – 1.5 Units
Grading: Pass/No Pass Only
Notes: As this course is only intended for individuals pursuing IFSAC/ProBoard certification, students enrolling in this course must have completed their firefighter 1 training utilizing curriculum dated prior to 2013 should contact the Shasta College Fire Technology Director prior to enrollment.
On the first day of class, in the classroom, students are required to have a full set of NFPA structural turnouts and wildland safety clothing. As this course has no live fire component, dates of manufacture for safety clothing may exceed the 10-year “live fire” requirement, but all safety items shall be serviceable. Serviceable is defined as clean, uncontaminated, free of rips-tears-holes or similar defects, all snaps, buttons, zippers and Velcro closures shall be in place and operable. Safety clothing shall fit the individual according to current NFPA standards. Certificates will not be issued on the completion of this course.
This course is not a fire academy. It is a review course for students who have completed an accredited California State Fire Marshal’s Office, Firefighter 1 Academy utilizing the 2013 or newer CSFMO curriculum package.
This course does not certify, validate or accredit an individual as an IFSAC/ProBoard Firefighter. This course should be considered one step in a student’s preparation for attempting IFSAC/ProBoard certification. Every student enrolling in this course should have spent extensive time reviewing the California State Fire Marshal’s web pages and documents related to IFSAC/ProBoard certification. State standards related to applying for and completing the IFSAC/ProBoard examinations can, and have changed on short notice.
This course may be repeated any number of times for credit by persons who are legally mandated to meet training requirements as a condition of
Chapter 4: Courses

This course gives students an opportunity to refresh the skills and knowledge acquired in various entry level fire training courses such as FIRS 103, and prepare for the California State Fire Marshal's Office and/or the IFSAC/ProBoard "Capstone" skills examination. Note: This course is not a fire academy, nor will a student be signed off for any California State Fire Marshal’s Office or IFSAC/ProBoard skills or knowledge requirement. While there is no prerequisite for this course, students enrolling in the class should already meet all experience, skill and knowledge requirements established by CSFMO/IFSAC and/or the IFSAC/ProBoard “Capstone” skills examination. Note: This course may be offered in a distance education format.

**FIRS 102 IHC LEADERSHIP DEVELOPMENT – 1.5 Units**

**Grading:** Pass/No Pass Option  
**Note:** While this course is open to any student, it was developed primarily for USPS, IHC employees. Students seeking certification from this course must meet their respective agency physical ability and training requirements for each specific certificate. Contact the course instructor for current certification requirements.  
**Class Hours:** 18 lecture/27 lab total  
This course is directed at small unit leadership and decision making development in a simulated wild land field environment.

**FIRS 103 FIRE FIGHTER 1 CERTIFICATION EXAM – 1 Unit**

**Grading:** Pass/No Pass Only  
**Prerequisite:** FIRS 104 with a grade of B or higher  
**Class Hours:** 54 lab total  
This class is required for students to meet the California State Fire Marshal (CSFM) certification requirements for Fire Fighter I (FFI) including the capstone written examination and the skills performance evaluations. Upon successful completion of both the written tests and skills evaluations, students will receive a letter of completion from the college, and a letter of completion from CSFM.

**FIRS 104 FIREFIGHTER I ACADEMY – 21 Units**

**Prerequisites:** FAID 75 or FAID 132 with a grade of B or higher, or FAID 332 with a grade of P; and FAID 133 with a grade of B or higher  
**Corequisite:** FIRS 398  
**Advisory:** FIRS 397 with a grade of P  
**Notes:**  
1. The California State Fire Marshal’s Office requires that all Firefighter I summative tests be completed with a minimum score of 80% (a grade of B or higher). Any student who does not meet this standard will have failed FIRS 104 and will not receive credit for the course, nor will the student receive individual unit or course completion certificates.  
2. Any student enrolling in FIRS 104 must have completed the prerequisites of FAID 133 and either FAID 132 or FAID 332 at Shasta College (or their equivalents at another institution), OR FAID 333 and FAID 75 at Shasta College (or the equivalents at another institution). Students who attempt to satisfy these prerequisites with courses from another institution must provide transcripts that verify a minimum grade of B (80%) has been met.  
**Class Hours:** 235 lecture/450 lab total  
This course provides the skills and knowledge needed for the entry level professional fire fighter to perform his/her duties safely, effectively, and competently. The curriculum is based on the 2013 edition of NFPA 1001 Standard for Fire Fighter Professional Qualifications, the 2012 edition of NFPA 1051 Standard for Wildland Fire Fighter Professional Qualifications, and the 2008 edition of NFPA 472 Standard for Competence of Responders to Hazardous Materials/Weapons of Mass Destruction Incidents. The seven overarching themes of the California State Fire Fighter I curriculum are: general knowledge germane to the profession, fire department communications, fireground operations, rescue operations, preparedness and maintenance, wildland suppression activities, and hazardous materials/WMD. This academy is an Accredited Regional Training Program approved by the California State Board of Fire Services. Final certification as a Firefighter I is verified by the State Fire Marshal’s Office after the student completes the Academy, works as a volunteer Firefighter for one year or a full-time paid Firefighter for six months. Students successfully completing this course will receive numerous stand alone certificates in structure and wildland suppression; Auto Extrication, Confined Space Awareness, Hazardous Materials Operations; and others. Note: Based on scheduling and instructor availability issues, this course may meet four or five days a week with occasional night classes, and additional weekend days may be required. Preset/scheduled dates and times may be shifted as needed to accommodate facility usage, equipment demands, weather, skills development needs and instructor availability. When dates and times are shifted, the total amount of required class time will not differ from those hours as listed on the first class handout.

**FIRS 105 DRIVER/OPERATOR 1A: EMERGENCY VEHICLE OPERATIONS – 1.5 Units**

**Grading:** Pass/No Pass Option  
**Note:** Student must provide a fire engine for the driving portion of the course. Student must possess a valid Class B CA Driver’s License.  
**Class Hours:** 18 lecture/27 lab total  
This course provides the student with information on driver responsibilities, recognized standards, and related laws for fire apparatus. Topics include basic inspections, documentation, maintenance, and troubleshooting fire apparatus, and techniques on driving and positioning fire apparatus. Each student also has the opportunity to increase his or her driving skills during simulated driving conditions.

**FIRS 106 DRIVER/OPERATOR 1B: PUMP OPERATIONS – 1.5 Units**

**Grading:** Pass/No Pass Option  
**Note:** Student must provide a fire engine for the driving portion of the course. Student must possess a valid Class A, B, or C California Driver’s License.  
**Class Hours:** 18 lecture/27 lab total  
This course provides the student with information on pump construction and theory of pump operations. Topics include methods for performing basic hydraulics and techniques on basic inspections, documentation, maintenance, and troubleshooting fire pumps. Each student also has the opportunity to increase his or her pumping skills during simulated pumping conditions.

**FIRS 108 FIREFIGHTER II – 4 Units**

**Notes:**  
1. Students must have completed FIRS 104, or an equivalent course, prior to enrollment in FIRS 108, to receive a California State Fire Marshal’s Office Firefighter II certification.  
2. Students must provide their own safety equipment which meets NFPA standards. Equipment will include: helmet, gloves, structural firefighting coat and pants, boots, eye protection, hood, etc.  
3. This course may be repeated any number of times for credit by persons who are legally mandated to meet training requirements as a condition of continued paid or volunteer employment.  
**Class Hours:** 54 lecture/67 lab total  
This course provides the skills and knowledge needed for the entry level professional fire fighter to perform his/her duties safely, effectively, and competently. The curriculum is based on the 2013 edition of NFPA 1001 Standard for Fire Fighter Professional Qualifications. The five overarching themes of the California State Fire Fighter II curriculum are: general knowledge germane to the profession; fire department communications; fire ground operations; rescue operations; and prevention, preparedness, and maintenance.

**FIRS 109 COMPANY OFFICER 2A, HUMAN RESOURCE MANAGEMENT – 2 Units**

**Grading:** Pass/No Pass Option  
**Prerequisite:** FIRS 108 with a grade of B or higher  
**Class Hours:** 40 lecture total (when offered in the distance education format, hours will total 120)  
This course provides information on the use of human resources to accomplish assignments, evaluating member performance, supervising personnel, and integrating health and safety plans, policies, and procedures into daily activities as well as the emergency scene. Note: This course may be repeated any number of times for credit by persons who are legally mandated to meet training requirements as a condition of continued paid or volunteer employment. This course may be offered in a distance education format.

**FIRS 113 FIRE CREW SUPERVISOR – 1 Unit**

**Grading:** Pass/No Pass Option

</table>
Chapter 4: Courses

2021-2022 Shasta College Catalog

FIRS 149 AUTO EXTRICATION – 0.5 Units
Grading: Pass/No Pass Only
Class Hours: 9 lecture/15 lab total

To introduce principles of Auto extrication; use of basic hand tools, rescue tools, pulling and spreading operations, patient handling, and vehicle stabilization. Actual practice and application of the methods are taught in class. Students who are legally mandated to repeat this curriculum should contact the Division for additional information.

FIRS 151 FIRE CONTROL 1: BASIC FIRE CHEM – 1 Unit
Grading: Pass/No Pass Option
Note: This course may be repeated any number of times for credit by persons who are legally mandated to meet training requirements as a condition of continued paid or volunteer employment.
Class Hours: 18 lecture total

This course is a basic overview of fire chemistry and fire behavior and is designed for the beginning or volunteer firefighter. This course includes classes of fire, fundamentals of heat transfer, fire characteristics of materials, products of combustion, hazardous and explosive materials, extinguishing agents, size up, and exposure protection.

FIRS 152 FIRE CONTROL 2: BASIC OPERATIONS – STRUCTURAL – 1 Unit
Grading: Pass/No Pass Option
Note: This course may be repeated any number of times for credit by persons who are legally mandated to meet training requirements as a condition of continued paid or volunteer employment.
Class Hours: 18 lecture total

This course is designed to provide the student with information, methods and techniques for operating basic fire fighting tools and carrying out basic fire fighting evolutions. Areas covered include hose, nozzles, and fittings; ground ladders; self contained breathing apparatus; pump operations in theory; pump operations in the field; and the use of fire extinguishers.

FIRS 153 FIRE CONTROL 3B: STRUCTURAL LIVE FIRE IN SIMULATOR – 1 Unit
Grading: Pass/No Pass Option
Class Hours: 18 lecture total

This course is designed to develop fundamental skills in combating structure fires by providing the students with a thorough understanding of fire behavior, ventilation procedures and techniques, interior and exterior fire attack using a live-fire simulator. In many cases, this will be the fire fighter's first exposure to live structural firefighting. This course may be repeated any number of times for credit by persons who are legally mandated to meet training requirements as a condition of continued paid or volunteer employment.

FIRS 154 FIRE CONTROL 4: OIL AND GAS FIREFIGHTING – 0.5 Units
Grading: Pass/No Pass Option
Note: This course may be repeated any number of times for credit by persons who are legally mandated to meet training requirements as a condition of continued paid or volunteer employment.
Class Hours: 9 lecture/9 lab total

This course utilizes live fire situations and hands-on experience in combating fire involving LPG and flammable liquids. Topics include flammable liquid and gas fire behavior, safety, extinguishing agents, transportation fires, water flow requirements, and live fire-fighting.

FIRS 156 FIRE CONTROL 6: WILDLAND FIREFIGHTING ESSENTIALS – 1 Unit
Grading: Pass/No Pass Option

This course provides information, methods and techniques for wildland firefighting strategy and structure triage, terminology, survival skills, and operating safely in a wildland firefighting incident.

Class Hours: 18 lecture total

This course provides the student with the information and skills training for operating fire service pumps. Topics include types of pumps, engine and pump gauges, maintenance, unsafe pumping conditions, pressure relief devices, cooling systems, water supply, drafting, and field hydraulics. Each student will have the opportunity to increase his or her pumping skills during simulated pumping conditions.

Class Hours: 45 lecture total

This course is intended to develop fireline leadership skills for unit supervisors by providing training in applying leadership styles, communicating vision and intent, team building, detecting operational error, and managing stress.

This course is intended as leadership development training for incident response personnel who will function in fireline command roles.

FIRS 182 COMPANY OFFICER 2B, GENERAL ADMINISTRATIVE FUNCTIONS – 1 Unit
Grading: Pass/No Pass Option
Prerequisite: FIRS 108 with a grade of B or higher
Note: Meet the educational requirements of Fire Fighter II. This course may be repeated any number of times for credit by persons who are legally mandated to meet training requirements as a condition of continued paid or volunteer employment, or to maintain or renew certification.
Class Hours: 20 lecture total (when offered in the distance education format, hours will total 60)

This course provides information on general administrative functions and the implementation of department policies and procedures and addresses conveying the fire department's role, image, and mission to the public. This course may be offered in a distance education format.

FIRS 183 COMPANY OFFICER 2C, FIRE INSPECTIONS AND INVESTIGATIONS – 2 Units
Grading: Pass/No Pass Option
Prerequisite: FIRS 108 with a grade of B or higher
Note: Meet the educational requirements of Fire Fighter II. This course may be repeated any number of times for credit by persons who are legally mandated to meet training requirements as a condition of continued paid or volunteer employment, or to maintain or renew certification.
Class Hours: 40 lecture total (when offered in the distance education format, hours will total 120)

This course provides information on conducting inspections, identifying hazards and addressing violations, performing a fire investigation to determine preliminary cause and securing the incident scene and preserving evidence. This course may be offered in a distance education format.

FIRS 185 FIRE COMMAND 2A, MAJOR FIRES – 1.5 Units
Note: While there is no college prerequisite for this course, the California State Fire Marshal's Office has strict requirements related to certification. As state standards change frequently, all students should check the California State Fire Marshal's Office web site for current certification requirements prior to enrolling in this course.
Class Hours: 18 lecture/27 lab total

This course provides information on conducting incident size-up,
developing and implementing an initial plan of action involving single and multiunit operations for various types of emergency incidents to mitigate the situation following agency safety procedures, conducting preincident planning, and develop and conduct a post-incident analysis.

**FIRS 186 COMPANY OFFICER 2E, WILDLAND INCIDENT OPERATIONS – 1.5 Units**

**Prerequisite:** FIRS 108 with a grade of B or higher

**Note:** Meet the educational requirements of Fire Fighter II. This course may be repeated for credit any number of times for credit by persons who are legally mandated to meet training requirements as a condition of continued paid or volunteer employment, or to maintain or renew certification.

**Class Hours:** 28 lecture/12 lab total

This course provides information on evaluating and reporting incident conditions following incident needs, developing and implementing a plan of action to deploy incident resources completing all operations to suppress a wildland fire, establishing an incident command post, creating an incident action plan, and completing incident records and reports.

**FIRS 187 COMPANY OFFICER 2D, ALL-RISK COMMAND OPERATIONS – 2 Units**

**Grading:** Pass/No Pass Option

**Prerequisites:** FIRS 108 with a grade of B or higher, FIRS 120 with a grade of C or higher, and Hazardous Material Incident Commander (as offered by the California Specialized Training Institute)

**Class Hours:** 40 lecture total (when offered in the distance education format, hours will total 120)

This course provides information on conducting incident size-up, developing and implementing an initial plan of action involving single and multi-unit operations for various types of emergency incidents to mitigate the situation following agency safety procedures, conducting preincident planning, and developing and conducting a post-incident analysis. This course may be offered in a distance education format.

**FIRS 189 FIRE INVESTIGATION 1A – 2 Units**

**Grading:** Pass/No Pass Option

**Note:** While anyone may enroll in this course for general knowledge, skill development or degree requirement satisfaction, students pursuing California State Fire Marshal’s Office Certification or department specific promotional requirements should always check both of those organizations for current sequencing standards, prerequisites and “time limitations” related to certification or promotion. These conditions and requirements have been changing rapidly as the CSFMD completes a major reorganization of the state’s fire training system. CSFMD certificates may only be issued to students who have completed all course requirements, including occupational experience or course prerequisites.

**Class Hours:** 40 lecture total (when offered in the distance education format, hours will total 112)

This course of study presents theory and fundamentals of fire/explosion investigation techniques. The course material includes theory of legal search and seizure, burn pattern analysis, collection of evidence, ignition sources, fire investigations of structures, vehicles and wildland, report writing, and testifying in court as a fire cause and origin expert. This course may be offered in a distance education format.

**FIRS 191 FIRE INVESTIGATION 1B – 2 Units**

**Note:** While there is no college prerequisite for this course, the California State Fire Marshal’s Office has strict requirements related to certification. As state standards change frequently, all students should check the California State Fire Marshal’s Office web site for current certification requirements prior to enrolling in this course.

**Class Hours:** 36 lecture/9 lab total (when offered in the distance education format, hours will total 117)

This course concentrates on fire evidence identification, preservation and collection including blood stains, paint and fiber evidence, volatile flammables, soil and gunshot residue, fingerprint/footprint and the track impressions, etc. In addition, this course covers interviewing, fire information sources, and investigation of fatal fires. This course may be offered in a distance education format.

**FIRS 192 FIRE INVESTIGATION 1C: PREPARATION FOR LEGAL PROCEEDINGS – 1.5 Units**

**Grading:** Pass/No Pass Option

**Prerequisite:** FIRS 191 with a grade of C or higher

**Class Hours:** 18 lecture/27 lab total

This course provides information on legal considerations for a court proceeding. Topics include coordinating expert resources, formulating an opinion, presenting investigative findings, and testifying during legal proceedings. The 2014 edition of NFPA 1033 Standard for Fire Investigator Professional Qualifications is the basis for this course.

**FIRS 193 INSTRUCTOR I: INSTRUCTIONAL METHODOLOGY – 1.5 Units (formerly FIRS 182)**

**Class Hours:** 18 lecture/27 lab total (when offered in the distance education format, hours will total 54 for the lecture portion of the class and an additional 27 hours of lab, totaling 81 hours for this course)

This course provides the skills and knowledge needed for the entry level professional instructor to perform his or her duties safely, effectively, and competently. The curriculum is based on the 2012 edition of NFPA 1041 Standard for Fire Service Instructor Professional Qualifications and the 2012 edition of NFPA 1403 Standard for Live Fire Training Evolutions. At the end of this course, candidates for Instructor I certification will be able to teach and deliver instruction from a prepared lesson plan utilizing instructional aids and evaluation instruments. The Instructor I will also be able to adapt a lesson plan and complete the reporting requirements to the local jurisdiction.

**FIRS 194 INSTRUCTOR II: INSTRUCTIONAL DEVELOPMENT – 1.5 Units (formerly FIRS 181)**

**Prerequisite:** FIRS 193 with a grade of C or higher

**Class Hours:** 18 lecture/27 lab total (when offered in the distance education format, hours will total 54 for the lecture portion of the class and an additional 27 hours of lab, totaling 81 hours for this course)

This course provides the skills and knowledge needed for the intermediate level professional instructor to perform his or her duties safely, effectively, and competently. The curriculum is based on the 2012 edition of NFPA 1041 Standard for Fire Service Instructor Professional Qualifications and the 2012 edition of NFPA 1403 Standard on Live Fire Training Evolutions. At the end of this course, candidates for Instructor II certification will be able to develop lesson plans and evaluation instruments, teach and deliver instruction, and evaluate and coach other instructors. The Instructor II will also be able to analyze resources and formulate a program budget.

**FIRS 196 FIRE FIGHTER RECERTIFICATION – 0.5-8 Units**

**Grading:** Pass/No Pass Option

**Prerequisite:** FIRS 104 with a grade of B or higher, or completion of an Accredited State Fire Training Firefighter Academy and current employment with a recognized California Fire Agency

**Note:** This course may be repeated any number of times for credit by persons who are legally mandated to meet training requirements as a condition of continued paid or volunteer employment, or to maintain or renew certification.

**Class Hours:** 27-432 lab total

This course is intended to meet the recurring training needs of full-time or volunteer firefighters and help them to maintain currency with new equipment, policies, laws, and skills needed to be prepared in the line of duty. Students build upon their firefighting skills and receive updated information regarding firefighter safety, SCBA use, determination of air supply, electrical hazards, use of tools and equipment, fuel types and suppression methods, attack techniques, search and rescue, wildland firefighting techniques, hazardous materials incidents, first aid and CPR/AED skill(s), patient assessment, and emergency incident management.

**FIRS 305 DRIVER/OPERATOR 1A: EMERGENCY VEHICLE OPERATIONS – 0 Units**

**Note:** Student must provide a fire engine for the driving portions of the course. Student must possess a valid Class A, B, or C California Driver’s License.

**Class Hours:** 18 lecture/27 lab total

This course provides the student with information on driver responsibilities, recognized standards, and related laws for fire apparatus. Topics include: basic inspections, documentation, maintenance, and troubleshooting fire apparatus, and techniques on driving and positioning fire apparatus. Each student also has the opportunity to increase his or her driving skills during simulated driving conditions.

**FIRS 306 DRIVER/OPERATOR 1B: PUMP OPERATIONS – 0 Units**

**Note:** Student must provide a fire engine for the driving portions of the course. Student must possess a valid Class A, B, or C California Driver’s License.
This course provides the student with information on pump construction and theory of pump operations. Topics include methods for performing basic hydraulics and techniques on basic inspections, documentation, maintenance, and troubleshooting fire pumps. Each student also has the opportunity to increase his or her pumping skills during simulated pumping conditions.

**FIRS 335 INTERMEDIATE INCIDENT COMMAND SYSTEM: FOR EXPANDING INCIDENTS, I 300 – 0 Units**

Class Hours: 27 lecture total (when offered in the distance education format, hours will total 81)

A course of study describing the responsibilities of the organizational elements within each section of the ICS, staffing considerations, and reporting relationships. NOTE: While any student can take this course, for National Wildfire Coordinating Group Certification, the student must meet a complex set of prior training, certification, field trainee assignments, previous education requirements and current employees recommendations for certification (as stated in the United States Forest Service NWCG 310-1 Standards). United States Forest Service document NWCG 310-1 Standards changes frequently. Students shall ensure that they meet the current NWCG 310-1 standards for this course if they desire to receive a course completion certificate. A copy of NWCG 310-1 can be found in the Fire Technology Division or at the National Interagency Fire Center Web Site (NIFC.gov). This course may be repeated any number of times for credit by persons who are legally mandated to meet training requirements as a condition of continued paid or volunteer employment. This course may be offered in a distance education format.

**FIRS 338 HAZMAT FIRST RESPONDER OPERATIONS – 0 Units**

*Note: This course may be repeated any number of times for credit by persons who are legally mandated to meet training requirements as a condition of continued paid or volunteer employment.*

Class Hours: 18 lecture total (when offered in the distance education format, hours will total 54)

This course is designed to train first responders to recognize a hazardous materials incident and implement actions to protect themselves and the public per applicable OSHA regulations. This course may be offered in a distance education format.

**FIRS 341 FIRE FIGHTER SURVIVAL – 0 Units**

*Note: This course may be repeated any number of times for credit by persons who are legally mandated to meet training requirements as a condition of continued paid or volunteer employment.*

Class Hours: 18 lecture total

This course was developed in the continuing effort to reduce the number of fire fighter injuries and fatalities that occur on an annual basis and provides a greater understanding how to avoid committing fatal errors on the fireground. Avoiding situations that could cause you to become lost, trapped, or injured is the best way to prevent tragedies at a fire scene. Topics include fire fighter survival terminology, developing a survival attitude, increasing situational awareness, and being trained in problem-solving techniques so you can become more self-reliant in an emergency. Case studies will be reviewed to outline factors common in many line-of-duty deaths (LODDs) across the nation.

**FIRS 360 LIVE FIRE TRAINING, BASIC STRUCTURAL OPERATIONS – 0 Units**

Class Hours: 9 lecture/9 lab total

This course provides the student with hands-on firefighting experience in fire behavior, ventilation, overhaul, interior and exterior fire attack operations.

**FIRS 362 BASIC FIRE BEHAVIOR AND CHEMISTRY – 0 Units**

Class Hours: 18 lecture total

This course provides the student with the concepts of the fire triangle and tetrahedron, fire chemistry, fire behavior, products of combustion, types of extinguishing agents, hazardous materials properties and effects, and oxidizing agents.

**FIRS 363 BASIC STRUCTURAL OPERATIONS – 0 Units**

Class Hours: 18 lecture total

This course is designed to provide the volunteer firefighter with the fundamental concepts and skills for operating at residential and light commercial structure fires. Topic include the use of handlines, ground ladders, self-contained breathing apparatus, pump operations and the use of fire extinguishers.

**FIRS 397 FIRE ACADEMY PHYSICAL FITNESS TRAINING – 0 Units**

*Grading: Pass/No Pass Only*

Class Hours: 10 lecture/20 lab total

To be an effective firefighter and to successfully complete all the requirements of the Fire Academy, individuals need to be physically fit. This course is designed for Firefighter 1 candidates to learn fundamental physical fitness skills and expand their knowledge of health and fitness and how it impacts their skill performance. Students will learn strengthening exercises that, if used regularly, will help them perform at their potential.

**FIRS 398 FIRE ACADEMY ORIENTATION – 0 Units**

*Corequisite: FIRS 104*

Class Hours: 16 lecture total (when offered in the distance education format, hours will total 48)

This course informs individuals for successful participation in the Firefighter 1 Academy and for future employment as a firefighter. The requirements and expectations of the Firefighter 1 Academy will be fully covered so that those going forward as candidates will be prepared for the Academy's rigor and high performance expectations. Instruction will include such topics as enrollment requirements and prerequisites; uniforms, equipment, and materials; academic preparation; attendance and grading policies; certification requirements; standards of behavior and conduct; physical fitness standards; employment preparation and opportunities; career orientation and educational requirements, and the processes for initial employment and career advancement. This course may be offered in a distance education format.

**FIRE TECHNOLOGY/WILDLAND FIRE TECHNOLOGY LOGISTICS (FTWL)**

**FTWL 101 WILDLAND FIRE BEHAVIOR – 3 Units**

*Grading: Pass/No Pass Option*

Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course of study is to provide the information necessary to understand wildland fire behavior. The course includes influences that affect basic wildland fire behavior, the seven wildland fire environment factors which must be continuously monitored in making wildland fire behavior predictions, and providing the tools to make spot fire behavior predictions. This course may be offered in a distance education format.

**FTWL 102 WILDLAND FIREFIGHTER SAFETY AND SURVIVAL – 3 Units**

*Grading: Pass/No Pass Option*

Class Hours: 54 lecture total

This course of study places emphasis on avoiding situations and conditions which have resulted in fire shelter deployments, serious injuries and fatalities for wildland firefighters.

**FTWL 103 WILDLAND FIRE OPERATIONS – 3 Units**

*Grading: Pass/No Pass Option*

Class Hours: 54 lecture total

This course of study presents the command structure and operational processes for ground and air operations in the control of wildland fires.

**FTWL 110 DISPLAY PROCESS S-245 – 0.5 Units**

*Grading: Pass/No Pass Option*

*Note: While any student can take this course, for National Wildland Coordinating Group Certification, the student must meet a complex set of prior training, prior certification, field trainee assignments, previous education requirements and current employees recommendations for certification (as stated in the United States Forest Service NWCG 310-1 standards). This document changes frequently. Students shall ensure that they meet the current NWCG 310-1 standards for this course if they desire to receive a course completion certificate. A copy of NWCG 310-1 can be found in the Fire Technology Division or at the National Interagency Fire Center Web Site (www.nifc.gov).*

Class Hours: 9 lecture total

A course of study that presents information to enable the student to be able to function as a Display Processor on a wildland fire incident. The course includes how to determine logistical needs, including work...
Chapter 4: Courses

FTWL 130 FACILITIES UNIT LEADER S-354 – 2 Units
Grading: Pass/No Pass Only
Note: While any student can take this course, for National Wildland Coordinating Group Certification, the student must meet a complex set of prior training, prior certification, field trainee assignments, previous education requirements and current employees recommendations for certification (as stated in the United States Forest Service NWCG 310-1 standards). This document changes frequently. Students shall ensure that they meet the current NWCG 310-1 standards for this course if they desire to receive a course completion certificate. A copy of NWCG 310-1 can be found in the Fire Technology Division or at the National Interagency Fire Center Web Site (www.nifc.gov).
Class Hours: 40 lecture total
This course prepares students to perform the job of Facilities Unit Leader in the Incident Command System (ICS) organization. The course presents factors in determining requirements for each facility, layouts of incident facilities, and activation of incident facilities. Topics in the course will include operational leadership, mobilization, safety, demobilization and post-incident responsibilities.

FTWL 132 SUPPLY UNIT LEADER S-356 – 1.5 Units
Grading: Pass/No Pass Option
Note: While any student can take this course, for National Wildland Coordinating Group Certification, the student must meet a complex set of prior training, prior certification, field trainee assignments, previous education requirements and current employees recommendations for certification (as stated in the United States Forest Service NWCG 310-1 standards). This document changes frequently. Students shall ensure that they meet the current NWCG 310-1 standards for this course if they desire to receive a course completion certificate. A copy of NWCG 310-1 can be found in the Fire Technology Division or at the National Interagency Fire Center Web Site (www.nifc.gov).
Class Hours: 27 lecture total
This course of study presents the information necessary for the student to be able to function as a Supply Unit Leader on a wildland fire incident. This course includes description of the activities of the Supply Unit, what is needed to set up and staff Supply Unit, organization of and staffing of Supply Unit, and demobilization.

FTWL 133 FOOD UNIT LEADER S-357 – 1.5 Units
Grading: Pass/No Pass Only
Note: While any student can take this course, for National Wildland Coordinating Group Certification, the student must meet a complex set of prior training, prior certification, field trainee assignments, previous education requirements and current employees recommendations for certification (as stated in the United States Forest Service NWCG 310-1 standards). This document changes frequently. Students shall ensure that they meet the current NWCG 310-1 standards for this course if they desire to receive a course completion certificate. A copy of NWCG 310-1 can be found in the Fire Technology Division or at the National Interagency Fire Center Web Site (www.nifc.gov).
Class Hours: 33.5 lecture total
This course of study presents the information necessary for the student to be able to function as a Food Unit Leader on a large scale emergency incident. This course includes how to determine the method of feeding to best fit each situation, obtain the necessary equipment and supplies to operate food service facilities at base and camps, and ensure that all appropriate health and safety measures are taken.

FTWL 134 COMMUNICATIONS UNIT LEADER S-358 – 4 Units
Grading: Pass/No Pass Option
Note: While any student can take this course, for National Wildland Coordinating Group Certification, the student must meet a complex set of prior training, prior certification, field trainee assignments, previous education requirements and current employees recommendations for certification (as stated in the United States Forest Service NWCG 310-1 standards). This document changes frequently. Students shall ensure that they meet the current NWCG 310-1 standards for this course if they desire to receive a course completion certificate. A copy of NWCG 310-1 can be found in the Fire Technology Division or at the National Interagency Fire Center Web Site (www.nifc.gov).
Class Hours: 72 lecture total
This course of study presents the information necessary for the student to be able to function as a Communications Unit Leader on a wildland fire incident. The course includes how to assess communications capabilities/limitations during preparation of the incident action plan, preparation and implementation of the incident radio communications plan, and supervise communications unit activities.

FIRE TECHNOLOGY/WILDLAND FIRE TECHNOLOGY OPERATIONS (FTWO)

FTWO 111 FIREFIGHTER TRAINING S-130 – 2 Units
Grading: Pass/No Pass Option
Note: While any student can take this course, for National Wildland Coordinating Group Certification, the student must meet a complex set of prior training, prior certification, field trainee assignments, previous education requirements and current employees recommendations for certification (as stated in the United States Forest Service NWCG 310-1 standards). This document changes frequently. Students shall ensure that they meet the current NWCG 310-1 standards for this course if they desire to receive a course completion certificate. A copy of NWCG 310-1 can be found in the Fire Technology Division or at the National Interagency Fire Center Web Site (www.nifc.gov).
Class Hours: 36 lecture total
This course of study is designed to train new firefighters in basic firefighting skills, and knowledge necessary to effectively handle wildland firefighting situations.

FTWO 112 ADVANCED FIREFIGHTER TRAINING S-131 – 0.5 Units
Grading: Pass/No Pass Option
Note: While any student can take this course, for National Wildland Coordinating Group Certification, the student must meet a complex set of prior training, prior certification, field trainee assignments, previous education requirements and current employees recommendations for certification (as stated in the United States Forest Service NWCG 310-1 standards). This document changes frequently. Students shall ensure that they meet the current NWCG 310-1 standards for this course if they desire to receive a course completion certificate. A copy of NWCG 310-1 can be found in the Fire Technology Division or at the National Interagency Fire Center Web Site (www.nifc.gov).
Class Hours: 9 lecture total
This course of study provides advanced wildland firefighting training and education for those who wish to become qualified in the first level supervision position of Advanced Firefighter/Squad Boss.

FTWO 113 INTRODUCTION TO WILDLAND FIRE BEHAVIOR S-190 – 0.5 Units
Grading: Pass/No Pass Option
Note: While any student can take this course, for National Wildland Coordinating Group Certification, the student must meet a complex set of prior training, prior certification, field trainee assignments, previous education requirements and current employees recommendations for certification (as stated in the United States Forest Service NWCG 310-1 standards). This document changes frequently. Students shall ensure that they meet the current NWCG 310-1 standards for this course if they desire to receive a course completion certificate. A copy of NWCG 310-1 can be found in the Fire Technology Division or at the National Interagency Fire Center Web Site (www.nifc.gov).
Class Hours: 9 lecture total
This course of study provides an introduction to wildland fire behavior issues that are important to wildland fire spread and safety to firefighters involved in suppression.

FTWO 114 INITIAL ATTACK INCIDENT COMMANDER TYPE 4 (ICT4) S-200 – 1 Unit
Grading: Pass/No Pass Option
Note: While any student can take this course, for National Wildland Coordinating Group Certification, the student must meet a complex set of prior training, prior certification, field trainee assignments, previous education requirements and current employees recommendations for certification (as stated in the United States Forest Service NWCG 310-1 standards). This document changes frequently. Students shall ensure that they meet the current NWCG 310-1 standards for this course if they desire to receive a course completion certificate. A copy of NWCG 310-1 can be found in the Fire Technology Division or at the National Interagency Fire Center Web Site (www.nifc.gov).
Class Hours: 18 lecture total
This course of study is designed to provide the initial attack commander of small non-complex wildland fires with the ability to safely suppress the fire within the guidelines of the Incident Command System, and agency guidelines.

**FTWO 115 SUPERVISORY CONCEPTS AND TECHNIQUES S-201 – 1 Unit**
Grading: Pass/No Pass Option
Note: While anyone may enroll in this course, students will find that the content is more applicable when they have had three or more years of wildland work experience, preferably on a Type-1 hand crew.
Class Hours: 18 lecture total
While available to anyone, this course is designed for the experienced wildland firefighter who has or will be assigned to a Type-1 hand crew. Students will study and apply the principles of small unit leadership, communication, and supervision required of a Crew Boss or Squad leader.

**FTWO 116 FIRE OPERATIONS IN THE WILDLAND/URBAN INTERFACE S-215 – 1 Unit**
Grading: Pass/No Pass Option
Notes:
1. While any student can take this course, for National Wildland Coordinating Group Certification, the student must meet a complex set of prior training, prior certification, field trainee assignments, previous education requirements and current employee’s recommendations for certification (as stated in the United States Forest Service NWCG 310-1 standards). This document changes frequently. Students shall ensure that they meet the current NWCG 310-1 standards for this course if they desire to receive a course completion certificate. A copy of NWCG 310-1 can be found in the Fire Technology Division or at the National Interagency Fire Center Web Site (www.nifc.gov).
2. This course may be repeated any number of times for credit by persons who are legally mandated to meet training requirements as a condition of continued paid or volunteer employment.
Class Hours: 18 lecture/9 lab total
This course is designed to meet the training needs of a Single Resource Boss. Instructional units include firefighter safety in the interface, managing human factors in the interface, pre-incident planning, size-up and initial strategy, structure triage, structure protection overview, tactics in the interface, tactical operations and resource use in the interface, action assessment, plan update, and after action review.

**FTWO 117 PORTABLE PUMPS AND WATER USE S-211 – 0.5 Units**
Note: While any student can take this course, for National Wildland Coordinating Group Certification, the student must meet a complex set of prior training, prior certification, field trainee assignments, previous education requirements and current employee’s recommendations for certification (as stated in the United States Forest Service NWCG 310-1 standards). This document changes frequently. Students shall ensure that they meet the current NWCG 310-1 standards for this course if they desire to receive a course completion certificate. A copy of NWCG 310-1 can be found in the Fire Technology Division or at the National Interagency Fire Center Web Site (www.nifc.gov).
Class Hours: 9 lecture/12 lab total
This course of study is for firefighters needing formal training in order to gain competency in the use of portable pumps and water in wildland firefighting.

**FTWO 118 WILDFIRE POWERSAWS S-212 – 1 Unit**
Grading: Pass/No Pass Option
Class Hours: 9 lecture/27 lab total
This course provides introduction to the function, maintenance, and use of internal combustion engine-powered chainsaws and their tactics in wildland fire application. Field exercises support entry level training for firefighters with little or no previous experience in operating a chainsaw by providing hands-on cutting experience in surroundings similar to fireline situations. NOTE: While any student can take this course, for National Wildfire Coordinating Group certification, the student must meet a complex set of prior training, prior certification, field trainee assignments, previous education requirements and current employee’s recommendations for certification (as stated in the United States Forest Service NWCG 310-1 standards). This documentation changes frequently. Students shall ensure that they meet the current NWCG 310-1 standards for this course if they desire to receive a course completion certificate. A copy of NWCG 310-1 can be found in the Fire Technology Program office or at the National Interagency Fire Center Web Site (www.nifc.gov).

**FTWO 121 CREW BOSS S-230 – 1.5 Units**
Grading: Pass/No Pass Option
Note: While any student can take this course, for National Wildfire Coordinating Group (NWCG) or California Incident Command Certification System (CICCS) certification, the student must meet a complex set of prior training, prior certification, field trainee assignments, previous education requirements and current employee’s recommendations for certification (as stated in the NWCG 310-1 standards, and/or the CICCS Qualification Guide). These documents change frequently. Students shall ensure that they meet the current certification standards for this course if they desire to receive a course completion certificate. A copy of NWCG 310-1 and CICCS Qualification Guide can be found in the Fire Technology Program office, at the NWCG web site (nwcg.gov), or the CICCS web site (caloes.ca.gov).
Class Hours: 32 lecture total
This is a classroom course designed to produce student proficiency in the performance of duties associated with the single resource boss position from initial dispatch through demobilization to the home unit. Topics include operational leadership, preparation and mobilization, assignment preparation, risk management, entrapment avoidance, safety and tactics, offline duties, demobilization, and post incident responsibilities.

**FTWO 122 ENGINE BOSS S-231 – 1 Unit**
Grading: Pass/No Pass Option
Note: While any student can take this course, for National Wildland Coordinating Group (NWCG) or California Incident Command Certification System (CICCS) certification, the student must meet a complex set of prior training, prior certification, field trainee assignments, previous education requirements and current employee’s recommendations for certification (as stated in the NWCG 310-1 standards, and/or the CICCS Qualification Guide). These documents change frequently. Students shall ensure that they meet the current certification standards for this course if they desire to receive a course completion certificate. A copy of NWCG 310-1 and CICCS Qualification Guide can be found in the Fire Technology Program office, at the NWCG web site (nwcg.gov), or the CICCS web site (caloes.ca.gov).
Class Hours: 18 lecture total
This is a skill course designed to produce student proficiency in the performance of the duties associated with engine boss, single resource (ENGB). Topics include engine and crew capabilities and limitations, information sources, fire sizeup considerations, tactics, and wildland/urban interface.

**FTWO 125 IGNITION OPERATIONS S-234 – 1 Unit**
Grading: Pass/No Pass Option
Note: While any student can take this course, for National Wildland Coordinating Group Certification, the student must meet a complex set of prior training, prior certification, field trainee assignments, previous education requirements and current employees recommendations for certification (as stated in the United States Forest Service NWCG 310-1 standards). This document changes frequently. Students shall ensure that they meet the current NWCG 310-1 standards for this course if they desire to receive a course completion certificate. A copy of NWCG 310-1 can be found in the Fire Technology Division or at the National Interagency Fire Center Web Site (www.nifc.gov).
Class Hours: 18 lecture/8 lab total
This course of study presents the application of safety considerations involved in a firing operation. It also provides the student with the necessary information to operate, maintain, and use firing devices, and to use backfire as an indirect attack method against a rapidly spreading wildfire. The student will also learn the proper application of fire suppression firing methods and practices.

**FTWO 128 FIELD OBSERVER S-244 – 1.5 Units**
Note: While any student can take this course, for National Wildland Coordinating Group Certification, the student must meet a complex set of prior training, prior certification, field trainee assignments, previous education requirements and current employees recommendations for certification (as stated in the United States Forest Service NWCG 310-1 standards). This document changes frequently. Students shall ensure that they meet the current NWCG 310-1 standards for this course if they desire to receive a course completion certificate. A copy of NWCG 310-1 can be found in the Fire Technology Program office or at the National Interagency Fire Center Web Site (www.nifc.gov).
A course of study providing the student with the necessary skills to function as a Field Observer on a wildland fire incident. This course presents an understanding of the various types of maps used in wildland fire control, map scale and use in determining location of wildland fire, topographic maps and how to use them, and be able to perform calculations to determine the size of fire on a map.

**FTWO 130 BASIC AIR OPERATIONS S-270 – 1 Unit**

Class Hours: 18 lecture total

A course of study designed to prepare the student with the necessary skills to function as an Initial Attack/Strike Team Leader. This course presents the tactics necessary for the safe utilization of resources to control wildland fires. This course covers the review and comparison of tactical assignments with incident objectives, analyzing capabilities of the resources assigned and making work assignments for each resource to accomplish the tactical objectives in an assigned area.

**FTWO 135 TASK FORCE/STRIKE TEAM LEADER S-330 – 1.5 Units**

Class Hours: 27 lecture total

**FTWO 136 FIRE SUPPRESSION TACTICS S-336 – 2 Units**

Class Hours: 36 lecture total

A course of study for Initial Attack Incident Commanders and Task Force/Strike Team Leaders to perform the role of a division/group supervisor on a wildland fire incident. This course prepares students to perform in the role of division/group supervisor. It provides instruction in support of the specific tasks of the division/group supervisor, but will not instruct students in general management/supervision or in the incident command system (ICS), both of which the student should learn through prerequisite work. Topics include division/group management, organizational interaction, division operations, all-hazard operations, and tactical decision games (optional).

**FTWO 137 DIVISION/GROUP SUPERVISOR S-339 – 1 Unit**

Class Hours: 24 lecture total

A course of study for experienced wildland firefighters single resource or crew boss qualified to undertake the role of the Task Force/Strike Team Leader in the control of wildland fires. This includes utilization of increments of equipment in saving lives and property, and to develop the skills necessary to supervise the various types of equipment in wildland fire control.

**FTWO 138 INCIDENT COMMANDER EXTENDED ATTACK S-390 – 1 Unit**

Class Hours: 18 lecture total

A course of study for Experienced Wildland Firefighter who is qualified to undertake the role of the Task Force/Strike Team Leader in the control of wildland fires. This includes utilization of increments of equipment in saving lives and property, and to develop the skills necessary to supervise the various types of equipment in wildland fire control.

**FTWO 139 INTRODUCTION TO WILDLAND FIRE BEHAVIOR CALCULATIONS S-390 – 2 Units**

Class Hours: 24 lecture total

A course of study for Initial Attack Incident Commanders and Task Force/Strike Team Leaders to perform the role of a division/group supervisor on a wildland fire incident. This course prepares students to perform in the role of division/group supervisor. It provides instruction in support of the specific tasks of the division/group supervisor, but will not instruct students in general management/supervision or in the incident command system (ICS), both of which the student should learn through prerequisite work. Topics include division/group management, organizational interaction, division operations, all-hazard operations, and tactical decision games (optional).
prior training, prior certification, field trainee assignments, previous education requirements and current employees recommendations for certification (as stated in the United States Forest Service NWCG 310-I standards). This document changes frequently. Students shall ensure that they meet the current NWCG 310-I standards for this course if they desire to receive a course completion certificate. A copy of NWCG 310-I can be found in the Fire Technology Program office, at the NWCG web site (nwcg.gov), or the CICCS web site (caloes.ca.gov). This course may be repeated any number of times for credit by persons who are legally mandated to meet training requirements as a condition of continued paid or volunteer employment, or to maintain or renew certification.

Class Hours: 32 lecture total

A course of study for experienced firefighters single resource or crew boss qualified to undertake the role of the Task Force/Strike Team Leader in the control of wildland fires and other all-risk incidents. This includes utilization of increments of equipment in saving lives and property, and to develop the skills necessary to manage all-risk incidents.

FTWO 156 AIR OPERATIONS BRANCH DIRECTOR S-470 – 1.5 Units
Grading: Pass/No Pass Option
Note: While any student can take this course, for National Wildfire Coordinating Group (NWCG) certification, the student must meet a complex set of prior training, prior certification, field trainee assignments, previous education requirements and current employees recommendations for certification (as stated in the NWCG 310-I standards). This document changes frequently. Students shall ensure that they meet the current NWCG 310-1 standards for this course if they desire to receive a course completion certificate.

Class Hours: 27 lecture total

This course meets the national training standard for National Wildfire Coordinating Group (NWCG) certification, Air Operations Branch Director S-470 (2133.10). Topics include preparedness and mobilization, initial briefings and meetings, transition, planning for and organizing for an aviation operation, implementation of an aviation operation, management and oversight of an aviation operation, and demobilization.

FTWO 158 FACILITATIVE INSTRUCTOR M-410 – 2 Units
Grading: Pass/No Pass Option
Note: While any student can take this course, for National Wildfire Coordinating Group Certification, the student must meet a complex set of prior training, prior certification, field trainee assignments, previous education requirements and current employees recommendations for certification (as stated in the United States Forest Service NWCG 310-1 standards). This document changes frequently. Students shall ensure that they meet the current NWCG 310-1 standards for this course if they desire to receive a course completion certificate. A copy of NWCG 310-1 can be found in the Fire Technology Program office or at the National Interagency Fire Center Web Site (NIFC.gov).

Class Hours: 36 lecture total

This training course is designed to help students become effective facilitative instructors. The purpose of this course is to improve training delivery and quality by presenting instructional methods with an emphasis on student-oriented adult training techniques. This course is designed for students to meet NWCG instructor requirements.

FTWO 312 ADVANCED FIREFIGHTER TRAINING S-131 – 0 Units
Note: While any student can take this course, for National Wildfire Coordinating Group (NWCG) or California Incident Command Certification System (CICCS) certification, the student must meet a complex set of prior training, prior certification, field trainee assignments, previous education requirements and current employees recommendations for certification (as stated in the NWCG 310-1 standards, and/or the CICCS Qualification Guide). These documents change frequently. Students shall ensure that they meet the current certification standards for this course if they desire to receive a course completion certificate. A copy of NWCG 310-1 and CICCS Qualification Guide can be found in the Fire Technology Program office, at the NWCG web site (nwcg.gov), or the CICCS web site (caloes.ca.gov). This course may be repeated any number of times for credit by persons who are legally mandated to meet training requirements as a condition of continued paid or volunteer employment.

Class Hours: 9 lecture total

This course of study provides advanced wildland firefighting training and education for those who wish to become qualified in the first level supervision position of Advanced Firefighter/Squad Boss.
FTWO 316 FIRE OPERATIONS IN THE WILDLAND/URBAN INTERFACE S-215 – 0 Units
Note: While any student can take this course, for National Wildland Coordinating Group Certification, the student must meet a complex set of prior training, prior certification, field trainee assignments, previous education requirements and current employee’s recommendations for certification (as stated in the United States Forest Service NWCG 310-1 standards). This document changes frequently. Students shall ensure that they meet the current NWCG 310-1 standards for this course if they desire to receive a course completion certificate. A copy of NWCG 310-1 can be found in the Fire Technology Division or at the National Intergency Fire Center Web Site (NIFC.gov).
Class Hours: 18 lecture/9 lab total
This course is designed to meet the training needs of a Single Resource Boss. Instructional units include firefighter safety in the interface, managing human factors in the interface, pre-incident planning, size-up and initial strategy, structure triage, structure protection overview, tactics in the interface, tactical operations and resource use in the interface, action assessment, plan update, and after action review.

FTWO 321 S-230 CREW BOSS (SINGLE RESOURCE) – 0 Units
Note: While any student can take this course, for National Wildfire Coordinating Group Certification, the student must meet a complex set of prior training, prior certification, field trainee assignments, previous education requirements and current employer’s recommendation for certification (as stated in the United States Forest Service NWCG 310-1 standards). This document changes frequently. Students shall ensure that they meet the current NWCG 310-1 standards for this course if they desire to receive a course completion certificate. A copy of NWCG 310-1 can be found in the Fire Technology Department or at the National Intergency Fire Center Web Site (NIFC.gov).
Class Hours: 9 lecture total
This is a classroom course designed to produce student proficiency in the performance of duties associated with the single resource boss position from initial dispatch through demobilization to the home unit. Topics include operational leadership, preparation and mobilization, assignment preparation, risk management, entrapment avoidance, safety and tactics, offline duties, demobilization, and post incident responsibilities.

FTWO 322 ENGINE BOSS S-231 – 0 Units
Note: While any student can take this course, for National Wildfire Coordinating Group (NWCG) or California Incident Command Certification System (CICCS) certification, the student must meet a complex set of prior training, prior certification, field trainee assignments, previous education requirements and current employee’s recommendations for certification (as stated in the NWCG 310-1 standards, and/or the CICCS Qualification Guide). These documents change frequently. Students shall ensure that they meet the current NWCG 310-1 standards for this course if they desire to receive a course completion certificate. A copy of NWCG 310-1 can be found in the Fire Technology Department or at the National Intergency Fire Center Web Site (NIFC.gov).
Class Hours: 18 lecture total
This is a skill course designed to produce student proficiency in the performance of the duties associated with engine boss, single resource (ENGB). Topics include engine and crew capabilities and limitations, information sources, fire sizeup considerations, tactics, and wildland/urban interface.

FTWO 332 INTERMEDIATE WILDLAND FIRE BEHAVIOR S-290 – 0 Units
Prerequisite: FTWO 113 with a grade of C or higher
Note: While any student can take this course, for National Wildfire Coordinating Group certification, the student must meet a complex set of prior training, prior certification, field trainee assignments, previous education requirements and current employer’s recommendation for certification (as stated in the United States Forest Service NWCG 310-1 standards). This document changes frequently. Students shall ensure that they meet the current NWCG 310-1 standards for this course if they desire to receive a course completion certificate. A copy of NWCG 310-1 can be found in the Fire Technology Department or at the National Intergency Fire Center website (www.nifc.gov).
Class Hours: 36 lecture total
This is a skill course designed to produce student proficiency in the performance of the duties associated with engine boss, single resource (ENGB). Topics include engine and crew capabilities and limitations, information sources, fire sizeup considerations, tactics, and wildland/urban interface.

FTWO 348 WILDLAND FIREFIGHTER SAFETY AND SURVIVAL – 0 Units
Note: While any student can take this course, for National Wildfire Coordinating Group (NWCG) or California Incident Command Certification System (CICCS) certification, the student must meet a complex set of prior training, prior certification, field trainee assignments, previous education requirements and current employee’s recommendations for certification (as stated in the NWCG 310-1 standards, and/or the CICCS Qualification Guide). These documents change frequently. Students shall ensure that they meet the current certification standards for this course if they desire to receive a course completion certificate. A copy of NWCG 310-1 and CICCS Qualification Guide can be found in the Fire Technology Program office, at the NWCG web site (nwcg.gov), or the CICCS web site (caloes.ca.gov).
Class Hours: 9 lecture total
This course is designed to produce student proficiency in the performance of the duties associated with engine boss, single resource (ENGB). Topics include engine and crew capabilities and limitations, information sources, fire sizeup considerations, tactics, and wildland/urban interface.

FTWO 355 WILDLAND FIREFIGHTER TACTICS – 0 Units
Prerequisite: FTWO 113 with a grade of C or higher
Note: While any student can take this course, for National Wildfire Coordinating Group Certification, the student must meet a complex set of prior training, prior certification, field trainee assignments, previous education requirements and current employer’s recommendation for certification (as stated in the United States Forest Service NWCG 310-1 standards). This document changes frequently. Students shall ensure that they meet the current NWCG 310-1 standards for this course if they desire to receive a course completion certificate. A copy of NWCG 310-1 can be found in the Fire Technology Department or at the National Intergency Fire Center website (www.nifc.gov).
Class Hours: 36 lecture total
This course is designed to produce student proficiency in the performance of the duties associated with engine boss, single resource (ENGB). Topics include engine and crew capabilities and limitations, information sources, fire sizeup considerations, tactics, and wildland/urban interface.
education requirements and current employees recommendations for certification (as stated in the United States Forest Service NWCG 310-1 standards). This document changes frequently. Students shall ensure that they meet the current NWCG 310-1 standards for this course if they desire to receive a course completion certificate. A copy of NWCG 310-1 can be found in the Fire Technology Division or at the National Interagency Fire Center Web Site (NIFC.gov).

Grading: Pass/No Pass Option

Class Hours: 27 lecture total

Prescribed Fire Implementation RX-301 is designed to introduce students to the tools and techniques used to perform the job of a Prescribed Fire Burn Boss (RXB). The course is based on the tasks in the RXB position task book. It leads students through the duties and responsibilities associated with the RXB position.

**FTWP 111 WILDFIRE PREVENTION EDUCATION P-101 – 2 Units**

**Grading:** Pass/No Pass Option

**Class Hours:** 36 lecture total

This course was developed as part of a multi-course national curriculum covering wildfire prevention and is designed to enhance basic skill and knowledge of personnel assigned responsibilities for wildfire prevention. NOTE: While any student can take this course, for National Wildfire Coordinating Group Certification, the student must meet a complex set of prior training, prior certification, field trainee assignments, previous education requirements and current employees recommendations for certification (as stated in the United States Forest Service NWCG 310-1 standards). This document changes frequently. Students shall ensure that they meet the current NWCG 310-1 standards for this course if they desire to receive a course completion certificate. A copy of NWCG 310-1 can be found in the Fire Technology Program office or at the National Interagency Fire Center Web Site (NIFC.gov).

**Grading:** Pass/No Pass Option

**Class Hours:** 27 lecture/9 lab total

The primary purpose of this course is to provide a consistent knowledge and skill base for the wildland fire investigator (INVF). The concepts taught in this course will help an INVF perform at an acceptable level on a national basis without regard to geographic boundaries. This course includes how to identify and collect equipment and supplies to conduct a wildfire investigation, record information about the fire, determine the origin of the fire, determine the cause of the fire, properly collect and preserve evidence, interview witnesses and obtain suspect information, prepare and write reports, and how to present testimony before a judge and/or jury.

**FTWP 114 WILDLAND FIRE ORIGIN AND CAUSE DETERMINATION FI-210 – 1.5 Units**

**Grading:** Pass/No Pass Option

**Class Hours:** 32 lecture total

This course of study provides the introductory information necessary for the student to be able to function as a Public Information Officer on a non-complex wildland fire. This course includes a description of the duties and responsibilities of a Type 3 Information Officer, the kinds and sources of information needed, how to gather and distribute information to meet the needs of print and electronic media, internal audiences, cooperators, communities, landowners, homeowners, local government leaders, and the steps and materials needed to operate an information center and field work site.

**FTWP 126 SMOKE MANAGEMENT TECHNIQUES RX-410 – 2 Units**

**Grading:** Pass/No Pass Option

**Class Hours:** 36 lecture total

This course leads students through the ecological and historical role of fire, characteristics of smoke and the health, safety and visibility impacts of smoke. Other topics include public relations, legal requirements, meteorology, fuel consumption, smoke production dispersion modeling, and operational smoke management strategies. This course is designed to be interactive in nature. It contains a panel discussion, several exercises designed to facilitate group and class participation and case studies from a variety of fuel types and political challenges. The pre-course work assignment is designed to familiarize students with the Smoke Management Guide and air quality regulations that impact prescribed fire programs. NOTE: While any student can take this course, for National Wildfire Coordinating Group Certification, the student must meet a complex set of prior training, prior certification, field trainee assignments, previous education requirements and current employees recommendations for certification (as stated in the United States Forest Service NWCG 310-1 standards). This document changes frequently. Students shall ensure that they meet the current NWCG 310-1 standards for this course if they desire to receive a course completion certificate. A copy of NWCG 310-1 can be found in the Fire Technology Department or at the National Interagency Fire Center Web Site (NIFC.gov).

**FIRST AID/CPR/EMT (FAID)**

**FAID 75 EMERGENCY MEDICAL TECHNICIAN 1 BASIC – 7 Units**

**Prerequisite:** FAID 133 or FAID 333 with a grade of C or higher, or Certification CPR for the Professional Rescuer or any course equivalent to the 2015 American Heart Association’s Guidelines for Cardiopulmonary Resuscitation and Emergency Cardiovascular Care at the Healthcare Provider Level or Basic Life Support (BLS) Level. Contact Fire Technology/EMS Program for questions.

**Notes:**

1. Twenty-four-hours of clinical experience at a hospital emergency room or on an ambulance or an authorized rescue squad will be required. Most providers in the area have requirements for ambulance/hospital clinical participation time, which include proof of a current TB skin test; Hepatitis B vaccination, or declination; proof of vaccination, past history of or titer for MMR; proof of Tetanus vaccination less than ten years old; and either a past history of or a titer for Varicella (Chicken Pox). Check with the instructor for details.

2. State certification as an EMT requires that the student is at least 18 years old, has a current CPR card for the Professional Rescuer or any card equivalent to the 2015 American Heart Association’s Guidelines for Cardiopulmonary Resuscitation and Emergency Cardiovascular Care at the Healthcare Provider Level or Basic Life Support (BLS) level, passes a recognized EMT course, has not been convicted of specific crimes, and completes the statewide written and skills examination. (As of 1/1/2006 the state has adopted the National Registry EMT exam as its statewide exam. Upon successful completion of the statewide exam, the student must submit an application to the Local EMS Agency (Sierra-Sacramento Valley EMS Agency) for certification, which is valid statewide.

3. This class meets for additional time “outside” of the scheduled weekly meeting time. This may include Saturdays, Sundays or night shifts.

4. State regulations require that EMT students possess CPR training equivalent to the 2015 American Heart Association’s Guidelines for Cardiopulmonary Resuscitation and Emergency Cardiovascular Care at the Healthcare Provider level or Basic Life Support (BLS) level as a prerequisite for admission to an EMT-1 basic course.

5. Students are required to purchase nitrate gloves, 1-way pocket mask valve and a Shasta College EMT Program student photo ID card.

6. Students must submit proof of a drug screening and a background check through a Shasta College approved vendor prior to being into clinical facilities. Shasta college personnel must review and approve test results prior to students participating in clinical observations.

**Class Hours:** 108 lecture/58 lab total (when offered in the distance education format, hours will total 382)
This is an intensive course to assist the student with developing skills to recognize symptoms of illness and injuries, and proper procedures in emergency care. Upon successful completion of the course and the statewide written and skills examination, the student must make an application through Sierra-Sacramento Valley EMS Agency for certification. This course may be offered in a distance education format.

FAID 130 PUBLIC SAFETY FIRST AID (EMS) – 1 Unit
Grading: Pass/No Pass Option
Class Hours: 54 lab total (when offered in the distance education format, hours will total 54)

This course meets First Aid Standards for Public Safety Personnel covered by the U.S. Department of Transportation; California Code of Regulations Title 22, Division 9, Chapter 1.5, First Aid and CPR Standards and Training for Public Safety Personnel; and recognized by the local EMS Agency. This course may be offered in a distance education format.

FAID 132 EMERGENCY MEDICAL RESPONDER (EMR) – 2 Units
Note: To receive certification, and meet the FIRS 104 prerequisite, this course must be passed with an 80% minimum score. Students not meeting this minimum will be required to repeat the course. Students must make application through NorCal E.M.S. for certification.
Class Hours: 30 lecture/30 lab total (when offered in the distance education format, hours will total 120)

This course teaches the Emergency Medical Responder to initiate immediate lifesaving care to critical patients who access the emergency medical system. The student will also receive Automatic External Defibrillator training. This course meets National Emergency Medical Services Education Standards covered by the National Highway Traffic Safety Administration curriculum and approved by the local EMS agency. Note: Students must make application through Sierra-Sacramento Valley E.M.S.A. for certification. This course may be offered in a distance education format.

