**Continuing Students** are students currently enrolled at Shasta College.

**Returning Students** are those who attended Shasta College in previous semesters but are not currently enrolled.

**New Students** are first time attending any college.

**Transfer Students** are those who have completed courses at other colleges or universities.

**Concurrent students** are those who are concurrently enrolled in grades K-12.

**Matriculated students** are those who have completed orientation, assessment and developed a student education plan (Title 5, section 58108).

**Semesters** are full-length terms. Summer term is not considered a semester. Semesters are considered consecutive on the basis of the student’s enrollment so long as the break in the student’s enrollment does not exceed one semester (Title 5, Section 55031).

Students who first attended Shasta College Fall 2014 or after must complete an orientation, assessment and develop an education plan and remain in good standing to enjoy priority enrollment. A student may appeal the loss of priority enrollment status due to extenuating circumstances or where a student on academic or progress probation demonstrates significant academic improvement. Extenuating circumstances are verified cases of accidents, illnesses or other circumstances beyond the control of the student. Significant academic improvement is defined as achieving the minimum grade point average and progress standard established in section 55031 for the term. Please see a Counselor for possible matriculation exemptions. Units completed at other colleges are not used in determining registration priority.

**REGISTRATION INFORMATION**

**ONLY OFFICIALLY REGISTERED STUDENTS MAY ATTEND CLASSES. STUDENTS WHOSE NAMES DOES NOT APPEAR ON THE INSTRUCTOR’S CLASS LIST ARE NOT OFFICIALLY REGISTERED AND WILL NOT RECEIVE CREDIT OR GRADES.**

**APPLICATIONS AND INFORMATION SHOULD BE REQUESTED FROM:**

  P.O. Box 496006, Redding, CA  96049-6006

**CONTINUING STUDENTS:** (Students currently enrolled at Shasta College): Please check your registration date that will be sent to
your email address on file or you may find your registration date and time on your MyShasta account.

RETURNING STUDENTS: (Students who attended Shasta College in previous semesters but are not currently enrolled): Please contact the Admissions and Records Office for a registration date.

TRANSFER STUDENTS: (Students who have completed courses at other colleges or universities, but not Shasta College): Please contact the Admissions and Records Office for a registration date.

FIRST-TIME NEW STUDENTS: You are a first-time new student if this is the first time attending any college. You are required to participate in matriculation services. “Matriculating” students receive a priority registration date after completing the following steps:

1. Apply for admission to the college.
2. Complete an online orientation
3. Develop an Education Plan and determine English and math placement options.
4. Send official transcripts of high school and previous college work to the Admissions and Records Office.
5.

New students will receive priority registration based on the completion of matriculation. Registration priority shall be lost at the first registration opportunity after a student: 1) is placed on academic or progress probation or any combination thereof for two consecutive terms; or 2) has earned one hundred (100) or more degree-applicable units at Shasta College except in designated high unit majors. Nonexempt students who have completed core matriculation services identified above are also required to complete a comprehensive education plan after completing 15 semester units of degree applicable credit course work or prior to the end of the 3rd semester of enrollment.

ADDING A CLASS: Students may be added into an open class through the 10% completion point of the class. After the first two class meetings, approval by the instructor is required to add the class, which includes both the signature of the instructor and the first date of attendance. IT IS THE STUDENT’S RESPONSIBILITY to use an authorization code or pick up an “add form” from the Admissions and Records Office and take it to the instructor for approval. The student must then return the form to the Admissions and Records Office or the Extended Education campus for processing before the “add” is finalized.

ATTENDANCE: Students are expected to attend all classes. A student who fails to attend the first class meeting of a course without notifying the instructor may be dropped from the class. In addition, an instructor may drop a student during the first 75% of the class for non-attendance. Nevertheless, IT IS ALWAYS THE STUDENT’S RESPONSIBILITY TO OFFICIALLY DROP OR WITHDRAW from the class. Students who fail to file the necessary forms, even though they stop attending class, will be assigned a course grade.

CLOSED CLASSES: A closed class is one which has reached its maximum enrollment. The only way that a student is allowed into a closed class is:

- The student has their name added to the class wait list so, as enrolled students withdraw, the wait-listed student may be added to the enrollment list depending upon their wait-list priority. An e-mail to the student is automatically generated, and the student has until midnight of the date the e-mail was sent to pay the appropriate fees and achieve official enrollment status; OR
- The student must obtain the instructor’s permission. The instructor verifies permission by signing a student add/drop form and including the date of first attendance.

In either event, the student must attend the first class meeting.

