

Update

Program (UnivSt) - University Studies: Natural Sciences AA.1512

Program Catalog Summary: University Studies – 18 Unit

Emphasis: SC Program: AA.1512

The Natural Sciences emphasis is designed to provide lower division major courses to transfer to a university and pursue baccalaureate degrees in life science and physical science areas.

The Learning Outcomes correspond to the Institutional Student Learning Outcomes.

Choose 18 transferable units from the following disciplines:

AGAS 19

AGEH 33

AGNR 60, 61

AGPS 20

ANAT 1

ASTR 1

BIOL 1, 5, 6, 10, 11, 12

BOT 1

CHEM 1A, 1B, 2A, 2B, 10, 11, 70, 70A, 71, 71A

ESCI 1, 2, 3, 6, 7, 8, 9, 10, 12, 14, 15, 17, 18

FSS 25

MICR 1

NHIS 15

PHSC 1

PHY 1

PHYS 2A, 2B, 4A, 4B, 4C

ZOOL 1

Fall 2018

Who completed this form: Program Review Committee

Other factors for consideration: This is a University Studies degree that is reviewed by the Program Review Committee and forwarded to the program faculty and counselors for input.

****TO BE COMPLETED BY THE PROGRAM REVIEW COMMITTEE** PRC Action:** PRC recommends the program continue without qualification

Summary of findings: The PRC recommends this program continue without qualification. The program has averaged 28.4 completers per year over the past five years, and had 35 completers in 2016/17. There are no “core courses;” students choose 18 units from a wide array of diverse natural science courses. Enrollments per section have remained steady with a five-year average of 18.2 students per section. However, total enrollments have eroded -8.06% from a high in year 2012/13 of 4054 students with 221 sections, to 3727 students in year 2016/17 with 203 sections. It should be noted that the lowest enrollments were in 2014/15 with 3572 and enrollment growth in 2016/17. The five-year average success rate for all potential classes is 69.77% and slightly below the Institution- Set Standard of 70%. Retention rates are strong with a five-year average of 84.55%. The SLO's for all classes have NOT been mapped to ISLO's, which serve as the program learning outcomes for the University and General Studies degrees.

The PRC commends the Natural Science faculty for maintaining strong retention and managing enrollments and sections offered for student access and scheduling efficiency.

The PRC recommends the following:

1. Natural Science faculty map ALL of the SLO's to ISLO's, which serve as the program learning outcomes for the University and General Studies degrees.
2. The program faculty look for opportunities to increase student success rates.
3. Counseling work with research to identify possible core course for this degree.

Program faculty response: During the latter few days of October, there was a communication exchange between counselors and PRC chair which was forwarded with permission to Carlos Reyes, and Iva Weidenkeller. Again exchange seeking details transpired and Iva provided this very helpful email on 10.29.18 included here with permission:

"Carlos and Stacey,

It looks like the last change attempt to AA.1512 was by Dan Scollon in 2015, but was never resolved; the program changes went to the curriculum committee in December 2015 but weren't fully processed. This was before I took over the curriculum tech position, so I'm not sure what did or didn't happen—it could be that the proposed changes fell through the cracks during the transition from auto-approving program changes to manual approvals with the Chancellor's Office?

In any event, the courses listed in CurricUNET (including some of the additions that Sue mentioned) do not match what is listed in the catalog. The CurricUNET version does not include FSS/NUTR 25, for example.

I have been tasked by the Curriculum Committee to aid with US/GS program changes where no program owner exists, but this was to consist primarily of carrying through other changes (e.g. changing FSS 25 & NUTR 25) and removing deactivated courses, not adding new courses or making other "non-technical" changes. As I am not faculty, I do not have the authority to make decisions regarding course additions.

Also—although Dan was the last to make changes, I always thought this program was one of Randy Reed's...

Here is what I would recommend: identify a program author/sponsor and have them contact me about the best way to make changes to this program. Since the previous changes were never finalized, it might be best to continue with the existing modification proposal in CurricUNET and make additional changes as needed (including adding courses that are listed in the catalog but not CurricUNET, if desired)."

Dean Reyes indicated he would have Randy and Dan follow up.

Counselor response: Carolyn Borg: I agree with the continuance of University Studies -- Natural Sciences. Counselors also use this as a "meta major" for new students who want a science major but aren't sure which one. We use it for transfer Dental Hygiene majors, since the DH prerequisites require a second chemistry instead of Microbiology. It also works for Kinesiology majors when the PE activity courses aren't feasible. So in summary, it's not that students are transferring to a "Natural Sciences" major at the university, the degree is broad enough that we can use it for majors that don't have an associated AS-T degree. For that reason, I wouldn't suggest a core course.

Sue Loring: I barely need to respond. Carolyn has once again written what I was going to say (except DH does require Microbiology). I also support continuing this program without qualification. I'd also note that the decline in total enrollments probably mirrors the decline in FTES during the same period. I, too, do not support a set of core courses because the flexibility is what makes this degree so valuable.

There are a couple of issues with the degree that should be fixed, though. FSS 25 is now Nutr 25, and there appear to be some accidental omissions. Anth 1, Astr 2, Astr 2H, Biol 10L, Biol 12L, Geog 1A and Geog 1AL are all approved to transfer to both the CSU and UC systems as science courses. They should be added to the list of classes for the emphasis.

Date reviewed by College Council: 02/05/2019

College Council response or additional action: College Council acknowledged receipt. **Superintendent/President response/additional action:** N/A