FAID 133 CERTIFICATION CPR FOR THE PROFESSIONAL RESCUE – 0.5 Units
Grading: Pass/No Pass Option
Note: Meets criteria for either the American Red Cross or American Heart Association
Class Hours: 9 lecture total (when offered in the distance education format, hours will total 27)

This course will cover CPR and how to treat for foreign body obstruction in adults, children, and infants. It is designed for the professional rescuer. Upon successful completion of this course, students may apply to be certified in CPR by the agency having jurisdiction. This course may be offered in a distance education format.

FAID 178 EMT 1 BASIC RECERTIFICATION-- 1 Unit (formerly FAID 178AD)
Note: This course may also be taken to satisfy the requirements for recertification as an Emergency Medical Responder. This course may be repeated any number of times for credit by persons who are legally mandated to meet training requirements as a condition of continued paid or volunteer employment, or to maintain or renew certification.
Class Hours: 18 lecture/13 lab total (when offered in the distance education format, hours will total 67)

This course offers a comprehensive review of the signs and symptoms of illness and traumatic injuries, and the skills necessary to provide immediate temporary care of such victims are reviewed. This course is approved by the Northern California Emergency Medical Services, Inc. and the Sierra-Sacramento Valley EMSA for the purpose of EMT recertification. Upon successful completion of the course, the student may make application through Northern California Emergency Medical Services, Inc. (Trinity County only), and Sierra-Sacramento Valley EMSA (Shasta & Tehama Counties only) for recertification. Note: This course may also be taken to satisfy the requirements for recertification as an Emergency Medical Responder. This course may be repeated any number of times for credit by persons who are legally mandated to meet training requirements as a condition of continued paid or volunteer employment, or to maintain or renew certification. This course may be offered in a distance education format.

FAID 320 WILDERNESS FIRST AID – 0 Units
Grading: Pass/No Pass Only
Note: Certification in Adult CPR and AED is required to fully complete certification in Wilderness First Aid.
Class Hours: 8 lecture/8 lab total

Wilderness First Aid is intended for individuals that are required to be certified in wilderness first aid knowledge and skills. This course is not for professional rescuers or healthcare providers.

FAID 332 EMERGENCY MEDICAL RESPONDER (EMR) – 0 Units
Note: Students must make application through Sierra-Sacramento Valley E.M.S.A. for certification.
Class Hours: 30 lecture/30 lab total (when offered in the distance education format, hours will total 120)

This course teaches the Emergency Medical Responder to initiate immediate lifesaving care to critical patients who access the emergency medical system. The student will also receive Automatic External Defibrillator training. This course meets National Emergency Medical Services Education Standards covered by the National Highway Traffic Safety Administration curriculum and approved by the local EMS agency. Note: Students must make application through Sierra-Sacramento Valley E.M.S.A. for certification. This course may be offered in a distance education format.

FAID 333 CERTIFICATION CPR FOR THE PROFESSIONAL RESCUE – 0 Units
Grading: Pass/No Pass Option
Note: Meets criteria for the American Safety and Health Institute or the American Heart Association.
Class Hours: 9 lecture total (when offered in the distance education format, hours will total 27)

This course will cover CPR and how to treat for foreign body obstruction in adults, children, and infants. It is designed for the professional rescuer. Upon successful completion of this course, students may apply to be certified in CPR by the agency having jurisdiction. This course may be offered in a distance education format.

FAID 375 EMERGENCY MEDICAL TECHNICIAN 1 BASIC – 0 Units
Grading: Pass/No Pass Option
Pre requisite: FAID 133 or FAID 333 with a grade of C or higher, or Certification CPR for the Professional Rescuer or any course equivalent to the 2015 American Heart Association's Guidelines for Cardiopulmonary Resuscitation and Emergency Cardiovascular Care at the Healthcare Provider Level or Basic Life Support (BLS) Level. Contact Fire Technology/EMS Program for questions.

Notes:
1. Twenty-four hours of clinical experience at a hospital emergency room or on an ambulance or an authorized rescue squad will be required. Most providers in the area have requirements for ambulance/hospital clinical participation time, which include proof of a current TB skin test; Hepatitis B vaccination, or declination; proof of vaccination against tetanus, whooping cough, pertussis, or diphtheria; proof of varicella vaccination less than ten years old; and either a past history of or a titer for Varicella (Chicken Pox). Check with the instructor for details.
2. State certification as an EMT requires that the student is at least 18 years old, has a current CPR card for the Professional Rescuer or any card equivalent to the 2015 American Heart Association's Guidelines for Cardiopulmonary Resuscitation and Emergency Cardiovascular Care at the Healthcare Provider Level or Basic Life Support (BLS) level. Has not been convicted of specific crimes, and completes the statewide written and skills examination. (As of 1/1/2006 the state has adopted the National Registry EMT exam as its statewide exam. Upon successful completion of the statewide exam, the student must submit an application to the Local EMS Agency (Sierra-Sacramento Valley EMS Agency) for certification, which is valid statewide.
3. This class meets for additional time "outside" of the scheduled weekly meeting time. This may include Saturdays, Sundays or night shifts.
4. State regulations require that EMT students possess CPR training equivalent to the 2015 American Heart Association’s Guidelines for Cardiopulmonary Resuscitation and Emergency Cardiovascular Care at the Healthcare Provider level or Basic Life Support (BLS) level as a prerequisite for admission to an EMT-1 basic course.
5. Students are required to purchase nitrate gloves, 1-way pocket mask valve and a Shasta College EMT Program student photo ID card.
6. Students must submit proof of a drug screening and a background check through a Shasta College approved vendor prior to going into clinical facilities. Shasta college personnel must review and approve...
test results prior to students participating in clinical observations.

Class Hours: 108 lecture/58 lab total (when offered in the distance education format, hours will total 382)

This is an intensive course to assist the student with developing skills to recognize symptoms of illness and injuries, and proper procedures in emergency care. Upon successful completion of the course and the statewide written and skills examination, the student must make an application through Sierra-Sacramento Valley EMS Agency for certification. This course may be offered in a distance education format.

FRENCH (FREN)

Two years of high school foreign language with grades of “C” or better is equivalent to one semester of foreign language at Shasta College.

FREN 1 FRENCH 1 – 5 Units
Grading: Pass/No Pass Option
Class Hours: 90 lecture total

This introductory course gives the student intense practice in speaking and listening to French, as well as reading and writing in French, with additional emphasis on grammar and pronunciation. The class focuses on communication related to daily life and routine activities, such as people, places, family life, weather, leisure time activities, and food. Students are introduced to the history and culture of French-speaking people. (CSU/UC transferable)

FREN 2 FRENCH 2 – 5 Units
Grading: Pass/No Pass Option
Prerequisite: FREN 1 with a grade of C or higher, or Foreign Language Placement Level 2 or higher
Class Hours: 90 lecture total

A continuation of French 1, the course emphasizes listening to spoken French and on speaking the language, along with writing and reading in French. Students expand their language skills and vocabulary, while improving on their ability to ask and answer questions, to discuss daily life, current events, travel, and leisure-time activities. Students will read short texts about French history and culture, as well as watch videos about French-speaking countries. (CSU/UC transferable)

FREN 3 FRENCH 3 – 3 Units
Grading: Pass/No Pass Option
Prerequisite: FREN 2 with a grade of C or higher, or Foreign Language Placement Level 3 or higher
Class Hours: 54 lecture total

A thorough review of basic communication skills (speaking, listening, reading, and writing) and formal study of the patterns of French. Students continue to strengthen their speaking skills as they work toward mastery of the language. The course includes reading expository writing along with pieces of French literature. (CSU/UC transferable)

FREN 4 FRENCH 4 – 3 Units
Grading: Pass/No Pass Option
Prerequisite: FREN 3 with a grade of C or higher, or Foreign Language Placement Level 4 or higher
Class Hours: 54 lecture total

The fourth semester of the language emphasizes conversation, contemporary literature, French culture and composition. Reading selections include poetry, theatre, and journalistic expressions. (CSU/UC transferable)

GEOGRAPHY AND GEOSPATIAL TECHNOLOGIES (GEOG)

GEOG 1A PHYSICAL GEOGRAPHY – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: GEOG 110

This course explores Earth’s physical systems, their dynamic processes, and surface expressions. Topics include weather, climate, hydrology, tectonics, geomorphology, and the biosphere. Attention is given to spatial patterns and impacts of human activities. This course may be offered in a distance education format. (CSU/UC transferable)

GEOG 1AL PHYSICAL GEOGRAPHY LAB – 1 Unit
Grading: Pass/No Pass Option
Corequisite: GEOG 1A
Class Hours: 54 lab total (when offered in the distance education format, hours will total 54)
C-ID: GEOG 111

This course investigates Earth’s physical systems, through lab and field activities. Students will use maps, take measurements, and interpret physical phenomena in the lab. Students will observe, measure, and document landforms, hydrologic processes and ecosystems in the field. Data is gathered, displayed and interpreted from a range of sources. This course may be offered in a distance education format. (CSU/UC transferable)

GEOG 1B HUMAN GEOGRAPHY – 3 Units
Prerequisite: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: GEOG 120

This course examines human populations and cultures from a spatial perspective. Characteristics of population change, migration, religion, language, and other societal characteristics are investigated, as well as the role of physical geography in influencing land use, cultural practices, and relationships among human groups. This course may be offered in a distance education format. (CSU/UC transferable)

GEOG 2A FIELD STUDIES IN PHYSICAL GEOGRAPHY – 1 Unit
Grading: Pass/No Pass Option
Note: This course requires a multi-day field trip.
Class Hours: 9 lecture/27 lab total (when offered in the distance education format, hours will total 27 for the lecture portion of the class and an additional 27 hours of lab, totaling 54 hours for this course)
C-ID: GEOG 160

Field studies of physical processes and formations are essential to the study of geography. Landforms, water resources, erosion hazards, soil conditions, and vegetation patterns are among the topics that illustrate the interactions between humans and the environment. Students will be exposed to a range of field techniques including observation, map use and measurement. The lecture portion of this course may be offered in a distance education format. (CSU transferable)

GEOG 2B FIELD STUDIES IN HUMAN GEOGRAPHY – 1 Unit
Grading: Pass/No Pass Option
Note: This course requires a multi-day field trip.
Class Hours: 9 lecture/27 lab total (when offered in the distance education format, hours will total 27 for the lecture portion of the class and an additional 27 hours of lab, totaling 54 hours for this course)
C-ID: GEOG 160

Field studies of built landscapes and cultural expressions are essential to the study of human geography. Topics including land-use, planning, economy, transportation, social conditions, cultural practices and historical legacies will be explored. Students will be exposed to field techniques including note taking, interviews and map use. The lecture portion of this course may be offered in a distance education format. (CSU transferable)

GEOG 5 DIGITAL PLANET: GIS AND SOCIETY – 3 Units
Grading: Pass/No Pass Option
Prerequisite: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course will explore the technologies and the societal implications of our digital planet. Geospatial technologies such as geographic information systems (GIS) provide mapping capabilities for use in industry, government, and non-profit sectors. Students will investigate issues related to society, the environment and geo-politics through the use of these technologies. Students will interpret geographic data and patterns, using digital map representations of our planet. Technology advancements, from unmanned aerial vehicles (UAVs) to social media, will be considered in terms of their implications. Issues of social justice, equity for under-served populations, and individual privacy will be explored. This course may be offered in a distance education format. (CSU transferable)
GEOG 7 CALIFORNIA GEOGRAPHY – 3 Units
Prerequisite: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Note: Field trip may be required.
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: GEOG 140
This course provides an introduction to California’s diversified geography including climate, landforms, natural vegetation, and mineral and water resources. The cultural landscapes of ethnic diversity, our Native American past, urban and agricultural regions, and the economic challenges of the future are also examined. This course will illustrate the importance of the world’s geographic regions and how they interrelate. The location of important geographic features such as mountain ranges, rivers, countries, and major cities will be an important part of the course. This course may be offered in a distance education format. (CSU/UC transferable)

GEOG 8 WORLD REGIONAL GEOGRAPHY – 3 Units
Prerequisite: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: GEOG 125
This course will introduce students to the world’s major geographic regions. This course will increase student awareness of geographic concepts by examining the physical, cultural, economic and political characteristics of the major realms of the world through the unifying concept of the geographic region. Students will learn geographic techniques for data collection, interpretation, and presentation. This course may be offered in a distance education format. (CSU/UC transferable)

GEOG 9 MAP AND GEOSPATIAL PRINCIPLES – 3 Units
Grading: Pass/No Pass Option
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 162)
C-ID: GEOG 150
This course is an introduction to maps, imagery, and geospatial technologies. Students will learn geographic techniques for data collection, interpretation, and presentation. This course may be offered in a distance education format. (CSU/UC transferable)

GEOG 10 INTRODUCTION TO GEOGRAPHIC INFORMATION SYSTEMS – 3 Units (formerly GEOG 10, NR 84)
Grading: Pass/No Pass Option
Corequisite: GEOG 9, or previous completion of GEOG 9 with a grade of C or higher
Advisory: CIS 1 with a grade of C or higher, or demonstrated computer literacy.
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 162)
C-ID: GEOG 155
This course covers the theory and practice of geographic information systems (GIS). Students learn essential GIS procedures for data viewing, acquisition, manipulation, geographic referencing, and map creation. GIS data types, properties, database operations and applications are covered. Basic methods of GIS analysis are also included. This course may be offered in a distance education format. (CSU/UC transferable)

GEOG 11 GIS DATA DESIGN AND CAPTURE – 3 Units
Grading: Pass/No Pass Option
Prerequisite: GEOG 10 with a grade of C or higher, or demonstrated GIS experience
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 162)
This course covers design and implementation of geographic databases for GIS data capture and management. Included are essential concepts and practices of relational database management systems, with specific application to GIS. Data is captured using GPS and mobile GIS methods. GIS digitizing and editing are also covered. This course may be offered in a distance education format. (CSU transferable)

GEOG 12 GIS SPATIAL ANALYSIS – 3 Units
Grading: Pass/No Pass Option
Prerequisite: GEOG 10 with a grade of C or higher, or demonstrated GIS experience
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 162)
This course covers GIS for investigating geographic patterns, relationships and connections. Spatial analysis methods are employed for both raster and vector data. Emphasis is on problem-solving and decision making using GIS. Models and scripts for automating GIS processes also undertaken. This course may be offered in a distance education format. (CSU transferable)

GEOG 13 GIS CARTOGRAPHY AND VISUALIZATION – 3 Units
Grading: Pass/No Pass Option
Prerequisite: GEOG 10 with a grade of C or higher, or demonstrated GIS experience
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 162)
This course covers fundamental concepts of cartography and visualization using geographic information systems (GIS). Students employ design principles to create effective maps, incorporating data from a variety of formats. Hardcopy and web maps are produced. Animations, 3D maps, and other visualization techniques are explored. This course may be offered in a distance education format. (CSU transferable)

GEOG 14 INTRODUCTION TO REMOTE SENSING – 3 Units
Grading: Pass/No Pass Option
Prerequisite: GEOG 9 with a grade of C or higher, or demonstrated experience with maps and geospatial fundamentals
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 162)
This course covers remote sensing fundamentals as they apply to mapping of Earth’s surface. Electromagnetic spectrum of radiant energy and the radiation emitted from Earth surface provide a foundation for understanding of the types of imagery available and their characteristics. Image enhancement, classification and quantitative techniques are explored with attention to integration with GIS datasets. Application of remote sensing for land cover change, vegetation classification, and environmental quality are explored. This course may be offered in a distance education format. (CSU transferable)

GEOG 15 GIS-CAD INTEGRATION – 1 Unit (formerly GIS 21)
Grading: Pass/No Pass Option
Advisory: GEOG 10 with a grade of C or higher, or working experience with CAD or GIS
Class Hours: 9 lecture/27 lab total (when offered in the distance education format, hours will total 54)
This course covers computer-aided drafting (CAD) structure, principles and processes as they apply to geographic information systems (GIS). CAD data management is a critical aspect of GIS. Students will work with various CAD data to learn processing and manipulation techniques for displaying and working with CAD data in a GIS. Preparation and georeferencing of CAD data will be key components of the course. AutoCAD and ArcGIS software will be used in this course. This course may be offered in a distance education format. (CSU transferable)

GEOG 21 CUSTOMIZING GIS – 1 Unit (formerly GIS 24)
Grading: Pass/No Pass Option
Advisory: GEOG 10 with a grade of C or higher, or working GIS experience
Class Hours: 9 lecture/27 lab total (when offered in the distance education format, hours will total 54)
This course introduces students to customizing GIS applications to improve efficiency for specific editing and data manipulation scenarios. Several methods for customizing ArcGIS will be introduced including loading pre-built third party tools, creating custom toolbars, custom buttons, geoprocessing toolboxes, geoprocessing models, along with a brief introduction to writing scripts. The course will briefly introduce the students to programming with Python. This course may be offered in a distance learning format. (CSU transferable)

GEOG 22 GIS PROJECTS – 1 Unit (formerly GIS 25)
Grading: Pass/No Pass Option
Advisory: GEOG 10 with a grade of C or higher, or working GIS experience
### Chapter 4: Courses

#### Class Hours: 9 lecture/27 lab total (when offered in the distance education format, hours will total 54)

This course focuses on the use of geographic information systems (GIS) for projects and particular applications. Students will learn best practices for the implementation of GIS projects. GIS tasks for data acquisition, database creation, and map design are undertaken to meet the needs of municipal, natural resource, recreation or social service applications. This course may be offered in a distance education format. *(CSU transferable)*

#### GEOG 94 GEOGRAPHIC INFORMATION SYSTEMS WORKSITE LEARNING – 1-8 Units (formerly GIS 94)

**Limitation on Enrollment:** Financial aid students must maintain concurrent enrollment in seven (7) units which include worksite learning units. Students not receiving financial aid do not need to enroll in other courses in order to participate in Worksite Learning Classes.

**Class Hours:** 75 hours paid or 60 hours non-paid per unit.

The Geographic Information Systems (GIS) Worksite Learning course allows the student to gain on-the-job experience through employment/volunteerism at an approved GIS job site that is acquired by the student and related to the student's major. A faculty member supervises all WSL courses to ensure that the work experience is of educational value. The course stresses good work habits and meeting of competencies through actual on-the-job performance. A maximum of 8 units may be earned in a single semester. *(CSU transferable)*

#### GEOLOGY (GEOL)

See ESCI for course listings

#### GERMAN (GERM)

Two years of high school foreign language with grades of "C" or better is equivalent to one semester of foreign language at Shasta College.

**GERM 1 GERMAN 1 – 5 Units**

**Grading:** Pass/No Pass Option

**Class Hours:** 90 lecture total

This course is designed to give the student training in spoken German at a basic level, including some reading, writing, and much speaking. Students gain aural comprehension level of German through basic conversation and listening skill development. Customs and culture are also emphasized. *(CSU/UC transferable)*

**GERM 2 GERMAN 2 – 5 Units**

**Grading:** Pass/No Pass Option

**Prerequisite:** GERM 1 with a grade of C or higher, or Foreign Language Placement Level 2 or higher

**Class Hours:** 90 lecture total

This course takes the student on to a more proficient level of German. Comprehension and speaking levels are increased through participation in many oral activities (role playing, skits, plays, etc.). Further information on culture and traditions are provided, including information regarding Germany's position in the world today. *(CSU/UC transferable)*

#### HEALTH (HLTH)

**HLTH 1 HEALTH AND WELLNESS – 3 Units**

*(formerly PE 1, HPE 11)*

**Grading:** Pass/No Pass Option

**Class Hours:** 54 lecture total (when offered in the distance education format, hours will total 162)

This course focuses upon those elements of human behavior which influence the health status of both the individual and the community. Topics include personal fitness, health behavior, social institutions and practices related to health, and the nature of health risk through the concept of culture. Varying definitions of health, well-being, understanding of health risk, illness causation and treatment theories, and healing curing traditions will be explored. The origins, uses, and effectiveness of complementary medicine practices such as cupping, Reike, qi gong, acupuncture, and meditation will be discussed. This course may be offered in an online format. *(CSU/UC* transferable) *(UC transfer limit – maximum credit one course between HLTH 1, HLTH 2, HLTH 3, HLTH 4, HLTH 6, and HLTH 7)*

**HLTH 2 NUTRITION AND FITNESS – 3 Units**

*(formerly PE 2, HPE 7)*

**Grading:** Pass/No Pass Option

**Class Hours:** 54 lecture (when offered in the distance education format, hours will total 162)

This course includes analysis and evaluation of current practices and theories regarding nutrition and exercise, and their relationship to weight control and physical fitness. Each student will learn to prepare an individual physical assessment, exercise prescription and nutritional analysis to promote optimal healthful living. This course may be offered in a distance education format. *(CSU/UC* transferable) *(UC transfer limit – maximum credit one course between HLTH 1, HLTH 2, HLTH 3, HLTH 4, HLTH 6, and HLTH 7)*

**HLTH 3 SUBSTANCE ABUSE AWARENESS – 3 Units**

*(formerly PE 3, HPE 57)*

**Grading:** Pass/No Pass Option

**Class Hours:** 54 lecture total (when offered in the distance education format, hours will total 162)

This is an introductory course for individuals who wish to increase their knowledge and understanding of substance abuse and chemical addiction. This course will introduce students to a variety of substances that can become abused and can lead to addiction. The substances covered in this course include: tobacco (including smokeless tobacco), alcohol, street/recreational drugs, performance enhancing drugs, and sexual stimulants. Information will focus on the physical and societal effects of the misuse and abuse of these substances and methods that can lead to the control and/or elimination of use of these substances. This course may be offered in a distance education format. *(CSU/UC* transferable) *(UC transfer limit – maximum credit one course between HLTH 1, HLTH 2, HLTH 3, HLTH 4, HLTH 6, and HLTH 7)*

**HLTH 4 WOMEN’S HEALTH – 3 Units**

**Grading:** Pass/No Pass Option

**Class Hours:** 54 lecture total (when offered in the distance education format, hours will total 162)

This course will address women's health from a biological, psychological, and sociological perspective. Topics that will be covered include women as health consumers, women's reproductive health, women's self-image and health, and women's nutrition. This course may be offered in a distance education format. *(CSU/UC* transferable) *(UC transfer limit – maximum credit one course between HLTH 1, HLTH 2, HLTH 3, HLTH 4, HLTH 6, and HLTH 7)*

**HLTH 5 CULTURE AND HEALTH – 3 Units**

**Grading:** Pass/No Pass Option

**Class Hours:** 54 lecture total (when offered in the distance education format, hours will total 162)

The use of complementary medicine practices as an enhancement to traditional Western medicine has become a common practice. This course will explore health knowledge, nutrition, sexuality, sexually transmitted diseases, and drug dependence, including alcohol and tobacco. Also included are topics dealing with lifestyle diseases, especially cancer, cardiovascular disease and lung disease. This course may be offered in a distance education format. *(CSU/UC* transferable) *(UC transfer limit – maximum credit one course between HLTH 1, HLTH 2, HLTH 3, HLTH 4, HLTH 6, and HLTH 7)*

**HLTH 6 STRESS MANAGEMENT AND HEALTH – 3 Units**

**Grading:** Pass/No Pass Option

**Class Hours:** 54 lecture total (when offered in the distance education format, hours will total 162)

This course will examine the theoretical frameworks of stress and common stress management techniques. Topics of study will include defining stress, understanding physiological theories of stress, defining sources and causes of stress, and examining health consequences of chronic stress. Students will examine and analyze numerous strategies to manage and cope with stress, such as time management, relaxation techniques, communication skills, diet and exercise. This course may be offered in a distance education format. *(CSU/UC* transferable) *(UC transfer limit – maximum credit one course between HLTH 1, HLTH 2, HLTH 3, HLTH 4, HLTH 6, and HLTH 7)*

**HLTH 7 ESSENTIALS OF ATHLETIC PERFORMANCE TRAINING – 3 Units**

**Grading:** Pass/No Pass Option

**Class Hours:** 54 lecture total (when offered in the distance education format, hours will total 162)

This course focuses on educating coaches, trainers, and athletes to maximize performance while reducing the risk of injury. Students will learn how to create highly individualized integrated training programs that
will enhance overall athletic performance. Some areas that will be covered include flexibility training; core training; balance training; plyometric training; speed, agility, and quickness training; resistance training; metabolic energy system training; and use of ergogenic aids. This course may be offered in a distance education format. (CSU transferable)

### HEALTH INFORMATION MANAGEMENT (HIMS)

**HIMS 401 ELECTRONIC HEALTH RECORDS – 4 Units**  
Limitation on Enrollment: Students must be admitted to the Health Information Management program  
Class Hours: 54 lecture, 54 lab total (when offered in the distance education format, hours will total 216)

This course discusses advanced topics in the electronic health record. The primary concepts covered in this course include components of EHRs; data infrastructure; different formats of EHR data; categories of EHRs and information systems; EHRs in different healthcare settings, including specialty-specific electronic health records; and utilization of EHRs in population health. Students will explore all aspects of electronic health records utilized in the healthcare industry. Students will be exposed to real-world exercises using software to create patient records, lab reports, notes, and code sets. This course is designed for health information management majors. This course may be offered in a distance education format.

**HIMS 405 FUNDAMENTALS OF HEALTH INFORMATION MANAGEMENT – 4 Units**  
Limitation on Enrollment: Students must be admitted to the Health Information Management program  
Class Hours: 72 lecture total (when offered in the distance education format, hours will total 216)

This course provides an advanced-level perspective on topics relevant to the health information management (HIM) profession. The concepts covered in this course include an overview of emerging issues such as HIM systems management, clinical classification systems, governance and stewardship, data quality and management, health information exchange, electronic health records, revenue cycle management, compliance and risk management. This course is designed for health information management majors. This course may be offered in a distance education format.

**HIMS 408 ETHICS IN HEALTHCARE ADMINISTRATION – 3 Units**  
Limitation on Enrollment: Students must be admitted to the Health Information Management program  
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course provides a comprehensive foundation for ethics in healthcare management and administration. Students will gain knowledge of the theory and concepts of ethics and its application to health information and healthcare administration for them to be able to model sound decision making and ethical practice. Ethics related to the United States healthcare system around patient access, quality and cost will be addressed. This course is designed for health information management majors. This course may be offered in a distance education format.

**HIMS 410 HEALTHCARE INFORMATICS – 4 Units**  
Limitation on Enrollment: Students must be admitted to the Health Information Management program  
Class Hours: 72 lecture total (when offered in the distance education format, hours will total 216)

This course is designed to bring together healthcare generated information and technology for the purpose of improving quality of care in a cost-effective manner. The primary concepts covered include data standards, data management, health information exchange, clinical decision support, privacy and security issues involving protected health information, emerging trends, data governance, and new technologies. This course is designed for health information management majors. This course may be offered in a distance education format.

**HIMS 415 HEALTHCARE ANALYTICS – 4 Units**  
Limitation on Enrollment: Students must be admitted to the Health Information Management program  
Class Hours: 72 lecture total (when offered in the distance education format, hours will total 216)

This course focuses on the analysis of data for the purpose of generating information resulting in actionable decisions. The primary concepts covered in this course include advanced healthcare statistics, data analysis, mining and exploration. The course is a hands-on approach to healthcare data across the analytics continuum, and introduces Microsoft Excel, MySQL Workbench and R, and RStudio for statistical analysis and data visualization. This course is designed for health information management majors. This course may be offered in a distance education format.

**HIMS 418 LEGAL CONCEPTS AND COMPLIANCE IN HEALTHCARE – 4 Units**  
Limitation on Enrollment: Students must be admitted to the Health Information Management program  
Class Hours: 72 lecture total (when offered in the distance education format, hours will total 216)

This course focuses on the laws and regulations applicable to healthcare compliance. Topics include federal and state law enforcement and reporting requirements, risk management, audit trails, fraud detection, ethical and legal requirements related to coding, personal health record (PHR), analysis of privacy, security, and confidentiality policies and procedures. This course is designed for health information management majors. This course may be offered in a distance education format.

**HIMS 420 PRINCIPLES OF FINANCE FOR HEALTH INFORMATION MANAGEMENT – 3 Units**  
Limitation on Enrollment: Students must be admitted to the Health Information Management program  
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course prepares healthcare professionals for the responsibilities of maintaining a well-managed healthcare department/organization. Topics include financial statement analysis, performance measurement, budgets, variance analysis, contract analysis, capital financing, and investment decisions. This course enhances the students' decision-making abilities through case studies and practical applications to real-world situations. This course is designed for health information management majors. This course may be offered in a distance education format.

**HIMS 425 REVENUE CYCLE MANAGEMENT – 3 Units**  
Limitation on Enrollment: Students must be admitted to the Health Information Management program  
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course covers advanced topics in healthcare revenue cycle management. Concepts covered in this course include healthcare classification systems and terminologies, chargemaster management, revenue cycle and audit processes, utilization and resource management, and application and analysis of the relationship between clinical code assignment and reimbursement. This course is designed for health information management majors. This course may be offered in a distance education format.

**HIMS 430 HUMAN RESOURCES MANAGEMENT IN HEALTHCARE – 4 Units**  
Limitation on Enrollment: Students must be admitted to the Health Information Management program  
Class Hours: 72 lecture total (when offered in the distance education format, hours will total 216)

This course examines the complexities and multiple issues and best practices involved in human resources management in healthcare organizations. The primary concepts covered in this course include managing people in all aspects of their work, recruiting, interviewing, and hiring, compensation and benefits, motivational strategies, performance appraisals, promotions, and terminations. This course is designed for health information management majors. This course may be offered in a distance education format.

**HIMS 435 PROJECT MANAGEMENT IN HEALTHCARE – 3 Units**  
Limitation on Enrollment: Students must be admitted to the Health Information Management program  
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course is designed as a high-level overview of project management utilized in healthcare settings. The primary concepts in this course include project management techniques such as project selection, management, organization, planning, conflict resolution, negotiation, budgeting,
scheduling, change management, business process reengineering, and termination of the project. This course is designed for health information management majors. This course may be offered in a distance education format.

**HIMS 440 STRATEGIC MANAGEMENT FOR HEALTHCARE PROFESSIONALS – 4 Units**

Limitation on Enrollment: Students must be admitted to the Health Information Management program

Class Hours: 72 lecture total (when offered in the distance education format, hours will total 216)

This course examines the theory and practice of leadership, strategic management, and change management in healthcare settings. The primary concepts covered in this course include an overview of emerging issues such as business planning, organizational change, innovation, strategic planning, leadership thinking and goals, change implementation and strategies for successful transitions. This course is designed for health information management majors. This course may be offered in a distance education format.

**HIMS 445 HEALTHCARE INFORMATION SYSTEMS ANALYSIS AND DESIGN – 4 Units**

Limitation on Enrollment: Students must be admitted to the Health Information Management program

Class Hours: 72 lecture total (when offered in the distance education format, hours will total 216)

This course is designed to prepare students in the planning, analysis, design, and implementation of healthcare computer-based information systems. The concepts covered include system requirements, systems development life cycle, system architecture, including database design, data warehousing, workflow concepts, and systems performance management. This course is designed for health information management majors. This course may be offered in a distance education format.

**HIMS 455A APPLIED RESEARCH PROJECT IN HEALTH INFORMATION MANAGEMENT – 3 Units**

Corequisite: HIMS 455B

Limitation on Enrollment: Students must be admitted to the Health Information Management program

Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course is the capstone for the health information management baccalaureate degree. This course integrates the theoretical and technical content of the health information management program courses. Concepts are integrated and applied through the completion of a capstone project, designed by the student and instructor, supporting a local HIM community of interest. This course is designed for Health Information Management majors. This course may be offered in a distance education format.

**HIMS 455B ADVANCED PROFESSIONAL PRACTICE EXPERIENCE – 1 Unit**

Corequisite: HIMS 455A

Limitation on Enrollment: Students must be admitted to the Health Information Management program

Class Hours: 54 lab total

This course provides supervised onsite professional practice experience (PPE) for Health Information Management students. This course integrates theory and professional practice in health information management. Emphasis is placed on applying management theories to actual work settings, practice of professional behavior, ethics, and self reflection including career goals. Project topics will support a local HIM community of interest and will be designed by the student, instructor, and the PPE site manager. This course is designed for Health Information Management majors. This course may be offered in a distance education format.

**HEALTH INFORMATION TECHNOLOGY (HIT)**

**HIT 7 INTRODUCTION TO HUMAN DISEASE PROCESS – 3 Units**

Prerequisite: HEOC 11 or BIOL 5 with a grade of C or higher

Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

The course focuses on disease processes in the human body from a systems approach. Analysis of the most common and significant diseases is included. The signs and symptoms, etiology, diagnosis, and treatment of disease are examined along with the appropriate medical terminology. This course is designed for students in allied health programs, but is also open to those who wish to broaden their medical background or review this information. This course may be offered in a distance education format. (CSU transferable)

**HIT 10 INTRODUCTION TO HEALTH INFORMATION – 3 Units**

Advisory: ENGL 1A with a grade of C or higher

Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course is an introduction to the Health Information Technology profession. It includes an overview of the American healthcare delivery system, health information functions and responsibilities, health services organization and delivery methods, health data, structure and use, regulatory standards and requirements, information systems, and health information privacy and security. This course may be offered in a distance education format. (CSU transferable)

**HIT 11 COMPUTER INFORMATION SYSTEMS FOR HEALTH INFORMATION TECHNOLOGY – 2 Units**

Advisory: CIS 1 with a grade of C or higher

Class Hours: 36 lecture total (when offered in the distance education format, hours will total 108)

This course is an introduction to computer systems used in healthcare and health information management (HIM). Emphasis is placed on basic computer and networking technologies as well as on specialized software and electronic health record (EHR) applications. This course is designed for students interested in the use of computers in the health information technology field. This course may be taught in a distance education format. (CSU transferable)

**HIT 15 LEGAL ASPECTS OF HEALTHCARE – 3 Units**

Corequisite: HIT 10, or previous completion of HIT 10 with a grade of C or higher

Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course covers the legal aspects of health information management including legal procedures, evidence, tort law, corporate and contract law. Other topics include consent to treatment, the legal health record, HIPAA privacy and security rules, patient rights and responsibilities, release of information, required reporting, risk management, healthcare fraud and abuse, medical staff, and workplace law. This course may be offered in a distance education format. (CSU transferable)

**HIT 20 HOSPITAL AND HEALTH STATISTICS – 3 Units**

Corequisite: HIT 10, or previous completion of HIT 10 with a grade of C or higher

Advisory: MATH 114 or MATH 102 with a grade of C or higher, or completion of a Level 3 class

Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course provides instruction for the health information technology student in the basic principles of data collection and calculation of hospital and non-acute facility health statistics. Calculation of Health Information Management department statistics is included. In addition, the course covers the calculation of specific vital statistics as well as discharge analysis reporting. There is instruction in the preparation of monthly and annual medical, administrative, and outside agency reports utilizing tables and graphs. Practice in the interpretation of statistical reports is also provided. This course may be offered in a distance education format. (CSU transferable)

**HIT 25 HEALTH INFORMATION IN ALTERNATIVE SETTINGS – 2 Units**

Corequisite: HIT 10, or previous completion of HIT 10 with a grade of C or higher

Class Hours: 36 lecture total (when offered in the distance education format, hours will total 108)

This course is an introduction to health information management practice in alternative healthcare settings including long-term care, mental health, ambulatory care, hospice, home health, and rehabilitation medicine. Focus is on the role of the health information practitioner, regulatory issues, accreditation and licensing requirements, documentation, funding and reimbursement, and electronic information systems. This course may be offered in a distance education format. (CSU transferable)
HIT 30 BASIC PHARMACOLOGY – 1 Unit  
Class Hours: 18 lecture total (when offered in the distance education format, hours will total 54)

This course is an introduction to pharmacology. Topics include pharmacology terminology, drug forms, routes of administration, drug classifications, and mechanisms of drug action. This course is intended for students in the health information technology program and healthcare professionals who want to refresh their working knowledge of basic pharmacology. This course may be offered in a distance education format. (CSU transferable)

HIT 35 CURRENT PROCEDURAL TERMINOLOGY (CPT) CODING – 3 Units  
Prerequisite: HEOC 11 with a grade of C or higher  
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This introductory course for Health Information Technology students includes the use of Current Procedural Terminology (CPT) coding. The course covers the purpose of CPT, CPT Manual format, code format, and coding steps used to code from the six divisions of CPT: Evaluation & Management, Anesthesia, Surgery, Radiology, Pathology & Laboratory, and Medicine. In addition, the course includes national and category III codes. It also includes an overview of reimbursement issues involving physician and hospital payment for outpatient services. This course is also available to hospital and doctors' office employees. This course may be offered in a distance education format. (CSU transferable)

HIT 40 ICD DIAGNOSTIC CODING – 3 Units  
Prerequisites: BIOL 5, HEOC 11, and HIT 7 with a grade of C or higher  
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 162)

This course provides an overview of the organization and format of the International Classification of Diseases, Clinical Modification (ICD-10-CM), and the role of diagnostic coding in the Prospective Payment System. Provides instruction in diagnostic coding of health records by applying ICD guidelines. Students are introduced to coding software applications (encoder). This course may be taught in a distance education format. (CSU transferable)

HIT 42 PRINCIPLES OF LEADERSHIP – 2 Units  
Class Hours: 36 lecture total (when offered in the distance education format, hours will total 108)

This course introduces the basic concepts of leadership including team leadership, change management, training, and developing employees. Other topics include using enterprise-wide information assets in support of organizational strategies and objectives, company culture, and diversity in the workplace. This course may be taught in a distance education format. (CSU transferable)

HIT 45 ICD PROCEDURE CODING – 2 Units  
Prerequisite: HIT 40 with a grade of C or higher  
Class Hours: 36 lecture total (when offered in the distance education format, hours will total 108)

This course provides an overview of the structure and organization of the International Classification of Diseases Procedure Classification System (ICD-10-PCS). Provides instruction in procedure coding of health records by applying ICD guidelines. Coding software applications (encoder) will be used in this course. This course may be taught in a distance education format. (CSU transferable)

HIT 50 HEALTHCARE REIMBURSEMENT – 2 Units  
Prerequisite: HIT 40 with a grade of C or higher  
Class Hours: 36 lecture total (when offered in the distance education format, hours will total 108)

This course integrates information about all US healthcare payment systems. The topics covered include reimbursement methodologies, clinical coding and coding compliance, voluntary and government sponsored insurance plans, managed care plans, revenue cycle management and value-based purchasing. Medicare and Medicaid prospective payment systems are also addressed in acute, post-acute, ambulatory, physician fee schedule, hospice, and long term care settings. This course may be offered in a distance education format. (CSU transferable)

HIT 55 HEALTHCARE QUALITY MANAGEMENT – 3 Units  
Prerequisite: HIT 10 with a grade of C or higher  
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course for Health Information Technology students is an introduction to quality and performance management and improvement, utilization review, and risk management. The course includes the purpose, principles, historical development, assessment and analysis techniques, and application and program development strategies used in quality management and improvement, utilization review and risk management activities. Also included is the integration of performance improvement activities with the medical staff appointment and reappointment process. Regulatory and privacy requirements will also be addressed. The key concepts, background and statistical tools used in the continuous quality improvement process (CQI) are also provided. This course may be offered in a distance education format. (CSU transferable)

HIT 60 PROFESSIONAL PRACTICE EXPERIENCE – 3 Units  
Prerequisites: HIT 10, HIT 11, HIT 15, HIT 20, HIT 35, HIT 40, and HIT 42 with a grade of C or higher  
Limitations on Enrollment:  
1. Special Admission – students must meet with HIT director or health sciences counselor for approval.  
2. Health and safety requirements must be met prior to enrollment, including a physical exam, up-to-date immunizations, TB clearance, background check and drug screening at student's own expense.  
Class Hours: 18 lecture/108 lab total (when offered in the distance education format, hours will total 54 for the lecture portion of the class and an additional 108 hours of lab, totaling 162 hours for this course)

This course provides Health Information Technology students with supervised onsite experience performing CAHIM entry-level competencies in an assigned affiliated healthcare organization. Professional practice experience may include a partial virtual lab practicum. This course may be offered in a distance education format. (CSU transferable)

HEALTH OCCUPATIONS (HEOC)  
See Also: REGN, VOCN

HEOC 1 INTRODUCTION TO PHYSICAL THERAPY – 1 Unit  
(formerly PTA 1)  
Class Hours: 18 lecture total (when offered in the distance education format, hours will total 54)

This course provides an introduction to pharmacology and counseling of the physical therapist assistant within the health care delivery system. Definitions of physical therapy, educational and licensure requirements, and the diverse types of clinical practice and employment settings are explored. Students will observe examples of physical therapy practice using online media resources. This course may be offered in a distance education format. (CSU transferable)

HEOC 10 APPLIED PHARMACOLOGY – 3 Units  
(formerly HEOC 187)  
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

Applied Pharmacology is designed to introduce the principles of applied pharmacology to the current or prospective nursing and allied health student. Students will explore the names, classifications, actions, uses, side effects, pharmacokinetics, pharmacodynamics, contraindications, and drug to drug interactions of medications presented using a body systems approach. Implications for medication administration are discussed using a case study approach. Additionally, students will learn how to use a drug guide to gain basic knowledge about medications and to prepare patient drug education plans. This course may be offered in a distance education format. (CSU transferable)

HEOC 11 MEDICAL TERMINOLOGY – 3 Units  
(formerly HEOC 110, OAS 110, MEDA 151)  
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course provides students with an understanding of the language of medicine through the study of basic word structures and etymology related to various body systems, diagnostics, and pathology. This course may be offered in a distance education format. (CSU transferable)

HEOC 94 HEALTH OCCUPATIONS WORKSITE LEARNING – 1-8 Units  
Limitation on Enrollment: Financial aid students must maintain...
HIST 1A  HISTORY OF WESTERN CIVILIZATION – 3 Units
Grading: Pass/No Pass Option
Advisory: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: HIST 140

A survey of the origins and development of civilization in the western world from pre-history to 1600, with special emphasis on institutions, thought, and culture. The course is designed to show the continuity of western civilization and to overview the heritage of the present generation. This course may be offered in a distance education format. (CSU/UC transferable)

HIST 1B  HISTORY OF WESTERN CIVILIZATION – 3 Units
Grading: Pass/No Pass Option
Advisory: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: HIST 180

A survey of the development of civilization in the western world from 1600 to the present, with special emphasis on institutions, thought, and culture. The course is designed to show the continuity of western civilization and to explore the heritage of the present generation. This course may be offered in a distance education format. (CSU/UC transferable)

HIST 2  WORLD CIVILIZATION TO 1500 C.E. – 3 Units
Grading: Pass/No Pass Option
Advisory: ENGL 190 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: HIST 150

A comparative survey of the major ancient world civilizations which developed between 3500 B.C.E. and 1500 C.E. Political institutions, religious ideologies, rise and fall of empires and the major cultural innovations of each of the major world civilizations will be considered. This course may be offered in a distance education format. (CSU/UC transferable)

HIST 3  WORLD CIVILIZATION: 1500 to Present – 3 Units
Advisory: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: HIST 160

This course offers a survey of the development of the major civilizations of the world from 1500 to the present. The focus is on the political, economic, social, intellectual, and religious forces shaped this era of world history. This course may be offered in a distance education format. (CSU/UC transferable)

HIST 17A  UNITED STATES HISTORY – 3 Units
Advisory: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: HIST 130

This course is a survey of the history of the United States from pre-Columbian Peoples to the end of Reconstruction. Topics include contact and settlement of America, the movement toward independence, the formation of a new nation and Constitution, westward expansion and manifest destiny, the causes and consequences of the Civil War, and Reconstruction. This course fulfills the CSU requirement for US History (US-1). This course may be offered in a distance education format. (CSU/UC transferable)

HIST 17B  UNITED STATES HISTORY – 3 Units
Advisory: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: HIST 140

This course is a survey of the history of the United States from 1877 to the present. The course covers the rise of industrialization, the expansion of America into world affairs, the causes and results of the Great Depression, the world wars of the 20th century, the Cold War, and post-9/11 America. This course satisfies the CSU requirement for US History (US-1). This course may be offered in a distance education format. (CSU/UC transferable)

HIST 17BH  UNITED STATES HISTORY – HONORS – 3 Units
Prerequisite: ENGL 190 or ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: HIST 180

This is an honors-level History 17B survey course covering the history of the United States from 1877 to the present. The course covers the rise of industrialization, the expansion of America into world affairs, the causes and results of the Great Depression, the world wars of the 20th century, the Cold War, and post-9/11 America. This course satisfies the CSU requirement for US History (US-1). Students may not receive credit for both HIST 17B and HIST 17BH. This course may be offered in a distance education format. (CSU/UC transferable)

HIST 25  AFRICAN AMERICAN HISTORY – 3 Units
(See also: ETHS 25)
Chapter 4: Courses

**HIST 35  HISTORY OF MEXICAN AMERICANS – 3 Units**
*(See also: ETHS 35)*
Advisory: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course is a survey of the historical development and contributions of African Americans in the United States. Topics include African civilizations, the African slave trade and Diaspora, the development of African American culture, colonial and Antebellum slavery, Emancipation and Reconstruction, Jim Crow, the Harlem Renaissance, the Civil Rights Movements, African Americans at war, 21st Century struggles for racial justice, and the concept of race, ethnicity, and equality. This course may be offered in a distance education format. *(CSU/UC transferable)*

**HIST 36  HISTORY OF EAST ASIA – 3 Units**
Grading: Pass/No Pass Option
Advisory: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course traces the social, economic, and political history of Mexican Americans from the Spanish conquest to the present. Focus will be on the historical trajectory of Mexican Americans as they emerged from a series of migrations, conflicts, and negotiations with Native Americans, Anglo Americans, and others. The course will also explore the unique social, economic, and political forces that shaped U.S. policies toward Mexican migrants and Mexican Americans. This course may be offered in a distance education format. *(CSU/UC transferable)*

**HIST 38  HISTORY OF WORLD RELIGIONS – 3 Units**
Grading: Pass/No Pass Option
Advisory: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course is an introduction to contemporary East Asia that is designed primarily for the student who has no previous contact with the region. The course includes a survey of the people, cultures, economics, and current problems, with major emphasis on China and Japan. The majority of the survey deals with events since 1800. This course may be offered in a distance education format. *(CSU/UC transferable)*

**HIST 40  HISTORY AND GOVERNMENT OF CALIFORNIA – 3 Units**
Grading: Pass/No Pass Option
Advisory: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
A survey of the history and government of California. Topics will include California Indians, Spanish colonization, Californios, US annexation, economic development, demographic shifts, and current social, political, and economic issues. This course may be offered in a distance education format. *(CSU/UC transferable)*

**HIST 55  HISTORY OF THE AMERICAN WEST – 3 Units**
Grading: Pass/No Pass Option
Advisory: ENGL 190 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course is designed as a survey of the history of the North American West. The course covers the history of North American Indians, wars, statehood, resource extraction, demographic shifts, and the relationship with the federal government, as well as the economic, political, and social issues of the present day. The course will introduce various ways of analyzing the history of the American West, including the Frontier Thesis, New Western History, and regionalism. In addition, the course will examine how the American West has been portrayed in popular literature, television, and film. This course may be offered in a distance education format. *(CSU/UC transferable)*

**HIST 57  RUSSIAN HISTORY – 3 Units**
Grading: Pass/No Pass Option
Advisory: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course is a general survey of the Russian State from the beginning of the Kievan era (1054) to modern Soviet Russia. Included will be an analysis of the cultural, religious, economic, and social institutions of each century. Particular emphasis will be placed on contemporary Soviet Russia. Contributions of individual Russian Leaders will be discussed. This course may be offered in a distance education format. *(CSU/UC transferable)*

**HIST 320  ANCIENT SOCIETIES AND THEIR PEOPLE – 0 Units**
Grading: Pass/No Pass Only
Note: This noncredit, non-degree bearing course is for lifelong learners and designed to meet the interests and specific needs of the greater Shasta College community of Northern California.
Class Hours: 15 lecture/3 lab total (when offered in the distance education format, hours will total 48)
This noncredit course will explore how ancient history is more than a list of famous people and events to memorize. Students will discover the rich history of ancient societies around the world and use evidence found in documents, archaeology, environmental analysis, studies of linguistics, oral histories, art and music to create a comparative survey of ancient people and their lives. This course will focus on different civilizations and themes in ancient history to explore contemporary connections and how the past impacts our world today. This class is designed for older adults with a lifetime of personal experience and encourages creative expression to enhance personal global involvement through the study of ancient world history. This course may be offered in a distance education format.

**HORTICULTURE**
See AGEH and AGVIT for course listings

**HOSPITALITY (HOSP)**

**HOSP 10  INTRODUCTION TO THE HOSPITALITY INDUSTRY – 3 Units**
Grading: Pass/No Pass Option
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: HOSP 100
Overview of structure and relationship of components within the hospitality and travel industry. Economic and employment impact and review of food service, lodging, resorts, recreation enterprises, attractions, cruise, destination bureaus, travel agencies and related operations. Focuses on orientation to customer service, cultural/economic trends and career opportunities. This course may be offered in a distance education format. *(CSU transferable)*

**HOSP 20  HOSPITALITY OPERATIONS MANAGEMENT – 3 Units**
Grading: Pass/No Pass Option
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: HOSP 140
Principles of organization, management, and decision models applied to the tasks and challenges of hospitality operations. Involves techniques of problem solving (including planning, organizing, staffing, directing and controlling operations) in areas of front office operations, housekeeping, personnel and security. The course also examines a systematic approach to front office procedures by detailing the flow of business through a lodging operation beginning with the reservation process and ending with check-out and settlement. This course may be offered in a distance education format. *(CSU transferable)*
HOSP 35 COMPUTER APPLICATIONS IN THE HOSPITALITY INDUSTRY – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
Grading: Pass/No Pass Option
Provides an overview of the information needs of lodging properties and food service establishments; addresses essential aspects of computer systems, such as hardware, software, and generic applications; focuses on computer-based property management systems for both front office and back office functions; and focuses on computer-based restaurant management systems for both service-oriented and management-oriented functions. This course may be offered in a distance education format. (CSU transferable)

HOSP 40 HUMAN RESOURCE MANAGEMENT IN THE HOSPITALITY INDUSTRY – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
Practical approach to the problems of human resource management in the hospitality industry. Introduction to the personnel function; selection and placement of personnel; the role of supervision with emphasis on induction, training, communications, performance, appraisal, and leadership style. Study of age and salary administration; motivation; and discussion of union-management relations. This course may be offered in a distance education format. (CSU transferable)

HOSP 45 RESTAURANTS, HOTELS, AND LAWFUL MANAGEMENT – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course explores potential legal issues and pitfalls that might impact the hospitality industry. The course covers legislation, such as the Civil Rights Act of 1991 and other federal discrimination laws dealing with employment and sexual harassment, Occupational Safety and Health Administration (OSHA) regulations, the Family and Medical Leave Act of 1993, the Americans with Disabilities Act, the Hotel and Motel Fire Safety Act of 1990, antitrust regulations, the National Labor Relations Act, copyright music laws, tax laws, tip reporting regulations, telephone resale regulations, consumer protection laws, franchise regulations, and product liability laws. This course is not intended to make the student a legal expert on the subject reviewed nor is it intended to be a substitute for the services or legal opinion of an attorney. Students will, however, be better able to recognize potential legal problems or potential lawsuits, which will assist them when consulting with an attorney on strategies to prevent legal issues from becoming more serious in their hospitality organization.
This course may be offered in a distance education format. (CSU transferable)

HOSP 50 HOSPITALITY MARKETING, SALES AND ADVERTISING – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
Application of marketing principles and techniques in the hospitality industry. Emphasis on developing an understanding of consumers and using that knowledge to provide value and create consumer satisfaction while meeting financial goals. This course will also focus on practical sales techniques, proven approaches to selling to targeted markets, and advertising’s role in sales. This course may be offered in a distance education format. (CSU transferable)

HOSP 55 CUSTOMER SERVICE SKILLS FOR A MULTICULTURAL WORKPLACE – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course provides the student with a thorough understanding of the concept of culture and cultural diversity, how culture influences customer service within the global marketplace and how to develop an organizational environment that supports and acknowledges a multitude of cultures. An emphasis is placed on developing competent communication behaviors and strategies for provide excellent customer satisfaction in a multicultural environment. Through the use of collaborative learning techniques students will develop the necessary soft skills to provide excellent customer service in diverse workplaces. This course may be offered in a distance education format. (CSU transferable)

HOSP 60 HOSPITALITY AND FINANCIAL MANAGEMENT – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course focuses on the generation and analysis of quantitative information for the purpose of planning, control and decision-making by managers at various levels in hospitality industry operation. Emphasis is placed on the need for and use of timely and relevant information as a vital tool in the management process. Also examines accounting functions to support hospitality management analysis. Special attention on: internal controls, cost-volume profit relationships, relevant costs for special decisions, flexible budgets, profit centers and tax implications of decisions. This course may be offered in a distance education format. (CSU transferable)

HOSP 65 HOSPITALITY SUPERVISION – 3 Units
Class Hours: 54 lecture (when offered in the distance education format, hours will total 162)
This course offers insight into the various aspects of supervision in the hospitality industry. Supervisory roles, responsibilities, and essential managerial skills shall be discussed. The goal of the course is to equip students with the necessary authoritative and decision-making skills to be used in the workplace. This course may be offered in a distance education format. (CSU transferable)

HOSP 94 HOSPITALITY WORKSITE LEARNING – 1-8 Units
Limitation on Enrollment: Financial aid students must maintain concurrent enrollment in seven (7) units which include worksite learning units. Students not receiving financial aid do not need to enroll in other courses in order to participate in Worksite Learning Classes.
Class Hours: 75 hours paid or 60 hours non-paid per unit
The Hospitality Worksite Learning course allows the student to gain on-the-job experience through employment/volunteering at an approved hospitality job site that is acquired by the student and related to the student’s major. A faculty member supervises all WSL courses to ensure that the work experience is of educational value. The course stresses good work habits and meeting of competencies through actual on-the-job performance. A student may earn up to 16 units through repeating this course since course content varies and skills are enhanced by supervised repetition and practice. A maximum of 8 units may be earned in a single semester. (CSU transferable)

HUMAN SERVICES (HUSV)
(formerly Family Studies and Services)

HUSV 12 STANDARDS AND PRACTICES IN HUMAN SERVICES – 3 Units (formerly FSS 12)
Advisory: HUSV 70 with a grade of C or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course explores the theoretical perspectives and professional standards involved in Human Services—with particular emphasis on Social Work Practices. Students will be introduced to the practices of engagement, assessment, intervention, documentation and conflict resolution while consistently integrating these with the systems framework and strengths perspective. Professional and personal ethics will be stressed throughout the course. Multicultural competence and policy development will also be covered. This course may be offered in a distance education format. (CSU transferable)

HUSV 14 INTRODUCTION TO CASE MANAGEMENT – 3 Units (formerly FSS 14)
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course introduces the student to the role and importance of the case manager within the field of Human Services/Social Work. The philosophical differences of various models will be explored along with the pragmatic skills and practices that combine for effective case management: engagement, interviewing, assessment, identification of goals and resources, monitoring progress and evaluating outcomes. Emphasis will be placed on professional standards and practices of conduct as well as documentation and record-keeping skills that align with legal mandates. This course may be offered in a distance education format.
Chapter 4: Courses

format. (CSU transferable)

HUSV 16 MARRIAGE AND FAMILY – 3 Units (formerly FSS 16, HEOC 16)
Class Hours: 54 lecture total
Corequisite: SOC 130
An introductory course to marriage and family. Topics studied include dating, courtship, marriage, family life, dual career marriages, divorce, single parenting, domestic violence and other contemporary issues. (CSU transferable)

HUSV 18 ADULTHOOD AND AGING – 3 Units (formerly FSS 18)
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
A study of the developmental changes that occur during early, middle and late adulthood, as well as the continuities that exist within individuals throughout this time span. The physical, cognitive and psychosocial domains will be explored with a particular emphasis upon patterns that lead to successful aging within the societal context. This course may be offered in a distance education format. (CSU transferable)

HUSV 60 LIFE MANAGEMENT – 3 Units (formerly FSS 60, HOEC 60)
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course provides students with skills for understanding and using both internal and external resources to function effectively in our present and future society. The effects of cultural forces and future trends will be covered in reference to individual and family values, standards, and goals. Students will be required to analyze and integrate established principles with self-understanding in both decision-making and creating lifetime goals for themselves. Strategies in time management, energy management, stress management and conflict management will also be covered. This course may be offered in a distance education format. (CSU transferable)

HUSV 70 INTRODUCTION TO SOCIAL WORK AND HUMAN SERVICES – 3 Units (formerly SOC 70)
Grading: Pass/No Pass Option
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
An introductory overview of social welfare and the societal institutions in the U.S. that structure the provision of social services. The course presents a historical perspective on the development of U.S. social work and human services. Special attention is given to current service delivery systems, their policies and procedures, and the tasks of culturally responsive social workers and human service workers within those settings. This course may be offered in a distance education format. (CSU/UC transferable)

HUSV 94 HUMAN SERVICES WORKSITE LEARNING – 1-8 Units (formerly FSS 94)
Limitation on Enrollment: Financial aid students must maintain concurrent enrollment in seven (7) units which include worksite learning units. Students not receiving financial aid do not need to enroll in other courses in order to participate in Worksite Learning Classes.
Class Hours: 75 hours paid or 60 hours non-paid per unit
The Vocational Worksite Learning course allows the student to gain on-the-job experience through employment/volunteerism at an approved job site that is acquired by the student and related to the student’s major. A faculty member supervises all WSL courses to ensure that the work experience is of educational value. The course stresses good work habits and meeting of competencies through actual on the job performance. A student may earn up to 16 units through repeating this course since course content varies and skills are enhanced by supervised repetition and practice. A maximum of 8 units may be earned in a single semester. (CSU transferable)

HUSV 95A HUMAN SERVICES SEMINAR – 2 Units
Grading: Pass/No Pass Option
Prerequisite: HUSV 70 with a grade of C or higher
Corequisite: HUSV 95B
Class Hours: 36 lecture total (when offered in the distance education format, hours will total 108)
Prepares students to be successful in the concurrently enrolled fieldwork course, and facilitates gaining employment in the human services field. This experiential course (skill building exercises, discussions, performance exams) provides the practice and guidance for professional development. This course may be offered in a distance education format. (CSU transferable)

HUSV 95B FIELDWORK: SOCIAL WORK/HUMAN SERVICES – 1 Unit
Grading: Pass/No Pass Option
Corequisite: HUSV 95A
Class Hours: 75 hours paid or 60 hours non-paid per unit (60-75 total)
Facilitates a supervised field experience in the area of Social Work/Human Services (community organization, agency, or institution) allowing the student to apply knowledge and learn new skills outside the classroom environment. Provides students with an opportunity to develop skills in preparation for gaining employment in the human services field. (CSU transferable)

HUMANITIES (HUM)

A series of interdisciplinary courses designed to meet Humanities General education requirements for Transfer and the Associate in Arts Degree. Courses in the Fine Arts, Literature and Philosophy also meet this requirement. See a complete listing of courses in the current College class schedule.

HUM 2 EXPLORING THE HUMANITIES – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course is designed to explore the humanities by examining expression of human values, ideas, concerns, and experience through the arts, literature, media and the social sciences. The reading of important works in the humanities, written analysis, and attendance at selected performances are major requirements of this course. This course may be offered in a distance education format. (CSU/UC transferable)

HUM 2H EXPLORING THE HUMANITIES – HONORS – 3 Units
Grading: Pass/No Pass Option
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course is designed to explore the humanities by examining expression of human values, ideas, concerns, and experience through the arts, literature, media and the social sciences. The reading of important works in the humanities, written analysis, and attendance at selected performances are major requirements of this course. In an Honors format, this course is conducted in a seminar format with increased readings and written expression. Students cannot receive credit for both HUM 2 and HUM 2H. (CSU/UC transferable)

HUM 4 HUMANITIES THROUGH THE FILM – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
An examination of the motion picture as an art form. This course offers a concise introduction to the history of film against the broader changes in popular culture since the late nineteenth century. Students will see how elements of film can provide valuable insights into how movies communicate and convey meaning to their audiences using a unique network of techniques. Students will see how film, film genres, and developments within the film industry offer a first-hand look at how specific films illuminate important aspects of philosophical, historical, aesthetic, and social life and analyze how film connects with the larger world. This course may be offered in a distance education format. (CSU/UC transferable)

HUM 70 EXPLORING CONTEMPORARY TELEVISION – 3 Units
Grading: Pass/No Pass Option
Advisory: ENGL 190 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course is designed to explore the effect that television has had on society, with regard to language, art, history, and aesthetics. The changing content of the television medium and its influence on society will be examined through the humanities perspective. This course may be offered in a distance education format. (CSU/UC transferable)
This course offers informal explorations of personalities, works and major themes in symphonic and chamber music, opera, modern drama, the American musical, or films. This course is intended for older adults and community members and is designed to promote increased personal appreciation and enjoyment of these forms of artistic expression.