CONFLICTING CLASSES: The State of California generally will not allow students to enroll in classes that are held at the same time or that have overlapping times. A Petition to Enroll in Overlapping Course form can be picked up from the Admissions & Records office.
DROPPING A CLASS: *IT IS THE STUDENT’S RESPONSIBILITY TO DROP A CLASS(ES).* The Enrollment Fee and/or material fees are refundable if a class is dropped during the first 10% point of the length of the course.* Students may drop a class and have no notation appear on their transcripts through the census date of each class. Students are able to drop classes on-line through MyShasta. The student may withdraw from a class from the census date up to 75% of the length of the course. The notation "W" will appear on the student's transcript and will not be used in calculation of the grade point average. Excessive "W's shall, however, be used as factors in progress probation and dismissal procedures. Forms are available from the Admissions and Records Office, Extended Education campuses, or by mail. Students may not drop classes over the phone. Students who have not dropped or withdrawn from a class before the end of the fourteenth week or 75% of the term will be assigned a course grade. Students unable to process transactions in person or via MyShasta may designate another person to process transactions on their behalf by proxy. A proxy form is available at Proxy Form or through the Admissions and Records Office. The form must be signed and returned to the college Admissions and Records Office prior to the transaction.

*Refund deadlines and procedures may vary.

OPEN ACCESS POLICY: The policy of this district is that all courses, course sections, and classes of the District shall be open for enrollment to any person who has been admitted to the college. Enrollment may be subject to any priority system that has been established. Enrollment may be limited to students meeting properly validated prerequisites and corequisites or due to other practical considerations such as exemptions set out in statute or regulation.

PREREQUISITES, COREQUISITES, ADVISORIES, and LIMITATIONS ON ENROLLMENT AND CERTAIN NOTES are indicated as such in this schedule. For a description of these items as they pertain to a particular course, please access one of the following resources:

- Course information available online via MyShasta which can be accessed from the following link: MyShasta Course Information
- Shasta College Course Catalog which can be viewed from the following link: Shasta Course Catalog

REPEATING CLASSES: You will not be able to register for a course you have already attempted three times. Each time you receive a grade for a class, including "W", it counts as an attempt. Students may appeal a fourth enrollment due to a significant lapse of time or due to extenuating circumstances relating to verified cases of accidents, illness, or other circumstance beyond the student's control. If you feel this new policy may affect you, please schedule an appointment to meet with your counselor by calling 242-7724 or your Extended Education Campus. For information on course families, please refer to page 38.

SPECIAL ADMIT FOR CONCURRENT ENROLLMENT: High school students wishing to enroll in Shasta College classes must have permission from their high school principal and follow instructions detailed on the form. Forms are available at local high schools and online at shastacollege.edu/highschoolandbelow. Advance approval of students in 12th grade or lower by the Admissions and Records Office is required before registration. All special admit students should review college assessment placement test requirements as noted on the enrollment form. Course content is not altered for concurrent students and is intended for adults. Shasta College accepts no responsibility for any extraordinary supervision of concurrently enrolled students, and is released from responsibility for the student's class selection.

WAIT-LIST: Each course offered by Shasta College will have a Wait List assigned to it. Wait Lists allow you to be considered for access to a closed course during the first two class meetings of the late registration period. Students are advised to monitor their Wait List status carefully by accessing MyShasta.

For online courses, “first class meeting” refers to the first day that the course is available, normally the first day of the term unless otherwise noted in the schedule. Similarly, "second class meeting" refers to the second day that the course is available.

1. Wait List Registration

If a course in which you are attempting to enroll is full, you have the option of adding yourself to the Wait List. The Wait List is a mechanism whereby a student may be given the opportunity to become registered in a course should a vacancy occur. The Wait List may also be used to create an additional section(s) of the same course should enough students demonstrate the need for the course by adding their names to the list. The creation of an additional section will be at the discretion of the appropriate Dean.

2. Migration from Wait List to Registered

a. If an opening occurs any time **before midnight 5 business days prior to the first day of class**, the first eligible student on the Wait List will automatically be enrolled in the section and sent a notification through email (if available) or US Postal Service accordingly. The student must attend the first class meeting or, in the case of an online course, must log in on the first day of the course. Each subsequent vacancy that occurs will be filled by the next eligible* student on the list and each student will be notified through email (if available) or US Postal Service accordingly. The student must attend the first class meeting or, in the case of an online course, must log in on the first day of the course, at which time registration status will be confirmed by the instructor.
b. If an opening occurs any time after midnight 5 business days prior to the first class meeting and up through the Friday before census day
1) **In a live or Interactive Television/Hybrid course:**  The student must attend the first class meeting. Instructors may choose to provide eligible students with a registration code that will permit them to register from the waitlist. The student should take the code to register in person at the Admissions and Records office BEFORE the last day to add a class or use MyShasta and the code to register online. Click here for instructions on how to enroll into a class using MyShasta. Alternatively, students may complete a registration form, obtain the signature of the instructor on the registration form, and submit it to the Admissions and Records Office or Extended Education campus BEFORE the last day to add a class. Failure to do so will result in the registration being denied by the Admissions and Records Office or Extended Education campus.

