ECONOMIC AND WORKFORCE DEVELOPMENT (EWD)

The Economic and Workforce Development (EWD) Division at Shasta College is an integral part of the California Community College system, investing funding and resources in industry sectors that are key to California's economic growth. The goal is to invest in the skills of California's workforce – now and in the future – through partnerships with the K-12 system, local businesses, and industry partners that result in highly specialized industry training, technical consulting, and business development. Adult Education: Through its adult education programs, California offers learners a diverse range of knowledge and skills necessary to participate effectively as citizens, workers, parents, and family and community members. Adult education has been an important part of California's education system since the early years of statehood. The California Adult Education Program (CAEP) is a statewide initiative between the California Community College Chancellor's Office (CCCCO) and the California Department of Education (CDE) to implement regional plans for California adult education under AB104. Shasta College was approved to be the fiscal agent between all participating members within the three-county region. All members consist of various K-12 Districts, County Offices of Education and Shasta College. CAEP funds are used to assist non-credit students in various pathways leading to educational goals and sustainable employment opportunities.

The Shasta-Tehama-Trinity Adult Education Consortium (STTAEC), using the brand name Better.Jobs, works collaboratively with various community and educational partners to create, expand and streamline educational programming for adults (18+) interested in training in one or more of these areas:

1. Basic skills, GED, High School diploma/equivalency

Hire Up Pilot Program The Hire Up Program is tailored to offer financial support to students who were formerly incarcerated, CalWORKs recipients, or former foster youth. The program provides a financial boost for students' college journey through stipends meant to assist with their college-related expenses. The objective is to relieve financial stress during students' college experience, allowing them to concentrate more on their academic pursuits. The stipends are equivalent to an hourly wage and are dependent on the number of units students are currently enrolled in and align with their educational plan.

based learning opportunities and facilitate job placement for community college students, with a focus on supporting disproportionately impacted (DI) communities. They develop strategic work plans with clear objectives and measurable outcomes to recruit employers for internships, job placements, and work-based learning activities such as tours and classroom engagements. Collaborating with faculty, they integrate these opportunities into academic programs and ensure that students are connected with resources that enhance their career readiness. In addition, the DEPs prioritize job placement by partnering with career centers, faculty, and employers to match upcoming graduates with aligned job openings. They support employers in posting positions on job platforms, oversee case management for graduates, and track employment outcomes. To improve employer responsiveness, they engage in program development, apprenticeship initiatives, and training, while maintaining regular communication to address.

JEANNE CLERY CAMPUS CRIME STATISTICS (CLERY ACT)

In 1990, Congress enacted the Crime Awareness and Campus Security Act (Title II of Public Law 101-542) which amended the Higher Education Act of 1965 (HEA). This act required all postsecondary institutions participating in HEA's Title IV student financial assistance programs to disclose crime statistics and security information. Amendments to the act were made in 1992, 1998, 2000, 2008, and 2013. The 1998 amendment renamed the law to the Jeanne Clery Disclosure of Campus Security Policy and Campus Crimes Statistics Act in memory of a student slain in her dorm room in 1986 and is referred to as the Jeanne Clery Act or Clery Act.

The Clery Act provides students, their families and Shasta College faculty and employees with accurate, complete, and timely information about safety on campuses so that they can make informed decisions. Shasta College complies with the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act (Clery Act) 20 USC § 1092(f). The Shasta College Annual Security Report (ASR) is provided to help ensure a safe environment for our college community and prospective students and employees. This document contains statistics for the previous three years concerning reported crimes that occurred on campus, non-campus property used for educational purposes, and on public property immediately adjacent to and accessible from the campus as well as fires that occurred in on-campus housing facilities. Additionally, the report provides valuable safety and security information including descriptions of the campus safety programs and policies, information regarding safety notification and emergency response procedures, missing student notification procedures, campus law enforcement, sexual assault, domestic violence and stalking prevention programs, and fire safety programs.

A complete copy of the ASR may be obtained from the Campus Safety Office located in Room 6500. Students are notified of the report availability via e-mail, web site, and new student orientations. Faculty and staff receive notification via e-mail or campus mail. A printed copy of the report may be requested from the Campus Safety office Monday through Friday 8:00 a.m. to 5:00 p.m., excluding holidays. Prospective employees may obtain a printed copy from Human Resources. The report is also available through our Campus Safety website: www.shastacollege.edu/asr and can be downloaded in PDF form.

ACADEMIC FREEDOM POLICY

Reference: Title 5, Section 51023; Accreditation Standard 2.2; BP 4030; approved 4/9/03

Controversial issues and divergent viewpoints have existed among men throughout the history of civilization. Only in a constitutional republic such as ours has a high degree of freedom of expression been permitted. There must be freedom of the student and teacher to present their viewpoints in and out of the classroom. American democracy is strong enough to stand on its

Summer 2026

own merits and to survive criticism and comparison with any system so long as its advantages and virtues are not deliberately slighted in such comparisons. However, an atmosphere of responsibility to the student, the College, the community and the nation must accompany these freedoms. To carry out their mutual responsibilities to each other and to ensure these principles of academic freedom, the Board of Trustees, the administration and faculty agree to support certain guiding principles and procedures as set forth below.