INDEPENDENT STUDY (IS)

IS 99/199 INDEPENDENT STUDY – 0.5-3 Units
Note: Any combination of these courses may be repeated three times for a total of four enrollments or a maximum of six independent study units.
Class Hours: 27 hours for each ½ unit

Independent study provides a forum for advanced work in a given field of study. A student may contract with a full-time instructor to do independent study in a specific subject area in which he/she has exhausted the regular curricular offerings. For transfer level courses, the student must have a declared major or already possess a degree and have completed a minimum of 12 transfer units at Shasta College. For non-transfer level courses, the student has completed a minimum of 12 units at Shasta College. (CSU transferable)

INDUSTRIAL TECHNOLOGY (INDE)

INDE 1 CAREER PLANNING FOR INDUSTRIAL TECHNOLOGY – 1 Unit
Class Hours: 9 lecture/27 lab total (when offered in the distance education format, hours will total 54)

Career opportunities and training requirements in Industrial Technology will be examined as well as small business employment and entrepreneurship. Students will be assisted in identifying career and business opportunities and developing career goals. This class is required of all Industrial Technology majors. This course may be offered in a distance education format. (CSU transferable)

INDE 37 Electricity and Electronics – 3 Units
Advisory: MATH 101 with a grade of C or higher, or Math Placement Level 3 or higher; and ENGL 280 with a grade of C or higher, or English Placement Level 4 or higher
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 162)

This course will provide the theory and hands-on electronic skills necessary for students in vocational or Career Technical Education courses such as the Automotive and Diesel Industrial Technology, Computers, Mechatronics, Energy, Heavy Equipment/Transportation programs and more. Course content includes electrical theory, components testing, and troubleshooting of many types of electrical systems including AC and DC systems. This course may be offered in a distance education format. (CSU transferable)

INDE 38 INTRODUCTION TO INDUSTRIAL MECHATRONICS – 3 Units (form: INDE 138, ELEC 138, ELEC 138/139)
Advisory: INDE 37 with a grade of C or higher; MATH 101 with a grade of C or higher, or Math Placement Level 3 or higher; and ENGL 280 with a grade of C or higher, or English Placement Level 5 or higher
Class Hours: 36 lecture/54 lab total

This course is designed for students who wish to be introduced to principles of industrial electronics and mechatronics for various vocational and industrial applications. We will be using the Arduino Starter Kit. Topics include theory of DC and AC circuits, semiconductor theory, digital concepts,circuits and systems and their applications, programming logic controls, circuit design, and integrating circuits with computers and machinery. This course may be offered in a distance education format. (CSU transferable)

INDE 40 ENTREPRENEURIAL MANUFACTURING – 2 Units
Advisory: AGMA 44 and BUAD 40 with a grade of C or higher, or WELD 73 with a grade of C or higher, or experience with hand tools, power tools, and machinery
Class Hours: 18 lecture/54 lab total (when offered in the distance education format, hours will total 108)

This course will introduce students to theory and hands-on skills in small business manufacturing with the intent to develop products that will be manufactured and sold by the students as part of their own small business. This course may be offered in a distance education format. (CSU transferable)

INDE 41 INDUSTRIAL ELECTRONICS – 3 Units
Note: Industry requires a negative drug test result prior to employment
Class Hours: 27 lecture/81 lab total (when offered in the distance education format, hours will total 162)

This course introduces electrical theory and electronic devices with a focus on industrial and advanced manufacturing uses. Physical wiring, schematics and relay logic, ladder logic and programmable logic controllers are also introduced. This course may be offered in a distance education format. (CSU transferable)

INDE 42 INDUSTRIAL CONTROL DEVICES – 3 Units
Prerequisite: INDE 41 with a grade of C or higher
Note: Industry requires a negative drug test result prior to employment
Class Hours: 27 lecture/81 lab total (when offered in the distance education format, hours will total 162)

This course introduces industrial control devices used in advanced manufacturing. Devices include motors, sensors, valves, and more. This course also covers the control of these devices by Programmable Logic Controls (PLC) including PLC code using ladder logic with RS 5000, PLC Circuit design, schematics, wiring, troubleshooting and maintenance. This course may be offered in a distance education format. (CSU transferable)

INDE 43 INDUSTRIAL MOTOR CONTROL – 3 Units
Prerequisite: INDE 42 with a grade of C or higher
Note: Industry requires a negative drug test result prior to employment
Class Hours: 27 lecture/81 lab total (when offered in the distance education format, hours will total 162)

This course will introduce industrial Motor Control Centers (MCCs) with a focus on Advanced Manufacturing using Programmable Logic Controls (PLCs) with 3-Phase AC motors. Variable Frequency Drives (VFDs) using Pulse Width Modulation (PWM), Remote Input/Output, Human-Machine Interface (HMI), signaling, and loop control are covered as well as schematics, wiring, PLC ladder logic code for these circuits using RS 5000 and system integration, maintenance and troubleshooting. This course may be offered in a distance education format. (CSU transferable)

INDE 44 INDUSTRIAL PROCESS CONTROL – 3 Units
Prerequisite: INDE 43 with a grade of C or higher
Note: Industry requires a negative drug test result prior to employment
Class Hours: 27 lecture/81 lab total (when offered in the distance education format, hours will total 162)

This course introduces industrial process control using Programmable Logic Controls (PLCs) with loop control. Multiple process systems, Human-Machine Interface (HMI) devices, whole system design, wiring, coding using RS 5000, building, maintenance and troubleshooting are also covered. This course may be offered in a distance education format. (CSU transferable)

INDE 45 INTRODUCTION TO MANUAL MACHINING – 3 Units
Class Hours: 27 lecture/81 lab total (when offered in the distance education format, hours will total 162)

This course introduces the operation of manual machining equipment as used in the manufacturing environment, including precision measurement, layout and blueprint reading. A portion of this course may be offered in a distance education format. (CSU transferable)

INDE 46 INTRODUCTION TO CNC MACHINING – 3 Units
Class Hours: 27 lecture/81 lab total (when offered in the distance education format, hours will total 162)

This course introduces the operation of CNC machining equipment as used in the manufacturing environment. Precision measurement, layout, blueprint reading, and CAD design are also introduced. A portion of this course may be offered in a distance education format. (CSU transferable)

INDE 47 INTERMEDIATE MACHINING – 3 Units
Prerequisite: INDE 45 with a grade of C or higher
Class Hours: 27 lecture/81 lab total (when offered in the distance education format, hours will total 162)

A course to advance manual machining skills with emphasis on more...
INDE 49 METALLURGY FOR MANUFACTURING – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course is designed to give a foundational understanding of the materials used in the manufacturing sector and their application in industry. Additionally, this course covers workability, identification, and material testing. This course may be offered in a distance education format. (CSU transferable)

INDE 94 INDUSTRIAL TECHNOLOGY WORKSITE LEARNING – 1-8 Units
Limitation on Enrollment: Financial aid students must maintain concurrent enrollment in 7 units which include worksite learning units. Students not receiving financial aid do not need to enroll in other courses in order to participate in Worksite Learning Classes.
Class Hours: 75 hours paid or 60 hours non-paid per unit
The Industrial Technology Worksite Learning course allows the student to gain on-the-job experience through employment/volunteerism at an approved industrial technology job site that is acquired by the student and related to the student’s major. A faculty member supervises all WSL courses to ensure that the work experience is of educational value. The course stresses good work habits and meeting of competencies through actual-on-the-job performance. A student may earn up to 16 units through repeating this course since course content varies and skills are enhanced by supervised repetition and practice. A maximum of 8 units may be earned in a single semester. (CSU transferable)

INDE 101 INDUSTRIAL TRADE BASICS – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
The course provides an overview of basic skills required for individuals seeking entry-level employment in industrial occupations. The subjects covered include workplace safety and regulations, hand and power tools, basic rigging, introduction to blueprints, and an overview of soft skills related to effective communications and employability requirements necessary for sustainable employment. This course may be offered in a distance education format.

INDE 102 INDUSTRIAL TRADE ESSENTIALS – 3 Units
Grading: Pass/No Pass Option
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 162)
This course provides an overview to fundamental industrial mechanical concepts, principles and equipment. The subjects covered include precision measurement, print reading, hydraulics/pneumatics, lubrication, bearings, flexible belt/mechanical drives and an introduction to basic electricity. A portion of this course may be offered in a distance education format.

INDE 301 INDUSTRIAL TRADE BASICS – 0 Units
Grading: Pass/No Pass Only
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
The course provides an overview of basic skills required for individuals seeking entry-level employment in industrial occupations. The subjects covered include workplace safety and regulations, hand and power tools, basic rigging, introduction to blueprints, and an overview of soft skills related to effective communications and employability requirements necessary for sustainable employment. This course may be offered in a distance education format.

INDE 341 INDUSTRIAL ELECTRONICS – 0 Units
Grading: Pass/No Pass Only
Note: Industry requires a negative drug test result prior to employment.
Class Hours: 27 lecture/81 lab total (when offered in the distance education format, hours will total 162)
This course introduces electrical theory and electronic devices with a focus on industrial and advanced manufacturing uses. Physical wiring, schematics and relay logic, ladder logic and programmable logic controllers are also introduced. This course may be offered in a distance education format.

INDE 342 INDUSTRIAL CONTROL DEVICES – 0 Units
Grading: Pass/No Pass Only
Prerequisite: INDE 341 with a grade of P
Note: Industry requires a negative drug test result prior to employment.
Class Hours: 27 lecture/81 lab total (when offered in the distance education format, hours will total 162)
This course introduces industrial control devices used in advanced manufacturing. Devices include motors, sensors, valves, and more. This course also covers the control of these devices by Programmable Logic Controls (PLC) including PLC code using ladder logic with RS 5000, PLC Circuit design, schematics, wiring, troubleshooting and maintenance. This course may be offered in a distance education format.

INDE 343 INDUSTRIAL MOTOR CONTROL – 0 Units
Grading: Pass/No Pass Only
Prerequisite: INDE 342 with a grade of P
Note: Industry requires a negative drug test result prior to employment.
Class Hours: 27 lecture/81 lab total (when offered in the distance education format, hours will total 162)
This course will introduce industrial Motor Control Centers (MCCs) with a focus on Advanced Manufacturing using Programmable Logic Controls (PLCs) with 3-Phase AC motors. Variable Frequency Drives (VFDs) using Pulse Width Modulation (PWM), Remote Input/Output, Human-Machine Interface (HMI), signaling, and loop control are covered as well as schematics, wiring, PLC ladder logic code for these circuits using RS 5000 and system integration, maintenance and troubleshooting. This course may be offered in a distance education format.

INDE 344 INDUSTRIAL PROCESS CONTROL – 0 Units
Grading: Pass/No Pass Only
Prerequisite: INDE 343 with a grade of P
Note: Industry requires a negative drug test result prior to employment.
Class Hours: 27 lecture/81 lab total (when offered in the distance education format, hours will total 162)
This course introduces industrial process control using Programmable Logic Controls (PLCs) with loop control. Multiple process systems, Human-Machine Interface (HMI) devices, whole system design, wiring, coding using RS 5000, building, maintenance and troubleshooting are also covered. This course may be offered in a distance education format.

JAPANESE (JAPN)
Two years of high school foreign language with grades of “C” or better is equivalent to one semester of foreign language at Shasta College.

JAPN 1 JAPANESE 1 – 5 Units
Grading: Pass/No Pass Option
Class Hours: 90 lecture total (when offered in the distance education format, hours will total 270)
This course is designed to give the student training in pronunciation, essentials of grammar, reading, writing and speaking. The students will learn 58 Kanji. The student is also introduced to the customs and culture of the Japanese people. A portion of this course may be offered in a distance education format. (CSU/UC transferable)

JAPN 2 JAPANESE 2 – 5 Units
Grading: Pass/No Pass Option
Prerequisite: A grade of C or higher in JAPN 1 or Foreign Language Placement Level 2 or higher
Class Hours: 90 lecture total (when offered in the distance education format, hours will total 270)
This course is a continuation of JAPN 1. Greater emphasis is placed on writing and the writing system in JAPN 2. Students will learn additional 87 Kanji characters (A total of 145 in Japanese 1 & 2). Further Japanese culture, history, people, life and traditions are provided. A portion of this course may be offered in a distance education format. (CSU/UC transferable)

JAPN 3 JAPANESE 3 – 5 Units
Grading: Pass/No Pass Option
Prerequisite: JAPN 2 with a grade of C or higher, or Foreign Language Placement Level 3 or higher
Class Hours: 90 lecture total
This course will give the student higher level language skills necessary to function in an adult environment. Great emphasis is placed on learning how to read and write a number of Kanji characters, and understanding Japan and its people through further Japanese culture, history, life, and traditions. (CSU/UC transferable)

JAPN 4 JAPANESE 4 – 5 Units
Grading: Pass/No Pass Option
Prerequisite: JAPN 3 with a grade of C or higher, or Foreign Language Placement Level 4
Class Hours: 90 lecture total
This course builds on the higher level language skills acquired in JAPN 3 with greater emphasis on the linguistic diversity needed to function in an adult environment. Emphasis will be on learning to read and write an additional 150 Kanji characters. Stress is placed on Japanese culture. (CSU/UC transferable)

JAPN 19 JAPANESE CONVERSATION 1 – 2 Units
Grading: Pass/No Pass Option
Prerequisite: JAPN 1 with a grade of C or higher, or Foreign Language Placement Level 2
Advisory: ENGL 280 with a grade of C or higher, or English Placement Level 5 or higher
Class Hours: 18 lecture/54 lab total
Intense practice in the spoken language. Course focuses on development of fluency by perfecting speech patterns, increasing vocabulary, and reinforcing pronunciation through simple sentence patterns, audio CDs, oral presentations, interactive communication in activities such as thematically centered conversations and conducting interviews. This course is for the practical use of Japanese. Cultural presentations will also be made through film, filmstrips, anime, music, TV programs, etc. (CSU transferable)

JAPN 20 JAPANESE CONVERSATION 2 – 2 Units
Grading: Pass/No Pass Option
Prerequisite: JAPN 19 with a grade of C or higher, or Foreign Language Placement Level 3
Advisory: ENGL 280 with a grade of C or higher, or English Placement Level 5 or higher
Class Hours: 18 lecture/54 lab total
Continuation of JAPN 19. Further intense practice in the spoken language. Course focuses on development of higher fluency by perfecting speech patterns, increasing vocabulary, and reinforcing pronunciation through additional sentence patterns, audio CDs, oral presentations, interactive communication in activities such as thematically centered conversations and conducting interviews. This course is for advanced practical use of Japanese. Further cultural presentations will also be made through film, filmstrips, anime, music, TV programs, etc. (CSU transferable)

JOURNALISM (JOUR)

JOUR 21 INTRODUCTION TO MASS COMMUNICATIONS – 3 Units
Grading: Pass/No Pass Option
Class Hours: 54 lecture total
C-ID: JOUR 100
This course is designed principally as a survey of the mass media, including newspapers, magazines, radio, television, motion pictures, books, the Internet and new technologies. The course will include study of mass communication theories, the effect of new technologies on society and the history of mass communication media. Students will research and analyze current mass media phenomena and will produce a term paper reflecting their discoveries. This course may be offered in a distance education format. (CSU/UC transferable) 

JOUR 27 NEWSWRITING AND REPORTING – 3 Units
Grading: Pass/No Pass Option
Advisory: Ability to type 25 wpm; ENGL 196 with a grade of C or higher, or English Placement Level 6
Class Hours: 54 lecture total (when offered in the distance education format, hours total 162)
C-ID: JOUR 110
This course provides an introduction to gathering, synthesizing/organizing, and writing news in journalistic style across multiple platforms. It includes the role of the journalist and related legal and ethical issues. Students will report and write based on their original interviews and research to produce news content. Experiences may include covering speeches, meetings, and other events, writing under deadline and use of AP Style. This course may be offered in a distance education format. (CSU transferable)

JOUR 29 PHOTOJOURNALISM – 2 Units
Note: Students are urged to furnish own camera
Class Hours: 36 lecture total
This course covers the theory and skills needed in the practice of photography for the print media, including college publications and publicity. The program will employ professionally recognized picture-taking techniques and digital imaging procedures. This course may be offered in a distance education format. (CSU transferable)

KINESIOLOGY (KINES)

KINES 1 FOUNDATIONS OF KINESIOLOGY – 3 Units
(formerly PE 10, HPE 8)
Grading: Pass/No Pass Option
Class Hours: 54 lecture total (when offered in the distance education format, hours total 162)
C-ID: KIN 100
This course is an introduction of the professional foundations of human movement, including career opportunities in areas of teaching, coaching, Allied Health and fitness; and, it gives an overview of the sub-disciplines in kinesiology. Course topics will include history, philosophy, concepts, programs, qualification, career, issues, and future of the discipline. This course may be offered in a distance education format. (CSU/UC transferable)

KINES 2 SPORTS EMERGENCY CARE – 3 Units
(formerly HLTH 10, PEAT 1, HPE 91)
Grading: Pass/No Pass Option
Class Hours: 54 lecture total
C-ID: KIN 101
Theory and practice in care and prevention of athletic injuries. Course will cover basic injury prevention, recognition, emergency care and treatment of injuries. Students will have the opportunity to become certified in professional rescuer, CPR, and AED upon completion of requirements. (CSU/UC transferable)

MATHMATICS (MATH)

MATH 2 PRECALCULUS – 6 Units
Prerequisite: MATH 102 with a grade of C or higher, or Math Placement Level 4 or higher
Advisory: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 108 lecture total (when offered in the distance education format, hours total 324)
Note: Students may take either MATH 2A and MATH 2B, or MATH 2 in order to meet transfer requirements. Successful completion of both MATH 2A and MATH 2B is the equivalent of MATH 2
C-ID: MATH 985
A course to prepare the student for MATH 3A (Calculus) utilizing function graphing technology. The content includes linear, absolute value, radical, polynomial, rational, logarithmic, exponential and trigonometric functions, conic sections, polar coordinates, matrices, parametric equations, and their applications. This course may be offered in a distance education format. (CSU/UC transferable) "UC transfer limit – maximum credit one course between MATH 2, MATH 2A, MATH 2B, and MATH 13"

MATH 2A PRECALCULUS COLLEGE ALGEBRA – 4 Units
Prerequisite: MATH 102 with a grade of C or higher, or Math Placement Level 4 or higher
Advisory: ENGL 190 with a grade of C or higher
Note: Successful completion of both MATH 2A and MATH 2B is the
MATH 2A  PRECALCULUS COLLEGE ALGEBRA WITH SUPPORT – 6 Units
Advisory: ENGL 196 with a grade of C or higher
Note: Successful completion of both MATH 2AS and MATH 2B is the equivalent of MATH 2.
Class Hours: 108 lecture total (when offered in the distance education format, hours will total 324)

This course introduces precalculus college algebra with a support component that is designed to help the student who needs additional support to be successful. This college level course introduces functions and function algebra for majors in science, technology, engineering, and mathematics. The main focus is on linear, absolute value, polynomial, rational, logarithmic and exponential functions. Students will learn algebraic techniques, modeling techniques, and technology-based techniques for solving equations involving these functions and for investigating the graphs of these functions. This course may be offered in a distance education format. (CSU/UC transferable)

MATH 2B  PRECALCULUS TRIGONOMETRY – 3 Units
Prerequisite: MATH 2A with a minimum grade of C or better, or Math Placement Level 5 or higher
Note: Successful completion of both MATH 2A and MATH 2B is the equivalent of MATH 2.
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: MATH 955 (with MATH 2A)

A college-level course on trigonometry utilizing function graphing technology. The content includes trigonometric functions of real numbers and angles, analytic trigonometry and applications, polar coordinates, parametric equations, and an introduction to vectors. This course may be offered in a distance education format. (CSU/UC transferable) *UC transfer limit – maximum credit one course between MATH 2, MATH 2A, MATH 2B, and MATH 13

MATH 3A  CALCULUS 3A – 4 Units
Prerequisite: MATH 2 or MATH 2B with a grade of C or higher, or Math Placement Level 5 or higher
Advisory: ENGL 190 with a grade of C or higher
Class Hours: 72 lecture total (when offered in the distance education format, hours will total 216)
C-ID: MATH 210; MATH 900 S (with MATH 3B)

This course is the first semester of a four-semester sequence covering differentiation of single variable functions, applications of the derivative, an introduction to integration, and an introduction to differential equations. This course may be offered in a distance education format. (CSU/UC transferable) *UC transfer limit – maximum credit one course between MATH 3B and MATH 9

MATH 3B  CALCULUS 3B – 5 Units
Prerequisite: MATH 3A with a grade of C or higher, or Math Placement Level 6 or higher
Advisory: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 90 lecture total (when offered in the distance education format, hours will total 270)
C-ID: MATH 220; MATH 900 S (with MATH 3A)

This course covers techniques of integration including substitution, integration by parts, and partial fractions; improper integrals; applications of integration to geometry and physics, such as finding areas, volumes and arc length, work, center of mass, and fluid force; sequences and series; absolute convergence and convergence tests; power series, Taylor series, and MacLaurin series; first-order ordinary differential equations and linear second-order differential equations; and parametric and polar curve differentiation and integration. This course may be offered in a distance education format. (CSU/UC transferable) *UC transfer limit – maximum credit one course between MATH 3B and MATH 9

MATH 4A  CALCULUS 4A – 4 Units
Prerequisite: MATH 3B with a grade of C or higher, or Math Placement Level 7 or higher
Advisory: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 72 lecture total (when offered in the distance education format, hours will total 216)
C-ID: MATH 230

This course covers vectors in two and three dimensions, multi-variable functions, partial differentiation, multiple integrals, line integrals, divergence, gradient, curl, Stokes' Theorem, Divergence Theorem, and Green's Theorem. This course may be offered in a distance education format. (CSU/UC transferable)

MATH 4B  DIFFERENTIAL EQUATIONS – 4 Units
Prerequisite: MATH 3B with a grade of C or higher, or Math Placement Level 7 or higher
Advisory: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 72 lecture total (when offered in the distance education format, hours will total 216)
C-ID: MATH 240

An introduction to ordinary differential equations, using qualitative, numerical, and analytic methods to investigate solutions. The course covers first order equations, systems of first order equations and linear second order equations. Topics include matrix methods, use of complex variables, Laplace transforms, and series solutions. Applications involving modeling with differential equations are included throughout the course. This course may be offered in a distance education format. (CSU/UC transferable)

MATH 6  LINEAR ALGEBRA – 3 Units
Prerequisite: MATH 3A with a grade of C or higher, or Math Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: MATH 250

A first course in linear algebra, this course provides a thorough treatment of systems of linear equations, including row operations, Gaussian elimination, and matrix algebra. Properties of vectors and the theory of vector spaces are covered. Topics include linear independence, inner products, orthogonality, eigenvectors, eigenspaces, and linear transformations. Applications are included throughout the course. This course may be offered in a distance education format. (CSU/UC transferable)

MATH 8  FINITE MATHEMATICS – 3 Units
Prerequisite: MATH 102 with a grade of C or higher, or Math Placement Level 4 or higher
Advisory: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: MATH 130

The course covers sets, matrices, and systems of equations and inequalities; linear programming; combinatorial techniques; introduction to probability; and mathematics of finance. The course is intended to provide (along with MATH 9) the mathematical skills needed for entry into upper division Business, Social, and Behavioral Science courses. This course may be offered in a distance education format. (CSU/UC transferable)

MATH 9  SURVEY OF CALCULUS – 4 Units
Prerequisite: MATH 102 with a grade of C or higher, or Math Placement Level 4 or higher
Advisory: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 72 lecture total (when offered in the distance education format, hours will total 216)
C-ID: MATH 140

A course in analytic geometry, differential and integral calculus for students whose major requires a short course in calculus without the depth offered in MATH 3A. This course may be offered in a distance education format. (CSU/UC transferable) *UC transfer limit – maximum credit one course between MATH 3B and MATH 9
MATH 11  PATTERN S OF MATH EMATICAL THOUGHT – 3 Units
Prerequisite: MATH 102 with a grade of C or higher, or Math Placement Level 4 or higher
Class Hours: 54 lecture total
This course is a one-semester survey course emphasizing mathematical reasoning. Various applications of mathematics are covered with topics selected from: Geometry, Statistics, Management Science, Number Theory, Social Science and Computer Science. The course is designed to give students an understanding of some of the vocabulary and methods of mathematics with a focus on ideas. (CSU/UC transferable)

MATH 13  COLLEGE ALGEBRA FOR LIBERAL ARTS – 3 Units
(formerly MATH 1)
Prerequisite: MATH 102 with a grade of C or higher, or Math Placement Level 4 or higher
Advisory: ENGL 190 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: MATH 150
This is a college level course that introduces functions and function algebra for majors in the Liberal Arts. The main focus is on linear, polynomial, rational, radical, absolute value, logarithmic and exponential functions and equations. Students will learn algebraic techniques, modeling techniques and technology-based techniques for solving equations and inequalities involving these functions and for investigating the graphs of these functions. This course also covers systems of equations. This course may be offered in a distance education format. (CSU/UC* transferable)

MATH 14  INTRODUCTION TO STATISTICS – 4 Units
Prerequisite: MATH 102, MATH 102X, or MATH 114 with a grade of C or higher, or Math Placement Level 4 or higher
Advisory: ENGL 190 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 72 lecture total (when offered in the distance education format, hours will total 216)
C-ID: MATH 110
An introductory course in statistics designed to show the role of modern statistical methods in the process of decision making. Concepts are introduced by example rather than by rigorous mathematical theory. The following topics will be covered: measures of central tendency and dispersion, regression and correlation, probability, sampling distributions including the normal, t, and chi-square, statistical inference using confidence intervals and hypotheses testing. This course may be offered in a distance education format. (CSU/UC* transferable)

MATH 14S STATISTICS WITH SUPPORT – 6 Units
Class Hours: 108 lecture total
An introductory course in statistics with a support component that is designed to help the student who needs additional support to be successful. It will show the role of modern statistical methods in the process of decision making. Concepts are introduced by example rather than by rigorous mathematical theory. The following topics will be covered: measures of central tendency and dispersion, regression and correlation, probability, sampling distributions including the normal, t, and chi-square, statistical inference using confidence intervals and hypotheses testing. (CSU/UC* transferable)

MATH 41A CONCEPTS OF ELEMENTARY MATHEMATICS – 3 Units
Prerequisite: MATH 102 with a grade of C or higher, or Math Placement Level 4 or higher
Class Hours: 54 lecture total
C-ID: MATH 120
This course emphasizes the development of quantitative reasoning skills through in-depth investigations of mathematics topics, which include: patterns and sequences, inductive and deductive reasoning, problem solving, logic, set theory, set of real numbers and its subsets. (CSU/UC* transferable)

MATH 41B CONCEPTS OF ELEMENTARY MATHEMATICS – 3 Units
Prerequisite: MATH 102 or MATH 102X with a grade of C or higher, or Math Placement Level 4 or higher
Advisory: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Notes:
1. MATH 41A is not a prerequisite for MATH 41B.
2. This course is valuable for students intending to become elementary school teachers.
Class Hours: 54 lecture total
Survey of the elements of mathematics usually taught in the elementary grades from an advanced standpoint. Emphasis is on geometry, probability and statistics. (CSU/UC* transferable)

MATH 100 TECHNICAL APPLICATIONS OF MATHEMATICS – 3 Units
Prerequisite: MATH 240 or MATH 260 with a grade of C or higher, or MATH 230E with a grade of P, or Math Placement Level 2 or higher
Advisory: ENGL 280 with a grade of C or higher, or English Placement Level 5 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course blends mathematical topics with practical technical applications. Emphasis is placed on the use of mathematics in solving problems involving arithmetic, algebra, and plane geometry. Practical applications are provided for specific technical occupations. This course may be offered in a distance education format.

MATH 101 BASIC ALGEBRA – 3 Units
Prerequisite: MATH 240 or MATH 260 with a grade of C or higher, or MATH 230E or MATH 260B with a grade of P, or Math Placement Level 2 or higher
Advisory: ENGL 280 with a grade of C or higher, or English Placement Level 5 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
A first course in algebra designed to cover the basic concepts and operations of algebra including solving linear equations, exponent laws, arithmetic and factoring of polynomials, and graphing linear equations in two variables. Applications are encountered throughout the course. This course may be offered in a distance education format.

MATH 101L BASIC ALGEBRA LAB – 1 Unit
Grading: Pass/No Pass Only
Corequisite: MATH 101
Class Hours: 54 lab total
This course provides students with hands-on activities that reinforce the concepts of the lecture course, MATH 101. The laboratory is designed to provide students with an opportunity to further investigate the solving of linear equations, exponent laws, arithmetic and factoring of polynomials, and graphing linear equations in two variables.

MATH 102 INTERMEDIATE ALGEBRA – 5 Units
Prerequisite: MATH 101 with a grade of C or higher, or Math Placement Level 3 or higher
Advisory: ENGL 190 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 90 lecture total (when offered in the distance education format, hours will total 270)
A second course in algebra at the developmental level. This course prepares the student to take a baccalaureate level general education mathematics course. Topics covered include equations and functions of the following types: quadratic, exponential, logarithmic, rational, and radical. The course also covers systems of linear equations and inequalities in two variables and quadratic inequalities in one variable. Applied problems are encountered throughout the course. This course may be offered in a distance education format.

MATH 102X INTERMEDIATE ALGEBRA WITH SUPPORT – 7 Units
Prerequisite: MATH 240 or MATH 260 with a grade of C or higher, or MATH 260B with a grade of P, or Math Placement Level 2
Class Hours: 117 lecture/27 lab total (when offered in the distance education format, hours will total 378)
This course is intended for students who would place themselves into a Math 101 level class and recommended for students with little or no knowledge of algebra. In MATH 102X students will review procedures and concepts from Basic Algebra, through a just in time approach, do
activities that promote a deeper understanding of Basic Algebra and Intermediate Algebra, and learn study skills that promote success in Intermediate Algebra. Topics covered include equations and functions of the following types: quadratic, exponential, logarithmic, rational, and radical. The course also covers systems of linear equations and inequalities in two variables and quadratic inequalities in one variable. Applied problems are encountered throughout the course. This course may be offered in a distance education format.

**MATH 100 ESSENTIAL MATH (FOR AN ASSOCIATE DEGREE) – 3 Units**

**Prerequisite:** MATH 100 or MATH 101 with a grade of C or higher, or Math Placement Level 3 or higher

**Advisory:** ENGL 280 with a grade of C or higher, or English Placement Level 5 or higher

**Class Hours:** 54 lecture total (when offered in the distance education format, hours will total 162)

This course is designed to provide a survey of mathematical topics that are appropriate for students pursuing an Associate Degree. Topics included are number sense, algebra, geometry, probability and statistics. This course may be offered in a distance education format.

**MATH 114 PRE-STATISTICS – 5 Units**

**Advisory:** ENGL 280 with a grade of C or higher, or English Placement Level 5 or higher

**Note:** Students may take either MATH 101 and 102, or MATH 102X, or MATH 114 in order to meet the prerequisite for MATH 14.

**Class Hours:** 90 lecture total (when offered in the distance education format, hours will total 270)

This course prepares students who do not plan to major in math, science, computer science or business for transfer-level Statistics. It is an accelerated course that prepares students for transfer-level Statistics. Topics include ratios, rates, and proportional reasoning, arithmetic reasoning using fractions, decimals and percents, evaluating expressions, analyzing algebraic forms to understand statistical measures, functions, use of linear functions to model bivariate data, and graphical and numerical descriptive statistics for quantitative and categorical data. This course may be offered in a distance education format.

**MATH 150 MATH STUDY SKILLS – 1 Unit (formerly GS 100)**

**Grading:** Pass/No Pass Only

**Note:** Students do not necessarily need to be concurrently enrolled in a math class.

**Class Hours:** 18 lecture total

This course is designed to assist students in learning mathematics through the development of successful study skills and exam-taking methods. This course addresses learning styles, how to read a math book, completing homework assignments, how to take notes and exams, strategies for solving word problems, and techniques for overcoming math anxiety.

**MATH 220 BASIC MATHEMATICS – 3 Units**

**Advisory:** ENGL 260 with a grade of C or higher, or English Placement Level 3 or higher

**Class Hours:** 54 lecture total

A course covering the basic skills of addition, subtraction, multiplication and division of whole numbers, fractions, and decimals, with word problem applications. Subjects also taught include prime numbers, order of operations, ratios, and proportions.

**MATH 240 PRE-ALGEBRA – 3 Units**

**Prerequisite:** MATH 220 with a grade of C or higher, or MATH 2100 with a grade of P, or Math Placement Level 1 or higher

**Advisory:** ENGL 260 with a grade of C or higher, or English Placement Level 3 or higher

**Class Hours:** 54 lecture total

This course provides a transition from arithmetic to algebra, covering a review of arithmetic operations; introducing the concepts of variables and signed numbers; the properties of addition, subtraction, multiplication and division containing variables; solution of equations and word problems. This course prepares the student for entry into MATH 101, 100, and/or BUAD 106.

**MATH 260 BASIC MATH AND PRE-ALGEBRA – 5 Units**

**Advisory:** ENGL 260 with a grade of C or higher, or English Placement Level 3 or higher

This course covers topics from arithmetic through an introduction to algebra. Topics include basic operations on whole numbers, fractions, mixed numbers, decimals, percents, variables and signed numbers, along with presenting word problem applications for each. Additional topics include order of operations, ratio and proportion, solving percent problems, and an introduction to variables and beginning concepts of algebra. Algebraic concepts to be introduced include addition, subtraction, multiplication, and division of algebraic expressions and solving algebraic equations. This course may be offered in a distance education format.
MUSIC (MUS)

MUS 1 MUSIC FUNDAMENTALS – 3 Units
Grading: Pass/No Pass Option
Advisory: Concurrent enrollment in MUS 22
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: MUS 110

A course in music theory for the general student which is suitable for music majors as a prerequisite for further theory study. Class includes pitch notation, melody, rhythm, and meter, scales and modes, intervals, keys and key signatures, triads, chords, and some sight-singing. Course is designed for Elementary Education majors and Pre-Music Core Program. Some math, especially fractions, is necessary. A computerized skills tutorial is included in the text and is required. Piano skills are helpful in maximizing learning in this course. Development of skills in handwritten notation is expected. This course is commonly transferable to a baccalaureate program. This course may be offered in a distance education format. (CSU/UC transferable) *UC transfer limit – no credit if taken after MUS 2

MUS 2 DIATONIC HARMONY AND MUSICIANSHIP – 4 Units
Grading: Pass/No Pass Option
Advisory: MUS 1 with a grade of C or higher
Class Hours: 72 lecture
C-ID: MUS 120

This course is a study of the fundamental elements of music, which include scales, modes, and key signatures; chords; melodic and harmonic intervals; and the handwritten notation of pitch and rhythms of simple and compound meters. This course also studies the structural elements of music including the anatomy of harmony and melody; four part harmonic writing; non-harmonic tones; basic chord progressions; and cadential formulas. This course also includes the integration of both ear training and sight-singing. Analysis of music and composition will be concurrent with materials studied, which include phrase structure, figured bass symbols, and introductory dominant sevenths. This course is designed for the Music Core Program and is the first course of the four-semester music theory sequence required to satisfy the Music Core Program and lower division music transfer. This course may be challenging and is transferable. (CSU/UC transferable)

MUS 3 ADVANCED DIATONIC HARMONY & MUSICIANSHIP – 4 Units
Grading: Pass/No Pass Option
Prerequisite: MUS 2 with a grade of C or higher
Class Hours: 72 lecture (when offered in the distance education format, hours will total 216)
C-ID: MUS 130

This course is designed for the Music Core Program. It is the second course of the four-semester Music Theory Sequence required to satisfy the Music Core Program and lower division music transfer, may be challenging and is transferable. Course content includes idiomatic work from selected historical periods with a critical approach to stylistic analysis. All diatonic chords through the introduction of the V7, the first truly chromatic chord, will be studied. Introduction to two part counterpoint. The syntax of all diatonic chords and their hierarchy in the harmonic language will be learned, along with all inversions. This course applies and develops the rhythmic, melodic, and harmonic materials of Music 2 through ear training, sight singing, analysis, and dictation. This course may be offered in a distance education format. (CSU/UC transferable)

MUS 4 CHROMATIC HARMONY – 4 Units
Grading: Pass/No Pass Option
Prerequisite: MUS 3 with a grade of C or higher
Class Hours: 72 lecture (when offered in the distance education format, hours will total 216)
C-ID: MUS 140

This course applies and develops the rhythmic, melodic, and harmonic materials of Music 3 through ear training, sight singing, analysis, and dictation. This is the third course of the four semester music theory sequence required to satisfy the Music Core Program and lower division music transfer, may be challenging and is transferable. It must be taken for a grade by music majors. Study chromatic alterations as used during the 18th and 19th Centuries, and the concept of Sonata-Allegro form in an overview of larger forms. This course may be offered in a distance education format. (CSU/UC transferable)

MUS 5 TWENTIETH CENTURY HARMONY – 4 Units
Grading: Pass/No Pass Option
Prerequisite: MUS 4 with a grade of C or higher
Class Hours: 72 lecture (when offered in the distance education format, hours will total 216)
C-ID: MUS 150

A study of the composition techniques and harmonic practices of the Twentieth Century and the development of critical judgments about the Century's styles. Not only does this course incorporate the concepts from Music 4, but also in addition, through writing and analysis, it will include: post-Romantic techniques such as borrowed chords and modal mixture, chromatic mediants, Neapolitan and augmented-sixth chords, 9th, 11th and 13th chords, altered chords and dominants; and 20th Century techniques such as: impressionism, serial theory, pandiatonicism and polynomalism, meter, rhythm, and minimalistic ideas. This course applies and develops the rhythmic, melodic, and harmonic materials of Music 4 through ear training, sight singing, analysis, and dictation. The course may culminate in the writing of a composition, probably theme and variations. This course utilizes a lab period to build and apply, sight singing dictation and rhythm skills. This is the fourth semester of the music theory sequence required to satisfy the Music Core Program and lower division music transfer. This course may be offered in a distance education format. (CSU/UC transferable)

MUS 10 MUSIC APPRECIATION – 3 Units
Grading: Pass/No Pass Option
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 108)
C-ID: MUS 100

A survey course that introduces the elements of music and music terminology, proceeding through principal composers and the chief features of six historical periods of music, from the Medieval Era to the present. Students learn about orchestral, acoustic and electric instruments, and new technologies including digital media. Students will attend concerts and listen to recordings. Recommended for AA Humanities elective, CSU General Ed Arts elective and Pre-Music Program. This course may be offered in a distance education format. (CSU/UC transferable)

MUS 11 HISTORY OF JAZZ AND EARLY ROCK – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

A survey course that covers the characteristics of jazz forms, including ragtime, Dixieland, blues, swing, progressive jazz and rock. Course gives the student the opportunity to become familiar with all of the various styles of jazz and provides an understanding of the social and technical influences that cause stylistic change. This course is designed to create an interest in music for the non-music major. Course is recommended for the Humanities elective. This course may be offered in a distance education format. (CSU/UC transferable)

MUS 14 WORLD MUSIC – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

World Music is a global exploration of musical traditions of various representative world musical cultures and musical techniques in a variety of cultural contexts not included in the broad genre of European based art music. This course may be offered in a distance education format. (CSU/UC transferable)

MUS 15 HISTORY OF ROCK – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

A survey course that covers the characteristics of Rock forms and important musicians: 1950s (Rockabilly, Little Richard, Chuck Berry, Elvis Presley, Doo-Wop, and various Rhythm & Blues musicians: Elvis Presley, Doo-Wop, and various Rhythm & Blues musicians); 1960s (Folk-Rock, Surf-Rock, Motown, Twist, The Beatles, British Invasion, Electric Folk-Rock, Hard Rock, Psychedelic, and Jazz-Rock); 1970s (Heavy Metal, Art Rock, Funk, Glitter, Disco, and Punk); 1980s (New Wave, Hair Metal, Synthpop, and Rap); and 1990s (Grunge, Alternative, and Rap/Hip Hop). The course gives the student the opportunity to become familiar with all the various styles of Rock and provides an understanding of the social and technical influences that cause stylistic change. This course is designed to create an interest in music for the non-music major. This course may be offered in a distance education format. (CSU/UC transferable)
Chapter 4: Courses

MUS 16  HISTORY OF JAZZ – 3 Units
Class Hours: 54 lecture total
A survey course that covers the characteristics of jazz forms, including Ragtime, Dixieland, Blues, Swing, Bop, Cool, Progressive Jazz, and the origins of new popular genres beginning in the 1950s. The course gives the student the opportunity to become familiar with all of the various styles of jazz and provides an understanding of the social and technical influences that cause stylistic change. This course is designed to create an interest in music for the non-music major. (CSU/UC transferable)

MUS 21A  BEGINNING GUITAR – 1 Unit (formerly MUS 21, 21A)
Grading: Pass/No Pass Option
Note: Students must provide their own instruments
Class Hours: 9 lecture/27 lab (when offered in the distance education format, hours will total 54)
A beginning course in the techniques of guitar, including basic chords, strums, finger-picking, and tuning. Guitar history and styles and music fundamentals are also presented. This course may be offered in a distance education format. (CSU/UC transferable)

MUS 21B  INTERMEDIATE GUITAR – 1 Unit
Grading: Pass/No Pass Option
Prerequisite: MUS 21A with a grade of C or higher
Note: Students must provide their own instruments
Class Hours: 9 lecture/27 lab (when offered in the distance education format, hours will total 54)
A course designed to move the guitar player beyond basic chord use, to further implement notational skills, right hand skills, and to expand the beginner into the active use of E moveable chords, A moveable chords and the moveable scales that enhance the guitar player’s basic skills. This course may be offered in a distance education format. (CSU/UC transferable)

MUS 21C  ADVANCED INTERMEDIATE GUITAR – 1 Unit
Grading: Pass/No Pass Option
Prerequisite: MUS 21B with a grade of C or higher
Note: Students must provide their own instruments
Class Hours: 9 lecture/27 lab (when offered in the distance education format, hours will total 54)
This course expands the intermediate guitar player beyond the E and A moveable chord forms and scales into the use of the C moveable chord and scale form and the G moveable chord and scale. The course will include more advanced right hand techniques and a review of notation, tablature, and song writing skills. This course may be offered in a distance education format. (CSU/UC transferable)

MUS 21D  ADVANCED GUITAR – 1 Unit
Grading: Pass/No Pass Option
Prerequisite: MUS 21C with a grade of C or higher
Note: Students must provide their own instruments
Class Hours: 9 lecture/27 lab (when offered in the distance education format, hours will total 54)
This course expands the intermediate guitar player beyond the E and A moveable chord forms and scales into the use of the C moveable chord and scale form and the G moveable chord and scale. The course will include more advanced right hand techniques and a review of notation, tablature, and song writing skills. This course may be offered in a distance education format. (CSU/UC transferable)

MUS 22A  BEGINNING PIANO – 1 Unit (formerly MUS 22)
Grading: Pass/No Pass Option
Class Hours: 9 lecture/27 lab (when offered in the distance education format, hours will total 54)
A fundamental course in keyboard techniques (simple piano music, accompaniments, chords, scales, and exercises) and music fundamentals (notation, melody, harmony and rhythm). Course is recommended for Music and Elementary Education majors. This course may be offered in a distance education format. (CSU/UC transferable)

MUS 22B  INTERMEDIATE PIANO – 1 Unit
(formerly MUS 23, 22BD)
Grading: Pass/No Pass Option
Prerequisite: MUS 22A with a grade of C or higher
Class Hours: 9 lecture/27 lab (when offered in the distance education format, hours will total 54)
Students will formulate and play several Major scales, their chords and primary cadences; analyze the same in simple music; harmonize simple melodies and perform pieces of a lengthier nature from 4 historic periods. The course will interpret subdivided and more complex rhythms and build confidence in class performance. This course may be offered in a distance education format. (CSU/UC transferable)

MUS 22C  ADVANCED INTERMEDIATE PIANO – 1 Unit
Grading: Pass/No Pass Option
Prerequisite: MUS 22B with a grade of C or higher
Class Hours: 9 lecture/27 lab (when offered in the distance education format, hours will total 54)
Students will formulate and play added Major scales along with their relative minors and cadences thereof; analyze primary and secondary chords; perform lengthier classical works, such as sonatinas, sonatas and minuets—along with music from all 4 periods. Students will develop the ability to interpret keys with more than 2 accidentals. This course may be offered in a distance education format. (CSU/UC transferable)

MUS 22D  ADVANCED PIANO – 1 Unit
Grading: Pass/No Pass Option
Prerequisite: MUS 22C with a grade of C or higher
Class Hours: 9 lecture/27 lab (when offered in the distance education format, hours will total 54)
Students will play in more sophisticated keys, with 3 or more accidentals. This course will be a continuation of Major and relative minor scales and cadences and will implement and analyze secondary dominants, 4-part Chorale style and considerably longer pieces from all periods. In-class performances required. This course may be offered in a distance education format. (CSU/UC transferable)

MUS 25A  BEGINNING STRINGS – 1 Unit (formerly MUS 25, 25AB)
Grading: Pass/No Pass Option
Prerequisite: MUS 1 with a grade of C or higher
Note: Instruments provided if available
Class Hours: 9 lecture/27 lab
A beginning course in violin, viola, violoncello, and string bass organized to establish basic skills of tuning, pitch and tone production, both pizzicato and bowed, beginning in the first position until security in the frame of the hand and correct playing position is established. Elementary shifting first to third position on violins/violas. Normal and extended first position on the cello. Half and first position on string bass. (CSU/UC transferable)

MUS 25B  INTERMEDIATE STRINGS – 1 Unit
Grading: Pass/No Pass Option
Prerequisite: MUS 25A with a grade of C or higher
Note: Instruments provided if available
Class Hours: 9 lecture/27 lab
Study of off the string bowings, vibrato, special effects. The major goals of the course are to establish more advanced intermediate skills with sound pedagogy while playing representative string solo music, simple chamber music, duos, trios, quartets, and Baroque & Classic Orchestra music with correct bowings and proper style. (CSU/UC transferable)

MUS 25C  ADVANCED INTERMEDIATE STRINGS – 1 Unit
(formerly MUS 25CD)
Grading: Pass/No Pass Option
Prerequisite: MUS 25B with a grade of C or higher
Note: Instruments provided if available
Class Hours: 9 lecture/27 lab
An intermediate course in violin, viola, violoncello, and string bass utilizing more advanced positions and shifting on all instruments. Bowing techniques include on-the-string bowings, détaché, linked, legato and mixed bowings when appropriate. (CSU/UC transferable)

MUS 25D  ADVANCED STRINGS – 1 Unit (formerly MUS 25CD)
Grading: Pass/No Pass Option
Prerequisite: MUS 25C with a grade of C or higher
Note: Instruments provided if available
Class Hours: 9 lecture/27 lab
Advanced study of off the string bowings, vibrato, and special effects. The major goals of the course are to establish advanced skills with sound pedagogy while playing representative string solo music, advanced chamber music, duos, trios, quartets, and orchestra music of Romantic and Contemporary repertoire with correct bowings and proper style. (CSU/UC transferable)
MUS 29  BEGINNING VOICE – 1 Unit (formerly MUS 27A)
Class Hours: 9 lecture/27 lab (when offered in the distance education format, hours will total 54)
This is a beginning course in vocal technique, repertoire, stage deportment, and performance. This course utilizes a variety of vocal genres to teach tone quality, breath control, posture, diction, and interpretation. Class performances are required. This course is recommended for Music, Theater Arts, and Elementary Education Majors. This course may be offered in a distance education format. (CSU/UC transferable)

MUS 30  INTERMEDIATE VOICE – 1 Unit (formerly MUS 27B)
Grading: Pass/No Pass Option
Prerequisite: MUS 29 with a grade of C or higher
Class Hours: 9 lecture/27 lab (when offered in the distance education format, hours will total 54)
This is an intermediate course in vocal technique and performance. This course utilizes a variety of vocal literature in English, Italian, and German to teach tone quality, breath control, posture, lyric diction, and interpretation. Class performances are required. This course is recommended for Music Core Program, Theater Arts majors, and Elementary Education majors. This course may be offered in a distance education format. (CSU/UC transferable)

MUS 31  CHAMBER CHOIR – 1 Unit (formerly MUS 31AD)
Limitation on Enrollment: Admission to this class will be by audition to determine performance ability. This course is a restricted elective for the Music certificate and Music AA Degree. Non-audition courses that fulfill this requirement: MUS 40 Concert Choir.
Note: Performances are required.
Class Hours: 54 lab total
C-ID: MUS 180
This course is organized for advanced singers, and admission to the class will be by audition to determine performance capability. This course provides performance by solos, duets, trios, quartets, and full ensemble. Literature is selected from all periods of music, and music may be sung in foreign languages. Field trips and performances are required. This course cannot be challenged, must be taken for a grade, and is transferable. Students are expected to progress in skill level to be able to master more advanced material. Note: This course may be repeated three times for a total of four enrollments since skills are enhanced by supervised repetition and practice. (CSU transferable)

MUS 33  JAZZ ENSEMBLE – 1 Unit (formerly MUS 33AD)
Note: Field trips and performances are required.
Class Hours: 54 lab total
C-ID: MUS 180
This class offers experience in the study and performance of big band commercial and jazz arrangements. This course may be repeated three times for a total of four enrollments since skills are enhanced by supervised repetition and practice. (CSU/UC transferable)

MUS 35  VOCAL JAZZ ENSEMBLE – 1 Unit (formerly MUS 35AD)
Limitation on Enrollment: Admission to this class will be by audition to determine performance ability. This course is a restricted elective for the Music Certificate and Music AA Degree. Non-audition courses that fulfill this requirement: MUS 40 Concert Choir, and MUS 41, Shasta College Women’s Ensemble.
Note: Performances are required.
Class Hours: 54 lab total
C-ID: MUS 180
This course is for students interested in singing jazz and commercial music. Students will sing jazz music in parts and will learn improvisation, jazz style, basic jazz terminology, and common jazz patterns. Note: This course may be repeated three times for a total of four enrollments since skills are enhanced by supervised repetition and practice. (CSU/UC transferable)

MUS 40  CONCERT CHOIR – 1 Unit (formerly MUS 40AD)
Note: Field trips and performances may be required.
Class Hours: 54 lab total
C-ID: MUS 180
This course is a performing mixed choir (S.A.T.B.) that sings a variety of music, both historical and contemporary. This course teaches fundamentals of reading choral music, using examples from choral literature. Note: This course may be repeated three times for a total of four enrollments since skills are enhanced by supervised repetition and practice. (CSU/UC transferable)

MUS 42  SHASTA COLLEGE CHORALE – 1 Unit
(formally MUS 42AD)
Limitation on Enrollment: Admission to this class will be by audition to determine performance ability. This course is a restricted elective for the Music Certificate and Music AA Degree. Non-audition courses that fulfill this requirement: MUS 40 Concert Choir.
Note: Performances are required.
Class Hours: 54 lab total
C-ID: MUS 180
This course is a performing mixed choir (S.A.T.B.) that sings a variety of music, both historical and contemporary, with an emphasis on large choral forms such as oratorios and cantatas, accompanied by instruments. Note: This course may be repeated three times for a total of four enrollments since skills are enhanced by supervised repetition and practice. (CSU/UC transferable)

MUS 43  SHASTA COLLEGE SYMPHONY ORCHESTRA – 1 Unit
(formally MUS 43AD)
Limitation on Enrollment: Admission to this class will be by audition to determine performance ability. This course is a restricted elective for the Music Certificate and Music AA Degree.
Class Hours: 54 lab total
C-ID: MUS 180
A college-based symphony orchestra providing an opportunity for instrumentalists to perform standard and contemporary orchestral literature. Field trips and performances are required. All groups rehearse evenings only. Note: This course may be repeated three times for a total of four enrollments since skills are enhanced by supervised repetition and practice. (CSU/UC transferable)

MUS 44  SHASTA COLLEGE CONCERT ORCHESTRA – 0.5-1 Unit
Grading: Pass/No Pass Option
Limitation on Enrollment: Admission to this class will be by audition to determine performance ability. This course is a restricted elective for the Music Certificate and Music AA Degree.
Class Hours: 27-54 lab total
C-ID: MUS 180
A college-based symphony orchestra for the training of developing musicians, providing an opportunity to perform standard and contemporary orchestral literature. Note: This course may be repeated three times for a total of four enrollments since skills are enhanced by supervised repetition and practice. (CSU/UC transferable)

MUS 46  SHASTA COLLEGE SYMPHONIC BAND – 1 Unit
(formally MUS 46AD)
Note: Field trips and performances are required.
Class Hours: 54 lab total
C-ID: MUS 180
A course in performance techniques of both standard and contemporary band literature. Rehearses evenings only. Note: This course may be repeated three times for a total of four enrollments since skills are enhanced by supervised repetition and practice. (CSU/UC transferable)

MUS 47  SHASTA COLLEGE JAZZ ENSEMBLE – 1 Unit
(formally MUS 47AD)
Limitation on Enrollment: Admission to this class will be by audition to determine performance ability. This course is a restricted elective for the Music Certificate and Music AA Degree. Non-audition courses that fulfill this requirement: MUS 33 Jazz Ensemble.
Note: Field trips and performances are required.
Class Hours: 54 lab total
C-ID: MUS 180
This course offers experience in the study and performance of big-band jazz arrangements. Rehearses evenings only. Note: Admission to the class will be by formal audition to determine performance ability [Ed. Code Sect. 58106 (b) (3)]. Note: This course may be repeated three times for a total of four enrollments since skills are enhanced by supervised repetition and practice. (CSU/UC transferable)

MUS 48  APPLIED MUSIC – 0.5 Units
Limitation on Enrollment: Student must be a declared Music major,
enrolled in a Music Theory class (MUS 2-5), and enrolled in a large music ensemble (MUS 31-51 or 300-303). Entrance is by audition only. See Music 48 coordinator for audition scheduling.

Class Hours: 27 lab total (when offered in the distance education format, hours will total 27)

C-ID: MUS 160

This course consists of individualized study in instruments or voice using appropriate techniques and repertoire. The emphasis is on the progressive development of skills needed for solo performance in preparation for transfer to a CSU/UC music degree program. Achievement is evaluated through a juried performance. Entrance is by audition. This course may be offered in a distance education format.

(CSU/UC transferable)

MUS 50 VOCAL INSTITUTE — 1-3 Units

Note: Field trips and performances are required.

Class Hours: 9-27 lecture/27-81 lab total

The Vocal Institute is an intensive course of both vocal and dramatic instruction in an applied performance setting for students who are interested in dramatic vocal performance. Content includes repertoire instruction in art song, musical theater and opera. It is an applied activity course that includes lectures, assignments, rehearsals and studio tutorials. Students learn vocal technique, lyric diction, solo and ensemble performance, character development, stagecraft and movement, and score reading. Art songs and scenes are performed in original languages including Italian, French, German and English. Skills are built through supervised application resulting in improved performance. Class includes staged performance of art song, opera and musical theater literature.

Note: Course may be repeated three times for a total of four enrollments.

(CSU/UC transferable)

MUS 61A BEGINNING PERFORMANCE ANALYSIS — 0.5 Units

(formerly MUS 61, 61AD)

Grading: Pass/No Pass Option

Note: Performance on a solo instrument or voice is required. It is recommended that the students have a Music AA track.

Class Hours: 27 lab (when offered in the distance education, hours will total 27)

A course in the experience of performing, speaking about, listening to, analyzing, and criticizing classical music performances as performed by students in the class and the community. Applied Music students, local musicians, and professional musicians perform and lecture. Required for Pre-Music and Music Core Program. This course may be offered in a distance education format.

(CSU/UC transferable)

MUS 61B INTERMEDIATE PERFORMANCE ANALYSIS — 0.5 Units

Advisory: MUS 61A with a grade of C or higher

Note: Performance on a solo instrument or voice is required. It is recommended that the students have a Music AA track.

Class Hours: 27 lab (when offered in the distance education, hours will total 27)

An intermediate level course in the experience of listening, analyzing, and criticizing classical music performances in class and the community. Students must perform on an applied solo instrument, with a college-level short lecture on the material presented. Applied Music students, local musicians, and professional musicians perform and lecture. Required for Pre-Music and Music Core Program. This course may be offered in a distance education format.

(CSU/UC transferable)

MUS 61C ADVANCED INTERMEDIATE PERFORMANCE ANALYSIS — 0.5 Units

Advisory: MUS 61B with a grade of C or higher

Note: Performance on a solo instrument or voice is required. It is recommended that the students have a Music AA track.

Class Hours: 27 lab (when offered in the distance education, hours will total 27)

An intermediate level course in the experience of listening, analyzing, and criticizing classical music performances in class and the community. Students must perform on an applied solo instrument using intermediate level literature appropriate for an upper-division audition. Applied Music students, local musicians, and professional musicians perform and lecture. Required for Pre-Music and Music Core Program. This course may be offered in a distance education format.

(CSU/UC transferable)

MUS 61D ADVANCED PERFORMANCE ANALYSIS — 0.5 Units

Advisory: MUS 61C with a grade of C or higher

Note: Performance on a solo instrument or voice is required. It is recommended that the students have a Music AA track.

Class Hours: 27 lab (when offered in the distance education, hours will total 27)

An advanced course in the experience of listening, analyzing, and criticizing classical music performances in class and the community. Applied Music students, local musicians, and professional musicians perform and lecture. Students are expected to perform at a level close to that of an upper division student on a solo or vocal instrument. Required for Pre-Music and Music Core Program. This course may be offered in a distance education format.

(CSU/UC transferable)

MUS 64 BEGINNING KEYBOARD SKILLS — 1 Unit

Grading: Pass/No Pass Option

Prerequisite: MUS 1 with a grade of C or higher

Class Hours: 54 lab total

A laboratory course to build and apply beginning keyboard skills utilizing the basic concepts of the lecture course, MUS 2.

(CSU/UC transferable)

MUS 65 INTERMEDIATE KEYBOARD SKILLS — 1 Unit

Grading: Pass/No Pass Option

Prerequisite: MUS 64 with a grade of C or higher

Class Hours: 54 lab total

A laboratory course to build and apply intermediate keyboard skills utilizing the basic concepts of the lecture course, MUS 3.

(CSU/UC transferable)

MUS 66 ADVANCED-INTERMEDIATE KEYBOARD SKILLS — 1 Unit

Grading: Pass/No Pass Option

Prerequisite: MUS 65 with a grade of C or higher

Class Hours: 54 lab total

A laboratory course to build and apply advanced-intermediate keyboard skills utilizing the basic concepts of the lecture course, MUS 4.

(CSU/UC transferable)

MUS 67 ADVANCED KEYBOARD SKILLS — 1 Unit

Grading: Pass/No Pass Option

Prerequisite: MUS 66 with a grade of C or higher

Class Hours: 54 lab total

A laboratory course to build and apply advanced keyboard skills utilizing the basic concepts of the lecture course, MUS 5.

(CSU/UC transferable)

MUS 301 ORCHESTRA FOR SENIORS — 0 Units

Note: While this is an open enrollment class, an assessment will be conducted by the instructor at the start of the class to determine if the student has the required ability to participate in performances.

Class Hours: 9-54 lab total

A course designed to offer opportunities for older adults to participate in ensemble music with the Symphony Orchestra.

MUS 302 SYMPHONIC BAND FOR SENIORS — 0 Units

Note: While this is an open enrollment class, an assessment will be conducted by the instructor at the start of the class to determine if the student has the required ability to participate in performances.