2) **In an online course:** A student must send an email to the instructor to be considered for an instructor’s approval for migration from the Wait List. This is the equivalent of showing up on the first day in a face-to-face class. Should a vacancy occur in the course, a student may also receive a notification email from the college indicating that a vacancy in the course exists. At that time, the student must contact the instructor by email requesting permission to register for the course. Instructors may choose to provide eligible students with a registration code that will permit students to register from the waitlist. The student should take the code to register in person at the Admissions and Records office BEFORE the last day to add a class or use MyShasta and the code to register online.

3. Payment is due by midnight of the day of registration.

4. An "ineligible" student is one who will not migrate (as described in 2.a.) from the Wait List into actual course enrollment for any one of the following reasons:
   - The student has not completed the course prerequisite or is not currently registered in the course corequisite.
   - The student has a debt owed to the college incurred during a previous term.
   - The student has been placed on a Wait List for one course that conflicts with a course in which he/she is already registered. Any conflict must be remedied prior to migration.
   - The student has already reached the maximum allowable units prior to the migration without filing a petition for overload.
   - The student does not pass the eligibility rules set up for the registration to occur.
   - The student has already reached the maximum allowable opportunities to repeat the course.
   - A probationary student who has already reached the 13 maximum allowable units.
   - The student is attempting to ‘repeat’ the course and fails to meet the allowed grade requirement.

5. Additional information:
   - It is the student’s responsibility to monitor his/her status on any Wait List, and accept responsibility for any conditions which may prevent migration from the Wait List to registered status.
   - If a student is deemed ineligible to migrate from the Wait List to registered status, the student will not receive official notification.
   - Students who have not met prerequisite requirements or who have exceeded ‘repeat’ limits will not be allowed to place themselves on a Wait List for the respective course.
   - Students who have an outstanding unpaid balance to the college for fees incurred from a previous semester will not be allowed to place themselves on a Wait List.
   - Students will not be able to register for one section of a course and get on the Wait List for another section of the same course.
   - Students can choose to be on no more than one Wait List for different sections of the same course.
   - Students can choose to be added to a Wait List of one course offered at a specific time and be registered in a different course at the same time.
   - Students are able to remove themselves from the Wait List at any time.
   - Should an additional section(s) be created from the Wait List and made available at the same time/day as the original section (as described above), students from the Wait List will be ‘migrated’ to the new section and informed of the new section’s location by the respective division.
   - Students choosing to be added to the Wait List will not be charged the associated enrollment fees until they have actually become registered in the course.
   - Students who have opted to be placed on the Wait List MUST attend the first class meeting.
   - Students who have been placed on the Wait List that do not attend the first class meeting (or, in the case of an online course, fail to submit an email to the instructor on the first day of the course) may forfeit eligibility to register from the Wait List roster or may be deleted from the Wait List roster by the instructor.
   - The Wait List is available up to midnight 5 business days prior to the first class meeting. At that point, students will no longer be able to add themselves to the Wait List. Students’ failure to attend the first class meeting or email internet instructors on the first day of the term will jeopardize their status as “wait-list” candidates.

ENROLLMENT SERVICES

STUDENT SUCCESS AND SUPPORT PROGRAM

The objective of the Student Success and Support Program is to assist students in designing and planning their educational goals. The process begins with admission and ends when the student achieves his/her educational goal.

The California Community Colleges Board of Governors approved changes that will establish system-wide enrollment priorities designed to ensure classes are available for students seeking job training, degree attainment or transfer and to provide incentives to students who make progress toward their educational goals.

New students who have completed college orientation, assessment and developed educational plans as well as continuing students in good standing who have not exceeded 100 degree-applicable units (not including units in basic English, math, or English as a Second Language) will now have priority over students who do not meet the criteria.

Students who are active-duty military, veterans, foster youth, and participants in EOPS, PACE and CalWORKS will continue to have priority registration if they meet the same criteria listed above. We highly encourage students on academic and/or progress probation and those nearing 100 degree-applicable units to seek guidance from a counselor to carefully plan their remaining courses.

