

All students applying for Health Sciences Programs will need to have a current CPR certification that meets five (5) specific criteria. The selected course must be at the **(1) *Healthcare Provider*** level. The course will include **(2)** Basic Life Support (BLS) for adult, child and infant CPR and **(3)** 2-rescuer resuscitation with hands-on practicum and testing. The certification card issued must include the **(4)** American Heart Association (AHA) logo and **(5) No online courses are accepted.**