Class Hours: 54 lab total

A course designed to offer opportunities for adults to participate in ensemble music with the Symphonic Band.

MUS 303 MUSIC FOR SENIORS — 0 Units

Note: While this is an open enrollment class, an assessment will be conducted by the instructor at the start of the class to determine if the student has the required ability to participate in performances.

Advisory: Demonstrated proficiency in the performance medium.
A course designed to offer opportunities for older adults to participate in music performance.

**NATURAL HISTORY (NHIS)**

**NHIS 5  NATURAL HISTORY OF THE NEOTROPICS – 3 Units**  
*Note:* Due to the focus of this course, class time at a neotropical site may be required.  
*Class Hours:* 54 lecture (when offered in the distance education format, hours will total 162)

This course will focus on the evolution and interdependence of biotic communities and ecosystem components of the Neotropics, with an emphasis on rainforest and tropical reef systems. Major topics covered will include species diversity, species adaptation, energy flow and nutrient cycling, underlying geologic and climatic forces influencing the neotropical region, as well as human influence and biodiversity conservation. This course may be offered in a distance education format. *(CSU/UC transferable)*

**NHIS 5L  NATURAL HISTORY OF THE NEOTROPICS LAB – 1 Unit**  
*Corequisite:* NHIS 5  
*Class Hours:* 54 lab total

This course accompanies NHIS 5 Natural History of the Neotropics and represents the application of concepts presented in that course. Laboratory work will include field explorations through various habitats such as tropical forests, riparian systems, coasts, and reefs. Activities will include, species collections and identification, habitat characterization and data collection techniques, analysis and their synthesis to evaluate the quality of a given habitat. In support of habitat activities, map reading will be introduced as well as sampling methods and their statistical analysis and their synthesis to evaluate the quality of a given habitat. This course may be offered in a distance education format. *(CSU/UC transferable)*

**NHIS 15  NATURAL HISTORY OF CALIFORNIA – 3 Units**  
*Grading:* Pass/No Pass Option  
*Note:* Required day field trips  
*Class Hours:* 54 lecture total

This course is designed to give the student a unified view of the natural history of California with an emphasis on Northern California. The geology, weather, ecology, life zones, plant and animal species, and aquatic and mountain environments are emphasized. This course may be offered in a distance education format. *(CSU/UC transferable)*

**NHIS 65  NATURAL HISTORY OF PATRICK’S POINT – 1 Unit**  
*(formerly NHIS 65AB)*  
*Grading:* Pass/No Pass Option  
*Note:* Students must provide their own camping gear and food. The college supplies and requires bus transportation for no additional cost.  
*Class Hours:* 9 lecture/27 lab total - includes one orientation meeting plus one weekend

This course is a three day, two-night field trip to Patrick’s Point State Park to familiarize students with the organisms and ecological interactions occurring in the various plant communities and intertidal zones. One pre-trip introductory lecture will be held. *(CSU transferable)*

**NATURAL RESOURCES**  
See AGNR for course listings

**NURSING**  
See REGN or VOCN for course listings

**NUTRITION (NUTR)**

**NUTR 25  NUTRITION – 3 Units (formerly FSS 25, HOEC 25)**  
*Class Hours:* 54 lecture total (when offered in the distance education format, hours will total 162)  
*C-ID:* NUTR 110

A study of the science of food, the nutrients and other substances therein, their actions, interactions and balance in relation to health and disease. The class emphasizes the positive contributions of nutrition to life and health. This course may be offered in a distance education format. *(CSU/UC transferable)*

**NUTR 25H  NUTRITION – HONORS – 3 Units (formerly FSS 25H)**  
*Class Hours:* 54 lecture total (when offered in the distance education format, hours will total 162)  
*C-ID:* NUTR 110

This is an enriched study of nutrition for honors students. The honors section of nutrition will expose students to a more advanced and sophisticated understanding and analysis of nutrition science. The course is designed to challenge motivated students in the study of nutrients, their physiological functions and interactions, and the relationship of nutrition to health and disease. The honors section will provide a diverse curriculum with comprehensive content engaging students in innovative and creative coursework. Students will be required to think critically, write effectively, and speak persuasively on a myriad of health and wellness issues related to nutrition. Students cannot receive credit for both NUTR 25 and NUTR 25H. *(CSU/UC transferable)*

**NUTR 27  NUTRITION AND DISEASE – 2 Units (formerly FSS 27)**  
*Prerequisite:* NUTR 25 with a grade of C or higher  
*Note:* Upon successful completion of the course (a grade of B or better), licensed nurses will receive 30 CE hours under BRN Provider #396.  
*Class Hours:* 36 lecture total (when offered in the distance education format, hours will total 108)

A comprehensive therapeutic study of the relationship between a patient, their diet and optimum health. Physiological conditions that necessitate dietary modifications in the clinical setting will be stressed. This course may be offered in a distance education format. *(CSU transferable)*

**PHILOSOPHY (PHIL)**

**PHIL 6  INTRODUCTION TO PHILOSOPHY – 3 Units**  
*Grading:* Pass/No Pass Option  
*Advisory:* ENGL 1A with a grade of C or higher, or English Placement Level 7  
*Class Hours:* 54 lecture total (when offered in the distance education format, hours will total 162)  
*C-ID:* PHIL 100

A transfer humanities course introducing students to some of the major philosophical issues in the history of philosophy through the critical examination of primary texts. It will both explore what is special about the questions philosophers ask and consider the most famous answers philosophers have given to those questions. Areas covered include philosophy of mind, epistemology, metaphysics, moral philosophy, political philosophy, philosophy of science, aesthetics, and philosophy of religion. The course may be offered in a distance education format. *(CSU/UC transferable)*

**PHIL 7  ETHICS: UNDERSTANDING RIGHT AND WRONG – 3 Units**  
*Grading:* Pass/No Pass Option  
*Advisory:* ENGL 1A with a grade of C or higher, or English Placement Level 7  
*Class Hours:* 54 lecture total (when offered in the distance education format, hours will total 162)  
*C-ID:* PHIL 120

This course critically examines the concept of morality as well as a number of representative ethical theories, such as Kantianism, Utilitarianism, Contractarianism, Divine Command Theory and Virtue Ethics. It also introduces students to a range of moral and social problems such as abortion, euthanasia, capital punishment, cloning, warfare, gender and sexuality issues, political and economic issues, and the moral
status of the natural world. This course may be offered in a distance education format. (CSU/UC transferable)

**PHIL 8** LOGIC – 3 Units  
Grading: Pass/No Pass Option  
Advisory: ENGL 1A with a grade of C or higher, or English Placement Level 7  
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)  
C-ID: PHIL 110  
Logic is the science that evaluates arguments. This course introduces principles of reasoning with emphasis on deductive logic. It will provide students with extensive experience in identifying a range of correct and incorrect argument forms. The course may include a treatment of inductive reasoning and fallacies. This course may be offered in a distance education format. (CSU/UC transferable)

**PHIL 14** MODERN WESTERN PHILOSOPHY – 3 Units  
Grading: Pass/No Pass Option  
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)  
C-ID: PHIL 140  
This course focuses on Western Philosophy from the 16th to the 18th century, with emphasis on broad epistemological and metaphysical developments of empiricism and rationalism in philosophical thought. Descartes to Kant. It may include approximate precursors and successors. This course may be offered in a distance education format. (CSU/UC transferable)

**PHYSICAL EDUCATION (PE)**

**PE 4** LIFETIME FITNESS – 3 Units  
Grading: Pass/No Pass Option  
Class Hours: 36 lecture/54 lab total (when offered in the distance education format, hours will total 108 for the lecture portion of the class and an additional 54 hours of lab, totaling 162 hours for this course)  
In keeping with the primary purpose of wellness, this course is designed to provide insight relative to the values derived by enriching the quality of our lives. Further, it includes the mechanisms for identifying individual needs and providing the means for measurement and improvement of lifestyles to reach a higher level of well being. This course provides a personalized approach to assess and prescribe the necessary programs to improve the components of physical fitness and wellness. In addition to the health related components of physical fitness (cardiovascular, muscular strength and endurance, muscular flexibility, body composition), topics covered include nutrition and weight control, cardiovascular risk reduction, stress management, drug and alcohol abuse, AIDS, and environmental health issues. This course further prepares enrollees in successfully passing certification testing conducted by National Council on Strength and Fitness. The lecture portion of this course may be offered in a distance education format. (CSU/UC transferable)  
**UC transfer limit – maximum credit 4 units between PE 4, 7, 8, 11, 12A, 12B, 12C, 15, 16, 17A, 17B, 30A, 30B, 30C, 31, 32, 37, 51A, 51B, 51C, 60, 62, 69, 70A, 70B, 70C, 71, 72, 73, 74, and 75**

**PE 5** INDIVIDUAL PHYSICAL FITNESS – 1 Unit  
Grading: Pass/No Pass Option  
Class Hours: 54 lab total  
General physical conditioning through participation in an individualized exercise program. Emphasis is placed on activities that contribute to lifelong wellness and sustainability. (CSU/UC transferable)  
**UC transfer limit – maximum credit 4 units between PE 4, 7, 8, 11, 12A, 12B, 12C, 15, 16, 17A, 17B, 30A, 30B, 30C, 31, 32, 37, 51A, 51B, 51C, 60, 62, 69, 70A, 70B, 70C, 71, 72, 73, 74, and 75**

**PE 8** INDIVIDUAL PHYSICAL PERFORMANCE – 1 Unit  
Grading: Pass/No Pass Option  
Class Hours: 54 lab total  
Specific physical conditioning through participation in an individualized exercise program. Emphasis is placed on activities that contribute to long-term athletic development and athletic performance. (CSU/UC transferable)  
**UC transfer limit – maximum credit 4 units between PE 4, 7, 8, 11, 12A, 12B, 12C, 15, 16, 17A, 17B, 30A, 30B, 30C, 31, 32, 37, 51A, 51B, 51C, 60, 62, 69, 70A, 70B, 70C, 71, 72, 73, 74, and 75**

**PE 10** FUNDAMENTAL CONDITIONING – 1 Unit (formerly HPE 1AD)  
Grading: Pass/No Pass Option  
Class Hours: 54 lab total  
This course is designed for students who wish to assess and improve physical fitness levels and encourage a healthy attitude toward overall physical conditioning and fitness. Students receive instruction concerning the theories and practical activities involved in obtaining and maintaining an appropriate level of physical fitness, and through this process the students gain the ability to develop strategies and knowledge to make informed decisions for healthy lifestyle habits. (CSU/UC transferable)  
**UC transfer limit – maximum credit 4 units between PE 4, 7, 8, 11, 12A, 12B, 12C, 15, 16, 17A, 17B, 30A, 30B, 30C, 31, 32, 37, 51A, 51B, 51C, 60, 62, 69, 70A, 70B, 70C, 71, 72, 73, 74, and 75**

**PE 12A** BEGINNING WEIGHT TRAINING AND FITNESS – 1 Unit (formerly PE 12, HPE 24AD)  
Grading: Pass/No Pass Option  
Class Hours: 54 lab total  
This course is an introduction to weight training and fitness. It will include the safety aspects of successful weight training and techniques associated with a well-rounded beginning weight training program. This class will focus on the introduction of basic core lifts primarily through the use of weight lifting machines and circuit training programs that target the major muscle groups and emphasize the connection between cardiovascular fitness and strength training. (CSU/UC transferable)  
**UC transfer limit – maximum credit 4 units between PE 4, 7, 8, 11, 12A, 12B, 12C, 15, 16, 17A, 17B, 30A, 30B, 30C, 31, 32, 37, 51A, 51B, 51C, 60, 62, 69, 70A, 70B, 70C, 71, 72, 73, 74, and 75**

**PE 12B** INTERMEDIATE WEIGHT TRAINING AND FITNESS – 1 Unit  
Grading: Pass/No Pass Option  
Prerequisites: PE 12A with a grade of C or higher  
Class Hours: 54 lab total  
This course is for the intermediate level weight training and fitness student that has successfully passed PE 12A, Beginning Weight Training and Fitness. It will teach the intermediate level weight training and fitness student the safety issues and techniques involved in using free weight resistance training exercises. Emphasis will be on developing a workout program that includes the use of free weight (dumbbell and barbell), power lifting techniques, and Olympic lifts for total development of the various muscle groups. Through the use of cardiovascular exercises and resistance exercises the student will be able to develop a high level of whole body fitness. (CSU/UC transferable)  
**UC transfer limit – maximum credit 4 units between PE 4, 7, 8, 11, 12A, 12B, 12C, 15, 16, 17A, 17B, 30A, 30B, 30C, 31, 32, 37, 51A, 51B, 51C, 60, 62, 69, 70A, 70B, 70C, 71, 72, 73, 74, and 75**

**PE 12C** ADVANCED WEIGHT TRAINING AND FITNESS – 1 Unit  
Grading: Pass/No Pass Option  
Prerequisites: PE 12B with a grade of C or higher  
Class Hours: 54 lab total  
This course is an advanced weight lifting and fitness class where the student sets his/her own goals and develops a program to meet their goals. This class will focus on the student’s ability to generate, assess and apply an individual fitness program to meet individual fitness goals and encourage lifetime fitness. (CSU/UC transferable)  
**UC transfer limit – maximum credit 4 units between PE 4, 7, 8, 11, 12A, 12B, 12C, 15, 16, 17A, 17B, 30A, 30B, 30C, 31, 32, 37, 51A, 51B, 51C, 60, 62, 69, 70A, 70B, 70C, 71, 72, 73, 74, and 75**

**PE 15** AEROBIC DANCE – 1 Unit (formerly HPE 53AD)  
Grading: Pass/No Pass Option  
Class Hours: 54 lab total  
A complete physical conditioning program designed to increase cardiovascular efficiency through choreographed dances. (CSU/UC transferable)  
**UC transfer limit – maximum credit 4 units between PE 4, 7, 8, 11, 12A, 12B, 12C, 15, 16, 17A, 17B, 30A, 30B, 30C, 31, 32, 37, 51A, 51B, 51C, 60, 62, 69, 70A, 70B, 70C, 71, 72, 73, 74, and 75**

**PE 16** AEROBIC EXERCISE – 1 Unit (formerly HPE 63AD)  
Grading: Pass/No Pass Option  
Class Hours: 54 total activity  
A complete physical conditioning program designed to increase cardiovascular efficiency through aerobic type exercises. (CSU/UC transferable)  
**UC transfer limit – maximum credit 4 units between PE 4, 7, 8, 11, 12A, 12B, 12C, 15, 16, 17A, 17B, 30A, 30B, 30C, 31, 32, 37, 51A, 51B, 51C, 60, 62, 69, 70A, 70B, 70C, 71, 72, 73, 74, and 75**

**PE 17A** BEGINNING YOGA – 1 Unit (formerly PE 17)  
Grading: Pass/No Pass Option  
Class Hours: 54 lab total (when offered in the distance education, hours will total 54)
Students will be introduced to the practice of yoga. Students will learn basic yoga postures. Students will study and practice the principles of yoga exercise through self-awareness, breathing, relaxation, visualization, and meditation. The origin and history of yoga as a form of healthful exercise will also be discussed. This course may be offered in a distance education format. (CSU/UC* transferable) *UC transfer limit – maximum credit 4 units between PE 4, 7, 8, 11, 12A, 12B, 12C, 15, 16, 17A, 17B, 30A, 30B, 30C, 31, 32, 37, 51A, 51B, 51C, 60, 62, 69, 70A, 70B, 70C, 71, 72, 73, 74, and 75

PE 17B INTERMEDIATE YOGA – 1 Unit
Grading: Pass/No Pass Option
Prerequisite: PE 17A with a grade of C or higher
Class Hours: 54 lab total (when offered in the distance education, hours will total 54)

The Intermediate Yoga course will build on the concepts from the Beginning Yoga course. Students will advance their knowledge of principles of yoga. Students will practice higher levels of self-awareness, breathing, relaxation, visualization, and meditation. Students will learn specific yoga patterns and practices designed to be done independently. Students will be introduced to Sanskrit, yoga vocabulary, and chakra balancing philosophies. This course may be offered in a distance education format. (CSU/UC* transferable) *UC transfer limit – maximum credit 4 units between PE 4, 7, 8, 11, 12A, 12B, 12C, 15, 16, 17A, 17B, 30A, 30B, 30C, 31, 32, 37, 51A, 51B, 51C, 60, 62, 69, 70A, 70B, 70C, 71, 72, 73, 74, and 75

AQUATICS

PE 30A BEGINNING SWIMMING – 1 Unit
(formerly PE 30, HPE 40AD)
Grading: Pass/No Pass Option
Class Hours: 54 lab total

This class provides instruction in aquatic skills necessary for survival, efficiency in swimming, and conditioning in the aquatic environment. (CSU/UC* transferable) *UC transfer limit – maximum credit 4 units between PE 4, 7, 8, 11, 12A, 12B, 12C, 15, 16, 17A, 17B, 30A, 30B, 30C, 31, 32, 37, 51A, 51B, 51C, 60, 62, 69, 70A, 70B, 70C, 71, 72, 73, 74, and 75

PE 30B INTERMEDIATE SWIMMING – 1 Unit
Grading: Pass/No Pass Option
Prerequisite: PE 30A with a grade of C or higher
Class Hours: 54 lab total

This course is designed to help the intermediate swimmer improve cardiovascular endurance through swimming and to teach sound individual conditioning techniques. Instruction will emphasize freestyle and backstroke. Each student will progress toward becoming an endurance swimmer for enhanced fitness. (CSU/UC* transferable) *UC transfer limit – maximum credit 4 units between PE 4, 7, 8, 11, 12A, 12B, 12C, 15, 16, 17A, 17B, 30A, 30B, 30C, 31, 32, 37, 51A, 51B, 51C, 60, 62, 69, 70A, 70B, 70C, 71, 72, 73, 74, and 75

PE 30C ADVANCED SWIMMING – 1 Unit
Grading: Pass/No Pass Option
Class Hours: 54 lab total

This course is designed to develop training skills, knowledge, strategy, and appreciation of competitive swimming for the advanced swimmer. Students that are preparing for competitive team, club, or triathlon training are encouraged to enroll in this course. (CSU/UC* transferable) *UC transfer limit – maximum credit 4 units between PE 4, 7, 8, 11, 12A, 12B, 12C, 15, 16, 17A, 17B, 30A, 30B, 30C, 31, 32, 37, 51A, 51B, 51C, 60, 62, 69, 70A, 70B, 70C, 71, 72, 73, 74, and 75

PE 31 AQUA AEROBICS – 1 Unit (formerly HPE 79AD)
Grading: Pass/No Pass Option
Class Hours: 54 total

Aqua aerobics is an activity/fitness class where the student will be exposed to basic aquatic aerobic exercises. Water is the perfect medium used to judge or score a dive. (CSU/UC* transferable) *UC transfer limit – maximum credit 4 units between PE 4, 7, 8, 11, 12A, 12B, 12C, 15, 16, 17A, 17B, 30A, 30B, 30C, 31, 32, 37, 51A, 51B, 51C, 60, 62, 69, 70A, 70B, 70C, 71, 72, 73, 74, and 75

PE 37 SPRINGBOARD DIVING – 1 Unit
(transferable) *UC transfer limit – maximum credit 4 units between PE 4, 7, 8, 11, 12A, 12B, 12C, 15, 16, 17A, 17B, 30A, 30B, 30C, 31, 32, 37, 51A, 51B, 51C, 60, 62, 69, 70A, 70B, 70C, 71, 72, 73, 74, and 75

DANCE

For Dance courses, refer to DAN in the catalog

RACQUET SPORTS

PE 51A BEGINNING TENNIS – 1 Unit
(transferable) *UC transfer limit – maximum credit 4 units between PE 4, 7, 8, 11, 12A, 12B, 12C, 15, 16, 17A, 17B, 30A, 30B, 30C, 31, 32, 37, 51A, 51B, 51C, 60, 62, 69, 70A, 70B, 70C, 71, 72, 73, 74, and 75

PE 51B INTERMEDIATE TENNIS – 1 Unit
Grading: Pass/No Pass Option
Prerequisite: PE 51A with a grade of C or higher
Class Hours: 54 lab total

This tennis course is designed for the player who has achieved a degree of stroke accuracy and dependability. This course will emphasize power, spin and controlled depth of shots. Footwork and game plan strategies will be developed along with first serve offensive shots. (CSU/UC* transferable) *UC transfer limit – maximum credit 4 units between PE 4, 7, 8, 11, 12A, 12B, 12C, 15, 16, 17A, 17B, 30A, 30B, 30C, 31, 32, 37, 51A, 51B, 51C, 60, 62, 69, 70A, 70B, 70C, 71, 72, 73, 74, and 75

PE 51C ADVANCED TENNIS – 1 Unit
Grading: Pass/No Pass Option
Prerequisite: PE 51B with a grade of C or higher
Class Hours: 54 lab total

This course will help prepare the student for competitive tennis play. The course will take students with an intermediate level skill development in all phases of the game of tennis and work to improve the power and consistency with which these skills are used. In addition to improved use of tennis skills the course will also focus on successful strategies of both singles and doubles play. (CSU/UC* transferable) *UC transfer limit – maximum credit 4 units between PE 4, 7, 8, 11, 12A, 12B, 12C, 15, 16, 17A, 17B, 30A, 30B, 30C, 31, 32, 37, 51A, 51B, 51C, 60, 62, 69, 70A, 70B, 70C, 71, 72, 73, 74, and 75

INDIVIDUAL SPORTS AND TEAM SPORTS

PE 60 SELF-DEFENSE – 1 Unit (formerly HPE 2AD)
Grading: Pass/No Pass Option
Class Hours: 54 lab total

This course is designed to teach students techniques in self-defense. The student will acquire fundamental skills in stances, punches, blocks, kicks, and escape maneuvers. (CSU/UC* transferable) *UC transfer limit – maximum credit 4 units between PE 4, 7, 8, 11, 12A, 12B, 12C, 15, 16, 17A, 17B, 30A, 30B, 30C, 31, 32, 37, 51A, 51B, 51C, 60, 62, 69, 70A, 70B, 70C, 71, 72, 73, 74, and 75

PE 62 GOLF – 1 Unit (formerly HPE 32AD)
Grading: Pass/No Pass Option
Class Hours: 54 lab total

This course is designed to teach the fundamental skills and knowledge necessary to participate in the game of golf. (CSU/UC* transferable) *UC transfer limit – maximum credit 4 units between PE 4, 7, 8, 11, 12A, 12B, 12C, 15, 16, 17A, 17B, 30A, 30B, 30C, 31, 32, 37, 51A, 51B, 51C, 60, 62, 69, 70A, 70B, 70C, 71, 72, 73, 74, and 75

PE 69 FOOTBALL – 1 Unit (formerly HPE 3AD)
Grading: Pass/No Pass Option
This course is designed to teach the fundamental skills and knowledge necessary for soccer. (CSU/UC* transferable) 
*UC transfer limit – maximum credit 4 units between PE 4, 7, 8, 11, 12A, 12B, 12C, 15, 16, 17A, 17B, 30A, 30B, 30C, 31, 32, 37, 51A, 51B, 51C, 60, 62, 69, 70A, 70B, 70C, 71, 72, 73, 74, and 75

PE 75 BASKETBALL – 1 Unit (formerly HPE 4AD)
Grading: Pass/No Pass Option
Class Hours: 54 lab total
Designed to develop basic skills, understanding and appreciation for the game of basketball. The use of lecture, demonstration and drills will provide the student with the opportunity for skill development. Rules, strategy, and team play will enhance the student’s knowledge of the game of basketball. (CSU/UC* transferable) 
*UC transfer limit – maximum credit 4 units between PE 4, 7, 8, 11, 12A, 12B, 12C, 15, 16, 17A, 17B, 30A, 30B, 30C, 31, 32, 37, 51A, 51B, 51C, 60, 62, 69, 70A, 70B, 70C, 71, 72, 73, 74, and 75

NONCREDIT PHYSICAL EDUCATION

PE 300 FITNESS FOR SENIORS – 0 Units
Grading: Pass/No Pass Only
Class Hours: 27 lab total
This course is designed to provide instruction for seniors on the utilization of modified postures that are specifically designed to provide gentle stretching, strengthening, and balancing with emphasis in increasing limberness and stamina.

PHYSICAL EDUCATION – ATHLETICS (PEAT)

PEAT 5 INTERCOLLEGIATE FOOTBALL – 3 Units
(formerly HPE 14AB)
Grading: Pass/No Pass Option
Note: Tryouts may be required to determine performance capability.
This course is designed for the intercollegiate football athlete. Although this class is designed for the intercollegiate athlete, it is open to all individuals.
Class Hours: 162-175 hours total
This course includes football instruction, practice, and competition at the intercollegiate level. This course is repeatable in accordance with Title 5 regulations. The California Community College Athletic Association (CCCAA) regulations also allow for repeated enrollment based on a student athlete’s eligibility for the particular sport. (CSU/UC* transferable) 
*UC transfer limit – maximum credit 4 units between PEAT 5, 7, 8, 11, 13, 15, 17, 19, 21, 23, 25, 29, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, and 51

PEAT 7 INTERCOLLEGIATE VOLLEYBALL – 3 Units
(formerly HPE 61AB)
Grading: Pass/No Pass Option
Note: Tryouts may be required to determine performance capability.
This course is designed for the intercollegiate volleyball athlete. Although this class is designed for the intercollegiate athlete, it is open to all individuals.
Class Hours: 162-175 hours total
This course includes volleyball instruction, practice and competition at the intercollegiate level. This course is repeatable in accordance with Title 5 regulations. The California Community College Athletic Association (CCCAA) regulations also allow for repeated enrollment based on a student athlete’s eligibility for the particular sport. (CSU/UC* transferable) 
*UC transfer limit – maximum credit 4 units between PEAT 5, 7, 8, 11, 13, 15, 17, 19, 21, 23, 25, 29, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, and 51

PEAT 9 INTERCOLLEGIATE CROSS COUNTRY – 3 Units
(formerly HPE 29AB)
Grading: Pass/No Pass Option
Note: Tryouts may be required to determine performance capability.
This course is designed for the intercollegiate cross-country athlete. Although this class is designed for the intercollegiate athlete, it is open to all individuals.
Class Hours: 162-175 hours total
This course offers cross country instruction, practice and competition at the intercollegiate level. This course is repeatable in accordance with Title 5 regulations. The California Community College Athletic Association (CCCAA) regulations also allow for repeated enrollment based on a student athlete’s eligibility for the particular sport. (CSU/UC* transferable) 
*UC transfer limit – maximum credit 4 units between PEAT 5, 7, 8, 11, 13, 15, 17, 19, 21, 23, 25, 29, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, and 51

PEAT 11 INTERCOLLEGIATE BASKETBALL – 1-3 Units
(formerly HPE 15AB)
Grading: Pass/No Pass Option
Chapter 4: Courses

This course is designed for the intercollegiate basketball athlete. Although this class is designed for the intercollegiate athlete, it is open to all individuals.

Class Hours: 54-175 lab hours total

This course is designed for the intercollegiate basketball athlete. The focus of this course is on basketball instruction, practice, and competition at the intercollegiate level. This course is repeatable in accordance with Title 5 regulations. The California Community College Athletic Association (CCCAA) regulations also allow for repeated enrollment based on a student athlete's eligibility for the particular sport. (CSU/UC* transferable) *UC transfer limit – maximum credit 4 units between PEAT 5, 7, 9, 11, 13, 15, 17, 19, 21, 23, 25, 29, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, and 51

PEAT 13 INTERCOLLEGIATE SOFTBALL – 3 Units
(formerly HPE 62AB)
Grading: Pass/No Pass Option

Note: Tryouts may be required to determine performance capability.

This course is designed for the intercollegiate softball athlete. Although this class is designed for the intercollegiate athlete, it is open to all individuals.

Class Hours: 162-175 hours total

This course focuses on softball instruction, practice and competition at the intercollegiate level. This course is repeatable in accordance with Title 5 regulations. The California Community College Athletic Association (CCCAA) regulations also allow for repeated enrollment based on a student athlete's eligibility for the particular sport. (CSU/UC* transferable)

*UC transfer limit – maximum credit 4 units between PEAT 5, 7, 9, 11, 13, 15, 17, 19, 21, 23, 25, 29, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, and 51

PEAT 15 INTERCOLLEGIATE BASEBALL – 3 Units
(formerly HPE 16AB)
Grading: Pass/No Pass Option

Note: Tryouts may be required to determine performance capability.

This course is designed for the intercollegiate baseball athlete. Although this class is designed for the intercollegiate athlete, it is open to all individuals.

Class Hours: 162-175 hours total

This course focuses on baseball instruction, practice and competition at the intercollegiate level. This course is repeatable in accordance with Title 5 regulations. The California Community College Athletic Association (CCCAA) regulations also allow for repeated enrollment based on a student athlete's eligibility for the particular sport. (CSU/UC* transferable)

*UC transfer limit – maximum credit 4 units between PEAT 5, 7, 9, 11, 13, 15, 17, 19, 21, 23, 25, 29, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, and 51

PEAT 17 INTERCOLLEGIATE TRACK AND FIELD – 3 Units
(formerly HPE 18AB)
Grading: Pass/No Pass Option

Note: Tryouts may be required to determine performance capability.

This course is designed for the intercollegiate track and field athlete. Although this class is designed for the intercollegiate athlete, it is open to all individuals.

Class Hours: 162-175 hours total

Track and field instruction, practice and competition at the intercollegiate level. This course is repeatable in accordance with Title 5 regulations. The California Community College Athletic Association (CCCAA) regulations also allow for repeated enrollment based on a student athlete's eligibility for the particular sport. (CSU/UC* transferable)

*UC transfer limit – maximum credit 4 units between PEAT 5, 7, 9, 11, 13, 15, 17, 19, 21, 23, 25, 29, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, and 51

PEAT 19 INTERCOLLEGIATE TENNIS – 3 Units
(formerly HPE 17AB)
Grading: Pass/No Pass Option

Note: Tryouts may be required to determine performance capability.

This course is designed for the intercollegiate tennis athlete. Although this class is designed for the intercollegiate athlete, it is open to all individuals.

Class Hours: 162-175 hours total

Tennis instruction, practice and competition at the intercollegiate level. This course is repeatable in accordance with Title 5 regulations. The California Community College Athletic Association (CCCAA) regulations also allow for repeated enrollment based on a student athlete's eligibility for the particular sport. (CSU/UC* transferable)

*UC transfer limit – maximum credit 4 units between PEAT 5, 7, 9, 11, 13, 15, 17, 19, 21, 23, 25, 29, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, and 51

PEAT 21 INTERCOLLEGIATE GOLF – 3 Units
Grading: Pass/No Pass Option

Note: Tryouts may be required to determine performance capability.

This course is designed for the intercollegiate golf athlete. Although this class is designed for the intercollegiate athlete, it is open to all individuals.

Class Hours: 162-175 hours total

Golf instruction, practice and competition at the intercollegiate level. This course is repeatable in accordance with Title 5 regulations. The California Community College Athletic Association (CCCAA) regulations also allow for repeated enrollment based on a student athlete's eligibility for the particular sport. (CSU/UC* transferable)

*UC transfer limit – maximum credit 4 units between PEAT 5, 7, 9, 11, 13, 15, 17, 19, 21, 23, 25, 29, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, and 51

PEAT 23 INTERCOLLEGIATE SOCCER – 3 Units
(formerly HPE 71AB)
Grading: Pass/No Pass Option

Note: Tryouts may be required to determine performance capability.

This course is designed for the intercollegiate soccer athlete. Although this class is designed for the intercollegiate athlete, it is open to all individuals.

Class Hours: 162-175 hours total

Soccer instruction, practice and competition at the intercollegiate level. This course is repeatable in accordance with Title 5 regulations. The California Community College Athletic Association (CCCAA) regulations also allow for repeated enrollment based on a student athlete's eligibility for the particular sport. (CSU/UC* transferable)

*UC transfer limit – maximum credit 4 units between PEAT 5, 7, 9, 11, 13, 15, 17, 19, 21, 23, 25, 29, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, and 51

PEAT 25 INTERCOLLEGIATE SWIMMING AND DIVING – 3 Units
(formerly HPE 82AB)
Grading: Pass/No Pass Option

Note: Tryouts may be required to determine performance capability.

This course is designed for the intercollegiate swimming and diving athlete. Although this class is designed for the intercollegiate athlete, it is open to all individuals.

Class Hours: 162-175 hours total

Swimming and diving instruction, practice and competition at the intercollegiate level. This course is repeatable in accordance with Title 5 regulations. The California Community College Athletic Association (CCCAA) regulations also allow for repeated enrollment based on a student athlete's eligibility for the particular sport. (CSU/UC* transferable)

*UC transfer limit – maximum credit 4 units between PEAT 5, 7, 9, 11, 13, 15, 17, 19, 21, 23, 25, 29, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, and 51

PEAT 29 INTERCOLLEGIATE WRESTLING – 3 Units
Grading: Pass/No Pass Option

Note: Tryouts may be required to determine performance capability.

This course is designed for the intercollegiate wrestler. Although this class is designed for the intercollegiate athlete, it is open to all individuals.

Class Hours: 162-175 lab total

Wrestling instruction, practice and competition at the intercollegiate level. This course is repeatable in accordance with Title 5 regulations. The California Community College Athletic Association (CCCAA) regulations also allow for repeated enrollment based on a student athlete's eligibility for the particular sport. (CSU/UC* transferable)

*UC transfer limit – maximum credit 4 units between PEAT 5, 7, 9, 11, 13, 15, 17, 19, 21, 23, 25, 29, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, and 51

PEAT 41 OFF-SEASON FOOTBALL TRAINING – 1-3 Units
Grading: Pass/No Pass Option

Note: This course is designed for the intercollegiate football athlete. Although this class is designed for the intercollegiate athlete, it is open to all individuals.

Class Hours: 54-175 lab total

This course is designed for the development of the intercollegiate football player during the off-season of competition. Through the use of specialized strength/conditioning programs and football specific drills and techniques, the student will be provided the opportunity to increase their strength, endurance, and football abilities/skills to prepare them for the intercollegiate football season. This course is repeatable in accordance with Title 5 regulations. The California Community College Athletic Association (CCCAA) regulations also allow for repeated enrollment based on a student athlete's eligibility for the particular sport. (CSU/UC* transferable)

*UC transfer limit – maximum credit 4 units between PEAT 5, 7, 9, 11, 13, 15, 17, 19, 21, 23, 25, 29, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, and 51

191
Chapter 4: Courses

PEAT 42 OFF-SEASON SOCCER TRAINING – 1-3 Units
Grading: Pass/No Pass Option
Note: This course is designed for the intercollegiate soccer athlete. Although this class is designed for the intercollegiate athlete, it is open to all individuals.
Class Hours: 54-175 lab total
This is an intercollegiate class designed for the development of the soccer athlete during the off-season of competition. The course will involve strength and conditioning programs as well as specific skills and techniques for the sport of soccer that will help prepare the athlete for the next intercollegiate sport season. This course is repeatable in accordance with Title 5 regulations. The California Community College Athletic Association (CCCAA) regulations also allow for repeated enrollment based on a student athlete’s eligibility for the particular sport. (CSU/UC* transferable)
*UC transfer limit – maximum credit 4 units between PEAT 5, 7, 9, 11, 13, 15, 17, 19, 21, 23, 25, 29, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, and 51

PEAT 43 OFF-SEASON VOLLEYBALL TRAINING – 1-3 Units
Grading: Pass/No Pass Option
Note: This course is designed for the intercollegiate volleyball athlete. Although this class is designed for the intercollegiate athlete, it is open to all individuals.
Class Hours: 54-175 lab total
This is an intercollegiate class designed for the development of the volleyball athlete during the off-season of competition. The course will involve strength and conditioning programs as well as specific skills and techniques for the sport of volleyball that will help prepare the athlete for the next intercollegiate sport season. This course is repeatable in accordance with Title 5 regulations. The California Community College Athletic Association (CCCAA) regulations also allow for repeated enrollment based on a student athlete’s eligibility for the particular sport. (CSU/UC* transferable) *UC transfer limit – maximum credit 4 units between PEAT 5, 7, 9, 11, 13, 15, 17, 19, 21, 23, 25, 29, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, and 51

PEAT 44 OFF-SEASON WRESTLING TRAINING – 1-3 Units
Grading: Pass/No Pass Option
Note: This course is designed for the intercollegiate wrestler. Although this class is designed for the intercollegiate athlete, it is open to all individuals.
Class Hours: 54-175 lab total
This is an intercollegiate class designed for the development of the wrestler during the off-season of competition. The course will involve strength and conditioning programs as well as specific skills and techniques for the sport of wrestling that will help prepare the athlete for the next intercollegiate sport season. This course is repeatable in accordance with Title 5 regulations. The California Community College Athletic Association (CCCAA) regulations also allow for repeated enrollment based on a student athlete’s eligibility for the particular sport. (CSU/UC* transferable) *UC transfer limit – maximum credit 4 units between PEAT 5, 7, 9, 11, 13, 15, 17, 19, 21, 23, 25, 29, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, and 51

PEAT 45 OFF-SEASON BASKETBALL TRAINING – 1-3 Units
Grading: Pass/No Pass Option
Note: This course is designed for the intercollegiate basketball athlete. Although this class is designed for the intercollegiate athlete, it is open to all individuals.
Class Hours: 54-175 lab total
This is an intercollegiate class designed for the development of the basketball athlete during the off-season of competition. The course will involve strength and conditioning programs as well as specific skills and techniques for the sport of basketball that will help prepare the athlete for the next intercollegiate sport season. This course is repeatable in accordance with Title 5 regulations. The California Community College Athletic Association (CCCAA) regulations also allow for repeated enrollment based on a student athlete’s eligibility for the particular sport. (CSU/UC* transferable) *UC transfer limit – maximum credit 4 units between PEAT 5, 7, 9, 11, 13, 15, 17, 19, 21, 23, 25, 29, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, and 51

PEAT 46 OFF-SEASON BASEBALL TRAINING – 1-3 Units
Grading: Pass/No Pass Option
Note: This course is designed for the intercollegiate baseball athlete. Although this class is designed for the intercollegiate athlete, it is open to all individuals.
Class Hours: 54-175 lab total
This is an intercollegiate class designed for the development of the baseball athlete during the off-season of competition. The course will involve strength and conditioning programs as well as specific skills and techniques for the sport of baseball that will help prepare the athlete for the next intercollegiate sport season. This course is repeatable in accordance with Title 5 regulations. The California Community College Athletic Association (CCCAA) regulations also allow for repeated enrollment based on a student athlete’s eligibility for the particular sport. (CSU/UC* transferable) *UC transfer limit – maximum credit 4 units between PEAT 5, 7, 9, 11, 13, 15, 17, 19, 21, 23, 25, 29, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, and 51
Chapter 4: Courses

PEAT 51 OFF-SEASON TRAINING FOR CROSS COUNTRY – 1-3 Units
Grading: Pass/No Pass Option
Note: This course is designed for the intercollegiate cross country athlete. Although this class is designed for the intercollegiate athlete, it is open to all qualified individuals.
Class Hours: 54-175 lab total
This course is for students preparing for intercollegiate varsity cross-country competition. This is an intercollegiate class designed for general athletic development as well as sport-specific endurance and skills of Cross Country Running. This course will involve running in varied terrain, strength and conditioning as well as flexibility and competitive mindset training in preparation for the next sport season. This course is repeatable in accordance with Title 5 regulations. The California Community College Athletic Association (CCCAA) regulations also allow for repeated enrollment with Title 5 regulations. The California Community College Athletic Association (CCCAA) regulation allow for repeated enrollment based on an athlete’s eligibility for the particular sport. (CSU transferable)

PEAT 52 OFF-SEASON GOLF TRAINING – 1-3 Units
Grading: Pass/No Pass Option
Note: This course is designed for the intercollegiate golf athlete. Although this class is designed for the intercollegiate athlete, it is open to all individuals.
Class Hours: 54-175 lab total
This is an intercollegiate class designed for the development of the golf athlete during the off-season of competition. The course will involve strength and conditioning programs as well as specific skills and techniques for the sport of golf that will help prepare the athlete for the next intercollegiate sport season. This course is repeatable in accordance with Title 5 regulations. The California Community College Athletic Association (CCCAA) regulations also allow for repeated enrollment based on a student athlete's eligibility for the particular sport. (CSU transferable)

PEAT 94 WORKSITE LEARNING FOR ATHLETIC TRAINING/SPORTS MEDICINE – 1-8 Units
Grading: Pass/No Pass Option
Limitation on Enrollment: Financial aid students must maintain concurrent enrollment in seven (7) units which include worksite learning units. Students not receiving financial aid do not need to enroll in other courses in order to participate in Worksite Learning Classes.
Class Hours: 75 hours paid or 60 hours non-paid per unit
This vocational worksite learning (WSL) course allows the student to gain on-the-job experience. Experience is gained through employment/volunteerism at an approved job site. The job site will be acquired by the student and must be related to the student's major. A faculty member supervises all WSL courses to ensure that the work experience is of educational value. This course stresses good work habits and meeting competencies through actual on-the-job performance. A student may earn up to 16 units by repeating this course as course content varies and skills are enhanced by supervised repetition and practice. A maximum of 8 units may be earned in a single semester. (CSU transferable)

PHYSICAL SCIENCE (PHSC)
See Also: ESCI

PHSC 1 PHYSICAL SCIENCE SURVEY – 4 Units
Grading: Pass/No Pass Option
Prerequisite: MATH 101 with a grade of C or higher, or Math Placement Level 3 or higher
Class Hours: 54 lecture/54 lab total
C-ID: PHYS 140
Active learning, lecture, discussion, demonstration and lab activities cover selected theories of physics and chemistry, emphasizing the conceptual basis of these theories. The course is designed for non-science majors as part of their general education requirement in science. This course is not appropriate for students who have taken college level physics or chemistry. (CSU transferable)

PHYSICAL THERAPIST ASSISTANT (PTA)

PTA 1 PHYSICAL THERAPY PRACTICE FOR THE PTA – 2 Units
Corequisites: PTA 2, PTA 3, PTA 3L, PTA 4, and PTA 4L
Limitation on Enrollment: Enrollment in the Physical Therapy Assistant Program.
Class Hours: 36 lecture total (when offered in the distance education format, hours will total 108)
This course will introduce the students to the profession of Physical Therapist Assistant by covering the history, laws and ethics of the profession. Introduction to professional/medical documentation and quality assurance issues will be presented. An introduction to research and Evidence-Based Practice (EBP) will be included. Students will also study communication techniques, interpersonal relationships and psychosocial considerations in healthcare. This course may be offered in a distance education format. (CSU transferable)

PTA 2 PATHOLOGY – 3 Units
Corequisites: PTA 1, PTA 3, PTA 3L, PTA 4, and PTA 4L
Limitation on Enrollment: Students must be enrolled in the PTA Program.
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course will introduce the pathophysiology of all major organ systems of the body. The etiology, signs, symptoms, diagnosis, prognosis and interventions related to common diseases and disorders seen in the physical therapy setting will be covered. This course may be offered in a distance education format. (CSU transferable)

PTA 3 PATIENT CARE SKILLS THEORY – 2 Units
Corequisites: PTA 1, PTA 2, PTA 3L, PTA 4, and PTA 4L
Limitation on Enrollment: Students must be enrolled in the PTA Program.
Class Hours: 36 lecture total (when offered in the distance education format, hours will total 108)
The course will introduce students to the theory of basic patient care skills performed by the physical therapist assistant including positioning, monitoring vital signs, infection control techniques, transfer training and gait training. Students will also be introduced to the assessment and treatment processes of the physical therapist assistant. This course may be offered in a distance education format. (CSU transferable)

PTA 3L PATIENT CARE SKILLS LAB – 1 Unit
Corequisites: PTA 1, PTA 2, PTA 3L, PTA 4, and PTA 4L
Limitation on Enrollment: Students must be enrolled in the PTA Program.
Class Hours: 54 lab total
This course will provide practical training in basic care skills performed by the physical therapist assistant including positioning, monitoring vital signs, infection control techniques, transfer training and gait training. Students will also begin assessment and intervention techniques for the physical therapist assistant in this laboratory course. (CSU transferable)

PTA 4 CLINICAL KINESIOLOGY THEORY – 2 Units
Corequisites: PTA 1, PTA 2, PTA 3, PTA 3L, and PTA 4L
Limitation on Enrollment: Students must be enrolled in the PTA Program.
Class Hours: 36 lecture total (when offered in the distance education format, hours will total 108)
This course will cover kinesiology and anatomy of the musculoskeletal and neuromuscular systems. Emphasis will be on musculoskeletal anatomy and physiology including arthrokinematics, static and dynamic movement systems and associated clinical applications. Principles of goniometry and manual muscle testing will also be introduced. This course may be offered in a distance education format. (CSU transferable)

PTA 4L CLINICAL KINESIOLOGY LAB – 1 Unit
Corequisites: PTA 1, PTA 2, PTA 3, PTA 3L, and PTA 4
Limitation on Enrollment: Students must be enrolled in the PTA Program.
Class Hours: 54 lab total
This course will consist of the laboratory component of PTA 4 Clinical Kinesiology. Students will apply kinesiology and biomechanics principles of PTA 4 Clinical Kinesiology in a practical setting. Assessment of joint range of motion, muscle strength, posture and gait will be performed.
Chapter 4: Courses

PTA 5 THERAPEUTIC EXERCISE THEORY – 2 Units
Prerequisites: PTA 1, PTA 2, PTA 3, PTA 3L, PTA 4, and PTA 4L with a grade of C or higher
Corequisites: PTA 5L, PTA 6, PTA 6L, and PTA 20
Limitation on Enrollment: Students must be enrolled in the PTA Program.
Class Hours: 36 lecture total (when offered in the distance education format, hours will total 108)

This course will cover the use of exercise as a preventative and rehabilitative modality for the treatment of pathological conditions. Emphasis is placed on the physiologic effects of exercise as well as the design and application of exercise programs to improve strength, flexibility, posture and balance. This course will also address exercise specific to cardiac rehabilitation, aquatic physical therapy and work hardening. This course may be offered in a distance education format. (CSU transferable)

PTA 6 PHYSICAL AGENTS THEORY – 2 Units
Prerequisites: PTA 1, PTA 2, PTA 3, PTA 3L, PTA 4, and PTA 4L with a grade of C or higher
Corequisites: PTA 5, PTA 5L, PTA 6L, and PTA 20
Limitation on Enrollment: Students must be enrolled in the PTA Program.
Class Hours: 36 lecture total (when offered in the distance education format, hours will total 108)

This course will cover the use of physical agents in the treatment of common conditions seen in the physical therapy setting. Various thermal, mechanical and electromagnetic agents will be presented with corresponding indications and contraindications. Evidence based rationale for use of physical agents will also be addressed. This course may be offered in a distance education format. (CSU transferable)

PTA 6L PHYSICAL AGENT LA – 1 Unit
Prerequisites: PTA 1, PTA 2, PTA 3, PTA 3L, PTA 4, and PTA 4L with a grade of C or higher
Corequisites: PTA 5, PTA 5L, PTA 6, and PTA 20
Limitation on Enrollment: Students must be enrolled in the PTA Program.
Class Hours: 54 lab total

This course will instruct students in the safe and effective use of physical agents in the treatment of common conditions seen in the physical therapy setting. Students will learn correct set up and application of thermal, mechanical and electromagnetic agents. This course is the laboratory course that corresponds with PTA 6 Physical Agents Theory. (CSU transferable)

PTA 7 ORTHOPEDICS MANAGEMENT THEORY – 2 Units
Prerequisites: PTA 5, PTA 5L, PTA 6, PTA 6L, and PTA 20 with a grade of C or higher
Corequisites: PTA 7L, PTA 8, PTA 8L, and PTA 21
Limitation on Enrollment: Students must be enrolled in the PTA Program.
Class Hours: 36 lecture total (when offered in the distance education format, hours will total 108)

This course will focus on dysfunction, disease and trauma of the musculoskeletal system. Concepts of tissue healing, signs and symptoms of orthopedic dysfunctions, surgical interventions and physical therapy interventions will be addressed. Students will be expected to integrate knowledge and skills from previous PTA coursework to the orthopedic patient. This course may be offered in a distance education format. (CSU transferable)

PTA 7L ORTHOPEDICS MANAGEMENT LAB – 1 Unit
Prerequisites: PTA 5, PTA 5L, PTA 6, PTA 6L, and PTA 20 with a grade of C or higher
Corequisites: PTA 7, PTA 8, PTA 8L, and PTA 21
Limitation on Enrollment: Students must be enrolled in the PTA Program.
Class Hours: 54 lab total

This course will provide the practical training for assessment and treatment of the orthopedic conditions seen in the physical therapy setting. It is the laboratory component of PTA 7 Orthopedics Management and will focus on application of concepts taught in that course. Treatment strategies for disorders of the spine, upper extremity and lower extremity will be covered. Students will be expected to integrate knowledge and skills from previous PTA coursework and apply it to the orthopedic patient. (CSU transferable)

PTA 8 NEUROLOGY AND DEVELOPMENT THEORY – 2 Units
Prerequisites: PTA 5, PTA 5L, PTA 6, PTA 6L, and PTA 20 with a grade of C or higher
Corequisites: PTA 7, PTA 7L, PTA 8, and PTA 21
Limitation on Enrollment: Students must be enrolled in the PTA Program.
Class Hours: 36 lecture total (when offered in the distance education format, hours will total 108)

This course will cover basic neuroanatomy and neurophysiology with a focus on human growth and development from birth to the aged adult. It will cover the physical, cognitive, social and emotional changes with aging and their impact on functional movement. The process of motor development through motor control and motor learning will be addressed and applied to treatment of neurologic conditions through the lifespan. This course may be offered in a distance education format. (CSU transferable)

PTA 8L NEUROLOGY AND DEVELOPMENT LAB – 1 Unit
Prerequisites: PTA 5, PTA 5L, PTA 6, PTA 6L, and PTA 20 with a grade of C or higher
Corequisites: PTA 7, PTA 7L, PTA 8, and PTA 21
Limitation on Enrollment: Students must be enrolled in the PTA Program.
Class Hours: 54 lab total

This course will provide the practical training for the assessment and treatment of normal and abnormal neurodevelopment. It is the laboratory component of PTA 8 Neurology and Development and will focus on neurodevelopmental treatment techniques for pediatric patients and continuing through the lifespan. Fundamentals of treatment for neurological conditions in the adult and general treatment strategies related to geriatric patients will also be covered. (CSU transferable)

PTA 9 NEUROLOGICAL MANAGEMENT THEORY – 2 Units
Prerequisites: PTA 7, PTA 7L, PTA 8, PTA 8L, and PTA 21 with a grade of C or higher
Corequisites: PTA 9L, PTA 10, PTA 10L, PTA 11, and PTA 21
Limitation on Enrollment: Students must be enrolled in the PTA Program.
Class Hours: 36 lecture total (when offered in the distance education format, hours will total 108)

This course will cover physical therapy interventions for common neurologic conditions. Additionally, assessment, medical management, environmental barriers, adaptive equipment, psychosocial issues and effective interdisciplinary management will also be covered as it applies to the patient with a neurologic condition. Students will apply neuroanatomy and developmental concepts learned in PTA 108 Neurology and Development to the adult patient with a neurologic condition. This course may be offered in a distance education format. (CSU transferable)

PTA 9L NEUROLOGIC MANAGEMENT LAB – 1 Unit
Prerequisites: PTA 7, PTA 7L, PTA 8, PTA 8L, and PTA 21 with a grade of C or higher
Corequisites: PTA 9, PTA 10, PTA 10L, PTA 11, and PTA 22
Limitation on Enrollment: Students must be enrolled in the PTA Program.
Class Hours: 54 lab total
This course will cover the practical training for the assessment and treatment of common neurologic conditions by the physical therapist assistant. It is the laboratory component of PTA 9 Neurologic Management Theory and will apply principles of patient management taught in that course. It will incorporate treatment principles and progression from previous courses through the use of case studies. (CSU transferable)

PTA 10  ADVANCED PROCEDURES THEORY – 2 Units
Prerequisites: PTA 7, PTA 7L, PTA 8, PTA 8L, and PTA 21 with a grade of C or higher
Corequisites: PTA 9, PTA 9L, PTA 10L, PTA 11, and PTA 21
Limitation on Enrollment: Students must be enrolled in the PTA Program.
Class Hours: 36 lecture total (when offered in the distance education format, hours will total 108)
This course will cover physical therapy care for unique patient populations including patients with respiratory dysfunction, women's health patients, oncology patients, amputees, patients with vestibular dysfunction, chronic pain patients and those with complex multi-system pathology. Topics include diagnoses, medical and physical therapy interventions, special considerations, and equipment needs for these patient populations. This course may be offered in a distance education format. (CSU transferable)

PTA 10L  ADVANCED PROCEDURES LAB – 1 Unit
Prerequisites: PTA 7, PTA 7L, PTA 8, PTA 8L, and PTA 21 with a grade of C or higher
Corequisites: PTA 9, PTA 9L, PTA 10, PTA 11, and PTA 22
Limitation on Enrollment: Students must be enrolled in the PTA Program.
Class Hours: 54 lab total
This course will provide the practical training for physical therapy care for unique patient populations including patients with respiratory dysfunction, women's health patients, oncology patients, amputees, patients with vestibular dysfunction, patients with chronic pain and those with complex multi-system pathology. This is the laboratory portion of PTA 10 Advanced Procedures Theory. The focus of this course will be the application of concepts and interventions to patient treatment scenarios. (CSU transferable)

PTA 11  PROFESSIONAL INTEGRATION – 2 Units
Prerequisites: PTA 7, PTA 7L, PTA 8, PTA 8L, and PTA 21 with a grade of C or higher
Corequisites: PTA 9, PTA 9L, PTA 10, PTA 10L, and PTA 21
Limitation on Enrollment: Students must be enrolled in the PTA Program.
Class Hours: 36 lecture total (when offered in the distance education format, hours will total 108)
This course will cover issues related to practice management and encourage problem solving skills to integrate all knowledge and skills learned throughout the PTA Program. The course will be discussion based and focus on learning through case studies. This course will also prepare students for licensure as PTAs and include a comprehensive exam covering all information taught in the PTA Program. This course may be offered in a distance education format. (CSU transferable)

PTA 20  CLINICAL PRACTICUM I – 4 Units
Grading: Pass/No Pass Option
Prerequisites: PTA 5, PTA 5L, PTA 6, and PTA 6L with a grade of C or higher
Limitation on Enrollment: Students must be enrolled in the PTA Program.
Class Hours: 216 lab total
This course will provide students with the first of three full-time clinical experiences. Students are placed in a clinical setting in order to implement what they have learned in the classroom during semesters one and two. The student will be under the supervision of a licensed physical therapist and have delegated patient care responsibilities. Students will be assigned to various treatment settings (acute, sub-acute, outpatient, skilled nursing or other rehabilitation facilities) and practice procedures appropriate to that setting. In order to participate in PTA 20, students must have successfully completed all of semester one and two core courses. Students must complete 216 hours of verified, supervised field experience in a clinical setting where they are expected to follow a 40 hour work week until hours are completed. The course stresses professional work habits and meeting of required competencies through actual on-the-job performance with a supervisor. The student will practice skills learned throughout the course of the program thus far. Students may repeat through an appeals process. (CSU transferable)

PTA 21  CLINICAL PRACTICUM II – 4.5 Units
Grading: Pass/No Pass Option
Prerequisites: PTA 7, PTA 7L, PTA 8, and PTA 8L with a grade of C or higher
Limitation on Enrollment: Students must be enrolled in the PTA Program.
Class Hours: 243 lab total
This course will provide students with the opportunity to observe and participate in patient care as directed by a clinical instructor. Students will be placed in a clinical setting for a full time (40 hrs/wk), six-week clinical experience where they will apply knowledge and skills learned in semesters one, two and three of the PTA Program. Students will provide care as directed by a licensed physical therapist or physical therapist assistant for uncomplicated and complicated patients with the degree of supervision and guidance based on the patient and the environment. (CSU transferable)

PTA 22  CLINICAL PRACTICUM III – 4.5 Units
Grading: Pass/No Pass Option
Prerequisites: PTA 9, PTA 9L, PTA 10, PTA 10L, and PTA 11 with a grade of C or higher
Limitation on Enrollment: Students must be enrolled in the PTA Program.
Class Hours: 243 lab total
This course will provide students with the opportunity to observe and participate in patient care as directed by a clinical instructor. Students will be placed in a clinical setting for a full time (40 hrs/wk), six-week clinical experience where they will apply knowledge and skills learned in semesters one through four of the PTA Program. Students will provide care as directed by a licensed physical therapist or physical therapist assistant for uncomplicated and complicated patients with the degree of supervision and guidance based on the patient and the environment. Students are expected to provide patient care and fulfill the role of the physical therapist assistant at entry level during this clinical experience. (CSU transferable)

PHYSICS (PHYS)

PHYS 2A  GENERAL COLLEGE PHYSICS – 4 Units
Grading: Pass/No Pass Option
Prerequisite: MATH 102 with a grade of C or higher, or Math Placement Level 4 or higher
Class Hours: 54 lecture/54 lab total (when offered in the distance education format, hours will total 216)
C-ID: PHYS 105
This course provides an introduction to the principles and applications of mechanics, using the mathematical tools of algebra and right triangle trigonometry. Topics include vectors, kinematics, Newton's laws, gravity, energy and momentum, mechanics of rigid bodies, heat, fluids, and simple harmonic motion. This course may be offered in a distance education format. (CSU/UC* transferable)  "UC transfer limit – maximum credit one series between PHYS 2A/B and PHYS 4A/B/C"

PHYS 2B  GENERAL COLLEGE PHYSICS – 4 Units
Grading: Pass/No Pass Option
Prerequisite: PHYS 2A with a grade of C or higher
Class Hours: 54 lecture/54 lab total (when offered in the distance education format, hours will total 216)
C-ID: PHYS 110
This course is a continuation of PHYS 2A, covering mechanical waves (including sound), electricity, magnetism, geometric optics, interference and diffraction and elementary modern physics. This course may be offered in a distance education format. (CSU/UC* transferable)  "UC transfer limit – maximum credit one series between PHYS 2A/B and PHYS 4A/B/C"

PHYS 4A  PHYSICS (MECHANICS) – 4 Units
Prerequisite: MATH 3A with a grade of C or higher, or Math Placement Level 6 or higher
Corequisite: MATH 3B, or previous completion of MATH 3B with a grade of C or higher
Class Hours: 54 lecture/54 lab total (when offered in the distance education format, hours will total 216)
C-ID: PHYS 205
Chapter 4: Courses

The fundamental principles of mechanics are treated within the mathematical framework of elementary differential and integral calculus. Vectors, Newton's Laws, work, energy, gravitation, linear and angular momentum, rotational dynamics, and harmonic motion are discussed. This course may be offered in a distance education format. (CSU/UC transferable) (UC transfer limit – maximum credit one series between PHYS 2A/2B and PHYS 4A/4B/4C

PHYS 4B PHYSICS (ELECTRICITY AND MAGNETISM) – 4 Units
Prerequisites: MATH 3B with a grade of C or higher, or Math Placement Level 7, and PHYS 4A with a grade of C or higher
Corequisite: MATH 4A or, previous completion of MATH 4A with a grade of C or higher.
Class Hours: 54 lecture/54 lab total (when offered in the distance education format, hours will total 216)
C-ID: PHYS 210

The fundamental principles of electricity and magnetism are treated using vector integral calculus. Topics include Coulomb's Law, electric fields, potentials, Gauss's Law, Ohm's Law, D-C circuits, Magnetism, Biot-Savart Law, Ampere's Law, capacitance, inductance and RC circuits. This course may be offered in a distance education format. (CSU/UC transferable) (UC transfer limit – maximum credit one series between PHYS 2A/2B and PHYS 4A/4B/4C

PHYS 4C PHYSICS (HEAT, WAVES, OPTICS, AND MODERN PHYSICS) – 4 Units
Prerequisites: PHYS 4B with a grade of C or higher; and MATH 4A with a grade of C or higher, or Math Placement Level 7
Corequisite: MATH 4B, or previous completion of MATH 4B with a grade of C or higher.
Class Hours: 54 lecture/54 lab total (when offered in the distance education format, hours will total 216)
C-ID: PHYS 215