Matriculation

Matriculation is defined by the Seymour-Campbell Student Success Act of 2012 as “a process that brings a college and a student into an agreement for the purpose of achieving the student’s educational goals and completing the student’s course of study.” The agreement involves the responsibilities of both the college and student. The Student Success and Support Program includes services to optimize student opportunities to achieve academic success.

The College agrees to provide:

• An admissions application process.
• An orientation to the College’s programs and services.
• Assessment in English, math and reading before course registration.
• Counseling and advisement to develop an educational plan.
• Follow-up evaluation of each student's progress in achieving an educational goal.

The student agrees to:

• Identify an academic and career goal upon application.
• Complete new student orientation, if new to the college.
• Declare a specific course of study after a specified time period of unit accumulation, as defined by the Board of Governors.
• Attend class and work diligently to complete class assignments.
• Complete courses and maintain academic progress toward an educational goal and course of study identified in the Student Educational Plan (SEP).

Community college districts are required to notify students of matriculation requirements and the loss of registration priority if a student fails to fulfill their responsibilities. Information related to this college’s matriculation policies are accessible and available to all students during or prior to enrollment (e.g., during orientation) and are included in class schedules and catalogs. Contact the office of the Dean of Enrollment Services should you have questions regarding student rights and responsibilities.

PETITION APPEAL PROCESS

Students may appeal the loss of priority enrollment status due to extenuating circumstances or if they have a disability and applied for, but did not receive a reasonable accommodation in a timely manner. Extenuating circumstances are verified cases of accidents, illnesses or other circumstances beyond the control of the student. Verification must be submitted with the appeal. Shasta College may exempt from the 100 unit limit category those students enrolled in high unit majors or programs.

Shasta College may also allow students who have demonstrated significant academic improvement to appeal the loss of priority enrollment status. Significant academic improvement is defined as achieving a minimum grade point average of 2.0 and completing more than 50% of units attempted in the student’s most recently completed semester.

The student must file the written petition of appeal before the end of thirty (30) days after a loss of enrollment priority. All appeals shall be submitted to the Admissions and Records Department and will be forwarded to the Priority Registration Appeals Committee. If the student fails to file a written petition within the thirty day time limit, the student waives all future rights to appeal an adverse action for that semester. It is the student's responsibility to indicate on the petition a clear statement of the grounds on which the retention of
enrollment priority should be granted and to provide evidence supporting the reasons. The student will be continued on sanction until the Priority Registration Appeals Committee renders a decision. When a challenge contains an allegation that the district has violated the provisions of section 55522(c), the district shall, upon completion of the challenge procedure established pursuant to this section, advise the student that he or she may file a formal complaint of unlawful discrimination pursuant to subchapter 5 (commencing with section 59300) of chapter 10. Completion of the challenge procedure shall be deemed to be an effort at informal resolution of the complaint.

The Priority Registration Appeals Committee will notify the student of its decision in writing within thirty days of receipt of the student's appeal. The student may appeal this decision in writing to the Superintendent/President or designee within ten (10) working days of the date of notification. The decision of the Superintendent/President or designee is final.

If the loss of enrollment priority appeal is granted, enrollment priority will be reinstated at the next available registration. Prior to the subsequent enrollment period, the student's academic record will again be evaluated to determine enrollment priority status. Priority enrollment will be re-evaluated each term.

Students may be exempt from core matriculation services (orientation, assessment, counseling, or student education plan development) if the student:

1. has received a full array of matriculation services at another California Community College;
2. plans to enroll only in courses having no English and/or Math skill requirements/prerequisites;
3. plans to enroll in fewer than 6 units and who have ‘personal interest,’ advancement in their current jobs, or maintenance of a certificate or license as their goal;
4. has completed an Associate or higher degree and is not pursuing a program or degree objective; or
5. is concurrently enrolled at a four-year college or university and is not pursuing a program or degree objective at Shasta College.
6. is enrolled at the college as a special admit student pursuant to Education Code section 76001.

Any student exempt from core matriculation services may be given the opportunity to participate in those services. Forms are available for this purpose from the Dean of Enrollment Services. Students who are exempted from matriculation services will lose priority registration. Students have the right to refuse matriculation services.

FREQUENTLY ASKED QUESTIONS ABOUT ADVISORIES AND LIMITATIONS ON ENROLLMENT

(Including Prerequisites and Corequisites)

What is an “advisory on recommended preparation”?
Advisories are intended to identify skills which will broaden or deepen a student's learning experience, but without which the student can still succeed in the course. The college does not block enrollment in a course for lack of advisory skills.

