**Connecting to the Global Connect VPN Client**

The following steps will walk you through connecting to the Global Protect VPN client on your laptop. If you have any questions or run in to any issues, please submit a help ticket at: http://shastacollege.sysaidit.com
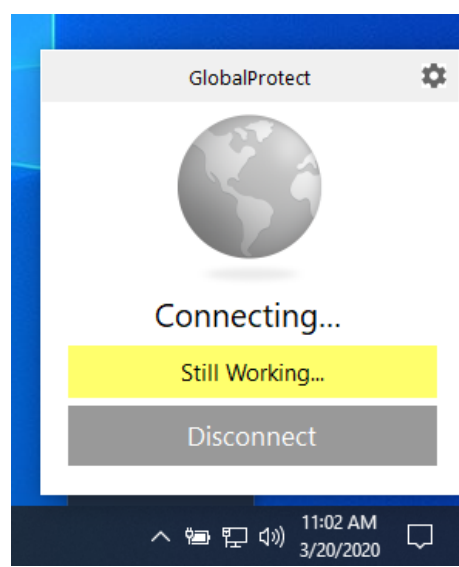

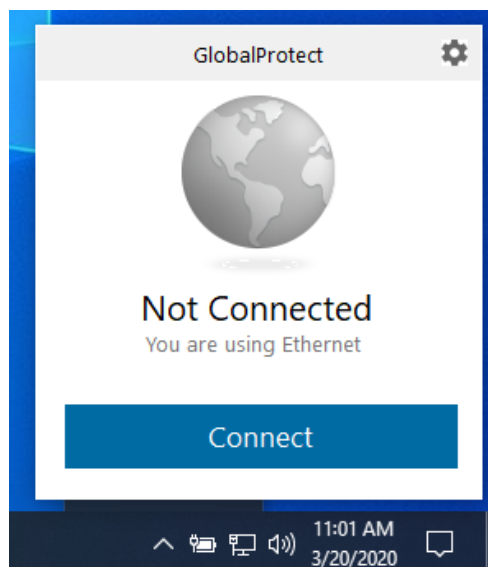

Step 1:

Login and connect to your personal INTERNET.

Step 2:

Next access it by clicking on the logo in the system tray.

Step 3: When you click on the icon you will be presented with the screen below. Click "Connect" and then wait for a successful connection to display.
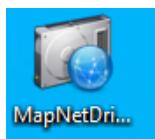

Step 4: Once you are successfully connected, the icon in your system tray will turn from gray to

a colored globe with a check mark; see below.

Step 5: Next go to your desktop to and click on the icon app that say's MapNetDrive (see below).

Double click to open on and let it run.

Step 5: Once it says:

I: drive is connected

H: drive is connected

Click okay and start working :)