The third in a three-course sequence, this course covers heat and thermodynamics, general properties of waves, electromagnetic waves, reflection and refraction, interference and diffraction, and selected topics in modern physics. This course may be offered in a distance education format. (CSU/UC transferable) (UC transfer limit – maximum credit one series between PHYS 2A/2B and PHYS 4A/4B/4C

PHYSIOLOGY (PHY)

PHY 1 PHYSIOLOGY – 5 Units (formerly PHY 1/PHY 1L)
Grading: Pass/No Pass Option
Advisory: BIOL 5 with a grade of C or higher
Class Hours: 72 lecture/54 lab total (when offered in the distance education format, hours will total 216 for the lecture portion of the class and an additional 54 hours of lab, totaling 270 hours for this course)
C-ID: BIOL 120 B

Physiology is the study of the physiological principles, function, integration and homeostasis of the human body at the cellular, tissue, organ, organ system and organism level. Topics covered include the integumentary system; bone, skeletal, smooth and cardiac muscles; the nervous system; sensory organs; the cardiovascular system; the lymphatic and immune systems; the respiratory system; the urinary system; the digestive system; the endocrine system; and reproductive system. This course is primarily intended for Nursing, Allied Health, Kinesiology, Dental Hygiene and other health-related majors. The lecture portion of this course may be offered in a distance education format. (CSU/UC transferable)

POLITICAL SCIENCE (POL)

POLS 1 INTRODUCTION TO POLITICAL SCIENCE – 3 Units
Grading: Pass/No Pass Option
Advisory: ENGL 1A with a grade of C or higher, or English Placement Level 7
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: POLS 150

The central emphasis of this course is upon the terms and concepts used in the field of political science. Discussion centers upon the nature of political science, the origin and nature of the State, patterns and functions of government, the nature of political ideologies, the nature of the U.S. Constitution and the basic principles of a constitution. It is recommended that students majoring in political science or other social sciences take this course. This course may be offered in a distance education format. (CSU/UC transferable)

POL 2 INTRODUCTION TO AMERICAN GOVERNMENT – 3 Units
Advisory: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: POLS 110

This course is an introduction to United States and California government and politics, including their constitutions, political institutions and processes, and political actors. An examination of political behavior, political issues, and public policy, this course satisfies the CSU requirement in U.S. Constitution and California State and local government (US-2 and US-3). This course may be offered in a distance education format. (CSU/UC transferable)

POL 20 POLITICS OF THE DEVELOPING WORLD – 3 Units
Grading: Pass/No Pass Option
Advisory: ENGL 1A with a grade of C or higher, or English Placement Level 7
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course focuses on the political dynamics of selected developing nations. Major emphasis will be on problems of poverty, colonialism, comparative political structures and behavior, imperialism and international relations. Tensions in political culture between traditional and non-traditional values in contemporary developing societies will also be examined. This course may be offered in a distance education format. (CSU/UC transferable)

POL 25 INTRODUCTION TO INTERNATIONAL RELATIONS – 3 Units
Grading: Pass/No Pass Option
Advisory: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher; and POLS 2 with a grade of C or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: POLS 140

This course examines the political, social, and economic methods and processes by which nations of the world conduct relations with each other and within a global system. The course also identifies the role of national, international, transitional, and subnational institutions. This course may be offered in a distance education format. (CSU/UC transferable)

PSYCHOLOGY (PSYC)

PSYC 1A GENERAL PSYCHOLOGY – 3 Units
Advisory: ENGL 190 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: PSY 110

This course provides an introduction to psychology as a science and as an applied field. The course provides an introduction of physiological, cognitive, social-behavioral, psychodynamic, humanistic, cultural, and evolutionary perspectives. Topics include research methods, the nervous system, perception, learning, thinking, memory, human development, social behavior, emotions, motivation, personality, abnormal behavior, and psychotherapy. This course may be offered in a distance education format. (CSU/UC transferable)

PSYC 5 HUMAN SEXUALITY – 3 Units (formerly PHY 5)
Grading: Pass/No Pass Option
Advisory: ENGL 196 with a grade of C or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: PSY 130

This overview of human sexuality includes human development from conception to adulthood, the anatomy and physiology of sex, as well as historical perspectives, behavioral and social aspects of human sexuality, and myths and laws governing sexual practices. This course may be offered in a distance education format. (CSU/UC transferable)
PSYC 14 PSYCHOLOGY OF PERSONAL AND SOCIAL ADJUSTMENT – 3 Units
Advisor: ENGL 190 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: PSY 115

This course provides an overview of psychology as applied to modern life. It focuses on using psychological perspectives and concepts toward understanding one’s self and development, relating to others, and coping with everyday challenges. Topics include personality, stress, health, emotions, interpersonal relations, gender, sexuality, mental illness, and psychotherapy. This course may be offered in a distance education format. (CSU/UC transferable)

PSYC 15 SOCIAL PSYCHOLOGY – 3 Units
Grading: Pass/No Pass Option
Advisor: PSYC 1A and/or SOC 1 with a grade of C or higher; and ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: PSY 170

This course is a study of human interaction. The focus is on the individual within a social context. Topics such as attitude formation; conformity; obedience to authority; liking and loving; gender, age, and cultural diversity; prejudice, discrimination, and stereotyping; pro-social behavior and altruism; aggression; power and leadership; groupthink and deindividuation; and conflict resolution and peacemaking are explored. In addition, the research methods and theories used by social psychologists are discussed. This course may be offered in a distance education format. (CSU/UC transferable)

PSYC 17 ABNORMAL PSYCHOLOGY – 3 Units
Grading: Pass/No Pass Option
Advisor: PSYC 1A with a grade of C or higher; and ENGL 1A with a grade of C or higher, or English Placement Level 7
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: PSY 120

This course provides an overview of psychological disorders, their characteristics, etiology, and treatment. The course discusses the many specific types of mental illness along with fundamental issues such as historical and modern perspectives on mental illness, diagnosis and assessment, research methods, intervention and therapies, and legal and ethical issues. This course may be offered in a distance education format. (CSU/UC transferable)

PSYC 20 CROSS-CULTURAL PSYCHOLOGY – 3 Units
Grading: Pass/No Pass Option
Advisor: PSYC 1A and ENGL 196 with a grade of C or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course is an introduction to cultural influences on human behavior, emotions and patterns of thinking. Topics span a range of issues such as life-span development, abnormal behavior and mental health, drug use, self-concept, emotions, gender expectations and gender roles, social behavior, perception, learning, intelligence, and psychotherapy. By providing students with an understanding of cultural relativism, this course will encourage them to interact with tolerance and appreciation in a world where there is an increasing contact among different cultures. This course may be offered in a distance education format. (CSU/UC transferable)

PSYC 25 INTRODUCTION TO RESEARCH METHODS – 3 Units
Prerequisite: MATH 14 and PSYC 1A with a grade of C or higher
Advisor: ENGL 1A with a grade of C or higher, or English Placement Level 7
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: PSY 200

This course surveys various psychological research methods with an emphasis on research design, experimental procedures, descriptive methods, and the collection, analysis, interpretation, and reporting of research data. Research design and methodology will be examined through a review of research in a variety of areas of psychology. This course may be offered in a distance education format. (CSU/UC transferable)

PSYC 41 CULTURAL/SOCIAL CONTEXT OF CHILDHOOD – 3 Units
Advisor: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course examines child development with a focus on the effects of cultural and social factors. These factors include the socialization process and cultural influences such as ethnic identity, socioeconomic status, gender roles, family, peers, faith, and community. Significant references highlight the experiences of children and their families from several different historically under-represented groups. This course may be offered in a distance education format. (CSU/UC transferable)

PSYC 46 HUMAN MEMORY AND LEARNING - 3 Units
Grading: Pass/No Pass Option
Advisor: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course explores human memory, learning, and thinking. Topics include how memories are formed and retrieved, how learning and memory can be improved, factors that influence our abilities to learn and remember, learning new habits and behaviors through conditioning, and typical and atypical memory flaws, including disorders such as post-traumatic stress disorder, Alzheimer’s disease, and amnesia. This course may be offered in a distance education format. (CSU/UC transferable)

PSYC 94 PSYCHOLOGY WORKSITE LEARNING – 1-8 Units
Limitation on Enrollment: Financial aid students must maintain concurrent enrollment in seven (7) units which include worksite learning units. Students not receiving financial aid do not need to enroll in other courses in order to participate in Worksite Learning Classes.
Class Hours: 75 hours paid or 60 hours non-paid per unit

The Psychology Worksite Learning course allows the student to gain on-the-job experience through employment/volunteerism at an approved psychology job site that is acquired by the student and related to the student’s major. A faculty member supervises all WSL courses to ensure that the work experience is of educational value. The course stresses good work habits and meeting of competencies through actual on-the-job performance. A student may earn up to 16 units through repeating this course since course content varies and skills are enhanced by supervised repetition and practice. A maximum of 8 units may be earned in a single semester. 75 hours of paid work, or 60 hours of unpaid (volunteer) work earns one semester unit. (CSU transferable)

PSYC 401 INDUSTRIAL-ORGANIZATIONAL PSYCHOLOGY – 3 Units
Prerequisite: PSYC 1A with a grade of C or higher
Limitation on Enrollment: Students must be admitted to the Health Information Management program
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)

This course provides an introduction to the field of industrial-organizational (I-O) psychology. This branch of psychology studies work behavior, and workplace issues facing individuals, teams, and organizations. The course includes an overview of research methods used in I-O psychology, an exploration of theory and research findings, and the application of I-O psychology to practical problems in the workplace. This course may be offered in a distance education format.

R

REGISTERED NURSING (REGN)
See Also: HEOC, VOCN

REGN 15 HEALTH AND ILLNESS I – 6.5 Units
Corequisite: REGN 15P
Limitation on Enrollment: Students must be enrolled in the Associate Degree Nursing program
Class Hours: 117 lecture total (when offered in the distance education format, hours will total 351)

REGN15 is the introductory course which serves as the foundation for
subsequent program courses for the Associate Degree Nursing Program and is one of two co-requisite courses that comprise the first semester. The focus is on foundational concepts necessary for safe, client-centered nursing care to a diverse client population from adolescence through older adult while integrating professional, legal, and ethical responsibilities of the nurse. The course addresses health promotion; introduces critical thinking applied to nursing; the nursing process; communication techniques; evidence-based nursing practice; and nursing informatics. The course may be offered in a distance education format. (CSU transferable)

**REGN 15P PROFESSIONAL NURSING PRACTICUM I – 5.5 Units**

**Corequisite:** REGN 15  
**Limitation on Enrollment:** Students must be enrolled in the Associate Degree Nursing program  
**Class Hours:** 297 lab total (when offered in the distance education format, hours will total 297)

REGN 15P provides introduction to and practice of nursing skills and concepts in the lab and clinical setting to gain proficiencies for delivery of client-centered care for the Associate Degree Nursing Program and is one of two co-requisite courses that comprise the first semester. An on-campus lab designed for structured practice and mastery of nursing skills necessary for providing safe care is utilized. This course provides instructional guidance to assist students in refining newly acquired skills and develop the competency level expected of foundational nursing students. A portion of this course may be offered in a distance education format. (CSU transferable)

**REGN 25 HEALTH AND ILLNESS II – 6.5 Units**

**Prerequisites:** REGN 15 and REGN 15P with a grade of C or higher  
**Corequisite:** REGN 25P  
**Class Hours:** 117 lecture total (when offered in the distance education format, hours will total 351)

REGN 25 is one of the required courses for the Associate Degree Nursing program at Shasta College and one of two co-requisite courses that comprise the second semester. The student will begin to build the foundation of Medical-Surgical Nursing. Concepts of family, community, health promotion, illness prevention, teaching, cultural sensitivity, nursing process, and critical thinking are promoted. The emphasis of the course is on adult and geriatric medical-surgical clients with acute and/or chronic illness in the inpatient and outpatient setting. This course may be offered in a distance education format. (CSU transferable)

**REGN 25P PROFESSIONAL NURSING PRACTICUM II – 5.5 Units**

**Prerequisites:** REGN 15 and REGN 15P with a grade of C or higher  
**Corequisite:** REGN 25P  
**Class Hours:** 297 lab total (when offered in the distance education format, hours will total 297)

REGN 25P is one of the required courses for the Associate Degree Nursing program at Shasta College and one of two co-requisite courses that comprise the second semester. Concepts of family, community, health promotion, illness prevention, teaching, cultural sensitivity, nursing process, and critical thinking are integrated into clinical practice. The emphasis of the course is on adult and geriatric medical-surgical clients with acute and/or chronic illness in the inpatient and outpatient setting. Knowledge and skills acquired in lecture-discussion and in simulation and skills laboratories are applied in medical-surgical settings. A portion of this course may be offered in a distance education format. (CSU transferable)

**REGN 35 HEALTH AND ILLNESS III – 3.5 Units**

**Prerequisites:** REGN 25 and REGN 25P with a grade of C or higher  
**Corequisites:** REGN 35P, REGN 36, and REGN 36P  
**Class Hours:** 63 lecture total (when offered in the distance education format, hours will total 189)

REGN 35 is a required course for the Associate Degree Nursing program at Shasta College. This course is one of four co-requisite courses that make up the Medical-Surgical portion of the third semester of the Associate Degree Nursing program. Students will expand the fundamental clinical nursing skills they mastered. Advanced psychomotor skills will be introduced. Students will have a variety of client assignments in medical-surgical care, with special assignments in diagnostic imaging areas. Students will progress from providing nursing care for a single client to providing care for several increasingly complex clients. Emphasis is placed on the integration of theory and the nursing process into the clinical setting by use of organizational tools, clinical papers, nursing care planning, chart review, and clinical conferences. A portion of this course may be offered in a distance education format. (CSU transferable)

**REGN 35PX PROFESSIONAL NURSING PRACTICUM III – 2.5 Units**

**Corequisite:** REGN 35X  
**Limitation on Enrollment:** Students must be enrolled in the 30-unit option program  
**Note:** This is the course for the non-degree, 30-unit option student  
**Class Hours:** 135 lab total

REGN 35PX is a required course for the Associate Degree Nursing Program at Shasta College. This course is one of four co-requisite courses that make up the Medical-Surgical portion of the third semester of the Associate Degree Nursing program. Students will expand the fundamental clinical nursing skills they mastered. Advanced psychomotor skills will be introduced. Students will have a variety of client assignments in medical-surgical care, with special assignments in diagnostic imaging areas. Students will progress from providing nursing care for a single client to providing care for several increasingly complex clients. Emphasis is placed on the integration of theory and the nursing process into the clinical setting by use of organizational tools, clinical papers, nursing care planning, chart review, and clinical conferences. (CSU transferable)

**REGN 35X HEALTH AND ILLNESS III – 3.5 Units**

**Corequisite:** REGN 35PX  
**Limitation on Enrollment:** Students must be enrolled in the 30-unit option program  
**Note:** This is the course for the non-degree, 30-unit option student  
**Class Hours:** 63 lecture total (when offered in the distance education format, hours will total 189)

REGN 35X is a required course for the Associate Degree Nursing Program at Shasta College. This course is one of four co-requisite courses that make up the Medical-Surgical portion of the third semester of the Associate Degree Nursing program. Students will expand the fundamental clinical nursing skills they mastered. Advanced psychomotor skills will be introduced. Students will have a variety of client assignments in medical-surgical care, with special assignments in diagnostic imaging areas. Students will progress from providing nursing care for a single client to providing care for several increasingly complex clients. Emphasis is placed on the integration of theory and the nursing process into the clinical setting by use of organizational tools, clinical papers, nursing care planning, chart review, and clinical conferences. (CSU transferable)

**REGN 36 MATERNAL-CHILD AND PEDIATRIC NURSING – 3.5 Units**

**Prerequisites:** REGN 25 and REGN 25P with a grade of C or higher  
**Corequisites:** REGN 35, REGN 36, and REGN 36P  
**Class Hours:** 135 lab total (when offered in the distance education format, hours will total 189)

REGN 36 is one of the required courses for the Associate Degree Nursing program at Shasta College and one of four co-requisite courses that comprise the third semester of the Associate Degree Nursing program. The course provides the conceptual basis of nursing care for obstetrical, neonatal, pediatric, and adolescent clients and their families in acute and community-based settings. Concepts emphasized include family, communication, health promotion, illness prevention, teaching, cultural sensitivity, growth and development, nursing process, critical thinking, legal-ethical issues, and advocacy. This course may be offered in a distance education format. (CSU transferable)

**REGN 36P PROFESSIONAL NURSING PRACTICUM: MATERNAL-CHILD AND PEDIATRIC CARE – 2.5 Units**

**Prerequisites:** REGN 25 and REGN 25P with a grade of C or higher
REGN 48 HEALTH AND ILLNESS IV: COMMUNITY, MENTAL HEALTH, AND MEDICAL-SURGICAL NURSING – 6 Units
Prerequisites: REGN 35, REGN 35P, REGN 36, and REGN 36P with a grade of C or higher
Corequisite: REGN 48P
Class Hours: 108 lecture total (when offered in the distance education format, hours will total 324)

REGN 48P PROFESSIONAL NURSING PRACTICUM IV: COMMUNITY, MENTAL HEALTH, AND MEDICAL-SURGICAL NURSING – 6 Units
Prerequisites: REGN 35, REGN 35P, REGN 36, and REGN 36P with a grade of C or higher
Corequisite: REGN 48
Class Hours: 324 lab total (when offered in the distance education format, hours will total 324)

REGN 48PX PROFESSIONAL NURSING PRACTICUM IV: COMMUNITY, MENTAL HEALTH, AND MEDICAL-SURGICAL NURSING – 6 Units
Prerequisites: REGN 35X and REGN 35PX with a grade of C or higher
Corequisite: REGN 48X
Limitation on Enrollment: Student must be enrolled in the 30-unit option program. This is the course for the non-degree, 30-unit option student.
Class Hours: 324 lab total

REGN 48X HEALTH AND ILLNESS IV: COMMUNITY, MENTAL HEALTH, AND MEDICAL-SURGICAL NURSING – 5 Units
Prerequisites: REGN 35X and REGN 35PX with a grade of C or higher
Corequisite: REGN 48PX
Limitation on Enrollment: Student must be enrolled in the 30-unit option program. This is the course for the non-degree, 30-unit option student.
Class Hours: 108 lecture total (when offered in the distance education format, hours will total 324)

REGN 48X is a required course for the Associate Degree Nursing program at Shasta College and one of two corequisite courses that comprise the fourth semester. The course provides the conceptual basis for advanced medical-surgical, mental health, and community health nursing, and fundamental concepts of nursing leadership. The emphasis of the course is on nursing process and critical thinking related to care of the client in a variety of settings, and the current leadership issues involved in nursing practice. This course may be offered in a distance education format. (CSU transferable)

SKILLS DEVELOPMENT (SDEV)

SDEV 301 PRE-GED TEST PREPARATION – 0 Units
Advisory: English Placement Level 2 or higher
Class Hours: 54-108 lab total
This is a course to prepare the student at the 6th- to 8th-grade reading level for GED (General Educational Development Test) level work and to enable students to apply the knowledge gained to real-life situations. Course content includes study and test-taking practice in the areas of reading, writing, social studies, science and mathematics. The purpose of this class is for the student to tackle GED-level work. This course may be offered in a distance education format.

SDEV 302 GED TEST PREPARATION – 0 Units
Advisory: SDEV 301 with a grade of C or higher
Class Hours: 54-108 lab total
This is a course to prepare the student to pass the General Educational Development (GED) Test and to enable students to apply the knowledge gained to real-life situations. Course content includes study and test-taking practice in the areas of reading, writing, social studies, science and mathematics. The purpose of this class is for the student to successfully pass all four parts of the current GED examination. This course may be offered in a distance education format.

SOCIOLOGY (SOC)

SOC 1 INTRODUCTION TO SOCIOLOGY – 3 Units
Grading: Pass/No Pass Option
Advisory: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: SOCI 110
This course provides an introduction to the discipline of sociology. It examines interactions among social institutions, cultures, groups, and individuals. The focus is on how unequal power relations organize the social world and shape individual lives, and how individuals negotiate their lives in different social, cultural, and economic contexts. The course will examine a broad array of topics using a variety of theoretical perspectives and sociological research methods. The primary goal of this course is to recognize how people's experiences are shaped by social forces and reshaped through human action. This course may be offered in a distance education format. (CSU transferable)

SOC 1H INTRODUCTION TO SOCIOLOGY – HONORS – 3 Units
Advisory: ENGL 196 with a grade of C or higher, or English Placement
This is an honors-level sociology course. It examines the interactions among social institutions, cultures, groups, and individuals. This course will focus on how unequal power relations organize the social world and shape individual lives, and how individuals negotiate their lives in different social and economic contexts. The course will examine a broad array of topics using a variety of theoretical perspectives and sociological research methods. The primary goal of this course is to recognize how people’s experiences are shaped by social forces and reshaped through human action. The honors component involves an in-depth analysis of specific topics, using current information from research journals and is more rigorous than SOC 1. This course may be offered in a distance education format. Students cannot receive credit for both SOC 1 and SOC 1H. (CSU/UC transferable)

**SOC 2 SOCIAL PROBLEMS – 3 Units**
Grading: Pass/No Pass Option
Advisory: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: SOCI 115

This course explores significant social problems in contemporary society, including the role of power in defining social problems. It examines the process of how social problems arise in society, and their consequences. As an introduction to this topic, the course will focus on understanding how and why social problems develop and the controversies that accompany them. The course will be organized into three main units. The first will consider different theoretical perspectives as well as social science research methods used to identify and understand social problems. The second unit of the course will examine specific social problems associated with the relationship between social inequality and social structure. The third unit of the course will discuss institutional and organizational policies that develop as a result of social problems and the outcomes of those social policy approaches. This course may be offered in a distance education format. (CSU/UC transferable)

**SOC 30 SOCIOLOGY OF GENDER – 3 Units**
Advisory: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: SOCI 140

Gender is arguably the most salient characteristic determining one’s place in any society. Gender is the first thing you notice about another person and your assessment of a person’s gender shapes your expectations of that person. These expectations (which are often requirements) place very real constraints and limitations on individuals. The sociology of gender focuses on the social construction of gender. Other theories of gender such as biological explanations will be discussed in comparison to the social constructionist approach. The course will begin with an examination of key theoretical approaches to the study of gender. Special attention will be paid to how gender is constructed at the level of society as well as how we engage in the recreation and construction of gender in our everyday lives. Gender will be explored as an institution and a system as well as how it influences individuals. Because gender does not exist in a vacuum, gender will be discussed in relation to its intersection with other social locations such as race, class, sexuality, age, and ethnicity. The differential effects of gender along these lines will be discussed and highlighted through all of the applied topics. This course may be offered in a distance education format. (CSU/UC transferable)

**SOC 94 SOCIOLOGY WORKSITE LEARNING – 1–8 Units**
Grading: Pass/No Pass Option
Limitation on Enrollment: Financial aid students must maintain concurrent enrollment in seven (7) units which include worksite learning units. Students not receiving financial aid do not need to enroll in other courses in order to participate in Worksite Learning Classes.
Class Hours: 75 hours paid or 60 hours non-paid per unit

The Sociology Worksite Learning course allows the student to gain on-the-job experience through employment/volunteerism at an approved job site. Students are responsible for arranging placement that is related to their major. A faculty member supervises all WSL courses to ensure that the work experience is of educational value. The course stresses good work habits and meeting of competencies through actual on-the-job performance. A student may earn up to 16 units through repeating this course since course content varies and skills are enhanced by supervised repetition and practice. A maximum of 8 units may be earned in a single semester. 75 hours of paid work, or 60 hours of unpaid (volunteer) work earn one semester unit. (CSU/UC transferable)

**SPANISH (SPAN)**

Two years of high school foreign language with grades of “C” or better is equivalent to one semester of foreign language at Shasta College.

**SPAN 1 SPANISH 1 – 5 Units**
Grading: Pass/No Pass Option
Advisory: ENSP 280 with a grade of C or higher, or English Placement Level 5 or higher
Class Hours: 80 lecture total (when offered in the distance education format, hours will total 270)
C-ID: SPAN 100

This introductory course is designed to give the student thorough and intensive practice in speaking and listening to Spanish and reading and writing in Spanish, with special emphasis on grammar and pronunciation. The course will focus on communicative competence in situations relating to daily routines, home life, college life, and everyday activities such as meeting and describing people; finding out about schedules, directions, and locations; discussing weather, eating, and holidays. Students are introduced to the culture of Spanish-speaking people in general and to specific customs and cultural characteristics of various Spanish-speaking countries. A portion of this course may be offered in a distance education format. (CSU/UC transferable)

**SPAN 2 SPANISH 2 – 5 Units**
Grading: Pass/No Pass Option
Prerequisite: SPAN 1 with a grade of C or higher, or Foreign Language Placement Level 2 or higher
Advisory: ENSP 280 with a grade of C or higher, or English Placement Level 5 or higher
Class Hours: 90 lecture total
Chapter 4: Courses

SPAN 1 SPANISH 1 – 3 Units
Grading: Pass/No Pass Option
Prerequisite: None
Advisory: ENGL 280 with a grade of C or higher, or English Placement Level 5 or higher
Class Hours: 54 lecture total
C-ID: SPAN 100
This course is a continuation of SPAN 1. There is continued emphasis on listening to and reading Spanish (receptive skills) and on speaking and writing Spanish. Students expand their language skills and vocabulary. Students also improve their ability to ask and answer questions and to discuss current events, health, food, travel, leisure time and activities, and shopping. The course will focus on communicative competence in situations relating to the aforementioned areas and also to art, music, commerce, family, and the future. Students learn to express themselves in Spanish regarding these topics as they relate to the culture of Spanish-speaking people in general and to some specific Spanish-speaking countries. (CSU/UC transferable)

SPAN 3 SPANISH 3 – 4 Units
Grading: Pass/No Pass Option
Prerequisite: SPAN 2 with a grade of C or higher, or Foreign Language Placement Level 3 or higher
Advisory: ENGL 280 with a grade of C or higher, or English Placement Level 5 or higher
Class Hours: 72 lecture total
C-ID: SPAN 200
This course is a continuation of SPAN 2. SPAN 3 includes a compact, detailed review of first-year material as well as new vocabulary and expansion of first-year principles, development of more advanced communication and composition skills, and verb tenses and structures. This course offers extensive conversational exercises with stress on correct pronunciation. The course also includes an introduction to Spanish and Latin American literature and further discussion of the arts in general, particularly as they relate to the culture of Spanish-speaking countries. (CSU/UC transferable)

SPAN 4 SPANISH 4 – 4 Units
Grading: Pass/No Pass Option
Prerequisite: SPAN 3 with a grade of C or higher, or Foreign Language Placement Level 4
Advisory: ENGL 280 with a grade of C or higher, or English Placement Level 5 or higher
Class Hours: 72 lecture total
C-ID: SPAN 210
This course is a continuation of SPAN 3. SPAN 4 (along with SPAN 3) comprises a compact, detailed review of first-year material as well as new vocabulary and expansion of first-year principles, development of more advanced communication and composition skills, and a more comprehensive overview of verb tenses and structures. This course offers extensive conversational exercises with stress on correct pronunciation. The course also includes further discussion of Spanish and Latin American literature and of the arts in general, particularly as they relate to the culture of Spanish-speaking countries. (CSU/UC transferable)

SPAN 11 ELEMENTARY SPANISH CONVERSATION – 3 Units
Grading: Pass/No Pass Option
Prerequisite: SPAN 1 with a grade of C or higher
Class Hours: 54 lecture total
Development of conversation and writing skills. Review of vocabulary and language structures through discussions, conversations, readings and brief compositions dealing with everyday topics, current events, and culture of Spanish-speaking people. (CSU transferable)

SPAN 12 INTERMEDIATE SPANISH CONVERSATION – 3 Units
Grading: Pass/No Pass Option
Prerequisite: SPAN 2 with a grade of C or higher
Class Hours: 54 lecture total
Further development of conversation and writing skills. Review of Spanish vocabulary, pronunciation, and language structure through discussions, conversations, readings, and brief compositions dealing with current events, global issues, and culture of Spanish-speaking people. (CSU transferable)

SPAN 19 SPANISH AND LATIN AMERICAN CIVILIZATION – 3 Units
Grading: Pass/No Pass Option
Prerequisite: SPAN 2 with a grade of C or higher, or Foreign Language Placement Level 3
Advisory: ENGL 280 with a grade of C or higher, or English Placement Level 5 or higher
Class Hours: 54 lecture total
Analysis of Latin American and Spanish-speaking culture: Discussion and writing in Spanish with the objective of developing greater command of the spoken language through building vocabulary, improving pronunciation, and expressing ideas in a more natural manner. (CSU/UC transferable)

SPAN 151 SPANISH VOCABULARY (formerly SPAN 151AB) – 3 Units
Grading: Pass/No Pass Option
Advisory: ENGL 280 with a grade of C or higher, or English Placement Level 5 or higher
Class Hours: 54 lecture total
This course will help those students who want to learn Spanish vocabulary and grammar in order to facilitate very basic communication in everyday workplace and social situations. Students are introduced to pronunciation and minimum essentials of Spanish grammar. This course is a survey of basic vocabulary, numbers (1-1000), and some vocabulary useful in the workplace. It includes practice of simple phrases, intense practice in comprehending simple phrases, and practice in responses to simple phrases given within the context of a professional or vocational situation.

SPAN 155 SPANISH FOR MEDICAL PROFESSIONALS – 2 Units
Grading: Pass/No Pass Option
Class Hours: 36 lecture total
This course is designed to help health care workers in the United States assess, treat, reassure and educate their Spanish-speaking clients/patients. This course facilitates better communication between health care providers and the growing Spanish-speaking population in the United States and in Northern California. Course topics include the building of the patient-practitioner relationship, understanding the patient's chief complaint, taking medical history and current symptoms, and learning about cultural factors affecting the health care provided to Spanish speakers and the workers that care for them.

SPEECH
See CMST for course listings

STUDENT DEVELOPMENT (STU)

STU 1 COLLEGE SUCCESS – 3 Units (formerly GS 1)
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This course is designed to help students increase their academic potential and begin learning and applying strategies for success in college and life-long learning. Topics include discovering personal and academic goals, self-discovery, study strategies, critical thinking, communication skills, and college resources and policies. This course may be offered in a distance education format. (CSU/UC* transferable)
*UC transfer limit – maximum credit one course between STU 1 and STU 20

STU 20 TRANSFER SUCCESS – 1 Unit
Grading: Pass/No Pass Option
Note: UC Credit Limitation: Maximum of 3 units of credit if student takes both STU 20 and STU 1
Class Hours: 18 lecture total (when offered in the distance education format, hours will total 54)
This course promotes academic success by providing students with information that will clarify the transfer process, identify support services on campus, and assist them in developing a comprehensive transfer plan. Topics include a review of higher education options, the process for determining a major, applications and admissions timelines, and criteria for establishing educational goals. This course may be offered in a distance education format. (CSU/UC* transferable)
*UC transfer limit – maximum credit one course between STU 1 and STU 20

STU 40 GETTING CONNECTED TO YOUR UNIVERSITY – 1 Unit
Grading: Pass/No Pass Only
Class Hours: 18 lecture total (when offered in the distance education format, hours will total 54)
Course most appropriate for students who are concurrently enrolled in a baccalaureate degree program. This course orient the new university student to their institution’s student services, educational policies and procedures, instructional resources, and key personnel. Course will highlight effective strategies for accessing resources as online-only or evening program students. The course places emphasis on developing
personal goals for success in the university environment. This course may be offered in a distance education format. (CSU transferable)

**STU 41 CAREER FOCUS – 1 Unit**  
Grading: Pass/No Pass Only  
Class Hours: 18 lecture total (when offered in the distance education format, hours will total 54)  
Course is most appropriate for students who have identified their academic interest. The course places emphasis on developing an effective “Education Plan” and building students with the skills required to be an effective tutor; including an understanding of learning theories and strategies, learning styles, learning disabilities, effective communication, competence in a multicultural context and how to plan and structure a tutoring session. This course may be offered in a distance education format. (CSU transferable)

**STU 44 CAREER WORKSITE READINESS – 1 Unit**  
Grading: Pass/No Pass Only  
Class Hours: 18 lecture total (when offered in the distance education format, hours will total 54)  
Course most appropriate for students who are concurrently enrolled in a baccalaureate degree program. Students will develop a specific plan for entry into and for long-term success in their chosen career. Students will identify industry and employer expectations in their chosen field, effective workplace/industry attitudes, and develop professional communication skills. The course places emphasis on maximizing learning opportunities throughout one’s career and the development of effective networking skills. This course may be offered in a distance education format. (CSU transferable)

**STU 45 GRADUATE/PROFESSIONAL STUDENT SUCCESS – 1 Unit**  
Grading: Pass/No Pass Only  
Class Hours: 18 lecture total (when offered in the distance education format, hours will total 54)  
Course most appropriate for students who are concurrently enrolled in a baccalaureate degree program. This course promotes academic success by providing students with information that will clarify the graduate school process and assist them in developing a comprehensive post-baccalaureate plan. Topics include a review of post-baccalaureate options, predictors of success, and personal goals for success in the university environment. This course may be offered in a distance education format. (CSU transferable)

**STU 50 GETTING CONNECTED: AN ORIENTATION TO COLLEGE – 0.5-1 Unit (formerly GS 50)**  
Grading: Pass/No Pass Option  
Class Hours: 9-18 lecture total (when offered in the distance education format, hours will total 27-54)  
This course includes an orientation to the educational opportunities, programs and services available at Shasta College as well as the procedures for accessing them. In the one unit version of the course, students will deepen their sense of educational purpose and commitment through developing an “Connections for Success.” This course is appropriate for all students. It fulfills the orientation requirement for priority registration. This course may be offered in a distance education format. (CSU transferable)

**STU 70 COLLEGE STUDY AND LEARNING SKILLS – 1 Unit (formerly ENGL 171)**  
Grading: Pass/No Pass Option  
Class Hours: 18 lecture total (when offered in the distance education format, hours will total 54)  
Designed to help non-traditional and traditional students to develop learning skills and to achieve the greatest amount of competency in their college class work, this course will help students to take notes effectively, read and study course materials, prepare for exams, and complete written assignments. This course may be offered in a distance education format.

**STU 90 CAREER CHOICE – 1 Unit (formerly GS 90)**  
Grading: Pass/No Pass Only  
Class Hours: 18 lecture total (when offered in the distance education format, hours will total 54)  
A course designed for students who are undecided about their educational and/or career goals. Through a series of group exercises, and career development testing, students learn to identify personal values, interests, skills, aversions, and personality patterns and understand how they relate to choices in the world of work. Students learn to access occupational information, develop decision-making skills and set career goals. This course may be offered in a distance education format. (CSU transferable)

**STU 91 21st CENTURY WORKPLACE SKILLS – 3 Units**  
Grading: Pass/No Pass Option  
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)  
This course is designed to increase awareness and competency of the employability skills that have been identified as essential in today’s dynamic workplace environment. These skills, which are broadly applicable across job titles and industries, are designed to complement those obtained in both technical and general education programs. The goal of the course is to support student success in their work-based learning opportunities, including work-site learning, internships, and service-learning projects. The course will open with a review of the changing global economy, the rise of entrepreneurism, and how employability skills can increase students’ competitiveness in the workplace. The course will then cover the top ten skills that have been identified to support career and college readiness. These include adaptability, analysis/solution mindset, collaboration, communication, digital fluency, entrepreneurial mindset, empathy, resilience, self-awareness, and social/diversity awareness. The course will close with sections transitioning to the workforce. This course may be offered in a distance education format. (CSU transferable)

**STU 92 WORKSITE READINESS (formerly GS 92) – 1 Unit**  
Grading: Pass/No Pass Only  
Class Hours: 18 lecture total (when offered in the distance education format, hours will total 54)  
Designed to prepare students to be successful on the job. Students will gain insight into employer expectations, effective workplace attitudes, developing job-related communication skills, conflict resolution, and managing stress. Emphasis will be placed on maximizing learning opportunities in the workplace, the development of effective networking skills, personal skills/acquisition plan, and building a job search campaign. This course may be offered in a distance education format. (CSU transferable)

**STU 93A TUTOR TRAINING: LEVEL I – 1 Unit**  
Grading: Pass/No Pass Only  
Class Hours: 18 lecture total (when offered in the distance education format, hours will total 54)  
This class provides students with techniques and strategies for peer tutoring and supplemental instructional support. Students will leave the class with the skills required to be an effective tutor; including an understanding of learning theories and strategies, learning styles, learning disabilities, effective communication, competence in a multicultural context and how to plan and structure a tutoring session. This course may be offered in a distance education format. (CSU transferable)

**STU 301 COLLEGE SUCCESS WORKSHOP SERIES – 0 Units**  
Grading: Pass/No Pass Only  
Class Hours: 1-28 lecture total (when offered in the distance education format, hours will total 1-28)  
This course is a series of workshops designed to develop strategies for student success. This course may be offered in a distance education format.

**STU 310 GENERAL TUTORING LAB/SUPERVISED TUTORING – 0 Units (formerly GS 310)**  
Class Hours: 1-954 lab total (when offered in the distance education format, hours will total 1-954)  
This course provides tutoring assistance to increase the probability of a student’s successful completion of his or her educational objectives. Upon faculty/counselor referral, student will receive tutoring in designated subject areas in various tutoring labs on campus. Cumulative progress and attendance records will be maintained for this noncredit, open entry course. Hours will vary depending upon individual student’s needs. This course may be offered in a distance education format.
THTR 1 INTRODUCTION TO THEATRE ARTS – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: THTR 111
This course is a survey of Theatre Arts, theatre history, playwrights, practitioners, genres, production methods, dramatic structure, performance style, plays, terminology, history, criticism, and stagecraft. Students will develop an appreciation for the theatre arts through lectures, play reading, viewing, critiquing, and participating in college productions. This course fulfills the Arts requirement for General Education Transfer. This course may be offered in a distance education format. (CSU/UC transferable)

THTR 2 INTRODUCTION TO THEATRE ARTS – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
Prerequisite: THTR 12 with a grade of C or higher
Class Hours: 54 lab total
C-ID: THTR 151 (with THTR 12)
This laboratory course follows Acting I and Acting II and continues the exploration of theories and techniques used in preparation for the interpretation of drama through acting. The emphasis will be placed on deepening the understanding of the acting process through character analysis, monologues, and scenes. (CSU/UC transferable)

THTR 3 DIRECTING – 3 Units
Class Hours: 90 lecture total
C-ID: THTR 201
This course is designed to introduce the student to the background, function and techniques of the stage director. Included in the course will be an investigation of the principles involved in script selection and interpretation, the fundamentals of casting, rehearsal techniques, blocking, aims and conduct, rehearsal scheduling, and the preparation of a director's prompt book. Students should have previous experience in theatre performance and production. (CSU/UC transferable)

THTR 4 PRODUCTION LAB – 1 Unit
Grading: Pass/No Pass Option
Prerequisite: THTR 12 with a grade of C or higher
Class Hours: 27 lab total
C-ID: THTR 152 (with THTR 12)
This course prepares a student to apply basic acting theory to performance and develops the skills of interpretation of drama through acting. Special attention is paid to skills for performance: memorization, step movement, vocal production, and interpretation of text. This course may be offered in a distance education format. (CSU/UC transferable)

THTR 5 20TH CENTURY MULTICULTURAL THEATRE – 3 Units
Advisory: ENGL 196 with a grade of C or higher, or English Placement Level 6 or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
This is a survey course in trends and developments of 20th Century theatre. Major playwrights (Ibsen, Chekov, Beckett), personalities (Craig, Artaud), and theatre innovators (Brecht) of this century will be examined. Mainstream and avant-garde influences as well as the impact of technology on plays and performances will be discussed. Playwrights, directors and acting teachers of different cultures, countries and genders are studied. This course fulfills the Humanities requirement for General Education Transfer. This course may be offered in a distance education format. (CSU/UC transferable)

THTR 6 SCENIC DESIGN – 3 Units
Class Hours: 45 lecture/27 lab total
C-ID: THTR 171
This course focuses on the technical principles of theatrical productions. Subjects covered include the use of basic power tools, the design, construction and painting of scenery, hanging and operating lighting instruments, basic stage management and understanding stagecraft operations. Students will learn how to interpret theatrical construction diagrams, floor plans for stage sets, and light plots. (CSU/UC transferable)

THTR 7 COSTUMING – 3 Units
Class Hours: 36 lecture/36 lab total
C-ID: THTR 172
This course focuses on stage costume and costumes for the production. Students will learn how to interpret theatrical construction diagrams, floor plans for stage sets, and light plots. (CSU/UC transferable)

THTR 8 HISTORY OF WORLD THEATRE I – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: THTR 113
This is a survey course of Theatre History emphasizing cultural, historic, and international theatre from its origins through the 17th Century. It includes exploration of experience, imagination, and expression of dramatic art forms throughout the world. Topics include historical relevance and context, text analysis, acting style, theme, language, diction, set, audience, gender issues, special effects, cultural significance, and production stylization. This course may be offered in a distance education format. (CSU/UC transferable)

THTR 9 HISTORY OF WORLD THEATRE II – 3 Units
Class Hours: 54 lecture total
This a survey course of Theatre History emphasizing cultural, historic, and contemporary theatre from 1700 to the present. It includes exploration of experience, imagination, and expression in dramatic art forms throughout the world. Topics include historical development and context, text analysis, acting style, theme, language, diction, set, audience, gender issues, special effects, and cultural significance. (CSU/UC transferable)

THTR 10 THEATRE TECHNIQUES – 3 Units
Class Hours: 45 lecture/27 lab total
This course is designed to introduce the student to the background, function and techniques of the stage director. Included in the course will be an investigation of the principles involved in script selection and interpretation, the fundamentals of casting, rehearsal techniques, blocking, aims and conduct, rehearsal scheduling, and the preparation of a director's prompt book. Students should have previous experience in theatre performance and production. (CSU/UC transferable)

THTR 11 STAGECRAFT – 3 Units
Class Hours: 45 lecture/27 lab total
C-ID: THTR 171
This course focuses on the technical principles of theatrical productions. Subjects covered include the use of basic power tools, the design, construction and painting of scenery, hanging and operating lighting instruments, basic stage management and understanding stagecraft operations. Students will learn how to interpret theatrical construction diagrams, floor plans for stage sets, and light plots. (CSU/UC transferable)

THTR 12 ACTING I – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: THTR 151
This course prepares a student to apply basic acting theory to performance and develops the skills of interpretation of drama through acting. Special attention is paid to skills for performance: memorization, stage movement, vocal production, and interpretation of text. This course may be offered in a distance education format. (CSU/UC transferable)

THTR 13 ACTING II – 3 Units
Prerequisite: THTR 12 with a grade of C or higher
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: THTR 152
This course prepares a student to apply basic acting theory to performance and develops the skills of interpretation of drama through acting. Special attention is paid to skills for performance: memorization, stage movement, vocal production, and interpretation of text. This course may be offered in a distance education format. (CSU/UC transferable)

THTR 14 MAKEUP – 2 Units
Grading: Pass/No Pass Option
Class Hours: 27 lecture/27 lab total (when offered in the distance education format, hours will total 108)
C-ID: THTR 175 (with THTR 38)
This course is designed to introduce the student to the principles and practical application of stage makeup. Emphasis will be given to facial structure, character analysis, makeup selection, application, facial modeling, three-dimensional techniques, false hair, character and corrective makeup. The student will demonstrate his/her understanding through actual application in the classroom and as a member of a makeup crew for a specific play production, special exercise, or project. This course may be offered in a distance education format. (CSU/UC transferable)

THTR 15 MAKEUP LAB – 1 Unit
Prerequisite: THTR 34 with a grade of C or higher
Class Hours: 54 lab total
This course is designed to introduce the student to the principles and practical application of stage makeup. Emphasis will be given to facial structure, character analysis, makeup selection, application, facial modeling, three-dimensional techniques, false hair, character and corrective makeup. The student will demonstrate his/her understanding through actual application in the classroom and as a member of a makeup crew for a specific play production, special exercise, or project. This course may be offered in a distance education format. (CSU/UC transferable)

THTR 16 ACTING LAB – 1 Unit
Grading: Pass/No Pass Option
Prerequisite: THTR 12 with a grade of C or higher
Class Hours: 54 lab total
C-ID: THTR 151 (with THTR 12)
This laboratory course follows Acting I and Acting II and continues the exploration of theories and techniques used in preparation for the interpretation of drama through acting. The emphasis will be placed on deepening the understanding of the acting process through character analysis, monologues, and scenes. (CSU/UC transferable)

THTR 17 MAINSTAGE PRODUCTION I – 1-4 Units
(formerly THTR 23AD)
Class Hours: 54-216 lab total
C-ID: THTR 191
In this fundamental course, students rehearse, prepare and perform a Mainstage play. Play selections vary each time this course is taught. Production activities may include acting, stage management, stage operations, costume, stagecraft, and front of house operations. While the course is required for theatre majors, non-majors are welcome. Students may enroll more than once for this course until reaching the maximum number of 4 total units. (CSU/UC transferable)

THTR 18 MAINSTAGE PRODUCTION II – 1-6 Units
(formerly THTR 26AD)
Class Hours: 54-324 lab total
C-ID: THTR 191
This course focuses on the rehearsal and performance of a major play or musical. Activities may include acting, stage management, stage operations, costume, stagecraft, and front of house operations. Play selections vary each time this course is taught. Students may enroll more than once for this course until reaching the maximum number of 6 total units. (CSU/UC transferable)

THTR 19 DIRECTING – 2 Units (formerly THTR 22EH)
Grading: Pass/No Pass Option
Class Hours: 18 lecture/54 lab total
This course is designed to introduce the student to the background, function and techniques of the stage director. Included in the course will be an investigation of the principles involved in script selection and interpretation, the fundamentals of casting, rehearsal techniques, blocking, aims and conduct, rehearsal scheduling, and the preparation of a director's prompt book. Students should have previous experience in theatre performance and production. (CSU/UC transferable)

THTR 20 STAGECRAFT – 3 Units
Class Hours: 45 lecture/27 lab total
C-ID: THTR 171
This course focuses on the technical principles of theatrical productions. Subjects covered include the use of basic power tools, the design, construction and painting of scenery, hanging and operating lighting instruments, basic stage management and understanding stagecraft operations. Students will learn how to interpret theatrical construction diagrams, floor plans for stage sets, and light plots. (CSU/UC transferable)

THTR 21 MAKEUP – 2 Units
Grading: Pass/No Pass Option
Class Hours: 27 lecture/27 lab total (when offered in the distance education format, hours will total 108)
C-ID: THTR 175 (with THTR 38)
This course is designed to introduce the student to the principles and practical application of stage makeup. Emphasis will be given to facial structure, character analysis, makeup selection, application, facial modeling, three-dimensional techniques, false hair, character and corrective makeup. The student will demonstrate his/her understanding through actual application in the classroom and as a member of a makeup crew for a specific play production, special exercise, or project. This course may be offered in a distance education format. (CSU/UC transferable)

THTR 22 MAKEUP LAB – 1 Unit
Prerequisite: THTR 34 with a grade of C or higher
Class Hours: 54 lab total
This course is designed to introduce the student to the principles and practical application of stage makeup. Emphasis will be given to facial structure, character analysis, makeup selection, application, facial modeling, three-dimensional techniques, false hair, character and corrective makeup. The student will demonstrate his/her understanding through actual application in the classroom and as a member of a makeup crew for a specific play production, special exercise, or project. This course may be offered in a distance education format. (CSU/UC transferable)
This lab course is designed to develop the student’s skills introduced in Theatre 34, Makeup. Emphasis will be given to corrective character analysis, makeup selection and application techniques. The student will demonstrate his/her understanding through actual application in the classroom and as a member of a makeup crew for a specific play production, special exercise, or project. (CSU transferable)

THTR 41 THEATRE LABORATORY – 1-4 Units
(formerly THTR 41AD)
Grading: Pass/No Pass Option
Class Hours: 54-216 lab hours total
C-ID: THTR 192
A laboratory course in which the student will receive supervised practical experience and technical training in theatrical productions. Students may work progressively in one or more of the following areas: scenery construction, fabrication and rigging; console operations; stage management; lighting; sound; costumes; wardrobe; properties; make-up; publicity; house management; concessions; and running crews. Upon approval of the instructor, students may direct and participate in the preparation, rehearsal, and performance of student directed productions. Play selections vary each time this course is taught. Students may enroll more than once for this course until reaching the maximum number of 4 total units. (CSU/UC transferable)

THTR 42 TECHNICAL STAGE PRODUCTION – 1-4 Units
(formerly THTR 42AD)
Grading: Pass/No Pass Option
Class Hours: 54-216 lab total
C-ID: THTR 192
A laboratory course in which the student will participate in one or more of the following technical production areas: scenery construction, set decorations, lighting, sound, costumes, properties, makeup, stage management and publicity. The course will focus on the technical requirements for creating public performances and entertainments. Entertainment selections vary each time this course is taught. Students may enroll more than once for this course until reaching the maximum number of 4 total units. (CSU transferable)

THTR 50 REHEARSAL AND PERFORMANCE – 1-3 Units
(formerly THTR 50AD)
Grading: Pass/No Pass Option
Class Hours: 54-162 lab total
C-ID: THTR 191
A rehearsal and performance course designed to provide experience in creating public performances, including but not limited to improvisation, dance, music, musical reviews and concerts. Entertainment selections vary each time this course is taught. Students may enroll more than once for this course until reaching the maximum number of 3 total units. (CSU transferable)

THTR 51 STAGE PRODUCTION-CHOREOGRAPHY – 1-3 Units
(formerly THTR 51AD)
Grading: Pass/No Pass Option
Class Hours: 54-162 lab total
C-ID: THTR 191
A course that teaches basic stage movement and dance for a stage production, including but not limited to dance, music and concerts. Class projects will include participation in choreography in class or in stage productions. Play selections vary each time this course is taught. Students may enroll more than once for this course until reaching the maximum number of 3 total units. (CSU transferable)

THTR 70 REPERTORY THEATRE – 1, 2, 3, 4, 6, 8, 10 Units
Class Hours: 54-540 lab total (54 hours per unit)
C-ID: THTR 191
In this course students will rehearse and perform one or more works in a repertory theatre format. Students will participate in a theatrical company/ensemble. They will share in the preparation, rehearsal, promotion, and public performance of a series of plays, musicals, or theatrical productions. Class projects and rehearsal activities may include choreography and music elements. Students may enroll more than once for this course until reaching the maximum number of 10 total units. (CSU/UC transferable)

THTR 74 REPERTORY THEATRE – TECHNICAL – 1, 2, 3, 4, 6, or 8 Units
Class Hours: 54-432 lab total (54 hours per unit)
C-ID: THTR 192
This is a laboratory course in which students will gain work experience and training in technical Repertory Theatre practices. Students may work progressively in one or more of the following areas: scenery construction, fabrication, and rigging; console operations; stage management; lighting; sound; costumes; wardrobe; properties; make-up; publicity; house management; concessions; and running crews. Play selections vary each time this course is taught. Students may enroll more than once for this course until reaching the maximum number of 8 total units. (CSU/UC transferable)

THTR 81 SCRIPT ANALYSIS AND PLAYWRITING – 3 Units
Class Hours: 54 lecture total (when offered in the distance education format, hours will total 162)
C-ID: THTR 114
An in-depth examination of the elements of the dramatic script. The course consists of four main areas of investigation: critiquing the script; playwrights; plotting and theatre conventions; creating and analyzing motivated characters. This course will guide the student toward creating scripts and analyzing their problems and help them distinguish drama from the performed theatre - i.e., scenarios for action. This course may be offered in a distance education format. (CSU transferable)

THTR 301 APPLIED THEATRE TECHNIQUES-TECHNICAL – 0 Units (formerly THTR 301AD)
Class Hours: 9-162 lab total
Course is designed to allow involvement in the production of a dramatic event for those with a particular interest in costuming, prop building, makeup, set building, sound and lighting, or other theatre-related technical skills. Students will be exposed to new skills as well as applying skills already learned in a practical manner. This course is designed for older adults and community members to refine their skills in Theatre production.

THTR 302 APPLIED THEATRE – DRAMATIC – 0 Units
Class Hours: 9-162 lab total
This course is designed to allow those interested in appearing in a dramatic presentation to become involved in a specific aspect of that production. Although new skills will be acquired, such as audition techniques, casting practices, orientation to repertory procedures, and introduction to theatre administration, the major emphasis of the class will be directed toward the preparation of a stage production. This course is designed for older adults and community members to refine their performance skills.

VOCATIONAL NURSING (VOCN)
See Also: HEOC, REGN

VOCN 160 FOUNDATIONS OF NURSING PRACTICE – 15 Units
Limitation on Enrollment: Students must be enrolled in the Vocational Nursing Program.
Note: All students participating in clinical rotations must submit proof of drug screening and a background check prior to going into clinical facilities. Students are financially responsible for meeting these requirements according to the established program process.
Class Hours: 144 lecture/378 clinical total* (when offered in the distance education format, hours will total 810)
*Lab hours may be listed as TBA in course schedule. Specific times and meeting location(s) will be provided in the First Class Handout.
VOCN 160 is the beginning sequence of three required courses for the Vocational Nursing Program. The emphasis of this course is development of fundamental nursing skills. Theory content includes role of the vocational nurse, nursing trends, interpersonal relationships, disease processes, and pharmacology. The student practices fundamental nursing skills in the Clinical Skills Laboratory prior to clinical assignment in long-term and acute care settings. This course may be offered in a distance education format.

VOCN 161 NURSING OF ADULTS – 13 Units
Prerequisite: VOCN 160 with a grade of C or higher
Note: If not previously completed, all students participating in clinical rotations must submit proof of drug screening and a background check prior to going into clinical facilities. Students are financially responsible
for meeting these requirements according to the established program process.

Class Hours: 144 lecture/288 clinical total* (when offered in the distance education format, hours will total 702)

*Lab hours may be listed as TBA in course schedule. Specific times and meeting location(s) will be provided in the First Class Handout.

VOCN 161 is the second required course in the Vocational Nursing Program. The emphasis of this course is towards application of the nursing process in acute care settings. Theory content includes care of patients with common medical surgical problems with adaptation to address all age groups. The student develops competence in administration of medications and varied therapeutic skills to assigned patients with safety and increasing confidence. Assignments include practice in the Clinical Skills Laboratory and medical, surgical, and orthopedic areas in acute care settings. Students may be assigned in such optional areas as operating room and recovery room for follow-through experience with their assigned surgical patients and in an ambulatory center. This course may be offered in a distance education format.

VOCN 162 NURSING OF ADULTS AND CHILDREN – 13 Units
(formerly VOCN 161B)
Prequisite: VOCN 161 with a grade of C or higher
Note: If not previously completed, all students participating in clinical rotations must submit proof of drug screening and a background check prior to going into clinical facilities. Students are financially responsible for meeting these requirements according to the established program process.

Class Hours: 144 lecture/288 clinical total* (when offered in the distance education format, hours will total 702)

*Lab hours may be listed as TBA in course schedule. Specific times and meeting location(s) will be provided in the First Class Handout.

VOCN 162 is the last required course in the Vocational Nursing Program. The emphasis of this course is on principles of nursing care for maternity, newborn, pediatric patients, and continuing care of patients with more complex medical surgical problems. Supervision/leadership skill behaviors are introduced in the long-term care setting. Assignments include clinical experience in the acute care, long-term care, home-care setting, medical, surgical, obstetrics (including nursery), pediatrics, acute progressive care, and outpatient clinics. This course may be offered in a distance education format.

W

WATER TREATMENT TECHNOLOGY (WTT)

WTT 94 WATER TREATMENT TECHNOLOGY WORKSITE LEARNING – 1-8 Units
Limitation on Enrollment: Financial aid students must maintain concurrent enrollment in seven (7) units which include worksite learning units. Students not receiving financial aid do not need to enroll in other courses in order to participate in Worksite Learning Classes.

Class Hours: 75 hours paid or 60 hours non-paid per unit

The Water Treatment Technology Worksite Learning course allows the student to gain on-the-job experience through employment/volunteerism at an approved water treatment job site that is acquired by the student and related to the student’s major. A faculty member supervises all WSL courses to ensure that the work experience is of educational value. The course stresses good work habits and meeting of competencies through actual on-the-job performance. A student may earn up to 16 units through repeating this course since course content varies and skills are enhanced by supervised repetition and practice. A maximum of 8 units may be earned in a single semester. (CSU transferable)

WTT 177 INTRODUCTION TO WASTEWATER TREATMENT – 3 Units (formerly NR 177)
Grading: Pass/No Pass Option
Class Hours: 54 lecture total

Designed to provide the student with a general background in the design, operation, and maintenance of water and wastewater treatment plants and to prepare the experienced operator for certification examinations. This course is directed primarily towards entry-level operators, industrial waste inspection, lab technicians, maintenance personnel, and related occupations. Explains how and why treatment of wastewater protects the environment.

WTT 180 INTRODUCTION TO WASTEWATER TREATMENT TECHNOLOGY – 3 Units (formerly NR 180)
Grading: Pass/No Pass Option
Class Hours: 54 lecture total

This course is designed to provide the student with a general background in the design, operation, and maintenance of water treatment plants and prepares the experienced operator for the State Water Treatment Plant Operator Certification examination.

WTT 181 INTERMEDIATE WATER TREATMENT TECHNOLOGY – 3 Units (formerly NR 181)
Advisory: WTT 180 with a grade of C or higher
Class Hours: 54 lecture total

This course covers water supply and treatment, historical development of water quality control practices, water sources, public health aspects of water supply, chemical treatment, and evaluation of the various treatment processes. This course will prepare the experienced operator for certification examinations.

WTT 183 INTERMEDIATE WASTEWATER TREATMENT – 3 Units (formerly NR 183)
Grading: Pass/No Pass Option
Class Hours: 54 lecture total

This course will provide the student with a general background in advanced wastewater treatment processes, and prepare the operator for advanced certification examinations.

WTT 184 SMALL WATER SYSTEMS AND DISTRIBUTION – 3 Units (formerly NR 184)
Advisory: WTT 180 with a grade of C or higher
Class Hours: 54 lecture total

This course provides the student with a general background in the design, operation, and maintenance of small water systems and water distribution systems. It prepares the experienced operator for the State Water Treatment Plant and Distribution Operator Certification Examination.

WTT 186 ADVANCED WASTEWATER TREATMENT – 3 Units
(formerly NR 186 and NR 182)
Grading: Pass/No Pass Option
Advisory: WTT 177 or WTT 183 with a grade of C or higher
Class Hours: 54 lecture total

This course is designed to provide the student with a more in-depth background in the design, operation, and maintenance of wastewater treatment plants and to prepare the experienced operator for higher-level certification examinations.

WELDING TECHNOLOGY (WELD)

WELD 70 BEGINNING WELDING – 3 Units
Note: Students must provide safety glasses and welding gloves, and those materials which are of continuing value outside of the classroom setting. This cost will be explained at the first class meeting.

Class Hours: 27 lecture/81 lab total (when offered in the distance education format, hours will total 162)

A beginning course designed for the student interested in acquiring basic welding skills to be used in a trade or service occupation. Emphasis is placed on oxyacetylene and arc welding in all positions. A portion of this course may be offered in a distance education format. (CSU transferable)

WELD 73 STRUCTURAL STEEL METAL FABRICATION – 3 Units
(formerly WELD 173)
Prerequisite: WELD 70, WELD 170, or WELD 174 with a grade of C or higher
Note: Students must provide safety glasses and welding gloves and those materials which are of continuing value outside of the classroom setting. This cost will be explained at the first class meeting.

Class Hours: 27 lecture/81 lab total (when offered in the distance education format, hours will total 162)

This is a course covering metal fabrication techniques, layout, welding, and the use of metal fabrication equipment. The class simulates on-the-job welding situations. A portion of this course may be offered in a distance education format. (CSU transferable)
WELD 94 WELDING TECHNOLOGY WORKSITE LEARNING – 1-8 Units

Limitation on Enrollment: Financial aid students must maintain concurrent enrollment in seven (7) units which include worksite learning units. Students not receiving financial aid do not need to enroll in other courses in order to participate in Worksight Learning Classes.