Where can I find advisories for each course?
If a class has an advisory, it will be stated as part of the course description in the Catalog, and will be listed with the course in the MyShasta online course listings.

What is a “limitation on enrollment”?
All courses are open to enrollment to any student who has been admitted to the college, with the following exceptions. Title 5 Section 58106 allows the college to limit enrollment in specific courses or programs by using: 1) prerequisites and corequisites; 2) health and safety considerations; 3) practical considerations such as facilities limitations, faculty availability and funding limitations; 4) registration systems such as a first-come-first-served, or priority system; 5) statutory, regulatory, or contractual requirements; 6) auditions and tryouts for intercollegiate competition, honors, or public performances courses; 7) blocks of courses for cohorts of students.

How do I know which classes have limitations on enrollment?
If a class has a limitation on enrollment, it will be specifically stated as part of the course description in the Catalog, and will be listed with the course in the MyShasta online course listings.

What is a “prerequisite” or “corequisite”?
“Prerequisite” means a condition of enrollment that a student is required to meet in order to demonstrate current readiness for enrollment in a course or educational program. (Title 5, Section 55003) Such a condition of enrollment can be a course or other preparation a student must have before being permitted to enroll in a target course. Prerequisites provide the student with knowledge and/or a set of skills that substantially increase a student's success. For example: Introduction to Managerial Accounting (ACCT 4) has a prerequisite of Introduction to Financial Accounting (ACCT 2) with a grade of “C” or higher.

There are two types of corequisites: two-way corequisites and one-way corequisites. A “two-way” corequisite is when two (or more) courses are so intertwined that neither course stands alone. A student would not have a reasonable chance to be successful in either course without being concurrently enrolled in both courses. A “one-way” corequisite is when one of the courses depends on the content of the other course, but not vice-versa. Here, only one course would list the other as a corequisite. Often, with one-way corequisites, if you have previously completed the corequisite course, you may be qualified to enroll in the target course.
Shasta College Fall 2020

Why does Shasta College enforce prerequisites and corequisites?

We are legally required to enforce prerequisites. The Shasta College faculty have carefully selected prerequisites by evaluating the skills and concepts needed for success in a target course. They are intended to ensure that a student has a reasonable chance for success. For these reasons, enforcement of prerequisites is in the best interest of all students.

How can I satisfy a prerequisite?

There are three ways you can satisfy a prerequisite at Shasta College:

1. You received a grade of C or higher in the prerequisite course at Shasta College:
   a) If you completed the prerequisite course with a grade of C or higher, you will be allowed to enroll in the target course (as long as space is available.)
   b) If you are currently enrolled in the prerequisite course at the time of registration, you will be allowed to conditionally enroll in the target course (as long as space is available). However, when grades are submitted at the end of the semester, if you did not receive a grade of C or higher in the prerequisite course, you will be dropped from the target course.

2. You satisfied the prerequisite through Course Equivalency. There are three ways to satisfy a prerequisite through Course Equivalency:
   a) You received a grade of C or higher in an equivalent course at another college.
   b) You have a qualifying score on the AP Exam.
   c) You received CLEP credit for the prerequisite course.

For further information about AP Exam scores and CLEP credit, see a counselor, or refer to the Catalog.

If you believe you have satisfied the prerequisite through Course Equivalency, before registration, you should contact Admissions and Records staff who will direct you through the Course Equivalency Procedure. It is your responsibility to provide supporting documentation, such as transcripts and course description(s) from your previous college(s). You will be allowed to enroll conditionally in the target course for ten working days. If, at the end of ten working days, you cannot provide documentation that you have met the prerequisite through Course Equivalency, then you will be dropped from the course.

3. You satisfied the prerequisite through Multiple Measures. Shasta College recognizes that you may have gained the prerequisite skills for some courses by means other than the two mentioned above. For example, you may have completed high school courses that covered the same topics as the prerequisite course. Or, perhaps you gained the prerequisite skills through work experience. Whatever the means, if you have gained skills that are equivalent to those that you would get by taking the prerequisite course at Shasta College, you should take your supporting documentation to a Shasta College counselor before you try to register. The counselor will direct you through the Multiple Measures Procedure.

   Note: If you are attempting to register in a course that has Math, English or Chemistry as a prerequisite, then part of the Multiple Measures Procedure might include reviewing transcripts or taking an assessment placement test at the Assessment Center. You are free to take the assessment placement test before you see your Counselor.

