4. Discussion/Action Items
 - a. Curriculum Maps Tutorials

Will shared an updated version of the Curriculum Map template with guidance. There was a suggestion to add a final tab to the spreadsheet with instructions as well. The purpose of Curriculum Maps was also included in the updated template to better help guide those utilizing the tool and ensure people understand the purpose. It was also requested to add definitions regarding the SLO Assessment Plan section. Emphasis was placed on the importance of “criteria for success” (located on SLO Assessment Plan tab) and how it is a great tool for continuous improvement. This SLO template is meant to encourage faculty to evaluate what they want their students to achieve.

Other recommended edits:

-Add a “Start Here” tab in this spreadsheet on the 1st tab. This could include step-by-step instructions. Can also include a “use the hover” note instructions and have this feature in multiple areas.

-Consolidate all of Will’s notes and directions into one tab, including the why, tips, etc.

These updated curriculum map templates will be worked on during the summer and distributed to faculty once completed.

5. Future Meeting – April 23rd, 2026