Class Hours: 75 hours paid or 60 hours non-paid per unit

The Welding Technology Worksite Learning course allows the student to gain on-the-job experience through employment/volunteerism at an approved welding technology job site that is acquired by the student and related to the student's major. A faculty member supervises all WSL courses to ensure that the work experience is of educational value. The course stresses good work habits and meeting of competencies through actual on-the-job performance. A student may earn up to 16 units through repeating this course since course content varies and skills are enhanced by supervised repetition and practice. A maximum of 8 units may be earned in a single semester. (CSU transferable)

WELD 118 BLUEPRINT AND SPECIFICATION READING (MECHANICAL) – 2 Units (formerly ENGR 118)

Grading: Pass/No Pass Option

Class Hours: 36 lecture total (when offered in the distance education format, hours will total 108)

A beginning blueprint reading class for the student in the metal and mechanical trades. Basic visualization and drawing concepts including orthographic projection, detailing, sketching, and communication skills that are needed for employment are developed in the class. This course may be offered in a distance education format.

WELD 170 INTRODUCTION TO ARC WELDING – 3 Units

Note: Students must provide safety glasses and welding gloves, and those materials which are of continuing value outside of the classroom setting. This cost will be explained at the first class meeting.

Class Hours: 27 lecture/81 lab total (when offered in the distance education format, hours will total 162)

This is a course to advance beginning arc welding skills with an emphasis on SMAW. Power sources, electrode identification, weldability of metals, joint design, air arc, oxyacetylene cutting, and introduction to GTAW and GMAW are covered in this course. Course activities include learning to weld stringer and weave beads, butt and fillet welds in flat, horizontal, vertical, and overhead positions. A portion of this course may be offered in a distance education format.

WELD 171 INTERMEDIATE ARC WELDING – 3 Units

(formerly WELD 171AB)

Advisory: WELD 170 with a grade of C or higher, or equal trade welding experience

Note: Students must provide safety glasses and welding gloves, and those materials which are of continuing value outside of the classroom setting. This cost will be explained at the first class meeting.

Class Hours: 27 lecture/81 lab total (when offered in the distance education format, hours will total 162)

A course to advance arc welding skills with emphasis on vertical and overhead welding. Course activities prepare the student for weld certification and advanced arc welding classes. Weld symbols, aluminum arc and cast iron welding are covered in this course. A portion of this course may be offered in a distance education format.

WELD 174 STRUCTURAL STEEL MIG WELDING – 3 Units

Note: Students must provide safety glasses and welding gloves, and those materials which are of continuing value outside of the classroom setting. This cost will be explained at the first class meeting. Welding is a skill that requires a great deal of hand and eye coordination. Hours of practice are needed to master skills to advance to the next level or become skilled enough for employment.

Class Hours: 27 lecture/81 lab total (when offered in the distance education format, hours will total 162)

GMAW (gas metal arc welding structural steel) stresses certification code welding on plate and structural steel in all positions. Course instruction and related information will include gas metal and flux core arc welding equipment and welding variables, shielding gases, troubleshooting equipment and weld defects, welder certification and welding codes, weld symbols, structural steel identification and welding procedures, and metallurgy. A portion of this course may be offered in a distance education format.

WELD 175 TIG WELDING – 3 Units

Note: Students must provide safety glasses and welding gloves, and those materials which are of continuing value outside of the classroom setting. This cost will be explained at the first class meeting. Welding is a skill that requires a great deal of hand and eye coordination. Hours of practice are needed to master skills to advance to the next level or become skilled enough for employment.

Class Hours: 27 lecture/81 lab total (when offered in the distance education format, hours will total 162)

TIG (tungsten inert gas) is an inert gas welding process also known as Heliaarc which covers aluminum, mild steel, stainless steel, magnesium, and copper welding. The course consists of welding on flat and pipe stock in all positions. Course content will include metals identification and weld symbols. Welding exercises are stressed to develop welding skills. A portion of this course may be offered in a distance education format.

WELD 176 GMAW MIG WELDING (LIGHT GAUGE AND NONFERROUS METAL) – 3 Units

Grading: Pass/No Pass Option

Note: Students must provide safety glasses and welding gloves, and those materials which are of continuing value outside of the classroom setting. This cost will be explained at the first class meeting.

Class Hours: 27 lecture/81 lab total (when offered in the distance education format, hours will total 162)

This course emphasizes developing MIG welding skills on light gauge sheet metal. Course instruction and related instruction will include ferrous and nonferrous metal identification and their welding characteristics, MIG welding applications and variables, inert shielding gases and mixtures, troubleshooting MIG equipment and welds and spot welding. A portion of this course may be offered in a distance education format.

WELD 178 PIPE WELDING FUNDAMENTALS – 3 Units

Prerequisite: WELD 170 or WELD 171 with a grade of C or higher, or previous welding experience as assessed by the instructor

Note: Students must provide safety glasses, welding gloves, and suitable working clothes before they are permitted to weld. Welding is a skill that requires a great deal of hand eye coordination. Hours of practice are needed to master skills to advance to the next level or become skilled enough for employment.

Class Hours: 27 lecture/81 lab total (when offered in the distance education format, hours will total 162)

This is a fundamental course in pipe welding with emphasis on open groove pipe joints using oxyacetylene, arc and inert gas welding process in all positions. A portion of this course may be offered in a distance education format.

WELD 182 ADVANCED ARC WELDING – 1.5 Unit

Prerequisite: WELD 171 with a grade of C or higher, or have equal trade welding experience

Note: Students must provide safety glasses and welding gloves, and those materials which are of continuing value outside of the classroom setting. This cost will be explained at the first class meeting.

Class Hours: 81 lab total (when offered in the distance education format, hours will total 81)

This is an advanced course designed to prepare students to pass structural steel certification in vertical and overhead positions. SMAW (stick) and FCAW (MIG) processes will be used. The goal of this class is to pass the AWS D1.1 welding certificate test. Strict adherence to the testing procedures will be followed. Completion of the class does not guarantee AWS certification unless welding procedure qualification tests are passed. A portion of this course may be offered in a distance education format.

WELD 183 ADVANCED ARC WELDING SPECIALTY LAB – 1.5 Unit

Prerequisite: WELD 182, WELD 184, WELD 186, or WELD 188 with a grade of C or higher, or equal trade welding experience

Note: Students must provide safety glasses and welding gloves, and those materials which are of continuing value outside of the classroom setting. This cost will be explained at the first class meeting. Welding is a skill that requires a great deal of hand and eye coordination. Hours of practice are needed to master skills to advance to the next level or become skilled enough for employment.

Class Hours: 81 lab total (when offered in the distance education format, hours will total 81)

An advanced course designed to prepare students to pass structural
steel certification in vertical and overhead positions. Students can obtain certifications in both the SMAW (Shielded Metal Arc Welding), FCAW (Flux Cored Arc Welding) GTAW (Gas Tungsten Arc Welding) and Pipe Welding. The goal of this class is to pass the AWS D1.1, ASME or API Welding Qualification tests. Strict adherence to the testing procedures will be followed. Completion of the class does not guarantee certification unless welding procedure qualification tests are passed. A portion of this course may be offered in a distance education format.

WELD 184   ADVANCED GTAW (TIG) WELDING – 1.5 Unit
Corequisite: WELD 175, or previous completion of WELD 175 with a grade of C or higher, or have equal trade welding experience.
Note: Students must provide safety glasses and welding gloves, and those materials which are of continuing value outside of the classroom setting. This cost will be explained at the first class meeting. Welding is a skill that requires a great deal of hand and eye coordination. Hours of practice are needed to master skills to advance to the next level or become skilled enough for employment.
Class Hours: 81 lab total (when offered in the distance education format, hours will total 81)

An advanced welding laboratory class with emphasis on vertical and overhead welding. This class is designed for the student interested in improving his/her beginning skills in order to prepare for entry into the job force as a TIG welder. A portion of this course may be offered in a distance education format.

WELD 186   ADVANCED PIPE WELDING – 2 Units
Corequisite: WELD 178, or previous completion of WELD 178 with a grade of C or higher, or have equal trade welding experience.
Note: Students must provide safety glasses and welding gloves, and those materials which are of continuing value outside of the classroom setting. This cost will be explained at the first class meeting. Welding is a skill that requires a great deal of hand and eye coordination. Hours of practice are needed to master skills to advance to the next level or become skilled enough for employment.
Class Hours: 108 lab total (when offered in the distance education format, hours will total 108)

An advanced pipe welding class with emphasis on ASME, AWS, or API certification. Course instruction includes welding codes, pipe classification and identification. Completion of the class does not guarantee certification unless welding procedure qualification tests are passed. A portion of this course may be offered in a distance education format.

WELD 188  ADVANCED GMAW (MIG) WELDING – 1.5 Unit
Corequisite: WELD 174 or WELD 176, or previous completion of WELD 174 or WELD 176 with a grade of C or higher, or have equal trade welding experience.
Note: Student must provide safety glasses and welding gloves, and those materials which are of continuing value outside of the classroom setting. This cost will be explained at the first class meeting. Welding is a skill that requires a great deal of hand and eye coordination. Practice is needed to master skills to advance to the next level of employment.
Class Hours: 81 lab total (when offered in the distance education format, hours will total 81)

An advanced welding laboratory class with emphasis on vertical and overhead welding. This class is designed for the student interested in improving his/her beginning skills in order to prepare for entry into the job force as a GMAW (MIG) welder. A portion of this course may be offered in a distance education format.

WORKSITE LEARNING (WSL)

WSL 94   GENERAL WORKSITE LEARNING – 1-6 Units
Grading: Pass/No Pass Option
Limitation on Enrollment: Financial aid students must maintain concurrent enrollment in seven (7) units which include worksite learning units. Students not receiving financial aid do not need to enroll in other courses in order to participate in Worksite Learning Classes.
Class Hours: 75 hours paid or 60 hours non-paid per unit

General Worksite Learning allows the student to gain on-the-job experience through employment/volunteerism at an approved job site acquired by the student. A faculty member supervises Worksite Learning to ensure that the work experience is of educational value. Worksite Learning stresses good work habits and meeting of competencies through actual on the job performance. A student may earn up to 16 units through repeating this course since course content varies and skills are enhanced by supervised repetition and practice. A maximum of 6 units may be earned in a single semester. (CSU transferable)
Chapter 5: Grading and Academic Standards

Audit

Please see Chapter 1 – Admission and Enrollment Information for details.

Grading

It is the responsibility of the instructor for the assignment of grades in any Shasta College course. To ensure that grading is done consistently and fairly, the instructor shall:

1. Develop a grading procedure prior to the beginning of the course and have this procedure clearly communicated to each student on the first day handout (syllabus) of each course.
2. Establish a grading procedure that shall guarantee the academic integrity of the course at the appropriate level.
3. Once established, adhere to the course grading procedure throughout the semester.
4. Give sufficient evaluations throughout the course to ensure that students are aware of progress and to inform the students of standing in the course.
5. Abide by established examination schedules of the college.
6. Adhere to established deadlines and use appropriate forms for submitting grades to the Records Office.
7. File all grade changes within one (1) year of the original grade being issued.

GRADE CHANGE PROCEDURE

Reference: Title 5, Section 55025

The determination of the student’s grade by the instructor shall be final in the absence of mistake, fraud, bad faith, or incompetence. All changes or modifications to a student record must be requested no later than one year from the end of semester in which the grade was posted. If a grade is found to have been given in error, the incorrect grade will be replaced with the correct grade. An Incomplete (I) may be made up no later than one year following the end of the term in which it was assigned.

See Administrative Procedure 4231 for more information.

GRADE CHANGE APPEAL PROCEDURE

The instructor of the course shall determine the grade to be awarded to each student. The removal or change of an incorrect grade from a student’s record shall only be done upon authorization by the instructor of the course. If a student is not satisfied with an appeal to the instructor of a course, the student may appeal directly to the Division Dean in writing within 30 days of the instructor’s response. If a student is not satisfied with the Dean’s decision, the student may appeal to the Assistant Superintendent/Vice President of Instruction or his/her designee, who will render the final decision.

For more information on appealing a grade, call (530) 242-7659.

See Administrative Procedure 4231 for more information.

Grading Definitions

The course grading procedure is based on the established course objectives according to the following grade definitions:

A – Excellent – Outstanding achievement of the course objectives. (4 grade points per unit)

B – Good – Above average achievement of the course objectives. The quality of work demonstrates a comprehensive knowledge of the subject matter and a marked ability to interpret it. (3 grade points per unit)

C – Fair to Average – Satisfactory or average achievement of the course objectives. The performance fulfills the course requirements in both quality and quantity and meets acceptable standards for graduation. (2 grade points per unit)

D – Less than Satisfactory – Achievement below the course objectives but such that it is not necessary to repeat the course. The level of achievement is not generally satisfactory for advancement in studies in the same or related areas. (1 grade point per unit)

F – Failing – Failure to achieve objectives of the course. The performance is undeserving of course credit. (0 grade points)

P – Pass - Satisfactory achievement of course objectives. Student is passing the course with a “C” or better. (Not used in grade point calculations). See Administrative Procedure 4230 for more information.

FW – Failed-Withdrawal – A student who has both ceased participating in a course sometime after the last day to withdraw from the course without having achieved a final passing grade, and who has not received district authorization to withdraw from the course due to extenuating circumstances may be assigned an “FW.” The FW results in zero grade points and zero units. Students who receive an “FW” may be subject to a return to Title IV calculation.

NP – No Pass – Less than satisfactory or failing; units not counted in grade point average. (“NC” may be assigned for courses prior to 2009).

SP – Satisfactory Progress – Satisfactory Progress toward completion of the course. (This is used for noncredit courses only and is not supplanted by any other symbol).

I – Incomplete – At the instructor’s discretion, incomplete academic work for unforeseeable, emergency and justifiable reasons at the end of the term may result in an “I” symbol being entered in the student’s record. For an incomplete grade assignment to be considered, the student must be passing the course at the time of the emergency. The condition for the removal of the “I” shall be stated by the instructor on an Incomplete Petition and contain the conditions for removal of the “I” and the grade assignment in lieu of its removal. A copy of the Incomplete Petition must be given to the student with a copy on file with Admissions and Records until the “I” is made up or the time limit has passed. A final grade will be assigned when the work stipulated has been completed and evaluated, or when the time limit for completing the work has passed. There is a one-year limit, following the end of the term for which the “I” was assigned, for completion of the terms stated in the written record. The “I” symbol is not used in calculating units attempted for grade points. The student may petition the Scholastic Standards Committee for a time extension due to extenuating circumstances.

NON-EVALUATIVE SYMBOLS DEFINITIONS

AU – Audit – Auditing is to allow students to participate in class activities beyond the course repetition limit; and to allow students to repeat a course with the intent of upgrading needed skills or reviewing course content. Priority will be given to credit-seeking students.

IP - In progress – The “IP” symbol shall be used to denote that the class extends beyond the normal end of an academic term. It indicates that work is “in progress”, but that the assignment of a substantive grade must await its completion. The “IP” symbol shall remain on the student’s permanent record in order to satisfy enrollment documentation. The appropriate evaluative grade and unit credit shall be assigned and appear on the student’s record for the term in which the course is completed. The “IP” shall not be used in calculating grade point averages.

RD - Report Delayed – The “RD” symbol shall be assigned by the registrar only. It is to be used when there is a delay in reporting the grade of a student due to circumstances beyond the control of the student. It is a temporary notation to be replaced by a permanent symbol as soon as possible. “RD” shall not be used in calculating grade point averages.

MW – Military Withdrawal – May be assigned by the registrar when a
student who is a member of an active or reserve United States military service receives orders compelling a withdrawal from courses. Upon verification of such orders, military withdrawal may be assigned at any time after the Add/Drop period. Military withdrawals shall not be counted in progress probation, dismissal calculations, or in calculating the permitted number of withdrawals. In no case, may a Military Withdrawal result in a student being assigned an “FW” grade.

W - Withdrawal - Students may withdraw from a class after the official “drop” date and up through the last day of the fourteenth week or 75% of the term, whichever is less. The notation “W” will appear on the student’s transcript and will not be used in calculation of the grade point average. Excessive “W”s shall, however, be used as factors in probation and dismissal procedures. IT IS THE STUDENT’S responsibility to withdraw or be withdrawn from classes. An instructor may also drop a student during the first 75% of the class for non-participation. Forms are available from Admissions and Records, Students who have not dropped or withdrawn from a class before the end of the fourteenth week or 75% of the term will be assigned a course grade. After this date, students may file a Late Drop Petition due to extenuating circumstances. Before a course grade is posted, the Associate Dean of Student Services or designee may review the petition and may assign a grade of “W” and may refund enrollment fees. After a grade is posted a student may submit an “Extenuating Circumstances” petition to the Scholastic Standards Committee. This Committee may assign a grade of “W” and may refund enrollment fees due to extenuating circumstances.

EW – Excused Withdrawal – May be assigned by the Associate Dean of Student Services or designee to permit a student to withdraw from a course for reasons beyond their control. Upon the receipt of verifiable documentation supporting the request, an EW is applicable when a student withdraws from a course(s) due to reasons beyond their control, which include but are not limited to the following:

- Job transfer outside the geographical region;
- Illness in the family where the student is the primary caregiver;
- An incarcerated student in a California State Prison or County Jail is released from custody or involuntarily transferred before the end of the term (in the case of an incarcerated student, an excused withdrawal cannot be applied if the failure to complete the course(s) was the result of a student’s behavioral violation or if the student requested and was granted a mid-semester transfer);
- The student is the subject of an immigration action;
- Death of an immediate family member; or
- Chronic or acute illness, verifiable accidents, or natural disasters directly affecting the student or other circumstances that make continued attendance in a course(s) impractical.

Verifiable documentation can include, but is not limited to a note from a doctor stating the student is not currently able to complete the work due to illness, employment verification of a new job, a booking report, police report of an accident, or any other documentation that proves the student’s completion of a course is impractical. Impractical is defined in impossible due to reasons beyond the student’s control. The determination shall be made by the Associate Dean of Student Services or designee during the semester before grades are posted. The determination will be made by the Scholastic Standards Committee after grades are posted and no later than the date when the district policy allows a grade change. (See AP 4231)

A student may request to use an “EW” for only one course or all courses in a term depending on the reason for the request. For example, it is possible that a student, based on an illness, is not able to participate in an in-person course but is able to continue with online courses. Individual case facts will be used to determine the continuity of some courses and not others.

An “EW” symbol may be requested by the student at any time during the semester and no later than the date when the college allows a grade change. (See AP 4231) An excused withdrawal shall not be counted in progress probation or dismissal calculations nor shall it be counted toward the permitted number of withdrawals or counted as an enrollment attempt. The financial aid of a student may be affected depending on individual circumstances. A student should consult with the financial aid staff regarding any impact.

See Administrative Procedure 4230 for more information.

Credit for Prior Learning (Alternate Ways to Earn Credit)

ASSESSMENTS OF CREDIT FOR PRIOR LEARNING

Advanced Placement (AP Examination)
Shasta College will award credit to students scoring a 3, 4, or 5 on Advanced Placement examinations as indicated below. Credit is awarded based on the CSU’s “Systemwide Credit for External Examinations” policy, which is updated periodically. Students desiring credit for an AP exam need to have AP test scores sent to the Shasta College Admissions and Records Office from the College Board. Each transfer institution will determine the number of units awarded and the courses satisfied according to individual campus policies. For specific course information, students are encouraged to meet with a counselor.

All CSU campuses will accept the exams shown below toward fulfillment of the designated General Education-Breadth area if the examination is included in a full or subject-area certification. The CSU campus to which the student is transferring determines the total number of units awarded for successful completion of an Advanced Placement examination and the applicability of the examination to other graduation requirements.

The University of California grants credit for all Advanced Placement examinations on which a student scores 3 or higher. The credit may be subject credit, graduation credit, or credit toward General Education or breadth requirements, as determined by evaluators at each campus. Shasta College will certify the units for the IGETC General Education area indicated below.

Please note that transfer institutions may not allow and/or may limit credit by Advanced Placement examination.

### Credit through the College Level Examination Program (CLEP)

A student may submit official College Level Examination Program (CLEP) test results to Shasta College from the College Entrance Examination Board (CEEB). Contact the CEEB for a testing center (Shasta College is not a testing center). CEEB established the program to serve students who have a college-level education developed outside of the classroom (e.g. military experience/training). The following restrictions apply:

- **A scaled score of 50 or higher on a CLEP examination will earn credit for most exams. See chart below for exceptions. (For the older General Exams, a score of 500 or better will earn credit).**

- **Units awarded for satisfactory completion of CLEP examinations will post as electives, except as noted by departmental policy referenced below.**

- **Grades and grade points will not be assigned to CLEP units.**

- **Units awarded through CLEP will not apply toward the 12-unit residency requirement for Shasta College.**

- **The University of California (UC) does not currently accept credit awarded through CLEP.**

- **Where considered by the appropriate department and division, CLEP Examinations may satisfy specific courses or a specific course prerequisite. Contact the appropriate department or Division to determine which, if any, of the examinations may satisfy specific courses or course prerequisites. Minimum scores for Shasta College course equivalencies, where established, may be obtained from Admissions and Records.**

- **Contact the Admissions and Records Office or Counseling for more information.**

- **Shasta College will grant credit for the following CLEP Subject Exams in accordance with the CSU system-wide policy:**
  - College Algebra – Trigonometry/Passing Score: 50/3 semester units
  - Calculus/Passing Score: 50/3 semester units
  - Chemistry/Passing Score: 50/3 semester units

- **For CLEP tests in the same language other than English:**
  - Only one exam score may be applied toward the CSU degree.
  - A passing score higher than 50 is considered “Level II” and earns additional units of credit and placement in Area C2 of GE Breadth.

All CSU campuses will accept the exams shown below toward fulfillment of the designated General Education-Breadth area if the examination is included in a full or subject-area certification. The CSU campus to which the student is transferring determines the total number of units awarded for successful completion of a CLEP examination and the applicability of the examination to other graduation requirements.

Please note that transfer institutions may not allow and/or may limit CLEP credit.

* These units count toward eligibility for admission to CSU. The units may not apply towards Associate Degrees for Transfer (AD-T) or the baccalaureate degree. The units may not all apply toward certification of the corresponding GE-Breadth area. See Executive Orders 1036 and 1100 Revised for details.

** Students seeking certification in GE Breadth prior to transfer must have passed the test before this date.

For more details, visit [www.shastacollege.edu/CPL](http://www.shastacollege.edu/CPL).

Credit by Examination/Assessment

A student may challenge a class by taking an examination and/or assessment. Examinations/Assessments may be taken only once and, if passed, the credit will be posted on the student's permanent academic record. The faculty in each discipline shall determine which courses in their discipline are open for Credit by Exam/Assessment.

Credit by Exam/Assessment forms are available from each Division office. A listing of approved courses can be obtained from the Division office or Admissions and Records.

For more details visit [www.shastacollege.edu/CPL](http://www.shastacollege.edu/CPL).

Credit by Examination/Assessment for Articulated High School Courses

Credit shall be granted via Credit by Exam/Assessment to high school students who earn a grade of “A” or “B” in the articulated high school course.
courses. Any student who successfully completed a high school course that was articulated under the terms of a previous agreement and that meets a requirement outlined above shall be permitted to apply the credit so earned according to the terms of the previous agreement, under the catalog rights at the time the course was taken.

- Courses for which credit is given pursuant to the provisions of this section shall not be counted in determining the 12 semester hours of credit in residence required for an associate degree.
- The student may, optionally, request and complete Credit by Exam/Assessment from the college for these articulated courses. If the student successfully completes the Credit by Exam/Assessment, the course completion information is posted to the student’s transcript along with a notation of Credit by Exam/Assessment.

For more details visit www.shastacollege.edu/CPL.

* Students seeking certification in GE Breadth prior to transfer must have passed the test before Fall 2013.

Students should understand that some transfer institutions do not allow and/or limit credit by examination.

For more details visit www.shastacollege.edu/CPL.

### TRANSFER CREDITS FROM OTHER COLLEGES/UNIVERSITIES

Students may transfer credits completed at another regionally accredited institution to fulfill prerequisite, general education, major, and/or elective unit requirements for the associate degree or certificate programs offered at Shasta College. Incoming transfer credits will only be accepted from institutions accredited by one of the following accrediting bodies:

- Middle States Commission on Higher Education (MSCHE)
- New England Association of Schools and Colleges Commission on Institutions of Higher Education (NEASC-CIHE)
- Northwest Commission on Colleges and Universities (NWCCU)
- North Central Association of Colleges and Schools of The Higher Learning Commission (NCA-HLC)
- Southern Association of Colleges and Schools (SACS) Commission on Colleges
- Western Association of Schools and Colleges of the Accrediting Commission for Community and Junior Colleges (WASC-ACCJC)
- Western Association of Schools and Colleges (WASC)
- Senior College and University Commission of the Accrediting Commission for Community and Junior Colleges (WSCC-UCC)

To be eligible for transfer credit, students must have all official transcripts sent to the Office of Admissions and Records and complete the “Request for Transcript Evaluation” form. Staff will review transcripts and post credits as appropriate to the student’s academic record. Transcripts submitted become the property of the District.

For more details visit www.shastacollege.edu/CPL.

### CREDIT FOR MILITARY SERVICE/TRAINING

Students interested in Credit for Prior Learning using Joint Service Transcripts shall receive credit as recommended by the American Council on Education (ACE) Military Guide and approved by the appropriate discipline faculty of the college. The District will award three (3) units towards Social Science and three (3) units towards General Education (Associate Degree Cat. 5 or CSU Cat. E), with proof of a student’s official completion of Basic Training provided through the United States Armed Forces on a DD-2586, or equivalent, for Service Members not currently discharged, or a DD-214 for Veterans. Credit must be verified. Official transcripts from Military Services Schools must be on file in the Admissions and Records Office. Accepted documents may include:

- Joint Services Transcript (JST)
- Sailor/Marine American Council on Education Registry Transcript (SMART)
- Army and American Council on Education Registry Transcript Service (AARTS)
- Community College of the Air Force (CCAF)
- Coast Guard Institute (CGI)
- DANTES/USAFL, Defense Language Institute Foreign Language Transcripts (DLIFLC)
- Defense Manpower Data Center (DMDC)
- DLPT Examinee Results
- DA Form 330 Language Proficiency Questionnaire, or verified copies of DD214 or DD2295 military records.

In order to receive credit, the student shall complete the Request for Military Training Credit available in the Counseling Center, Veterans Support and Success Center (Veterans Services), Admissions and Records Office, or on the Veterans Services webpage.

- Students who were/are in the United States Air Force or the United States Space Force, who are not eligible for a Joint Service Transcript, should submit a CCAF Transcript along with a Transcript Evaluation Form. The Transcript Evaluation Form can be found on the Admissions and Records webpage.

It is recommended that all new Veterans to Shasta College contact Veterans Services at (530) 242-7705 or (530) 242-7701.

For more details visit www.shastacollege.edu/CPL.

### INDUSTRY RECOGNIZED CREDENTIALS

Students interested in Credit for Prior Learning using industry-recognized credential(s) shall receive credit as recommended by the appropriate department chair or faculty designee.

For more details visit www.shastacollege.edu/CPL.

### STUDENT-CREATED PORTFOLIO

Students interested in Credit for Prior Learning using a student-created portfolio shall receive credit as recommended by the appropriate department chair or faculty designee.

For more details visit www.shastacollege.edu/CPL.

### PRIOR WORK EXPERIENCE

A student having experience related to the program in which they are enrolled may be granted credit for such experience. The credit is applicable only for an Associate degree at Shasta College. Students applying for credit should obtain an application from the Admissions and Records Office.

For more details visit www.shastacollege.edu/CPL.

### Independent Study

Independent study provides a forum for advanced work in a given field of study. A student may contract with a full-time instructor to do independent study in a specific subject area in which the student has exhausted the regular curricular offerings provided that:

99 - Transfer Level Courses* -- The student has a declared
major or already possesses a degree and has completed a minimum of 12 transfer units at Shasta College.

199 - Non-Transfer Level Courses* -- The student has completed a minimum of 12 units at Shasta College

Independent study can be taken for 0.5-3 units. The total hours required are as follows:

- 0.5 units = 27 hours; 1.0 unit = 54 hours; 1.5 units = 81 hours;
- 2.0 units = 108 hours; 2.5 units = 135 hours; and 3.0 units = 162 hours.

*Note: Any combination of these courses may be repeated three times (total of four enrollments) or a maximum of six independent study units.

Forms and additional information are available from your instructor or the Division Office.

**Worksites Learning**

Students who are interested in combining practical work experience with classroom instruction may enroll in a Worksites Learning class. Worksites Learning classes (the complete list of courses provided below) are open entry. This means that the student may enroll throughout the semester, but must complete all work by the end of the semester (per agreement with the instructor). One unit of Worksites Learning credit is granted for each 75 hours of actual on-the-job activity for a paid work position or 60 hours for a non-paid work position of on-the-job activity. It is imperative for the student to determine how many units they should sign up for. This should be worked out with the instructor in the initial orientation meeting and discussed with and academic counselor. If the student is unable to verify enough work hours to meet the units for which they are enrolled, the student will receive an “F” in the course. For example, if a student enrolls in a three (3)-unit worksite learning class and fails to verify 225 paid hours of on-the-job activity by the deadline established by the instructor, the student will receive an “F” in the class. The student has the same withdrawal and add/drop options as for any other course.

The following courses are listed in the catalog under the appropriate disciplines as worksite learning classes. For details, look under the specific prefixes. The classes, units, instructors, and times of the initial orientation meetings for each semester are listed in the current schedule of classes. Not all worksite learning classes are offered every semester.

Please note that it is up to the instructor in the specific discipline to determine if the student’s proposed work assignments are related to the student’s major. If a proposed work assignment is not discipline/major related, credit will not be granted.

Each worksite learning course has a prerequisite or co-requisite. Check the course description for specific information.

*WSL 94 is considered a General Work Experience course for supervised employment that is intended to assist students in acquiring desirable work habits, attitudes and career awareness. The work experience need not be related to the students’ educational goals.

FINANCIAL AID STUDENTS: Students must maintain concurrent enrollment in seven (7) units which may include worksite learning units.

VETERAN STUDENTS: Worksite learning will NOT be paid unless it is required for the student’s major. In addition, veterans receiving veteran’s educational benefits for WSL units MUST register for the appropriate co-requisite in the same semester.

**Pass/No Pass Courses**

Administrative Procedure 4232

Reviewed by the Board of Trustees 11/13/2019
Reference: Title 5, Section 55022

Shasta College shall offer Pass/No Pass (P/NP) courses. Pass/No Pass (P/NP) classes must be so designated in the College Catalog and schedule of classes. The Catalog and schedule must specify into which Pass/No Pass category each course falls.

The two categories are:

1) Courses which are designated as only Pass/No Pass; and
2) Courses in which a student has the option of receiving a grade or taking the course for credit through Pass/No Pass. A student who exercises that option upon registration or no later than the end of the first 30 percent of the term and applies to take a course for Pass/No Pass shall not receive a grade for that course and will receive a “P” for credit or a “NP” for no credit which shall appear on their official transcript of record.

The student is held responsible for all assignments and examinations required in the course. The standards of evaluation are identical for all students in the course.

A pass grade is granted for performance that is equivalent to the letter grade of “C” or better. A student who fails to perform satisfactorily will be assigned a no pass grade. Courses taken for a Pass/No Pass grade are subject to the course repetition conditions described in AP 4225.

Students who are awarded credit (P) in a course shall receive both course credit and the full unit credit for the course. In computing a student’s grade-point average, grades of Pass/No Pass are omitted.

All units of credit earned on a Pass-no Pass basis in accredited California institutions of higher education or equivalent out-of-state institutions shall be counted in satisfaction of this college’s curriculum requirements.

It is the responsibility of the student to be familiar with the Pass/No Pass policy in force at the college or university campus to which they hope to transfer and to comply with that policy.

**Repetition of a Course**

Repetition of a college course is restricted and shall occur only under the following conditions:

For purposes of this policy, an evaluative grade is defined as a grade of A, B, C, D, F, P, NC, NP, or FW.

Repetition of a college course is generally restricted to two repetitions for a total of three enrollments and shall occur under the following conditions:

(a) Students receiving a D, F, FW, W, NC, or NP grade in a course may repeat the course twice without petition. When a course is repeated under this condition, the last evaluative grade earned shall be the grade used in the computation of the student’s grade point average.

(b) In order to repeat a course one time in which an A, B, C or P grade was earned, the student must petition the Scholastic Standards Committee for permission prior to enrolling in the course. When a course is repeated under this condition, the grade awarded shall not be calculated in the student’s grade point average. However, the new grade may be considered by a specific program for admission to that program.

(c) In order to repeat a course a third time (for a total of four enrollments) in which a D, F, FW, W, NC, or NP grade was earned, the student must petition the Scholastic Standards Committee for permission prior to enrolling in the course. When a course is repeated under this condition, the last evaluative grade earned shall be the grade used in the computation of the student’s grade point average.

When course repetition occurs, the student’s permanent academic record shall clearly indicate any courses repeated using an
appropriate symbol and be annotated in such a manner that all work remains legible, insuring a true and complete academic history.

When there has been a significant lapse of time, defined as no less than 36 months, since a student obtained a satisfactory grade in a course, the student may petition the Scholastic Standards Committee to repeat the course. When a course is repeated due to a significant lapse of time, the District may disregard the previous grade and credit when computing a student’s grade point average.

See Administrative Procedures 4225, 4228, and 4229 for more information.

### Scholastic Deficiency

For the purposes of Board Policy, the phrases “units attempted,” “all units,” or “all units attempted,” mean all units of credit for which the student was enrolled at Shasta College regardless of whether the student completed the course or received any credit or grade. This specifically includes all “credit,” “no credit,” “I,” and “W” grades. The word “semester” shall refer to the Fall and Spring terms. The condensed summer session is not considered a “semester.”

### STANDARDS FOR PROBATION

a. **Academic Probation** - A student who has attempted at least 12 semester units as shown by the official academic record shall be placed on academic probation if the student has earned a cumulative grade point average below 2.0 in all units which were graded on the basis of the grading scale described in Administrative Procedure 4230.

b. **Progress Probation** - A student who has attempted at least 12 units as shown by the official academic record shall be placed on progress probation when the percentage of all units in which a student has enrolled and for which entries of “W”, “I”, and “NC” are recorded reaches or exceeds fifty percent (50%).

### NOTIFICATION OF PROBATION

Students placed on academic or progress probation shall be notified of their status no later than 20 working days after the start of the next successive semester.

The letter notifying the student of probation will cover, at a minimum, the significance of being on probation and description of the services available. Students will lose priority registration if they earn a GPA below 2.0 for two or more consecutive semesters completed or if they complete less than 50% of the classes attempted for two or more consecutive semesters.

Students on probation are limited to enrolling in no more than 14 units in the fall and spring and 7 units in the summer.

### REMOVAL FROM PROBATION

a. A student on academic probation for a grade point deficiency shall be removed from probation when the student’s accumulated grade point average is 2.0 or higher.

b. A student on progress probation because of an excess of units for which entries of “W”, “I”, and “NP” are recorded shall be removed from probation when the percentage of units in this category drops below fifty percent (50%).

### EXTENSION OF PROBATION

a. A student on academic probation who earns a grade point average of 2.0 or better for the semester, but whose cumulative grade point average still results in academic probation, shall have his/her probation extended an additional semester prior to dismissal.

b. A student on progress probation who completes more than 50% of all units attempted for the semester, but whose cumulative records still results in progress probation, shall have his/her probation extended an additional semester prior to dismissal.

See Board Policy/Administrative Procedure 4250 for more information.

### Standards for Academic Dismissal

For purposes of this section, semesters shall be considered consecutive on the basis of the student’s enrollment (for example, a fall semester followed by a fall semester shall be considered consecutive if the student was not enrolled in the spring semester of that academic year).

A student who is on academic probation shall be dismissed if the student earned a cumulative grade point average of less than 2.0 in all units attempted and graded in each of three consecutive semesters, including the semester that placed the student on probation (which were graded on the basis of the grading scale described in Administrative Procedure 4230).

A student who has been placed on progress probation shall be dismissed if the percentage of units in which the student has been enrolled for which entries of “W”, “I”, and “NC” (as defined in Administrative Procedure 4230) are recorded in at least three consecutive semesters reaches or exceeds fifty percent (50%) in accordance with Administrative Procedure 4230.

### NOTIFICATION OF DISMISSAL

The Admissions and Records Office shall make every reasonable effort to notify a student of dismissal from Shasta College due to academic disqualification as soon as that information is available following the completion of the semester. If a dismissed student has already enrolled in classes for a fall or spring semester, the Admissions and Records Office will disenroll the student retroactively as of the first day of the new term. The Admissions and Records Office will notify the student in writing of this action. Dismissal does not apply to summer school.

### REINSTATEMENT

A student who has been dismissed from Shasta College because of academic or progress disqualification must meet with a counselor and then file a request for reinstatement with the Admissions and Records Office. A dismissed student may be reinstated after an absence of one or more fall or spring semesters.

a. **Academic Dismissal** - A student who was dismissed because of academic probation must earn satisfactory grades (a grade point average of 2.0 or better) during the semester of reinstatement. A student who does not earn the required grade point average will be dismissed.

b. **Progress Dismissal** - A student who was dismissed because of progress probation must satisfactorily complete more than 50% of all units attempted during the semester of reinstatement. A student who does not complete the required percentage of units will be dismissed.

### APPEAL

Any student may appeal probation or dismissal if that student feels there are special mitigating circumstances. All appeals shall be sent to the Scholastic Standards Committee.

See Administrative Procedure 4255 for more information.

### Withdrawing From a Class with a “W” Grade

Students may withdraw from a class after the official “drop” date and up through the last day of the fourteenth week or 75% of the term, whichever is less. A student may drop a class and have no notation appear on their transcripts through the census date of each class. After the census date of each class and up to 75% of the term, a student may withdraw from a class. The notation “W” will appear on the student’s transcript and will not be used in calculation of grade point average. Excessive “W’s” shall, however, be used as factors in probation and dismissal procedures. An instructor may also drop a student during the first 75% of the class for non-participation.

IT IS THE STUDENT’S RESPONSIBILITY TO WITHDRAW FROM CLASS(E5). Students can drop a class in person at Admissions and Records or Extended Education sites, or online through MyShasta. Students who have not dropped or withdrawn from a class before the end of the fourteenth week or 75% of the term will be assigned a course grade. After this date, students may file a Late Drop Petition due to extenuating circumstances.
Chapter 6: Student Rights and Responsibilities

Academic Freedom
Board Policy 4030

Reviewed by the Board of Trustees 12/12/2018

Reference: Title 5, Section 51023; ACCJC Accreditation Eligibility Requirement 20 and ACCJC Accreditation Standard I.C.7 (formerly II.A.7)

Controversial issues and divergent viewpoints have existed among people throughout the history of civilization. Only in a constitutional republic such as ours has a high degree of freedom of expression been permitted. There must be freedom of the student and teacher to present their viewpoints in and out of the classroom. American democracy is strong enough to stand on its own merits and to survive criticism and comparison with any system so long as its advantages and virtues are not deliberately slighted in such comparisons. However, an atmosphere of responsibility to the students, the College, the community and the nation must accompany these freedoms. To carry out their mutual responsibilities to each other and to insure these principles of academic freedom, the Board of Trustees, the administration and faculty agree to support certain guiding principles and procedures as set forth below.

1. The faculty member shall:
   a. Be entitled to freedom of expression in teaching his/her subjects in the classroom. He/she shall encourage fair examination of controversial questions. He/she shall encourage students, by word and example, to form their own opinions based upon critical judgment and documented facts. In his/her presentation of subject matter to his/her students, he/she shall distinguish between objective facts and his/her personal evaluation of facts.
   b. Be supported in his/her right to participate in legal political activities of the community, state and nation during off-duty hours. No disciplinary action may be brought to coerce him/her for political purposes. (Education Code 13004, 13754). He/she shall permit no outside political activities to interfere with his/her academic duties. He/she should always make clear to audiences that the opinions expressed regarding outside political activities are his/her own and not to be taken as necessarily representing the policies of the College. Be ever cognizant that it is illegal to advocate the overthrow of the Government by force (Education Code 9455). He/she shall make a clear distinction between the description of such philosophies as might fall in that category and the advocacy of such philosophies.
   c. Emphasize the need for maintaining a level of individual integrity and responsibility consistent with good community relations of the College, when associated with student activities that reach beyond the classroom.
   d. Provide a fair platform for the presentation of facts when outside speakers are invited to the classroom on the campus. Such speakers should be free to speak on topics which are relevant to questions being discussed in the classroom or campus situation. It may, at times, be desirable for the faculty members and administration to provide information and viewpoints to rebut opinions expressed by such speakers in order to encourage critical analysis of the questions discussed.

2. Classroom policy regarding the discussion of controversial issues shall be:
   a. That free classroom expression by the instructor and the students be encouraged so long as topics are pertinent to the course being taught. The instructor is careful to be accurate, responsible and aware of the immaturity of some of the students in presenting and discussing controversial topics.
   b. That the instructor avoids prejudicial indoctrination. He/she avoids imposing his/her personal opinion regarding controversial topics through the pressure of his/her authority in the classroom.
   c. That discussion of political or religious concepts is free from restraint so long as it is an integral part of the subject being taught.
   d. That the instructor respects the student’s right to differ in opinion in any discussion of controversial issues, without penalty, attack, or reflection in grading.

Academic Honesty

Academic dishonesty is the fraud and deception for the purpose of improving a grade or obtaining course credit, and includes all student behavior intended to gain or provide unearned academic advantage by fraudulent and/or deceptive means.

The student has the full responsibility for the content and integrity of all academic work submitted. Ignorance of a rule does not constitute a basis for waiving the rule or the consequences of that rule. Students unclear about a specific situation should ask their instructors, who will explain what is and is not acceptable in their classes.

Violation of this policy will result in appropriate disciplinary action. Specific examples of academic dishonesty include but are not limited to:

Taking Information
   a. Copying graded homework assignments from another student.
   b. Working together on a take-home test or homework when not specifically permitted by the instructor.
   c. Looking at another student’s paper during an examination.
   d. Looking at text or notes during an examination when not specifically permitted by the instructor.
   e. Accessing another student’s computer and using his/her data as one’s own.

Providing Information
   a. Giving one’s work to another to be copied or used in an oral presentation.
   b. Giving answers to another student during an examination.
   c. After taking an examination, informing a student enrolled in a later course section of questions that appear on the examination.
   d. Providing a term paper to another student.
   e. Taking an examination, writing a paper, or creating computer data or artistic work for another.

Plagiarism
   a. Failing to give credit for ideas, statement of facts, or conclusions derived by another author. Failure to use quotation marks when quoting directly from another, whether it be a paragraph, a sentence, or a part thereof.
   b. Submitting a paper acquired from a “research” or term paper service.
   c. Copying another person’s assignment and handing it in as one’s own.
   d. Giving a speech or oral presentation written by another and claiming it as one’s own work.
   e. Claiming credit for artistic work done by someone else, such as a music composition, photos, a painting, drawing, sculpture, or design.
   f. Presenting another’s computer data as one’s own.

Other Academic Dishonesty
   a. Planning with one or more fellow students to commit any form of academic dishonesty together.
   b. Having another student take one’s examination or do one’s computer data or lab experiment.
For purposes of catalog rights, continuous attendance means enrollment and completion of a minimum of one course in at least one semester (fall or spring) per academic year. Absence due to attendance at another regionally accredited institution of higher learning shall not be considered an interruption in attendance, if the absence does not exceed two years. Documented military or medical leave will not be considered an interruption of enrollment.

General Education: A course may only count for GE credit if it were taken the year it was approved on the respective CSU GE or IGETC list, regardless of catalog rights. Shasta College may authorize or request substitution for discontinued courses.

Changes to Major/Program of Study requirements: If a student changes their major, the college may require the student to complete the major requirements in effect at the time of the change. Examples include majors which are professionally accredited or those that have undergone significant curricular changes (e.g., Health Sciences, Computer Information Systems). In this situation, a student would be allowed to fulfill major requirements from one catalog year and general education requirements from a different catalog year, if they choose. Students who have been academically disqualified may lose previously established catalog rights. Catalog rights do not apply to entrance requirements for programs (e.g., Nursing). Some programs require students to complete specific courses within an established time frame. In such cases, recency requirements supersede catalog rights.

Catalog rights apply only to Shasta College graduation and program requirements. If other institutions change or have different requirements for entrance, graduation, satisfaction of general education patterns, or in other ways, it may be necessary for the student to meet the new requirements upon transfer, even if continuous enrollment has been maintained.

Drug Free Environment and Drug Prevention Program
Board Policy 3550

Reviewed by the Board of Trustees 04/15/2020

Reference: Drug Free Schools and Communities Act, 20 USC Section 1011; 34 CFR Parts 86.1 et seq.; Drug Free Workplace Act of 1988; 41 USC Section 8103

Students, employees, and all other persons are prohibited from unlawfully possessing, using, or distributing illicit drugs and alcohol while on any District property.

The unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in all facilities under the control and use of the District.

Any student or employee who violates this policy will be subject to disciplinary action (consistent with local, state, or federal law), which may include referral to an appropriate rehabilitation program, suspension, demotion, expulsion, or dismissal.

Drug and alcohol use can have a wide range of direct short-term and long-term negative impacts on users and indirect negative impacts on people around them. Short-term impacts may include unhealthy changes in appetite, alertness, heart rate, blood pressure, and mood stability, leading to outcomes such as heart attack, stroke, psychosis, overdose, and death. Long-term impacts may include development of heart disease, lung disease, cancer, mental illness, HIV/AIDS, hepatitis, and many other conditions. Indirect impacts on others may include unhealthy nutrition, loss of sleep, mood instability, and increased risks of trauma, violence, injury, and communicable diseases. Drug and alcohol abuse has been linked with negative outcomes in education, employment, housing, relationships, and criminal justice involvement (visit the National Institute on Drug Abuse for more information).

The Superintendent/President shall assure that the District distributes annually to each student and employee the information required by the Drug-Free Schools and Communities Act Amendments of 1989 and complies with other requirements of the Act. The information shall
outline the personal consequences and health risks associated with the use of illicit drugs and the abuse of alcohol and be made available publically via the Human Resources webpage.

See Administrative Procedure 3550

**Drug Free Environment and Drug Prevention Program**

Administrative Procedure 3550
Reviewed by the Board of Trustees 04/15/2020

Reference: Drug Free Schools and Communities Act Amendment of 1989, 20 USC Section 1145g; 34 CFR Section 86.1 et seq.; Drug Free Workplace Act of 1988; 41 USC Section 702

The District is committed to providing its employees and students with a drug free workplace and campus environment, emphasizing prevention and intervention through education.

On an annual basis, the District distributes the information required by the Drug-Free Schools and Communities Act Amendments of 1989 to each student and employee. The District is required to inform any agencies that require this drug-free policy within ten (10) business days after receiving notice of a workplace drug conviction.

**Prohibition of Drugs**

The unlawful manufacture, distribution, dispensing, possession, use of alcohol or any controlled substance is prohibited on District property, during District-sponsored field trips, activities or workshops, and in any facility or vehicle operated by the District.

Violation of this prohibition will result in appropriate action, up to and including termination of employment, expulsion, and referral for prosecution, or, as permitted by law, may require satisfactory participation in an alcohol or drug abuse assistance or rehabilitation program.

As a condition of employment, employees must notify the District within five (5) calendar days of any conviction for violating a criminal drug statute while in the workplace. The District is required to inform any other agencies that require this drug-free policy within ten (10) business days after receiving notice of a workplace drug conviction.

**Equal Opportunity**

Shasta College employs policies and procedures to strengthen and guarantee the premise of equal opportunity for all. Specifically, the College:

1. Practices nondiscrimination in academic programs, employment, promotion, transfer, and assignment on the basis of national origin, religion, age, gender, gender identity, gender expression, race or ethnicity, color, medical condition, genetic information, ancestry, sexual orientation, marital status, physical or mental disability, pregnancy, or military and veteran status, or because they are perceived to have one or more of the foregoing characteristics, or based on association with a person or group with one or more of these actual or perceived characteristics.

2. Reviews its policies and procedures to preclude the possibility of unintentional discrimination based on the protected statuses listed above.

3. Maintains the policy that unless specifically exempted by statute, every course, course section, or class (the average daily attendance of which is to be reported for state aid) whenever offered shall be fully open to enrollment and participation by any person who has been admitted to the college and who meets such prerequisites as may be established pursuant to Chapter II, Div. 2, Part IV, Title 5, of the California Code of Regulations, commencing with Section 51820.

**Extenuating Circumstances ( Withdrawal)**

Students who must withdraw from a course or courses after the fourteenth week of class (75% of the term for classes less than a full term) because of extenuating circumstances, verifiable cases of accidents/illnesses, or other circumstances beyond the control of the student, may petition for authorized withdrawals from their classes. Petitions are available on the Admissions and Records webpage.

**Sexual and Other Assaults on Campus**

Board Policy 3540
Reviewed by the Board of Trustees 12/16/2020

Reference: Education Code Sections 67382, 67385 and 67386; 20 U.S. Code Section 1092(f); and 34 code of Federal Regulations Section 668.46(b)(11)

Any sexual assault or physical abuse, including, but not limited to rape as defined by California law, whether committed by an employee, student, or member of the public that occurs on District property, is a violation of District policies and procedures, and is subject to all applicable punishment, including criminal procedures and employee or student discipline procedures consistent with state and federal law.

The Superintendent/President shall establish administrative procedures that ensure that students, faculty, and staff who are victims of sexual and other assaults receive appropriate information and treatment, and that educational information about preventing sexual violence is provided and publicized as required by law.

The procedures for sexual assaults shall meet the criteria contained in EC 67385, 67385.7, and 67386, and 34 Code of Federal Regulations Section 668.46.

**Sexual and Other Assaults on Campus**

Administrative Procedure 3540
Reviewed by the Board of Trustees 12/16/2020

Reference: Education Code Sections 67382, 67385 and 67386; 20 U.S. Code Section 1092(f); 34 Code of Federal Regulations Section 668.46(b)(11)

Any sexual assault or physical abuse, including, but not limited to rape, domestic violence, dating violence, sexual assault, or stalking, as defined by California law, whether committed by an employee, student, or member of the public, occurring on District property, in connection with all the academic, educational, extracurricular, athletic, and other programs of the District, whether those programs take place in the District’s facilities or at another location, or on an off-campus site or facility maintained by the District, or on grounds or facilities maintained by a student organization, is a violation of District policies and regulations, and is subject to all applicable punishment, including criminal procedures and employee or student discipline procedures. (See also AP 5500 titled Standards of Conduct).

“Sexual assault,” “dating violence,” “domestic violence,” and “stalking” are defined in Administrative Procedure 3434 – Responding to Harassment Based on Sex under Title IX.

It is the responsibility of each person involved in sexual activity to ensure that he or she has the affirmative consent of the other or others to engage in the sexual activity. Lack of protest or resistance does not mean consent, nor does silence mean consent. Affirmative consent must be ongoing throughout a sexual activity and can be revoked at any time. The existence of a dating relationship between the persons involved, or the fact of past sexual relations between them, should never by itself be assumed to be an indicator of consent.

“Affirmative consent” means affirmative, conscious, and voluntary agreement to engage in sexual activity.

These written procedures and protocols are designed to ensure victims of domestic violence, dating violence, sexual assault, or
stalking receive treatment and information. (For physical assaults/violence, see also AP 9500, 9510, and 9515).

All students, faculty members or staff members who allege they are the victims of domestic violence, dating violence, sexual assault or stalking on District property shall be provided with information regarding options and assistance available to them. Information shall be available from the Campus Safety Department, which shall maintain the identity and other information about alleged sexual assault victims as confidential unless and until the Director of Campus Safety is authorized to release such information.

The Director of Campus Safety shall provide all alleged victims of domestic violence, dating violence, sexual assault or stalking with the following:

- A copy of the District’s policy and procedure regarding domestic violence, dating violence, sexual assault or stalking;
- A list of personnel on campus who should be notified and procedures for such notification, if the alleged victim consents (the Vice President of Student Services and the Health and Wellness nurse and counselor);
- Information about the importance of preserving evidence and the identification and location of witnesses;
- A description of available services, and the persons on campus available to provide those services if requested. Services and those responsible for provided or arranging them include:
  - Director of Campus Safety or designee who works in partnership with local victim and witness advocacy organizations, and the Shasta College Health and Wellness Office
  - transportation to a hospital, if necessary;
  - counseling available through the Shasta College Health and Wellness Office, or referral to a counseling center;
  - notice to the jurisdictional law enforcement agency, if desired;
  - a list of other available campus resources or appropriate off-campus resources (refer to the Campus Safety webpage for a list of resources).
- A description of each of the following procedures:
  - criminal prosecution;
  - civil prosecution (i.e., lawsuit);
  - District disciplinary procedures, both student and employee;
  - modification of class schedules;
  - tutoring, if necessary.

The Director of Campus Safety should be available to provide assistance to Campus Safety Officers regarding how to respond appropriately to reports of sexual violence.

The District will investigate all complaints alleging sexual assault under the procedures for sexual harassment investigations described in AP 3434 Responding to Harassment Based on Sex under Title IX, regardless of whether a complaint is filed with local law enforcement. The District will use the preponderance of evidence standard (more likely than not that a violation of policy occurred) in evaluating the status of any student or employee disciplinary proceedings or appeal; alleged victims of domestic violence, dating violence, sexual assault, or stalking are required to maintain any such information in confidence, unless the alleged assailant has waived rights to confidentiality consistent with state and federal law.

All alleged victims of domestic violence, dating violence, sexual assault, or stalking on District property shall be kept informed, through the Campus Safety Department and the Vice President of Student Services office of any ongoing investigation. Information shall include the status of any student or employee disciplinary proceedings or appeal; alleged victims of domestic violence, dating violence, sexual assault, or stalking are required to maintain any such information in confidence, unless the alleged assailant has waived rights to confidentiality consistent with state and federal law.

A Complainant or witness who participates in an investigation of sexual assault, domestic violence, dating violence, or stalking will not be subject to disciplinary sanctions for a violation of the District’s student conduct policy at or near the time of the incident, unless the District determines that the violation was egregious, including but not limited to, an action that places the health or safety of any other person at risk.

In the evaluation of complaints in any disciplinary process, it shall not be a valid excuse to alleged lack of affirmative consent that the accused believed that the Complainant consented to the sexual activity under either of the following circumstances:
- The accused’s belief in affirmative consent arose from the intoxication or recklessness of the accused.
- The accused did not take reasonable steps, in the circumstances known to the accused at the time, to ascertain whether the complainant affirmatively consented.

In the evaluation of complaints in the disciplinary process, it shall not be a valid excuse that the accused believed that the complainant affirmatively consented to the sexual activity if the accused knew or reasonably should have known that the complainant was unable to consent to the sexual activity under any of the following circumstances:
- The complainant was asleep or unconscious.
- The complainant was incapacitated due to the influence of drugs, alcohol, or medication, so that the complainant could not understand the fact, nature, or extent of the sexual activity.
- The complainant was unable to communicate due to a mental or physical condition.

The District shall maintain the identity of any alleged victim, witness, or third-party reporter of domestic violence, dating violence, sexual assault, or stalking on District property, as defined above, in confidence, consistent with state and federal law, unless the alleged victim, witness, or third-party reporter specifically waives that right to confidentiality. All inquiries from reporters or other media representatives about alleged domestic violence, dating violence, sexual assaults, or stalking on District property shall be referred to the District’s Superintendent/President or designee, which shall work with Campus Safety to assure that all confidentiality rights are maintained consistent with state and federal law.

Additionally, the Annual Security Report will include a statement regarding the District’s programs to prevent sex offenses and procedures that should be followed after a sex offense occurs. The statement must include the following:
- A description of educational programs to promote the awareness of rape, acquaintance rape, other forcible and non-forcible sex offenses, domestic violence, dating violence, or stalking;
- Procedures to follow if a domestic violence, dating violence, sex offense, or stalking occurs, including who should be contacted, the importance of preserving evidence to prove a criminal offense, and to whom the alleged offense should be reported;
- Information on a student’s right to notify appropriate law enforcement authorities, including on-campus and local police, and a statement that campus personnel will assist the student in notifying these authorities, if the student so requests;
- Information for students about existing on- and off-campus counseling, mental health, or other student services for victims of sex offenses;
- Notice to students that the campus will change a victim’s academic living, transportation and/or working situations after an alleged domestic violence, dating violence, sex offense, or stalking and of the options for those changes, if those changes are requested by the victim and are reasonably available;
- Procedures for campus disciplinary action in cases of an alleged domestic violence, dating violence, sex offense, or stalking including a clear statement that:
  - The accuser and the accused are entitled to the same opportunities to have others present during a disciplinary proceeding; and
  - Both the accuser and the accused must be informed of the outcome of any institutional disciplinary proceeding resulting from an alleged sex offense. Compliance with this paragraph does not violate the Family Educational Rights

The District will use the preponderance of evidence standard (more likely than not that a violation of policy occurred) in evaluating the status of any student or employee disciplinary proceedings or appeal; alleged victims of domestic violence, dating violence, sexual assault, or stalking are required to maintain any such information in confidence, unless the alleged assailant has waived rights to confidentiality consistent with state and federal law.

All alleged victims of domestic violence, dating violence, sexual assault, or stalking on District property, as defined above, in confidence, consistent with state and federal law, unless the alleged victim, witness, or third-party reporter specifically waives that right to confidentiality. All inquiries from reporters or other media representatives about alleged domestic violence, dating violence, sexual assaults, or stalking on District property shall be referred to the District’s Superintendent/President or designee, which shall work with Campus Safety to assure that all confidentiality rights are maintained consistent with state and federal law.

Additionally, the Annual Security Report will include a statement regarding the District’s programs to prevent sex offenses and procedures that should be followed after a sex offense occurs. The statement must include the following:
- A description of educational programs to promote the awareness of rape, acquaintance rape, other forcible and non-forcible sex offenses, domestic violence, dating violence, or stalking;
- Procedures to follow if a domestic violence, dating violence, sex offense, or stalking occurs, including who should be contacted, the importance of preserving evidence to prove a criminal offense, and to whom the alleged offense should be reported;
- Information on a student’s right to notify appropriate law enforcement authorities, including on-campus and local police, and a statement that campus personnel will assist the student in notifying these authorities, if the student so requests;
- Information for students about existing on- and off-campus counseling, mental health, or other student services for victims of sex offenses;
- Notice to students that the campus will change a victim’s academic living, transportation and/or working situations after an alleged domestic violence, dating violence, sex offense, or stalking and of the options for those changes, if those changes are requested by the victim and are reasonably available;
- Procedures for campus disciplinary action in cases of an alleged domestic violence, dating violence, sex offense, or stalking including a clear statement that:
  - The accuser and the accused are entitled to the same opportunities to have others present during a disciplinary proceeding; and
  - Both the accuser and the accused must be informed of the outcome of any institutional disciplinary proceeding resulting from an alleged sex offense. Compliance with this paragraph does not violate the Family Educational Rights

The District will use the preponderance of evidence standard (more likely than not that a violation of policy occurred) in evaluating the status of any student or employee disciplinary proceedings or appeal; alleged victims of domestic violence, dating violence, sexual assault, or stalking are required to maintain any such information in confidence, unless the alleged assailant has waived rights to confidentiality consistent with state and federal law.

All alleged victims of domestic violence, dating violence, sexual assault, or stalking on District property, as defined above, in confidence, consistent with state and federal law, unless the alleged victim, witness, or third-party reporter specifically waives that right to confidentiality. All inquiries from reporters or other media representatives about alleged domestic violence, dating violence, sexual assaults, or stalking on District property shall be referred to the District’s Superintendent/President or designee, which shall work with Campus Safety to assure that all confidentiality rights are maintained consistent with state and federal law.
and Privacy Act. For the purposes of this paragraph, the outcome of a disciplinary proceeding means the final determination with respect to the alleged domestic violence, dating violence, sex offense, or stalking and any sanction that is imposed against the accused.

- Procedures for response to stranger and non-stranger violence.
- A description of the sanctions the campus may impose following a final determination by a campus disciplinary proceeding regarding rape, acquaintance rape, or other forcible or non-forcible sex offenses, domestic violence, dating violence, or stalking.

**Education and Prevention Information**

The Director of Campus Safety shall:

- Provide, as part of each campus’ established on-campus orientation program, education and prevention information about domestic violence, dating violence, sexual assault, and stalking. The information shall be developed in collaboration with campus-based and community-based victim advocacy organizations, and shall include the District’s sexual assault policy and prevention strategies including empowerment programming for victim prevention, awareness raising campaigns, primary prevention, bystander intervention, and risk reduction.