   Note: Because you will be unable to enroll in the target course until a counselor determines that you have satisfied the prerequisite through Multiple Measures, it is in your best interest to see a counselor before attempting to register for the course.

   Note: If you have a disability and believe that you could be successful in the class with reasonable accommodations then see the Counselor for Disabilities, or Learning Disability Specialist, (530) 242-7790, before attempting to register for the course.

What is a Placement Level Number?

In some cases, such as in Math and English, the prerequisite is stated in terms of a Placement Level. Your Placement Level is a number that is based on many factors which may include high school course work and assessment placement test scores. You will be assigned a Placement Level after completion of the Course Equivalency and/or Multiple Measures process.

Can I challenge a prerequisite or corequisite?

Yes, you can. The five grounds for a student to challenge a prerequisite or corequisite are:

1. The student has the knowledge or ability to succeed in the course or program despite not meeting the prerequisite or corequisite.
2. The prerequisite or corequisite has not been established in accordance with the district’s process for establishing prerequisites and corequisites.
3. The prerequisite or corequisite is in violation of Title 5.
4. The prerequisite or corequisite is either unlawfully discriminatory or is being applied in an unlawfully discriminatory manner.
5. The student will be subject to undue delay in attaining the goal of his or her educational plan because the prerequisite or corequisite course has not been made reasonably available, or accessible. For a full description see Title 5 Section 55201(f).

If you believe you have grounds for filing a challenge, go to the Office of Admissions and Records for information on the Prerequisite Challenge Procedure. If you choose to file a challenge, you have the responsibility of showing that grounds exist for the challenge.

Note: If you are citing reason # 1 as the basis for challenging the prerequisite/corequisite, you must first have failed to meet the prerequisite/corequisite through the Multiple Measures Procedure. You should seek advice regarding the challenge from a Counselor.
PREREQUISITE/COREQUISITE CHALLENGE PROCEDURE

The student will obtain a Prerequisite/Corequisite Challenge Form at the Admissions and Records Office. The Office of Instruction will retain documentation of Board Policy and Title 5 regulations regarding prerequisite/corequisite challenges. A student may review this information prior to submitting a Prerequisite/Corequisite Challenge Form. A student who chooses to challenge a prerequisite or corequisite may do so for any of the following reasons:

1. The student has the knowledge or ability to succeed in the course or program despite not meeting the prerequisite or corequisite.
2. The prerequisite or corequisite has not been established in accordance with the district’s process for establishing prerequisites and corequisites.
3. The prerequisite or corequisite is in violation of Title 5;
4. The prerequisite or corequisite is either unlawfully discriminatory or is being applied in an unlawfully discriminatory manner.
5. The student will be subject to undue delay in attaining the goal of his or her educational plan because the prerequisite or corequisite course has not been made reasonably available, or accessible.

If a student is citing reason #1 as the basis for challenging the prerequisite/corequisite, the student must first have failed to meet the prerequisite/corequisite through the Multiple Measures Procedure.

A statement of specific skills and abilities needed to enter the class for which the challenge is being issued will be made available to the student through the Office of Instruction on any workday.

The student must complete a Prerequisite/Corequisite Challenge Form. The student must attach a completed and signed Multiple Measures Form to the Prerequisite/Corequisite Challenge Form. The student must return these forms along with the other supporting documentation to the Dean of Enrollment Services. The student has the obligation to provide satisfactory evidence that the challenge should be upheld. Without supporting documentation, the application for a challenge will be considered incomplete and the challenge will be denied. When a complete application is filed, the Dean of Enrollment Services will forward the Prerequisite/Corequisite Challenge Form and supporting documentation to the appropriate Academic Division Office. The Academic Division staff will arrange a Challenge Hearing. If the challenge form is submitted during the period when the student is eligible to register for the course, and if space is available, then the student will be conditionally enrolled in the target course until resolution of the challenge is complete. Two or more faculty members will conduct the Challenge Hearing. If possible, the faculty members will be from a discipline closely related to the target course. The student will have the right to attend and speak at the Challenge Hearing. Staff from the appropriate Academic Division Office will attempt to notify the student regarding the time and location of the Challenge Hearing at least one business day prior to the start of that hearing. The results of the Challenge Hearing will be documented and forwarded to the student and to the Admissions and Records Office within five business days from the date that the challenge was filed with the Dean of Enrollment Services. If the College has not made a decision within five working days, then the student’s challenge is upheld and the Admissions and Records Office will allow the student to enroll in the course.