1. The faculty member shall:

- a) Be entitled to freedom of expression in teaching his/her subjects in the classroom. He/she shall encourage fair examination of controversial questions. He/she shall encourage students, by word and example, to form their own opinions based upon critical judgment and documented facts. In his/her presentation of subject matter to his/her students, he/she shall distinguish between objective facts and his/her personal evaluation of facts.
- b) Be supported in his/her right to participate in legal political activities of the community, state and nation during off-duty hours. No disciplinary action may be brought to coerce him/her for political purposes. (Education Code 13004, 13754). He/she shall permit no outside political activities to interfere with his/her academic duties. He/she should always make clear to audiences that the opinions expressed regarding outside political activities are his/her own and not to be taken as necessarily representing the policies of the College. He/she should refrain from making irresponsible statements to any group.
- c) Be ever cognizant that it is illegal to advocate the overthrow of the Government by force (Education Code 9455). He/she should make a clear distinction between the description of such philosophies as might fall in that category and the advocacy of such philosophies.
- d) Emphasize the need for maintaining a level of individual integrity and responsibility consistent with good community relations of the College, when associated with student activities that reach beyond the classroom.
- e) Provide a fair platform for the presentation of facts when outside speakers are invited to the classroom on the campus.

Such speakers should be free to speak on topics which are relevant to questions being discussed in the classroom or campus situation. It may, at times, be desirable for the faculty members and administration to provide information and viewpoints to rebut opinions expressed by such speakers in order to encourage critical analysis of the questions discussed.

2. Classroom policy regarding the discussion of controversial issues shall be:

- a) That free classroom expression by the instructor and the students be encouraged so long as topics are pertinent to the course being taught. The instructor is careful to be accurate, responsible and aware of the immaturity of some of the students in presenting and discussing controversial topics.
- b) That the instructor avoids prejudicial indoctrination. He/she points out to students that there may be other recognized views, and he/she carefully distinguishes between personal opinion and documented fact. He/she avoids imposing his/her opinion regarding controversial topics through the pressure of his/her authority in the classroom.
- c) That discussion of religious concepts is free from restraint so long as it is an integral part of the subject being taught and does not become sectarian indoctrination.
- d) That the teacher respects the student's right to differ in opinion in any discussion of controversial issues, without penalty, attack, or reflection in grading.

FIELD TRIP/EXCURSION WAIVERS

Throughout the semester/school year, the District may sponsor off-campus, extra-curricular field trips/excursions. If you choose to participate, be advised that pursuant to California Code of Regulations Sub-Chapter 5, Section 55220, you have agreed to hold the District, its officers, agents and employees harmless from any and all liability or claims which may arise out of or in connection with your participation in the activity.

PRIVACY RIGHTS OF STUDENTS

The Family Educational Rights and Privacy Act (Section 438, Public Law 93-380) requires educational institutions to provide: access to official education records directly related to the student; an opportunity for a hearing to challenge such records on the grounds that they are inaccurate, misleading, or otherwise inappropriate; that the college must obtain written consent of the student before releasing personally identifiable information about them from records to other than a specified list of persons and agencies; and that these rights extend to present and former students of the college.

1. Education records generally include documents and information related to admission, enrollment in classes, and grades

Summer 2026

and related information.

2. The Dean of Enrollment Services has been designated "Records Officer", as required by the Act.
3. Education records will be made available for inspection and review during working hours, by presently and formerly enrolled students, within 45 days following completion and filing of a request form with the Records Officer.
4. A student may challenge the accuracy of his/her educational records and request that the Records Officer make appropriate corrections. If these informal proceedings do not settle the dispute with the student's records, the student may submit an appeal in writing to the "Designated Officer", the Vice President of Student Services, on forms provided by the office. The Designated Officer will then assign the matter within 10 school days to a "Hearing Officer," who is the chair of the Scholastic Standards Committee.
5. During the informal proceedings, the Records Officer may make such adjustments or changes not constituting interference of integrity of professional entries. The Hearing Officer will set a date for the hearing, at the conclusion of which he/she will render a decision to the President of the college who will make the final decision of what action is to be taken.
6. The college may release certain types of "Directory Information", unless the student submits in writing to the Records Officer that certain or all such information not be released without his/her consent. Directory Information at Shasta College includes:

(1) student name and city of residence; (2) participation in recognized activities and sports; (3) dates of attendance; (4) degrees and awards received; and (5) the most recent previous education agency or institution attended, and height and weight of members of athletic teams which may be released only by the appropriate athletic staff member or the Dean of the area. In addition to the above- stated Directory Information, the college may also report student name, address, telephone number, date of birth, level of education, and major to the federal government, including military recruiting agencies in accordance with Public Law 104-208 and 104-206

(Solomon Amendment). Individuals requesting Directory Information must specify student's complete name(s) and any other personally identifiable information that will assist the college to identify the student and research the requested information.

7. Student consent is needed for the release of any non-directory information/records covered by the Act to outside parties (for example: prospective employers) except for those agencies entitled to access under the provisions of the Act (for example: campus officials, other schools, federal educational and auditing officials, and requests in connection with the application or receipt of financial aid).
8. Students have the right to refuse to allow the college to designate information as directory information which could be disclosed to outside entities. Students must notify the Dean of Enrollment Services in writing by the Friday before census day of the fall or spring semesters if the student does not want information designated as directory information. This deadline is the student's only way to prevent the release of directory information.

A copy of the College Board Policy 5040 and other pertinent information are available for review and inspection in the Dean of Enrollment Services office.

STUDENT RESPONSIBILITIES AND STUDENT RIGHTS

Student Responsibilities:

1. Students, upon admission to the college, are required to express at least a broad educational goal and declare a specific major within a reasonable period of time after admission.
2. Students are expected to diligently attend class and complete courses.
3. Students are expected to maintain progress toward an educational goal.

Student Rights:

1. All students, even those who are exempt, have the right to participate in the matriculation component(s) of their choosing.
2. Students may enroll in any course for which they can meet necessary and valid prerequisites.
3. Students have the right to request a waiver of a prerequisite that is not valid.

Summer 2026