- Post sexual violence prevention and education information on the Campus Safety Department webpage regarding domestic violence, dating violence, sexual assault and stalking.

**Smoking and Tobacco Use Restrictions**

1. No use of tobacco products is permitted within any college owned and/or leased facility.
2. No use of tobacco products is permitted on the grounds of any college-operated athletic field or facility.
3. No use of tobacco products is permitted in college-owned vehicles.
4. The sale of tobacco products on all college-owned and/or leased property is prohibited.

See Board Policy 3570 for more information.

**Speech: Time, Place and Manner**

**Board Policy 3900**

Reviewed by the Board of Trustees 07/10/2019

Reference: Education Code Sections 66301 and 76120

Students, employees, and members of the public shall be free to exercise their rights of free expression, subject to the requirements of this policy.

District property is a non-public forum, except for those areas that are designated as public forums available for the exercise of expression by students, employees, and members of the public. The Superintendent/President shall not prohibit the right of students to exercise free expression, including but not limited to, the use of bulletin boards, the distribution of printed materials or petitions, and the wearing of buttons, badges, or other insignia.

Speech shall be prohibited that is defamatory, obscene according to current legal standards, or which so incites others as to create a clear and present danger of the commission of unlawful acts on District property or the violation of District policies or procedures, or the substantial disruption of the orderly operation of the District.

Nothing in this policy shall prohibit the regulation of hate violence directed at students in a manner that denies their full participation in the educational process (Education Code Section 66301(e)), so long as the regulation conforms to the requirements of the First Amendment to the United States Constitution, and of Section 2 of Article 1 of the California Constitution. Students may be disciplined for harassment, threats, or intimidation, unless such speech is constitutionally protected.

See Administrative Procedure 3900

**Standards of Conduct**

**Board Policy 5500**

Reviewed by the Board of Trustees 02/10/2021

Reference: Education Code Sections 66300 and 66301; ACCJC Accreditation Standard I.C.8 and 10

The Superintendent/President shall establish procedures for the imposition of discipline on students and visitors in accordance with the requirements for due process of the federal and state law and regulations.

The procedures shall clearly define the conduct that is subject to discipline, and shall identify potential disciplinary actions, including but not limited to the removal, suspension, or expulsion of a student.

The Board of Trustees shall consider any recommendation from the Superintendent/President for expulsion. The Board shall consider an expulsion recommendation in closed session unless the student requests that the matter be considered in a public meeting. Final action by the Board on the expulsion shall be taken at a public meeting.

The procedures shall be made widely available to students through the college catalog and other means.

**Code of Conduct**

Students and visitors at any District facility, or event and in any District-provided service or affiliated official capacity are expected to obey all California State laws and all Federal laws which pertain to behavior on a college campus. The following regulations represent reasonable standards of conduct for students and visitors, and shall be followed at all times while on District property or attending District affiliated activities.

The following conduct shall constitute good cause for discipline, including but not limited to the removal, suspension, or expulsion of a student, except for conduct that constitutes sexual harassment under Title IX, which shall be addressed under BP 3433 – Prohibition of Sexual Harassment under Title IX:

- Causing, attempting to cause, or threatening to cause physical injury to another person.
- Possession, sale or otherwise furnishing any firearm, knife, explosives, chemicals or other dangerous object, including but not limited to any facsimile firearm, knife, or explosive, unless, in the case of possession of any object of this type, the student has obtained written permission to possess the item from a District employee, which is concurred in writing by the Superintendent/President.
- Unlawful possession, use, sale, offer to sell, or furnishing, or being under the influence of, any controlled substance listed in Chapter 2 (commencing with Section 11053) of Division 10 of the California Health and Safety Code, an alcoholic beverage, or an intoxicant of any kind; or unlawful possession of, or offering, arranging or negotiating the sale of any drug paraphernalia, as defined in California Health and Safety Code Section 11014.5.
- Committing or attempting to commit robbery or extortion.
- Causing or attempting to cause damage to District property or to private property on campus.
- Stealing or attempting to steal District property or private property on campus, or knowingly receiving stolen District property or private property on campus.
- Willful or persistent smoking in any area where smoking has been prohibited by law or by regulation of the college or the District.
- Committing sexual harassment as defined by law or by District policies and procedures.
• Engaging in harassing or discriminatory behavior based on disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or any other status protected by law.
• Engaging in intimidating conduct or bullying against another student through words or actions, including direct physical contact; verbal assaults, such as teasing or name-calling; social isolation or manipulation; and cyberbullying, or coercion and/or conduct which threatens or endangers the health and safety of any person.
• Willful misconduct which results in injury or death to a student or to college personnel or which results in cutting, defacing, or other injury to any real or personal property owned by the District or on campus.
• Disruptive behavior, willful disobedience, habitual profanity or vulgarity, or the open and persistent defiance of the authority of, or persistent abuse of, college personnel.
• Cheating, plagiarism (including plagiarism in a student publication), or engaging in other academic dishonesty. Academic dishonesty is the willful and intentional fraud and deception for the purpose of improving a grade or obtaining course credit, and includes all student behavior by fraudulent and/or deceptive means. The student has the full responsibility for the content and integrity of all academic work submitted.
• Dishonesty, forgery, alteration or misuse of college documents, records or identification; tampering or any other abuse of computer time and network resources, including but not limited to:
  1. Unauthorized entry into a file to use, read or change the contents, or for any other purpose.
  2. Unauthorized transfer of a file.
  3. Unauthorized use of another individual’s identification and password.
  4. Unauthorized use of phone and electronic devices such as radios, etc.
• Use of computing facilities to interfere with the work of another student, faculty member, or District official.
• Use of computing facilities to send obscene or abusive messages.
• Use of computing facilities to interfere with normal operations of the District computing systems.
• Abuse of the judicial system, including but not limited to:
  1. Failure to obey the summons of a District official.
  2. Falsification, distortion or misrepresentation of information before a hearing officer.
  3. Disruption or interference with the orderly conduct of a judicial proceeding.
  4. Institution of a judicial proceeding knowingly without cause.
  5. Attempting to discourage an individual’s proper participation in, or use of, the judicial system.
  6. Attempting to influence the impartiality of a member of a judicial body prior to and/or during the course of the judicial proceeding.
  7. Failure to comply with the sanction(s) imposed under the Standards of Conduct.
  8. Influencing or attempting to influence another person to commit an abuse of the judicial system.
• Littering.
• Misrepresentation of oneself or of an organization to be an agent of the District.
• Unauthorized preparation, giving, selling, transfer, distribution, or publication, for any commercial purpose, of any contemporary recording of an academic presentation in a classroom or equivalent site of instruction, including but not limited to handwritten or typewritten class notes, except as permitted by any District policy or administrative procedure.
• Persistent, serious misconduct where other means of correction have failed to bring about proper conduct.
• Hazing, defined as an act that endangers the mental or physical health or safety of a student, or which destroys or removes public or private property for the purpose of initiation, admission into, affiliation with or as a condition for continued membership in a group or organization.
• Failure to comply with direction of District officials or law enforcement officers acting in the performance of their duties, and/or failure to identify oneself to one of these persons when requested to do so.
• Unauthorized possession, duplication or use of keys to any District premises or unauthorized entry to or use of District premises.
• Violation of published District policies, rules or regulations.
• Participation in a campus demonstration that disrupts the normal operations of the District and infringes on the rights of other members of the District community; leading or inciting others to disrupt scheduled and/or normal activities within any campus building or area; intentional obstruction that unreasonably interferes with freedom of movement, either pedestrian or vehicular, on campus.
• Obstruction of the free flow of pedestrian or vehicular traffic on District premises or at District sponsored or supervised functions. The use of bicycles, roller blades and skateboards are not permitted in heavy traffic areas or in buildings.
• Conduct that is disorderly, lewd or indecent; habitual profanity or vulgarity; breach of peace; or aiding, abetting or procuring another person to breach the peace on District premises or at functions sponsored by or participated in by the District.

Students who engage in any of the above are subject to the procedures outlined in AP 5520.

See Administrative Procedure 5500

**Student Computer Technology Access**

This is to communicate what other users, instructors, and the District expect of students when using college computer technology and facilities. Failure to conform to these stipulations may result in disciplinary action. Violations of regulations in the use of computer technology will be addressed in accordance with Shasta College Standards of Conduct (BP 5500) and Student Discipline (AP 5520), available for reference in the College Catalog or by requesting a copy from Student Services.

Access to computing resources is a privilege. Use of any Shasta College computer system constitutes agreement to comply with Shasta College Administrative Procedure 3720 for Responsible Computing. Computer technology and facilities are provided for the purpose of completing academic requirements. The District may access, review, copy and disclose information entered or retained in computer technology and communications resources.
1. Students may use the technology and facilities to:
   a. Complete course assignments;
   b. Conduct academic research;
   c. Communicate with faculty and students.

2. User Responsibilities. User responsibilities include, but are not limited to:
   a. Using only their own designated ID, passwords/PIN, and accounts, and keeping IDs, passwords/PIN, and account information confidential. It is recommended that users change their passwords/PIN periodically;
   b. Using software and electronic materials, including shareware, in accordance with copyright, trademark, and licensing agreements and restrictions;
   c. Accurately identifying and representing themselves in electronic messages, files, and transactions;
   d. Saving all work on a flash drive or other removable storage media and not on the hard drive unless instructed to do so by their instructor;
   e. Allowing lab technicians to scan removable media before it is inserted into or otherwise connected to the computer as a precaution to ensure the safety of the computers;
   f. Asking appropriate Shasta College personnel for assistance if unfamiliar with the system software.

3. Prohibitions. Prohibitions include but are not limited to:
   a. Circumventing or attempting to circumvent local, network, or remote security measures;
   b. Unauthorized use of accounts, access codes, passwords, or identification numbers;
   c. Violating copyrights, trademarks, and/or license agreements;
   d. Copying software that has not been placed in the public domain and distributed as freeware; inspecting, changing, altering, copying, or distributing proprietary data programs, files, disks, or software without authorization;
   e. Accessing, using or copying another user's account, ID number, password, electronic files, data, or e-mail without prior authorization; or allowing such use by others;
   f. Falsely identifying and/or representing oneself in the use of computer technology and communications resources;
   g. Altering or attempting to alter system software;
   h. Altering or attempting to alter system hardware without Technology Support approval;
   i. Damaging equipment, data, software, software protection, encryption or restriction on applications and files, including introducing invasive or destructive programs (such as viruses, worms, and Trojan horses);
   j. Modifying or attempting to crash or hack into computer technology or communications resources;
   k. Accessing or attempting to access restricted portions of any operating system or security software;
   l. Installing or removing software;
   m. Using computer technology and/or communications resources for private commercial purposes;
   n. Using District computer technology and communications resources in any unlawful manner including fraudulent, threatening, libelous, obscene, or harassing communications; procuring, or distributing obscene or pornographic material.

The purpose of these administrative procedures is to provide a means to address violations of the Standards of Conduct set forth in Board Policy 5500.

These administrative procedures will include a prompt, fair, and impartial process meant to address violations of the Standards of Student Conduct, which guarantees to the student or students involved the due process rights guaranteed them by state and federal constitutional protections. These procedures are not intended to substitute for criminal or civil proceedings that may be initiated by other agencies and will be used in a fair and equitable manner, and not for purposes of retaliation. These procedures are not considered a legal proceeding.

These Administrative Procedures are specifically not intended to infringe in any way on the rights of students to engage in free expression as protected by the state and federal constitutions, and by Education Code Section 76120, and will not be used to punish expression that is protected.

For discipline resulting from a sexual harassment complaint under Title IX, the procedure in AP 3434 – Responding to Harassment Based on Sex under Title IX, must be used.

I. Definitions:

Discipline Officer: The Assistant Superintendent/Vice President of Student Services or such other official so designated by the Superintendent/President.

District: The Shasta-Tehama-Trinity Joint Community College District.

School Day: Any day during which the District is in session and regular classes are held, excluding Saturdays and Sundays.

Receipt of Notice: A mailed notice is presumed received three (3) calendar days after mailing or earlier if verified by a U.S. Postal Service return receipt signed by the student/individual for whom the notice is intended. A personally delivered notice is presumed received on the date indicated on the delivery acknowledgement signed by the student/individual for whom the notice is intended.

Student: Any person enrolled in any program at the District, either full-time or part-time. Persons who withdraw after allegedly violating the Standards of Conduct are considered “students” for the purposes of these procedures. The Standards of Conduct apply to all locations and activities of the District, including online courses and District-sponsored events.

Instructor: Any academic employee of the District in whose class a student subject to discipline is enrolled, or counselor who is providing or has provided services to the student, or other academic employee who has responsibility for the student's educational program.

Educational Administrator: Any administrator who provides leadership and direction for the operations of the District whose responsibilities include supervision of managers, staff or instructors and the management of the institutional relations among students, faculty and staff.

Good Cause: Any offense defined by Education Code section 76033 and such other causes as set forth in the Standards of Conduct.

Removal from Class: Exclusion of the student by an instructor for the day of the removal and the next class meeting.

Reprimand (Written or Verbal): An admonition to the student to cease and desist from conduct determined to violate the Standards of Conduct. Written reprimands may become part of a student's permanent record at the college. A record of the fact that a verbal reprimand has been given may become part of a student's record at the college for a period of up to one year.

Immediate Interim Suspension (Education Code Section 66017): The immediate suspension of a student when the Discipline Officer or any educational administrator concludes that immediate suspension is required to protect students or others
from injury, to protect property, or to ensure the maintenance of order at the District. In cases where an interim suspension has been ordered, the time limits contained in these procedures shall not apply, and all hearing rights, including the right to a formal hearing where a long-term suspension or expulsion is recommended, will be afforded to the student within (10) school days.

**Short-Term Suspension:** Exclusion of the student for good cause from one or more classes, school activities, and/or all District facilities for a period of up to and including ten (10) school days.

**Long-Term Suspension:** Exclusion of the student for good cause from one or more classes, school activities and/or all District facilities for more than ten (10) school days or from one or more classes for the remainder of the term, or from all classes and activities of the college for one or more semesters.

**Expulsion:** Permanent separation of the student by the Board of Trustees from all courses and activities offered by the District for one or more semesters.

**Withdrawal of Consent to Remain on Campus:** Withdrawal of consent by the Discipline Officer or other officials so designated by the Superintendent/President for any person to remain on campus in accordance with California Penal Code Sections 626.4 where the Discipline Officer has reasonable cause to believe that such person has willfully disrupted the orderly operation of the campus.

**Reinstatement:** In the case of long-term suspensions, a person/student may be required to meet with the Discipline Officer to evaluate their suitability for enrollment or reenrollment. If the Discipline Officer determines that the person/student is not yet suitable for enrollment or reenrollment, a new sanction of suspension may be imposed. If the person/student does not agree with the sanction of suspension, they may submit a written appeal in accordance with Section VII and VIII of these procedures.

### II. Expected Student Conduct

The Standards of Conduct are set forth in BP 5500 and apply to conduct that relates to District activity or District attendance, including conduct that occurs while at District campuses or facilities, or at District-sponsored activities, including before classes begin, after classes end, during the academic year, and during periods between terms of actual enrollment and conduct described in section VI of these procedures. The Standards of Conduct shall apply even if the student withdraws from school while a disciplinary matter is pending.

### III. Sanctions

One or more of the following sanctions may be imposed upon any student found to be in violation of the Standards of Conduct:

1. **Warning:** Verbal notice to the student by the Discipline Officer that the student is violating or has violated the District's Standards of Conduct and that a continuation of the specified conduct by the student may lead to further disciplinary action. The warning will be documented by the Discipline Officer and may become part of the student's record for a period of up to one year.

2. **Reprimand:** A written or verbal admonition to the student by the Discipline Officer to cease and desist from conduct determined to violate the Standards of Conduct. A record that a reprimand has been given shall be documented and may become part of a student's record for a period of up to one year.

3. **Disciplinary Probation:** A written reprimand by the Discipline Officer for violation of a specific provision of the Standards of Conduct that invokes probation for a designated period of time, which includes the possibility of more severe disciplinary sanctions should the student violate any of the Standards of Conduct during the probationary period.

4. **Restitution:** Reimbursement by the student for damage(s), injury or misappropriation of District property or to instructional materials/equipment caused by the students' misconduct. Restitution/reimbursement may be one or more of the following: appropriate service, monetary or material replacement. Pursuant to Title 5 of the California Code of Regulations, Section 59410, students who fail to provide the required restitution will have their grades, transcripts, diplomas, and registration privileges withheld until the financial obligation to the District is satisfied. The Discipline Officer shall provide the student with an opportunity to be heard prior to the imposition of a restitution order.

5. **Removal from Class or Instruction-Related Activity:** Any instructor may order a student removed from their class or instructional activity for the day of the removal and the next class or activity meeting and according to student conduct policies or at the faculty’s discretion. The instructor shall immediately report the removal to the Discipline Officer. The Discipline Officer will arrange for a meeting with the student regarding the removal. The student shall not be allowed to return to the class or instructional activity during the period of the removal without the concurrence of the instructor. Nothing herein will prevent the Discipline Officer from further disciplinary sanctions in accordance with these procedures, and based on the facts which led to the removal. If the student removed is a minor, the Discipline Officer shall ask the parent or guardian of the student to attend a parent conference regarding the removal as soon as possible. If the instructor or the parent/guardian so requests, the Discipline Officer shall attend the conference.

6. **Loss of Privileges:** Denial of privileges that may involve restrictions on class attendance in any instructional format for a designated period of time.

7. **Residence Halls Suspension:** Separation of the student from the Residence Halls for a definite period of time for violation of the Student Residential Housing Agreement or Standards of Conduct after which the student may be eligible to return. Conditions for readmission to the Residence Halls may be specified.

8. **Residence Halls Contract Revocation:** Permanent separation of the student from the Residence Halls for continued or serious violations of the Student Residential Housing Agreement or Standards of Conduct without possibility of readmission, which may also include revoking the privilege to be in or near the Residence Halls for any reason.

9. **District Suspension:** Subject to notice and appeal hearing requirements, separation of the student for good cause from all classes, school activities and/or all District campuses for a definite period of time after which the student may be eligible to return. In the case of long-term suspensions, a person/student may be required to meet with the Discipline Officer to evaluate their suitability for enrollment or reenrollment. If the Discipline Officer determines that the person/student is not yet suitable for enrollment or reenrollment, a new sanction of suspension may be imposed. If the person/student does not agree with the sanction of suspension, they may submit a written appeal in accordance with Section VII and VIII of these procedures.

10. **District Expulsion:** Permanent separation of the student by action of the Board of Trustees from all courses and activities offered by the District.

11. **Revocation of Degree or Certificate:** A degree or certificate awarded by the District may be revoked for fraud, misrepresentation, or other violation of District standards in obtaining the degree or certificate. Such a revocation shall be by action of the Board of Trustees.

12. **Withholding of Degree or Certificate:** The District may withhold awarding a degree or certificate otherwise earned until the completion of the process set forth in these procedures, including the completion of all sanctions imposed.
if accusations of misconduct affect the student’s entitlement to the degree or certificate. Withholding of a degree or certificate shall be by action of the Board of Trustees.

13. Withdrawal of Consent to Remain on Campus: The Discipline Officer or other officials so designated by the Superintendent/President may notify any person for whom there is a reasonable belief that the person has willfully disrupted the orderly operation of the campus that consent to remain on campus has been withdrawn. If the person is on campus at the time, they must promptly leave or be escorted off campus. If consent is withdrawn the Superintendent/President will be notified immediately. The person from whom consent has been withdrawn may submit a written appeal to the Discipline Officer. In no case shall consent be withdrawn for longer than 14 days from the date upon which consent was initially withdrawn.

Any person as to whom consent to remain on campus has been withdrawn who knowingly reenters the campus during the period in which consent has been withdrawn, except to attend a hearing, is subject to arrest (Penal Code sections 626.2 and 626.4).

14. Discretionary Sanctions: Work assignments, essays, service to the District, or other related discretionary assignments that are determined to be appropriate by the Discipline Officer to remedy a violation of the Standards of Conduct or that serve as an educational lesson in response to such a violation.

IV. Discipline Involving Student Groups

Sanctions upon student groups or organizations may be imposed as follows:

1. Those relevant sanctions listed in Section III of these procedures.
2. Loss of selected rights and privileges for a specified period of time.
3. Deactivation: Loss of all privileges, including District recognition, for a specified period of time.

Accusations that a student group or organization has collectively violated the Standards of Conduct, terms that govern the group or organization, or any conditions of District operations, shall be initially reviewed by the Discipline Officer who shall have authority to impose sanctions on the group or organization.

No sanctions shall be imposed until the Discipline Officer has provided the group or organization with a written statement of the accusations and given the group or organization an opportunity to respond.

V. Records of Disciplinary Action

In accordance with Education Code section 76220, the District shall establish, maintain and destroy student records according to regulations adopted by the Board of Governors of the California Community Colleges. The Discipline Officer will create a record of disciplinary actions, along with relevant supporting documents and evidence. This record shall be maintained as a confidential student disciplinary record and may not be released without the permission of the student, except as permitted by law. The student shall have the right to inspect the record and to challenge the contents. Disciplinary records shall be retained in a manner consistent with state law.

In accordance with Education Code section 76234, whenever there is included in any student record, information concerning any disciplinary action taken by the District in connection with any alleged sexual assault or physical abuse or any conduct that threatens the health and safety of the alleged victim, the alleged victim of the sexual assault or physical abuse shall be informed within three (3) days of the results of any disciplinary action by the District and the results of any appeal.

In accordance with the Jeanne Clery Act, the District will disclose the results of any disciplinary proceeding conducted by the District against a student who is the alleged perpetrator of any crime of violence or a non-forcible sex offense to:

- The alleged victim; or
- The alleged victim’s next of kin, if the victim is deceased.

VI. Disciplinary Action Involving Violence, Stalking, and Sex Crimes

Procedures for institutional disciplinary action in cases of alleged dating violence, domestic violence, sexual assault, or stalking will follow a similar process as outlined in AP 5520. All proceedings will be conducted by officials who receive annual training on the issues related to dating violence, domestic violence, sexual assault and stalking and how to conduct an investigation and hearing process that protects the safety of victims and promotes accountability. The accused and the accuser will both be afforded the same opportunities to have others present, including the opportunity to be accompanied to any related meeting or proceeding by an advisor of their choice. The accused and accuser will be notified simultaneously, in writing, of the result of any institutional disciplinary proceeding, the institution’s procedures for the accused and the victim to appeal the result, any changes to the result, and when the results become final.

VII. Discipline Officers Procedures

The following procedures shall be followed before any sanctions are imposed except in the event that an emergency/interim suspension is required as set forth herein.

1. Administration. The Discipline Officer shall administer these procedures and take appropriate action, subject to the approval of the District Superintendent/President and the Governing Board if required herein or otherwise by law.

2. Reporting of conduct. Alleged student misconduct shall be reported to the Discipline Officer within five (5) days of the date on which the conduct took place; in the case of continuous, repeated, or ongoing conduct, it shall be reported within five (5) days of the date on which conduct occurred which led to the decision to take disciplinary action.

3. Investigation. Upon receiving a report of alleged student misconduct, the Discipline Officer shall initiate an investigation.

4. Notice. Within five (5) days of receiving the report, the Discipline Officer shall give the student written notice of the potential Student Code of Conduct violation(s), and shall offer the student an opportunity to attend a meeting. The notice will be sent via personal delivery, email or certified mail to the student’s last known address. The student will be given five (5) school days to respond to the notice. If the student is a minor, the Discipline Officer shall also notify the parent or guardian of the investigation and potential Student Code of Conduct violation(s). The written notice will include the following:

   a. the specific section of the Standards of Student Conduct that the student is accused of violating.
   b. a short statement of the facts supporting the accusation.
   c. the right of the student to meet with the Discipline Officer or designee to discuss the accusation, or to respond in writing.
   d. the nature of the discipline that is being considered.

5. Opportunity to be Heard. The student must contact the Discipline Officer within five (5) school days (as stated above) to schedule a meeting. At the scheduled meeting, the student may present a rebuttal to the accusation or otherwise offer relevant comment on the reported violation(s). If the student fails to arrange such a meeting (or fails to appear for a meeting the student arranged), the decision of the Discipline Officer shall be made without input from the student.
6. **Determination after Meeting.** The Discipline Officer shall decide whether or not to proceed with sanction(s) after hearing the student's explanation and considering all of the information. The Discipline Officer shall send the student a written notice of the determination within three (3) school days after the meeting via personal delivery, email or certified mail to the student's last known address.

7. **Short-Term Suspension Notification.** The Discipline Officer shall send the student a written notice of determination within three (3) school days after the meeting described in subsection (E). The notice shall inform the student of the decision and the length of the suspension, if any. The notice shall also inform the student that the decision is final. The notice shall be hand delivered, emailed or sent via certified mail to the student's last known address.

8. **Long-Term Suspension, Recommendation for Expulsion, Recommendation to Revoke or Withdraw a Degree or Certificate, and/or Withdrawal of Consent to Remain on Campus Notification.** The Discipline Officer shall send the student a written notice of determination within five (5) school days after the meeting described in subsection(s) E and F. The notice shall be hand delivered, emailed or sent via certified mail to the student's last known address. The notification shall include:
   a. A statement of the charges, the reason for the recommended sanctions, and a description of facts related to the misconduct, including the evidence against the student, the date of the incident(s), time of the incident(s), and location of the offense(s);
   b. A copy of the Standards of Conduct;
   c. An explanation that the student for whom sanctions have been recommended is entitled to appeal the decision and has a right to an appeal hearing. The notification shall also state that a request for an appeal hearing must be filed within five (5) school days of the receipt of the notification. The written request for an appeal hearing must be received by the Hearing Authority within five (5) school days and must cite the specific ground(s) for the appeal as described in section VII.A. of these procedures and provide information which substantiates the ground(s) on which the appeal is being made. The failure to request an appeal hearing shall constitute a waiver of the right to an appeal hearing; and
   d. A statement that the student has the right to be accompanied at an appeal hearing by a willing on-campus advisor of their choice. If the student decides to be accompanied by an advisor, the name and address of that advisor shall be submitted to the Hearing Authority at the time the appeal is filed.

9. **Notice to the District's Hearing Authority.** The Discipline Officer shall report all long-term suspensions, recommendations of expulsion, recommendations to revoke or withdraw a degree or certificate, and/or withdrawals of consent to remain on campus to the District's Hearing Authority (the Vice President of Student Services or such other official so designated by the Superintendent/President) and the Superintendent/President within five (5) school days of determination.

10. **Reinstatement.** In the case of long-term suspensions, a person/student may be required to meet with the Discipline Officer to evaluate their suitability for enrollment or reenrollment. If it is determined that the person/student is not yet suitable for enrollment or reenrollment, a new sanction of suspension may be imposed. If the person/student does not agree with the sanction of suspension they may submit a written appeal in accordance with Section VII and VIII of these procedures.

In cases not resulting in long-term suspension, expulsion, or revoking or withholding a degree or certificate, the decision of the Discipline Officer shall be final.

---

**VIII. Hearing Authority's Appeal Procedures**

1. Sanctions of long-term suspensions, expulsions, and/or revoking or withholding a degree or certificate imposed by the Discipline Officer may be appealed, by the student charged, to the Hearing Authority (the Vice President of Student Services or such other official so designated by the Superintendent/President). The request for an appeal must be in writing, must cite the specific ground(s) for the appeal, and must provide information which substantiates the ground(s) on which the appeal is being made. The request must be received by the Hearing Authority within five (5) school days of the student’s receipt of notification of the right to appeal.

**Grounds for appeal.** A student may appeal the decision of the Discipline Officer on the grounds that:

   a. fair consideration was not provided to the student (i.e., there is evidence that some aspect of the meeting with the Discipline Officer was prejudicial, arbitrary, or capricious); or
   b. new and significant information, not reasonably available at the time of the initial meeting, has become available; or
   c. the sanction or remedy imposed is not in due proportion to the nature and seriousness of the offense. Any evidence supporting these grounds must be included in the request for an appeal hearing.

2. Upon receipt from the student of a request to appeal within the time stated above, the Hearing Authority will review the grounds for an appeal, the facts of the Discipline Officer’s findings, and the imposed and/or recommended sanctions. Sanctions imposed and/or recommended by the Discipline Officer may or may not be suspended until such time as the appeal hearing is held.

3. If after the review, the Hearing Authority determines that an appeal is warranted, then the appeal hearing will be conducted with the student within ten (10) school days of receipt of the request to appeal.

4. If after the review, the Hearing Authority determines that an appeal is not warranted in the case of a long-term suspension, the sanctions imposed by the Discipline Officer shall be upheld, and the decision shall be final. The Hearing Authority’s determination shall be sent via certified or registered mail to the student’s last known address.

5. Additional parties and/or witnesses to the violation(s) may be requested by the Hearing Authority to meet.

6. The Hearing Authority may uphold, modify or reject any or all disciplinary sanctions imposed and/or recommended by the Discipline Officer. If the Hearing Authority modifies or rejects any or all sanctions imposed and/or recommended, the Hearing Authority shall prepare a new written decision which contains specific factual findings and conclusions. The Hearing Authority’s decision to uphold, modify or reject the recommended or imposed sanctions shall be sent via certified or registered mail to the student’s last known address.

7. If the student fails to attend the appeal hearing without prior notice of cancellation, or without rescheduling another hearing, the Hearing Authority may uphold, modify, or reject the disciplinary sanctions imposed and/or recommended by the Discipline Officer without input from the student. Sanctions imposed by the Hearing Authority could result in suspension, the recommendation of expulsion and/or revoking or withholding a degree or certificate. In the case of long-term suspension, the Hearing Authority’s decision shall be final.

8. The Hearing Authority shall report all long-term suspensions, recommendations of expulsion, and recommendations to revoke or withhold a degree or certificate for which the Hearing Authority granted and conducted an appeal hearing, to the Superintendent/President within five (5) school days of the
IX. Emergency Interim Suspension

1. The Discipline Officer or any educational administrator may impose an emergency/summary suspension if deemed warranted. It is an extraordinary measure and shall be utilized only when necessary to protect individuals from injury or death, or damage to property, or to ensure the maintenance of order pending an opportunity for the student to be heard.

2. A meeting shall be provided to the student within five (5) school days of an emergency/summary suspension (Education Code section 66017). The procedures set forth in sections VII and VIII shall apply to the meeting and any appeal hearing.

3. An emergency/summary suspension shall be reported immediately to the Superintendent/President and to the Board of Trustees at its next regular meeting after such suspension has been imposed.

X. Superintendent/President

In cases where a sanction of a long-term suspension or withdrawal of consent to remain on campus is imposed, or expulsion and/or revoking or withholding a degree or certificate is recommended, the following shall apply:

1. Long-Term Suspension: If the Hearing Authority grants and conducts an appeal hearing, the student/individual may appeal the imposed sanction of long-term suspension by the Hearing Authority to the Superintendent/President. The written request for an appeal must be received by the Superintendent/President within five (5) school days of receipt of notification of right to appeal. The written request for an appeal must cite the specific ground(s) for the appeal (listed below), and provide information which substantiates the ground(s) on which the appeal is being made. The failure to request an appeal within the five (5) school days shall constitute a waiver of the right to an appeal.

Grounds for appeal. A student may appeal the decision of the Hearing Authority on the grounds that:

a. fair consideration was not provided to the student (i.e., there is evidence that some aspect of the Hearing Authority’s meeting was prejudicial, arbitrary, or capricious); or
b. new and significant information, not reasonably available at the time of the Hearing Authority’s meeting, has become available; or
c. the sanction or remedy imposed is not in due proportion to the nature and seriousness of the offense. Any evidence supporting these grounds must be included in the request for an appeal.

Within ten (10) school days following receipt of the request for an appeal, the Superintendent/President shall render a final written decision. The Superintendent/President may uphold, modify or reject the long-term suspension imposed by the Hearing Authority. If the Superintendent/President modifies or rejects the imposed sanction, the Superintendent/President shall prepare a new written decision which contains specific factual findings and conclusions. The decision of the Superintendent/President to uphold, modify or reject the recommended or imposed sanction shall be final. The final decision shall be sent via certified or registered mail to the student’s last known address. The Superintendent/President shall report all student suspensions to the Board of Trustees in closed session at its next regular meeting after they have received notification of the suspension.

2. Expulsion and/or Revoking or Withholding a Degree or Certificate: The student may appeal the recommended sanction of expulsion and/or revoking or withholding a degree or certificate by the Hearing Authority to the Superintendent/President. The appeal must be in writing and received by the Superintendent/President within five (5) school days of receipt of notification of right to appeal. The Superintendent/President may uphold, modify or reject the recommended expulsion and/or revoking or withholding a degree or certificate by the Hearing Authority. If the Superintendent/President modifies or rejects the expulsion recommendation and/or the recommendation to revoke or withhold a degree or certificate, the Superintendent/President shall prepare a new written decision which contains specific factual findings and conclusions. The written decision to uphold, modify or reject the recommended expulsion and/or revoking or withholding a degree or certificate shall include the right of the student to request a formal hearing by the Board of Trustees, and shall be sent via certified or registered mail to the student’s last known address within 10 school days of receipt of the appeal. The Superintendent/President’s written decision shall be forwarded to the Board of Trustees.

XI. Board of Trustees

In cases where expulsion and/or revoking or withholding a degree or certificate is recommended, the following shall apply:

1. The Board of Trustees shall consider any recommendation from the Superintendent/

2. President for expulsion and/or revoking or withholding a degree or certificate at its next regularly scheduled meeting or as soon thereafter as is practicable. The Board of Trustees shall consider an expulsion recommendation in closed session, unless the student requests the matter be heard in open session in accordance with these procedures and Education Code section 72122. The Board may expel a student for good cause when other means of correction fail to bring about proper conduct or when the presence of the student causes a continuing danger to the physical safety of the student or others (Education Code section 76030).

3. The student shall be notified in writing, by registered or certified mail or by personal service, at least five (5) school days prior to the meeting, of the date, time, and place of the meeting of the Board of Trustees. The student may, within forty-eight (48) hours after receipt of the notice, request that the hearing be held in open session. Even if a student has requested that the Board of Trustees hear an expulsion and/or revoking or withholding a degree or certificate recommendation in open session, the Board of Trustees may deliberate in closed session in accordance with Education Code section 72122.

4. A closed hearing will be closed to everyone except the following:

a. the student charged;
b. an advisor/advocate for the student charged, if so desired. If the student chooses to be accompanied by an attorney, the student must notify the District in writing of their intent to bring an attorney at least two (2) school days prior to the hearing. Failure to notify the District will result in a postponement of the hearing;
c. the District Superintendent/President and/or President's designee;
d. the Board of Trustees;
e. Counsel for the District;
f. the student's parent(s) or guardian, if the student is a minor;
g. Campus Safety or such other law enforcement personnel deemed necessary for the safety of meeting participants.

5. The hearing shall be conducted in accordance with the following procedures:

a. The President of the Board of Trustees will serve as chair of the hearing, and will rule on all questions of procedure and admission of evidence.
b. Hearings need not be conducted in accordance with strict rules of evidence or the formality of a court hearing.

c. Before commencement of the hearing, the Board of Trustees shall review a description of the charges, notices, evidence, findings, and a copy of the proposed decision from the college-level disciplinary appeal hearing. The Board of Trustees shall consider no evidence other than that evidence received in the hearing process.

d. The District Superintendent/President or designee shall make a brief statement to the Board of Trustees, referring to relevant evidence regarding the alleged misconduct.

e. The accused student may then make a brief statement to the Board of Trustees and present any relevant evidence.

f. The statements shall be limited to five (5) minutes each.

g. Upon completion of these statements, the Board of Trustees will have an opportunity to ask questions of both the student and the District Superintendent/President or designee.

h. The Board of Trustees will conclude the hearing, dismiss the parties, and privately deliberate as to a decision.

i. The Board of Trustees shall issue a statement of decision including findings of fact and a determination that the accused student did or did not commit the act(s) charged, a finding that the student's act(s) did or did not constitute a violation of the Standards of Conduct, and a decision as to whether the expulsion and/or revoking or withholding a degree or certificate proposed by the District Superintendent/President will be upheld or modified. The Board of Trustees may also recommend further investigation. Pursuant to Education Code section 72122, regardless of whether the matter is heard in open or closed session, the final action of the Board of Trustees shall be taken in open session, and the result of the action shall be a public record. The name of the student, however, shall not be released.

j. The hearing (but not the deliberations of the Board of Trustees) shall be recorded either in written format or electronically. The record shall be the property of the District. The student may read the record or listen to the tape at a mutually agreeable location at the District. An accused student may, upon request, be provided a copy of the written record or electronic recording at their own expense.

k. A written statement of the Board of Trustees’ decision shall be sent via certified or registered mail to the student's last known address within three (3) school days after the conclusion of the hearing.

l. If the Board of Trustees’ decision is unfavorable to the student, the student shall have the right to submit a written statement of their objection to the decision. This statement shall become a part of the student's records.

m. The decision of the Board of Trustees is final and not subject to further appeal.

XII. Notification

The District Superintendent/President or designee shall, upon suspension or expulsion of any student, notify the appropriate law enforcement authorities of the county or city in which the District is situated of any acts of the student that may be in violation of section 245 of the Penal Code (Education Code section 76035).

XIII. Extensions of Time

Calendar restraints may be extended with the agreement of both parties.

Student Grievance Procedure
Administrative Procedure 5530

Reviewed by the Board of Trustees 02/10/2021

Reference: Education Code Section 76224(a); ACCJC Accreditation Eligibility Requirement 20; ACCJC Accreditation Standard IV.D

The purpose of this procedure is to provide a prompt and equitable means of resolving student grievances.

Grievance: A claim by any Student who reasonably believes a college decision or action has adversely affected their status, rights or privileges as a student.

A Grievance includes, but is limited to, claims regarding:

- Course grades, to the extent permitted by Education Code Section 76224(a), which provides: "When grades are given for any course of instruction taught in a community college District, the grade given to each student shall be the grade determined by the instructor of the course and the determination of the student's grade by the instructor, in the absence of mistake, fraud, bad faith, or incompetency, shall be final. "Mistake" may include, but is not limited to errors made by an instructor in calculating a student's grade and clerical errors;

- The exercise of rights of free expression protected by state and federal constitutions and Education Code Section 76120;

A Grievance is not:

- Student disciplinary actions, which are covered under separate Board Policies and Administrative Procedures.

- Unlawful discrimination, including sex discrimination. Procedures to be used to file such a complaint are set forth in the District's Administrative Procedure 3435.

- Police citations (i.e., "tickets"); complaints about citations must be directed to the County Courthouse in the same way as any traffic violation.

Grievant. A Student who has filed a Grievance.
Party. The student or any persons claimed to have been responsible for the student’s alleged Grievance, together with their representatives. “Party” shall not include the Grievance Hearing Committee or the College Grievance Officer.

Superintendent/President. The Superintendent/President or a designated representative of the Superintendent/President.

Student. A currently enrolled student, a person who has filed an application for admission to the college, or a former student. A Grievance by an applicant shall be limited to a complaint regarding denial of admission. Former students shall be limited to Grievances relating to course grades to the extent permitted by Education Code Section 76224(a).

Respondent. Any person the Grievant claims to be responsible for the alleged Grievance.

Day. Unless otherwise provided, day shall mean a day during which the college is in session and regular classes are held, excluding Saturdays and Sundays.

Informal Resolution. Each student who has a Grievance shall make a reasonable effort to resolve the matter on an informal basis prior to requesting a Grievance hearing, and shall attempt to solve the problem with the person with whom the student has the Grievance, that person’s immediate supervisor, or the local college administration.

The Superintendent/President shall appoint an employee who shall assist students in seeking resolution by informal means. This person shall be called the Grievance Officer. The Grievance Officer and the student may also seek the assistance of the Associated Student Senate in attempting to resolve a Grievance informally.

Informal meetings and discussions between persons directly involved in a Grievance are essential at the outset of a dispute and should be encouraged at all stages. An equitable solution should be sought before persons directly involved in the case have stated official or public positions that might tend to polarize the dispute and render a solution more difficult. At no time shall any of the persons directly or indirectly involved in the case use the fact of such informal discussion, the fact that a Grievance has been filed, or the character of the informal discussion for the purpose of strengthening the case for or against persons directly involved in the dispute or for any purpose other than the settlement of the Grievance.

Any student who believes they have a Grievance shall file a Statement of Grievance with the Discipline Officer within ten (10) days of the incident on which the Grievance is based, or ten (10) days after the student learns of the basis for the grievance, whichever is later. The Statement of Grievance must be filed whether or not the student has already initiated efforts at informal resolution, if the student wishes the Grievance to become official. Within two (2) days following receipt of the Statement of Grievance Form, the Discipline Officer shall advise the student of their rights and responsibilities under these procedures, and assist the student, if necessary, in the final preparation of the Statement of Grievance form.

If at the end of ten (10) days following the student’s first meeting with the Grievance Officer, there is no informal resolution of the complaint which is satisfactory to the student, the student shall have the right to request a Grievance hearing.

Levels for Resolving a Student Grievance

1. First Level – Informal Grievance

Any student with a Grievance should first attempt to resolve the matter by means of an informal meeting with the person(s) against whom the student has the Grievance. This discussion must take place within ten (10) school days of the alleged incident. The person grieved must respond outlining the outcome of the discussion via written communication within ten (10) school days. If resolution is not reached, the Grievance will automatically advance to the next level.

2. Second Level – Informal Grievance

If the Grievance cannot be resolved or if the discussion does not take place as specified at the first level within ten (10) school days, the Grievant should contact the immediate supervisor or Dean of the appropriate department or program. This discussion must take place within ten (10) school days after contact at the second level. The Supervisor or Dean has ten (10) school days to respond to the student’s Grievance via written communication. If resolution is not reached, the Grievance will automatically advance to the next level.

3. Third Level – Informal Grievance

If the Grievance cannot be resolved at the second level within ten (10) school days, the complainant should contact the Discipline Officer. The Discipline Officer will review the Grievance with the supervisor or administrator and attempt to resolve the Grievance informally. This discussion must take place within ten (10) school days after contact at the third level. The Discipline Officer has ten (10) school days to respond to the student’s Grievance via written communication. If resolution is not reached, the Grievance will automatically advance to the next level.

4. Fourth Level – Formal Grievance and Hearing

If the Grievance cannot be resolved informally at the third level, the Grievant will be asked to state the Grievance in writing within ten (10) school days. Then a formal hearing will be scheduled within ten (10) school days of receipt of the written complaint. The employee being grieved shall have the opportunity to respond in writing. The Discipline Officer, as appointed by the Superintendent/President, will conduct the hearing.

The determination of whether the Statement of the Grievance presents sufficient grounds for a hearing shall be based on the following:

- The statement contains facts which, if true, would constitute a Grievance under these procedures;
- The Grievant is a student as defined in these procedures, which include applicants and former students;
- The Grievant is personally and directly affected by the alleged Grievance;
- The Grievance was filed in a timely manner;
- The Grievance is not clearly frivolous, clearly without foundation, or clearly filed for purposes of harassment.

If the Grievance does not meet each of the requirements, the Grievance Officer shall notify the student in writing of the rejection of the Request for a Grievance, together with the specific reasons for the rejection and the procedures for appeal. This notice will be provided within ten (10) school days of the date the Grievance Officer makes their decision.

If the Request for Grievance Hearing satisfies each of the requirements, the Grievance Officer shall schedule a Grievance hearing. The hearing will begin within ten (10) school days following the decision to grant a Grievance Hearing. All Parties to the Grievance shall be given not less than five (5) school days’ notice of the date, time and place of the hearing.

The hearing will comply with principles of due process, including the right to confront and cross examine witnesses. The decision of the Grievance Officer shall be final on all matters relating to the conduct of the hearing.

Each Party to the Grievance may call witnesses and introduce oral and written testimony relevant to the issues of the matter. Hearings shall be closed and confidential unless all Parties agree that it be open to the public. Any such request must be made no less than five (5) days prior to the date of the hearing. In a closed hearing, witnesses shall only be present while testifying, unless all parties agree to allow them to remain for all or any other portion of the hearing.

Formal rules of evidence shall not apply. Any relevant evidence, as determined by the Discipline Officer shall be admitted.
The hearing will be recorded by the District, and will be the only recording made. The Grievance Officer shall start the hearing by asking each person present to identify themselves by name and thereafter shall ask witnesses to identify themselves by name. No witness who refuses to be recorded shall be permitted to give testimony, and shall be considered to be unavailable. The recording shall remain in the custody of the District. Any Party to the Grievance may request a copy of the recording from the District in writing. The District shall make a copy available to the requesting party within 20 days.

Unless the Grievance Officer determines to proceed otherwise, each Party to the Grievance shall be permitted to make an opening statement. Thereafter, the Grievant(s) may make the first presentation, followed by the respondent(s). The complainant(s) may present rebuttal evidence after the respondent(s) presents evidence. The burden shall be on the Grievant(s) to prove by substantial evidence that the allegations are true and that a Grievance has been established as specified above.

Each Party to the Grievance may represent themselves, and may also have the right to be represented by a person of their choice; except that a Party shall not be represented by an attorney unless, in the judgment of the Grievance Officer, complex legal issues are involved. If a Party wishes to be represented by an attorney, a request must be presented at least ten (10) days prior to the date of the hearing. If one Party is permitted to be represented by an attorney, any other Party shall have the right to be represented by an attorney. The Grievance Officer may also request legal assistance through the Superintendent/President.

The Grievance Officer shall have ten (10) days after the date of the hearing to render a written decision to the Superintendent/President. The decision shall include specific factual findings regarding the Grievance and shall include specific conclusions regarding whether a Grievance has been established as defined above. The decision shall also include a specific recommendation regarding the relief to be afforded the Grievant, and not on matters outside of that record. The record consists of the original Grievance, any written responses, and the oral and written evidence produced at the hearing.

Within ten (10) days following receipt of the Grievance Officer’s decision and recommendation(s), the Superintendent/President shall send all Parties a written decision, together with the Grievance Officer’s decision and recommendations. The Superintendent/President may accept or reject the findings, decisions, and recommendations of the Grievance Officer. If the Superintendent/President does not accept the decision, finding, or recommendation of the Grievance Officer, the Superintendent/President shall review the record of the hearing and shall prepare a new written decision which contains specific factual findings and conclusions. The decision of the Superintendent/President shall be final, subject only to appeal as provided below.

Appeal Process

Any appeal relating to a Grievance Officer’s decision that the Statement of the Grievance failed to present a Grievance as defined in these procedures shall be made in writing to the Superintendent/President within ten (10) days of that decision. The Superintendent/President shall review the Statement of Grievance and Request for Grievance Hearing in accordance with the requirements for a Grievance provided in these procedures, but shall not consider any other matters. The Superintendent/President’s decision whether or not to grant a Grievance hearing shall be final and not subject to further appeal.

Time Limits

Any times specified in these procedures may be shortened or lengthened if there is mutual agreement by all Parties.

Record of Grievance

A record of the Grievance against an employee of the District may only be entered into an employee’s personnel file in compliance with District personnel policies, an employee’s contract, applicable collective bargaining agreements, and the disciplinary process.

The District is committed to resolving student complaints and/or Grievances in a fair and equitable manner. Students should work through the District’s process first before escalating issues to other agencies. Issues that are not resolved at the District level may be presented to the California Community Colleges Chancellor’s Office (CCCCO) at:

www.californiacommunitycolleges.cccco.edu/ComplaintsForm.aspx

or the Accrediting Commission for Community and Junior Colleges (ACCJC) at:

This Administrative Procedure is not available for use by any student or applicant for admission who believes that they have been subjected to unlawful discrimination, including sex discrimination as prohibited by Title IX of the Higher Education Amendments of 1972. The basis for filing a complaint of unlawful discrimination and the procedures to be used to file such a complaint are set forth in the District’s Board Policy 3433 – Prohibition of Sexual Harassment under Title IX.

The Superintendent/President shall review the record of the hearing to render a written decision to the

To ensure that students at Shasta College are attaining knowledge and skills, the faculty have developed ongoing processes to assess student learning. Students should expect to participate in a wide range of assessments designed to provide useful information about programs and student services. Additionally, upon graduating or transferring from Shasta College, former students may be asked to provide feedback on their experiences at Shasta College to guide continuous program quality.

Student Learning Assessment

Student Records, Directory Information, and Privacy

Board Policy 5040

Reviewed by the Board of Trustees 10/16/2019

Reference: Education Code Section 66093.3, 76200 et seq.; Title 5, Section 54600 et seq.; 20 U.S. Code Section 1232g(j) (US Patriot Act); Civil Code Section 1798.85; ACCJC Accreditation Standard II.C.8

The Superintendent/President shall assure that student records are maintained in compliance with applicable federal and state laws relating to the privacy of student records.

The Superintendent/President may direct the implementation of appropriate safeguards to assure that student records cannot be accessed or modified by any person not authorized to do so.

Access to Records

Educational records shall be available for inspection and review, during normal working hours, by presently and formerly enrolled students. Where the record(s) may contain information concerning more than the inquiring student, only that part pertaining to the inquiring student may be revealed.

Any currently enrolled or former student of the District has a right of access to any and all student records relating to him or her maintained by the district.

No District representative shall release the contents of a student record to any member of the public without the prior written consent of the student, other than directory information as defined in this policy and information sought pursuant to a court order or lawfully issued
subpoena, or as otherwise authorized by applicable federal and state laws.

Students shall be notified of their rights with respect to student records, including the definition of directory information contained here, and that they may limit the information.

Directory information shall include:

- Student participation in officially recognized activities and sports including weight, height and high school of graduation of athletic team members.
- Degrees and awards received by students, including honors, scholarship awards, athletic awards and Dean’s list recognition.
- Consistent with the Solomon Amendment, Department of Defense entities may obtain certain information about currently enrolled full-time students, ages 17 and over, once per term. This information is limited to: student names, addresses, phone number, age (year of birth), level of education, degrees received for recent graduates and most recent educational institution attended. To process this request, the college will check to see if it collects the student data and if any students and/or parents exercised their FERPA rights to withhold student information.

The Superintendent/President shall ensure that procedures defining the District’s response to federal immigration enforcement activities are in place and shall be followed to the extent possible consistent with state and federal law. Procedures will define processes for: gathering and handling student information; responding to requests by law enforcement for campus access for immigration enforcement purposes; responding to requests by law enforcement for access to student records for immigration enforcement purposes; and responding to immigration actions against students or their family members.

This policy and its implementing procedures shall be posted on the District’s website.

*See Administrative Procedure 5040*

**Student Records – Challenging Content**

Any student may file a written request with the Assistant Superintendent/Vice President of Student Services or designee to correct or remove information recorded in the student records that the student alleges to be:

1. inaccurate;
2. an unsubstantiated personal conclusion or inference;
3. a conclusion or inference outside of the observer's area of competence; or
4. not based on the personal observation of a named person with the time and place of the observation noted.

*See Administrative Procedure 5045 for more information.*
Chapter 7: Services for Students, Special Programs, and Student Life

Shasta College provides a broad spectrum of student services and activities to support the instructional programs and to ensure maximum opportunity for success in the student’s chosen major.

**Services for Students**

**Bookstore**
The Shasta College Bookstore provides essential products and services that complement the academic environment and facilitate the education process for students, faculty, staff, and alumni as well as visitors to Shasta College. The bookstore offers self-service and selection in specialized book departments. Several non-book departments, such as school supplies, food products, emblematic wear, sundries, and gifts are also offered.

The bookstore is open to the public throughout the school year. The bookstore team members look forward to meeting many of you personally and helping you become better acquainted with the products and services offered. It is our purpose to make your visits to the bookstore a pleasant and beneficial experience.

During the beginning of each semester the bookstore has extended hours. Refer to the class schedule, our web page, or please call (530) 242-7574 for more information.

Textbooks can be ordered online at [shastacollegebookstore](http://shastacollegebookstore).

**Campus Safety**
Campus Safety is committed to a safe and secure working and learning environment.

Campus Safety provides emergency management services, violence prevention programs, self-defense classes, safe walk escorts, and more.

We all play a vital role in keeping the Shasta College community safe. Everyone is encouraged to collaborate with us in creating a safe campus environment by becoming aware of and familiar with the safety resources and information provided by Campus Safety.

Our officers and staff are welcoming and committed to maintaining close ties with the people and communities we serve. Please stop by our office on the main campus, room 6500, or call (530) 242-7910, to ask any questions about security issues that are important to you. Campus Safety welcomes your involvement and suggestions, and looks forward to providing a safe learning environment for the pursuit of your goals and aspirations.

**Career Center**
The Career Center provides resources to use in making career decisions and acquiring the occupational information necessary for planning your future. Students are invited to make use of computerized career exploration resources to learn more about their interests, skills, and work values. Resources are also available to research and compare educational requirements, pay, and future outlook for various occupations. Stop by Room 2071C (upstairs in the Cafeteria) or call the Internship Work Coordinator, Lisa Petty, at (530) 242-7572 to learn how to create your personal career profile!

**Child Care Services**

**Early Childhood Education**

**Early Headstart**

**Headstart-CalWorks Preschool**

Shasta College Children’s Campus offers several options to help meet the childcare and educational needs of families. Go to [shastacollegechildcare](http://shastacollegechildcare).

The Early Childhood Education Center (530) 242-7601 is a demonstration child development laboratory site providing an enrichment experience for 3, 4, and 5-year old children. A daily fee approved by the Board of Trustees is charged for the program.

**Shasta County Head Start and Early Head Start** (530) 241-7951 provides an inclusive enriching program with extended day childcare from 7:30 a.m. to 2:30 p.m. Head Start/Early Head Start serves families of infant, toddlers and preschoolers aged eight weeks to five years. Enrollment priority is given to children of College CalWORKs students and low-income eligible families at no fee.

**Financial Aid – Scholarships** — See Chapter 2 – Financial Aid

**Student Health and Wellness Office**
The office is located in Room 2020 in the Campus Center. Students must be enrolled in credit bearing classes for the current semester in order to access services. Enrollment is verified with each visit. The office is open Monday through Friday during the Spring and Fall semesters from 8:00 a.m.—12:00 noon and 1:00 p.m.—4:00 p.m. Summer semester office hours, days, and services will vary. FREE confidential services offered: first aid/care for injuries, visits with the college nurse, contracted physician, or psychological counselor, treatment for acute injuries and illnesses, OTC (over the counter) medications, TB skin tests, health screenings, health education and information, and smoking/vaping cessation counseling. Physician consultations are available for academic program/uncomplicated employment physicals and the initial diagnosis and treatment of short-term illnesses. (MD Clinic Dates). Physician services are not available during the summer semester. The Student Health & Wellness Office offers students an opportunity to make a telehealth or in-person appointment with the College Nurse, Psychologist, and/or Contracted Physician. Cholesterol screenings are offered for a nominal fee. We also provide community resources for reproductive health care. The Student Health and Wellness office also manages the Student Accident Reporting and Insurance process. You may reach us by using the [Request a Distance Consultation](mailto:requestachinery@shastacollege.edu) online form, or by phone.

**PLEASE NOTE:** The Student Health and Wellness Office is not a physician’s office. Medical (physician) services are contracted and limited. For more information, please visit our [website](http://shastacollege.edu) or call (530) 242-7580. Hours and/or days of service are subject to change. There may also be times when the College Nurse and/or Psychological Counselor are out of the office, or off campus, during regular office hours.

The Shasta-Tehama-Trinity Joint Community College District is a smoke and tobacco-free environment. Smoking, vaping, and the use of tobacco products is prohibited on all District property at all times. This applies to students, faculty, staff, administrators, visitors, and general members of the public. Shasta College Administrative Procedure AP 3570 addresses smoking/vaping and the prohibition of spitting chew tobacco in classrooms (into cups, trashcans, etc.). Willful non-compliance is a violation of college policy and the Student Standards of Conduct.

**Library**
The Shasta College Library is one of your key resources for course support and lifelong learning. We're a hub of collaborative learning on campus with study spaces and a host of resources on our open shelves. We also maintain a dynamic collection, accessible 24/7, and online reference assistance. Explore this vast spectrum of knowledge, including:

- Millions of magazine and journal articles from thousands of international publications.
- A growing collection of over 100,000 books, ebooks, videos, and streaming media.
- Nearly 100 computer workstations.
- Wireless Internet access.
- Group and individual student spaces with comfortable seating.
- Self-service printing, photocopying, and faxing.
- Special resources for the physically challenged.
- Service-oriented staff who regard each encounter as an opportunity to share our extraordinary resources.

To learn more about the Library, including current Library hours, please visit us online at shastacollege.library.

**Student Employment Services**

The Student Employment Center is a resource for Shasta College students seeking work while attending classes, after graduation, and at the completion of their training programs. Bulletin boards are maintained in major campus buildings listing current job opportunities both on and off campus. Job listings are also posted on the Student Employment website: shastacollegejobboard. Computers, printers and fax are provided for job search purposes. Resume, cover letter, interviewing, and general job search assistance is available. For more information on student employment services, please stop by Room 2071C (upstairs in the Cafeteria) or call Lisa Petty at (530) 242-7572.

**Testing Center**

The Testing Center is located in Room 2215 in the 2200 Building. Tests such as the computer literacy assessment, Myers Briggs, and Strong Interest Inventory can be taken online by sending an email request to testcenter@shastacollege.edu. All other testing, such as ACT, SAT, TEAS, GED, and ALEKS, and make up tests, are by appointment only. Please visit the Testing Center web page when the campus is open to students and click on the Appointment link to make an appointment. Testing is available at Extended Education campuses by appointment only. Please contact the Counseling Center at (530) 242-7724 for information about math and English placement.

Students with disabilities should contact the Partners in Access to College Education (PACE) Office at (530) 242-7790 for information and testing accommodations. PACE services and testing accommodations are available to students at all Extended Education sites.

For questions about ESL testing, contact the ESL office at (530) 242-7711. For questions about multiple measures decision rules (math and English placement), please contact the office of the Dean of Enrollment Services.

**Transfer Center**

As part of the counseling function, Shasta College operates a Transfer Center. Located adjacent to the counseling offices in the Administration Building, the Center is a resource for students to use in acquiring information on other colleges and universities. The Center sponsors visits to four-year institutions each semester, and hosts admissions advisors from four year colleges and universities who meet with students here at Shasta College. The Transfer Center also offers workshops to guide students through the UC and CSU transfer application process. Students are invited to make use of the variety of materials and services available. For additional information and schedule updates, please visit the Transfer Center website, call (530) 242-7570, or stop by Room 126.

**Special Programs**

**Accelerated College Education – ACE**

The Shasta College Accelerated College Education (ACE) Program is designed for the working individual desiring to complete their college education. Through compressed eight week classes, offered predominately online with some courses being taught in an evening or hybrid format, students are able to complete their Associates degree in 24 months (or less) or a Certificate in 4 or 9 months. The ACE Program currently offers degree pathways in Administration of Justice (AS-T), Business (AS-T and AS), Communication Studies (AA-T), Psychology (AA-T), Sociology (AA-T), Early Childhood Education (AS-T), and AA University Studies – Social Sciences (the last three include prerequisites for a bachelor’s in social work) and a Certificate in Web Design. Space is limited! Go online to www.shastacollege.edu/ACE to review information, call (530) 242-7676, or email acebold@shastacollege.edu to learn more!

**Adult Basic Education**

Shasta College has a range of adult education courses. There are courses in reading, math, GED-prep, citizenship and English as a Second Language. Many of these courses are free and have open enrollment. Some courses have small group instruction and others are taught using one-on-one mentoring. These courses can be used to prepare for college entry. For more information contact the Learning Center Coordinator, Basic Skills/ESL, at (530) 242-7711.

**Bachelor’s through Online and Local Degrees – BOLD**

The Shasta College Bachelor’s through Online and Local Degrees (BOLD) Program helps local students identify quality, affordable Bachelor’s degree completion programs so they can take the next step after Shasta College. Students can enroll in a series of four one-unit, online Student Development classes at Shasta College while simultaneously pursuing their Bachelor’s degree. These STU classes help students navigate their university experience, transition to their new career, and allow students to continue accessing Shasta College resources such as the library, health center, computer labs, and tutoring centers. More information can be found online at www.shastacollege.edu/BOLD, by calling 530-242-7676, or by emailing acebold@shastacollege.edu.

