

In the interest of your own personal safety and the safety of your patients there are significant requirements that must be met before your admission to the program is finalized. The attendance requirements and stamina demands on the dental hygiene student require student hygienists to be in good physical and mental health. Please read this form carefully and initial each technical issue standard if you can comply with the standard. When complete, please sign date and return original in your Pre-Enrollment Clinical Requirement Packet. **Note: This is a self-assessment – to be completed by you, not a health care provider. Applicants must present a copy of their completed Technical Standards to their healthcare provider for review at the time of the physical examination. Please see the Dean or Program Director if you require an accommodation or cannot comply with the standard.**

Issue	Description	Standard/Physical Requirement	Initials
Mobility	Physical ability, strength and stamina	Standard work day requires various abilities including standing, walking, sitting, bending, flexing, lifting, twisting, stooping, kneeling, reaching and stretching to gather and stock supplies, operate equipment (office and dental), and perform required functions of patient oral care.