If a student is citing reason #2, #3, #4 or #5 as the basis for challenging the prerequisite/corequisite, the student must submit a completed Prerequisite/Corequisite Challenge Form along with supporting documentation to the Associate Superintendent/Vice President of Instruction in the Office of Instruction.

The student has the obligation to provide satisfactory evidence that the challenge should be upheld. Without supporting documentation, the application for a challenge will be considered incomplete and the challenge will be denied.

When a complete application is filed, the Vice President of Academic Affairs will conduct a Challenge Hearing. This hearing will include, as voting members, the Vice President of Academic Affairs, one faculty from the Curriculum Council, and one other faculty, preferably from a discipline closely related to the target course. The student will have the right to attend and speak at the Challenge Hearing. Staff from the Office of Instruction will attempt to notify the student regarding the time and location of the Challenge Hearing at least one business day prior to the start of that hearing. The results of the Challenge Hearing will be documented and forwarded to the student and to the Admissions and Records Office within five business days from the date of the hearing. If the College has not made a decision within five working days, then the student’s challenge is upheld and the Admissions and Records Office will allow the student to enroll in the course.

Note 1: Students who submit a Prerequisite/Corequisite Challenge Form claiming that a specific disability is a factor in their challenge rationale must forward a copy of the Prerequisite/Corequisite Challenge Form to the Disability Resource Center. The Disability Resource Center will determine if accommodations or academic adjustments are warranted.

Note 2: Students who initiate the challenge procedure during registration may obtain the Prerequisite/Corequisite Challenge Form at the registration site and submit the completed form along with supporting documentation at that site. If space is available, the student will be provisionally enrolled in the target course until resolution of the challenge is complete. Staff at the registration site will time-stamp the form and forward it to the Dean of Enrollment Services or to the Vice President of Academic Affairs, as appropriate. The Challenge Procedure will then proceed as outlined above.

ACADEMIC FREEDOM POLICY

Reference: Title 5, Section 51023; Accreditation Standard 2.2; BP 4030; approved 4/9/03

Controversial issues and divergent viewpoints have existed among men throughout the history of civilization. Only in a constitutional republic such as ours has a high degree of freedom of expression been permitted. There must be freedom of the student and teacher to present their viewpoints in and out of the classroom. American democracy is strong enough to stand on its own merits and to survive criticism and comparison with any system so long as its advantages and virtues are not deliberately slighted in such comparisons. However, an atmosphere of responsibility to the student, the College, the community and the nation must accompany these freedoms. To carry out their mutual responsibilities to each other and to ensure these principles of academic freedom, the Board of Trustees, the administration and faculty agree to support certain guiding principles and procedures as set forth below.

1. The faculty member shall:
   a) Be entitled to freedom of expression in teaching his/her subjects in the classroom. He/she shall encourage fair examination of controversial questions. He/she shall encourage students, by word and example, to form their own opinions based upon critical judgment and documented facts. In his/her presentation of subject matter to his/her students, he/she shall distinguish between objective facts and his/her personal evaluation of facts.
   b) Be supported in his/her right to participate in legal political activities of the community, state and nation during off-duty hours. No disciplinary action may be brought to coerce him/her for political purposes. (Education Code 13004, 13754). He/she shall permit no outside political activities to interfere with his/her academic duties. He/she should always make clear to audiences that the opinions expressed regarding outside political activities are his/her own and not to be taken as necessarily representing the policies of the College. He/she should refrain from making irresponsible statements to any group.
   c) Be ever cognizant that it is illegal to advocate the overthrow of the Government by force (Education Code 9455). He/she should make a clear distinction between the description of such philosophies as might fall in that category and the advocacy of such philosophies.
   d) Emphasize the need for maintaining a level of individual integrity and responsibility consistent with good community relations of the College, when associated with student activities that reach beyond the classroom.
   e) Provide a fair platform for the presentation of facts when outside speakers are invited to the classroom on the campus. Such speakers should be free to speak on topics which are relevant to questions being discussed in the classroom or campus situation. It may, at times, be desirable for the faculty members and administration to provide information and viewpoints to rebut opinions expressed by such speakers in order to encourage critical analysis of the questions discussed.