**CalWORKs Student Services**

The Shasta College CalWORKs Student Services Program serves students who are referred from the Shasta, Tehama, or Trinity Counties Social Services’ CalWORKs Programs. Eligible students are those receiving the adult portion of cash aid.

CalWORKs students receive one-on-one assistance with enrollment, registration, financial aid processes, specialized counseling services, and ongoing support while receiving the adult portion of cash aid. Supplemental support services for CalWORKs students may include books and supplies not supported by their county, gas cards, food cards good for the on-campus cafeteria, and CalWORKs Work Study.

CalWORKs Work Study is a resource for CalWORKs students to help meet their required welfare-to-work hours while going to school. Wages earned while enrolled in the CalWORKs Work Study program are considered financial aid therefore exempt from the student’s CalWORKs cash aid. In addition, the CalWORKs employment program provides assistance with job readiness, resume development and job search resources.

Students who are receiving the adult portion of cash aid or are considering applying for cash aid can contact the Shasta College CalWORKs office for more information at (530) 242-7749 Monday – Friday, 8:00A-5:00P. (Closed Fridays throughout June and July).

**Cooperative Agencies Resources for Education – CARE**

The CARE Program is an additional support service for the EOPS student who is at least 18 years of age and a single parent who is currently receiving some form of CalWORKs cash aid (adult/child or child only). Support services for CARE students are considered supplementary to the services first received from EOPS and CalWORKs (if applicable). CARE supplementary support services may include school supplies, textbook and technology grants, food resources, transportation support, unmet need cash grants, and training and workshop opportunities. For additional information, call (530) 242-7540 or email EOPS@shastacollege.edu.

**Extended Opportunity Program and Services – EOPS**

EOPS (Extended Opportunity Program and Services) provides comprehensive support services to students with limited income and educational disadvantages. Academic, career, and personal counseling are a key component of this program. Students meet with an EOPS Counselor three times each semester to plan and monitor their educational progress. Additional services may include access to a lending library, book grants, transfer assistance, workshops, and referrals to both on and off-campus resources. Students must complete a California College Promise Grant (CCPG) and EOPS application, linked through MyShasta. For additional information, email us at EOPS@shastacollege.edu or call (530) 242-7540. Current
EOPS students should check the EOPS page in Canvas regularly for program updates.

**Gateway to College**

The Shasta College Gateway to College program is a unique alternative education program allowing high school students, who are behind in credits, the opportunity to complete their high school graduation requirements through dual enrollment classes offered on the Shasta College campus. Students who are selected for participation in the Gateway program simultaneously earn credit toward their high school diploma and a college degree or certificate. Please note: During semesters where Shasta College services are offered remotely every effort will be made to maintain an in-person academic experience at an alternative location. General information is available online at [www.shastacollege.edu/academics/high-school-programs/gateway-to-college](https://www.shastacollege.edu/academics/high-school-programs/gateway-to-college), by calling (530) 242-7585, or by emailing gtc@shastacollege.edu.

**Global Education Center**

The goal of the Global Education Center is to provide cross-cultural learning experiences that establish greater global awareness for Shasta College students. Currently there are four programs housed under the Global Education Center: the International Student Program, Semester Exchange with Soonchunhyang University, the Global Expedition Program, and the Global Relations Fellowship. The International Student Program allows individuals from all over the world to study and receive a degree or certificate while providing opportunities for cultural development. International students have access to staff support as well as online resources housed on Canvas. Additionally, Shasta College partners with Soonchunhyang University to offer students the opportunity to spend a semester studying abroad in South Korea. Similarly, the Global Relations Fellowship hosts South Korean students alongside Shasta College students in the on-campus dormitories for three weeks during the summer. They participate in web design workshops while experiencing diverse industries across the North State. Finally, the Global Expedition Program gives students the opportunity to participate in environmental conservation research in partnership with Operation Wallacea in locations around the world while receiving Shasta College course credit. For more information on these programs, please call (530) 242-7626 or visit [www.shastacollege.edu/international](http://www.shastacollege.edu/international).

**High School Diploma (Formerly GED)**

Residents of the District may work toward a high school diploma by taking college courses. Information is available from the high school from which you plan to receive the diploma. You must request that credit is transferred.

A student who transfers Shasta College course credit to a high school for diploma credit may also use that credit at Shasta College. The completed course will fulfill the subject requirement if it is part of an Associate degree program.

Questions regarding GED testing should be referred to the Shasta College Testing Center at testcenter@shastacollege.edu.

**Learning Assistance**

The Shasta College Tutoring and Learning Center (TLC), located on the first floor of the 700 building, provides a variety of resources and tutoring services, including academic mentoring, supplemental instruction, peer-embedded tutoring and student athlete support (EDGE). The Writing Center, located in the TLC, features a computer lab for drop-in assistance, writing resources, writing related workshops each semester, and writing assistance for any course, including English as a Second Language. Students are encouraged to schedule an appointment in person or online with a writing assistant for a one-on-one tutoring session. The Math and Business Center, also located in the TLC, offers drop-in math assistance for students enrolled in various math and business classes. The Science Learning Center, located in the 1600 building, Room 1626, offers several resources to assist students during drop-in tutoring for Natural and Physical Sciences.

**Partners in Access to College Education – PACE (formerly DSPS)**

Shasta College offers students with disabilities numerous services including counseling and academic advisement, readers, note providers, e-texts, audio format texts, in-class interpreting for students who are deaf or hard-of-hearing, designated parking areas, special equipment, assistive technology, and test facilitation. These services are available to students attending either the main Shasta College campus or the extended education locations throughout the District, and students in online courses. The PACE Counselor works with students to evaluate their educational needs and to plan and authorize appropriate academic adjustments. Classes are provided through Career and Life Success (CALS) curriculum. For more information on the various programs and services available through PACE, email pace-services@shastacollege.edu or call (530) 242-7790. Current PACE students should check the PACE page in Canvas regularly for program updates.

Partners in Access to College Education also offers a College to Career (C2C) program which provides vocational training to students with Intellectual Disabilities. College to Career is a three-year program leading to competitive, integrated employment. More information can be found at the PACE website or in room 2006 on the Shasta College Main Campus.

**Shasta CARES (Campus Advocacy, Resources, and Education for Safety) Program**

Shasta CARES is a collaboration dedicated to uprooting interpersonal violence in our diverse community.

Through Shasta CARES, Shasta College developed a collaborative multidisciplinary committee on the main campus and Tehama campus to address campus stalking, domestic, dating, and sexual violence, to be identified as the Coordinated Community Response Team (CCRT). The teams work together to create a trauma-informed response and develop culturally competent violence prevention programs. Shasta CARES provides primary prevention programming and events to educate the campus on realities of sexual violence, domestic violence, dating violence, and stalking. The events and workshops promote healthy behaviors, equity, safety and accountability.

Students and employees can access the following confidential services through our partnerships with One SAFE Place, Empower Tehama, Rape Crisis Intervention and Prevention, and Human Response Network: crisis counseling, emergency shelter, legal assistance, court accompaniment, resources and referrals, victim advocacy, case management, emergency food and clothing, and support groups.

To make an appointment with the Confidential Advocate, call (530) 242-2399. The office on the Main Campus is located in building 5000, room 5016.

For more information, visit the Shasta CARES website on the Shasta College website at [www.shastacollege.edu/shastacares](http://www.shastacollege.edu/shastacares) or call (530) 242-7939.

**SCI*FI (Shasta College Inspiring and Fostering Independence)**

SCI*FI is an educational support program for students who are current or former foster youth under age 26. Weekly workshops, academic support, and individual mentoring help students succeed in their coursework and also develop the skills needed to foster a stable transition into independence. A study lab is available in Room 2012. Additional information is available at (530) 242-7556, by email at scifi@shastacollege.edu, and through the SCI*FI website.

**STEP-UP (Shasta Technical Education Program – United Partnership)**

STEP-UP (Shasta Technical Education Program – United Partnership) is an educational and support program for formerly incarcerated adults in Shasta, Tehama, and Trinity Counties. Students selected for STEP-UP meet eligibility requirements including recommendation for the program by partnering agencies and our Campus Safety Director. Students in the program are supported in
TRIO Programs

TRIO Student Support Services (SSS) is a federally funded program for eligible full-time students who are first generation and limited income and who are preparing to transfer to a four-year university to earn a bachelor’s degree. TRIO-SSS provides support services such as tutoring, counseling, calculator loans, financial literacy workshops, cultural and social activities, university tours, and transfer assistance. For additional information on SSS, please visit room 2070 in the Student Center or call (530) 242-7690. During campus closures please contact the TRIO Office by emailing us at trio@shastacollege.edu. Current TRIO SSS students should check the TRIO SSS page in Canvas regularly for program updates.

The TRIO Educational Talent Search (ETS) identifies and assists 6th through 12th grade students who are first generation and limited income and who have the potential to succeed in higher education. The program provides academic, career, and financial aid information to participants and encourages them to graduate from high school and continue their education at a postsecondary institution of their choice and graduate from college. The program serves 500 students in Shasta and Trinity counties. For more information, please contact the Project Director at (530) 242-7690. During campus closures please contact the TRIO Office by emailing us at trio@shastacollege.edu.

TRIO Upward Bound (UB) Program provides comprehensive support to first-generation limited income high school students in their academic and college access preparation. The goal of Upward Bound is to increase the rate at which participants complete secondary education and enroll in and graduate from institutions of postsecondary learning. Upward Bound students participate in a six-week summer residential program at Shasta College. Upward Bound serves 65 students at Enterprise and Central Valley High Schools. For more information, please contact the Project Director at (530) 242-7690. During campus closures please contact the TRIO Office by emailing us at trio@shastacollege.edu.

UMOJA Program

The Shasta College Umoja Program supports the academic success, cultural identity, and collective building of students including purpose, unity, community and accountability among others. Program benefits include community support, mentorship, service learning, field trips, academic counseling, peer tutoring, scholarships, and a STU 1 course cohort model.

Learn more about Umoja by visiting their office, located in room 2066, or by contacting the program coordinator at (530) 242-7757 or via email at ckefalas@shastacollege.edu. You can also find out more information or apply at https://www.shastacollege.edu/student-life/student-services/umoja-program.

Veterans Educational Benefits

The VA Certifying Official in the Financial Aid Office serves as your liaison between the school and the Department of Veterans Affairs to help you apply for and maintain your VA educational benefits. We provide support to help you with your education and information on the latest programs and regulations, extension of delimiting dates, vocational rehabilitation, etc. Be sure to apply for your benefits early, as it takes the Department of Veterans Affairs approximately 120 days to process your application. All new veterans to Shasta College should call for information at (530) 242-7701 or visit the Veterans Certifying Official located in the Veterans Support and Success Center in the 1500 building. For more information about veterans services please visit our website at www.shastacollege.edu/veterans.

The Veterans Counselor will assist you in your educational planning and development of the required Educational Plan. To schedule an appointment with the Veterans Counselor, call the Counseling Center, located in Building 100, at (530) 242-7724.

Course protection Guarantee under the Veterans Benefits & Transition Act of 2018

In compliance with Section 103 of the Veterans Benefits and Transition Act of 2018, Shasta College will not impose the following penalties to covered individuals due to the delayed disbursement of funding from the Department of Veteran Affairs:

- Prevent nor delay the student’s enrollment,
- Assess late fees,
- Deny access to any resources available to other students who have met their financial obligations, or
- Require the student to secure alternative or additional funding

To qualify for this provision, covered individuals are required to:

- Provide a copy of a Certificate of Eligibility, Statement of Benefits*, or a VAF 28-1905 for Vocational Rehabilitation & Employment;
- Submit a Request for Certification of VA Education Benefits (from the Veterans Certifying Official in the 1500 building);
- Provide additional information needed to certify the enrollment as required by the Veterans Certifying Official.

This provision ends on the earlier of the following dates:

- The date on which payment from the VA is made to the institution
- 90 days after the date the institution certified tuition and fees following the receipt of the Certificate of Eligibility and Request for Certification

* A covered individual is defined as any individual who is entitled to educational assistance under Chapter 31, Chapter 33, or the Fry Scholarship.

**Chapter 33 recipients may access a Statement of Benefits online at www.va.gov.

It will be the student’s responsibility to pay the school:

- Any remaining balance should the student register in courses that are not required for their educational objective and therefore not covered by the VA
- Any percentage of Chapter 33 below the 100% benefit rating.

Shasta College reserves the right to follow normal collection procedures for any difference between the amount of a covered individual’s financial obligation and the amount of the VA education benefit disbursement.

Student Life

Art

The Art Department sponsors monthly exhibitions in the College Gallery showing pieces from visiting artists, faculty, and a juried student show in May. The realm of art is a viable medium at Shasta College, and one that fulfills the aspirations and artistic inclinations of each student. For additional information, call (530) 242-7730.

Athletics

Shasta College, a member of the Northern California Football Conference, the Big-8 Conference, and the Bay Valley Conference, offers strong and varied athletic opportunities for men and women. The athletic facilities include a gymnasium, a lap swimming pool and a diving pool, lighted tennis courts, a weight training room, a cardio exercise room, a well-lighted football stadium, all-weather track and field facility, baseball and softball diamonds, and soccer fields. Shasta College men and women participate in baseball, basketball, cross-country, football, soccer, softball, swimming and diving, tennis, track and field, volleyball and wrestling. Questions regarding athletic eligibility should be directed to the Dean of Physical Education.
Education and Athletics at (530) 242-7595 or check our website at www.shastacollegeathletics.com.

**Honor Society**

Shasta College established the Beta Mu Mu chapter of the Phi Theta Kappa International Honor Society on March 19, 2004. The Phi Theta Kappa mission is two-fold: 1) recognize and encourage the academic achievement of two-year college students; and (2) provide opportunities for individual growth and development through participation in honors, leadership, service and fellowship programming. Honor society members are invited to join by email and must have a cumulative GPA of 3.5 or higher and have completed 12 or more transferable units at Shasta College. Invitations to join are emailed out approximately four weeks into the semester, where eligible students can then make more serious connections with the society. A student must register/pay online. Membership is granted once the eligibility requirements have been met and the appropriate dues are collected. For more information, contact the Office of Student Life, Room 2308 on the main campus for brochures and membership information, or visit the chapter web site at shastacollegeptk.org.

**Housing**

Shasta College maintains two dormitories, one for 63 females and one for 63 males. A Commons building providing recreational space and equipment for both indoor and outdoor activities is part of the facility. A "residents only" kitchen equipped with microwaves, two stoves/ovens, a gas BBQ grill, and an ice/water machine is located in the Commons along with a computer lab and TV lounge. Several social and recreational activities are programmed monthly for the enjoyment of the residents. The Commons building is staffed 24 hours a day throughout the academic year. Housing staff continually conduct safety and security walk-throughs to ensure that the facilities are secured, and the facility employs video surveillance equipment for security purposes. This equipment may or may not be monitored at any time.

Students must carry at least 12 units and maintain a 2.0 GPA to reside in the dormitories.

To reserve a space in the Residence Halls – or to be placed on the waiting list – go to the Shasta College Dorm webpage (https://www.shastacollege.edu/student-life/dorms), fill out the Dorm Interest Form, and potential residents will be contacted by the Housing Office regarding the process to reserve a spot in the Dorms. Due to the limited number of spaces available each semester, students are encouraged to reserve a space at least four (4) months prior to the start of the semester. For more information, you may call (530) 242-7739.

Off Campus: The College is interested in its students having suitable housing. For students who cannot be accommodated in the dormitories or who prefer to live off-campus, the Housing Office maintains a list of apartment complexes and property management agencies in the Redding community, which is available to students upon request.

**Music**

The Music Department offers a wide range of musical opportunities that include workshops, clinics, guest performers, musicals, and concerts. All students are welcome and do not need to be music majors to participate in ensembles. The Concert Choir, Vocal Jazz Ensemble, and instrumental Jazz/Rock Ensemble perform for many activities in the area, as well as performing concerts in the Shasta College Theatre. Evening classes offer opportunities to participate in the Symphony Orchestra, College Chorale, Symphonic Band and Jazz Ensemble. The department is an active and creative force on campus, and offers the general student a stimulating change of pace. For more information, call (530) 242-7730.

**Student Clubs/Leadership**

Get involved! Shasta College is home to many existing clubs and organizations. At Shasta College, we aim to produce well-rounded, global citizens who know how to step in, step up, take the lead, and create action. Opportunities to develop your leadership skills can be as beneficial as your Shasta College classroom education when transferring on to a four-year institution or considering employment offerings. Using the Club Canvas page, connecting has never been easier! Club members and advisors are able to mingle virtually, add their events to a shared calendar and view club training tutorials 24/7. For a complete list of active and recently active clubs, please visit www.shastacollege.edu/clubs, or see us in person at the Office of Student Life, located in the 2300 Building (Room 2308), or call (530) 242-7626. If you don’t see an existing club that interests you, you can start one!

**Student Activity Cards**

When you register at Shasta College, you will be offered the opportunity to buy your Student Activity Card from the Shasta College Student Senate. Funds from the card help Student Senate in financing events; such as, concerts, Club Kick-Off, Chili Cook-off, Constitution Day, and other Student Senate and Interclub Council events. The card allows reduced admission to various Student Senate sponsored activities, as well as discounts from popular vendors and restaurants around town (for a complete listing of vendors offering discounts please see the Student Senate website). Lastly, funds from the purchase of this card go toward many campus enhancement projects. An activity card may be purchased each semester. Information will be available during registration or at the Student Senate offices located in the 2300 Building (Room 2318) and online at www.shastacollege.edu/student-life/student-senate. This card is your passport that will help to involve you in college activities.

**Student Senate Lending Library**

The Student Senate collects unwanted textbooks at the end of each semester. These books are then lent to students in need who may not have the resources to purchase the book otherwise. Any student lending books is required to have a valid Student ID Card.

**Student Senate Food Pantry**

The Shasta College Student Senate hosts the Food Pantry and Meal Voucher Program. A Shasta College student can visit the food pantry once every seven days and may receive a meal voucher once every 30 days when normal campus activities are available. This service will not be provided during normal or emergency campus closures. Any student accessing this program is required to have a valid Student ID Card which can be purchased at any time for $10.00 at Admissions and Records or the Business Office.

For more information and operational hours please contact Student Senate in room 2318 or call (530) 242-7743.

**Student Senate/Student Government**

Since virtually all major decisions that are made on the Shasta College campus affect students in some way, student input is welcomed. The organized “student voice” to the campus community is facilitated through the Student Senate. Student views are represented on councils and committees of the college. The Student Body President is a member of the Board of Trustees. Student concerns are channeled through the Student Senate, which meets weekly. Contact the Office of Student Life for dates and times at (530) 242-7626. Student Senate focuses its attention in three main areas of concern: student needs and concerns, campus activities, and student services.

Shasta College students are encouraged to participate in the Student Senate. Students are elected and/or appointed to positions in the various levels of the Student Senate. The development of leadership qualities through participation is considered to be of prime importance in student self-government at the College. You can apply online to be a senator by visiting www.shastacollege.edu/student-life/student-senate. Once approved you will be added to our Canvas page.

**Theatre Arts**

Shasta College Theatre Arts offers learning opportunities in acting, scriptwriting, theatre practice and history, and production and technical theatre. The faculty and staff value diversity and create a welcoming environment and invite all students and community members to participate in classes and productions. The department features a variety of main-stage productions including comedies, dramas, and musicals. Classes are offered in-person and online. Rehearsals and performances are scheduled during the evenings and on weekends. For additional information, call (530) 242-7730.
Chapter 8: The College

A Brief History

Shasta College was founded in 1948 as part of the Shasta Union High School District. In the Centennial year of California and Shasta County (1950), Shasta College opened its doors on Eureka Way in the Fall with 256 day students. As part of the state’s Centennial celebration, President Harry S. Truman spoke at the college’s Thompson Field. There were 26 original faculty members.

Shasta College grew so rapidly that, in 1964, voters approved a bond issue for construction of a 337-acre campus at the main campus location. The present Shasta College main campus was originally a fur and trading center of the Wintu Indians, later occupied by a soldier and his family after the Mexican-American War.

Today, Shasta College extends its educational, cultural, and recreational facilities and services to all people in Shasta, Tehama, and Trinity Counties, including parts of Lassen, Modoc, and Humboldt Counties, an area that is more than 10,000 square miles, which is larger than the State of Massachusetts. An eight-member Board of Trustees, which includes a non-voting Student Trustee, represents the Shasta-Tehama-Trinity Joint Community College District.

The Shasta College mascot is the Knight. In 1955 the Shasta College Motor Knights Club built a knight with a suit of armor and lance. His name is “Oakey Doaks” (named for a cartoon character of the time). In 2012, a serious storm destroyed the original Oakey Doaks. Shasta College Welding Club students fabricated a replacement for the original Knight, and fabricated one additional Knight. The new Oakey Doaks Knights are mounted in front of the gym and at the football stadium entrance.

Between 2004 and 2009, the Intermountain, Trinity, and Tehama Campuses were established, with permanent buildings and high-tech classrooms. A state-of-the-art $1.5 million Early Childhood Education child care center and instructional facility opened on the Redding Campus in the fall of 2005. In the fall of 2007, a 44,000 square foot Health Sciences and University Center opened, which houses the college’s Dental Hygiene and Nursing Programs. It also serves as host to baccalaureate degree programs offered by both public and private universities. In Spring 2018, Shasta College awarded its first Bachelor’s degrees in Health Information Management.

Shasta College is part of the California Community College system, which is the largest system of higher education in the world, with 116 colleges organized into 72 districts. The college has articulation agreements to facilitate transfer to the University of California and California State University systems, and many private college campuses.

Because of the diversified goals and needs of its students, Shasta College offers a wide range of programs and services, including counseling, tutoring, financial aid, performing arts and athletic events, student activities, veterans’ services, cultural events, lecture series, workshops, and art exhibits. Shasta College has extensive offerings via online learning as well. Shasta College also offers instruction and student services at the Downtown Campus, Intermountain Campus, Tehama Campus, and Trinity Campus and each location utilizes computer-assisted learning to supplement on-site courses.

Fall 2020 marked the 70th Anniversary of Shasta College, serving the north state with pride and distinction.

Motor Vehicles on Campus

Operation of motor vehicles on the Shasta College campus must be conducted in a manner which ensures the safety of the driver, passengers, pedestrians, and/or any others, and which prevents damage to college property. The college is not responsible for loss of any property or damage to any property sustained by any person parking on campus.

Parking on Campus: PARKING PERMITS ARE REQUIRED TO PARK ON CAMPUS (Redding Main Campus and Tehama Campus). ALL PARKING IS ON A FIRST-COME, FIRST-SERVED BASIS. PARKING PERMITS ARE SOLD WITH NO GUARANTEE OF SPACE AVAILABILITY. Parking on campus is a privilege extended by the Board of Trustees to those who have college-related business. Drivers of vehicles on college property shall comply with the rules and regulations of the college. Parking privileges can be withdrawn for violations of parking and traffic regulations. Regulations and review process information are provided online at www.shastacollege.edu/campussecurity, or may be obtained from Campus Safety at (530) 242-7910. Permits may be obtained at registration.

Cost of Parking Permit: Refer to the Schedule of Classes or call (530) 242-7910.

Daily Parking Permits are available from parking permit dispensers in various locations throughout the campus parking lots. These are valid for the day on which the permit is purchased.

Parking permits must be displayed in plain view in the appropriate location according to Parking Regulations or a citation will be issued. There are no exceptions. Should you receive a citation, follow the written instructions on the front of the citation. Restricted parking where regular permits are not valid: 30 minute zones, metered parking, staff spaces, handicapped spaces (blue), and car pool spaces.

Car Pool Parking requires the purchase of a student permit and an additional permit which can be obtained without additional cost through the Campus Safety Department.

Enforcement: Campus parking and traffic safety regulations are enforced by Shasta College and the Redding Police Department. The Campus Safety Office issues parking citations for violations. For additional information, contact campus parking at (530) 242-7910.

Economic and Workforce Development (EWD)

The Economic and Workforce Development (EWD) Division at Shasta College is an integral part of the California Community College system, investing funding and resources in industry sectors that are key to California’s economic growth. The goal is to invest in the skills of California’s workforce – now and in the future – through partnerships with the K-12 system, business and industry that result in highly specialized industry training, technical consulting, and business development. The end result is to meet the industry’s need for skilled workers. Shasta College is host to various grants focused on industry specific pathways, including the CAL FIRE Heavy Equipment Logging Operations program, two Regional grants in Advanced Manufacturing and Business & Entrepreneurship, and the Far North “Center of Excellence” for workforce and labor market data analysis.

Our community and high school programs include Leadership High School, N.E.W. (Non-traditional Employment for Women), YEP (Youth Entrepreneurship Program), hosting the Shasta-Tehama-Trinity Adult Education Consortium, and the STEP-UP program. STEP-UP stands for Shasta Technical Education Program-Unified Partnership and opens the college doors to non-traditional students, prior offenders included, and supports them in navigating a path to student success.

EWD also hosts Community and Contract Education, including the recently created Business Training Center (BTC). Community
Education and the BTC offer a variety of classes and trainings for personal and professional growth, summer camps for kids, health and fitness-based education and programs. Extended Education and Distance Learning offerings expand community members' opportunities to engage in lifelong learning, complete college degrees and certificates, expand their interests, improve or broaden their occupational and professional preparation, or otherwise further their educational goals.

Classes are held at each of the three campuses listed below as well as other locations throughout the District. Classes are offered in a variety of formats including face-to-face instruction and online, and many students are now able to complete their degree or certificate without commuting to the Redding campus. Office hours at each campus are Monday through Thursday, 9:00 a.m. to 6:45 p.m., and Friday, 9:00 a.m. to 12:45 p.m.

Shasta College Tehama Campus
770 Diamond Avenue, Red Bluff, CA 96080
530-242-7750, option 6; tehama@shastacollege.edu

Shasta College Intermountain Campus
37581 Mountain View Road, Burney, CA 96013
530-242-7750, option 4; intermountain@shastacollege.edu

Shasta College Trinity Campus
30 Arbuckle Court, Weaverville, CA 96093
530-242-7750, option 5; trinity@shastacollege.edu

Services available at each campus include admissions assistance, on-site registration and counseling, assessment and orientation, tutoring, and career guidance.

Field Trips and Excursions Liability Policy
Throughout the semester/school year, the District may sponsor off-campus, extra-curricular field trips/excursions. If you choose to participate, be advised that pursuant to California Code of Regulations Sub-Chapter 5, Section 55220, you have agreed to hold the District, its officers, agents and employees harmless from any and all liability or claims which may arise out of or in connection with your participation in the activity.

Foundation
The Shasta College Foundation is a 501(c)(3) non-profit corporation comprised of volunteers representing Shasta, Tehama, and Trinity Counties. Since its establishment in 1995, the Foundation’s primary purpose has been to raise funds to support and benefit the Shasta-Tehama-Trinity Joint Community College District. The Shasta College Foundation is proud to serve our students and our communities by acting as a fiscal agent for various education-focused funds and entities, and by supporting activities and events which cultivate personal growth and build positive relationships within our communities.

Contributions to the Shasta College Foundation take many forms: gifts of cash, gifts in kind, stock or securities, trusts, real estate, gifts in memoriam, wills and bequests.

The Shasta College Foundation Executive Director is available to assist donors in establishing scholarships and in making other contributions. Please write or call:
Eva Jimenez, Executive Director
Shasta College Foundation
P.O. Box 496006
Redding, CA 96049-6006

Jeanne Clery Campus Crime Statistics (Clery Act)
Shasta College complies with the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act (Clery Act). The Shasta College Annual Security Report is provided to help ensure a safe environment for our college community and prospective students and employees. This document contains statistics for the previous three years concerning reported crimes that occurred on campus and on public property immediately adjacent to and accessible from the campus and fires that occurred in on-campus housing facilities. Additionally, the report provides valuable safety and security information including descriptions of the campus safety programs and policies, information regarding safety notification and emergency response procedures, missing student notification procedures, campus law enforcement, sexual assault, domestic violence and stalking prevention programs, and fire safety programs.

A complete copy of the Annual Security Report may be obtained from the Campus Safety Office located in Room 6500. The report is also available through our Campus Safety website: www.shastacollege.edu/aer and can be downloaded in PDF format.
For more information, contact Campus Safety at (530) 242-7910.

Open Access Policy
Board Policy 5052
Reviewed by the Board of Trustees 01/15/2020
Reference: Title 5, Section 51006

All courses, course sections, and classes of the District shall be open for enrollment to any person who has been admitted to the college. Enrollment may be subject to any priority system that has been established. Enrollment may also be limited to students meeting property validated prerequisites and corequisites, or due to other practical considerations such as exemptions set out in statute or
regulation. In consultation with program faculty or staff, the Superintendent/President has the authority to establish procedures that provide for special admission requirements for special programs as permitted by statute or regulation.

The Superintendent/President shall assure that this policy is published in the catalog and schedule of classes.

Sexual Violence Prevention and Education (AB 1088, amends Ed Code 67385.7)

Starting January 1, 2006, post-secondary education districts are required through AB 1088 to provide all incoming students with educational and preventive information about sexual violence, in addition to the sexual harassment information required by Ed Code 66281.5. During orientation and throughout the year, Shasta College provides primary prevention programs and events. In accordance with Assembly Bill 1088, Shasta College implements procedures to ensure that students, faculty and staff who are survivors of sexual violence on or off campus receive assistance, treatment, information and resource referrals. Shasta College collaborates with local law enforcement and advocacy agencies such as One SAFE Place, Empower Tehama, Rape Crisis Intervention and Prevention, and Human Response Network to provide response and services for survivors through our Shasta CARES (Campus Advocacy, Resources, and Education for Safety) program.

Any sexual assault or physical abuse, including, but not limited to, rape, domestic violence, dating violence, sexual assault, or stalking, as defined by California law, whether committed by an employee, student, or member of the public, occurring on District property, in connection with all the academic, educational, extracurricular, athletic, and other programs of the District, whether those programs take place in the District’s facilities or at another location, or on an off-campus site or facility maintained by the District, or on or around facilities maintained by a student organization, is a violation of District policies and regulations, and is subject to all applicable punishment, including criminal procedures and employee or student discipline procedures.

You can find out more information regarding our Sexual Assault Policy (BP 3540) on the Shasta College website at https://www.shastacollege.edu/about/leadership-organization/board-of-trustees/board-policies-administrative-procedures.

Throughout each semester, Shasta College Campus Safety and Shasta CARES provide students and employees with primary prevention training and events. The campus hosts awareness programs that promote the awareness and prevention of rape, acquaintance rape, domestic violence, dating violence, sexual assault, and stalking. These programs provide students and staff with an understanding of their rights, definitions and safety tips.

Further, Shasta College Campus Safety and Shasta CARES provide our campus with the tools needed in order to:

- recognize the signs, be positive bystanders and have a healthy way to express themselves so we can prevent incidences from occurring before they are happening.
- shift cultural and social norms by changing knowledge, attitudes, beliefs, behavior, and skills that support violence.
- promote behaviors that define and support equity, healthy relationships, and conflict resolution.

For further information, visit Campus Safety and Shasta CARES on the Shasta College website at www.shastacollege.edu/shastacares. You may also contact Campus Safety at (530) 242-7910.

The Violence Against Women Act (VAWA) Reauthorization and Campus Sexual Violence Elimination Act (Campus SaVE; Provision, Section 304) and Senate Bill 967 Student safety: sexual assault (“Yes Means Yes” Affirmative Consent Law)

President Obama strengthened and reauthorized the Violence Against Women Act on March 7, 2013. The bill included the Campus Sexual Violence Elimination Act (Campus SaVE), which amends the Clery Act and affords additional rights to campus survivors of sexual violence, dating violence, domestic violence, and stalking. This amendment improves transparency, accountability and education regarding these issues on campus.

Every post-secondary institution participating in Title IV financial aid programs will be required to:

- Report domestic violence, dating violence, and stalking, beyond crime categories the Clery Act already mandates as well as crimes motivated by gender identity or national origin;
- Adopt certain student discipline procedures, such as for notifying purported victims of their rights; and
- Adopt certain institutional policies and procedures to prevent and address campus sexual violence, dating violence, domestic violence, and stalking such as: primary prevention programs for new students and employees, ongoing primary prevention education programs and procedures to be followed after an incident occurs.

“Yes Means Yes” Affirmative Consent Definition: “Affirmative consent” means affirmative, conscious, and voluntary agreement to engage in sexual activity. It is the responsibility of each person involved in the sexual activity to ensure that they have the affirmative consent of the other or others to engage in the sexual activity. Lack of protest or resistance does not mean consent, nor does silence mean consent. Affirmative consent must be ongoing throughout a sexual activity and can be revoked at any time. The existence of a dating relationship between the persons involved, or the fact of past sexual relations between them, should never by itself be assumed to be an indicator of consent.

For a complete referral to all of the changes and implementations, please visit VAWA and “Yes Means Yes”.

Not Anymore Online Violence Prevention Training: All incoming and returning students are strongly encouraged to complete an online primary prevention program called “Not Anymore.” “Not Anymore” is an interactive online program designed to prevent sexual assault, dating and domestic violence and stalking and gives you the knowledge and power to make your campus safer - for you, and for the people you care about. The website URL is: www.shastacollegestudents.ca.safecolleges.com. Students will be emailed their username to log in.

For more information, contact Campus Safety at (530) 242-7910 or Title IX at (530) 242-7649.

Transportation

Public transportation is available within our District.

RABA (Redding Area Bus Authority)
http://www.rabaride.com/

RABA provides rides to over 650,000 people each year, and has been serving the redding, Shasta Lake and Anderson communities since 1981. Their website shows all of the RABA bus routes, hours of operation, fares and tips on using the service, and additional information including the location of each bus stop along the route. Their Customer Service Center is also available at (530) 241-2877 for all of your route and schedule questions and to purchase tickets and passes.

TRAX (Tehama Rural Area Express)
http://www.taketrax.com

Fixed route bus service connecting Red Bluff, Corning, Los Molinos, Gerber, Tehama and places in-between. City routes are available in Red Bluff and Corning, and special morning commuter runs are available along the Highway 99E and 99W corridors which connect to city routes. Their website contains information on routes, fares, etc. Special discounted fares are available for seniors, students and the disabled.
Unlawful Discrimination Policy

Compliance Statement: The Shasta-Tehama-Trinity Joint Community College District (the “District”) complies with the California Education Code, Title 5 of the California Code of Regulations, the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, and Title II of the Americans with Disabilities Act, in addition to all other governing federal, state, and local laws.

Anti-Discrimination Policy: It is the policy of the District to provide an environment free from unlawful discrimination and the District is committed to ensuring equal opportunity and access in its education programs and employment, including physical access to mobility-impaired individuals.

No individual on the basis of race, color, national origin, ethnic group identification, national origin, ancestry, religion (or religious creed), age, sex, gender, gender identity, gender expression, sexual orientation, marital status, physical or mental disability, medical condition, genetic information, military or veteran status, or on the basis of these perceived characteristics or based on association with a person or group with one or more of these actual or perceived characteristics, shall be unlawfully denied full and equal access to the benefits of, or be unlawfully subjected to discrimination under, any program or activity that is administered by, funded directly by, or that receives any financial assistance from the Chancellor or Board of Governors of the California Community Colleges or the District. The District’s strict forbiddance and zero tolerance of any form of unlawful discrimination includes harassment based on sex and any other protected status, i.e., unwelcome sexual advances and other unwelcome verbal and physical conduct, as defined by governing federal and state laws and applicable District policies.

The District has adopted administrative procedures to ensure that complaints of unlawful discrimination are addressed promptly and equitably in compliance with governing federal, state, and local laws and/or policies. An individual who believes that they have been subjected to unlawful discrimination, including harassment based on sex or any other protected status, may file a complaint under Administrative Procedure (AP) 3430 (Prohibition of Harassment)/Administrative Procedure (AP) 3435 (Discrimination and Harassment Complaints and Investigations), a copy of which can be found in the District’s Human Resources Office, Administrative Building 100, Room 121, 11555 Old Oregon Trail, Redding, CA 96003, (530) 242-7640. An individual may also obtain a copy of the governing complaint procedure at the Campus Center Building 2000 in the Student Services Office or from the District’s website at http://www.shastacollege.edu/Student%20Services/DSPS/Pages/Dis crimination-Complaint-Procedure.aspx.

- Associate Vice President of Human Resources/Equal Employment Opportunity Officer: To obtain more information about the District’s nondiscrimination policy generally or prohibition against sex discrimination under Title IX, please contact Marianne Williams, Associate Vice President of Human Resources and Equal Employment Opportunity Officer, P.O. Box 496006, Redding, California 96049-6006, (530) 242-7649, mewilliams@shastacollege.edu.

- Section 504/Title II Coordinator: To obtain more information about the District’s prohibition of discrimination against students with disabilities, please contact Sandra Hamilton Slane, Dean of Student Services and Section 504 Coordinator, P.O. Box 496006, Redding, California 96049-6006, (530) 242-7799, sslane@shastacollege.edu.

Filing a Complaint of Discrimination: To file a complaint of unlawful discrimination involving students only, please contact Dr. Kevin O’Rourke, Assistant Superintendent/Vice President of Student Services, at (530) 242-7621 or kororke@shastacollege.edu. For a complaint of unlawful discrimination involving an employee, please contact Marianne Williams, Associate Vice President of Human Resources/Equal Employment Opportunity Officer at (530) 242-7649, mewilliams@shastacollege.edu. For all other complaints involving allegations of unlawful discrimination or if you have questions about the complaint filing procedure generally, please contact the Associate Vice President of Human Resources/Equal Employment Opportunity Officer at the contact information listed above.

An individual who wishes to file an unlawful discrimination complaint is encouraged to complete and sign the District’s Unlawful Discrimination Complaint Form (Form). However, the District will treat a written and signed complaint submitted in a different format, such as a letter or e-mail, as if it were filed using the Form and will address its merits in a manner consistent with AP 3430.

The District will promptly and equitably investigate complaints of unlawful discrimination that meet the requirements of AP 3430. This equitable process will include the opportunity for the complainant to identify and present relevant witnesses and evidence for the District’s consideration during the investigation in a manner consistent with AP 3430.

The District will issue a written notice of its findings of its investigation under its formal resolution procedures within 90 days of receiving a complaint of unlawful discrimination. If the District finds that unlawful discrimination, including harassment and/or retaliation, occurred, the District will take appropriate action to remedy the unlawful discrimination. Retaliation against an individual who has filed a complaint of unlawful discrimination or participated in an investigation regarding such a complaint is strictly prohibited.

Declaración de cumplimiento: El Distrito Conjunto de Colegios Comunitarios de Shasta-Tehama-Trinity (el “Distrito”) cumple con el Código de Educación de California, Título 5 del Código de Regulaciones de California, la Ley de Derechos Civiles de 1964, Título IX de las Enmiendas de Educación de 1972 y la Sección 504 de la Ley de Rehabilitación de 1973 y el Título II del Acta para los Norteamericanos con Discapacidades, además de todas las demás leyes que rigen federales, estatales y locales.

Política Anti-Discriminación: Es la política del Distrito para proporcionar un ambiente libre de discriminación ilegal, y el Distrito se compromete a garantizar la igualdad de oportunidades y el acceso a sus programas de educación y empleo, incluyendo el acceso físico a las personas con movilidad reducida.

Ningún individuo sobre la base de raza, color, origen nacional, grupo étnico, origen nacional, ascendencia, la religión (o credo religioso), edad, sexo, género, identidad de género, expresión de género, orientación sexual, estado civil, física o mental discapacidad, condición médica, información genética, estado militar o veterano, o sobre la base de estas características percibidas o basado en asociación con una persona o grupo con una o más de estas características reales o percibidas, será negado legalmente el acceso pleno e igual a los beneficios de, o ser sometidos ilegalmente a la discriminación bajo cualquier programa o actividad que se administra por, financiado directamente por, o que recibe alguna ayuda económica por el Canciller o la Junta de Gobernadores de los Colegios Comunitarios de California o el Distrito. La estricta prohibición del Distrito y la tolerancia cero de cualquier forma de discriminación ilegal incluye acoso por razón de sexo y cualquier otra condición protegida, es decir, los avances sexuales no deseados y otra conducta verbal y físico no deseado, como se define por las leyes vigentes federales y estatales y las políticas aplicables del Distrito.

El Distrito ha adoptado los procedimientos administrativos para asegurar que las quejas de discriminación ilegal se envían rápidamente y de manera equitativa en el cumplimiento de gobernar, el estado y las leyes y/o políticas locales federales. Una persona que
cree que él/ella ha sido objeto de discriminación ilegal, incluyendo a base de acoso sexual o cualquier otra condición protegida, puede presentar una queja en virtud del Procedimiento Administrativo (AP) 3430 (Prohibición de Acoso)/Procedimiento Administrativo (AP) 3435 (Quejas e Investigaciones de Discriminación y Acoso), una copia del cual puede se encuentra en la Oficina de Recursos Humanos del Distrito, Edificio Administrativo 100, Sala 121, 11555 Old Oregon Trail, Redding, CA 96003, (530) 242-7640. Un individuo también puede obtener una copia del procedimiento de quejas que rige en el Edificio Campus Center 2000 en la Oficina de Servicios para el Estudiante o desde el sitio web del Distrito en http://www.shastacollege.edu/Student%20Services/DGPS/Pages/Discrimination-Complaint-Procedure.aspx.

- **Vicepresidente Adjunta de Recursos Humanos/Oficial de Igualdad de Oportunidades de Empleo:** Para obtener más información sobre la política de discriminación del Distrito en general o la prohibición de la discriminación sexual bajo el Título IX, por favor, póngase en contacto con el Vicepresidente Adjunta de Recursos Humanos y Oficial de Igualdad de Oportunidades de Empleo, P.O. Box 496006, Redding, California 96049-6006, (530) 242-7649, mewilliams@shastacollege.edu.

- **Sección 504/Título II Coordinador:** Para obtener más información acerca de la prohibición del Distrito de la discriminación contra los estudiantes con discapacidad, por favor, póngase en contacto con Sandra Hamilton Slane, Decana de Estudiantes y el Coordinador de la Sección 504, P.O. Box 496006, Redding, California 96049-6006, (530) 242-7799, sslane@shastacollege.edu.

**La presentación de una queja de discriminación:** Para presentar una queja de discriminación ilegal que involucre a los estudiantes solamente, por favor, póngase en contacto con el Dr. Kevin O’Rorke, Asistente Superintendente/Vicepresidente de Servicios Estudiantiles, al (530) 242-7621 o kororke@shastacollege.edu. Para una queja de discriminación ilegal que involucre a un empleado, por favor, póngase en contacto con el Vicepresidente Adjunta de Recursos Humanos y Oficial de Igualdad de Oportunidades de Empleo al (530) 242-7649, mewilliams@shastacollege.edu. Para el resto de las quejas relacionadas con acusaciones de discriminación ilegal o si tiene preguntas acerca de la presentación de la queja procedimiento general, por favor comuníquese con el Vicepresidente Adjunta de Recursos Humanos y Oficial de Igualdad de Oportunidades de Empleo de la información de contacto que aparece más arriba.

Una persona que desee presentar una queja de discriminación ilegal se anima a completar y firmar el Formulario para Queja de Discriminación ilegal del Distrito (Formulario). Sin embargo, el Distrito tratar una queja por escrito y firmada presentada en un formato diferente, como una carta o correo electrónico, como si estuviera presentada utilizando el Formulario y se dirigirá a sus méritos de una manera consistente con AP 3430.

El Distrito investigará con prontitud y de manera equitativa las quejas de discriminación ilegal que cumplan con los requisitos de la AP 3430. Este proceso equitativo incluirá la oportunidad al demandante para identificar y presentar testigos y pruebas pertinentes a la consideración del Distrito durante la investigación de una manera consistente con AP 3430.

El Distrito emitirá una notificación por escrito de sus conclusiones de su investigación de conformidad con sus procedimientos formales de resolución dentro de los 90 días de haber recibido una queja de discriminación ilegal. Si el Distrito determina que la discriminación ilegal, incluido el acoso y/o represalias, ha ocurrido, el Distrito tomará las acciones apropiadas para remediar la discriminación ilegal. La represalia contra un individuo que ha presentado una queja de discriminación ilegal o ha participado en una investigación relacionada con una denuncia de este tipo está estrictamente prohibida.

LARSON, JAIME (1996) Mathematics; A.A., Porterville College; B.A., California State University, Chico; M.A., California State University, Fresno

LESICKO, DESIREE (2018) Career and Life Success; B.A., Concordia University Irvine; M.A., California Baptist University

LIGHTFOOT, ROBB P. (1990) Communication Arts; A.A., Bakersfield College; B.A., California State University, Bakersfield; M.A., California State University, Northridge

LIVINGSTON, JOHN (2006) Equipment Operations; A.A., Shasta College; B.S., M.S., California Polytechnic State University

LORING, SUSAN E. (1990) Counselor; B.A., Brown University; M.S., San Francisco State University

MA, JUN (2019) Mathematics; B.S., Xian Jiantong University; M.S., Ph.D., University of Minnesota

MAHAR, KATHLEEN (2014) Dean, Institutional Effectiveness; B.A., Rollins College; M.A., State University of New York and New Palz; Ed.D, University of Southern California

MARIE, MIKE (2014) Dean of Physical Education and Athletics; B.S., Humboldt State University; M.A., University of Phoenix

MARKEE, MELISSA (2016) Natural Resources; B.S, M.S., University of Nevada, Reno

MARLATT, MELINDA (2015) Counselor; B.A., California State University, Chico; M.S., National University

MARLEY, RONALD K. (1995) Fire Technology; A.S., Solano College; B.A., California State University, Sacramento

MARLEY, YVETTE (2018) American Sign Language; A.A., Palomar College; B.A., University of California, Santa Cruz

MARTIN, THOMAS (2002) GIS/Business; B.S., M.S., Utah State University; Ph.D., University of La Verne

MARTINEZ MARCEE (2018) Physical Therapist Assistant; B.A., Sonoma State University; M.P.T., Samuel Merritt College

MAY, MELODY (2001) English; B.A., University of California, San Diego; M.A., City College of San Francisco

MCANDLESS, JENNIFER (1998) Mathematics; B.A., California State University, Sacramento; M.S., Oregon State University

MCANDLESS, ROBERT (2016) Counselor; B.A., California State University, Sacramento; M.A., University of La Verne

MCCORMICK, JEFF (2019) Physical Therapist Assistant; B.A., University of California, Davis; M.S., Boston University

MCURRY, SARA (2007) English; B.S., Minot State University, North Dakota; M.A., Texas State University; Ph.D., University of Oregon

McQUEEN, MEGAN (2000) Counselor; B.A., California State University, Sacramento; M.S., San Francisco State University

MIHLE, CAMELLIA (2013) Mathematics; B.A., University of California, Santa Barbara; M.A., California State University, Fullerton

MIKULA, BOB (2014) Communication Studies; B.A., University of California, Irvine; M.A., National University

MITCHELL, THOMAS CLANCY (2019) Truck Driving; B.A., Sacramento State University; M.A., University of California, Irvine

MORRIS, MICHELLE (2016) Associate Degree Nursing; B.S.N., Simpson University; M.S.N., University of California, Davis

MULVIHILL, HALEY (2017) Athletic Trainer; B.S., Lindenwood University; M.S., Humboldt State University

NICHOLAS, RAYMOND (2005) Diesel Technology; A.S., Oregon Institute of Technology

NIGRO, FRANK G. (1997) Assistant Superintendent/Vice President of Instruction; B.A., California State University, Chico; M.A., Ph.D., Vanderbilt University

NITSCH, ANGELA (2016) Associate Degree Nursing; B.S., Humboldt State University; M.S.N, University of Phoenix; DNP, Samford University

NOLTE, KENNETH (2002) Biology; B.S., University of Wisconsin; M.S., Texas A&M University

NUTALL, JONATHAN (2019) Anatomy/Physiology; B.S., St. Bonaventure University; Ph.D., University of California, Davis

O’RORKE, KEVIN (2006) Assistant Superintendent/Vice President of Student Services; B.S., Idaho State University; M.Ed., Northern Arizona University; Ph.D., Arizona State University

ORANGE, MADELINE (2019) Associate Degree Nursing; A.S.N., Central Maine Medical Center College of Nursing and Health Professionals; M.S.N., Saint Joseph’s College

OSBORNE, REBECCA (2017) Anatomy/Physiology; B.S., University
of Washington, Seattle; Ph.D., University of California, Los Angeles

OSBRINK, RICHARD (2016) Industrial Technology; A.S., Shasta College

PADILLA, NOEHLY (2018) Counselor; B.A., M.A., California State University, Chico

PALMER, CARISSA (2017) Medical Assisting; B.A., Simpson University; M.S., National University

PRESNELL, SHELLY (2005) Speech; B.A., M.A., California State University, Chico

RANDHAWA, SONIA (2015) Counselor; B.A., University of Phoenix; M.S., National University

REED, RANDAL (1999) Geology; B.S., University of Nevada; M.S., Northern Arizona University

REYES, CARLOS (2018) Dean of Science, Language Arts, and Mathematics; B.S., Florida International University; M.A., Pennsylvania State University

RIGGS, LISA (2018) Counselor; B.A., California State University, Chico; M.S., University of La Verne

RILEY, ALEXIS (2019) Health Information Technology; B.S., M.A., Southern Nazarene University

RIVAS, ISHMAEL (2017) Automotive/Diesel; A.S., Shasta College

RODRIGUEZ, CHRISTOPHER (2019) History; B.A., Sonoma State University; Ph.D., University of California, Davis

ROSSMAN, SHAUNNA (2015) Counselor; B.A., California State University, Chico; M.S., University of La Verne

RUPERT, BRADLEY (2005) Head Baseball Coach/Physical Education; B.A., California State University, Chico; M.A., Simpson University

SCHINKE, SUSAN M. (1990) Art; B.F.A., University of Wisconsin; M.F.A., Ohio State University

SCHURIG, CASEY (2008) Business Administration; B.S., M.A., California State University, Chico

SCOLLON, DANIEL (1996) Natural Res./Environmental Technology; B.S., California Polytechnic University, San Luis Obispo; M.A., San Francisco State University

SHELTON, TIMOTHY (2016) Chemistry; B.S., California State University, Chico; Ph.D. University of California, Davis

SHIRER, TALIA DAWN (2018) Counselor; B.A., M.A., National University

SITTIG, ANN (2005) Spanish; B.S., University of Nebraska; M.A., San Francisco State University; Ph.D., Universidad Autonoma de Madrid, Spain

SIVADAS, IRAJA (2007) Mathematics; B.A., M.A., University of California, Santa Cruz

SKAGGS, NANCY (2014) Vocational Nursing; B.S., Simpson University; M.S., Walden University

SMITH, NICOLE (2016) Psychological Counselor; B.A., M.S.W., California State University, Chico

SPECHT, JEFFREY (2018) Music Theory and Orchestra; M.M., Southern Methodist University; D.M.A., University of Minnesota, Twin Cities

SPILLANE, BRIAN (2000) Counselor; B.A., M.A., Ph.D., University of Dallas

SPOTTS, CHARLES R. (1990) Mathematics; B.A., California State University, Chico; M.S., California State University, Northridge

STEWART, JOSHUA WADE (2015) Family Studies; B.S., Brigham Young University; M.S., Utah State University

SUGIMOTO, RACHELLE (2012) Mathematics; B.A., Fresno Pacific College; M.A., California State University of Fresno

TATE, JAMES (2007) Archaeology/Anthropology; B.A. Old Dominion University, M.A. Northern Arizona University, Ph.D., University of California, Santa Barbara

TELLO, JUAN RAMON (2001) Philosophy; B.S., M.A., Ph.D., University of California, Santa Barbara

Chapter 10: Glossary of College Terms

AA, Associate in Arts Degree: Liberal arts degree, designed to be completed in two years, for students who plan to transfer to a four-year college or university.

ADT, AA-T, and AS-T Degrees: Associate degrees, designed to be completed in two years, for students transferring to the CSU system.

AS, Associate in Science Degree: Degree in a technical or occupational program, designed to be completed in two years, possibly for transfer to a four-year college or university.

Academic Renewal: A means whereby a student may petition to have previous college work (grades and credits) excluded from current grade point average, if that work is more than two years old and is not reflective of the student's present level of ability or performance.

Academic Year: The regular terms of instruction not including summer session. Fall and Spring Semesters.

Accreditation: The review of the quality of higher education institutions and programs by an association composed of institutional representatives. The Accrediting Commission for Community and Junior Colleges (ACCJC) of the Western Association of Schools and Colleges (WASC) accredits California's community colleges.

Articulation: The process of developing a formal, written agreement that identifies courses (or sequences of courses) on a "sending" campus that are comparable to, or acceptable in lieu of, specific course requirements at a "receiving" campus.

Advisory on recommended preparation: A condition of enrollment that a student is advised, but not required, to meet before or in conjunction with enrollment in a course or educational program.

Baccalaureate: Refers to the baccalaureate or bachelor's degree usually achieved after four years of undergraduate college study. Shasta College offers the first two years of baccalaureate work in many fields of study, as well as one baccalaureate-level degree in Health Information Management.

Basic Skills: Courses in reading, writing, computation, and English as a Second Language that prepare students for college-level work. Also called foundational skills, remedial coursework, or developmental courses.

CalWORKs: California Work Opportunity and Responsibility to Kids. CalWORKs is a public assistance program that provides cash aid and support services, financial assistance, and educational programs that assist students who have experienced economic and educational disadvantages.

CARE: Cooperative Agencies Resources for Education. A California College Promise Grant. A state-funded program that helps fund education expenses, available on a competitive basis to students who are not recent high school graduates or otherwise don't qualify for an Entitlement Cal Grant.

CASA: Concurrent Student: A high school student enrolled in online or in-person Shasta College course(s) for college credit prior to high school graduation.

Continuing Student: A student who was enrolled at Shasta College during the most recent previous semester.

Corequisite: A condition of enrollment consisting of a course that a student is required to simultaneously take in order to enroll in another course.

Credit: A completed and passed unit of study recorded on the student's official college record.

CSU: California State University System. Of the twenty-three state universities, the two closest to Shasta College are CSU Chico and CSU Humboldt.

CSU General Education Certification: Transfer courses certified by Shasta College for meeting General education requirements at the California State Universities.

Curriculum: (plural, curricula) Often called “discipline.” All the courses education requirements.

Distance Education: Classes and other educational services offered via the Internet or other technological means of teaching at a distance. Distance Education may be either synchronous or asynchronous.

District: The area served by Shasta College is the Shasta-Tehama-Trinity Joint Community College District. The District is the governing entity of the College.

Drop/Add: Revision of program of courses when a student wants to drop, change, or add a course.

Dual Enrollment: High school students taking Shasta College college coursework for both high school and college credit, during the high school day, on the high school campus, taught by a qualified high school instructor.

Elective: Any course not required for a major field or General education requirements.

Enrollment: Official recorded placement of a student in a class.

Entitlement Cal Grant: A grant to help pay educational expenses available to all California resident high school graduates who apply in their senior year and meet income and GPA requirements.

EOPS: Extended Opportunity Programs and Services. Special support services, financial assistance, and educational programs that assist students who have experienced economic and educational disadvantages.

FAFSA: Free Application for Federal Student Aid. The uniform application for federal, Cal Grant, and campus-based financial aid.
**Full-time Student:** A student taking twelve or more class units in a regular semester.

**General Education:** A required pattern of courses covering a breadth of subjects thought to be useful for all college students regardless of major. There are three main General Education patterns: one for local Associate degrees, one for students intending to transfer to a CSU, and IGTEC, which is transferable to both the UC and CSU systems.

**G.P.A.:** Grade Point Average. The G.P.A. is compounded based on points for each grade received. Per unit an "A" grade is worth 4 points, a "B" worth 3, a "C" worth 2, a "D" worth 1, and an "F" worth 0. The total number of points accumulated is divided by the number of course units taken for a letter grade. Credit (CR), No Credit (NC), or Incomplete (I) grades are not computed in the grade-point average. Current G.P.A. is for the most recent semester. Cumulative G.P.A. is for all College work to date.

**IGTEC:** Intersegmental General Education Transfer Curriculum. A pattern of General Education courses which is transferable to both the UC and CSU systems.

**Independent Study:** Independent study provides a forum for advanced work in a given field of study.

**Institutional Student Learning Outcomes (ISLOs):** Outcomes identified by Shasta College to support student success.

**Major:** Area or field of concentration for occupational certificate or associate degree.

**Matriculation/Student Success and Support Program:** Matriculation is a process which brings Shasta College into an agreement with a student for the purpose of realizing that student's educational objectives. The process includes Application, Records, Assessment Testing, Counseling, and Orientation.

**Nonresident:** A person who has not lived continuously in California for one full year prior to enrollment.

**PACE:** Partners in Access to College Education. Program providing both physical and educational accommodations to eligible students with disabilities.

**Part-time Student:** Any student enrolled in fewer than 12 units of course work in a regular semester.

**Pell Grant:** A federal financial aid grant available to qualified students who are enrolled in six or more units.

**Petition:** A request, usually written on a standard form, to adjust a study list or curriculum to fit an individual situation and/or request exception to a policy or regulation.

**PLO:** Program Learning Outcome. A statement about the knowledge, skills, attitudes, and abilities a student is expected to have upon successful completion of a program of study.

**PTK:** Phi Theta Kappa. The honors society for community college students.

**Prerequisite:** A condition for enrollment in a course or a major. Prerequisites for courses usually consist of a previous course or courses in a related subject and/or the instructor's permission. Prerequisites are described in the Catalog course descriptions and indicated in the schedule of classes with an asterisk *** following the course number.

**Probation:** An indication that performance is below standard because of academic or progress deficiencies; a trial period in which a student is permitted to redeem failing grades or deficient units.

**Registration:** The process of providing required information and enrolling in classes each semester.

**Resident:** A person who has resided in California for one full year prior to enrollment and who meets other residency requirements.

**Returning Student:** A student who has previously attended Shasta College but did not enroll during the most recent previous term.

**Scholarship:** An amount of money awarded by a school, individual, or organization (on the basis of need, academic merit, or other criteria) in order to help pay for a student's education.

**SCFFI:** Shasta College Inspiring and Fostering Independence is an educational support program for students who are current or former foster youth.

**Semester:** A subdivision of the academic year into two semesters, usually Fall and Spring, each lasting approximately eighteen weeks. To convert semester units to quarter units, multiply by 3/2. To convert quarter units to semester units multiply by 2/3.

**Shasta CARES:** Campus Advocacy, Resources & Education for Safety. Shasta CARES works side-by-side with the Shasta College community to provide advocacy, support, and education to reduce sexual assault, domestic violence, dating violence, and stalking.

**SLO:** Course-Level Student Learning Outcome. A statement about the knowledge, skills, attitudes, and abilities a student is expected to have upon successful completion of a course.

**Student Educational Plan:** A process that helps the student select a specific educational goal, describes the responsibilities of the student in reaching that goal, and states in written form the courses, programs and services required to achieve that goal. Required for financial aid and veteran students.

**Student Learning Assessment:** Ongoing processes developed by faculty to assess student learning to ensure that students are attaining knowledge and skills.

**Student Senate (SCSS):** All Shasta College students are members of the Student Senate and are represented by an elected and appointed student government called the Student Senate.

**TBA:** To Be Announced or Arranged is noted in the Schedule of Classes when the instructor, room, or time of a course was not known at the time of schedule printing. If the class has no specified hours, the student should contact the instructor to arrange the hours.

**Title 5:** The portion of the California Code of Regulations containing regulations adopted by the Board of Governors which are applicable to community college districts.

**Transcript:** Official copy of a student's academic record (courses and grades).

**TRIO Programs:** A series of federal outreach and student services programs in the United States designed to identify and provide services for individuals from disadvantaged backgrounds.

**Unit:** Courses are assigned a unit value based on one unit of credit for every hour of lecture or 3 hours of laboratory time per week by the student. A student's progress in the college is determined in part by the number of units completed.

**UC:** University of California. Of the ten universities, the closest to Shasta College is UC Davis.

**University Center:** A partnership between Shasta College and several regional universities to bring four-year Bachelor's degree programs to our District.

**Work Study:** Usually refers to "College Work Study," a program of federal aid that provides funds for student jobs on campus.

**Worksite Learning:** A program of college credit for work experience combined with college study.
