ECE Lab News

CAEYC 2022

*Congratulations Teachers
Karen Sinderson
and Wendy Hord*

We have some good news! Our teachers Wendy and Karen have won a scholarship from Quality Counts North State to the California Association for the Education of Young Children's yearly conference! The other good news is, this conference is in person for the first time in two years. Congratulations teacher Wendy and Teacher Karen!!! We are very proud of you both. This also means the full day class will be closed April 29th and May 2nd. We are sorry for any inconvenience this closure will cause you but we are also very happy for the teachers and excited for the new ideas they will bring back to us!

Does he live there or is he just visiting?

It started with doors appearing like magic in various places in the outdoor classroom. Children and teachers began to wonder together. Where do these doors lead to? Who put them there? Who lives there?

Not too long after the doors appeared, suddenly there was a picnic table and even step stones? Was it frogs? Was it people? Was it fairies? Was it mice? Spiders? Birds?

Suddenly one day a frog appeared. Does he live here? Is he just visiting?

Wondering with children, instead of giving answers, leads to deeper thinking and investigation. Reflection on the investigation can lead to projects or inspire other investigations.

Week of the Young Child Paper Doll Project

The paper dolls are on display for the month of April in the Administration building 100.