2. Classroom policy regarding the discussion of controversial issues shall be:
Shasta College Fall 2020

a) That free classroom expression by the instructor and the students be encouraged so long as topics are pertinent to the course being taught. The instructor is careful to be accurate, responsible and aware of the immaturity of some of the students in presenting and discussing controversial topics.

b) That the instructor avoids prejudicial indoctrination. He/she points out to students that there may be other recognized views, and he/she carefully distinguishes between personal opinion and documented fact. He/she avoids imposing his/her opinion regarding controversial topics through the pressure of his/her authority in the classroom.

c) That discussion of religious concepts is free from restraint so long as it is an integral part of the subject being taught and does not become sectarian indoctrination.

d) That the teacher respects the student’s right to differ in opinion in any discussion of controversial issues, without penalty, attack, or reflection in grading.
FIELD TRIP/EXCURSION WAIVERS

Throughout the semester/school year, the District may sponsor off-campus, extra-curricular field trips/excursions. If you choose to participate, be advised that pursuant to California Code of Regulations Sub-Chapter 5, Section 55220, you have agreed to hold the District, its officers, agents and employees harmless from any and all liability or claims which may arise out of or in connection with your participation in the activity.

PRIVACY RIGHTS OF STUDENTS

The Family Educational Rights and Privacy Act (Section 438, Public Law 93-380) requires educational institutions to provide: access to official education records directly related to the student; an opportunity for a hearing to challenge such records on the grounds that they are inaccurate, misleading, or otherwise inappropriate; that the college must obtain written consent of the student before releasing personally identifiable information about them from records to other than a specified list of persons and agencies; and that these rights extend to present and former students of the college.

1. Education records generally include documents and information related to admission, enrollment in classes, and grades and related information.
2. The Dean of Enrollment Services has been designated “Records Officer”, as required by the Act.
3. Education records will be made available for inspection and review during working hours, by presently and formerly enrolled students, within 45 days following completion and filing of a request form with the Records Officer.
4. A student may challenge the accuracy of his/her educational records and request that the Records Officer make appropriate corrections. If these informal proceedings do not settle the dispute with the student’s records, the student may submit an appeal in writing to the “Designated Officer”, the Vice President of Student Services, on forms provided by the office. The Designated Officer will then assign the matter within 10 school days to a “Hearing Officer,” who is the chair of the Scholastic Standards Committee.
5. During the informal proceedings, the Records Officer may make such adjustments or changes not constituting interference of integrity of professional entries. The Hearing Officer will set a date for the hearing, at the conclusion of which he/she will render a decision to the President of the college who will make the final decision of what action is to be taken.
6. The college may release certain types of “Directory Information”, unless the student submits in writing to the Records Officer that certain or all such information not be released without his/her consent. Directory Information at Shasta College includes: (1) student name and city of residence; (2) participation in recognized activities and sports; (3) dates of attendance; (4) degrees and awards received; and (5) the most recent previous education agency or institution attended, and height and weight of members of athletic teams which may be released only by the appropriate athletic staff member or the Dean of the area. In addition to the above-stated Directory Information, the college may also report student name, address, telephone number, date of birth, level of education, and major to the federal government, including military recruiting agencies in accordance with Public Law 104-208 and 104-206 (Solomon Amendment). Individuals requesting Directory Information must specify student’s complete name(s) and any other personally identifiable information that will assist the college to identify the student and research the requested information.
7. Student consent is needed for the release of any non-directory information/records covered by the Act to outside parties (for example: prospective employers) except for those agencies entitled to access under the provisions of the Act (for example: campus officials, other schools, federal educational and auditing officials, and requests in connection with the application or receipt of financial aid).
8. Students have the right to refuse to allow the college to designate information as directory information which could be disclosed to outside entities. Students must notify the Dean of Enrollment Services in writing by the Friday before census day of the fall or spring semesters if the student does not want information designated as directory information. This deadline is the student’s only way to prevent the release of directory information.

A copy of the College Board Policy 5040 and other pertinent information are available for review and inspection in the Dean of Enrollment Services office.

STUDENT RESPONSIBILITIES AND STUDENT RIGHTS

Student Responsibilities:

1. Students, upon admission to the college, are required to express at least a broad educational goal and declare a specific major within a reasonable period of time after admission.
2. Students are expected to diligently attend class and complete courses.
3. Students are expected to maintain progress toward an educational goal.

Student Rights:

1. All students, even those who are exempt, have the right to participate in the matriculation component(s) of their choosing.
2. Students may enroll in any course for which they can meet necessary and valid prerequisites.
3. Students have the right to request a waiver of a prerequisite that is not valid.
TRANSPORTATION NOTICE

Some classes may be held off campus. Unless you are specifically advised otherwise, you are responsible for arranging for transportation to and from the class site. Although the District may assist in coordinating the transportation and/or recommend travel time, route or caravanning, be advised that the District assumes no liability or responsibility for the transportation, and any person driving a personal vehicle is NOT an agent of the District.
