**Attendance:** Sara McCurry, Kari Aranbul, William Breitbach, Brian Busk, Benjamin Daw, Jeff Hendrickson, Carolyn Singh, and Kylee Duran-Cox

1. Call to order 4:03
2. Approval of Minutes—Thursday, November 29<sup>th</sup>, 2018

Motioned by KDC/2<sup>nd</sup> JH. Approved.

3. Opportunity for Public Comment  
No public comments

4. News/Reports

[SLO Co-Coordinator's report:](#)

## **IAP approved by College Council**

Discussion about how the information could be shared with faculty. SLO Coordinators are working on a Canvas shell – that is one way. Sara will also send out to all faculty via email.

## **Report from ASCCC 6<sup>th</sup> Annual SLO Symposium**

SLO Coordinators attended the symposium and met with vendors to learn about assessment management options. Sara indicated the people who used eLumen were happy with the customer support. Sara proceeded to give an overview of some of the other things that she learned from the conference.

## **PLO mini-grant project timeline update**

Sara will be following up with faculty soon to give an update on the PLO mini grant.

## **Report from November 30<sup>th</sup> eLumen demo**

The demo indicated that the system could meet the needs of the IAP. A transition would be labor intensive but probably worth the effort if we do it correctly. We don't want to invest all of this effort into a new system and have it not be successful. Sara suggested that we request a demo and invite all faculty.

## **ISLO assessments Spring 2019:**

- Information Competency is ready to launch.
- Workplace Skill will be assessed using Worksite Learning Data – Spring or Summer 2019
- Self-Efficacy will be assessed with the CCSSE .
- Timeline for other ISLOs is under development

### **5. Discussion/Action Items**

- i. Spring FLEX opportunities, SLO-related activities?

Brief discussion on how the committee is going to support outcomes work among faculty this term. AMS demo and other workshops were discussed. For FLEX day, SLO committee discussed various options for regularizing support for learning outcomes work. Sara will set date for eLumen demo and notify faculty.

### **6. Other**

7.

## **Reflection Year Data Collection**

Some discussion of how to collect data for reflection year results. One idea is to use Office 365. SLO Co- Chairs will work with Will to draft form in Office 365.

There was a invitation from Sara for other SLO committee members to be active in work outside the formal meetings.

Adjournment – 5:03
